

**RainBrain®**

An intelligent shower  
and a beautiful  
shower experience.

**Imagine,** the feeling of a wonderful, warm rain shower on your skin. Then switch over to the massage jet for an overall feel-good experience. Let yourself be massaged for a few minutes, and then enjoy the side shower cascade function. Exquisite. RainBrain adds intelligence to the shower and enhances the pleasure of your shower experience. RainBrain is a small computer

---

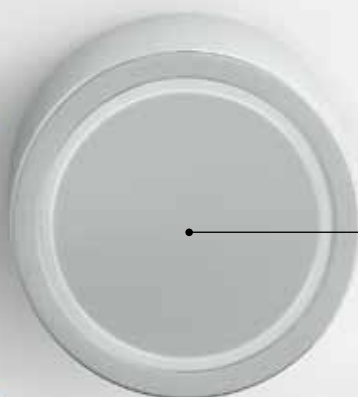

that indulges your senses each and every time you enter the shower. What else do you need to make this moment perfect? Music? All you need to do is touch the RainBrain screen. Simple, intuitive symbols help you navigate through all the functions – at the touch of a finger. Pamper yourself.

Pure shower luxury, with  
Hansgrohe RainBrain.

hansgrohe

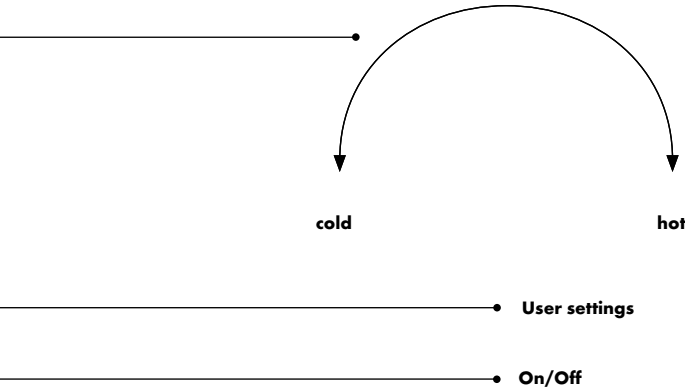

The control panel features a central display showing a human silhouette and a temperature of 38,0°C. To the left of the display are four vertical buttons: a sun icon, a shower head icon, a shower head icon, and a 'Warm up' button with a wavy line icon. Above the display are three horizontal buttons with icons of shower heads. Below the display are three buttons: 'Volume', '06:52', and 'Menu'.

A horizontal bar containing two buttons: a power button (a circle with a vertical line) on the left and a user selection button (a person icon) on the right.

# The beginning of relaxation.

To activate RainBrain, simply touch the on/off function. Your pre-configured personal settings for the showers, spray modes and functions are shown on the display in a clear and intuitive manner. The shower outlets are chosen and regulated via the touch screen. Enjoy alternating hand shower, overhead and side showers – RainBrain engages all of your senses. The temperature can be adjusted quickly, accurately and easily by turning the control knob.

## Warm-up function

Goodbye to cold showers in the morning: by the time you enter the shower, the water will already have reached the ideal temperature. The Warm-up function flushes the cold water out of the pipes within seconds, until your desired pre-set temperature is reached. Experience this feeling once, and you will never want to miss out on it again.

