Modern bathroom planning is increasingly about expressing personal style. For more than 30 years, AXOR has stood for the design of personal bathrooms.

To this end, customers have access to an impressive range of around 2,000 products from the AXOR collections and AXOR programs. With the AXOR FinishPlus and AXOR Signature customization services, AXOR offers even more options for designing individual bathrooms. Find out how AXOR uses new materials to turn the tap into a sensuous experience in terms of feel and look in the chapter on customization. Support for shower planning with selected product combinations, as well as concrete installation tips, can be found in the Planning and Installation chapter. In the AXOR Inspiration chapter, you will find projects from all over the world that show how AXOR products contribute to the unique style of a hotel or residence. Our Design Lexicon serves as a reference for your sales meetings with design-savvy customers. Here, you will find explanations of the most important terms from the world of architecture and design.

For us, rooms are more than a home. They are sources of inspiration that turn everyday actions into conscious rituals. The objects used in the process reflect not just the taste, but also the personality of their inhabitants.

# From personalities –

Our iconic objects for luxury bathrooms and kitchens are created in collaboration with some of the best designers of our time, whose ideas challenge our habits of perception and change our everyday lives. People who live individuality and understand design as an expression of personality.

# for personalities

The bathroom and kitchen are among some of our most intimate living spaces, places where we often just take care of ourselves. The element of water we use to do so is a precious commodity. Through outstanding design, we give it a form that unmistakably expresses this appreciation.

FROM PERSONALITIES FOR PERSONALITIES

## The AXOR Success Story

For more than 30 years, AXOR has been helping architects, interior designers, and discerning customers express their personalities. AXOR has permanently changed the design and understanding of taps and bathrooms like no other brand has – from functional sanitary spaces to individual places of wellbeing.

In 1981, Klaus Grohe commissions the first designer faucet for the Hansgrohe Group: Allegroh, designed by Esslinger Design, origin of the famous Frog Design studio. The first tap collection in colour, UNO, becomes an innovative market sensation. In the 1990s, design becomes a hallmark of prestige, and Klaus Grohe discovers its potential for the sanitation industry. This marks the beginning of AXOR's success story as a design brand for luxurious products to make the bathroom and kitchen more personal – inspired and created by world-famous, renowned designers.

# Philippe Starck

## DESIGN VISIONARY

Philippe Starck is one of the most well-known creators of our time. Subversive and poetic, unexpected and free-spirited, rebellious and political, Starck experiments with a mission and a vision: creation, whatever shape it takes, must make life better for the largest number of people possible. As a vision of a better world, his creations attest a responsibility for society and the environment and a love for humanity.

# Barber Osgerby

## AGENTS OF INTERACTION DESIGN

Barber Osgerby embody the philosophy of interaction design. They stand for the interaction of the user with the product – what they see, hear and need. An art of design that's led to international public commissions and international awards, including the title of Royal Designer for Industry and the Order of the British Empire.

## Jean-Marie Massaud

DESIGN ART THAT CONNECTS PEOPLE  
AND SPACES

Massaud's unmistakable style provides refreshing stimulation – from product design to architecture. His creations are meant to touch people and provide a better place to live. Strongly influenced by the beauty and utility of nature, he creates synergies between people, design, and space.

## Antonio Citterio

MASTER OF ELEGANCE

Nobody else has had an impact on Italian design like Antonio Citterio. As an architect, designer and perfectionist, he creates luxurious objects, interiors and architectural concepts for leading international brands. His signature shows an uncompromising combination of timeless forms and high-quality materials, always under the credo of perfection, of Italian elegance.

## Patricia Urquiola

VIRTUOSA OF STYLE FUSION

The Spanish designer enriches the international architecture and design scenes with her feminine design objects. She skillfully combines styles, patterns and materials. She surprises with floral decor, a sensual feel and arouses curiosity with her creations.

## PHOENIX

DESIGN FOR REAL LIFE

PHOENIX's creations are tailored to people's real needs and desires in their everyday lives. Touching and forward-looking, always driven by logic, morality, and magic.

