Dream bathrooms

[hansgrohe.com.au](https://www.hansgrohe.com.au)

A Brand for Life

Day after day, we pour all our passion and precision into creating unforgettable water experiences that meet high standards and generate genuine enthusiasm. We believe the bathroom is a place that, if a holistic concept is introduced, can enrich your life and fill it with lots of emotions and extraordinary moments. It is a place to feel special, every single day. Where you are free to express your individuality and enjoy the beauty of water with all your senses.

Bubbling with ideas since 1901

Company founder Hans Grohe's pioneering spirit is deeply rooted in our DNA and shapes the work we do.

125

YEAR
ANNIVERSARY

The Hansgrohe Group today

As a company, Hansgrohe employs over 5600 people working at 53 sites on most continents. So it is safe to say we are a global player in the sanitation industry. The products from the AXOR and hansgrohe brands have won over 700 design awards. Visitors can touch and try out our products at international trade fairs and events, our Water Studios and the Aquademie at our headquarters in Germany.

Setting the rhythm of water

Once upon a time in the Black Forest: In 1901, Hans Grohe founded a craft business for spun metal goods and became a shower pioneer. Our passion for water and our aim of setting the style have remained constant ever since. Our innovative strength is down to our dedicated, experienced, and experimental teams. And we are always finding new ways to express our passion with products that stand the test of time. We set the rhythm of every droplet and create water sprays that caress the body and coat it in cosiness. So that people can feel our state-of-the-art engineering and design quality on their skin.

Our brand values

Innovation

Life is in constant motion.

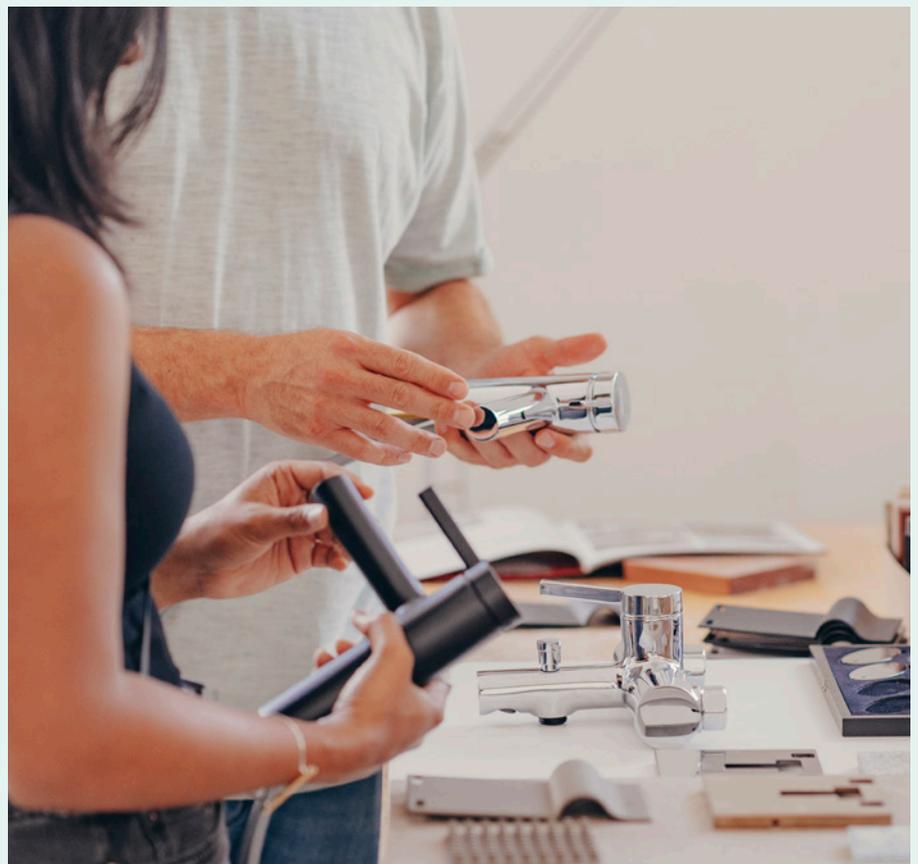

hansgrohe has been one of the pioneers and innovation leaders in the sanitation industry since day one. We are constantly pushing the limits of the technically feasible and, in so doing, revolutionising mixers, showers and bathrooms. Not only are we optimising designs and materials, but we are also constantly rethinking functionality by continuously addressing our customers' needs. Sensual spray types such as PowderRain or pioneering installation solutions such as the iBox universal 2 are good examples of this. Our inventions encourage people to enjoy the beauty of water.

Design

Life is beautiful.

From lovingly designed details to a holistic view of a complete bathroom: for us, modern design is more than just an appealing aesthetic. hansgrohe design combines timeless beauty, functional finesse and the highest hand-crafted quality across all product ranges. Numerous awards confirm our pursuit of the extraordinary and highlight our close cooperation with design studio PHOENIX. On top of this, we follow our ECO design principles* every time we develop our products so that they look appealing and are eco-friendly.

Quality

Life is a journey.

Our products stay with people for years and years. They create feel-good moments and offer sensual experiences tailored to individual needs. The premium quality of our products is not only measured by the material properties, but also by the joy they bring in the long run. We ensure our customers across the world are satisfied, for example through user-friendliness, a voluntary fifteen year manufacturer's guarantee. This is why many consumers become lifelong hansgrohe customers.

Responsibility

Life is precious. So is our planet.

Saving water and energy are two matters close to hansgrohe's heart. And so we develop products for impressive water experiences with reduced resource consumption. Because we don't want to make our customers choose between well-being and sustainability. As the use phase of mixers and shower heads installed in people's homes is the most carbon-intensive, we are converting our entire water-bearing product range to water- and energy-saving technologies by 2030. We use recycled material whenever possible, for example in the hansgrohe Planet Edition. What's more, our products are robust, long-lasting and easy to repair.

