hansgrohe – at home all over the world

International hotels and business customers collaborate with the Hansgrohe Group because they appreciate our experience, reliability, and flexibility. They can rely on our extraordinary quality and excellent design – and on our products being suitable for their project requirements. They value the comfort and efficiency that results from working with us, a supplier that caters for all bathroom needs. No matter what kind of project is being planned and where on Earth it is, hansgrohe is always the right partner.

Bubbling with ideas since 1901

Company founder Hans Grohe's pioneering spirit is deeply rooted in our DNA and shapes the work we do.

The Hansgrohe Group today

As a company, Hansgrohe employs over 5600 people working at 53 sites on all continents. So it is safe to say we are a global player in the sanitation industry. The products from the AXOR and hansgrohe brands have won over 700 design awards. Visitors can touch and try out our products at international trade fairs and events, our Water Studios and the Aquademie at our headquarters in Germany.

Setting the rhythm of water

Once upon a time in the Black Forest: In 1901, Hans Grohe founded a craft business for spun metal goods and became a shower pioneer. Our passion for water and our aim of setting the style have remained constant ever since. Our innovative strength is down to our dedicated, experienced, and experimental teams. And we are always finding new ways to express our passion with products that stand the test of time. We set the rhythm of every droplet and create water sprays that caress the body and coat it in cosiness. So that people can feel our state-of-the-art engineering and design quality on their skin.

Innovation

Life is in constant motion.

hansgrohe has been one of the pioneers and innovation leaders in the sanitation industry since day one. We are constantly pushing the limits of the technically feasible and, in so doing, revolutionising mixers, showers, and bathrooms. Not only do we optimise designs and materials, but we are also constantly rethinking functionality by continuously addressing our customers' needs. Sensual spray types like PowderRain and pioneering installation solutions like the iBox universal 2 are good examples of this. Through our inventions, we encourage people to enjoy the beauty of water.

Design

Life is beautiful.

From lovingly designed details through to a holistic view of a complete bathroom: For us, modern design is more than just an appealing look. hansgrohe design combines timeless beauty, functional finesse, and the highest hand-crafted quality across all product ranges. Numerous awards confirm our pursuit of the extraordinary and highlight our close cooperation with design studio PHOENIX. On top of this, we follow our ECO design principles every time we develop our products so that they look appealing and are eco-friendly.

Learn more about
ECO design principles.

Quality

Life is a journey.

Our products stay with people for years and years. They create feel-good moments and offer sensual experiences tailored to individual needs. The premium quality of our products is not only measured by the material properties, but also by the joy they bring in the long run. We ensure our customers across the world are satisfied, for example through user-friendliness, a voluntary five-year manufacturer's guarantee and a Service Center that handles all technical concerns. This is why many consumers become lifelong hansgrohe customers.

Find out more about the manufacturer's guarantee.

WINNER
German Sustainability Award Company 2024

Life is precious. And so is our planet.

Saving water and energy are two matters close to our hearts at hansgrohe. And so we develop products for impressive water experiences with reduced resource consumption. Because we don't want to make our customers choose between wellbeing and sustainability. As the use phase of mixers and shower heads installed in people's homes is the most carbon-intensive, we are converting our entire water-bearing product range to water- and energy-saving technologies by 2030. We use recycled material whenever possible, for example in the hansgrohe Planet Edition. Our products are also robust, long-lasting, and easy to repair.

The bathroom of tomorrow: Our Green Vision

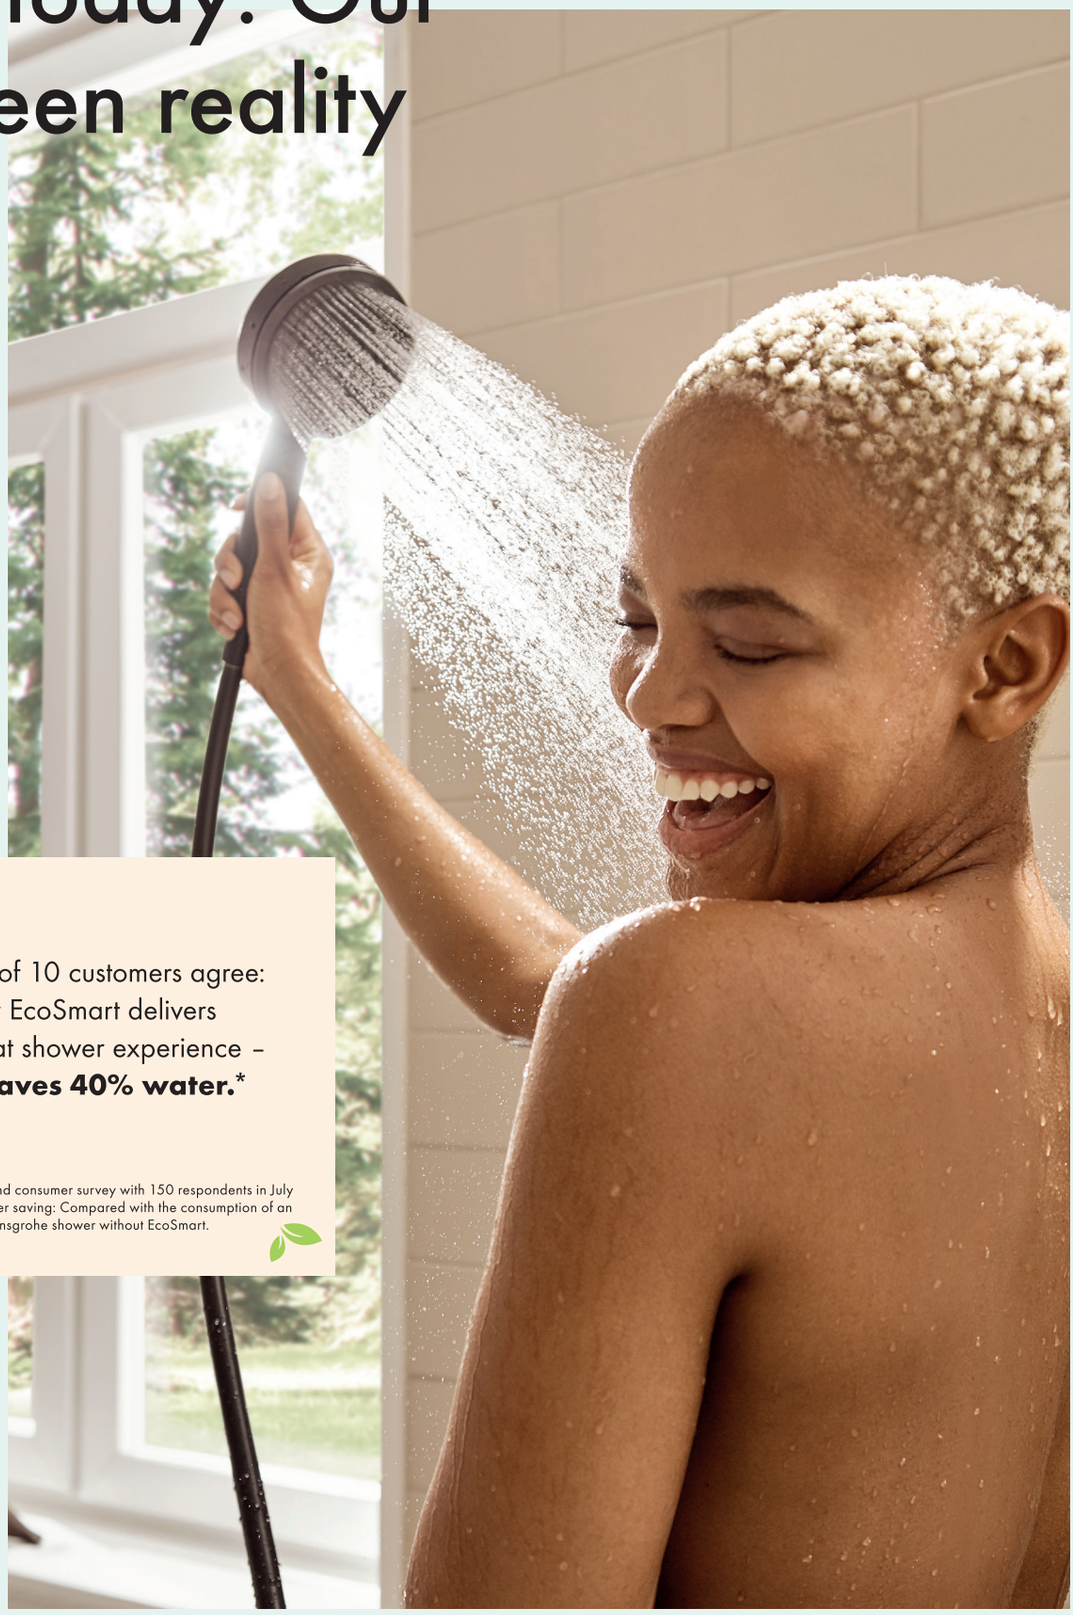
Wellness or climate protection? Our bathroom requirements compete with the growing need to conserve water and energy. An internal conflict for all of us. But does it have to stay this way? No. Hansgrohe's Green Vision separates hygiene and wellbeing, thus enabling unlimited, almost waterless regeneration. The concept consists of two bathroom platforms: **BASE** is there for personal hygiene, while **SPHERE** is a space for mental retreat. Our Green Vision has real future potential. Even today, the technical innovations of the individual modules are already being incorporated into product development for the AXOR and hansgrohe brands.