## Nendo

POETIC DESIGN FROM JAPAN

Oki Sato's creations break with convention. And are easy to understand. The name of his office translates as "modeling clay." An indication that his designs are created in a very playful way. This approach has put him at the top of the international design scene.

## Front

THE SWEDISH "AVANTGARDISTES"

Their design isn't typically Scandinavian. It is experimental, a play with visual effects inspired by fashion, film, and science. Their trademark is their ironic point of view and the joy of surprise. Qualities that have the international design scene buzzing.

# Why

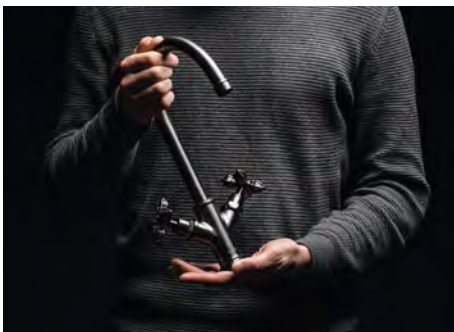

FIVE REASONS TO CHOOSE AXOR

## 01 Design diversity

AXOR collaborates with internationally renowned designers. With their highly distinct signatures, they shape the great stylistic diversity and product depth of the AXOR range. Their design approaches set standards again and again – in terms of their avantgarde designs, which are innovative and timeless at the same time. As part of AXOR WaterDreams, designers from completely different disciplines create their vision of the bathroom of the future, completely detached from a product-oriented development. With their ideas, they provide new inspiration for the development of the space, its use, and matching products.

In the following collections, unique water designs create extraordinary haptic and visual experiences – with innovative spray modes and a completely new way of presenting water:

- AXOR Massaud with a natural looking waterfall
- AXOR Starck Organic with the gentle shower spray on a tap for the first time
- AXOR Starck V with powerful water vortex
- AXOR MyEdition with PowderRain – fitting the tap design

## 02 Individualization

The exclusive AXOR FinishPlus and AXOR Signature customization services meet customers' increasing demand for more options to customize bathroom products. With colored PVD surfaces and customized solutions, AXOR products become unmistakably unique.

## 03 Made in Germany

At AXOR's own factory at its headquarters in Schiltach, Germany, the first-class brand products are created with German engineering quality and a deep commitment to precision – in every detail. This know-how builds on the Hansgrohe Group's more than 120 years of experience, as well as the expertise of every single skilled worker. AXOR is also a pioneer in innovative manufacturing technologies, such as the latest generation diamond drilling machine for ultra-precision milling of surfaces in the AXOR Edge collection.

## 04 Worldwide presence

As part of the Hansgrohe Group, AXOR has 33 subsidiaries and 21 sales offices worldwide and supplies its products to over 146 countries. AXOR taps, showers, and kitchen taps can be found in the world's finest homes, hotels, and restaurants. International architects, planners, and builders trust AXOR quality in products and expert advice.

## 05 International design awards

AXOR's design achievements – marked by independent, internationally renowned industry experts – are confirmed by the numerous awards the brand has received for first-class product design since the very beginning. These include:

- Red Dot Best of Best for AXOR Edge
- iF Design Award in Gold for AXOR ShowerComposition, AXOR One and AXOR Uno
- Green Design Award for AXOR Starck Organic

reddot design award

# AXOR is dedicated to creating the highest quality products. Sustainably.

AXOR contributes to a more sustainable future by designing luxurious products for water-related spaces that will last a lifetime. The brand adheres to eco-design principles and seeks to promote sensible consumption.

As part of the Hansgrohe Group, AXOR is committed to Science-Based Targets. Developed exclusively in Europe, our products are designed to be timeless and built to last. Ninety percent of our portfolio is produced at the AXOR Centre for Excellence in Germany's Black Forest.

