Spray types

An unrivalled shower experience thanks to gently enveloping micro-droplets.

Intense jet of micro-fine droplets for sensational showering.

Full rain shower, ideal for washing hair.

An intensely invigorating water flow

Intensive shower rain that refreshes and rejuvenates.

Gentle shower rain with air-enriched drops.

Large jet envelops your whole body in soft droplets.

A soft water spray that caresses the body for that feel-good sensation.

Targeted spray, for a soothing shower experience.

A powerful and invigorating massage spray.

Concentrated targeted massage spray.

The harmonious combination of gentle shower drops and dynamic spray.

Boosts energy after a challenging day.

A harmonious combination of soft shower rain and a dynamic spray.

shower rain, ideal for washing hair.

An intense jet of water that activates and wakes you up.

Powerful flood jet for generous coverage.

Generous flow of soft sprays.

Full shower spray for rinsing off dirt and shampoo.

For legs and sensitive areas.

A soft spray, ideal for gently cleaning paws.

Crystal clear and economical, without added air. Ideal for quickly filling large containers, and preventing splashing.

Ventilated jet thanks to AirPower technology. Fuller, lighter and softer droplets for a truly unique water spray.

Economical and cleansing. Also perfect for fast spraying at the sink.

The soft, flat spray is splash-free, making it highly efficient at saving water.

Technologies

Simply regulates the water flow at the touch of a button: a convenient way to turn the shower on and off or switch between spray modes.

Reduces the flow rate to save water and energy. For long-lasting pleasure.

Combines water with a generous amount of air. For a soft, splashfree water spray and rich, full shower drops.

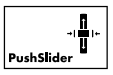
Wipe limescale deposits away easily by rubbing your finger over the flexible silicone nubs.

Easy and fast cleaning and maintenance of surfaces.

Distributes the water over the large spray face enveloping the whole body in drops of wellbeing.

With the adjustable shower head, the water jet can be adjusted individually.

Fast drainage of shower to reduce the dripping time.

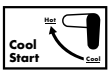


With just one hand, the shower holder can be freely adjusted in height at the touch of a button. For a safe and comfortable shower experience.

Easy water control: with the control dial the water flow can be adjusted easily.

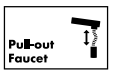
Cools through the controlled flow of cold water to stop the product getting hot. For even safer showering.

The bath spout can be neatly stored underneath the thermostat when not in use. A truly aesthetical solution for safety and mobility.



Cold water starts to flow when it is opened in the basic setting. You consume hot water only when you need it.

Defines the useable area between washstand and mixer. Something to suit every customer.

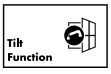


Highest flexibility by pullout function.

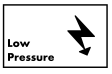
Like many motion detectors, the sensor reacts to changes in infrared radiation. As soon as it detects the warmth of the hand, water will flow.

Defines the height, side clearance and – with the pull-out function – the length of the space around the mixer.

The hose extends quietly and smoothly from the base cabinet by up to 76 cm.



The kitchen tap can be quickly removed from its holder and lowered so you can easily open the window inwards.



Low pressure fitting for cold water pipe with boiler/heat storage.

Assembly possible both with included glue-kit and screws.

All accessories can be easily clicked onto the wall bar and removed from it.

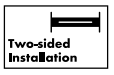
Variable installation depth of finish set for an individual look.

For flush integration into the adjacent area.

Water damage protection via water proof basic set and preassembled sealing membrane.

In-floor installation as design highlight.

Wallbound installation for comfortable use of space.



Installation adapted to the integration between two walls.

Minimalistic installation against back and side walls.

Drain can be cut to length. For optimal adaptation to the installation surrounding.

High capacity drain.

Comfortable cleaning of the siphon.

You can increase the amount of water in a targeted way when needed.

Meet the beauty of water

The new meaning of 'home'
Over the past year, many of us have come to realise the importance of home providing a place of relaxation and retreat. As a company, we know we are providing something truly fundamental to our customers: a home filled with beauty and quality, a place of escape from the outside world. Whatever happens, we are – and always will – be by your side.

Innovations to bring your business to life
This year, we're introducing a range of exciting new products that deliver on our guiding principles: **innovation, design, quality** and **responsibility**. We offer solutions to every need, by developing cutting-edge products to suit every lifestyle. Meet Pulsify, the shower that offers a completely new experience in any sized bathroom, thanks to the innovative PowderRain spray. Or Finoris, the tap that gives a new freedom of movement in the bathroom. Innovation continues with the multi-sensory shower experience RainTunes*, the fun Jocolino children's shower, the flexible WallStoris storage system and the RainDrain shower channels.

Designed for people
hansgrohe is a brand for life. Whether you are looking for a moment of calm or refreshment, every product we make is designed to make life easier. Our products are not one-off ideas but comprehensive solutions, destined to become integral to everyday life. It's this that defines our brand: our focus on people.

*RainTunes is not available worldwide

hansgrohe – our past informs our future

hansgrohe is a company steeped in tradition. It was founded by Hans Grohe in 1901, with a small metalwork shop in Schiltach, the Black Forest. Today, you will still find our Innovation Centre and corporate headquarters there. The hansgrohe brand has an international reputation for excellence, thanks largely to the commitment of its people. Each employee is passionate about water, but it's our expertise which really set us apart as a company. These qualities have resulted in revolutionary bathroom innovations and pioneering water-saving technologies, yesterday, today and tomorrow.

In 1901, Hans Grohe founded his metalwork business. He was a visionary, recognising the changing role of the bathroom in the home (despite it being a fairly new concept to most at the time).

Hand shower
The first shower with a white porcelain handle. This hansgrohe innovation made showering affordable for many households for the first time.

Shower bar Unica
Thanks to this revolutionary idea, hand showers could be mounted at a required height

Tribel
First design award winning hand shower in many colours and with three spray types.