The bathroom of tomorrow: Our Green Vision

Wellness or climate protection? Our bathroom requirements compete with the growing need to conserve water and energy. An internal conflict for all of us. But does it have to stay this way? No. Hansgrohe's Green Vision separates hygiene and wellbeing, thus enabling unlimited, almost waterless regeneration. The concept consists of two bathroom platforms: **BASE** is there for personal hygiene, while **SPHERE** is a space for mental retreat. Our Green Vision has real future potential. Even today, the technical innovations of the individual modules are already being incorporated into product development for the AXOR and hansgrohe brands.

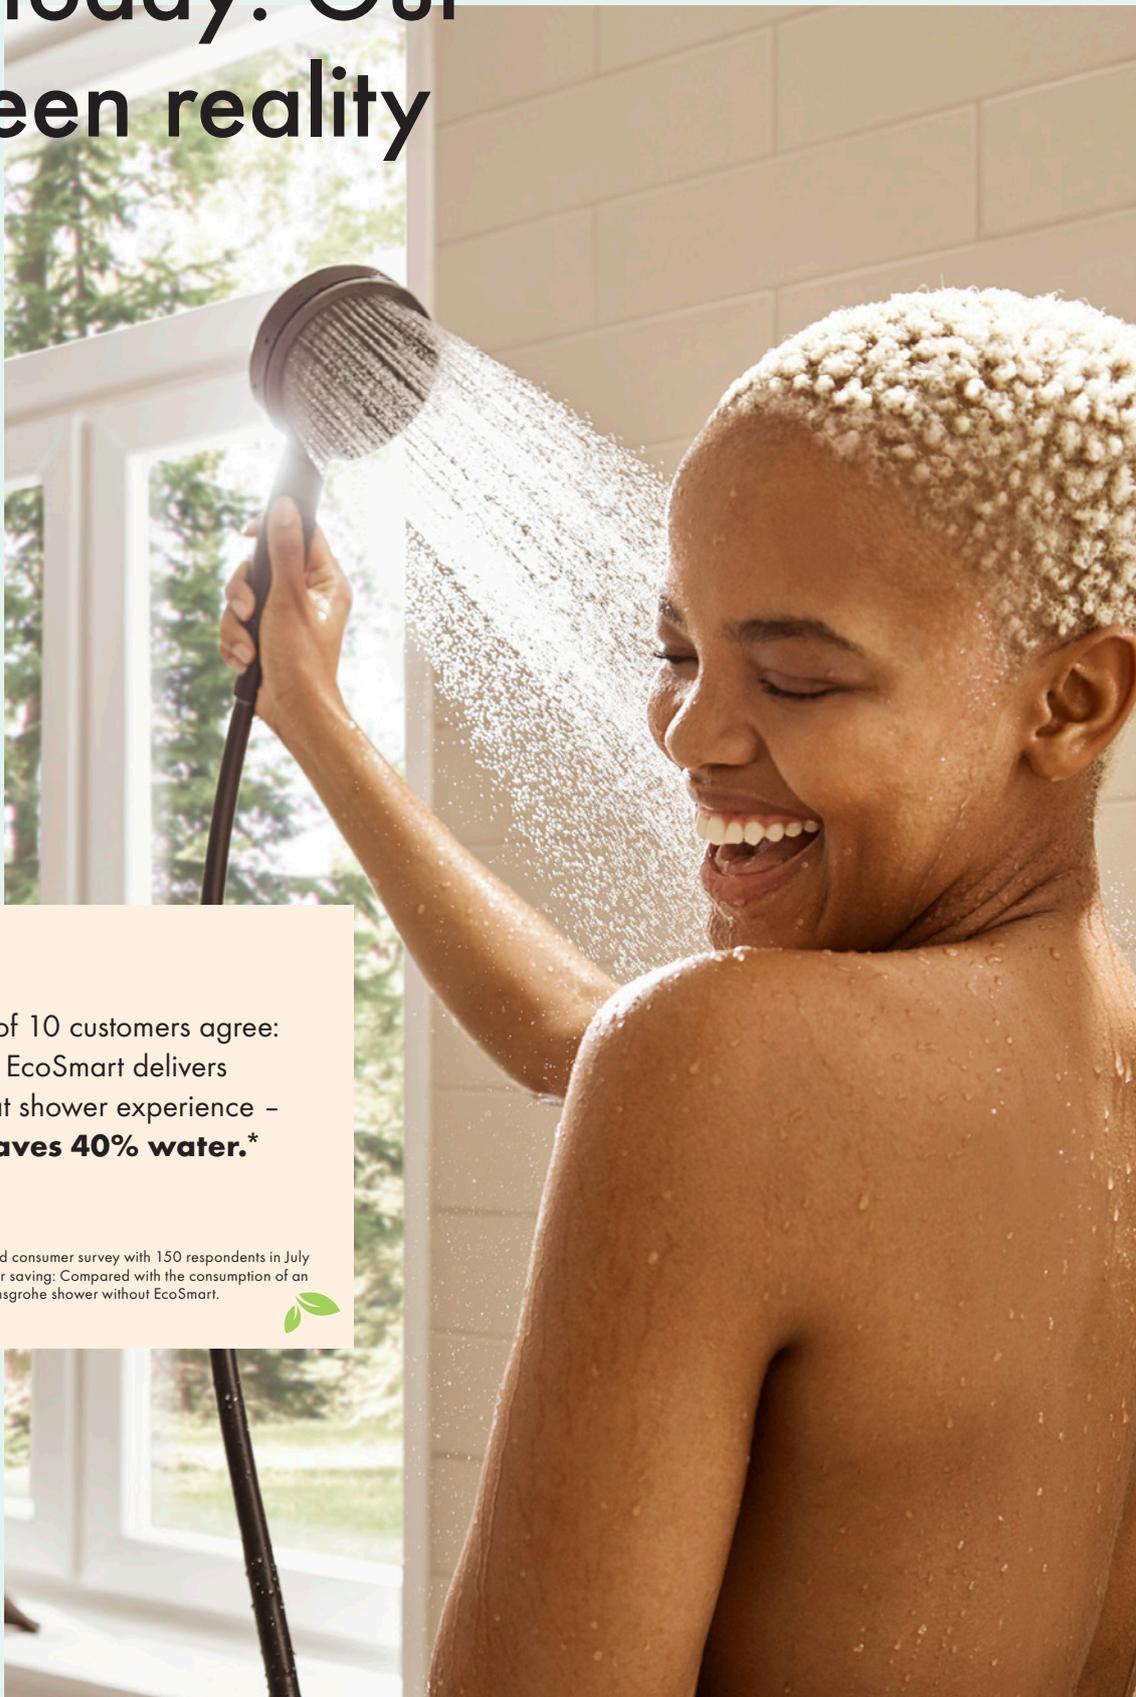

90%

less water consumption,
less energy consumption,
and less CO₂e emissions
in the bathroom.

The bathroom of today: Our green reality

9 out of 10 customers agree:
Pulsify EcoSmart delivers
a great shower experience –
and **saves 40% water.***

*Source: trnd consumer survey with 150 respondents in July 2022. Water saving: Compared with the consumption of an average hansgrohe shower without EcoSmart.

hansgrohe integrates water- and energy-saving technologies.

Water is life. Water is our passion. So we do all we can to protect this precious resource: with water- and energy-saving showers, taps, and technologies. Excellent design and resource conservation therefore go hand in hand at Hansgrohe.

Find out more about our commitment to sustainability.

EcoSmart

Thanks to integrated flow limitation, hansgrohe showers with EcoSmart use up to 40 % less water than our showers without this technology. With EcoSmart+, it's as much as 60 %. Many EcoSmart showers therefore consume only 8 l/min*.

EcoSmart also uses flow limitation to reduce water consumption to around 5 l/min* in hansgrohe bathroom mixers. *at 3 bar

Find out more about EcoSmart.

The life cycle of a hand shower

Most CO₂e emissions in the bathroom are generated in the use phase, i.e. through the provision of hot water for the shower, bath tub, and wash basin. Using the shower therefore emits around 1000 times more CO₂e than it takes to make the shower head. **The bottom line:** hansgrohe helps to conserve resources at home.