In 2022, the Hansgrohe Group switched all international production sites to green electricity. This enables annual savings of over 26,000 tons of CO<sub>2</sub>. "The Hansgrohe Group defines "ECO" as the reduction of water and/or energy consumption of water-bearing products in use by at least 22 percent compared to the base year 2020."

As part of the Hansgrohe Group, AXOR is committed to supporting five UN Sustainable Development Goals.

## Enduring design meant to last a lifetime

AXOR products are designed to be updatable throughout their service life. Any required maintenance or repairs can be easily performed without special tools. AXOR takes pride in its products' quality, which is why AXOR's manufacturer's warranty extends well beyond any legally required timespan. To ensure a secure investment, AXOR guarantees the availability of spare parts for our products for fifteen years—five years more than the legal requirement.

More information:

[axor-design.com/int/service/product-guarantee](https://axor-design.com/int/service/product-guarantee)

For almost 30 years, AXOR's ongoing collaboration with Phillippe Starck has set the benchmark for sustainability through timeless, essentialist designs meant to last a lifetime.

## Saving water is essential to AXOR

Water is one of our most precious resources. That's why, while continuing to offer water-saving products such as AXOR Conscious Showers, the AXOR product portfolio will be restructured over the coming years, placing even greater emphasis on water-efficiency. Why? Because reducing a product's water consumption also reduces the energy needed to heat that water, thus reducing carbon emissions.

AXOR plans to convert all water-consuming products to its "ECO" specifications by 2030, meaning the products will be available exclusively with water-saving technologies, all while offering the same exceptional functionality and performance.

More information: [pro.hansgrohe.com/your-selling-points/innovative-technologies/ecosmart](https://pro.hansgrohe.com/your-selling-points/innovative-technologies/ecosmart)

Our water-saving Conscious Shower produces a generous water spray.

## Collaboration lies at the heart of AXOR's Mission

AXOR strives to produce in a resource-friendly manner. Beyond developing all AXOR products exclusively in Europe—and manufacturing 90% of them at its AXOR Centre for Excellence in Germany's Black Forest—the brand maintains long-standing relationships with regional suppliers that prioritise sustainability. Furthermore, the company has developed specific eco-design guidelines for the future development of the entire product range.

Fair working conditions are central to AXOR's sustainability mission.

# Making more from less:

## AXOR's Eco-Design Guidelines

Material management is an essential component of AXOR's sustainability strategy. Throughout the design, production and extended life of a product, AXOR implements a range of measures to promote a minimal environmental impact.

### Closing the Cycle

Our products are completely separable by type, allowing exclusively recyclable components to be returned to the material cycle, either via customer recycling or product take-back with subsequent remanufacturing/recycling by Hansgrohe.

### Less Material

AXOR aims to produce material-efficient products by using as little raw material as possible. Furthermore, AXOR strives to find sustainable, environmentally sound alternatives for widely used materials, which is why our products do not use inseparable composites or material mixes.

### Less Complexity

Through innovative design, AXOR ensures its products consist of components and parts that can be used universally across the portfolio, which reduces complexity and costs.

### Less Coating

AXOR products are durable even without coating. However, when coatings are necessary, they are applied using environmentally friendly surface technologies and the lowest possible amount of materials. To ensure the recyclability of components, coating thickness is kept as low as possible.

### Staying Clean

The design of AXOR products and the choice of materials are intended to prevent dirt and lime deposits and to make effective cleaning possible without the use of aggressive, environmentally harmful cleaners.

## Climate neutrality\* since 2022

After successfully converting its plant in Schiltach, Germany, to green electricity, Hansgrohe did the same with all of its international production sites at the beginning of 2022. This reduces CO<sub>2</sub> emissions by more than 26,000 tons annually. Subsequent energy efficiency analyses at Hansgrohe's production plants in France, China and Germany have identified further potential sustainability measures such as:

- combined heat and power plants and photovoltaics,
- peak load and solar irradiation planning

In its facility in Shanghai, AXOR has already begun to utilise heat pump technology on the heating system for the electroplating baths.