ALLEGROH
The first mixer with the new lever handle, swivel spout and innovative ball mix technique.

iBox universal
First and only basic set for all standard and thermostat solutions – a revolution in concealed installation.

Raindance
The first hand shower with an XXL shower head, flat silhouette and short handle. The all-rounder becomes a trendsetter.

New milestones in bathroom innovation

FinishPlus
High-quality finishes provide a variety of design options.

PowderRain
A unique shower experience thanks to the soft caress of micro droplets.

RainTunes*
We combine water with sound, light, imagery and fragrance into one holistic wellness experience.

* RainTunes is not available worldwide

Innovation – driving our business and yours

Whether in a new build or renovation, clever products and state-of-the-art technologies will keep you ahead of the competition. Hansgrohe SE registers hundreds of new designs, patents and brands every year, holding 15,000 patents to date. It's the reason we're considered pioneers in the industry. We combine top technical performance with a focus on the needs and enjoyment of the customer. With hansgrohe, you can have confidence that you have technological innovation on your side.

Our own research and development laboratory

We believe every part of a product is important. From the look, functionality and material of a shower, to the sound it makes as water flows. In our in-house spray laboratory, acoustic experts tirelessly research the perfect water sound. This attention to detail is reflected in over 15,000 active patents. The result is that customers around the world can enjoy more comfort and relaxation in the bathroom.

The right spray type for every shower

Different people require different things from the shower. Some look for a relaxing time-out from the world, while others want an energising, refreshing shower experience. Whatever your customers are looking for, with hansgrohe you will find the right spray type. PowderRain is one such spray, enveloping the body in thousands of ultra-fine droplets and creating a delicate cocoon of water. Our experts have used all of their knowledge to ensure quiet operation, and the result is a sensual, whisper-quiet home spa experience.

Technologies that inspire

The best products enrich people's lives, bringing more comfort and enjoyment. And sometimes, it's the smallest technologies that make the difference. hansgrohe's Select is just one button that brings a new ease of use to the bathroom. Or QuickClean, the clever anti-limescale solution. hansgrohe technologies make taps and showers enjoyable to use and easy to clean.

Design – collaborating for excellence

Elegant functionality appeals to both the heart and mind, and it's something we specialise in. Our products are consistently award-winning, outlasting fads and instead providing long-lasting value, whether they are found in the home or in a world famous hotel. With over 30 years of collaboration with Phoenix Design, hansgrohe is a leader within the industry, with more than 600 awards collected for our design achievements.

More than 600 awards

Quality – the highest standards for the longest product life

Install a hansgrohe product, and you know it will be enjoyed for years to come. Offering customers the highest quality at all times is a fundamental part of our philosophy. We have been manufacturing bathroom and kitchen products for over 120 years, and we are proud of our intensive quality control processes, practiced around the world.

Our reliability goes one step further: we offer our end users a five year* manufacturer's guarantee on our products.

This manufacturer's guarantee goes far beyond statutory requirements. With this, we provide our sales partners with yet another advantage of using hansgrohe over other brands. We also ensure that we provide assistance to our specialist partners when applying this manufacturer's guarantee.

Your customer will also benefit from the fifteen year parts availability guarantee, which ensures the security of their investment even after a product is phased out.

hansgrohe produces incredibly advanced technology, but the measurement of quality is a very human endeavour. That's why every single product is carefully checked by human hands before it leaves our factory.

hansgrohe guarantee and availability guarantee

* This guarantee applies to all hansgrohe products, with the exception of the products listed under II b on **https://www.hansgrohe.com.sg/terms-of-conditions**

Service – a partnership you can rely on

You deliver your best on each job and need a partner you can rely on. As a trade partner, hansgrohe is here to support you. Through hansgrohe, you can contact experienced plumbers to help you with even the most complex problems – anytime, anywhere. We also provide brochures, videos and online webinars to help you keep your skills up-to-date and provide the best service for your customers.

We keep you up-to-date – on hansgrohe product innovations, marketing and sales campaigns, seminars, events and company news. Whether you're from a trade, craftsman or project management background, register here to always stay in the know.

Your success is our success

On our partners website you'll find many additional services, such as delivery information, online spare parts catalogue, dimensional drawings and 3D data, price lists and Building Information Modelling (BIM) data for most software applications and marketing tools. This means you can access it at any time, whether you're out and about or with a customer.
pro.hansgrohe.com.sg

Taking responsibility – acting sustainably

We focus on three areas of accountability: **responsible management, social action** and **ecological awareness**. We believe this is the only way to be successful, both now and in the future. This is something we put into practice worldwide, and have been doing so for many years. This includes ensuring we have an environmentally conscious production process, and mindfully employing people and other resources.

Klaus Grohe, the founder's son, was an ardent campaigner for sustainability from an early age. He ensured that environmentally-conscious thinking was a core principle at Hansgrohe. As early as 1987, Hansgrohe was one of the first to bring a water-saving shower to the market. From this point on, many projects were undertaken to ensure environmentally and resource-friendly production in our factories.

At Hansgrohe, we are in the process of taking giant steps forward to help minimise climate change. By 2030, our aim is to make the entire company, including our products, climate neutral. To implement this, we carefully choose our raw materials, packaging and logistics based on their climate impact.

Simply calculate potential savings

With our water saving calculator, it's easy to see the amount of water that could potentially be saved with our environmentally-friendly EcoSmart technology. It's useful for both large and small customers, showing instantly the products that will help conserve our most valuable resource.

Sports sponsorship – teaming premium athletes with premium products

hansgrohe has been the official title sponsor of the world class cycling team BORA-hansgrohe since 2017. We share the same values and have a similarly global reach: with this international dream team of 29 athletes from ten nations, hansgrohe has helped them to compete in 140 countries around the world. As brand ambassadors, the athletes are on the road for almost 300 days a year.