Production

Disposal

According to the "hand showers" environmental product declaration (EPD) verified by the IBU Advisory Board in 2023, the "total global warming potential" indicator for an average hand shower in the production phase (A1-A3) is 1.08 kg CO₂e. Water consumption, hot water production and cleaning the shower head during the use phase (B2, B6, B7) together amount to 1008.2 kg CO₂e.

What does “premium” actually mean?

Brand quality – uncompromisingly high-end

Our customers can expect the highest quality in terms of materials, shapes, and functionality. Ultimately, they see and use their bathroom products every day. Everything should always look exceptional, be easy to use, and conserve resources. We therefore always involve our consumers and plumbers in the testing of our concepts, prototypes, and products. Our promise: People who choose hansgrohe get long-lasting brand quality.

Service quality – 5 star service

The hansgrohe offers customers professional information and advice on all questions and issues. hansgrohe offers a voluntary manufacturer's guarantee of 15 years on showers and mixers and 20 years on iBox Universal basic sets, along with a spare parts guarantee 15 years of availability of said parts.

Find out more about the manufacturer's guarantee.

“When it comes to service, we at hansgrohe think in terms of solutions and have a goal: We want to turn customers into fans of our brand. So we are on hand to offer guidance with fast response times and extensive information via all channels.”

Danny Stahl, Head of Professional Service & Support at the Hansgrohe Group

Product quality – safe, reliable, simply the best

Health takes top priority for us: hansgrohe products meet the strictest drinking water regulations, hold all the major approvals, and are easy to install. And our standards are far higher than the norm. We therefore prefer to manufacture our main components ourselves, and we run our own spray and sound laboratory. Each product needs to prove its worth over and over in test cycles, stress tests, and quality assurance inspections. When it comes to research, development, and manufacturing, only the best will do.

(Copyright: Hansgrohe SE)