**Overhead shower function**

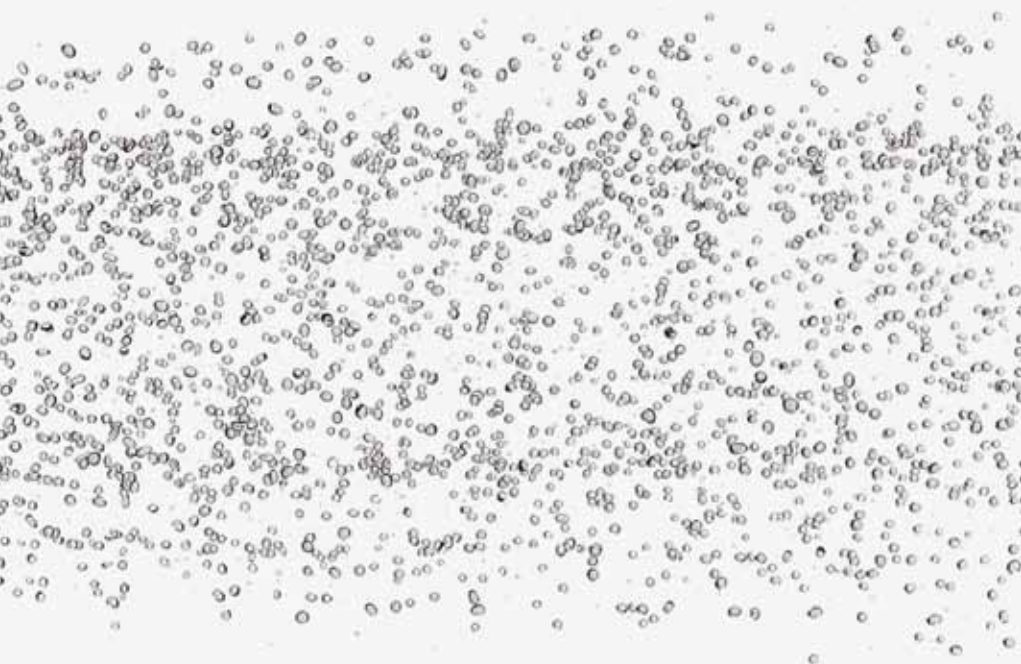

Relish the exquisite downpour of rain: with Hansgrohe's AirPower technology, your entire body is wrapped in a wonderful cloak of water, creating that unique Raindance feeling. The spray modes for the installed overhead shower can be chosen individually. For example, if you have a Rainmaker, you can choose the overhead, whole body or massage function.

**Hand shower function**

---

The hand shower can also be activated through RainBrain. You can either use the overhead and side showers simultaneously, or simply alternate among the different shower modes at the touch of a button.

**Pause**

• **Push = pause or resume**

**[Soap]**

**Side shower function**

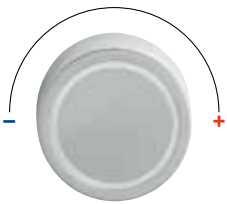

The side showers pamper your body from head to toe. Depending on your shower installation, you can regulate the side showers via the touch screen to create a cascading water flow moving in turn from jet to jet.