In 2019, BORA-hansgrohe was the second ranked team in the UCI WorldTour. A highlight of 2021 was the top German team winning the points classification at the Giro d'Italia – largely thanks to superstar Peter Sagan, who won the famous "Maglia Ciclamino" jersey. Find out where, when and who is in the starting position on the website and via social media from hansgrohe and the BORA-hansgrohe team.

More indulgence with a range spray types by hansgrohe

Spray types – relax or energise with every shower

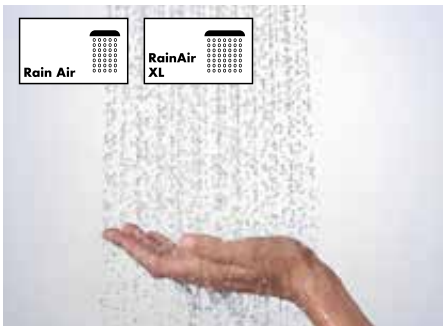
Different people require different things from the shower. Some look for a relaxing time-out from the world, while others want an energising, refreshing shower experience. Whatever your customers are looking for, with hansgrohe you will find the right hand and overhead shower, with the right spray type. Products featuring our Select technology provide particular convenience for your customers.

PowderRain
Revolutionise your daily shower experience with Powder- Rain and transform your bathroom into an oasis of relaxation. Instead of only one jet outlet per nozzle, PowderRain has up to five openings that create thousands of fine and silky micro-droplets that envelope your body.

Intense PowderRain
Intense jets of fine micro-droplets for sensational showering. Intense PowderRain is extraordinarily effective as the number of droplets has been substantially increased to produce an intense, yet velvety soft spray.

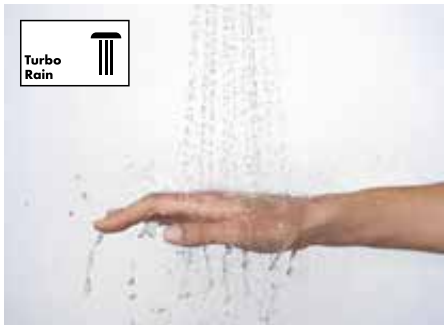
Simply scan the code and experience the spray patterns in the video.

Rain
Despite the smaller nozzles on the hand shower and overhead shower, the performance of both are consistently excellent. The Rain spray invigorates and refreshes, making rinsing out shampoo quick and easy.

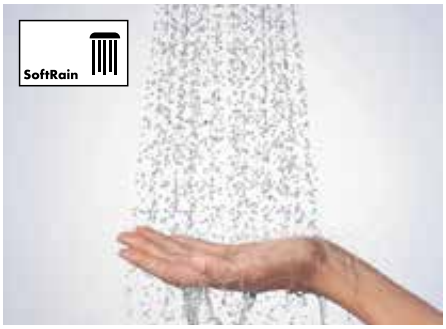


RainAir and RainAir XL
Relaxing shower rain, which is enriched with air inside the shower head. This makes the water feel exceptionally soft and plump, covering your body with soft beads of water and enveloping you to create a sense of well-being. It's a spray most loved by pleasure seekers.

IntenseRain
It's not just shampoo you can rinse away with ease thanks to IntenseRain water spray. It's perfect for setting yourself up for the day too: wash morning tiredness down the drain – for a refreshing start to the day.



TurboRain
The all-purpose tool for quick, straightforward results: TurboRain is the most powerful of our Rain spray modes and lives up to its name every time.

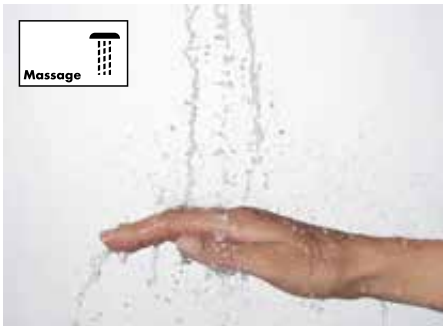


SoftRain
The gentle SoftRain spray is a treat for soul and skin, whether it's a quick daily shower or a pampering evening indulgence.

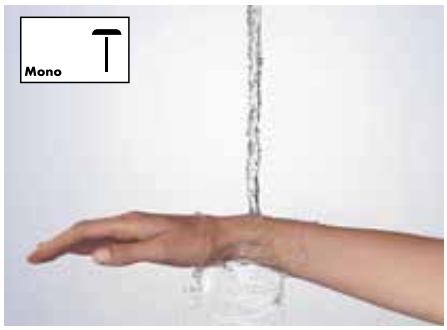
Mix
Simultaneously gentle and dynamic. The mix spray combines the rich, soft RainAir spray with the strong, revitalising CaresseAir spray. Soft drops envelop your body, while a warm jet massages the skin. It's a dream combination for daily showering pleasure.

Whirl
A swirling massage spray, which showers away the stresses of the day. This relieves tension, primarily in the neck area and shoulders. The rotating helix jet wanders over the skin, just like a masseur's fingers. The ideal choice for relieving stress or giving yourself a spa-like treatment after playing sport.

CaresseAir
Five strong single sprays combine in a pleasantly revitalising and powerful massage. It's just the thing for post-exercise or after a hard day at work – good as new in minutes.



Massage
A concentrated spray that relieves the stress of everyday life, easing areas of tension. The innovative ring-shaped spray creates an at-home wellness experience like no other.



Mono
A targeted, soothing spray from the centre of the shower-head. The Mono jet's lightness helps you to unwind, making it a perfect spray for relaxing.

RainFlow
An overhead shower with RainFlow creates a waterfall in the bathroom. The effect is a cascade of water on the neck and shoulders, easing tension and bringing total relaxation.

