Life is waterful.

Dream bathrooms that inspire

hansgrohe-asia.com

Life is waterful.

Day after day, we pour all our passion and precision into creating unrivalled water experiences that meet standards and generate genuine enthusiasm. When it has a holistic concept applied to every area, the bathroom becomes a place that can enrich lives and fill them with emotions and extraordinary moments. It's a place to feel special, every single day. Where people are free to express their individuality and enjoy the beauty of water with all their senses.

Tradition and innovation

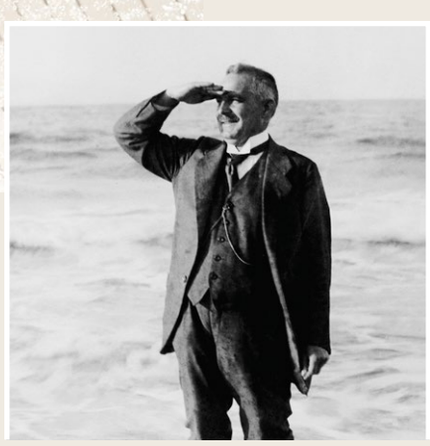
Bubbling with ideas since 1901

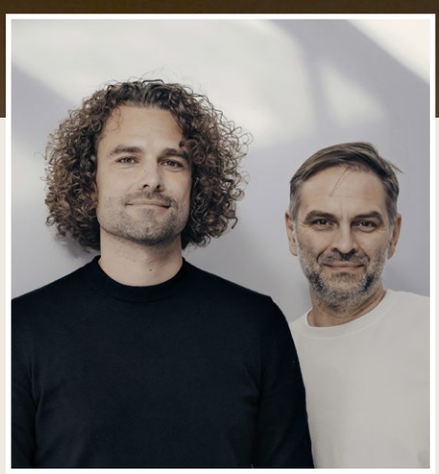
Hansgrohe SE is celebrating its 125th birthday in 2026. We have always pushed the limits of the technically feasible and rethought bathrooms – based on the needs and requirements of our customers and specialist partners.

hansgrohe has been one of the pioneers and innovation leaders in the sanitation industry since day one. We are constantly pushing the limits of the technically feasible and, in so doing, revolutionising mixers, showers and bathrooms. Not only do we optimise designs and materials, but we also constantly rethink functionality by continuously addressing our customers' needs. Sensual spray modes such as PowderRain or pioneering installation solutions such as the iBox universal 2 are good examples of this. Our inventions encourage people to enjoy the beauty of water.

125 YEAR ANNIVERSARY

Company founder Hans Grohe's pioneering spirit is deeply rooted in our DNA and shapes the work we do.





GOLD AWARD 2025

GERMAN DESIGN AWARD WINNER 2023

reddot winner 2025
best of the best

Stuttgart-based PHOENIX's success is backed up by more than 800 renowned design awards to date.

PHOENIX and hansgrohe

Partners in good taste

PHOENIX is considered one of the leading independent studios for product and interface design worldwide. The legendary Stuttgart-based design workshop is an integral component of German design history and has been causing a stir since as far back as the 1970s. PHOENIX has spent just as long shaping the face of hansgrohe, as it has been exclusively designing all the key products for our premium brand since its foundation.

The pioneers design objects that last a long time and bring lots of joy. They develop a portfolio for hansgrohe that creates totally new water experiences and always succeeds in striking the balance between functionality and magic. Together, PHOENIX and hansgrohe use modern, clean lines and add emotion to increase the desirability of bathroom design.

Where water droplets become wellness

The hansgrohe spray laboratory

This is where the precious element of water is shaped into a personal wellness medium. After all, not all droplets are created equally. Micro-fine, lightly massaging or intense, our experts in the spray laboratory have developed a wide range of spray modes – the ones that have made hansgrohe showers so famous. They also research the splashback properties of water to ensure it feels nice on the skin and prevents puddles forming on ceramics. And in the sound laboratory, our experts fine-tune the sound of water-bearing products to perfection to ensure non-stop acoustic enjoyment.

Beautiful spray patterns are no coincidence at hansgrohe. They're the result of in-depth spray research in countless test cycles.

Each hansgrohe product needs to prove its worth over and over in test cycles, stress tests and quality assurance inspections. We always involve our consumers and specialist partners in the testing of our prototypes to ensure the products are safe, durable and top quality in daily use. The flexible silicone nozzles pictured above have been developed to prevent limescale from sticking to them. That's what we call smart thinking.

hansgrohe product quality

Uncompromisingly high-end

hansgrohe products meet the strictest drinking water regulations and hold all the major approvals. They are built to last. After all, genuine quality stands the test of time. Our customers can rely on the highest quality with regard to materials, design and functionality. As good bathroom design remains timeless, we make our products to be visually durable and ideal for mixing and matching – with a clear design aesthetic that goes with a wide range of interior styles.

Our sustainability strategy

Less water, pure joy

"We are converting our entire water-bearing product range to water- and energy-saving technologies by 2030 – both for the AXOR and hansgrohe brands."

"Water is the elixir of life," as Klaus Grohe, son of our founder and former Chairman of the Executive Board, used to say. "The social interest in clean water and its availability to everyone is thus also our own."

At Hansgrohe, we walk the talk: for example with the insights from our bathroom analysis. As a result, we are converting our entire range of mixers and showers to ECO design specifications by 2030. This means our products will then only be available with water- and energy-saving technologies. We intend to consistently implement this plan over the coming years.

The Hansgrohe Group defines "ECO" as the reduction of the water and/or energy consumption of water-bearing products in usage by at least 22 percent compared to 2020 (the base year).*

Hans Jürgen Kalmbach, Chairman of the Executive Board of the Hansgrohe Group

*The benchmark for this is the average flow per minute based on our entire product range. We intend to reduce this flow rate by at least 22 percent compared to the base year (2020) by 2030. The reduced water consumption also results in lower energy consumption when heating the water.

hansgrohe water savings calculator

So much can be saved with clever technologies!

Thanks to EcoSmart technology, many hansgrohe mixers and showers already conserve water and energy and save actual money, while CoolStart mixers reduce the valuable energy used to heat water. EcoSmart* and CoolStart** products enable people to be more sustainable in every bathroom and in every project – especially as they are no more expensive than standard products. The savings can soon mount up, especially in hotels and other major projects.

EcoSmart **CoolStart**

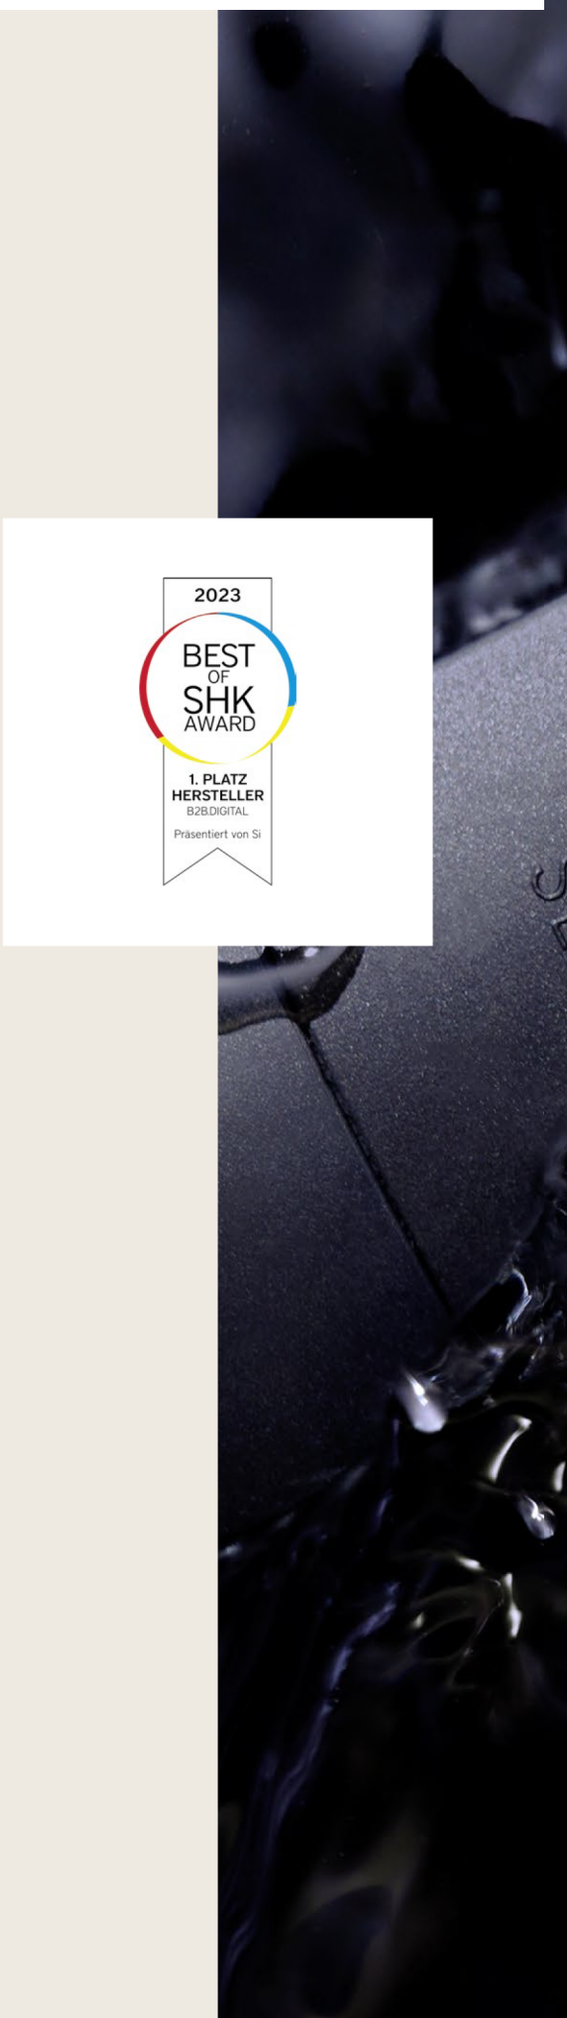
*EcoSmart products work with flow limitation – without a noticeable loss of comfort. hansgrohe showers with EcoSmart therefore use up to 40% less water than our showers without this technology. With EcoSmart+, it's as much as 60%. EcoSmart showers therefore consume only 8 l/min – or just 6 l/min or less with EcoSmart+. EcoSmart also reduces water consumption to around 5 l/min in hansgrohe basin mixers, while EcoSmart+ mixers consume as little as 4 l/min (each at 3 bar).
**Energy-saving CoolStart mixers only allow hot water to flow when the lever is actively moved.

Service quality

Top-notch every time

"Here at hansgrohe, we think in terms of solutions, even when it comes to service, and have one aim: to make customers fans of our brand. We therefore offer them quick and comprehensive service across all channels."

Danny Stahl, Head of Professional Service & Support at the Hansgrohe Group



Whether in our Aquademie, the Water Studios, over the phone or at trade fairs and events, we are always approachable. Our team of experts at the Technical Service Center is happy to provide customers with information and advice on all issues and questions. From tradespeople and retailers to planners and architects, our specialist partners can access our expertise via many channels – through our online support services and in training courses. Our business customers also often hand us 'Best of' awards, for example for our PRO Video Service, which enables us to provide help live at the building site.

hansgrohe offers a voluntary manufacturer's guarantee of five years on showers and mixers and 20 years on ceramics. Spare parts can be purchased from us online, and we will guarantee 15 years of availability of these parts.

hansgrohe
SELF

For bathrooms with personality

Six finishes, endless options

FinishPlus colours create unique accents in the shower, at the washplace and in the toilet area. A bronze-coloured shower system is a design highlight, a Matt White mixer is a fresh-faced head-turner. hansgrohe thermostats and showers can be Matt Black or gold-coloured. If the colour of the wallbar, shower hose and accessories matches, it adds style to the whole bathroom – and makes it look new.