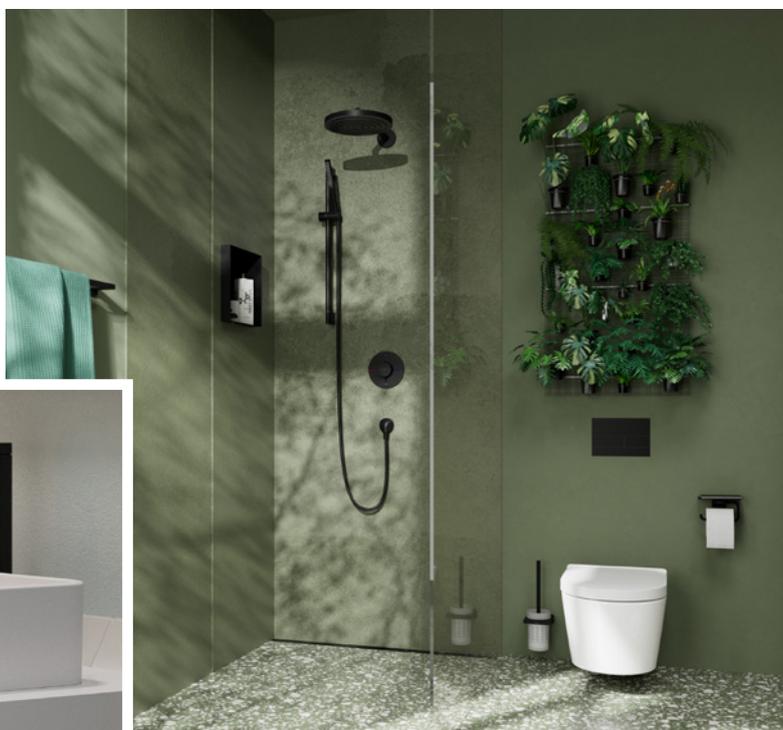

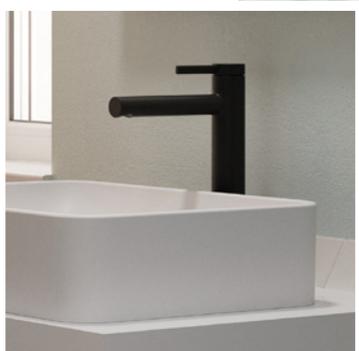

hansgrohe delivers premium quality. Our customers can see and feel this – and can look forward to long-lasting enjoyment from our high-quality products.

Add colour to your bathroom!

FinishPlus colours let you make a bold statement in your bathroom. With a range of metallic and matt shades, you can express your personal style to create your individual bathroom sanctuary.

Durable and long-lasting, PVD (Physical Vapour Deposition) is a vacuum coating process that vaporises metal molecule by molecule to create an ultra-thin, extremely hard finish with vibrant colours. Highly resilient, these coatings preserve their premium look for years even under heavy daily use.

Matt Black
provides a contrast and
takes the bathroom design
back to basics.

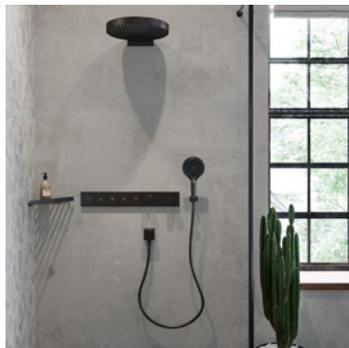

Chrome
is a timeless classic that makes the
bathroom shine.

Brushed Bronze (PVD)

exudes subtle flair and looks elegant with white and natural tones.

Brushed Nickel (PVD)

provides a modern, soft metallic finish, bringing understated elegance to any design.

Brushed Black Chrome (PVD)

has an air of sophistication thanks to its dark appearance.

Showers and accessories

The ultimate shower experience

Our brand-name products bring more joy, sensuality, and variety to the bathroom routine of countless people around the globe. For many, hansgrohe is synonymous with showering. Because our world of showers is like no other and our variety of spray modes is impressive. Because we impress people with award-winning shower design and intuitive water controls. hansgrohe is also all about resource conservation, which saves money.

Welcome to your home spa.

From a fine mist out of the hand shower to a sumptuous summer downpour out of the overhead shower, water can be made to feel so different! Our spray modes refresh and relax, massage and caress. No matter the size of the showerplace, hansgrohe showers are the ultimate in shower pleasure.

According to a study*, nine out of ten consumers agree:

“PowderRain offers the best shower experience of all time.”

*1500 customers tested the PowderRain spray mode in 2018 with trnd, an interactive marketing community in Europe.

PowderRain adds a layer of delicateness to your enjoyable shower

PowderRain. Thousands of ultrafine droplets that wrap the body in a coat of wellbeing. People can let the world around them disappear, wash away their daily woes, and recharge their inner batteries in this ultra-gentle water cocoon. For a soft, sensual start to the day or a pamper session after a stressful day. The hansgrohe spray researchers offered their extensive water expertise to create these whisper-quiet microdroplets. PowderRain can be found bubbling out of our Rainfinity, Raindance with PowderRain, and Pulsify shower ranges.