RainStream
The new single sparkling RainStream spray is a crowning achievement for the hansgrohe R&D team. These special overhead shower sprays remain revitalising and intense from head to toe, giving a consistent experience however tall you are.

You'll find videos on all the spray types at **youtube.com/hansgrohe**

Our experience means more efficiency in the bathroom

Technology — providing the ultimate ease of use for your customers

Select

Because sometimes pressing is easier than turning. With our innovative Select technology, a simple touch of a button on the shower or shower control is all it takes to change the spray mode or turn the water on/off for even more comfort while showering, no matter your age.

- Intuitive control at the touch of a button
- Suitable for all age groups
- Mechanical construction for permanent functional safety
- Temperature can be pre-set
- Can even be operated with your elbow or arm

The idea: a button instead of a lever at the sink. The mechanical Select button simplifies everyday routines, and is robust enough to stand the rigours of everyday life, as our longterm testing proves.
These small changes can have a large impact on how convenient a product is to use, and make them ideal for a multi-generational household.

EcoSmart

Thanks to EcoSmart technology, hansgrohe showers consume up to 60 % less water than conventional products thanks to the addition of air to the spray. This also saves valuable energy.

- Up to 60% less water consumption (shower)
- Water consumption of only 5 l/min (tap)
- Lower consumption means lower energy requirements, and thefore fewer CO_2 emissions
- Lower water and energy consumption for double efficiency

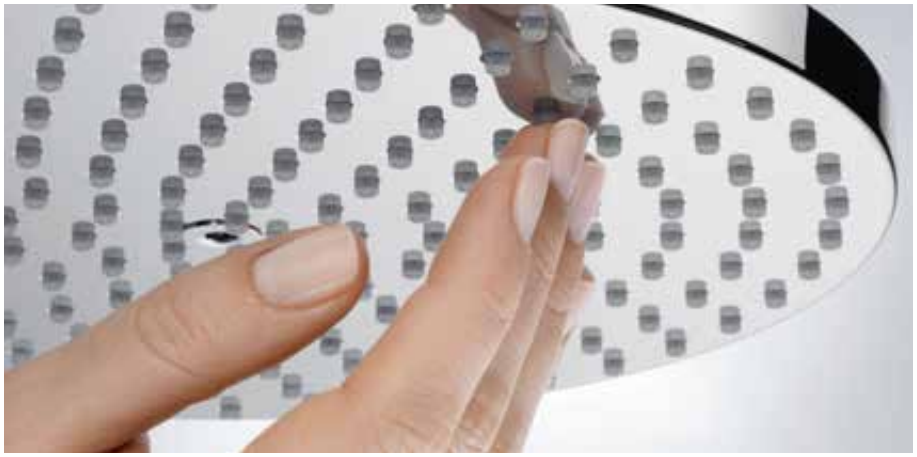
Thanks to EcoSmart technology's aeration, our basin taps consume just 5 l/min of water. This saves warm water and energy. All of our basin taps have achieved level A in the home sector: EcoSmart tech- the best possible result.

The savings calculator computes how much water and energy can be saved at:
https://www.hansgrohe.com.sg/service/water-savings-calculator

QuickClean

QuickClean means flexible silicone inserts on the aerators. Dirt and limescale deposits can be simply rubbed off with your finger with no need to use cleaning products, helping to extend your shower's lifespan.

- Fast and easy cleaning
- Ultra high quality and tear resistant silicone
- For a long lifetime and functionality



You can find more information at **pro.hansgrohe.com/your-selling-points/innovative-technologies**

AirPower

Comfort and efficiency don't have to be mutually exclusive and our AirPower showers prove it. An ample supply of air is sucked in via the spray disc of your shower, making the droplets fuller, lighter and softer, increasing water efficiency at the same time.

- Fuller, lighter and softer drops – pure shower pleasure
- Fewer splashes, so less cleaning
- Higher water efficiency thanks to a larger water volume

XXL Performance

Large-format showers have to be experienced to be truly appreciated. The luxurious hansgrohe design envelops the individual in water, bringing XXL performance to the bathroom.

- Large-format showering sensation
- Higher water efficiency – evenly distributed spray nozzles, for an incomparable shower experience

Tiltable

You can adjust t his overhead s hower a t an angle to suit the shower area, so that the whole body is soothingly enveloped in water.

- Adjustable shower head to suit the individual
- Angle of adjustments provides flexibility
- Modern installation for contemporary enjoyment

FastDrain minimises drips

This clever technology significantly reduces dripping from the overhead shower.

- Reduces annoying dripping
- Smarter waterflow inside the shower
- Easier cleaning

Water regulation

The amount of water can be precisely regulated using the thermostat. Not only does this conserve water, it's great for children, who often find a gentler waterflow more pleasant.

- Precisely regulate the amount of water
- Actively regulate water consumption with the volume control
- Easy operation – suitable for all ages

Height-adjustable PushSlider

With just one hand, the shower holder can be freely adjusted in height at the touch of a button. For a safe and comfortable shower experience.

- Easy to use with one hand
- More comfort for every generation
- Easily adjustable shower heights

Rotatable bath spout

The water inlet of this bath thermostat can be turned 90° so that it disappears underneath, providing more space to move while bathing or showering and creating a neater overall appearance

- More freedom of movement when bathing or showering
- Functional design
- Streamlining the overall look

CoolContact

The CoolContact cooling technology stops the thermostatic mixer's housing getting too hot. So there is no more need to keep a safe distance from the taps, making showering even more care-free. It also means there is no more risk of children burning their delicate hands.

- Innovative cooling technology
- More safety in the bathroom, for children too
- Care-free showeringn

You can find more information at **pro.hansgrohe.com/your-selling-points/innovative-technologies**

Pull-out function

Thanks to the pull-out tap, the working area at the sink becomes much larger. It also offers fantastic ease of use, thanks to the magnetic recoil function.