Matt Black (-670, -677)
provides a contrast and takes the bathroom design back to basics.

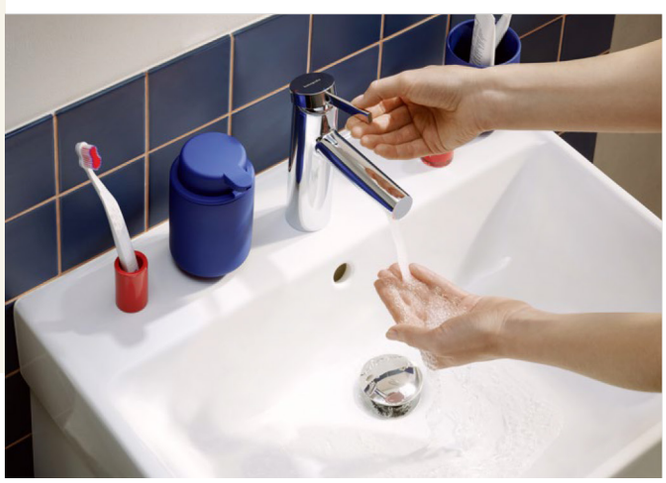
Matt White (-700, -707)
is versatile and creates unconventionalfreshness.

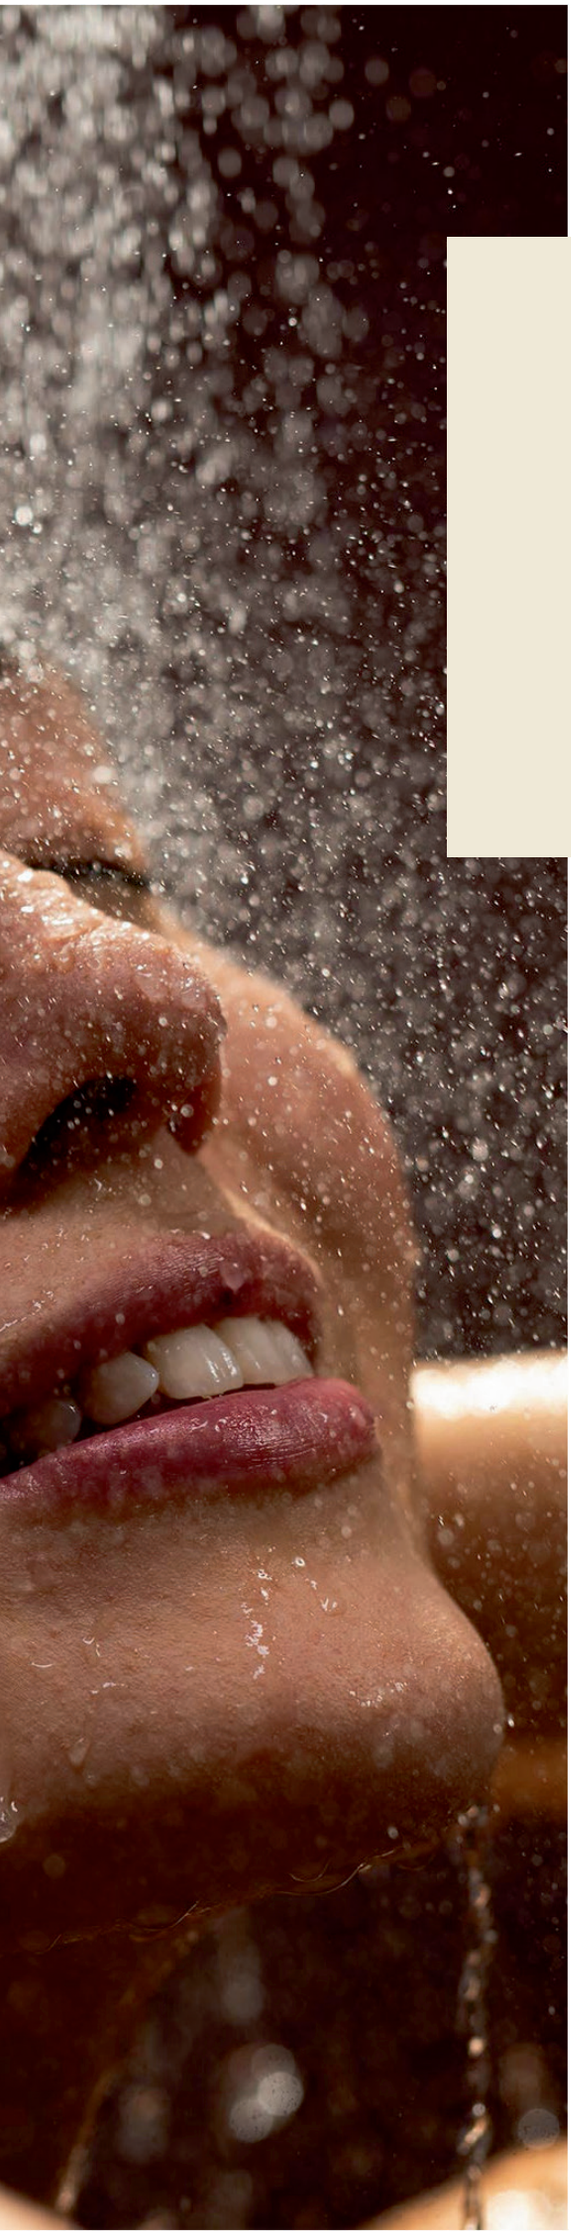
Brushed Bronze (-140, -147)
exudes subtle flair and looks elegant with white and natural tones.

Polished Gold Optic (-990, -997)
enchants lovers of extravagant design and brings glamour to the bathroom.

Chrome (-000, -007)
is a timeless classic that makes the bathroom shine.

Brushed Black Chrome (-340, -347)
has an air of sophistication thanks to its dark appearance.





SHOWERS

WELLNESS AT HOME
WITH SHOWERS BY HANSGROHE

Blissful spray modes

RainAir
Full shower rain with droplets enriched with air for soft yet efficient and indulgent showering.

PowderRain
Relaxing, micro-fine droplets that softly and silently cocoon the body. For sensual showering.

Effect-based spray modes

Intense PowderRain
Intense spray consisting of thousands of micro-fine droplets. Thorough, soothing and low-splash.

Rain
Invigorating and energizing showering indulgence with full shower rain designed for everyday shower pleasure.

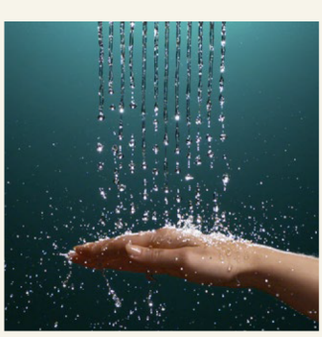
Focussed spray modes

Intense Rain
Powerful, stimulating water spray that washes away tiredness and leaves people feeling fit.

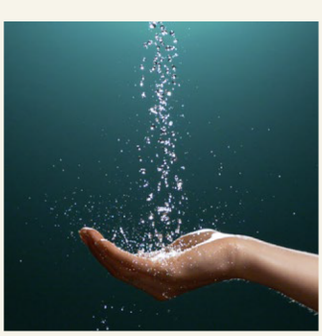
Impact Rain
Massaging spray with an innovative design creates an intense showering feeling with just a little water.

Whirl
Concentrated massage spray that helps to nicely and gently wash away everyday tensions and stress.

MonoRain
Focused and extremely gentle spray for soothing wellness moments and hydrotherapeutic showering.



RainStream
Lavish downpour consisting of individual pearl-like droplets that invigorate mind, body and soul.



Massage
Invigorating, focused and powerful spray for the home spa that allows the day's stresses to simply drain off.

Save water, energy and money in the shower

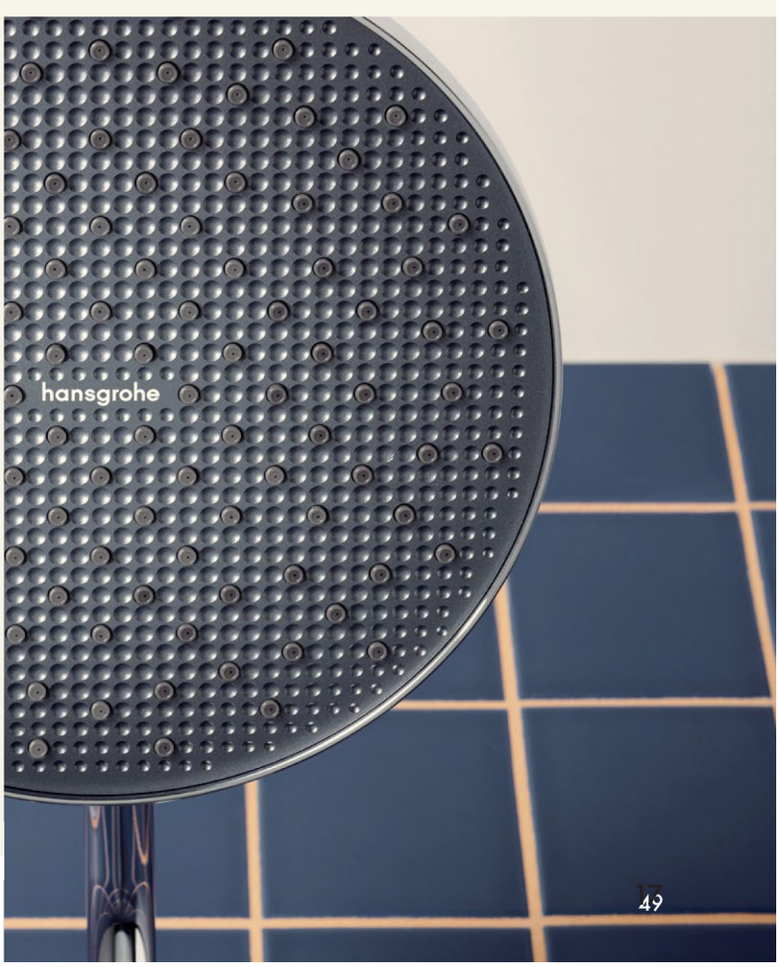
EcoSmart

Thanks to integrated flow limitation, hansgrohe showers with EcoSmart use up to 40 % less water than our showers without this technology. With EcoSmart+, it's as much as 60 %. Many EcoSmart showers therefore consume only 8 l/min – or just 6 l/min or less with EcoSmart+.

Evens out pressure and simplifies cleaning

FlexPower technology

ensures consistent performance and powerful water sprays at low or fluctuating pressure. The flexible Flex nozzles in the spray disc are shaped like a clover leaf and ensure the pressure evens out through constant dynamic movements. This also allows less limescale to accumulate, which can further reduce the need for cleaning. Pictured here: Activera overhead shower.



“I love the feeling of showering with Raindance Alive.”

That’s what 9 out of 10 shower testers told us in the Smart Insights consumer research with 100 participants in July/August 2024.

