

hansgrohe

Ideas for the Bathroom and Kitchen.

hansgrohe. Meet the beauty of water.

Technologies

Intuitive water control – at the touch of an elegant button.

Each drop of water is infused with air, delivering an invigorating high-performance jet.

Keeps the flow to a minimum to save water and energy without sacrificing performance.

Anti-limescale function. Silicone spray channels/aerators enable you to simply wipe away deposits.

A generous spray face that distributes water over a wide area, so your whole body is completely covered.

Defines the distance between faucet spout and base, ensuring a perfect fit for every combination of faucet and sink.

Spray Modes

A spray that is perfect for rinsing shampoo out of your hair.

A solid, steady stream of water for efficient showering.

A soft water spray that caresses the body for that feel-good sensation.

Intense water spray that energizes and wakes you up.

A harmonious combination of gentle shower drops and invigorating massage spray.

For new energy after a challenging day: The dynamic, revitalizing massage spray.

A rolling, concentrated spray for massaging specific areas of the body.

A strong massage spray that invigorates and soothes aching muscles.

NEW PowderRain
With its gentle micro sprays, PowderRain provides a deeply relaxing experience.

A gentle shower rain with air-enriched drops to wash away daily stress.

The hansgrohe brand — A Promise.

Start your day in a special way with our innovative products for kitchen and bath.

Worldwide, our name stands for the best design, intelligent functionality and excellent user friendliness. We never stop reinventing the way we use water to make the user experience even better, so within this brochure you will find lots of fabulous products of exceptional quality that will provide you with your perfect water experience. For instance, with our Select technology: A simple

button provides even greater enjoyment and freedom in the bathroom and kitchen. This transforms our ideas for water into an experience in your home. Over the following pages, you will discover award-winning design with innovative technology and excellent quality — all made by the manufacturing experts at the Hansgrohe company.

We Work Hard to Exceed Your Expectations in Everything We Do.

Quality – Made by the Hansgrohe company.

Everything we do is about making perfectly designed products for you. Reliable products that will last, with excellent design and with exceptional user comfort – which are both beautiful and a joy to use. To that end, we are devoted to tinkering, testing and manufacturing to the highest standards, at our headquarters in Germany’s Black Forest, and also at our other locations all over the world.

SUSTAINABILITY.

You can trust our long-lasting, sustainably-designed products. Enjoy water savings without sacrificing performance.

DESIGN.

You can enjoy the form and function of our products each and every day. We have been collaborating with renowned designers for many years to create exceptional products – with our aesthetic ambition repeatedly being rewarded with international design awards. In fact, in the iF ranking, we have the honor of being listed as the best manufacturer in the plumbing industry.*

RESEARCH & DEVELOPMENT.

Our goal is for you to experience as much joy from using our products as we do developing them.

TEST CENTER.

Products that function perfectly are essential. To ensure that they do, every shower product is 100% water tested.

PRODUCTION.

So you can be sure our products will have a long life, all of our production facilities worldwide uphold our exceptional quality standards.

TIMELESS.

Enjoy many years of water expertise: With products that delight with their excellent design, high level of functionality and meticulous construction.

10 Things You Never Knew About Showering.

What is our favorite way to shower?

We do our very best to make sure that you have the perfect shower experience. To help us achieve this, we worked with 700 product testers all over the world, evaluated over 1.3 million responses, and conducted one-on-one research with consumers in ShowerWorld in the Hansgrohe Aquademie in Germany on the subject of everyday showering. These are the 10 most fascinating things we have discovered:

On average, men shower for **12.66** minutes and women for **13.27** minutes.

Shhhower

Over **20 %** of you would like a quiet zone or seating area in the bathroom.

47 % of people prefer to shower in the morning.

Three out of **five** people sing in the shower. Sappy love songs are the favorite.

Worldwide, we spend an average of **70** minutes in the bathroom every day.

53 % of people confirm that RainAir is their favorite spray in the shower.

94 % prefer the Select button to the traditional rotating ring.

17 % say that the shower is a source of inspiration and great ideas.

What did you like best about our products?