90 %

less water consumption,
less energy consumption,
and less CO_2e emissions
in the bathroom.

Find out more about
our Green Vision.

The bathroom of today: Our green reality



9 out of 10 customers agree: Pulsify EcoSmart delivers a great shower experience – and **saves 40% water.***

*Source: trnd consumer survey with 150 respondents in July 2022. Water saving: Compared with the consumption of an average hansgrohe shower without EcoSmart.

hansgrohe integrates water- and energy-saving technologies.

The hansgrohe water savings calculator instantly determines how much water, energy, and money can be saved with our showers and mixers. The wonderful thing is, reduced water consumption helps people to cut down on valuable resources without sacrificing the usual comfort.

Calculate the savings potential now.

EcoSmart

Thanks to integrated flow limitation, hansgrohe showers with EcoSmart use up to 40 % less water than our showers without this technology. With EcoSmart+, it's as much as 60 %. Many EcoSmart showers therefore consume only 8 l/min* – or just 6 l/min* or less with EcoSmart+.

EcoSmart also uses flow limitation to reduce water consumption to around 5 l/min* in hansgrohe lavatory mixers, while EcoSmart+ mixers consume as little as 4 l/min*.

*at 3 bar

Find out more about EcoSmart.

The life cycle of a hand shower

Most CO_2e emissions in the bathroom are generated in the use phase, i.e. through the provision of hot water for the shower, bath tub, and wash basin. Using the shower therefore emits around 1000 times more CO_2e than it takes to make the shower head. **The bottom line:** hansgrohe helps to conserve resources at home.

According to the "hand showers" environmental product declaration (EPD) verified by the IBU Advisory Board in 2023, the "total global warming potential" indicator for an average hand shower in the production phase (A1–A3) is 1.08 kg CO_2e. Water consumption, hot water production and cleaning the shower head during the use phase (B2, B6, B7) together amount to 1008.2 kg CO_2e.

hansgrohe uses warm water efficiently.

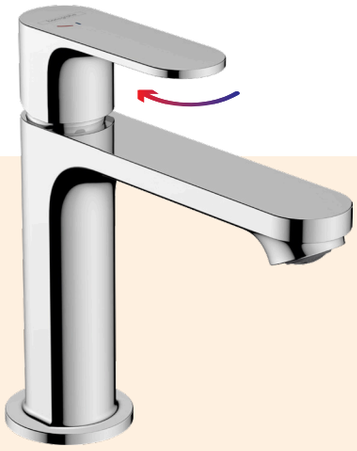
CoolStart mixers support sustainable lifestyles because only cold water runs when the handle is in the centre position – whereas with standard mixers in the basic position, hot and cold are automatically mixed and energy is immediately consumed.

CoolStart mixers

Example calculation: A four-person household that heats water with gas can expect the following positive results when using a hansgrohe CoolStart mixer rather than a conventional one:

508 kWh less consumption per year
23 kg less CO_2e per year
€ 61.97 saving per year

To sum up: Starting cool reduces CO_2e emissions and goes easy on people's wallet.



Discover the basis for these calculations.

Thermostats that actively control the water and temperature

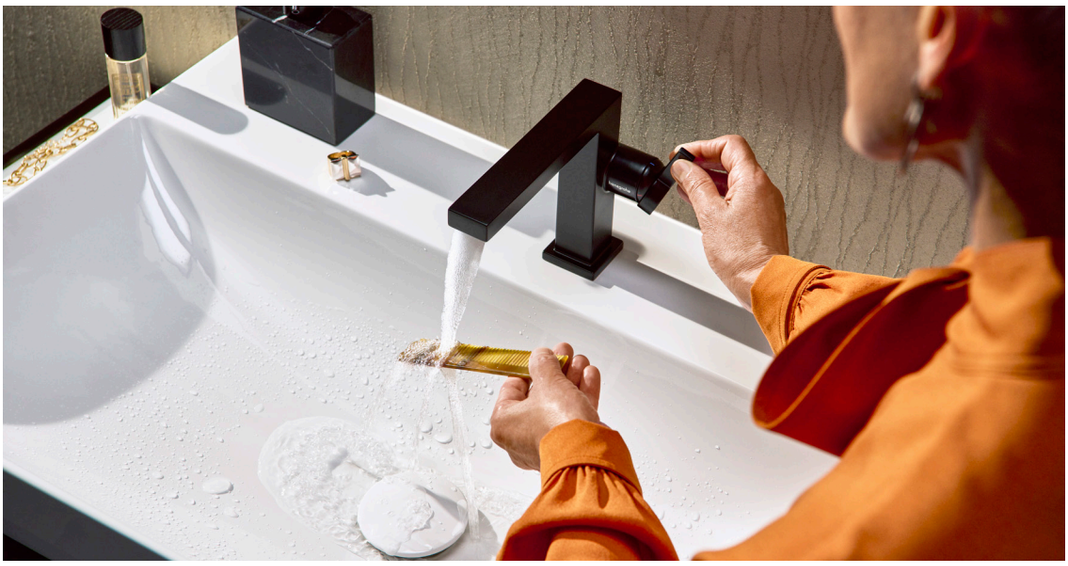
Our thermostats are intuitive to use and continuously balance out fluctuations in temperature and pressure for the nicest shower experience at all times. Controls and buttons with smart technology also reduce water consumption and limit the temperature, helping to save valuable resources.

PHOENIX: An outstanding think tank

Two eminently successful designers: Andreas Diefenbach (right), Managing Partner of PHOENIX and Matthias Oesterle, Design Director at PHOENIX

"We home in on self-explanatory interaction and aim to use this to make a brand's identity come alive in a touching way."

Tom Schönherr, founder of PHOENIX



PHOENIX and hansgrohe – decades of being partners, a strategic dream team.

PHOENIX is considered one of the leading independent studios for product and interface design worldwide. The immensely successful Stuttgart-based design workshop uses modern, clean lines and adds emotion to increase the desirability of everyday items. Whether they are designing mixers, office chairs or gymnastics apparatus, showers, cabinets or service robots, the objects designed by PHOENIX last a long time and bring lots of joy. From analogue to digital product ranges, the high-flying designers always succeed in striking the balance between functionality and magic.

... and a strategic dream team for future strokes of genius

PHOENIX is an integral component in German design history. Founders Andreas Haug and Tom Schönherr caused a stir even when they were at frogdesign, a legendary design studio from the 1970s. The pioneers have spent just as long shaping the face of hansgrohe, as PHOENIX has been exclusively designing all the key products for our premium brand since its foundation. Design first found its way into bathrooms in the groovy seventies, and it was the PHOENIX-hansgrohe dream team that instigated this transformation. We have been working together to create an intelligent combination of design, functionality, and comfort (in short, user-friendliness) ever since. We pour our heart and soul into creating products that stand the test of time in terms of technology and looks. And we do it for people who want to feel and love their design objects.

PHOENIX's success is backed up by more than 900 renowned design awards to date.