Raindance Alive

Striking a chord with our senses

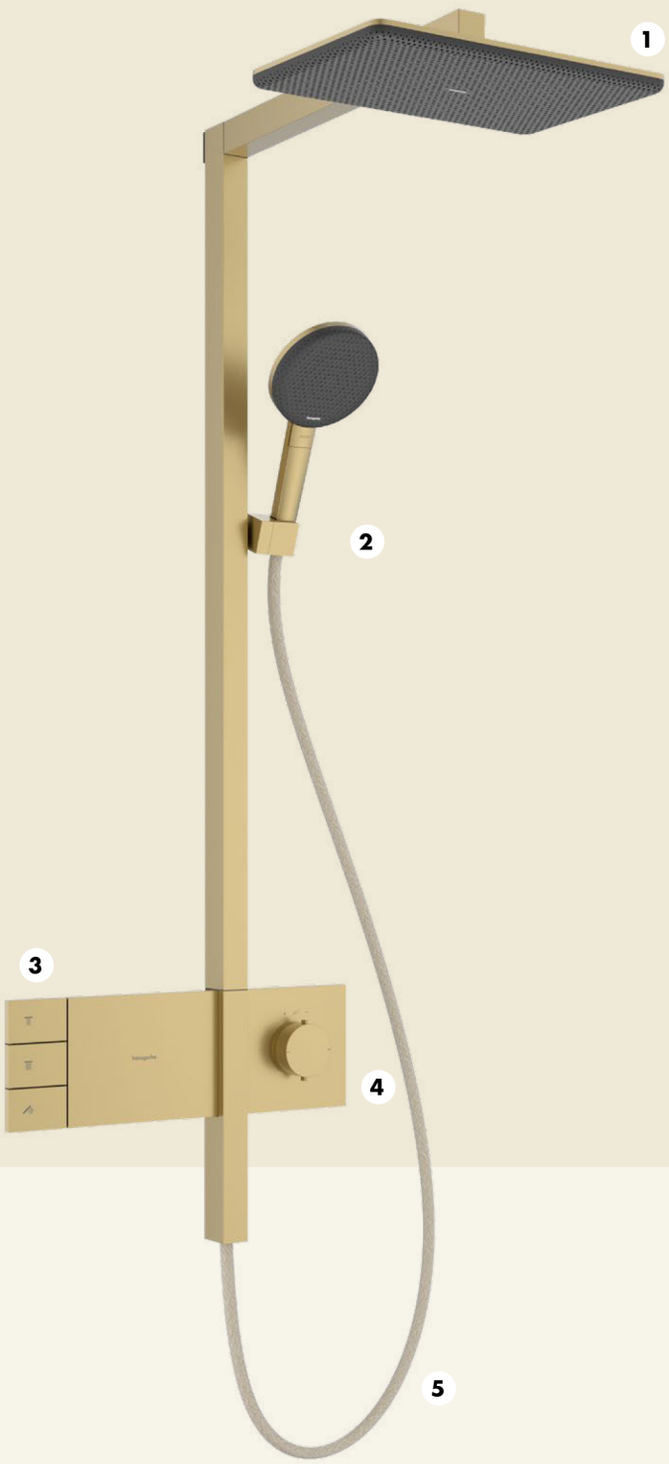
GOLD AWARD 2025

reddot winner 2025
best of the best

Feel relaxation and well-being as water droplets flow over the body, caressing the skin. It's like a favourite song – intensely felt, indescribable. Some call it happiness; others dance with closed eyes and dream. Raindance Alive – the innovation of enthusiasm.

The innovative shower system's thermostat design is so minimalist and sleek that it protrudes by just 36 mm without or 40 mm with the handle. The warm, fabric-like shower hose enhances the cosy look and feel. Finish: Brushed Bronze.

Raindance Alive exposed installation Showerpipe
Doesn't it look like a concealed installation? Our latest design highlight lies extremely flat against the wall for a minimalist look and maximum freedom of movement.



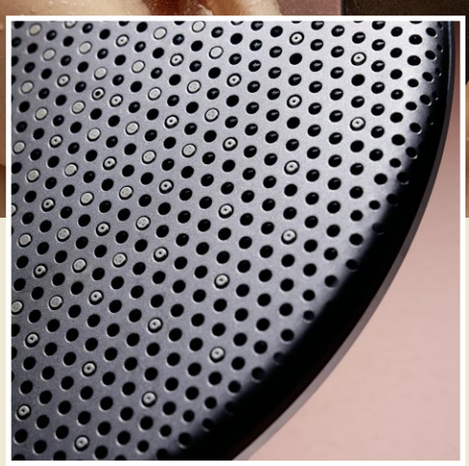
1 Large design overhead shower with the RainAir and PowderRain spray modes
The anodised aluminium cover gives it an elegant and understated look.

2 Convenient height adjustment
The hand shower's minimalist slider cube can be pushed to the required position with one hand.

3 Large Select buttons with clear symbols
The showers and spray modes can be intuitively controlled via the metal thermostat.

4 Ultra-flat exposed installation thermostat
The visibly scaled-back composition is a new design archetype.

5 Designflex shower hose
The braided yarn features different colours to give the hose its unique look and pleasant feel. The yarn is made of recycled PET plastic bottles.

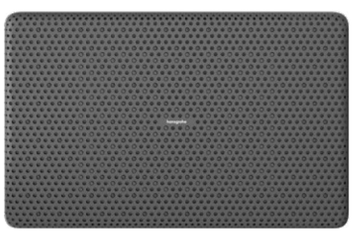


The hand shower features a universal, round S design – with a large spray disc (125 mm) and a light, ergonomic handle. The Select button has been perfectly integrated into the handle for a seamless look and convenient toggling between the three spray modes: RainAir, PowderRain and massage spray.

Inspiring yet cosy design

The mesh-effect cover lends the Raindance Alive showers a more fabric-like style, making them look less technical as the mesh surface conceals the spray disc and spray nozzles. Water droplets cascade organically from this innovative structure. This seamlessly blends the shower into the room for a sensational look and a cosy, feel-good atmosphere.

RainAir and PowderRain from one shower!
The two-spray overhead shower pampers with our two most popular spa spray modes: RainAir and PowderRain.



This new feeling of wellness from the overhead shower can be experienced in two forms: in the softsquare design with rounded corners and in the geometric, round design.

The Raindance Alive concealed installation model with round overhead shower, controlled via an Ecostat Comfort thermostat. Colour: Matt Black.

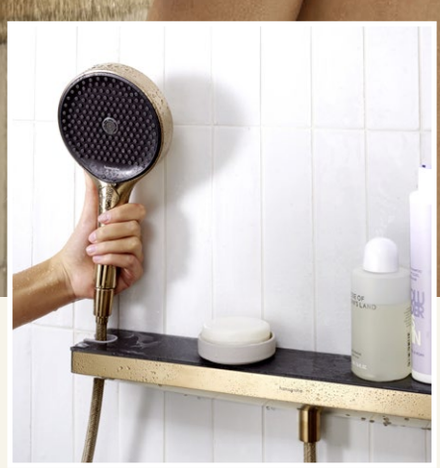
XXL overhead shower can be tilted between 10° and 30°



Rainfinity shelf with integrated hose connection and hand shower holder – for showers with a state-of-the-art design.

Glorious relaxation with PowderRain: the shoulder shower with integrated shelf takes showering comfort to the next level.

Rainfinity

The ultimate in showering indulgence

Rainfinity pampers with microfine PowderRain, microfine droplets that do the body, mind and soul the world of good. Design fans appreciate the elegant shapes, integrated shelves and appealing colours. Rainfinity creates exciting pops of colour in the bathroom.

Design highlight: Rainfinity overhead shower with PowderRain
The Rainfinity 360, our most lavish overhead shower, looks magnificent and does the world of good. Its concave spray disc wraps the entire body in a cocoon of thousands of microfine droplets.

Next level: the Rainfinity Showerpipe
This Showerpipe combines two PowderRain shower heads and other premium components into one product. The convenient all-in-one shower system consists of a Rainfinity overhead and hand shower and a ShowerTablet thermostat with shelf – all in Matt White. The whole system is attached to existing connections, so each water source does not need to be installed separately.

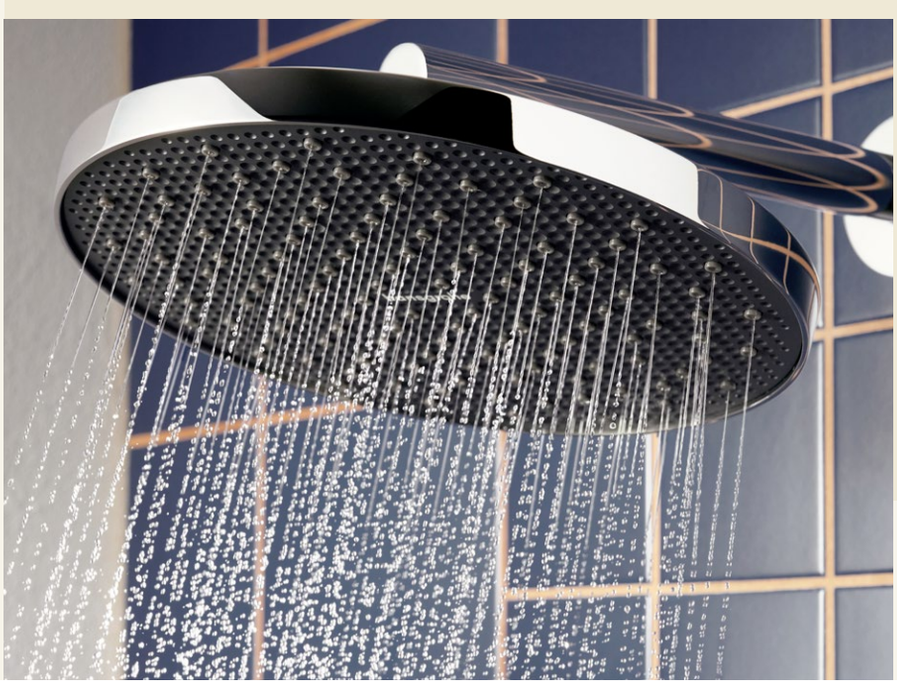
Timeless bathroom design
In addition to the round S shape, Activera is also available in the Q shape with rounded corners. They come in multiple models, combination options and two stylish colours: Matt Black and Chrome, each with a graphite-coloured spray disc.



The spray disc on the round overhead shower measures 240 mm in diameter – for blissful showering experiences with the Rain spray mode to luxuriously envelop the entire body, despite the far lower water flow rate.

