Croma® Select and Crometta® S Twin Showerpipes

# Individual shower pleasure

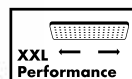

Why settle for just one shower experience? With the Croma® Select and Crometta® S Twin Showerpipes you have the flexibility to choose the way you like to shower. Switch between the IntenseRain overhead

spray mode to activate and wake you up or a gentle Rain spray on the hand shower for a full body experience. The attractive design of the Croma® Select with round head (S) or soft cube (E) is a perfect match for both round

and angular bathroom elements, blending seamlessly into your existing decor. And with easy control via Select, showering pleasure is only a touch of a button away.

Limescale deposits are simply wiped away by rubbing a finger over the flexible silicone jets.

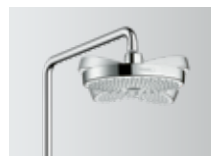

Distributes the water over the large spray face and envelopes the whole body in drops of well-being.

The spray face is removable, which makes cleaning the entire overhead shower quick and easy.

Croma Select S Croma Select E Crometta S

Easily retrofitted and simply installed. Water inlet via top wall connection.

The angle of the swivelling overhead shower is adjustable, so every shower can be enjoyed individually.

Save water comfortably. EcoSmart showers consume only 9 l/min and save up to 60% less water and energy compared to conventional products.

Find your perfect height. The hand shower can be moved along the Showerpipe with the shower support, which can be operated with just one hand.

High quality 1.6m Isiflex shower hose offers the perfect amount of freedom of movement.

The integrated AirPower technology mixes generous amounts of air into the water producing a soft, splash-free water jet and plump shower droplets.

Changing the spray type or diversion of the shower control is easy and intuitive with the Select button.

## Spray Types

### Rain

Full shower rain, ideal for washing hair.

### IntenseRain

An intense jet of water that activates and wakes you up.

### TurboRain

Intensive shower rain that refreshes and rejuvenates.