VARIOUS SHOWER SPRAYS LARGE SHOWERHEAD
RAINAIR SPRAY TERRIFIC SHOWER EXPERIENCE
EASY TO HANDLE COMFORTABLE TO THE TOUCH SELECT BUTTON
LOVELY DESIGN GOOD QUALITY
EASY TO CHANGE THE SHOWER SPRAY
PLEASANT SPRAY PLEASANT FEELING WHILE SHOWERING

What is it that makes Raindance showers so special? Well, the name says it all, really: When you turn on the water, you start to dance under the shower – and that’s every morning ... and you can sing as loudly as you want.

Product tester, trnd project 2013

Efficient Shower Solutions: Responsibility and Performance.

Sustainability has a long tradition at the Hansgrohe company.

Having an Environmental Officer since 1989 and having been a WaterSense partner since 2007, we have a proven commitment to sustainability. We offer an impressive range of low-flow handshowers and

showerheads with flow rates ranging from 1.5 to 2.0 GPM, many of which have received the WaterSense certification. Our EcoRight products deliver water savings that do not come at the expense of water performance.

And all of our lavatory faucets boast the efficient flow rate of 1.2 GPM or below – for even more responsible water use in the bathroom. Our tradition of sustainability is showcased through our products.

Our water-saving showers and faucets are engineered to deliver superior performance while using less water.

Award-Winning Product Design.

The Hansgrohe company is ranked in the top 25 internationally among all product companies by iF (International Forum Design), along with AUDI, Apple, BMW, and Daimler.

To us, design is not a matter of taste; it is an attitude – even a passion. After all, you experience perfect water pleasure with every one of your senses. Which is why we collaborate with international designers to come up with exceptional creations. The result: With the hansgrohe and AXOR brands, we are

an award-winning player in the decorative plumbing industry, and with over 500 national and international design awards, we are ranked in the top 25 internationally among all product companies by iF (International Forum Design). Design is never an end in itself in our daily work; rather, it is the constant

expression of the synergy between form and function. The search for the best solution is our goal, creating showers, faucets and comprehensive bathroom collections of exceptional quality that provide lasting pleasure, and in doing so, redefining bathroom and kitchen design.

The Croma Select E Handshower 110 3-Jet, is the winner for 2015.

Between 2015 and 2016, the Talis Select S line has been showered with design awards.

The Metropol line of faucets received the highest award at the 2017 iF Awards.

The Raindance Select E Showerpipe 300 with Select Shower Controls was one of the most impressive showerpipes in 2014.

In 2013, the Raindance Select S Showerhead 240 2-Jet came home with a win during the prestigious iF Awards.

**The Ultimate Experience
with Water:**
hansgrohe Showers.

As Individual as You Are: Creating the Perfect Shower.

Choose your perfect shower configuration and the matching control from our variety of showers.

A shower can be anything from a simple handshower set to a complete shower system: Featuring a mixing valve, showerhead, and bodysprays. Multiple

spray modes provide the perfect showering experience. The installation options are equally flexible: Whether it is a new build or a remodel, concealed

or exposed installation, the hansgrohe brand has the perfect solution for you.

Handshowers

The basic solution – offers the same full shower pleasure, and is easy to mount on the wall.

Showerheads

For relaxing or rejuvenating – because every day deserves a different shower. Installed on the wall or ceiling.

Showerpipes

With all-in-one functionality of showerhead, handshower and mixing valve, showerpipes install easily on two basic hot and cold supply lines.

Concealed Installation

The mixing valve disappears inside the wall – for a clean, sleek look in the shower.

Exposed Installation

The mixing valve is located in front of the wall, and attaches to simple hot and cold supply lines.

More Shower Technologies.

Passion for water, innovations for the bathroom.

AirPower.

Generous amounts of air are drawn in through the spray face. This quite literally stirs up the in-flowing water. The resulting air-enriched drops are fuller, lighter and softer. This not only feels good, but it also means that you are making the most efficient and splash-free use of our precious water.

QuickClean.

All of our showers have flexible silicone jets. Any deposits are quickly removed simply by rubbing a finger over them. Well-maintained limescale-free products not only look much nicer, they work better and last longer.