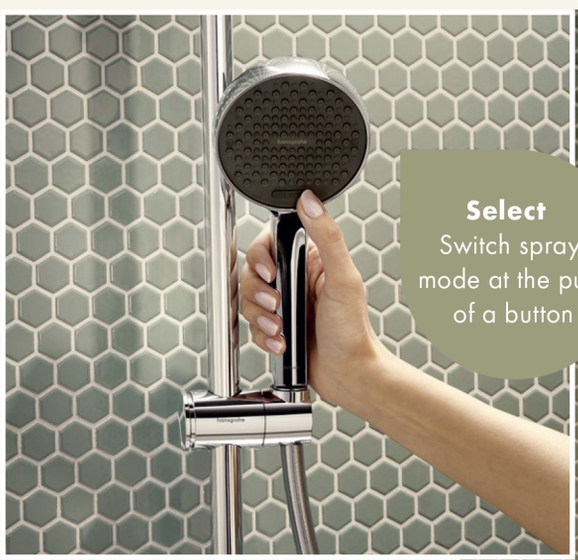
Activera

Showering for every body, mind and moment

Activera Q

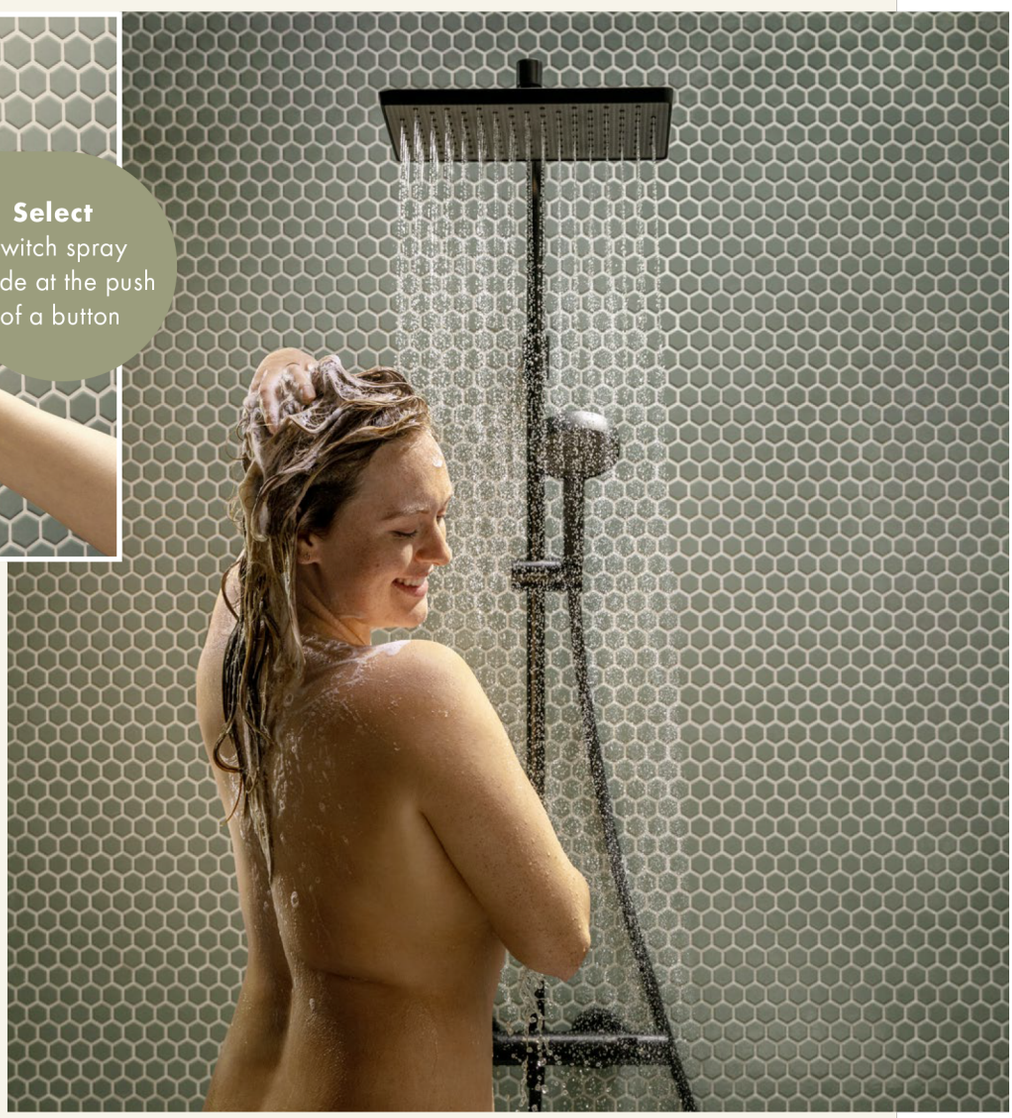
Activera S

A name that combines top shower attributes with low water consumption and makes comfort, joy and safety the priority. Activera maximises shower performance without increasing water consumption in a family- and budget-friendly product range.



Relaxation at the push of a button

The ergonomic hand shower comes with an intelligent hansgrohe Select button integrated into the spray disc – so simply and intuitively switch the spray mode at the push of a button.



The Showerpipe combines a large rain shower with a comfort shower set and the Ecostat Fine thermostat – the only all-round package of its kind.

Shower accessories

For the dream shower from top to bottom

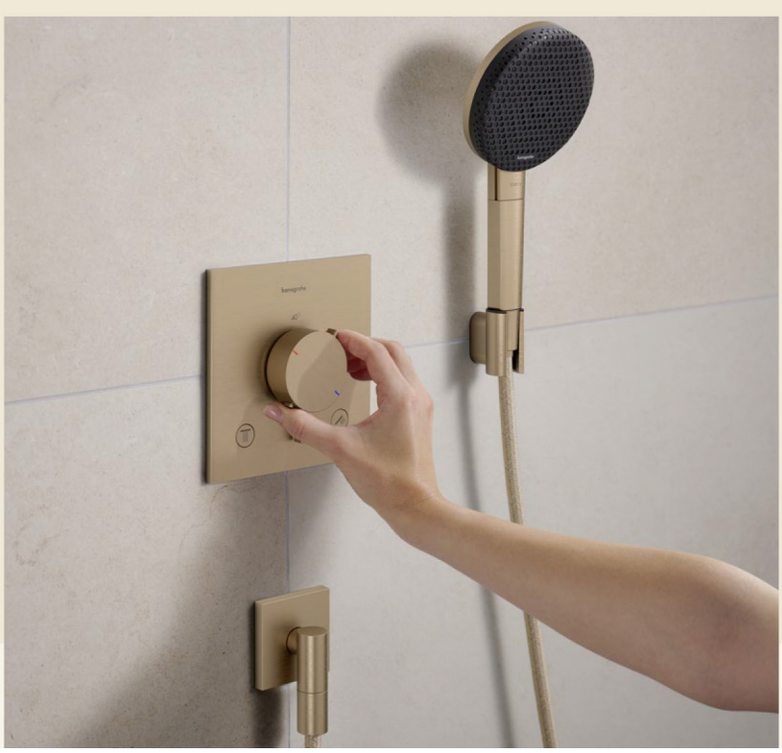
Designflex – the cosy shower hose

The feel: warm, fabric-like, delightful. The look: sensational. The shower hose gets its attractive look from a tight weave technique with colourful yarns that create new, ever-changing patterns. Designflex is waterproof, water-repellent and can be cleaned in the dishwasher. As a small but trend-setting detail, the yarn is made of recycled PET plastic bottles from the Black Forest in Germany, making this a sustainable purchase.

Designflex fits all standard hand showers – simply screw it on. The innovative shower hose reflects the FinishPlus palette found in hansgrohe showers, mixers and accessories – for an elegant and harmonious colour scheme in the bathroom.

FixFit Fine & Porter Fine – elegant wall connections and shower supports

The Porter Fine shower support and FixFit Fine wall connection, available in the S, Q and E shapes, perfectly complement hansgrohe finish sets. The variety of FinishPlus finishes allows for individual, seamless shower design. Precise workmanship and durable metal wall flanges ensure excellent quality.



When all products in the shower are in the same style and colour, it's an aesthetic delight.
All hansgrohe accessories pictured here go together perfectly in this shower system.

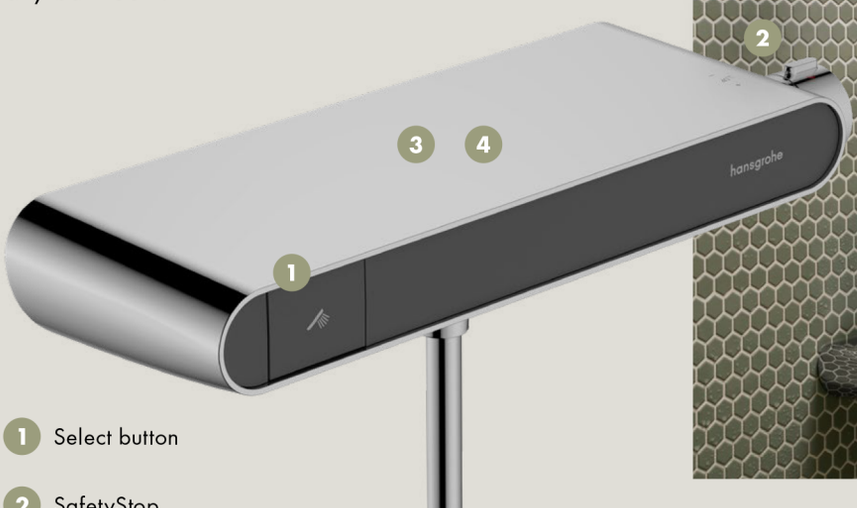
ShowerTablet Select

Design thermostats with a convenient shelf

Presenting our practical exposed thermostat in a new look, with the same intuitive Select controls, high performance and the option to have everyday bathroom items within reach.

ShowerTablet Select 360
Timeless look that outlasts fleeting trends. The modern design with a refined two-tone finish and graphite grey front is a match made for any bathroom.



1. Select button
2. SafetyStop
3. CoolContact
4. Convenient storage solution with integrated shelf

The classic: ShowerTablet Select 400, pictured here in Brushed Bronze, with integrated shower holder.

Ecostat Fine & Element

Thermostats for maximum comfort

Two thermostat ranges that pamper people with a constant water temperature and protect against burns. They also help to use water and energy economically, and their puristic design truly suits every shower and bath tub.

1. Specially designed handles with improved grip – for a safe way to set the temperature and water flow without slipping.
2. SafetyStop
3. EcoStop
4. WaterFlowControl

Ecostat Fine has a puristic design with a graphite grey flag for perfect grip on the handles. Harmoniously combine the exposed installation thermostat with Activera shower heads with a graphite-coloured spray disc, for example.

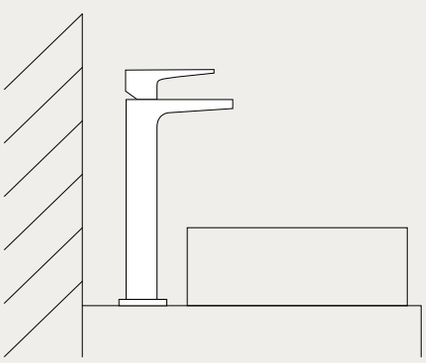
MIXER

FROM CLASSIC TO MODERN - ONE RANGE

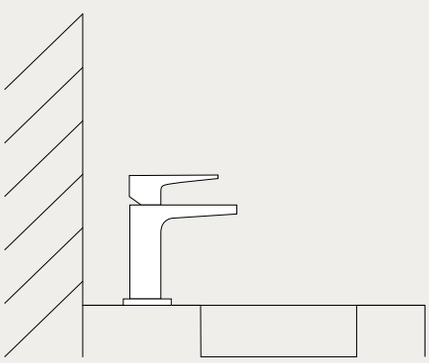
Pulling the plug in the wash basin: The drain valve can be opened and closed using a pull rod or PushOpen technology.

Installation types

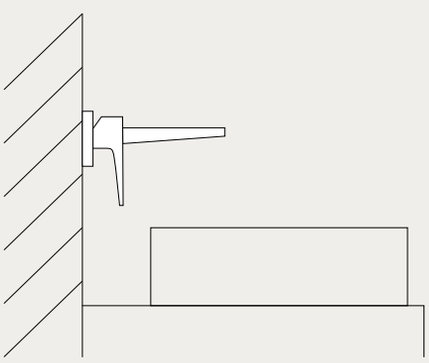
Perfect for every wash basin



Freestanding: Tall mixer behind a countertop basin
Here a single-hole mixer stands tall behind a countertop basin – a graceful installation option that looks lovely.