34,5° 34,5° 37,5° 20,5° 35,5° 37° 39,5°

## Temperature regulation

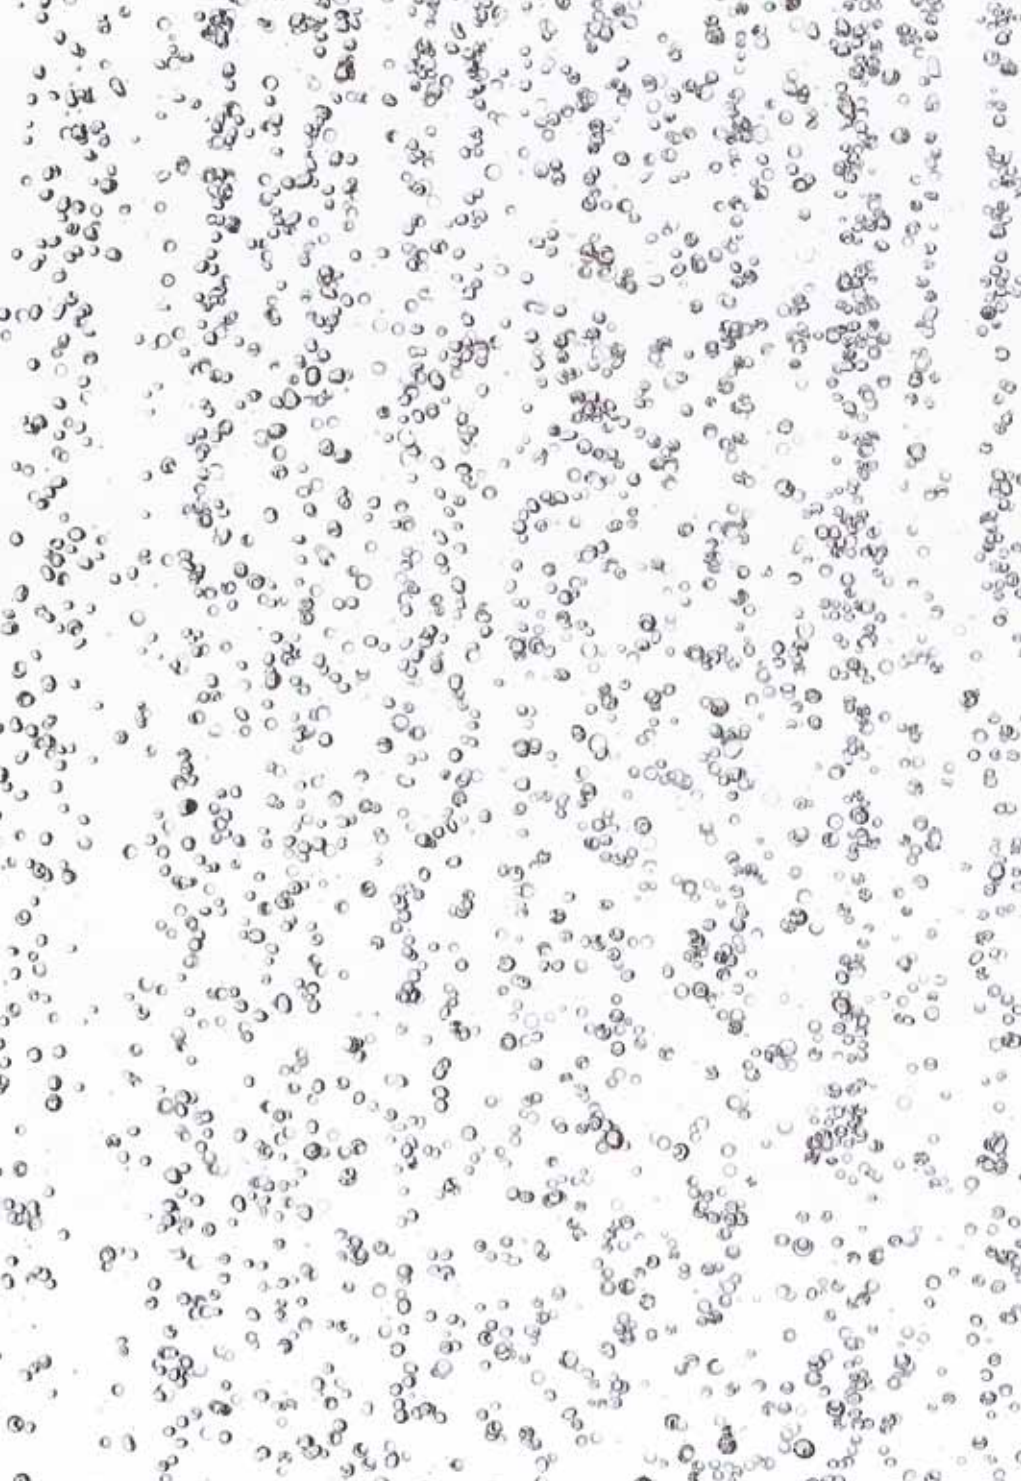

45°

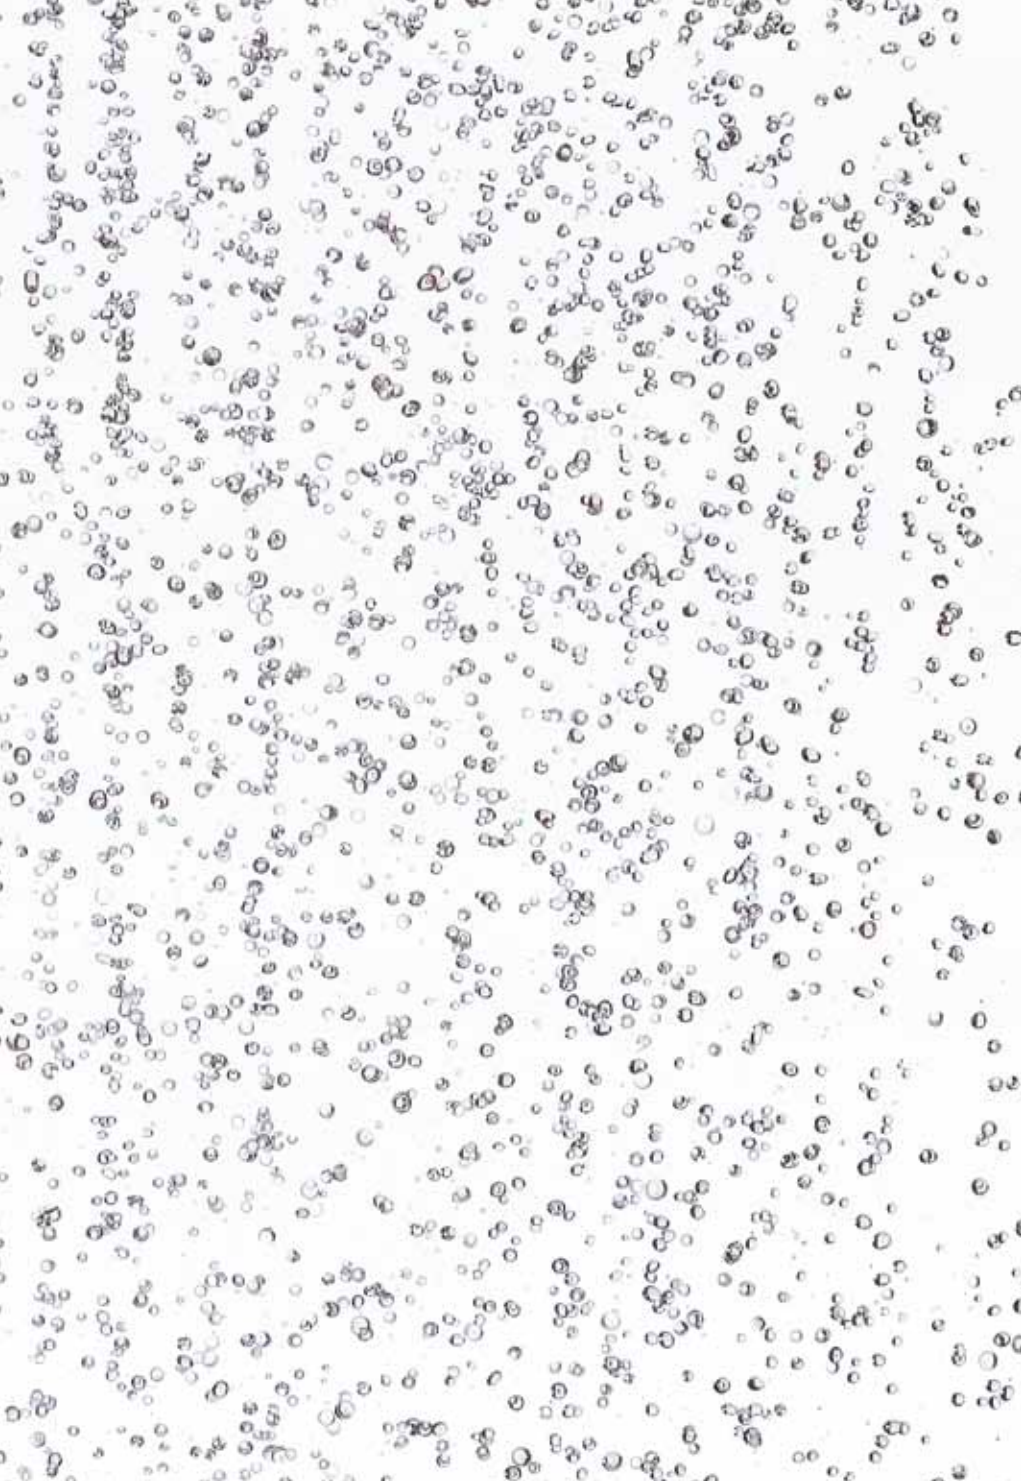

40,5°

The integrated thermostat reacts quickly and precisely in increments of 0.5°C. The interval function allows you to enjoy the invigoration of a hot and cold shower, allowing you to adjust the temperature and the desired time interval.

**Flow rate**

Volume

The flow rate can be adjusted according to your personal preferences. You can choose among 10 different water consumption settings, using the touch screen or by turning the control knob.

**Music**

Your personal music selection is sent directly to RainBrain from your MP3 player or mobile phone, via Bluetooth. You can choose your favourite songs and artists via your touch screen, and even enjoy your music through external speakers (optional).