Visit our YouTube Channel for Spray Modes and More.
www.youtube.com/hansgroheusa

EcoRight.

Back in 1987 – long before saving water became more of a priority – Hansgrohe developed a handshower, the Mistral Eco, that used only half the amount of water and saved previous energy. Today, many of our showers are available in water-saving EcoRight versions.

XXL Performance.

By intelligently distributing the water over a large area, the whole body is enveloped in an exhilarating shower rain. For fabulous water pleasure.

Raindance E Showerheads: Fair and Square

Showering pleasure now has a new shape.

Raindance E showerheads represent a new dimension in showering and terrific water performance. With the Raindance E 300, which can be wall or

ceiling mounted, or the flush-mounted Raindance E 400, the shower nozzles are arranged closer together towards the center for more power, and widely

dispersed on the outsides to ensure a relaxing shower experience. Sporting its striking square design, they are a perfect complement to the new Metropol line.

Raindance E Showerpipe: A Clear Statement for Function.

The Raindance E showerpipe appeals not only for the impressive showerhead, but also for its functionality. The thermostat with safety glass becomes a roomy shelf for body wash, shampoo and other bathing products, while the handshower holder is integrated in the rail. It's height-adjustable and tilts to provide the exact level of comfort the user wants in the shower. The showerhead, handshower, and hose must be ordered separately.

Temperature and volume control.

Height-adjustable handshower holder.

ShowerTablet 600 and Unica Raindance E Wallbars

Design options for the bath provide the perfect freedom for your personal style and needs.

The ShowerTablet 600 features function and utility as a dual-function thermostat that doubles as storage and shelving in the shower. Nearly two feet in width, the ShowerTablet 600 is the perfect place to have all of your bathroom necessities within reach during your shower experience. The mirrored glass covered material creates a sleek, minimalistic finish to your shower solution that can withstand daily use. The adjustable Unica Raindance E wallbar provides additional shelving for a completely customizable shower.

PowderRain: Innovation for Showering Pleasure

Pamper your skin with thousands of fine and invigorating micro-droplets.

Inspired by nature. With exhilarating droplets in mind, our product specialists developed our newest spray mode, PowderRain. Is featured in the newest range of Raindance products that will transform your showering experience,

making it even more special, and indeed unique: Showering you with micro-fine droplets, wrapping your skin in a cocoon of water. No-clog spray channels. Innovative in design, products equipped with the PowderRain spray mode feature

nozzles with several fine openings producing thousands of micro-droplets, that create the unique sensation of soft, sensual rain.

PowderRain: Soft, exhilarating shower rain from micro-fine droplets

PowderRain
Indulge your senses with this innovative spray.

Select: Push to Transform Your Shower.

The easiest decision you'll ever make in the bathroom: Select.

We don't just want our ideas to revolutionize the way we experience water; we also want to set new standards in ease of use and control. Above all else, our products should be fun. This

claim goes with every single decision we make, and every line drawn by our designers. The Select button is simple and intuitive – touch, see, and experience the difference. Select will

change how you experience your shower forever. Select technology shows the quality and innovation that you can expect from the Hansgrohe company.

www.hansgrohe-usa.com/Select

Intuitive.

We redefined the showering experience with Raindance. Now the question is: What will make the best showers even better? It's clear – easier control!

Simple.

Why a button? Because it invites us to try it and experience direct action and reaction. Change the spray modes on handshowers and showerheads at the touch of a button.

Effective.

The Select button is mechanical, not electronic, making it quick and easy to press and most importantly, dependable.

Raindance Select Handshowers: What's Your (Shower) Type?

From the shower to practical use: Water in your favorite form.

The Select button isn't all function; it also impacts form, allowing not only the familiar round spray face, but also the SoftCube shape of the Raindance Select E handshower. Whether small

or large, round or SoftCube, in pure chrome, the dual-finish white/chrome – or brushed nickel – there's a choice for any taste. Raindance Select S 120 and E 120 handshowers are also available

in an EcoRight version that reduces water consumption by up to 20% versus a standard, 2.5 GPM flow rate shower.

www.hansgrohe-usa.com/Select

Raindance Select S Handshower 120 3-Jet (2.5 and 2.0 GPM)

RainAir: Gentle air-enriched drops from large jets

Rain: Strong shower rain from smaller jets – perfect for rinsing shampoo out of your hair.