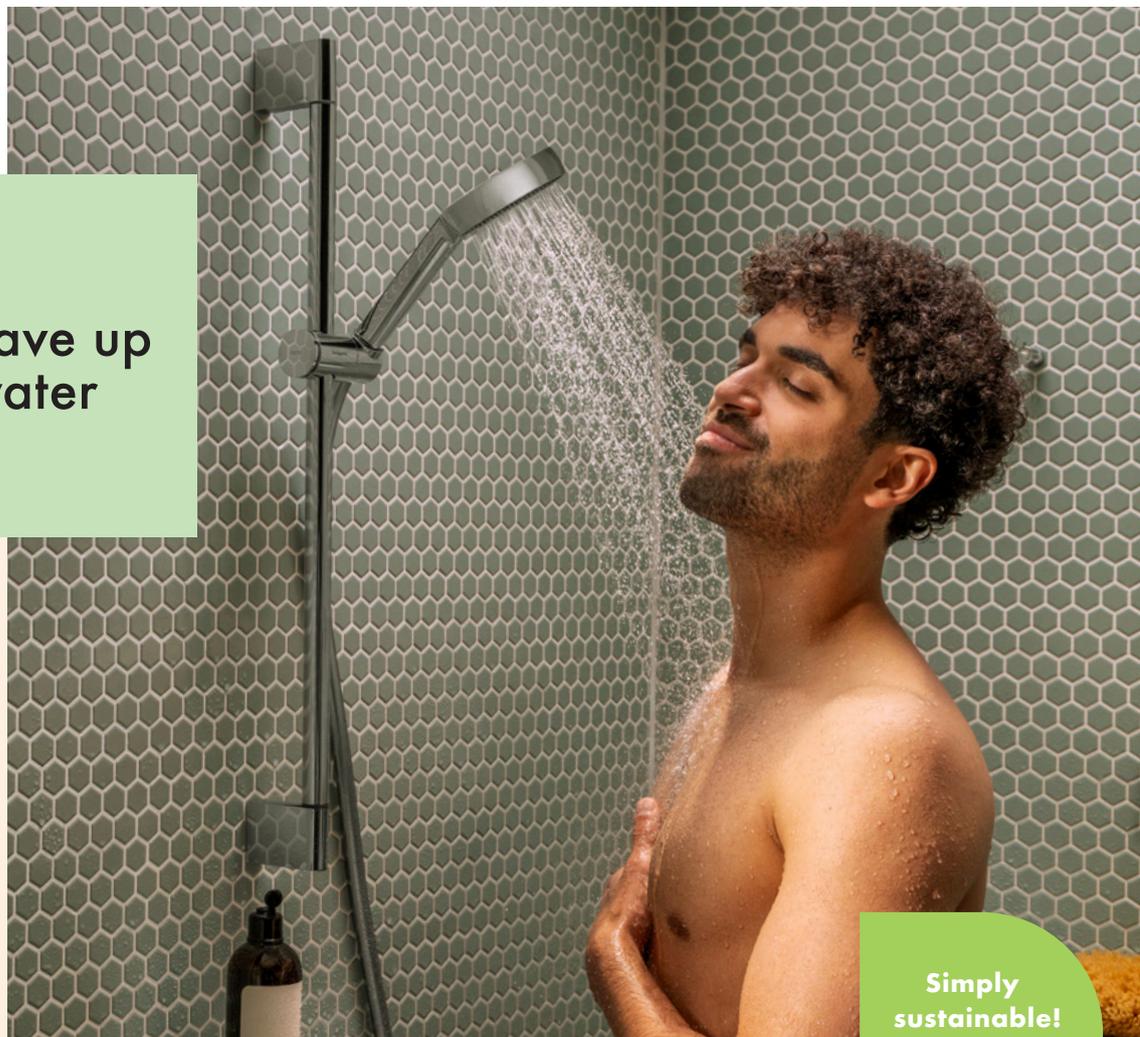

Massage effect? Powerful boost of freshness? Relaxed summer rain? Kneipp therapy? Our multi-spray shower heads pamper just the way you like it.

hansgrohe is up there with the best in terms of conserving resources.

Developing premium showers for individual wellbeing is our specialty. With hansgrohe, showering also means a really enjoyable experience with low water and energy consumption. Our EcoSmart showers save up to 40% water, compared to our showers without this efficient water-saving technology. And it pays off, at home, in hotels, in spas.

**EcoSmart
showers save up
to 40% water**

**Simply
sustainable!**

Premium showers like the global bestseller Raindance turn personal hygiene into a highly indulgent experience. Our shower heads enhance every bathroom and impress users with fascinating spray modes, comfort features, and ergonomic designs. hansgrohe shower and design expertise dates back to 1901, and our water-saving technologies support mindful lifestyles.

Special shower features

Adjustable Shower Head

The overhead shower's angle can be adjusted to individually adapt the water spray.

Fast Drain

The fast drainage function on the shower head reduces dripping after you've showered.

XXL Performance

The shower distributes the water over a large area so that your entire body is cocooned by feel-good droplets.

Select

The simple press of a button allows you to playfully regulate the water flow, the shower head or the spray mode.

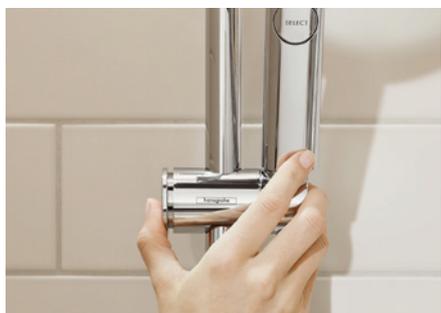

QuickClean

Limescale deposits and dirt can be simply rubbed off the spray disc using a finger. For much less cleaning effort!

DropGuard

Reduces the dripping after stopping the shower to just a few seconds.

Push Slider

Easy one-handed adjustment of the shower holder's height via the push button.

The ultimate in showering indulgence

Rainfinity

A bold design statement

With no need for a conventional shower arm the head can be tilted at an angle of between 10° and 30° using the ingenious wall connection. Find your most comfortable showering position, or keep your hair and face dry while your body is drenched in water. FinishPlus surface finish: Brushed Bronze.

Rainfinity: A fusion of hand shower and shelf

Nice and tidy: The combination of practical shower shelf plus integrated hose connection and hand shower holder creates a streamlined shower space. Shown here in Brushed Bronze that adds a touch of warmth and contemporary style.