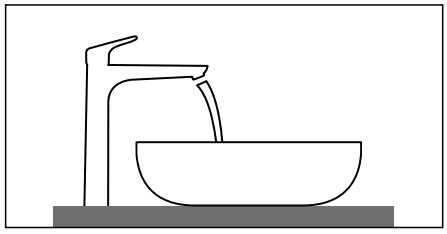
- The pull-out tap extends your workspace
- Easy handling
- Minimalist design for maximum flexibility and freedom of movement

ComfortZone

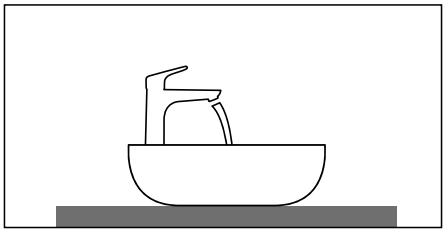
Whether you want more elbow room when washing your hands, a comfortable way to wash your hair or just fill containers, the higher the tap, the more flexible your options become. We call the space between the tap and the ceramics the ComfortZone because you can use it however you like.

- The optimal height for every requirement
- The perfect combination of tap and basin
- Reduce unnecessary water spraying through a reliable test: **pro.hansgrohe.com/consultation/comfortzone**

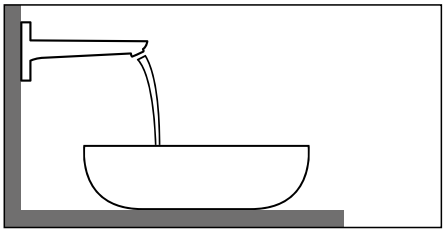
The right fitting for every need



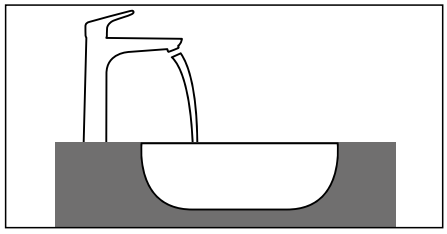
Mixer behind free standing exposed basin or behind wash bowl.



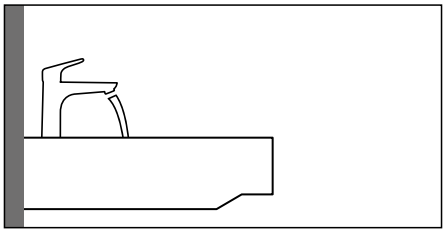
Wash bowl with exposed mixer.



Wash bowl with wall mixer.



Mixer for built-in basin.



Wall-hanging wash basin with exposed mixer.

The right tap for every sink

The ComfortZone test — ensuring perfect synchronisation

The higher the tap, the more flexible the space. However, if a wash basin and tap do not match up properly it can result in splashback. To avoid this, we developed the ComfortZone test. Carried out under realistic conditions, the test reveals just how well customers' taps work in combination with conventional wash basins from leading manufacturers.

How the ComfortZone test works

1. Free space test
Is there enough of a gap in the combination of mixer and wash basin? A test sphere is positioned between the mixer and wash basin to check how easy and comfortable it is to wash the hands.

2. Splash test
Is there any splashing when the mixer is turned on? The mixer is opened and closed several times under different water pressures. Between tests, the splashes are analysed and the wash basin rubbed dry.

3. Practice test
Is there any splashing when washing the hands? A standardised hand model is passed under the water flow and the splashes outside of the basin analysed.

Free PDF: the test results from over 12.000 combinations

Take advantage of the thousands of tests we have conducted: as a professional partner, we make the results exclusively available to you. With an overview of all sink and tap combinations, the results give you everything you need for a successful sales conversation. The PDF test result files are available free of charge at **pro.hansgrohe.de/comfortzone-test**

Advantages and benefits

- Reliable test procedure on the wash basins of leading manufacturers, fitted in accordance with the instructions
- Recommendations from over 12.000 tested mixer wash basin combinations available online for planning – constantl expanded and updated
- The certainty that wash basin and mixer harmonise – without annoying splashes

Contactless taps

Like many motion detectors, the sensor on our non-contact products reacts to changes in infrared radiation. As soon as it detects the warmth of the hand, water flows, making it economical and hygienic.

- Contactless
- Savings in water and energy
- Maximum hand hygiene – ideal in public spaces

CoolStart

On standard taps the continuous flow heater or circulation pump starts up immediately when the handle is in the middle position, but with CoolStart taps the hot water is only added when the lever is moved to the left. This cuts down on energy needs, CO_2 emissions and costs.

- Basic setting enables only cold water to flow
- Large energy, and therefore money, saving potential – ideal in business premises
- Special user ergonomics (the lever only needs to be moved to the left for hot water)

LowFlow

In business projects, water and energy savings are important criteria for building certification, such as LEED or BREEAM. This is why hansgrohe has developed LowFlow cartridges, providing a waterflow of only 3.5 l/min.

- Savings in water and energy
- Certification advantages especially for projects
- Precise temperature setting despite low flow rate

EasyClick installation

Modern accessories, easy to install: hansgrohe hooks, shelves and baskets can be attached to the wall bar with one click. With this modular organisation system, accessories can be moved or removed quickly and easily.

- Simply attach it to the wall bar with one click
- It can be removed or re-attached at any time
- Flexible storage system with almost infinite combinations

Can be attached using glue or screw

Secure hold, residue-free fixing: hansgrohe wall bars can be glued or drilled to the bathroom wall using a rustproof steel plate. Both types of attachment securely hold the accessories.