What does “premium” actually mean?

Brand quality – uncompromisingly high-end

Our customers can expect the highest quality in terms of materials, shapes, and functionality. Ultimately, they see and use their bathroom products every day. Everything should always look exceptional, be easy to use, and conserve resources. We therefore always involve our consumers and plumbers in the testing of our concepts, prototypes, and products. Our promise: People who choose hansgrohe get long-lasting brand quality.

Service quality – 5 star service

The hansgrohe Master Service offers customers professional information and advice on all questions and issues. Customers can also chat to us at trade shows and events. hansgrohe offers a voluntary manufacturer's guarantee of 5 years on showers and mixers and 20 years on ceramics. Spare parts can be purchased from us online, and we will guarantee 15 years of availability of said parts. Our specialist partners range from tradespeople to retailers, right through to planners and architects. They have access to our expertise 24/7 via online support, seminars, and training. We are regularly presented with "best of" awards from our plumbing, heating, and cooling specialist partners.

Find out more about the manufacturer’s guarantee.

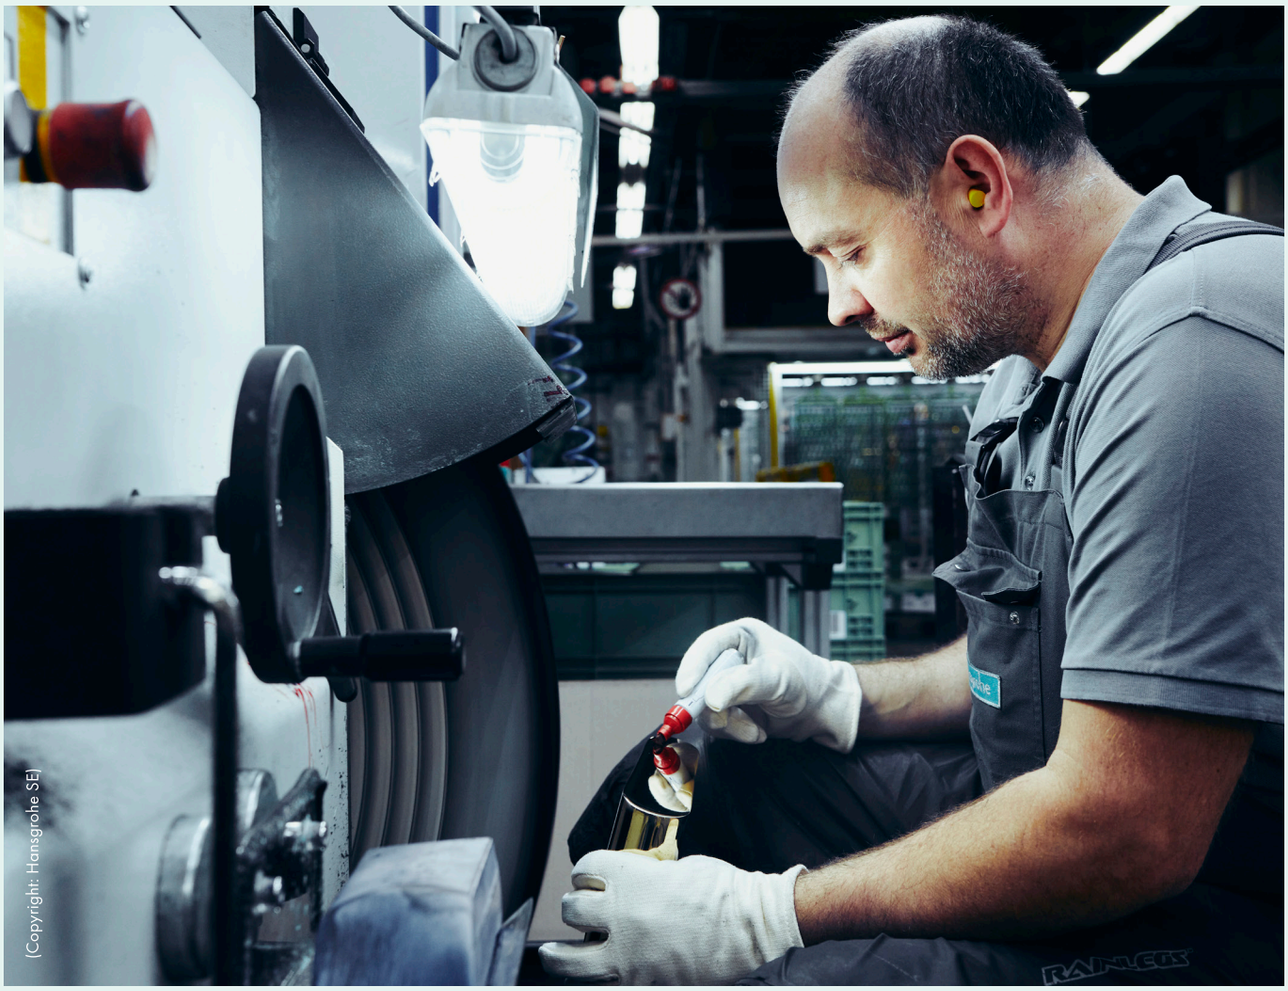
2023 BEST OF SHK AWARD 1. PLATZ HERSTELLER B2B.DIGITAL Präsentiert von Si

“When it comes to service, we at hansgrohe think in terms of solutions and have a goal: We want to turn customers into fans of our brand. So we are on hand to offer guidance with fast response times and extensive information via all channels.”

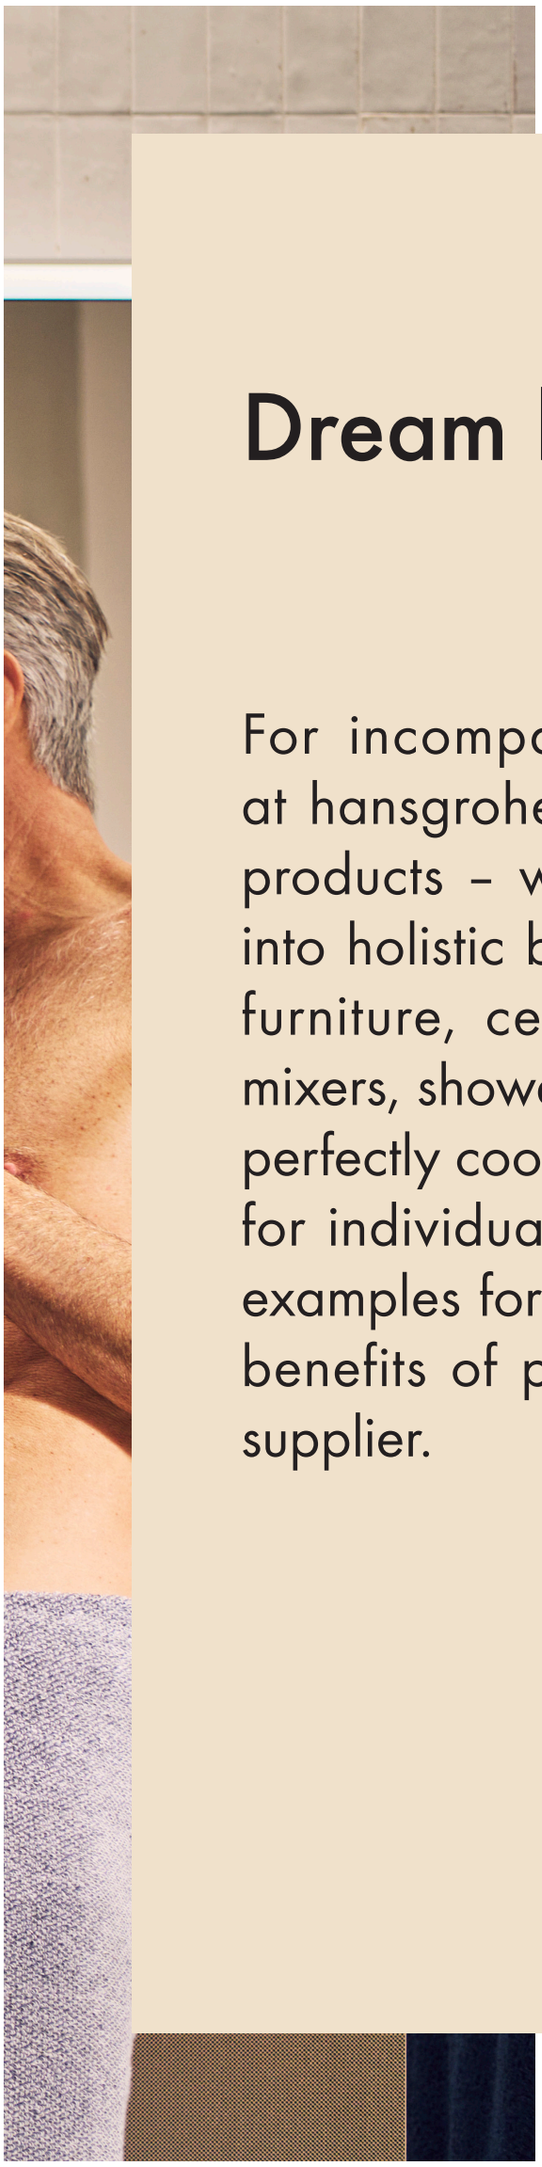
Danny Stahl, Head of Professional Service & Support at the Hansgrohe Group