Whirl: Concentrated massaging spray from rotating jets to relieve tension.

Select Button: Allows you to switch spray modes intuitively at the touch of a button.

Pleasure Showering.

You take your time in the bathroom, seeking to wash away the day's stresses drop by drop. **RainAir** lavishes soul-seeking bathers in pampering, soft spray, helping you lose yourself in your shower. Please do not disturb.

Efficient Showering.

You are the type of user that craves performance – a solid, steady stream of water robust enough to make short work of shampoos and soaps. **Rain** spray gives you the quick rinse and reinvigoration that you need so that you can get in, get out, and get on with your busy day.

Targeted Showering.

You use water as a wake-up call, directing spray where it's needed most – across a shoulder, to tired back muscles, then onto aching calves. **Whirl** provides a concentrated spray from rotating jets to revitalize fatigued body parts.

Croma Select Handshowers: Innovation at Your Fingertips.

The little button that provides a tremendous amount of pleasure.

As a result of customer feedback, we have integrated the Select function into the next generation of Croma handshowers. The advantages of the Croma Select handshower are quite literally in your hands. Thanks to the

integrated Select technology, spray modes can be selected easily and ergonomically at the touch of a button. And their modern design is further enhanced by the elegant white of the spray face. In addition, the SoftCube

design is new for Croma handshowers, where the innovative Select button has replaced the turning spray face. And with its attractive price point, Croma Select is sure to delight.

Raindance Select Showerheads: From Shoulder to Shoulder.

Showerheads for the highest standards.

Look up: The next frontier in showering is overhead, all thanks to a simple button. Simply press the Select button in the center to choose from the RainAir or Rain spray. Our Raindance Select showerheads also come in both

our classic round version and in a contemporary SoftCube form with finishes varying from pure chrome, brushed nickel, or the dual-finish white/chrome. Showering in style never felt so easy. Finally, the spray face is removable

and easy to clean, which means it will stay both beautiful and functional for many years to come.

RainAir: Enjoy a gentle rain shower with air-enriched drops from large jets.

Rain: Strong shower rain from smaller jets – perfect for rinsing shampoo out of the hair.

Rain Air.

Every single drop of water from the **RainAir** spray bursts forth from a large, wide jet: Large voluminous drops enriched with air. It's perfect for those who delight in a soft, relaxing rain.

Rain.

Focused water released from smaller, narrow jets offer strong **Rain** streams to effortlessly rinse out shampoo. Those who enjoy an efficient shower can now rejoice, reinvigorate under the spray, and run to their next commitment.

Select Button.

Easy and intuitive. Push to escape. Push to surrender. Push to thrill. Push to transform your shower by simply switching from one spray mode to another, with the simple touch of a button.

Croma Select Showerheads: Designed to Please from Head to Toe.

Experience the ultimate in shower pleasure at the touch of a button.

Select technology also found its way into the Croma Select showerheads. Now, a simple touch of a button in the middle of the spray face is all it takes to easily switch between spray modes. The Croma showerhead is enjoyable in other

ways as well. Thanks to the QuickClean silicone jets, simply wipe the surface with your finger to clean it. Best of all, whether you opt for the classic round design of the S style, or the SoftCube shape of the E style, a wonderful

showering experience is yours to enjoy. Available in the attractive dual-finish white/chrome – and also in chrome and brushed nickel versions, which have a fully-finished matching spray face.

Wallbars: Comfort and Individuality.

Choose your preferred versatility in the bathroom.

A fixed showerhead may not provide the same benefit for one user as it does for another. It is for this reason that the Hansgrohe company invented the wallbar in 1953. Wallbars, fitted

with an angle-adjustable handshower holder, allow you to easily adjust the removable handshower to your individual height by simply sliding the holder up or down the wallbar, addressing the needs

of multiple users and thereby enhancing your showering experience. This allows for versatility in pairing with your favorite handshower.