- Easy DIY installation: use glue or screws to secure
- Remove at any time without leaving any residue
- Robust material:
  stainless steel plate

Variable installation depth

These hansgrohe accessories provide plenty of storage space. With their variable installation depth, the ready-to-use sets suit every customer requirement – while also ensuring an individual look.

- Variable installation depth
- Storage solution embedded into the wall

Protection against water damage

This basic installation set is embedded flush with the wall and is 100 % waterproof. A pre-assembled seal prevents shower water from penetrating the surrounding floor or under the tiles.

- 100 % waterproof
- Pre-assembled seal

Freely install in any area

Adaptable installation: This shower drain can be positioned in different places on the floor. This type of installation requires a four-sided slope.

- hansgrohe shower channel installed freely in the area
- Four slopes required
- A highly functional design highlight

Wall-mounted installation

Wall-mounted installation: Install this shower drain against a wall. This type of installation requires a slope on three sides.

- hansgrohe shower channel installed on a wall
- Three slopes required
- Effective use of space

Wall-to-wall installation

Wall-to-wall installation: Install this shower drain between two walls. This type of installation requires a slope on both sides.

- hansgrohe shower channel installed between two walls
- Two slopes required
- Requires an shower drain the exact length

Installation against three walls

Minimalist installation against three walls: Install this shower drain on the rear wall and between the side walls. This type of installation requires a one-sided slope the exact length of the shower drain.

- hansgrohe shower channel installed against the rear and two side walls
- One slope is required
- Requires an shower drain the exact length

Adjustable frame height

The drain channel must close the surrounding area without creating a trip hazard. The level of the cover can still be adjusted using the height adjustment frame, even after the screed has been poured.

- High-quality hansgrohe shower channel
- Easy adjustment to the surrounding tiled area thanks to the height-adjustable frame
- Flexible installation

Shower channel that can be shortened

This shower channel can be shortened, so you can adapt it to the structural requirements.

- Adaptable hansgrohe shower channel
- Can be shortened on-site
- Flexible installation

High drainage capacity

A truly great shower experience from a powerful overhead shower places high demands on drainage. This drain is designed for high flow volumes of up to 60 l/min, preventing flooding.

- High flow rate of up to 60 l/min
- Avoids flooding
- Maximum enjoyment

Easy to clean siphon

The aerodynamic geometry and high flow rate of the innovative hansgrohe Dryphon allows dirt and hair to pass through smoothly, reducing the need for cleaning.

- Easier cleaning

Personality-infused design, thanks to coloured fittings

FinishPlus — new surfaces bring new individuality to the bathroom

Today's bathroom increasingly reflects our own personal style. FinishPlus has been developed to provide five new surface designs in matte and metallic tones, expanding your style options far beyond classic chrome. The high-quality surfaces offer a wide range of design options, giving you brand new ways of expressing yourself.

670 Matte Black: Getting back to basics with black and white contrasts.

700 Matte White: Cheeky, unconventional freshness.

340 Brushed Black Chrome: A dark, partially reflective surface creates asophisticated aesthetic.

140 Brushed Bronze: Soft natural tones and subtle nuances.

990 Polished Gold Optic: Glamorous look for aesthetic extravagance.

000 Chrome: Timeless classic paired with dainty elegance.

Advantages and benefits

- A large selection for self-expression: new tap colours and complementary products
- Immediate availability: easy ordering process as products are kept in stock
- Resilient and scratch-proof, with tactile appeal

Make washing-up a breeze

Spray types — for a streamlined workflow in every kitchen

Laminar spray
Crystal clear waterspray without added air, which prevents splashing and is ideal for filling large containers, like vases, quickly.

Normal spray
Fuller, lighter and softer droplets from an aerated spray, thanks to AirPower technology.

Shower spray
A gently water-saving cleaning spray, suitable for rinsing the sink.

Clever functions mean more efficiency

Technologies to make life easier

Select

Select technology makes using the kitchen tap easier than ever before, because the water can be turned on and off with just one click. You can do that with your elbow or even the back of your hand, keeping your taps clean when you're cooking or washing up.

- Convenient use and optimal water flow
- Stop and start the water flow at the touch of a button during operation
- Can also be operated with an arm or elbow

QuickClean

QuickClean means flexible silicone discs. Dirt and limescale deposits can be simply rubbed off with your finger – low effort with no need to use cleaning products, extending you shower's lifespan.

- Fast and easy cleaning
- Ultra high quality and tear resistant silicone
- For a long lifetime and functionality

EcoSmart

Thanks to EcoSmart technology with added air, certain hansgrohe kitchen taps consume only 6 l/min. This reduced water volume means less water needs to be heated up, which also saves valuable energy for your customer.

- Air enriched water for a full, sparkling spray
- Lower energy consumption means fewer CO_2 emissions
- Lower water and energy consumption for double efficiency

You can find more information at **pro.hansgrohe.com/your-selling-points/innovative-technologies**

AirPower

AirPower works by drawing in air via the jet outlet. This addition of air enriches the inc ming water, making the jet fuller, lighter and softer. AirPower cleverly delivers a high jet volume with less water.

- Fuller, lighter and softer droplets, for an enhanced water jet
- Less risk of splashing
- High efficiency helps to reduce water consumption

ComfortZone

Kitchen taps with an extra high spout offer additional space, making them ideal for filling large pots and tall vases. For those that swivel, the rotation can be set incrementally up to 360°.

- The optimum height for all needs
- A flexible swivel area prevents over-rotation
- Ultimate freedom to move

Pull-out function

More flexibility, thanks to the pull-out function. This pull-out tap extends your working area at the sink, making it easier to fill containers or water plants.