Product quality – safe, reliable, simply the best

Health takes top priority for us: hansgrohe products meet the strictest drinking water regulations, hold all the major approvals, and are easy to install. And our standards are far higher than the norm. We therefore prefer to manufacture our main components ourselves, and we run our own spray and sound laboratory. Each product needs to prove its worth over and over in test cycles, stress tests, and quality assurance inspections. When it comes to research, development, and manufacturing, only the best will do.



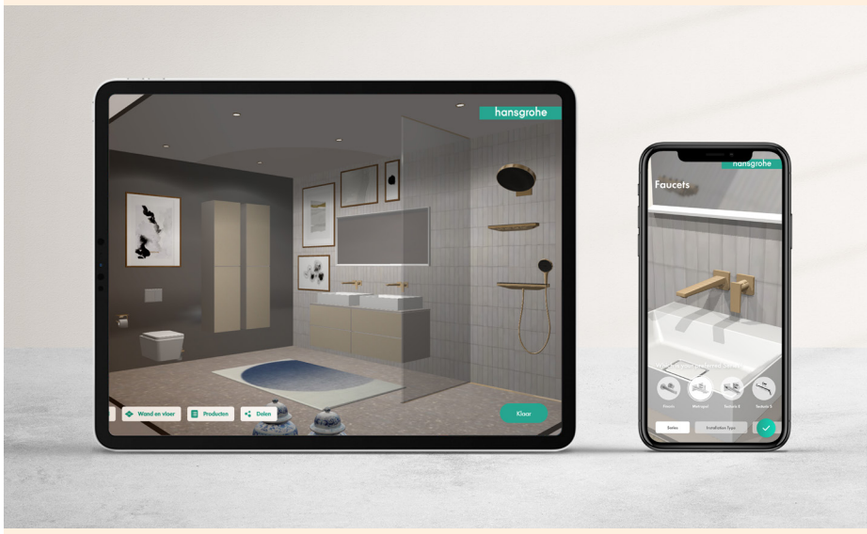
hansgrohe delivers premium quality. Our customers can see and feel this – and can look forward to long-lasting enjoyment from our high-quality products.



Dream bathrooms

For incomparable water experiences, we at hansgrohe don't think in terms of just the products – we transform individual elements into holistic bathroom experiences. We offer furniture, ceramics, and mirrors alongside mixers, showers, and accessories. This creates perfectly coordinated, interactive environments for individual tastes. Use our interior design examples for inspiration. And enjoy the many benefits of purchasing everything from one supplier.

Start planning now with the hansgrohe Inspirator Tool.



What does your dream interior look like? Use our Inspirator Tool to design the bathroom of your dreams in 3D. Create an oasis that fully reflects your taste by choosing from a range of styles, materials, and colours.

How to create your dream bathroom in a few simple steps:

Find inspiration here.

1

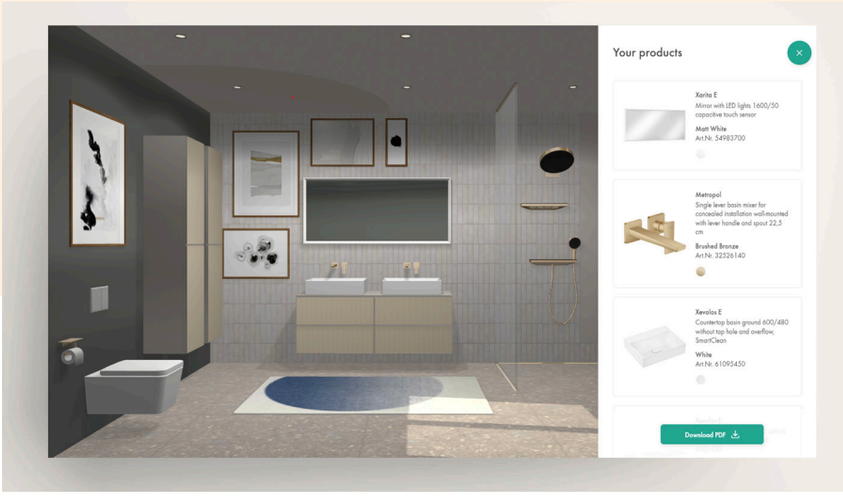
Choose your style
Natural? Minimalist? Family-friendly? Tell the planning tool exactly what you want.

2

Select the floor plan, walls, flooring, and bathroom products
Compose your interior design however you like and with matching solutions in the washplace, showerplace and toilet area.

3

Make dreams come true
Send your dream combination to a retailer and make your new bathroom a reality together with sanitation experts.



Bring your very own dream bathroom to life.

Dream bathroom for design lovers 13 m²

Dream bathroom for anyone with children 9 m²

Dream bathroom for world explorers 10 m²

Dream bathroom for fans of industrial 7 m²

Add colour to your bathroom!

FinishPlus colours create unique accents in the shower, at the washplace, and in the toilet area. A bronze-coloured shower system is a design highlight, a matt white mixer is a fresh-faced head-turner. hansgrohe thermostats and showers can be matt black or gold-coloured. If the colour of the wallbar, shower hose, and accessories matches, it adds style to the whole bathroom – and makes it look new.

Matt Black
provides a contrast and takes the bathroom design back to basics.