All international production plants have also set their own aspirational sustainability targets for water, waste and energy. As a result of these efforts, all Hansgrohe Group plants worldwide have been climate neutral\* since 2022.

\*Climate neutrality refers to greenhouse gas emissions from Scope 1 and 2 (direct emissions and energy consumed at the sites) according to the Greenhouse Gas Protocol. The Hansgrohe Group tries to reduce emissions wherever possible. The remaining emissions are offset through recognised, certified climate protection projects. For more information, please visit <https://www.hansgrohe-group.com/en/about-us/sustainability>.

## UN Sustainability goals

Water is life, and water is our passion. We create inspiring moments while protecting this precious element. In doing so, we take responsibility for people and the environment. The Hansgrohe Group is committed to supporting five UN Sustainable Development Goals:

1. Good Health and Well-being
2. Clean water and sanitation
3. Decent work and economic growth
4. Responsible consumption and production
5. Climate action

# Maximum services

## AXOR FINISHPLUS AND AXOR SIGNATURE

With these customisation services, AXOR answers customers' personal wishes and the demand for distinctive design. More at: [axor-design.com/uk](https://axor-design.com/uk)

## FIVE-YEAR MANUFACTURER'S GUARANTEE

The manufacturer's warranty extends beyond the legally required period and underlines AXOR's quality claim. In addition, strict quality management is already applied during the manufacturing process to ensure products meet the high requirements of independent testing institutes and legal regulations. Please note the warranty conditions at: [axor-design.com/uk/service/product-warranty](https://axor-design.com/uk/service/product-warranty)

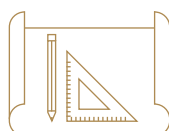

## 15 YEARS GUARANTEED AVAILABILITY

Fifteen years guaranteed availability for spare parts for AXOR products ensures a secure investment. All information and products is fast and easy to find online in the Spare Parts Shop: [axor-design.com/uk/service/spare-parts](https://axor-design.com/uk/service/spare-parts)

## PROFESSIONAL WEBSITE

On the portal, specialist retailers, architects, and installers can find information, planning data, and prices for all products, as well as practical tips and tools for professional bathroom planning and advice. More at: [pro.hansgrohe.com/uk](https://pro.hansgrohe.com/uk)

## PLANNING DATA

Installation and service instructions, dimensional drawings, BIM planning data and 3D data for optimal bathroom planning with AXOR products can also be found in the professional portal: [pro.hansgrohe.com/uk](https://pro.hansgrohe.com/uk)

#### COMFORTZONE TEST

Create the perfect combinations of taps and basins in this internal test centre. For this purpose, matching basins from leading manufacturers are tested with AXOR products for optimal functionality and appearance. All recommended combinations can be found on the AXOR website on the respective collection page: [axor-design.com/uk](https://axor-design.com/uk)

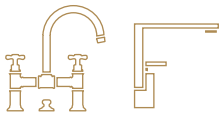

#### MEISTERSERVICE

AXOR service specialists are trained sanitation experts with advice on technical issues – by phone, email, or chat. In special cases, a specialist for building services can also be available on site. If required, local contacts are available by phone or e-mail: [projects@hansgrohe.co.uk](mailto:projects@hansgrohe.co.uk)

#### PROJECT CONSULTATION

AXOR offers professional support and advice for project tenders and planning worldwide. If required, please contact your local contact partner or send an email to: [projects@hansgrohe.co.uk](mailto:projects@hansgrohe.co.uk)

#### BATHROOM EXHIBITION

Experience AXOR live worldwide: The WaterStudios in architectural and design metropolises are sources of inspiration and meeting places, design and training centres for trade partners, architects, and interior designers. In the Aquademie at the brand's headquarters in Schiltach, Germany, visitors and trade partners can experience a bathroom and kitchen world over 1,000 square meters with a museum on the history of the bathroom, the company, and the brand, regular events, and a Showerworld for test showers.