- Standard extension max. 50 cm
- The sBox extends the working space to 76 cm

Lower in front of a window

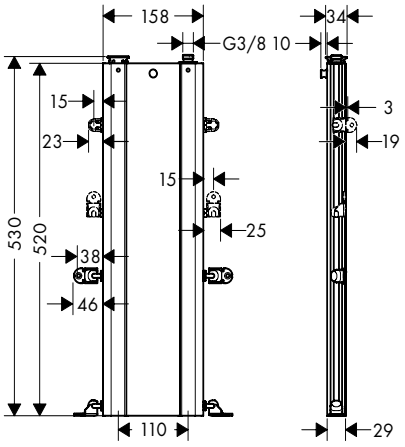
With kitchen windows that open inwards, conventional taps often get in the way. A hansgrohe tap with TiltFunction solves this. It can be easily lifted and lowered, so that the window can be open and shut easily.

- Ideal for installation in front of a window
- Easily lifted up and folded down
- For easy opening and closing of a window

You can find more information a **pro.hansgrohe.com/your-selling-points/innovative-technologies**

sBox kitchen

With extendible kitchen taps and sink combi units, the sBox ensures that the hose can be pulled out and stowed away safely and easily. The 52 cm-tall box fits into all standard base units from 74 cm upwards. Alternatively, products can also be purchased without the sBox.



- Smooth and safe retrieval of the hose, without getting in the way of the drawer or waste separation system
- Multiple installation options in the base unit thanks to flexible mounting elements
- For a more organised sink cabinet
- The hose weight in the sBox ensures smooth and quiet use
- Optional accessories:
  An additional spacer rail that allows for installation lower in the cabinet body

Installation options

Best placement – vertically below kitchen tap:
The lower brackets are firmly screwed to the base. The upper brackets can be either screwed to or suspended on the rear panel. The mounting elements can be moved and rotated 360°. This makes installation fast and easy.

Vertically below kitchen tap, tilted backwards or forwards:
The tilted back assembly is recommended if the rear wall is offset to the front or if there are obstacles on the floor. The brackets are all aligned to the front. This way, the sBox can simply be tilted forward and clicked out of all brackets. This enables quick and easy cleaning. The sBox can be tilted backwards or forwards. Maximum recommended tilt angle: ± 20°.

At the back of the rear wall, tilted sideways:
Laterally tilted installation is an option where there are obstacles on the ground such as waste pull-out or drainage systems, or when angle valves are difficult to access. The brackets can be screwed to the base, sides or rear panel.
Maximum recommended tilt angle: ± 20°.

Tilted and offset on the side wall:
The installation on the side panel is ideal for corner sinks, sinks with draining boards or sinks with tap holes that are positioned to the side. All the brackets are screwed to the side. You should avoid parallel displacement of the sBox. If displacement is required for the installation, there must not be more than 30mm between the tap and outlet axis of the sBox.

CoolStart

On standard taps the continuous flow heater or circulation pump starts up immediately when the handle is in the middle position, but with CoolStart taps the hot water is only added when the lever is moved to the left. This cuts down on energy needs, CO_2 emissions and costs.

- Basic setting enables only cold water to flow
- Potential for water, energy and financial savings
- Special user ergonomics (the lever only needs to be moved to the left for hot water)

High-quality designs for the sink

FinishPlus — for kitchens with personality

Customers are increasingly looking for ways to stamp their individuality onto their kitchen. We can help that happen, offering kitchen taps in various coloured finishes. In addition to chrome and stainless steel, taps in a matte black finish are more popular than ever before. And with FinishPlus you can fulfil your customer's every dream, creating a kitchen bursting with personality.

670 Matte Black: Getting back to basics with black and white contrasts.

800 stainless steel finish: A harmonious look

000 Chrome: Timeless classic paired with dainty elegance.

Advantages and benefits

- A large selection for self-expression: new tap colours and complementary products
- Immediate availability: easy ordering process as products are kept in stock
- Resilient and scratch-proof, with tactile appeal

You will be able to satisfy any of your customers' requirements – and help them keep to their budgets – with hansgrohe's complete concealed range for between one and four functions. The choice starts with the operation: are the showers and spray types to be controlled conventionally by turning, or with complete ease at the touch of a button? Your customers also have complete freedom of design: the ShowerSelect is now also available in a round design and as a mixer. Ecostat thermostats are available as a circle, and now also as a square with rounded corners. Plenty of options for attractive installations that blend beautifully with the bathroom.

Basin - Vernis Blend

	finish	code no.
Vernis Blend Electronic basin mixer with temperature pre-adjustment battery operation 2 ticks	Chrome	71502009

Sensor Activation · AirPower · Comfort Zone

- ComfortZone 100
- projection 112 mm
- spray type: normal spray
- swiveling spray former
- maximum flow rate at 3 bar: 3,7 l/ min
- temperature pre-adjustable
- with isolated water conduction - without contact with nickel and lead
- non-return valve
- infrared sensor technology
- automatic environmental adjustment of infrared sensor
- battery condition indicator available
- battery operation 6 V Lithium-battery, type CR-P2 (lifetime approx. 7 years, at 150 actuations per day, battery included in scope of supply)
- running time adjustable
- running time: 10 s, 20 s, 30 s, 60 s (pre-set)
- hygiene rinse activatable (automatic water flow)
- frequency of hygiene rinse: 24 h, 48 h, 72 h
- flushing time hygiene rinse: 10 s, 20 s, 30 s
- permanent rinse activatable (single water flow for 200 seconds, suitable for thermal disinfection)
- cleaning mode: manual water stop for washbasin cleaning
- connection dimension: DN15
- dirt filters in the connection hoses
- frequency of hygiene rinse and flushing time hygiene rinse are dependent on each other (24 h - 10 s, 48 h - 20 s, 72 h - 30 s)