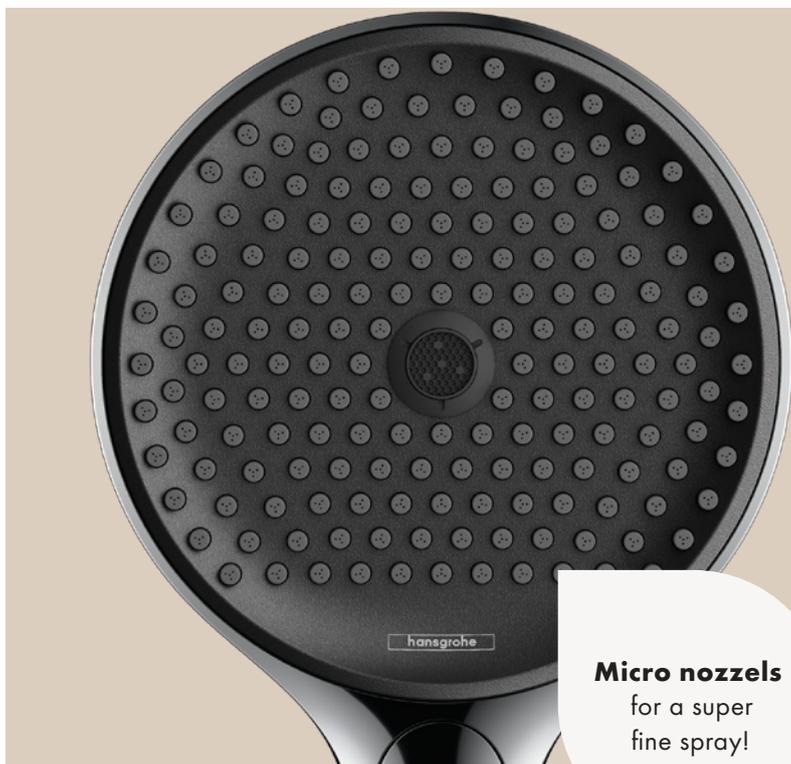

Ultimate shower comfort

Curved spray face

The curved graphite spray disc of the spray face not only creates an ultra-modern design statement but also delivers a spray surface that gently blankets the body and envelops you with PowderRain.

XXL showering

Immerse yourself in a sensuous shower experience thanks to Rainfinity's generously sized spray surfaces. The large 250mm overhead shower and 130mm diameter hand shower provide extensive coverage for a truly luxurious feel.

Micro nozzels
for a super
fine spray!

T MonoRain

A targeted, soothing spray from the center of the shower head. The Mono jet's lightness helps you to unwind, making it a perfect spray for relaxing.

T Intense PowderRain

The number of droplets is substantially increased for Intense PowderRain to produce a powerful, yet velvety soft spray that minimises splashing.

T PowderRain

Inspired by the warm misty droplets of the rainforest, PowderRain introduces an entirely new way to indulge in water. Thanks to multiple fine openings in every jet outlet, water is transformed into a cocoon of spray, which is both all-enveloping and supremely quiet.

Shower enjoyment at the touch of a button

Raindance S

Showering fun at the touch of a button

Raindance Select makes your body care routine more fun. Select the shower jet by simply pressing the Select push button, one click is all it takes. And the mechanical Select button is durable and reliable, tested with 90,000 actuations. FinishPlus surface finish: Matt Black.

Look forward to something special: Raindance Select S

The unique hansgrohe PowderRain jet type envelops your body in a cocoon of the finest water droplets, changing your shower into a source of well-being. You can switch to the Rain jet type with the Select button and transform your new shower into an original hansgrohe rain shower.

PowderRain. Relaxing, micro-fine droplets that gently and quietly envelop the body. The water is transformed into a delicate cocoon that sensually embraces the body for indulgent, deep relaxation.

Rain. Invigorating and energising everyday showering indulgence with a satisfyingly full shower rain. This spray type works efficiently to thoroughly rinse out shampoo.

Whirl. Rotating water sprays that flow around each other in a helical pattern, creating a concentrated massage spray that helps gently wash away everyday tensions and stress.

hansgrohe Raindance Select S: performance meets design

Raindance hand showers feature a distinctive, color-matched spray face and coordinated hose colour, and with five FinishPlus colours to choose from Raindance Select S can be perfectly matched for a unified bathroom design. FinishPlus surface finish: Matt Black.

Striking a chord with our senses.

Raindance Alive

The innovative design showers combine three hansgrohe wellness spray types, including two of our most popular: RainAir and PowderRain.

“I love the feeling of showering with Raindance Alive.”

That’s what 9 out of 10 shower testers told us in the smart insights consumer research with 100 participants in July/August 2024.

Feeling relaxed and wonderful while water droplets dance across our body and wrap our skin in a relaxing cocoon. It’s like that moment when our favourite song comes on: a wonderful feeling. For many, it’s the epitome of happiness. For others, it’s a reason to close their eyes and dream. Raindance Alive. Wonder in a new composition.

Refreshingly new yet somehow familiar:

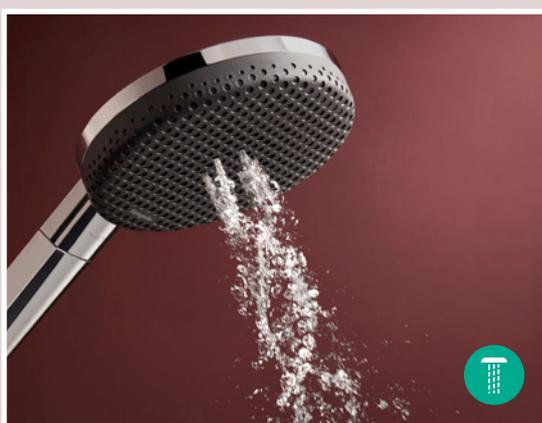

Raindance Alive features a premium design to satisfy our longing for pieces that look good and improve our quality of life. The mesh-effect design cover gives the shower heads a more fabric-like style, making them look less technical and the bathroom look cosier – especially as this grid finish conceals the spray disc and with it the sprays. This helps the shower to blend into the room for a sensational look and cosy effect.

The round Raindance Alive hand showers (125 mm diameter; with Select push button) can fill us with positive emotions or calm us through the regenerative power of water. Depending on the mood, depending on the spray type.

RainAir. Relaxing air-enriched shower rain. Cocooned in gentle pearls of water, we experience a pleasant feeling in the shower that's almost like warm, tropical rain.

PowderRain. Soft rain that feels like our body is enveloped in a cocoon. Thousands of ultra-fine droplets create a pampering and enjoyable shower – perfect for moments of self-care or for thoroughly rinsing out shampoo.

