

At home in any modern bathroom

hansgrohe assortment Novus®

Individual freedom of movement

ComfortZone for Novus®

Whether you need more room for washing your hands, washing your hair, or filling containers, the higher the mixer, the more flexibility there is in the daily use of water. We call this area between the mixer and the

ceramic the ComfortZone. The Novus mixer line comes in three available heights (70, 100, 230 and 240). For more comfort. For more space. For every day

Lively design for any modern bathroom

Novus[®] mixers

The new hansgrohe mixer line Novus is always the right choice. It is notable for the interplay between precise lines and organic shapes, which creates a lively design for any modern bathroom.

Novus contains ranges for the washbasin, bath and shower in different designs. The design and range variety are ideal for harmonious combinations with the most diverse ceramics, and bring energy into the modern bathroom. In addition to

the innovative technologies like EcoSmart, AirPower and QuickClean the attractive price of Novus mixers provides long-term pleasure and satisfaction.

More technology and comfort backed by German engineering

Quality that you can count on. We build on German expertise for the highest quality in form and function for long lasting satisfaction.

EcoSmart/AirPower EcoSmart reduces the flow rate, saving both water and energy. AirPower enriches the flowing water with air to create a gentler, lighter, ampler jet of water.

Advantages

- Save water comfortably. Water consumption only 5 l/min, save up to 60% less water and energy compared to conventional products.
- Precision O ring for a constant flow even under fluctuating water pressures
- Lush, effervescent jet of water enriched with air to ensure less spraying

QuickClean makes it possible to simply wipe away lime scale deposits by rubbing a finger gently over the flexible silicone jets.

Advantages

- Fast and easy cleaning
- Long lifetime and functionality

Dynamic design

From the base to the outlet