#### ONLINE AQUADEMIE

You can access the newly developed Hansgrohe Online Aquademie via the trade partner website. Here, partners in the trade and crafts can benefit from detailed knowledge on the topics of products and sanitation technology, as well as from non-technical highlights.

# Uncompromisingly innovative

Pioneering ideas. Shaping water into invigorating jets, enveloping cocoons and sensual flows. Intuitive systems. Simple to use, easy to clean and ecologically responsible. Promoting conscious and conscientious water use. The result of intensive research and development, AXOR technologies are made in Germany to the highest quality standards – our own. In pursuit of perfection.

## AIRPOWER-TECHNOLOGY:

Enriching water with air produces plump droplets for a velvety touch on the skin.

## POWDERRAIN-TECHNOLOGY:

The finest silicone nozzles, with several openings per nozzle, provide a uniquely fine mist of water.

## QUICKCLEAN-TECHNOLOGY:

Remove limescale deposits quickly and easily with flexible silicone nozzles.

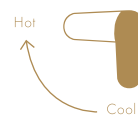

## SELECT-TECHNOLOGY:

Use the Select button to switch spray modes or shower heads; turn the water on and off at the tap.

## ECO-SMART-TECHNOLOGY:

Taps and showers that consume up to 60% less water than our conventional products.

## COOLSTART-TECHNOLOGY:

Cold water flows automatically when in the neutral handle position.

## COMFORTZONE:

Defines the space between the wash basin and tap. The larger the ComfortZone, the greater the variety of uses.

# Individual expression in the bathroom

With collections in a variety of styles, AXOR responds to the desire for individualisation in the bathroom. AXOR FinishPlus and AXOR Signature are two services for maximising options for customers to express their personalities.

With the brushed or polished versions of coloured AXOR FinishPlus surfaces, mixers, showers and accessories become design objects that perfectly complete an interior design and create an exclusive accent. The durable, high-quality surfaces are manufactured in a physical vapor deposition process (PVD).

The AXOR Signature service responds to customer requests for modifications such as inscriptions of the customer's signature, or inscriptions in the local language. The service can also provide extended shower connections to meet certain spatial requirements or to modify the mixer spout with respect to the unusual geometry of a wash basin. Experts with many years of experience and a love of detail address the modification requests, creating solutions in accordance with the most advanced industrial standards.

---

THE TWO SERVICES  
HAVE ONE THING IN  
COMMON: THEY RESULT  
IN PRODUCTS THAT  
COMBINE INDIVIDUALITY  
AND QUALITY AT THE  
HIGHEST LEVEL.