Massage. The powerful spray is perfect for easing slight tension. The hand shower can be used for a targeted massage of specific regions of the body – an act of kindness.

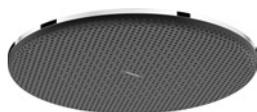

The 2jet overhead shower pampers with our most popular spa spray types: RainAir (bottom) and PowderRain (right). In an S 300mm (round) or Q 210/40 design (soft square).

Indulgent showers for all bathroom sizes

Pulsify S

Pulsify S unique design

with a lasting impression

The Pulsify S baton shower sets, come as a complete package that includes a hand shower with hose and wallbar with innovative self-locking shower holder that can be adjusted using one hand. The Pulsify Select S 3jet set offers easy, one-handed adjustment of the shower holder's height and inclination via the PushSlider.

Pulsify S hand showers: Transforming water into wellbeing

Pulsify S pampers with delicate PowderRain, your everyday wellness highlight. Thousands of fine micro-droplets create an amazing feel-good sensation. Pulsify S showers remain sustainable while they pamper – and it's all thanks to EcoSmart technology.

Structurally compact, Pulsify S can be integrated into any bathroom, while you can choose from a variety of elements and surfaces to design a totally individual look to suit your style.

FAST DRAIN

Less dripping: Residual water drains away quickly after showering through the fast drain.

XXL PERFORMANCE

The striking 260 mm spray disc features a ring-shaped jet arrangement that delivers a powerfully focused stream—concentrating water exactly where you need it for an intensely indulgent, spa-like shower experience.

Maximum shower enjoyment, even in small bathrooms

POWDERRAIN

Pampers users with thousands of micro-fine droplets that emulate that ultra-gentle summer rain.

INTENSE RAIN

A concentrated spray, the activating and invigorating feel of IntenseRain instantaneously banishes tiredness and wakes you up.

MASSAGE

Quickly washes away the stresses and strains of everyday life. The water jets have a targeted arrangement to release tight spots.

Whether in a large family bathroom, in your own home or in the tiny bathroom of your rented apartment, hansgrohe Pulsify S offers the optimal, individual shower experience for every space, budget, and style. The Pulsify S 100 baton provides a compact and stylish solution for bathrooms with a limited footprint, while still being able to enjoy the PowderRain spray.

Activera

A new name that combines top shower performance with minimal water consumption and makes comfort, joy and safety the priority. Activera maximises shower performance without increasing water consumption in a family- and budget-friendly product range.

FlexPower technology

ensures consistent performance and powerful water sprays at low or fluctuating pressure. The flexible Flex nozzles in the spray disc are shaped like a clover leaf and ensure the pressure evens out through constant dynamic movements. In addition, this allows less limescale to accumulate, which can also reduce the need for cleaning.

Activera is the perfect shower for people having a stressful day. It features a universal design solution suitable for all bathrooms. With innovative functions and two spray types, it meets people's every showering need.

Top: the spray types are switched using the Select button in the spray disc - for intuitive operation at the touch of a button.

Bottom: the PushSlider on the shower bar allows the hand shower to be easily shifted with one hand - perfect for showering at a person's personal comfort height.

Harmonious design and excellent value for money: this Activera shower set consists of a Select hand shower with shower hose and a shower bar with slider. This kind of all-in-one solution can create an instant oasis of well-being - in Chrome, Matt Black or Brushed Nickel.

EasySplit technology enables the Activera hand shower to be easily dismantled so that parts such as the cartridge can be replaced.

The spray disc on the Activera S overhead shower measures 240 mm in diameter. This creates an enjoyable shower with Rain, which envelops the body in a cosy cocoon, even though the water flow is heavily reduced. Its angle can also be adjusted.

Activera by hansgrohe.

Brings joy. Saves water and energy day after day.

Rain. The invigorating rain spray from the hand shower and overhead shower creates an enveloping fall of rain. For everyone who needs a gentle caressing moment or a freshness boost.

ImpactRain. The powerful rain spray washes away everyday stress and is perfect for gentle massages or for rinsing out shampoo. Designed to be experienced with the 2jet hand shower.

DogShower

DogShower: Less stress, less chaos, more loving looks

Does washing the dog in your bathroom always end in chaos? Is the garden hose your pup's mortal enemy? But there is another way to groom pets. Our dog shower was developed with dog experts and psychologists. The massage effect of its spray jets is reminiscent of pets along the back, letting dogs enjoy a relaxing shower experience.

FurSpray. The generous fur spray spreads over 74 flexible nozzels and is the length of the entire spray disc. It is a luxurious water jet that pampers your pooch. The extra-long, flexible nozzels help the water to work its way deep into the undercoat.

LegSpray. The gentle jet for the legs uses the front part of the shower to effectively rinse out dirt residue and shampoo from even the thickest coats.

PawSpray. The gentle but focused paw spray reaches even in spaces between the paw pads.

Designflex shower hose

Flexible and lightweight, stylish and sustainable

Showers with that extra-special something

The feel: Warm, fabric-like, delightful. The look: Sensational. Designflex creates a cosy vibe. The shower hose gets its attractive look from a tight weave technique with colourful yarns that create new, ever-changing patterns. It is waterproof, water-repellent, and can be cleaned in the dishwasher. As a small but trend-setting detail, the yarn is made of recycled PET plastic bottles from the Black Forest in Germany, making this a sustainable purchase.

Simply
sustainable!

Designflex fits all standard hand showers – simply screw it on. The innovative shower hose reflects the FinishPlus palette found in hansgrohe showers, mixers, and accessories – for an elegant and harmonious colour scheme in the bathroom.