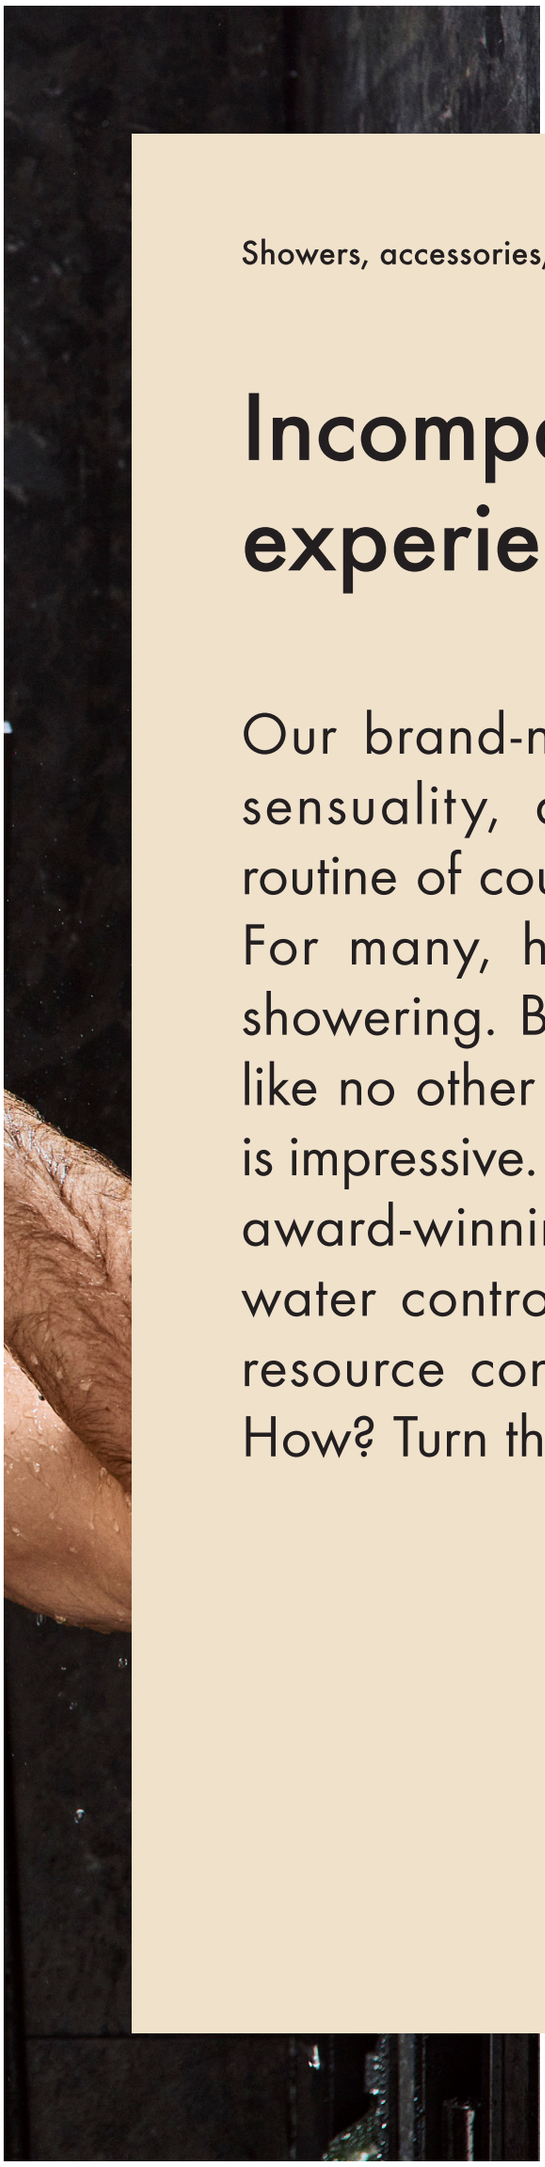
Matt White
is versatile and creates unconventional freshness.

Brushed Bronze
exudes subtle flair and looks elegant with white and natural tones.

Polished Gold Optic
enchants lovers of extravagant design and brings glamour to the bathroom.

Chrome
is a timeless classic that makes the bathroom shine.

Brushed Black Chrome
has an air of sophistication thanks to its dark appearance.



Showers, accessories, shower drains

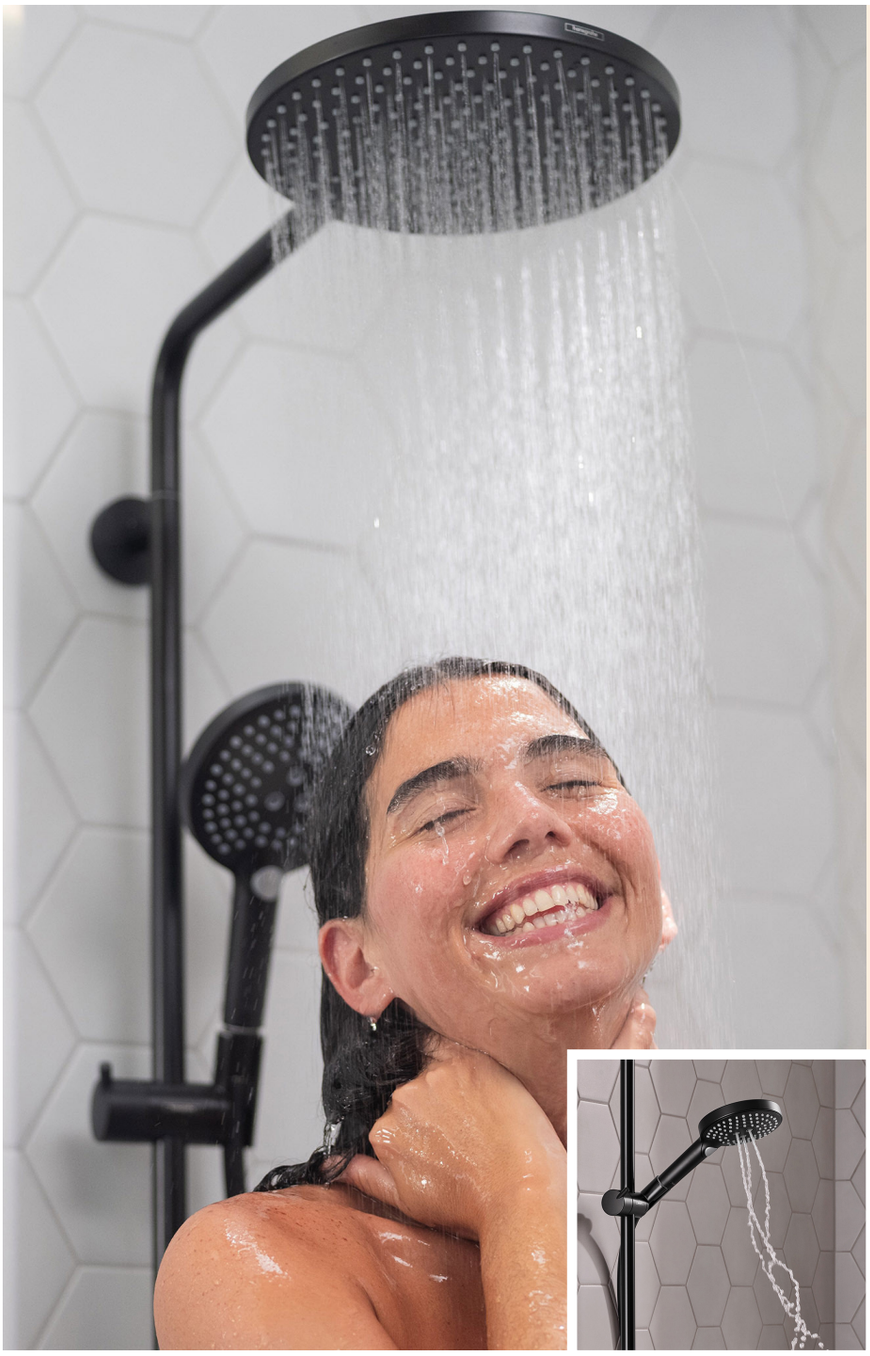
Incomparable shower experiences

Our brand-name products bring more joy, sensuality, and variety to the bathroom routine of countless people around the globe. For many, hansgrohe is synonymous with showering. Because our world of showers is like no other and our variety of spray modes is impressive. Because we impress people with award-winning shower design and intuitive water controls. hansgrohe is also all about resource conservation, which saves money. How? Turn the pages to find out.

Welcome to the home spa.

From a fine mist out of the hand shower to a sumptuous summer downpour out of the overhead shower, water can be made to feel so different! Our spray modes refresh and relax, massage and caress. No matter the size of the showerplace, hansgrohe showers make you feel so good.

Learn about our spray modes.



According to a study*, nine out of ten consumers agree:

"PowderRain offers the best shower experience of all time."

*1500 customers tested the PowderRain spray mode in 2018 with trnd, an interactive marketing community in Europe.

PowderRain adds a layer of delicateness to your enjoyable shower
PowderRain. Thousands of ultrafine droplets that wrap the body in a coat of wellbeing. People can let the world around them disappear, wash away their daily woes, and recharge their inner batteries in this ultra-gentle water cocoon. For a soft, sensual start to the day or a pamper session after a stressful day. The hansgrohe spray researchers offered their extensive water expertise to create these whisper-quiet micro-droplets. PowderRain can be found bubbling out of our Rainfinity, Raindance with PowderRain, and Pulsify shower ranges.

Massage effect? Powerful boost of freshness? Relaxed summer rain? Kneipp therapy? Our multi-spray shower heads pamper just the way you like it.

hansgrohe is up there with the best in terms of conserving resources.

Developing premium showers for individual wellbeing is our speciality. With hansgrohe, showering also means a really enjoyable experience with low water and energy consumption. Our EcoSmart showers save up to 40 % water, while EcoSmart+ showers save as much as 60 % compared to our showers without this efficient water-saving technology. And it pays off, at home, in hotels, in spas.