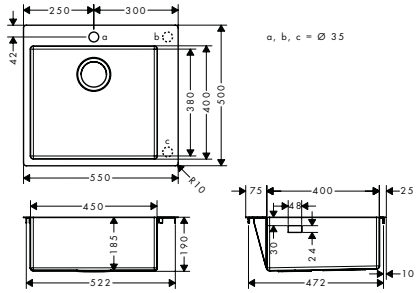
Stainless steel built-in sinks

	finish	code no.
S711-F450 Built-in sink 450	Stainless Steel	43301809

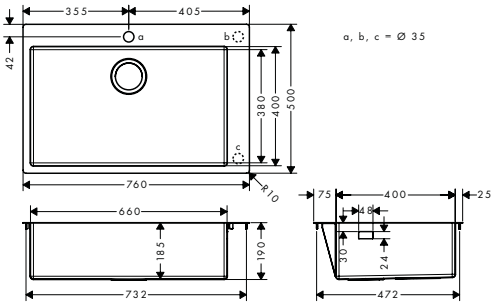


- cut-out dimensions: 530 x 480 mm
- material: stainless steel
- number of bowls: 1 main bowl
- predrilled tap hole
- cabinet size: 60 cm
- type of installation: flat on the countertop (self-rimming) or flush-mount installation
- position overflow: on the right side of the bowl
- tap ledge reinforcing for a tight and stable seating of the kitchen mixer
- corner radius: 10 mm
- sink depth: 190 mm

Required parts (choose one)

· D11-10 Manual waste and overflow set for sink 400/450	Chrome	43920009
· D11-11 Automatic waste and overflow set for sink 400/450	Chrome	43930009

S711-F660 Built-in sink 660	Stainless Steel	43302809

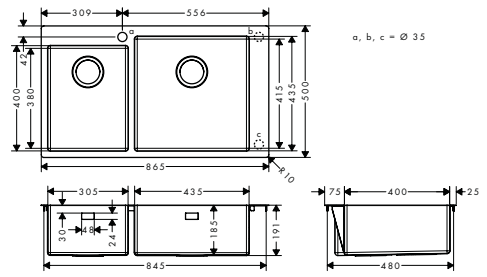


- cut-out dimensions: 740 x 480 mm
- material: stainless steel
- number of bowls: 1 main bowl
- predrilled tap hole
- cabinet size: 80 cm
- type of installation: flat on the countertop (self-rimming) or flush-mount installation
- position overflow: on the right side of the bowl
- tap ledge reinforcing for a tight and stable seating of the kitchen mixer
- corner radius: 10 mm
- sink depth: 190 mm

Required parts (choose one)

· D14-10 Manual waste and overflow set for sink 660	Chrome	43921009
· D14-11 Automatic waste and overflow set for sink 660	Chrome	43931009

S711-F760 Built-in sink 305/435	Stainless Steel	43304809



- cut-out dimensions: 845 x 480 mm
- material: stainless steel
- number of bowls: 1 main bowl and 1 additional bowl
- predrilled tap hole
- cabinet size: 90 cm
- type of installation: flat on the countertop (self-rimming) or flush-mount installation
- tap ledge reinforcing for a tight and stable seating of the kitchen mixer
- corner radius: 10 mm
- sink depth: 190 mm

Required parts (choose one)

· D18-10 Manual waste and overflow set for sink 305/435	Chrome	43923009
· D18-11 Automatic waste and overflow set for sink 305/435	Chrome	43933009

S711-F765 Built-in sink 370/370

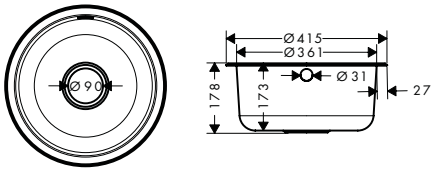
Stainless Steel — 43303809

- cut-out dimensions: 845 x 480 mm
- material: stainless steel
- number of bowls: 2 main bowls
- predrilled tap hole
- cabinet size: 90 cm
- type of installation: flat on the countertop (self-rimming) or flush-mount installation
- tap ledge reinforcing for a tight and stable seating of the kitchen mixer
- corner radius: 10 mm
- sink depth: 190 mm

Required parts (choose one)

- D15-10 Manual waste and overflow set for sink 370/370 — Chrome — 43922009
- D15-11 Automatic waste and overflow set for sink 370/370 — Chrome — 43932009

NEW



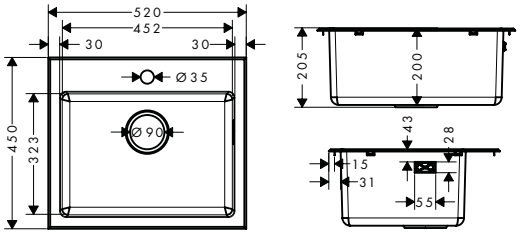
S430-F400 Built-in sink 400 incl. manual drain kit

Stainless Steel — 43343807

- consists of: built-in sink, manual waste set with siphon
- cut-out dimensions: 370 x 370 mm
- material: stainless steel
- number of bowls: 1 main bowl
- cabinet size: 60 cm
- type of installation: topmount
- position overflow: on the front centered in the bowl
- packaging: singlepackaging
- corner radius: 180 mm
- sink depth: 178 mm

Consisting of:

- D19-10 manual waste and overflow set for single bowl (# 43959807)



S431-F400 built-in sink 400 1-hole incl. manual drain kit

Stainless Steel — 43353807

- consists of: built-in sink, manual waste set with siphon
- cut-out dimensions: 503 x 433 mm
- material: stainless steel
- number of bowls: 1 main bowl
- predrilled tap hole
- cabinet size: 60 cm
- type of installation: topmount
- position overflow: on the right side of the bowl
- packaging: singlepackaging
- corner radius: 15 mm
- sink depth: 205 mm

Consisting of:

- D19-10 manual waste and overflow set for single bowl (# 43959807)