Unica
Wallbar Raindance S, 36"
Includes Handshower Hose
Techniflex, 63"
Available in chrome and
brushed nickel

Unica
Wallbar S, 24"
Includes Handshower Hose
Techniflex, 63"
Available in chrome,
brushed nickel
and polished nickel

Unica
Wallbar Classic, 24"
Includes Handshower Hose
Techniflex, 63"
Available in chrome,
brushed nickel, polished nickel
and rubbed bronze

Versatility.

By adjusting the position of the slider, a wallbar allows you to easily target specific areas of the body, such as the shoulders and lower back. Plus, we also offer accessories that attach directly to the wallbar, to provide shelving for soap and shampoo.

Showerpipes: A Perfect All-in-One Alternative.

Discover the combination of mixing valve, handshower, and showerhead.

The interplay between sophisticated technology, perfect forms, and precisely matched components can be experienced in many different ways with the various

hansgrohe showerpipes. Raindance and Croma showerpipes offer multiple shower options, as well as tub functionality on certain models. Using two basic hot and

cold connections, this versatile addition is ideal for new installations or as a one-step bathroom improvement when remodeling.

Basic Set

Spacing and leveling are key to a successful installation. Ensure perfect alignment with the showerpipe basic set.

Hot/Cold Supply Lines

Simple hot and cold water lines are the basis for installation.

Completed Installation

The installed showerpipe with exposed mixing valve.

Croma Showerpipe
 Experience this all-in-one spa-like
 experience for the shower

Shower Trims: A Wealth of Options for the Shower.

Whatever your style, a multitude of shower configurations are available to you.

Versatility at its finest: With a variety of mixing valves and diverters, the han grohe brand gives you more options than ever for creating the perfect shower. Accommodating all trim styles, Thermostatic or Pressure Balance, the iBox Universal Plus rough is the universal rough that makes each of these configurations possible.

Shower installation with two functions

iBox Universal Plus Rough: Perfect For ShowerSelect.

The hansgrohe ShowerSelect trims.

Creating the perfect shower installation has never been so easy. ShowerSelect trims combine geometric design and revolutionary push-button control into one sleek package. Just a

single touch of a button switches functions on and off, completely transforming your shower experience. It also puts performance at your fingertips, with purely mechanical operation that offers long-

lasting reliability. Your only worry: What water experience to choose. You'll find the ShowerSelect trim in two styles: With a square or round escutcheon plate.

Select button.
On/off for one shower function.

Select button.
On/off for second shower function.

Thermostatic Temperature Control.
Your preferred water temperature will be maintained to within +/- 1.

Anti-Scald 100° Safety Stop
Prevents water temperature from exceeding 100° F, unless this override button is pressed.

Products displaying "ADA" will meet actuation force requirements outlined in the Americans with Disabilities Act and ICC/ANSI A117.1

Thermostatic 1-Function Trim.

Thermostatic offers many advantages over pressure balance valves, and with the ShowerSelect trim – easy, intuitive push-button control is also added to the list. One push to turn water on, and one to shut off. The result is a shower installation with a refined, architectural look, combined with easy, ergonomic control for all users.

Thermostatic 2-Function Trim.

A triumvirate of Select. In addition to the Thermostatic 2-Function trim with the latest push-button technology, both the showerhead and the handshower shown in this installation feature Select technology. Select your shower functions, and select your spray mode on each of the shower components. All at the touch of a button.

**Water in its
Perfect Form:**
hansgrohe Faucets.

Turn Your Dream Bathroom Into Reality with Our Three Style Worlds.

Design your ideal bathroom with Avantgarde, Modern, or Classic.

The bathroom has long since evolved from a purely functional room into a comfortable living space. More and more people are creating multi-functional rooms where design and comfort are as valued as functionality.