EcoSmart showers save up to 40 % water, while EcoSmart+ showers save as much as 60 %.

Find out more about EcoSmart.

Simply sustainable!

Planet Edition. Pure showering enjoyment. Pure conscience.

This shower range is beautifully sustainable. With parts made of recycled plastic, it contributes to the circular economy. Thanks to EcoSmart+, it consumes just 6 l/min. In 2023, the combination of hand shower, shower hose, and accessories won the German Ecodesign Award, the country's highest state award for ecological design. That's how well environmental awareness and cost effectiveness work together!

german ecodesign award

Step-by-step guide to make a dream shower come true

1

Define your design style and plan your shower area

Define the style for your chosen products, i.e. modern or classic. We recommend ensuring the mixers in the shower look like the ones at the washplace, on the bath tub, and by the toilet/on the bidet. Matt Black or Polished Gold Optic? You are completely free to choose the design. You can also pick the perfect place for your dream shower in the bathroom.

> Page 28

2

Choose the installation type and product combination

- Do you want a large rain shower, the ability to control your shower experience using a minimalist design element, and the option for the technology to disappear out of sight? Check out our concealed installation models.
- Do you want to have two showers with a thermostat installed quickly and easily? Then go for our all-in-one exposed installation solution: The Showerpipe.
- Shower sets consisting of a hand shower, wallbar, and shower hose plus exposed installation mixer or thermostat are also quick to install.
- With a shower set, you can choose a matching combination of hand shower, hose, and bar.

> Page 60

3

Find the right shower head(s)

Round (S), Square (E), softsquare (Q): hansgrohe offers many shapes, sizes, and colours for the dream shower. Hand shower, body spray, children's shower, dog shower? We've got them all. An XXL overhead shower for all-round pampering and indulgent showering? That, too. FinishPlus surface finish designs in Matt White or Brushed Bronze are sure to add unique accents.

> Page 62

4

Choose the right shower control
Do you want to be the conductor of your new and indulgent shower? With an intuitive way to turn it on and off at the touch of a button and gently control it with dials? With a shower mixer or safe comfort thermostat and integrated shelf? Choose your favourite options. A tip for pairing products: Go for products with the same colour and design in all areas of the bathroom.
> Page 84

5

Find a shower drain channel
RainDrain is the magic word for powerful drainage technology in the shower. With shower drain channels and floor drains featuring elegant designs in different sizes and surface finishes, seamless design is definitely an option for your new spa temple.
> Page 80

6

Add shower accessories and other extras
Our extras blend in perfectly with your style world, while also creating more storage space. Shower toiletries can be placed in a recessed wall niche or on a corner soap dish. From bronze-coloured shower hoses to matte-white shower holders to secure grab bars, hansgrohe accessories complete your dream bathroom.
> Page 148

Installation options for the shower

Concealed installation – who is it for?

Fans of minimalist design. It offers accessibility and cuts down on the risk of bumping into things – perfect for multi-generational bathrooms. Anything you don't want "out in the open" can be hidden behind the wall. To do this, the wall needs to be opened up. It is therefore a great option for new builds or extensive renovations. Important: Leave this job to the sanitation experts who know how to install the iBox universal 2 and connect the correct pre-fab sets.

Concealed installation:
The technology that can be hidden in the wall for a minimalist look

Elegant shower system with the PowderRain overhead shower
Concealed solutions ensure a tidy look for the shower or bath tub and allow more room to move. How is this feeling of spaciousness created? By having the water technology installed in the wall and flat pre-fab sets controlling the shower heads. The Brushed Bronze ambience consists of a Rainfinity overhead shower, Rainfinity shower set, and ShowerSelect Comfort E concealed thermostat, which creates a home spa with the perfect shape, colour, and functionality.

A modern boost of freshness with a hand shower
The hand shower is held by a porter set, and the hose is screwed onto the wall connection. A flat, minimalist solution breathes new life into the bathroom, especially as everything is in Matt White. This combination consists of a three-spray Pulsify S hand shower and a DuoTurn Q concealed mixer for one function.

Exposed installation – who is it for?

People who want to modernise their shower the simple and unique way, but who don't want a full renovation. The comfort solutions are simply installed on existing water connections. The fixing dimensions are standard sizes to ensure all systems work in every bathroom. After all, even rental apartments deserve a refresh every once in a while, and Showerpipes can be quickly removed and replaced with shiny new ones.

Exposed installation: Quickly and easily take the shower to the next level

Showerpipe with overhead shower: The light renovation option

It's the quickest way to a large rain shower, as the Showerpipe comes pre-assembled and is installed on existing connections. This saves time, effort, and money. The complete system enhances the bathroom and features two shower heads with a thermostat. When it comes to design and functionality, everything is perfectly coordinated. The Matt Black Vernis 240 Showerpipe consists of an overhead and hand shower with a hose and riser pipe as well as a thermostat.

Sleek setup with DIY elements

When planning your shower, you have the option to mix and match beautiful and practical components in your shower set. This chrome colour scheme pairs the round Pulsify S hand shower with the ShowerTablet Select exposed thermostat. Matt White WallStoris accessories provide additional storage space. The hand shower is held in place with a WallStoris wallbar, which acts as a minimalist shower rail – a cost-effective solution.

The XXL shower experience

From small cubicles to spacious shower temples, hansgrohe has the right overhead shower for every showerplace. Bronze or Matt Black, one spray mode or several – it's all a matter of taste.

Design highlight:
Rainfinity overhead shower with PowderRain
The Rainfinity 360, our most lavish overhead shower, looks magnificent. Its concave spray disc wraps the entire body in a cocoon of thousands of microfine droplets. Surface: Brushed Bronze.

Get pulses racing with Pulsify overhead showers

The bathroom's look can be personalised with a square Pulsify E or a round Pulsify S. The ultrafine PowderRain spray mode once again ensures a unique sense of wellbeing in this overhead shower. Available in several colours (pictured here: Matt Black).

The size of the overhead shower needs to suit the shower area, otherwise the sprays will splatter everywhere. Tip: Seek expert advice from your specialist retailer.

Factors to consider

- Size of the shower area
- Diameter of the shower
- Throw range of the water sprays
- Pressure conditions

Which shower head for which shower area? (Examples)

90 x 90 cm: Pulsify S 260, Rainfinity 250/360
100 x 100 cm: Pulsify S 260, Rainfinity 250
120 x 100 cm and larger: Pulsify S 260

The gloriously delicate Pulsify S rain shower has a diameter of 260 mm and is affixed to the wall using a shower arm (a model for ceiling mounting is also available). A Matt White set with manual shower is made to match.

Shower system with overhead shower and hand shower

Stylish pamper packages

Next level: The Rainfinity Showerpipe

This Showerpipe combines two PowderRain shower heads and other premium components into one product. The convenient all-in-one shower system consists of a Rainfinity overhead and hand shower and a ShowerTablet thermostat with shelf – all in Matt White. The whole system is attached to existing connections, so each water source does not need to be installed separately.

Shower pipes: Be instantly transported to a feel-good island with rain shower

In the delightful world of Raindance, all shower heads have large spray discs with several spray modes in their hand showers and overhead showers. The sensual Pulsify also pampers body and mind day after day. The Vernis Shape shines in a geometric design: The square overhead shower and round hand shower make for an excellent wellness duo at an attractive price. With a range of surface finishes and product combinations, our Showerpipes fulfill the desire for a unique interior.

*Please note that certain models are not sold in Singapore.

All the enjoyment, very little consumption

Premium showers like the global bestseller Raindance turn personal hygiene into a highly indulgent experience. Our shower heads enhance every bathroom and impress users with fascinating spray modes, comfort features, and ergonomic designs – hand on heart! hansgrohe shower and design expertise dates back to 1901, and our water-saving technologies support mindful lifestyles.

Pulsify hand showers: Transforming water into wellbeing

Organic round, masculine square or minimalist manual: No matter the design, Pulsify pampers with delicate PowderRain. The Pulsify shower set, a complete package that includes a hand shower with hose and wallbar, is a particularly attractive option here.

Rainfinity: A fusion of hand shower and shelf

Nice and tidy: This beautiful combination of shower shelf plus integrated hose connection and handshower holder creates a shower ambience in a cutting-edge design. FinishPlus surface finish: Brushed Bronze.