---

## SPECIAL FEATURES OF THE INDIVIDUALISATION SERVICES:

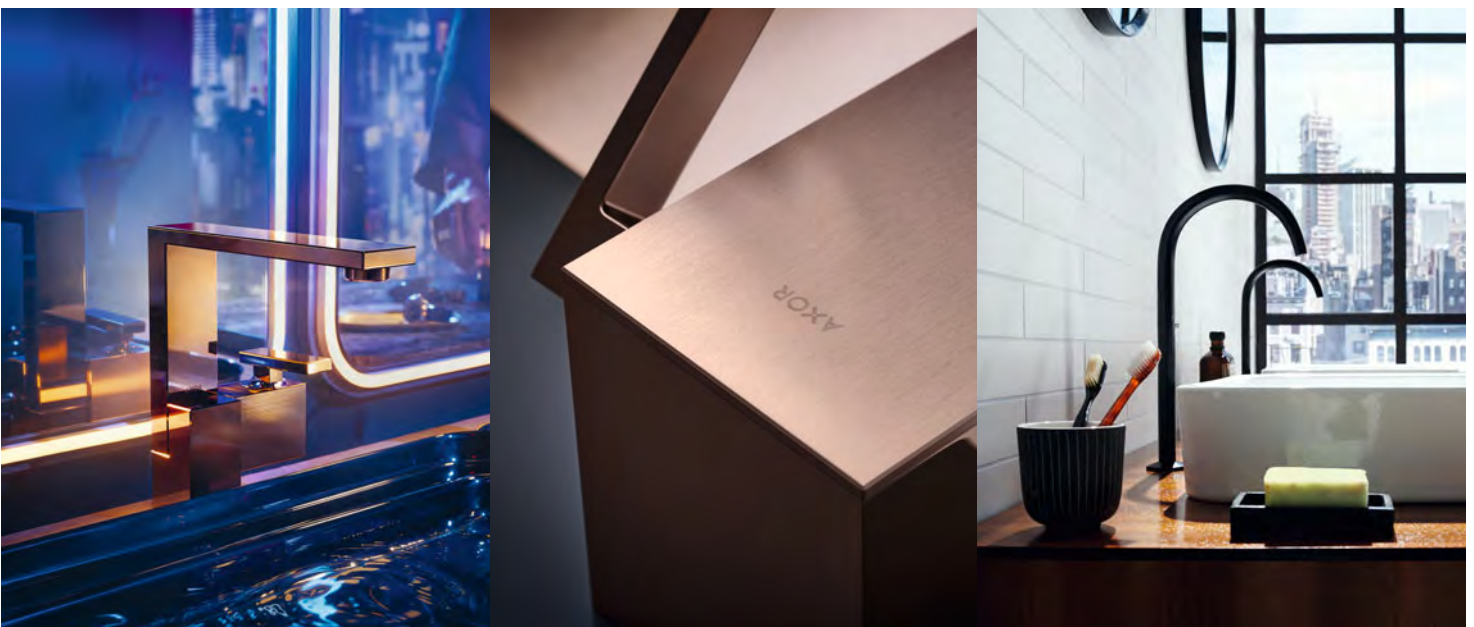

- / Exclusively developed surfaces for AXOR FinishPlus, bring unique personality to the bathroom or kitchen
- / through the use of colour
- / The extremely durable surfaces are created with the physical vapor deposition (PVD) process in the AXOR production facility in Schiltach, Germany
- / The lacquered Matt Black and Matt White finishes offer customers maximum customisation
- / AXOR Signature service implements highly individualised customer requests: Lengthening, shortening, inscription
- / All modifications are carried out by AXOR experts at the highest level of craftsmanship and in accordance with industrial standards

Learn more about AXOR FinishPlus and AXOR Signature:  
[axor-design.com/uk](https://axor-design.com/uk)

# AXOR FinishPlus – Refinement of a special kind

Luxury is all about fulfilling personal dreams. AXOR FinishPlus surfaces are expressions of individuality at the highest level. They set new benchmarks for luster, robustness and durability. Whether as single items or in large quantities, they are manufactured at the highest technical level and stand for quality made in Germany.

- / AXOR FinishPlus meets the increasing desire for individualisation: The surfaces can be made to match the interior design perfectly. A standardised process guarantees consistent quality
- / The Black Chrome and Red Gold surface finishes, developed by our own experts through intensive research work, underline the role of AXOR as an innovative leader in the area of surfaces
- / A mixer with an AXOR FinishPlus surface, along with its spare parts, is available for purchase in an identical quality and design for 15 years
- / In addition to the prespecified AXOR FinishPlus surfaces, other surfaces can be produced according to personal specifications by request through AXOR Signature

## The masterly combination of high-tech and craftsmanship

### Electroplating

Chrome is the standard surface in the sanitary environment and has proven itself in the bathroom over many decades. Through the electrochemical deposition of various metals, and depending on the type of substrate, a copper layer is built up in the electroplating bath, followed by a bright nickel and chrome layer on the basic brass body.

### PVD

The unmistakable character of the polished and brushed AXOR FinishPlus PVD-surfaces is the result of intensive development, refined in AXOR's in-house vacuum chambers using the physical vapor deposition (PVD) process. The PVD process gives the surfaces an additional metal layer. The vapor deposition of different process gas mixtures creates different light reflections on the surface. The result: exceptional colour brilliance and high resistance. In order to reproduce a brushed surface, an additional work step is required in which the surface is textured with a brushing fleece by hand.