Thermostats, mixers

Simply control the water and enjoy the comfort

Sudden fluctuations in water temperature and water flow can be unpleasant. A thermostat instantly responds to changes and counteracts them. We offer a wide range of water regulators and shower mixers, from one shower head through to multi-functions. All shower controls are high quality and intuitive to use.

A symphony of indulgent showering with so much space

The shape of the flat ShowerSelect Comfort thermostat blends with the shower space. It looks tidy, gives the person showering an enormous range of motion, and enhances the bathroom. Available in three puristic design shapes – Square (E) and Round (S), – and all FinishPlus surface finishes. With minimalist controls like these, everything that looks “bulky” disappears entirely in the shower wall. Recommended in new builds and renovations.

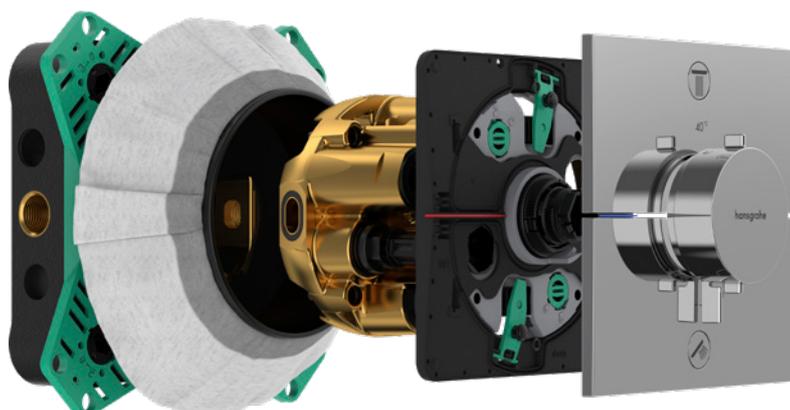

RainSelect : Sophisticated controls for multi-spray showering

When the design is perfectly integrated into the wall and the user comfort is silky smooth, you know you've got RainSelect - our central control board for the home spa. The design thermostat's slim silhouette, high-quality surface finish, and elegant shape define the space it's placed in. The 70 x 70 mm Select buttons control up to five water sources with one touch.

ShowerSelect Comfort thermostat - a work of art for the wall, with a shadow gap as an extra design element

DuoTurn mixer: Turn up the showering comfort

The DuoTurn shower mixer turns on soothing water experiences and allows everyday life to fade into the background. With one turn, users can switch the overhead shower to the hand shower or set the water temperature and water flow - a minimalist solution with maximum ease of use.

iBox universal basic set: Invisible technology, proven millions of times over

With concealed installation, the plumber starts by installing the bestselling hangrohe iBox universal 2 in the wall. Our pre-fab sets are then mounted on this base set.

Feeling good in the ComfortZone

Basin mixers – beautiful, functional, versatile

We treat our customers to award-winning design quality. Sophisticated features ensure more comfort and ease of use. hansgrohe mixers help to save water and energy. Find the perfect mixer here.

Less water, better feeling

EcoSmart

Saving resources with pleasure! The clever EcoSmart technology reduces the water consumption of hansgrohe lavatory mixers to no more than 5 l/min*. Integrated flow limitation ensures a conscious use of water and energy required to heat the water. All without a loss of comfort.

*at 3 bar

Find out more about EcoSmart.

AirPower

Mixes air into the water. For a soft, lower-splash water spray and full, light droplets.

QuickClean

Limescale deposits and dirt can be simply rubbed off the spray disc using a finger. For much less cleaning effort!

CoolStart

This energy-saving mixer only allows hot water to flow when the lever is actively moved. CoolStart helps to conserve resources and cut CO₂e emissions and costs.

Kitchen mixers

Making food preparation a pleasure

For us, the kitchen is much more than just a functional space - it is the hub of everyday life, where smooth, easy workflows and efficient use of water go hand in hand. A place where you can live out your creativity and experience the comfort and inspiring lightness of water every day anew. The kitchen becomes a space that enriches your life and creates and creates special moments again and again.

Special kitchen mixer features

ComfortZone

Describes the large space between the kitchen tap and sink – vertically and horizontally. Whether high, swivelling or extendable – with ComfortZone you have more freedom of movement and space.

MagFit

The shower hose gently swivels back after use and is held in place by magnets at the front of the mixer.

Pull out

More comfort and room to move: Pull-out sprays or pull-out spouts expand the operating radius around the kitchen sink to take water to exactly where it's needed in just one motion.

QuickClean

Limescale deposits and dirt disappear in an instant with this technology. Simply rub the flexible silicone discs or nozzles with a finger.

Laminar spray

A crystal-clear spray for the sink with no air mixed in, perfect for quickly filling large pots or bowls. Efficient with very little splashback.

Shower spray

Resource-conserving and efficient, shower spray can also be used to quickly rinse fruit or vegetables, fish or meat, the soft spray helps to gently yet efficiently clean food and other items.

Normal spray

An air-enriched water spray with a soft feel. Air is mixed in to create a fuller, lighter and softer spray that is an efficient help with every activity at the kitchen sink.

Perfecting your workflow in the kitchen

Aquno Select M81

sBox

The innovative sBox keeps things neat around your sink. The hose slides smoothly and quietly back into the sBox, which is inconspicuously installed under the sink. This allows the tap to be extended up to 76cm, extending the working radius of your sink beyond the standard 50cm, and allowing for easy filling of large containers and plant watering. It's efficient multitasking at its best.

SatinFlow

The unique design of the Aquno Select M81 kitchen tap means water flows in a new way. The flat SatinFlow stream gently cleans your food and doesn't splash when cleaning large items!

Multifunction Sieve

Tailored to the exact dimensions of the splash-free SatinFlow spray, the included multifunction sieve helps you conveniently clean and drain food, hygienically avoiding contact with the sink.