Flexible and lightweight, stylish and sustainable

Showers with that extra-special something

The feel: Warm, fabric-like, delightful. The look: Sensational. Designflex creates a cosy vibe. The shower hose gets its attractive look from a tight weave technique with colourful yarns that create new, ever-changing patterns. It is waterproof, water-repellent, and can be cleaned in the dishwasher. As a small but trend-setting detail, the yarn is made of recycled PET plastic bottles from the Black Forest in Germany, making this a sustainable purchase.

Designflex fits all standard hand showers – simply screw it on. The innovative shower hose reflects the FinishPlus palette found in hansgrohe showers, mixers, and accessories – for an elegant and harmonious colour scheme in the bathroom.

Special hand showers with an easy attachment: How our most precious family members get clean

Jocolino: Three animal designs, two spray modes, one happy family

Our children's hand shower transforms the bathroom into the cleanest playground in the world. And so personal hygiene, often feared by little ones, becomes a happy time. The best part is when Mum and Dad tell epic tales about zebras, lions, and crocodiles during shower or bath time.

DogShower: Less stress, less chaos, more loving looks

We suffer alongside our furry friends when they get stressed out about shower time. But there is another way to groom pets. Our dog shower was developed with dog experts and psychologists. It strokes our four-legged companion clean with water. The massage effect of its nozzles does the dog so much good that it relaxes, and so does its owner.

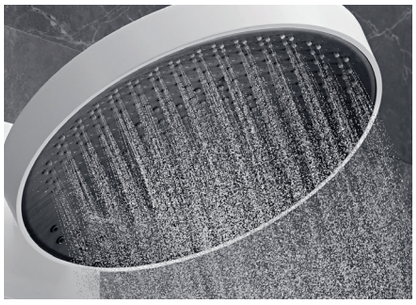
Special shower features

Adjustable Shower Head

The overhead shower's angle can be adjusted to individually adapt the water spray.

Fast Drain

The fast drainage function on the shower head reduces dripping after you've showered.



XXL Performance

The shower distributes the water over a large area so that your entire body is cocooned by feel-good droplets.

Select

The simple press of a button allows you to playfully regulate the water flow, the shower head or the spray mode.

QuickClean

Limescale deposits and dirt can be simply rubbed off the spray disc using a finger. For much less cleaning effort!

Powerful design drains for floor-level shower

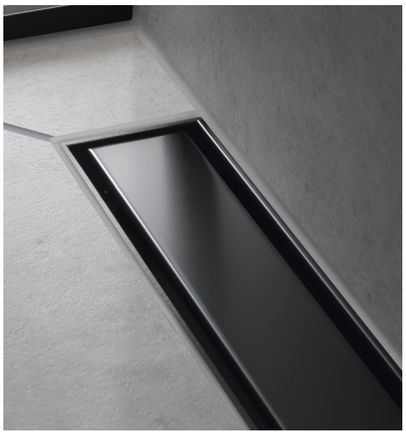
Add the stylish finishing touches to the walk-in shower with these drain systems, which are installed flush with the flooring for more comfort and a better look. Product ranges such as RainDrain Minimalistic and RainDrain Flex make used water subtly and efficiently disappear beneath the flooring. We offer a wide choice, different lengths up to 160 cm, and models that can be shortened. Only high-quality siphon and drain technology will do when it comes to safe drainage that stands the test of time. hansgrohe quality sets a standard you can fully rely on.

The perfect shower layout from top to bottom

Whether in renovations or new builds, RainDrain is the perfect drain technology for consistent bathroom concepts. Shower drain channels or point drains turn the shower oasis into a holistic design zone, as their colour is made to match the surface finishes on our mixers and showers.

RainDrain Rock – for natural stone up to 40 mm thick

RainDrain Flex – sleek in seven surface finishes



RainDrain Match – rotatable design cover, can be tiled on the back

Dryphon: Easy to clean with an excellent outflow performance

hansgrohe shower drain channels fitted with Dryphon technology minimise cleaning effort, as the powerful siphons prevent hair and dirt from accumulating in the drain. When it comes to cleaning, this saves so much time and frustration, year after year.

Dryphon is a mechanical odour trap that blocks all unpleasant smells. Once the water is drained, the opening with the high-tech membrane immediately closes to prevent any direct connection to the sewer.

With an extraordinary drainage capacity of up to 60 l/min, Dryphon handles water from large overhead showers at high speeds, thus exceeding standard values.

Find out more about Dryphon.

So easy to clean

- Release the cover using the tool that comes with the product and remove residue
- Remove and clean Dryphon (the odour trap is easy to remove, even after installation)

Thermostats, mixers

Simply control the water and enjoy the comfort

Sudden fluctuations in water temperature and water flow can be unpleasant. A thermostat instantly responds to changes and counteracts them. We offer a wide range of water regulators and shower mixers, from the simple exposed installation mixer for one shower head through to the concealed thermostat. All shower controls are high quality and intuitive to use. The same goes for hansgrohe basin mixers, which we will cover later on.

A symphony of indulgent showering with so much space

The shape of the flat ShowerSelect Comfort thermostat blends with the shower space. It looks tidy, gives the person showering an enormous range of motion, and enhances the bathroom. Available in three puristic design shapes – Square (E), Round (S), and softsquare (Q) – and all FinishPlus surface finishes. With minimalist controls like these, everything that looks "bulky" disappears entirely in the shower wall. Recommended in new builds and renovations.

Why choose concealed installation?

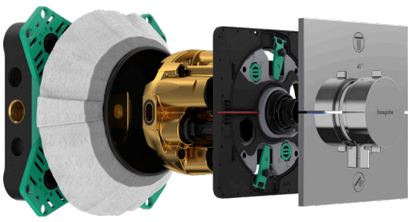
Installations with flat "pre-fab sets" impress people because they require little space and are easy to clean. What's more, they offer good sound absorption, which also makes the water experiences low-noise. Concealed thermostats can control between two and four functions – unless you opt for the RainSelect superstar, which can handle up to five functions.

When the design is perfectly integrated into the wall and the user comfort is silky smooth, you know you've got RainSelect – our central control board for the home spa. The design thermostat's slim silhouette, high-quality surface finish, and elegant shape define the space it's placed in. The 70 x 70 mm Select buttons control up to five water sources with one touch. Available in the White, Black, and Chrome finishes.

ShowerSelect Comfort thermostat – a work of art for the wall, with a shadow gap as an extra design element

DuoTurn mixer: Turn up the showering comfort

The DuoTurn shower mixer turns on soothing water experiences and allows everyday life to fade into the background. With one turn, users can switch the overhead shower to the hand shower or set the water temperature and water flow – a minimalist solution with maximum ease of use.



iBox universal basic set: Invisible technology, proven millions of times over

With concealed installation, the plumber starts by installing the bestselling hansgrohe iBox universal 2 in the wall. Our pre-fab sets are then mounted on this base set.

Increase instant happiness in the shower with comfort solutions

A hansgrohe exposed thermostat can be installed on existing water connections in a few simple steps. The look of its clear, puristic design works well in any shower or bath tub, while the modern water controls make people feel safe with the water flowing at a constant feel-good temperature.

Thermostats – good-looking and designed for universal use

When it comes to water controls such as the ShowerTablet Select, an integrated shelf and hand shower holder ensure maximum comfort. With its glass shelf, this multifunctional design thermostat offers plenty of space for toiletries – so they are always within reach for the person in the shower or a bath. The intuitive Select button starts and stops the water flow conveniently with just one touch.

Technologies for more comfort

Select
The simple press of a button allows you to playfully regulate the water flow, the shower head or the spray mode.

Rotatable Bath Spout
The bath tub filler can be rotated under the thermostat when not in use. Nice and tidy.

Features for more sustainability

EcoStop
Full control when saving water. The EcoStop function initially reduces the water flow to a maximum of 10 l/min.

Water flow control
Actively regulate water consumption – the dial can be used to set the water flow.

Features for more safety

CoolContact
Thermostat with innovative cooling technology that protects you against unpleasant touches or burns.

SafetyStop
Safety lock above 40 °C – temperature limitation to prevent the flow of excessively hot water.