The culture of wellbeing adds its bit to this trend: The bathroom has long been about relaxation and a respite from daily life. A room where you spend time. Our faucets reflect this balance between functionality and beautiful design. In

order to provide you with inspiration, we have created three different style worlds for our products. You will find plenty of ideas for personalizing your dream bathroom in these style worlds. Let us inspire you!

Avantgarde.

Give your room a special kind of sensuousness with the playful details of this emotional design language.

Modern.

The style of reduction: Forms are reduced to their basic essence, removing all that is extraneous. The result is a calm room that is notable for its clear lines and sensuous shapes.

Classic.

A design language that equates to classic beauty, and radiates a warm, harmonious atmosphere.

ComfortZone: What Height is Just Right For You?

We all use water differently; we all have our daily rituals and our own tastes. These different requirements are met by each faucet series – by height,

form, and function. The height of a faucet determines its versatility in how the water is used. We have a name for the distance between the faucet base and the spout:

ComfortZone. Find the height that is perfect for you, your requirements, and your home.

At the Hansgrohe Test Center, we have found the perfect pairing of faucet and sink. Download any of our tests to see for yourself!

Avantgarde.

Pure. Clear. Sensuous. Strong character right down the line.

Avantgarde is not about tomorrow's trends, but about your own trend. This style world plays with shapes to create the space for inspiration. In short: those who appreciate individuality will love the PuraVida line. The rounded lines and

organic shapes radiate creative self-confidence. The unique material and design language of the PuraVida product line is the forefront of the Avantgarde style world. The dual-finish process allows the surface materials to blend

together smoothly. The PuraVida faucets are available in various heights, for individual space and accommodation that we call the ComfortZone.

PuraVida Video
From concept to award-winning design.

Avantgarde solutions for bath and shower facilitate creative, individual design ideas. The PuraVida faucets themselves become sculptures, and complete the image of a style world

where people who like the special things in life are at home. Proof of the idea that although a bathroom has to be functional, it can also develop its own character.

Modern.

Reduced. Stylish. Functional. Clear line and clear water.

Modern embodies the idea of freeing oneself from the superfluous and the superficial to focus on the essential. A clear design language that leaves no questions unanswered. Clear lines lead to sensible forms with **Metropol, Metris S, Talis S, Talis E, Metris, Focus, Focus N,** and **Logis**. This results in a reduced, well-planned whole. The combination of basin and faucet should also be considered carefully, because it is the matching ceramic that shows your faucet in the best possible light.

Metris 230

Talis E 240

Talis Select S 190

Metropol Freestanding Tub Filler Trim, available in lever or loop handle

Welcome a New Personality Into Your Bathroom – Metropol.

Clarity is redefined with the new Metropol faucet line by hansgrohe. With its geometric lines, it puts on a memorable performance in any modern bathroom. With its precise yet appealing design, the Metropol line is the foundation of high-quality bathroom design. Its stylish silhouette that utilizes elegant geometric shapes creates a striking appearance in any bathroom.

The single-hole Metropol faucet with loop handle makes a modern design statement.

Functional and architectural elements unit in the Metropol widespread faucet's expressive character.

Metropol: Space and Comfort at Its Finest.

Design options for the bath provide the perfect freedom for your personal style and needs.

The hansgrohe ComfortZone defines the usable space between washbasin and faucet. With the Metropol faucets available in multiple heights, you can

define your own individual space for washing your hands. Offering elegance, delicacy or minimalism, the Metropol faucets with three aesthetic handle

options provide the perfect freedom for your personal style. Metropol faucets are available in both chrome and brushed nickel finishes.

Metropol faucets are available in three heights.

Handle Options

The linearity of the **Lever** handle elegantly continues the simple design.

The **Loop** handle radiates lightness, while its shape simplifies its use.

The **Select** handle combines minimalist design with intuitive handling.

Select Handle

The water flow starts and stops at the touch of a button. The desired temperature is set by turning.

Classic.

Timeless. Lively. Harmonious. Comfort that fills the room.

Classic is the translation of the traditional understanding of beauty into the here and now. This style world combines traditional values such as elegance, warmth, and harmony with

modern elements. The balanced shapes of the **Metropol Classic**, **Metris C**, **Talis C**, and **Swing C** collections emphasize a persisting awareness of design. In order to perfect this feeling

of comfort, our classic faucets give you the choice of various heights. Decide for yourself just how much space you need in everyday life to really feel good.