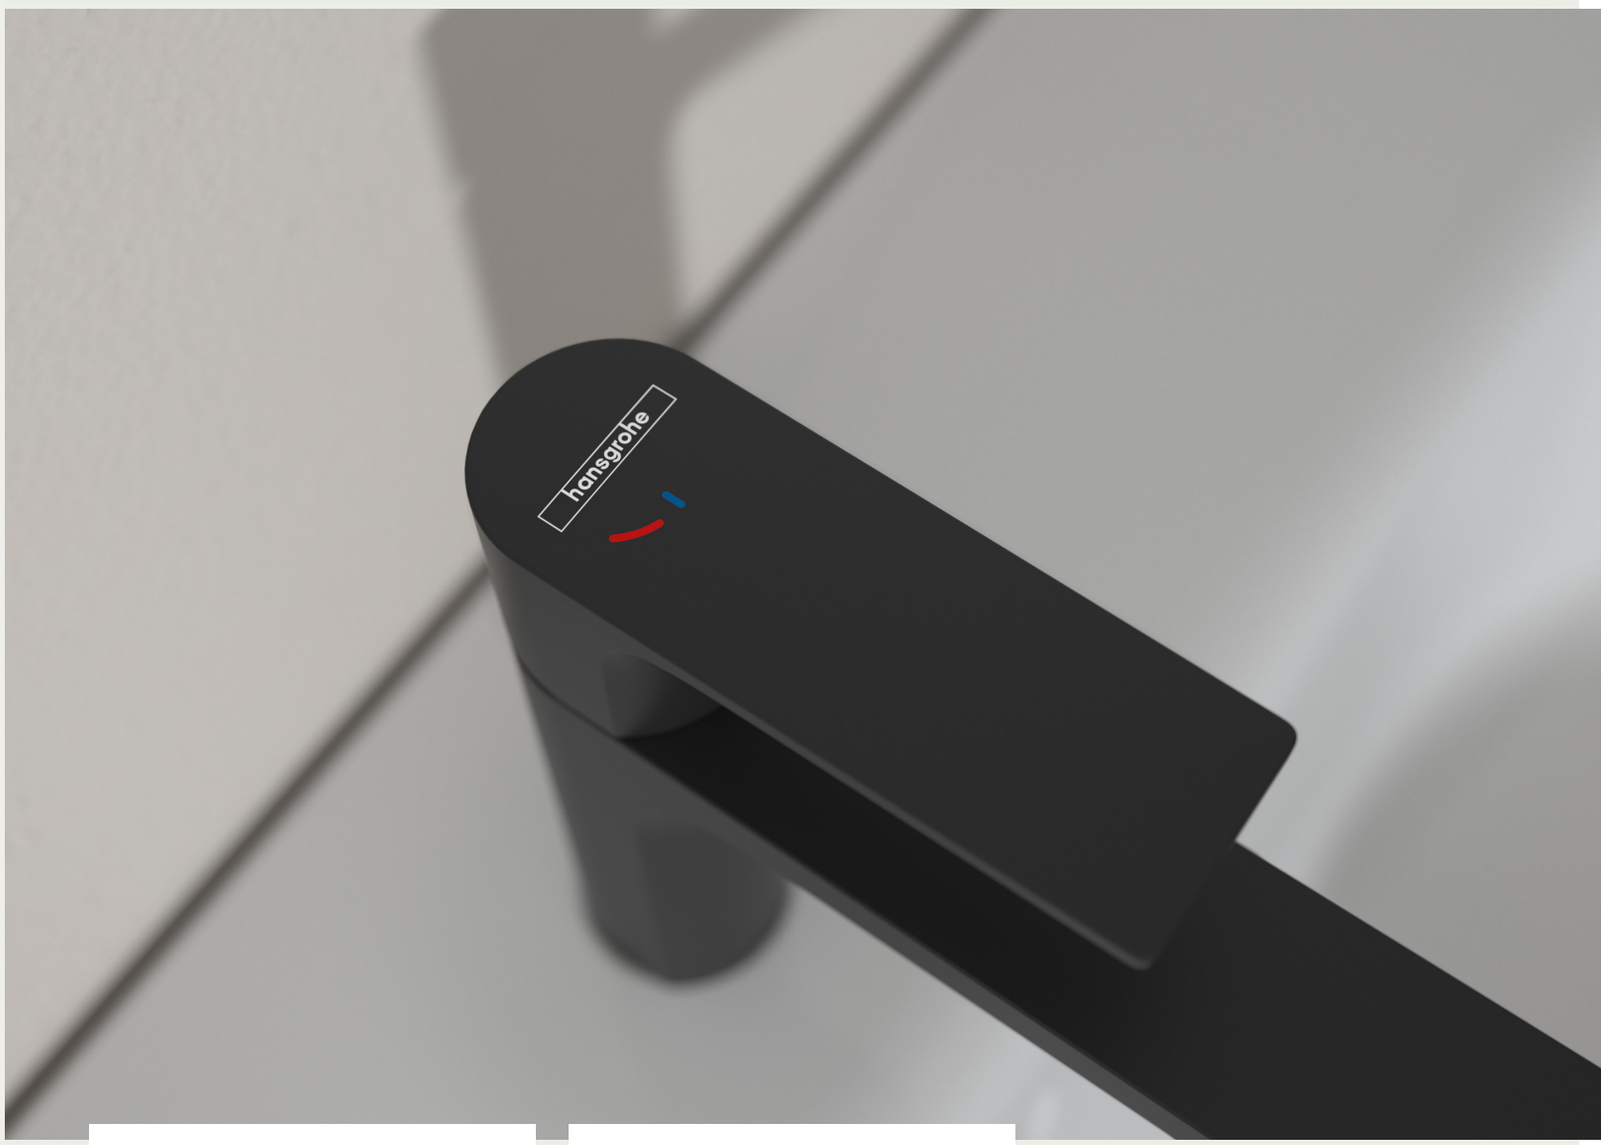
Freestanding: Mixer on wash basin with tap hole bench
Here a single-hole mixer is installed in the tap hole of a countertop basin – a traditional design that offers additional storage space.



Wall mounting: A concealed installation mixer above the ceramics
The spout of a wall-mounted mixer appears to float above the wash basin here – an elegant option that guarantees plenty of room to move.

Less water, better feeling

Intelligent technologies that make hansgrohe mixers a good choice



EcoSmart

Saving resources with pleasure! The clever EcoSmart technology reduces the water consumption of hansgrohe lavatory mixers to no more than 5 l/min*, while EcoSmart+ products consume even less at a maximum of just 4 l/min*. Integrated flow limitation ensures a conscious use of water and energy required to heat the water. All without a loss of comfort.

*at 3 bar

CoolStart

Energy-saving CoolStart mixers only allow hot water to flow when the lever is actively moved – whereas standard mixers immediately consume energy when the handle is opened in the basic position. CoolStart helps to conserve resources and cut CO_2e emissions and costs. This soon mounts up for households, but even more so in hotels and the public sector.

Metropol

The bold one – for more minimalism

Mixers for fans of clear statements and no embellishments. This design creates precise, geometric accents in all areas of the bathroom, and the wide range of products features various finishes and spout heights.

Confident style, even in concealed installations

Vivenis

The natural one – for a waterfall in the bathroom

These mixers surprise people with unexpected moments of enjoyment, as they produce a wide, luxurious spray that calls to mind a waterfall. Enriched with air, the silky smooth flow envelops the face and hands, transforming the interaction with the natural element into an emotional experience.

Elegant design with gentle curves
The spout and water blend together harmoniously in a tasteful design that impresses customers wanting something special. The large surfaces give the mixer a high-quality look, while the ease of use of the lever's flat, ergonomic design pampers the user. When purchased in their favourite colour, Vivenis becomes an eyecatcher – both in the shower and on the bath tub.

Tecturis E

The architectural one – for water in a new design

Tecturis E creates a unique space where architectural principles and functionality come together beautifully. These mixers turn the bathroom into a beautiful feel-good space where the enjoyment of water is celebrated.

Tecturis E

The clarity and power of water is reflected in the linear mixer design. Straight lines and the perfect integration of the round cartridge create a highly aesthetic atmosphere in the bathroom.

Tecturis S

Inspired by the calming flow of water

The rounded mixer design is inspired by the gentle flow of water. The aerator is concealed in the U-shaped spout. The feminine design represents relaxation and wellbeing and can be perfectly partnered with rounded wash basins and furniture.

Elegant washplace in the guest bathroom:
Tecturis is available in different ComfortZone heights to create architectural elegance, even in the smallest of spaces. Pictured here with AddStoris accessories in the same colour.

Logis

Harmonious aesthetics with a confident design

Transform the gap between spout and wash basin into your ComfortZone. Logis basin taps are available in different heights, so you can coordinate them perfectly to match your wash basin. This prevents splashing and provides you with elbow room.

Focus

With top quality, comfort and great value

Focus mixers also excel at saving water: The built-in EcoSmart technology automatically limits the flow of water to 5 l/min. This reduces the impact on the environment and on your wallet, without diminishing your enjoyment of the water.

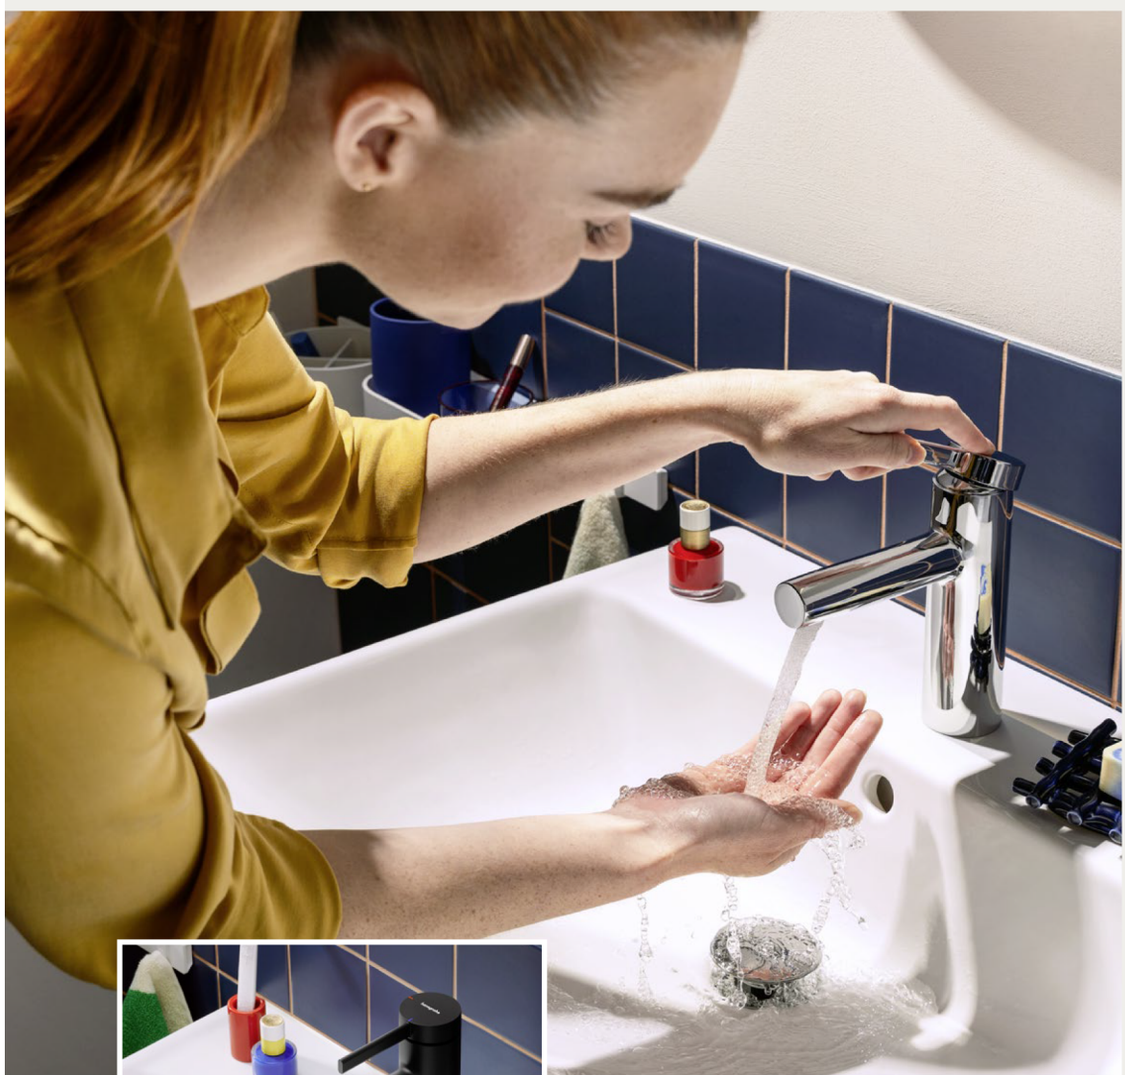
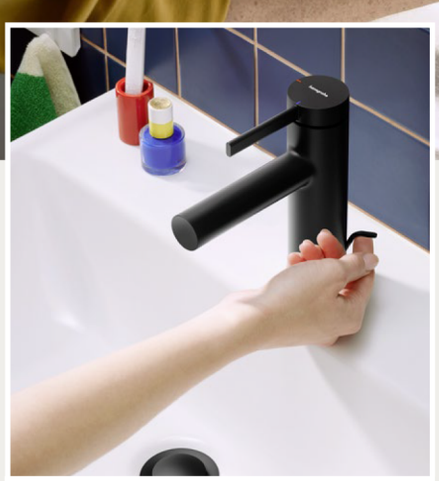
Zesis