### Lacquer

The wet-lacquered AXOR FinishPlus surfaces, Matt Black and Matt White, offer a bold colour that gives the product a silky, smooth feel and simple elegance.

- / The beneficial properties of PVD surfaces include resistance to scratching, cleaning agents and salty sea air
- / The special textures of the brushed versions are created by hand

Learn more about AXOR FinishPlus:  
[axor-design.com/uk](https://axor-design.com/uk)

# AXOR Signature – from the special to the one-of-a-kind

Lengthening, shortening, inscription. AXOR Signature is an exclusive service that takes a design object and makes it one-of-a-kind, whether by providing each mixer with the customer's personal touch or by modifying it to fit specific dimensions. The personal and customised result manufactured by AXOR experts in Schiltach. With the utmost in care and precise craftsmanship in accordance with industrial standards.

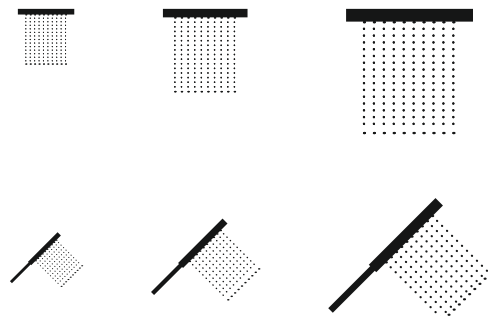

## AXOR SIGNATURE PROVIDES THE FOLLOWING SERVICES:

- / Extensions, e.g., from wall to wash basin or bath tub, or from the ceiling into the room
- / New developments
- / Component mix
- / Laser engraving, printing, and deep engraving to integrate initials, logos, or additional markings in the national language or another size, as well as special marking for functions
- / Feasibility testing in advance of order acceptance with individualised delivery schedule and price

AXOR Citterio C

## AXOR Citterio C: Contemporary, Sophisticated, Slender

Slender, elegant and exceptionally refined, AXOR Citterio C reinterprets the washbasin faucet for a new era, one that demands ever more comfort and individuality from ever smaller bathroom spaces. Minimalist in spirit, with soft contours and a sensuous form, the tap invites the touch while intriguing the eye from every angle. Its signature detail, a fine chamfer encircling the outlet and lever handle, extends to all pieces in the collection. Distinctive yet understated, AXOR Citterio C is at home in any bathroom ambience. For those who wish to make a more personal statement, handles are available in the unique cubic cut pattern as standard and other predefined textured patterns via AXOR Signature Service, as well as in the full range of AXOR FinishPlus surfaces.