A kitchen scene featuring wooden shelves against a dark grey wall. The shelves are filled with various items including jars, vases, and plants. A window with a grid pattern is visible on the right, letting in bright light. In the foreground, there are green plants and a wooden cutting board. A chrome faucet is visible on the right side of the frame.

Success:**
hansgrohe Kitchen.

Select Kitchen
The ultimate experience.

Quality in the Kitchen.

With features that increase comfort and ease of use, we make time in the kitchen a joy.

The kitchen is the crossroads of the family home, and the kitchen faucet plays an important role in making the room as distinctive as the individual using it. With a range of models and

styles, and the quality and design you expect from us, dream kitchens become a reality. Our faucets have beautiful designs, superior durability, several unique features that improve ease of use

and maximize versatility for retrofits. The installation of our products is easy, and the solid construction ensures many years of consistent operation.

Metris

MagFit Sprayer Port.

Magnet-assisted sprayhead docking ensures an easy and secure fit with a quiet 20-inch nylon hose.

Two Spray Modes.

Most pull-out kitchen faucets with a retractable sprayhead feature two spray modes: full and needle sprays.

Select Function.

Easily start and stop the water flow with the Select button on the sprayhead, allowing you to dispense water beyond the sink.

QuickClean Aerator.

Silicone aerator and spray nozzles prevent limescale build-up.

Swivel Area.

All main and prep kitchen faucets feature a 150° swivel area.

Vertical Start Position.

Permits installation even with limited backsplash area, and handle pulls forward to cold – to help prevent scalding.

Ceramic Cartridge.

Provides smooth, leak-free operation.

Boltic Lever Lock.

Prevents handle from becoming loose during repeated operation.

Easy Installation.

The included 3/8" flexible connection hoses make it easy to install the faucet.

Style Options for the Kitchen.

With six styles ranging from Modern to Classic, we have a collection to suit every need.

Scan the QR codes below for a short video.

Metris Select / Metris

Alluring angles and superior ergonomics. With distinctive, angular design featuring a unique, intuitive pull-out spray on the main and prep models, Metris faucets will fuel your passions in the kitchen.

Chrome

Steel Optic

Talis Select S / Talis S

Modern style with personality. From the angular handle, to the distinctive flared spout of the HighArc kitchen faucet, Talis S kitchen faucets blend the best of style and functionality.

Chrome

Steel Optic

Talis S

Sharp angles, clean lines and bold forms define the reinvigorated contemporary style of Talis S faucets – simple, geometric beauty, yet with a distinctive personality all its own.

Chrome

Steel Optic

Focus

Clear, modern style within reach. Fresh, authentic modern design featuring a slender pull-out sprayhead is available to everyone, with the superior quality you expect from the Hansgrohe company.

Chrome

Steel Optic

Allegro E

Transitional design with elegant contours, Allegro E faucets exude both aesthetic and functional beauty, bringing warm hospitality to your kitchen – the most important room in the house.

Chrome

Steel Optic

Talis C

Clean, authentic and traditional style. Delicate and subtle scalloped edges and a trumpet-shaped spout, along with the attention to detail you expect from us.

Chrome

Steel Optic

Polished Nickel

Rubbed Bronze

Complete Assortment for the Kitchen.

Full depth of assortment for the kitchen in every style, providing numerous water uses.

Not all finishes are available for all product lines.

Hansgrohe North America, located in Alpharetta, Georgia, employs a Physical Vapor Deposition (PVD) process for brushed nickel, polished nickel, and steel optic finishes to ensure durability, longevity, and beauty. PVD finishes resist corrosion, tarnish, scuffs, and flaking. With this advanced technology, your product will be beautiful for years to come.

Chrome and all PVD finishes are covered by the Limited Lifetime Warranty. Rubbed Bronze warranty is limited to 3 years. Please refer to www.hansgrohe-usa.com for detailed warranty information and finish availability.