The understated one – when life is loud, it takes design that whispers

With their calming presence, the Zesis S mixers turn the bathroom into a place of relaxation. Our all-rounder combines charming looks, an attractive price and economical technology.



A subtle yet effective detail: the aerator is perfectly integrated into the mixer spout – a game changer that creates a minimalist aesthetic.



Modern and timeless: whether in Chrome or Matt Black, Zesis S enhances the bathroom. The cylindrical look blends stylishly into all surroundings. The mixer's low-profile handle and base without a plinth contribute to an elegant design that exudes serenity.

Rebris E

Joy from every angle

Apart from the fact that high-quality surfaces are best to clean and keep free of limescale: The Coin Slot also makes descaling the aerator child's pay. Simply insert and turn a coin, remove the aerator, and put it back after it's been cleaned.

ACCESSORIES

MAKE YOUR DAILY TASKS MORE EFFICIENT
WITH THE RIGHT ACCESSORIES

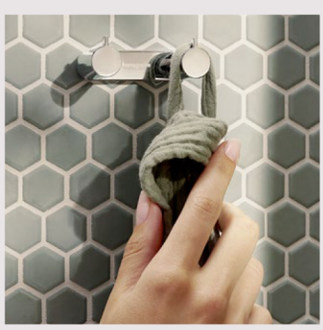
AddStoris

Accessories for perfect bathroom design

From soap dispensers to toilet paper holders to towel hooks, these stylish accessories blend seamlessly into any bathroom concept and ensure both a consistent and harmonious look and perfect colour-coordination with other products. After all, good design makes all the difference. Two shapes and six finishes – for design freedom and even more options.

DESIGN AWARD 2026

AddStoris S – the cylindrical one
With gentle curves, these accessories give the bathroom a warm and cosy vibe. Some je ne sais quoi for any setting.



AddStoris Q – the rounded one
The clean lines and defined shapes of these accessories work particularly well with flat, linear bathroom designs. For a harmonious yet bold look.

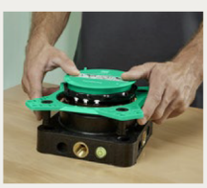
Basic Set

Efficient installation offering maximum flexibility

Every installation becomes child's play with the hansgrohe finish sets and the iBox universal 2. The innovative basic set for concealed thermostats ensures quick and simple installation. If the thermostat needs to be replaced further down the line, this is also not a problem – all finish sets can be replaced by another without major effort. The iBox universal 2 is compatible with all current finish sets, such as the ShowerSelect Comfort or Ecostat Comfort thermostats.

iBox universal 2 at a glance:



1 Mounting ring
Installation in, on or in front of the wall. The mounting ring can be placed on the front or back.

2 Box made of EPP foam
Versatile: Polypropylene is sound-absorbent, insulating, waterproof and recyclable.

3 Sliding sleeve
The sliding sleeve is easy to slide, regardless of the installation depth.

4 Pre-assembled sealing foil
Elastic and reliable: firmly attached to the sliding sleeve, the pre-assembled sealing foil will not go missing.

5 Pre-assembled function block
The durable connection block made of high-quality metal enables safe, fast installation.

KITCHEN

TIMELESSLY BEAUTIFUL FAUCETS AND SINKS BY HANSGROHE FOR YOUR KITCHEN

Our principles – your enjoyment

Driven by innovation

hansgrohe has been a pioneer and innovation leader in the sanitation industry since day one. We constantly push the limits of what is technically feasible, revolutionizing kitchen mixers and sinks in the process. Not only do we optimize designs and materials, but we also continually rethink functionality by addressing our customers' evolving needs. Innovative spray types and intuitive controls are just a few examples. With our inventions, we encourage people to experience and enjoy the beauty of water.

Design – developing excellence

For us, modern design is more than just an appealing aesthetic. hansgrohe design combines timeless beauty, functional finesse, and the highest hand-crafted quality across all product ranges. With over 800 awards for the Hansgrohe Group – including several coveted iF Gold Awards – our pursuit of the extraordinary is clear and highlights our close collaboration with the design studio PHOENIX.

Quality – the highest standards for the longest product life

Our products stay with people for years. They create feel-good moments tailored to individual needs. The premium quality of our products is measured not only by their material properties, but also by the lasting joy they provide. We ensure customer satisfaction worldwide – through user-friendly design, a voluntary five-year* manufacturer's guarantee, and a Service Center that addresses all technical concerns. That's why many consumers become lifelong hansgrohe customers.

Responsibility – take over and act

Saving water and energy are two matters close to hansgrohe's heart. That's why we develop products that deliver impressive water experiences while reducing resource consumption – because we don't believe our customers should have to choose between well-being and sustainability. We are converting our entire water-bearing product range to water- and energy-saving technologies by 2030. Some of our products are already equipped with these technologies – such as the Zesis M33, which uses just 6 litres per minute thanks to EcoSmart with an integrated flow limiter, helping to save both water and energy costs. Another example is the EcoSelection version, which uses a special cartridge to reduce water consumption by up to 50 percent. For more water, you have to overcome a little resistance. Our products are also robust, long-lasting, and easy to repair.

FinishPlus – all eyes on the high-quality sink

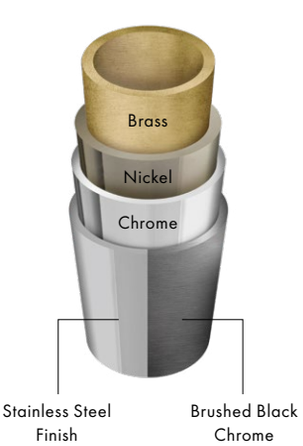
Kitchen design is all about unique style. You can go wild with vibrant colours with the FinishPlus surface finishes from hansgrohe. High-quality metallic shades and modern matt hues are all you need for personal fulfilment. The kitchen can be designed using colours to suit personal taste.

- High-quality finishes provide a variety of design options.
- FinishPlus creates elegant accents and enhances the style of the room. The metallic surface finishes and trendy matt colours find unique ways to bring kitchens to life.
- Relevant complementary products are also available in the same FinishPlus surface finish colours.

PVD coating

A PVD coating is vapourised molecule by molecule in the vacuum coating process to create a robust finish with a vibrant colour

The durability has been tested, resulting in a surface finish that lasts for years



Lacquer coating

A specialised lacquer is applied in several steps to create a bold and intense surface finish

The durability has been tested, resulting in a surface finish that lasts for years

Matt Black
Getting back to basics with black and white contrasts.