Basin mixers – beautiful, functional, versatile

We treat our customers to award-winning design quality. Sophisticated features ensure more comfort and ease of use. hansgrohe mixers help to save water and energy. Find the perfect mixer here.

Mixer design: Choose the shape, size, and colour

Bold and linear, organic and round, minimalist and slimline? This all depends on personal taste and the other shapes in the bathroom interior. For the perfect look and functionality, it is important that the basin mixer's height and spout length is a great match for the wash basin. Ultimately, you want to see and feel a dream team here (we call it ExcellentFit). Even better when all mixers come from the same range. Mixers in FinishPlus colours also create exceptional accents.

Choose the right installation type for the wash basin

Basin mixers can be freestanding or mounted on a wash basin or wall. Their water spray can cascade down into a small, large, deep or shallow vanity. hansgrohe has the fitting solution for every situation and every requirement. Let's make the washplace more than somewhere to brush teeth or wash hands.

Pulling the plug in the wash basin:
The drain valve can be opened and closed using a pull rod or push-open technology.

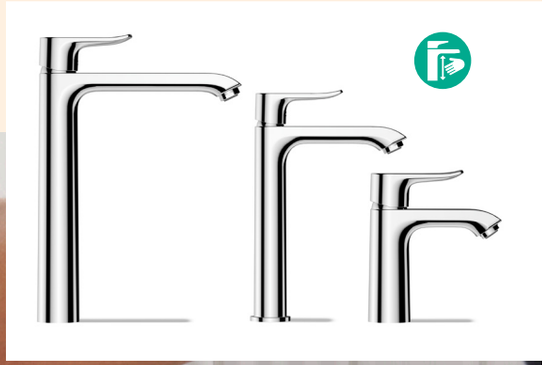
Freestanding: Tall mixer behind a countertop basin
Here a Vivenis single-hole mixer in Matt White stands tall behind a Xuniva S countertop basin – a graceful installation option that looks lovely.

Freestanding: Mixer on wash basin with tap hole bench
Here an exclusive Finoris single-hole mixer is installed in the tap hole of a Xevolos E countertop basin – a traditional design that offers additional storage space.

Wall mounting: A concealed installation mixer above the ceramics
Here the bold spout design of a Metropol wall-mounted mixer is operated using controls – an elegant option that guarantees plenty of room to move.

hansgrohe ExcellentFit: Wash basins and mixers that work well together

It's annoying when the wash basin and mixer aren't a good fit – it can cause water to splatter where it shouldn't or it can create a look that isn't quite right. So how do you figure out what works well and looks good together? We want our customers to have user-friendly dream combinations, so we have tested a variety of mixer and wash basin duos and combinations with other manufacturers' products at our Technical Service Center. Those that pass the test are listed in hansgrohe ExcellentFit, the matrix of all washplace dream teams. Download this information from our website now.



Bringing together what belongs together

hansgrohe mixers are available in different ComfortZone heights to allow plenty of space between the wash basin and mixer and ensure everyone has the perfect water experience when washing their hands. What a way to wow with bathroom design. From highrisers for countertop basins to wall-mounted basin mixers, you can find the perfect pairing quickly and easily with hansgrohe ExcellentFit.

Find the perfect pairing of mixer and ceramics.

Less water, better feeling

EcoSmart

Saving resources with pleasure! The clever EcoSmart technology reduces the water consumption of hansgrohe lavatory mixers to no more than 5 l/min*, while EcoSmart+ products consume even less at a maximum of just 4 l/min*. Integrated flow limitation ensures a conscious use of water and energy required to heat the water. All without a loss of comfort.

*at 3 bar

Find out more about EcoSmart.

CoolStart

This energy-saving mixer only allows hot water to flow when the lever is actively moved – whereas standard mixers immediately consume energy when the handle is opened in the basic position. CoolStart helps to conserve resources and cut CO_2e emissions and costs.

Find out more about CoolStart.

Intelligent technologies, clever functions

Select
Water on, water off: One push of a button is all it takes to control the water flow at the wash basin.

AirPower
Mixes air into the water. For a soft, lower-splash water spray and full, light droplets.

QuickClean
Limescale deposits and dirt can be simply rubbed off the spray disc using a finger. For much less cleaning effort!

The hands-free electronic mixer
The sensor on this mixer acts like a motion sensor as it responds to changes in the infrared rays and immediately turns off the water once it stops detecting warmth from hands. This solution is economical, eco-friendly, contactless, and hygienic – perfect for public spaces.

The pull-out mixer
Washing hair or bathing baby in the wash basin? Filling tall containers or effortlessly cleaning ceramics? All this becomes a pure joy with a pull-out spray. The stylish Finoris mixer meets all needs at the wash basin – with minimalist design, maximum flexibility, and two spray modes in the shower, including micro-soft PowderRain.

A mixer category for complete bathroom harmony

hansgrohe mixer categories are known for their typical design that can be applied to all areas of the bathroom, so you can have the same design language at the washplace and showerplace as well as around the bath tub and bidet – this strikes an aesthetic balance with all mixers matching.

Metropol mixers are known for bold precision. With their geometric clarity, this high-quality hansgrohe range creates a perfect visual connection to all areas of the bathroom. FinishPlus colour: Brushed Bronze.

Bold statements at the bath tub

Metropol design unit with Raindance Select S hand shower (top): The shower hose disappears into the rim for a minimalist look. Once here, the hansgrohe sBox enables it to be smoothly pulled out and retracted. Colour: Brushed Black Chrome.
Another option: The floor-standing Metropol mixer (right) that holds a manual shower and looks elegant as it towers high beside the bath tub. Colour: Matt Black.

Bathroom accessories, wall niches

Stylish helpers for the bathroom

hansgrohe accessories add more design flair, comfort, and harmony to the bathroom. High-quality towel holders, soap dispensers, shelves, and wall niches are clever assistants that ensure tidiness at the washplace, in the shower, and around the bath tub. In addition to their practical function, they add a unique look to the space. And they perfectly complement hansgrohe shower and mixer categories with their timeless design. With modern surface finishes, they create beautifully colourful, harmonious accents.

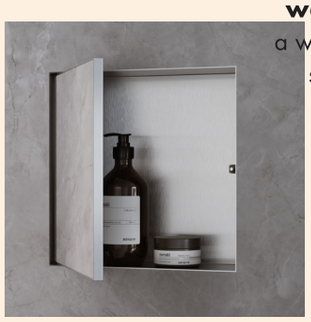
XtraStoris: Wall niches for storage

Design fans who want practical, stylish, and high-quality storage options for their bathroom items appreciate XtraStoris, as the integrated storage solution creates more room to move in the shower. The waterproof system also uses the free space on the wall in the most tasteful way possible. The body and frame can be chosen in the bathroom's colours to match other hansgrohe shower products or in different surface finishes to contrast with them.

Beautifully watertight thanks to a waterproof installation set and seal liner

XtraStoris Minimalistic: The frameless shower niche can be installed flush with the tiles or wall design or protruding from the wall. For personal design accents in the bathroom.

XtraStoris Individual with design frame: Colours such as Matt Black work well with hansgrohe showers and mixers in the same FinishPlus hue. Pictured: Design frame in Polished Gold Optic.



XtraStoris Rock with tileable door that is easy to open and close thanks to the push-open mechanism. Pictured: Easy to clean surface finish in Matt White.

XtraStoris Original enables the toilet paper and toilet brush to disappear elegantly into the wall next to the toilet to save space.

From shaving mirrors to toilet paper holders with a shelf, AddStoris accessories reflect your own vision of bathroom design. FinishPlus colour: Brushed Bronze.

AddStoris: Everything always neatly within reach

From hand wash to shampoo to toothpaste, bathroom products and toiletries need some kind of system to keep everything tidy and create a harmonious look. AddStoris accessories are always on hand in the bathroom. They cut down on chaos and are a toolbox for a better look and more comfort. Their shape, colour, and style perfectly complement hansgrohe mixer and shower lines. Available in six surface finishes.

WallStoris: Tidy and decorative on the wall

Lack of storage space? This creative system tidies your bathroom must-haves. The stylish brand-quality accessories enhance every wellness zone and remain safely in place. WallStoris modules can be glued (great for renters!) or screwed to the surface, mixed and matched in countless combinations, and placed wherever works best!