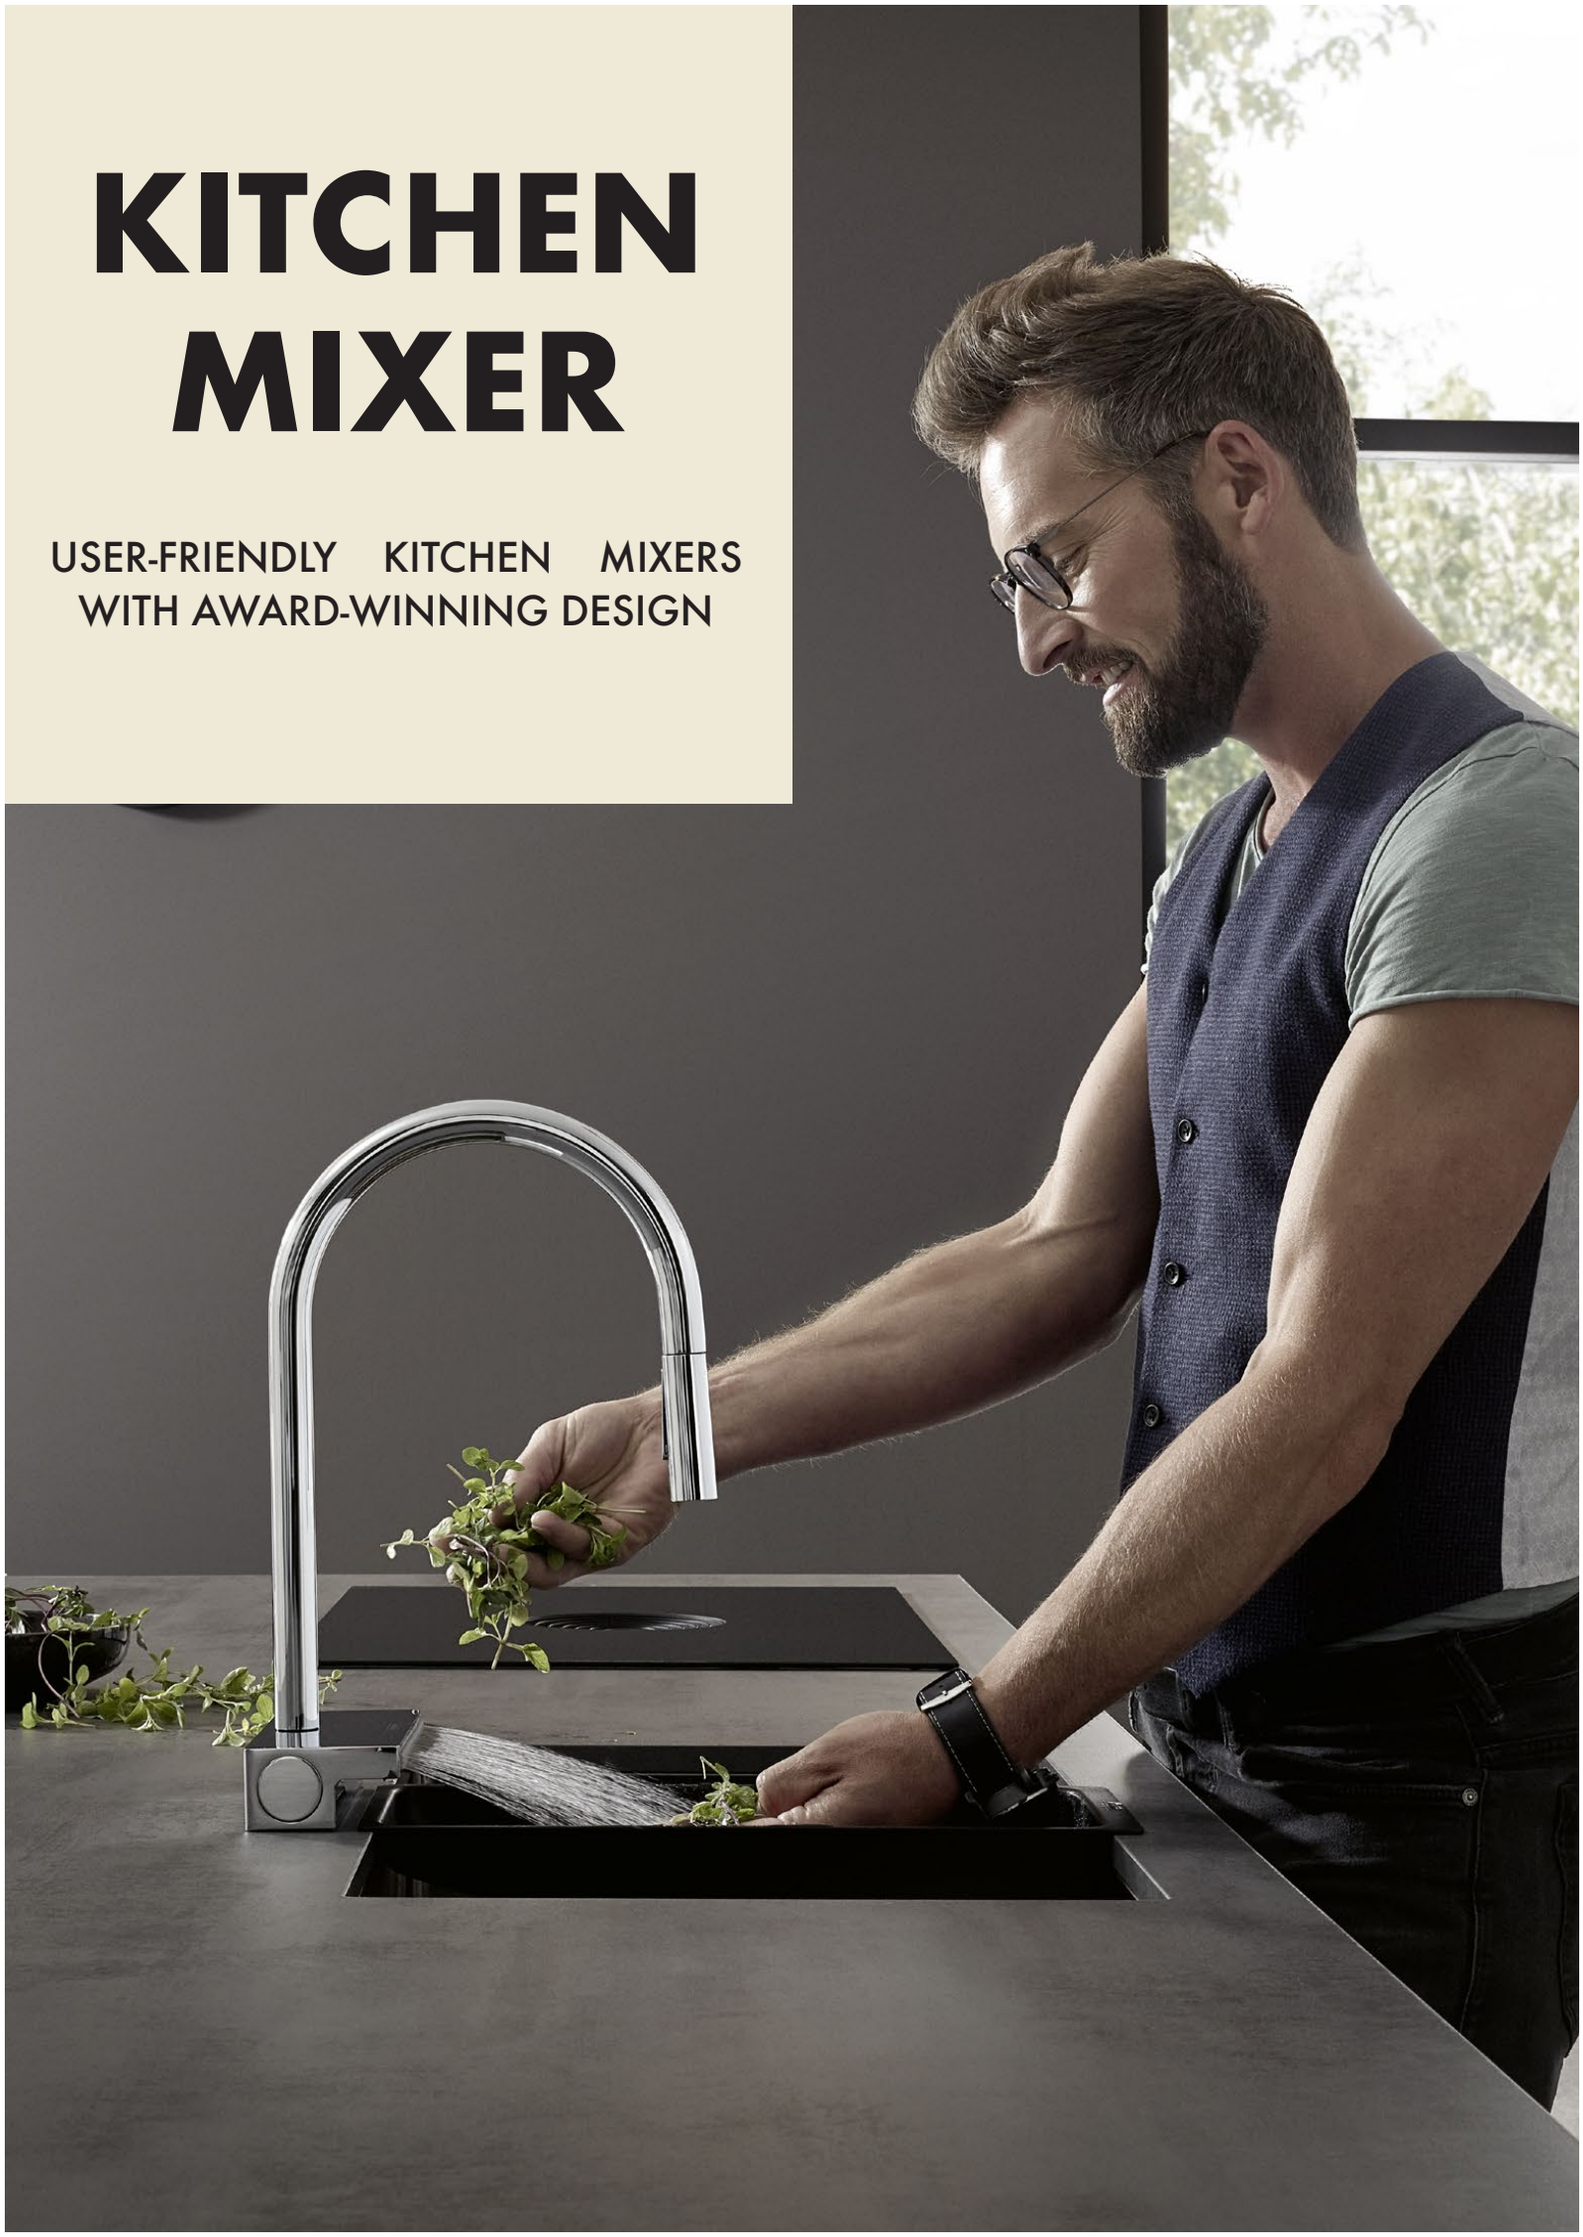
Brushed Black Chrome
A dark surface creates a sophisticated aesthetic.

Chrome
Timeless classic paired with dainty elegance.

Stainless Steel Finish
Harmony and a clear aesthetic.

KITCHEN MIXER

USER-FRIENDLY KITCHEN MIXERS
WITH AWARD-WINNING DESIGN



The right tool for the job

From filling a vase to washing delicate fruit, there are a lot of different tasks that are performed at the sink. That is why we offer taps with a variety of different spray types, so you can switch to the right choice for the right task quickly and easily.

Laminar spray
Crystal-clear spray for the sink with no air mixed in, perfect for quickly filling containers.

Normal spray
Full spray enriched with air that feels lovely and helps with all sink-based routines.

Shower spray
Efficient kitchen spray that can also be used to quickly rinse food.

SatinFlow spray
Flat, super-soft spray that does not splash and is highly efficient.

PowderSpray
Wide, microfine, low-splash spray mode that gently cleans and helps people to use water efficiently.

Making food preparation a pleasure

The kitchen is the heart of your home – the place where you most need comfort, design and efficiency. That's why we're always developing new ideas to improve your space. Our sophisticated technology and ergonomic solutions make your work in the kitchen easier than ever.

Welcome to the ComfortZone

Whether high, swivelling or extendable – with ComfortZone you have more freedom of movement and space. The ability to swivel the spout is especially practical, making switching between different sinks or washing different items easier than ever.

Your workflow made easy

For hansgrohe taps with pull-out functionality, the innovative sBox keeps things neat around your sink. The hose slides smoothly and quietly back into the sBox, which is inconspicuously installed under the sink. This allows the tap to be extended up to 76cm, extending the working radius of your sink beyond the standard 50cm, and allowing for easy filling of large containers and plant watering. It's efficient multitasking at its best.

Technologies that inspire

The best products are the ones that enrich people's lives – and sometimes, it is the smallest technologies that make the difference. There's Select technology, which is just one button that brings a whole new ease of use to your home. Or QuickClean, a clever and time-saving anti-limescale solution. hansgrohe technologies make your kitchen more enjoyable to use and easier to clean.

Granite Sink

Natural perfection

At a glance:

- Resistant to abrasive substances such as fruit acids
- Heat resistant and hygienic
- Colour is resistant to food stains
- SilicaTec is made up of quartz particles, which offer impact, fracture and scratch resistance
- The water repelling effect allows water to drain off almost residue-free
- Thanks to different colour options, you can be even more creative in the kitchen
- Different sink sizes guarantees maximum flexibility
- Different installation options: surface- and under-mounted

KITCHEN ACCESSORIES

ADD STYLE TO YOUR SINK WORKSTATION
WITH OUR KITCHEN ACCESSORIES

Multifunction sieve

Multitasking in the kitchen is made easier thanks to the multifunction sieve, designed to move smoothly along the S51 and S71 sinks and those with a depth of 400-406 mm. Its use with undermounted sinks depends on the installation.

Chopping board

The solid oak or walnut chopping board features a guide edge that allows you to slide it along hansgrohe sinks.

Dishwashing liquid/ lotion dispenser

This practical dispenser is available in three different designs and two different finishes, ensuring it coordinates perfectly with any hansgrohe kitchen tap.

TOILETS

WELCOMING, CLEAN, AESTHETIC

MitaPura: comfort and hygiene features

SoftClose

WC seat and cover close gently and silently – thanks to dampers integrated into the hinges.

Quick Release

This hinge system is easy to release. For a quick removal of the toilet seat and easy cleaning.

SmartClean

High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

HygieneEffect

High-quality glaze that reduces bacteria on the product (exclusively refers to the following bacteria: Escherichia coli ATCC 8739 and Salmonella enterica ATCC 13076 (test conducted according to ISO 22196: 2011-08)).

hansgrohe flush technologies

Powerful, low-noise, efficient

AquaHelix Flush

This sophisticated water vortex technology cleans the toilet's inner bowl powerfully and quietly.

AquaFall Flush

Powerful cleaning of the inner bowl of the rimless toilet via a symmetrical surge of water.

WASHBASIN

EXPLORE OUR WIDE SELECTION OF HIGH-QUALITY WASH BASINS FOR YOUR DREAM BATHROOM

Avalegra

A fusion of wash basin and mixer

When the wash basin and mixer, the familiar and the new, are combined, it creates something extraordinary: hansgrohe Avalegra. A harmonious balance between comfort and uniqueness – for a water experience more natural, comfortable and joyful than any other.

Water remains water.
Everything else changes.
The Avalegra AquaUnit offers a fully innovative water experience. It can do anything a standard wash basin with mixer can – plus so much more. Its new shower function, a parabolic water spray, opens up new ways to use the mixer, transforming water at the wash basin into a spa-like experience. Available in five FinishPlus designs, Avalegra can be perfectly paired with various design styles and bathroom furniture.

What a welcome:
water with an extraordinary twist
The Rain spray flows in an arch from the integrated spray mat. The perfect synergy between the pressure limiter and shower reduces the spray to 4 l/min, without any loss of power or intensity – for a completely new water experience that leaves us feeling refreshed and pampered and creates a sensational spa feeling.

Design that flows in harmony with the water

Avalegra is a minimalist and premium-quality design unit. With its precise shape, the thin-walled wash basin has an extremely elegant look. It features a slimline drain and a slope so that the water flows toward us, almost like being by the shore. The swivel spout has been stripped back to the essentials and meets our every need in terms of comfort at the washplace.

The minimalist swivel spout with clear laminar spray offers maximum room to move and directs the water to exactly where it's needed.

Low-maintenance beauty thanks to solid surface

The wash basin impresses users with its scratch-resistant and long-lasting solid surface material. But if scratches do ever appear, they can be buffed out as if they were never there. The pore-free Matt White finish also keeps deposits such as limescale and dirt at bay – for super-simple cleaning. And: the wash basin gently collects every drop, without causing a splash.

MellowTide: Encountering simplicity in purity

SmartClean™ glaze
The satin - like surface is white and delicate. The protective layer is smooth and easy to clean, white and transparent, long-lasting as new.

HygieneEffect™ materials
Effective anti-bacterial features are added (bacteriostasis rate is 99.99%) to protect your family against bacteria.

According to the JC/T 897-2014 antibacterial property of anti-bacterial ceramics, Escherichia coli and staphylococcus aureus can be effectively inhibited.

(Optional)
Integrated shelf design separates dry and wet areas, making it practical.

The pure white cover, seamlessly integrated with the ceramics, is bright and well-designed.

Thin rim creates a sleek outline and convey simplicity.

SmartClean
Special glaze finish for easy cleaning

Ceramic Quality
Built to last – ideal for your new dream bathroom

Technologies and Spray Modes

Showers, Accessories

Adjustable Shower Head

The angle of the overhead shower can be adjusted and the water spray can be individually adapted.

AirPower

Mixes air into the water. For a soft, low-splash water jet and full, light shower drops.

CoolContact

Thermostat mixer with innovative cooling technology that protects against unpleasant contact or burns.

DropGuard

This innovative function reduces the dripping after stopping the shower to just a few seconds.

EasySplit

This shower head can be easily disassembled to replace parts or separate into individual components.

EcoSmart+

This economical shower consumes up to 60% less water than our conventional model thanks to a flow limiter.

EcoSmart

Shower that only uses 8 l/min and thus reduces water thanks to a flow limiter. Eco-friendly and wallet-friendly.

EcoStop+

Full control when saving water. The EcoStop function supports a more sustainable shower by initially reducing the water flow to a maximum of 10 l/min (at 3 bar). The water flow can be increased as necessary by actively and deliberately pressing the EcoStop button.

FastDrain

The shower's quick and efficient emptying function reduces the dripping time after showering.

FlexPower

Flexible, elastic nozzles in the spray head ensure greater comfort and efficiency when showering.

LowPressure

Low-pressure technology enables use at pressures as low as 0.2 bar. Suitable for boilers/heat exchangers.

PushSlider

The height of the hand shower can be single-handedly and smoothly shifted at the touch of a button.

QuickClean+

Elastic spray nozzles open and close themselves and prevent limescale buildup.

QuickClean

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

SafetyStop

Safety lock at over 40 °C – temperature limit, which prevents excessively hot water from escaping.

Rotatable Bath Spout

The bath filler can be swivelled under the thermostatic mixer when not in use. Nice and tidy.

Select

A playful way to control the water flow, shower or spray type at the simple touch of a button.

VarioFix

Full installation flexibility by using existing holes for easy renovation.

WaterBoost

Press and hold the side boost button to temporarily increase the hand shower water flow.

Water Flow Control

Actively regulates water consumption – the amount of water can be adjusted via the control dial.

XXL Performance

Large-scale distribution of the water in the shower so that the whole body is cocooned in feel-good droplets.

BalanceAir

Harmonious combination of soft shower rain and a dynamic spray that pampers you completely.

ImpactRain

Massaging spray with an innovative design creates an intense showering feeling with just a little water.

Intense PowderRain

Intense spray consisting of thousands of micro-fine droplets. Thorough, soothing and low-splash.

IntenseRain

Powerful, stimulating water spray that washes away tiredness and leaves people feeling fit.

Massage

Invigorating, focused and powerful spray for the home spa that allows the day's stresses to simply drain off.

MonoRain

Focused and extremly gentle spray soothing wellness moments and hydrotherapeutic showering.

PowderRain

Relaxing, micro-fine droplets that softly and silently cocoon the body. For sensual showering.

Rain

Invigorating and energizing showering indulgence with full shower rain designed for everyday shower pleasure.

RainAir

Full shower rain with droplets enriched with air for soft yet efficient and indulgent showering.

RainAir XL

Large shower rain with droplets enriched with air for soft yet efficient and indulgent showering.

RainFlow

Powerful stream that bathes the entire body and feels like a waterfall for wonderful relaxation.

RainStream

Lavish downpour consisting of individual pearl-like droplets that invigorate mind, body and soul.

Shampoo

Intense water spray that rinses out shampoo in no time at all and is also energising and stimulating.

SoftRain

Caressing water sprays that gently swirl around the body. An act of kindness for the skin, mind and soul.

TurboRain

Invigorating shower rain offering powerful refreshment. Just what is needed in the mornings or after exercise.

Whirl

Concentrated massage spray that helps to nicely and gently wash away everyday tensions and stress.

FurSpray

Specialist dog spray type for thoroughly rinsing fur, right down to their undercoat.

LegSpray

Soothing spray type for your dog. Gently cleans their legs and other sensitive body parts.

PawSpray

Extremly soft spray for dogs that gently and quickly cleans dirty paws. A stress-free routine for you and your dog.

Concealed and exposed controls

AirPower

Mixes air into the water. For a soft, less splashing water jet and full, light drops.

CoolContact

Thermostat with innovative cooling technology for blissful and indulgent showering.

EcoStop+/EcoStop

Full control when saving water. The EcoStop+ function supports a more sustainable shower by initially reducing the water flow to a maximum of 6 l/min, while the EcoStop function regulates the volume to a maximum of 10 l/min (each at 3 bar). The water flow can be increased as necessary by actively and deliberately pressing the EcoStop+/EcoStop button.

QuickClean

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

SafetyStop

Safety lock at over 40 °C – temperature limit, which prevents excessively hot water from escaping.

Select

A playful way to control the water flow, shower or spray type at the simple touch of a button.

Thermostat

Thermostat with integrated temperature control for constant water temperature.

Water Flow Control

Actively regulate water consumption – the amount of water can be adjusted using the control dial.

Mixers

AirPower

Mixes air into the water. For a soft, less splashing water jet and full, light drops.

ComfortZone

Comfort at all levels – the tap fits in perfectly with the chosen wash basin settings.

CoolStart

Faucet that helps save energy by only allowing hot water to flow when the lever is actively moved.

EcoSelection

In the first lever position (Eco), the flow rate is reduced by around 50 %, and full flow is reached at maximum opening.

EcoSmart+

Tap that saves up to 20 % more water compared to our conventional models thanks to a flow limiter.

EcoSmart

Tap that only uses 5 l/min and thus reduces water thanks to a flow limiter. Eco-friendly and wallet-friendly.

LowPressure

Low-pressure technology enables use at pressures as low as 0.2 bar. Suitable for boilers/heat exchangers.

Pull-out Faucet

Significantly more space to move and maximum flexibility around the wash basin, for example when washing hair.

QuickClean

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

Remove & Clean

Remove and clean the aerator in no time at all with the aid of a coin – no tools required.

Select

One press of a button is all it takes to regulate the flow of water at the wash basin.

Sensor Activation

Contactless tap that responds to infrared rays. Water only flows when the tap can sense warmth from the hands.

Wash basins

HygieneEffect

High-quality glaze that reduces bacteria on the product (exclusively refers to the following bacteria: Escherichia coli CECT 434 and Staphylococcus aureus CECT 239 (test conducted according to JIS Z 2801:2010)).

Made to fit NoiseReduction

For an easy installation, this product comes with a soundproofing mat matched to its shape.

SmartClean

High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

Bathroom furniture

AntiFingerprint

High-quality technology against fingerprints. For carefree morning and evening routines in the bathroom.

MoistureProof

This high-quality product is made of durable material that is suitable for bathrooms.

PushOpen

These drawers and doors are extremely easy to open. Just give them a tap.

SmartStorage

The space in the drawer, without a siphon cut-out, offers individual and flexible storage – with IntraStoris.

SmoothSurface

The surface of this furniture has a great, uniform haptic. For pleasant touches and a beautiful look.

SoftClose

Drawers and doors close gently and quietly. This is possible by integrated dampers.

Toilets, bidets, urinals

AquaChannel Flush

Effective cleaning of the inner bowl activated by powerfully guided water jets.

AquaFall Flush

Powerful cleaning of the inner bowl of the rimless toilet via a symmetrical surge of water.

AquaHelix Flush

Water vortex technology that cleans the inner bowl of the toilet powerfully yet quietly.

EcoSmart

Toilet that can achieve excellent flushing results with as little as 4.5 l per flush (suitable flushing tank required).

HygieneEffect

High-quality glaze that reduces bacteria on the product (exclusively refers to the following bacteria: Escherichia coli ATCC 8739 and Salmonella enterica ATCC 13076 (test conducted according to ISO 22196: 2011-08)).

Made to fit NoiseReduction

For an easy installation, this product comes with a soundproofing mat matched to its shape.

QuickRelease

This hinge system is easy to release. For a quick removal of the toilet seat and easy cleaning.

SmartClean

High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

SoftClose

WC seat and cover close gently and silently – thanks to dampers integrated into the hinges.

Accessories

EasyClick

Hooks, baskets & co. can simply be attached to the wall bar and removed or rearragened at any time.

Glue or Screw Fix

The accessory can be affixed using the glue that comes with the product – or it can be screwed on.

MoistureProof

This high-quality product is made of durable material that is suitable for bathrooms.

PushSlider

The height of the hand shower can be single-handedly and smoothly shifted at the touch of a button.

ScrewFixation

The accessory can be mounted securely and stylishly on the wall with just a few screws and hand movements.

Wall niches

Variable Installation Depth

The wall niches with a variable installation depth provide an individual appearance in walls.

Water Damage Protection

The high-quality installation set features a pre-assembled seal and is 100% waterproof.