Design: Antonio Citterio

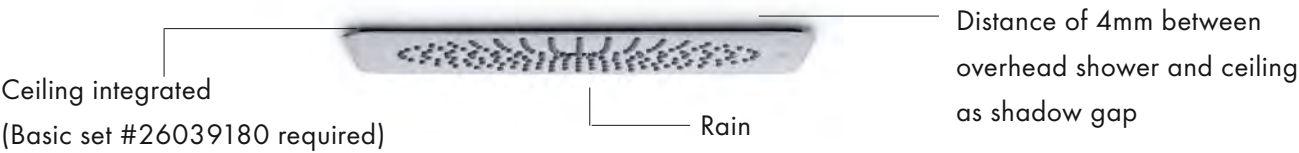

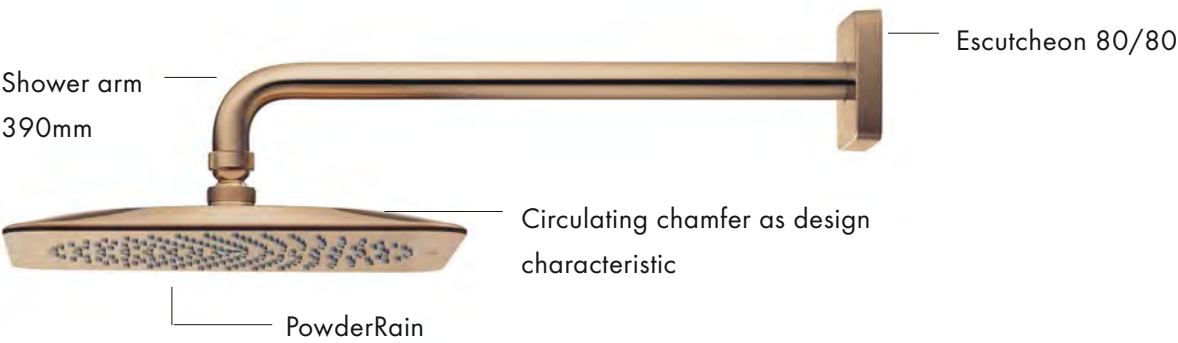

### Single lever basin mixer 125 with CoolStart - cubic cut

AXOR Citterio C is distinguished by its slender verticality, its soft and sensuous form, its flat surfaces and its signature detail, a subtle chamfer that encircles every piece in the collection.

Overhead shower 270/270 1jet

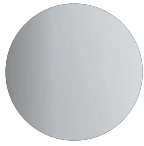

A wide range of products brings the subtle yet distinctive design language of AXOR Citterio C to every area of the bathroom.

## AXOR FinishPlus - the refinement of the unique

The exclusive surface finishes from AXOR FinishPlus set new standards, from the lacquered Matt Black surface to Polished Gold Optic and Brushed Black Chrome. Surfaces of exceptional brilliance, robustness, and durability, manufactured in Germany to the highest technical standards – from single pieces to large quantities. AXOR FinishPlus PVD surface finishes have character. Each color is the result of intensive development and refined in AXOR's vacuum chambers using the PVD (physical vapor deposition) process. An electric arc discharges in the high vacuum, gases combine with zirconium. The mixture hits the tap's chrome surface. This high-tech process gives the surface unprecedented brilliance and high resistance to scratches, cleaning agents, and the salt of the sea air.

# AXOR Signature Service - AXOR Citterio C

AXOR Signature is an exclusive service that takes a design object and makes it one-of-a-kind, whether by providing each mixer with the customer’s personal touch or by modifying it to fit specific dimensions. The personal and customized result manufactured by AXOR experts in Schiltach. With the utmost in care and precise craftsmanship in accordance with industrial standards.

## Bi-color

A contrasting bi-color finish provides AXOR Citterio C a contemporary, elegant twist, emphasizing the poetic form of its handle and pairing especially well with an elegant handle engraving. A bi-color finish offers an individual, contemporary twist on the collection’s timeless, elegant design.

Polished Black Chrome body with Polished Gold Optic handle and ball- joint.  
Individualization possibilities are also available for Dummy products.

To request the customized Bi-color product via the AXOR Signature Service, the order consists of a detailed description of each product part and the desired finish.

## Handle structures

AXOR Citterio C is pushing the boundaries of individualization with the possibility to choose a textured pattern for the handle. In addition to the optional cubic cut, AXOR Signature offers three pre-defined structures: the soft cut, the rhombic cut and the linear cut for an even more personalized bathroom.

Soft cut

Rhombic cut

Linear cut

In addition to the structure options offered as standard, the cubic pattern is available in fully-structured surface for "one-handle" arrangements and partially-structured surface for "two-handle" arrangements.

Cubic cut - half structured  
Standard product

Cubic cut - fully structured  
AXOR Signature application

Example representation of an individualization service. Further individualization options are possible through AXOR Signature Service.

Individualization possibilities are also available for dummy products.

Single lever basin mixers CoolStart

Features of all variants

- / consists of: single lever basin mixer, waste set

/ handle variant: lever handle

/ spray type: normal spray

/ maximum flow rate at 3 bar: 5 l/min
- / ceramic cartridge

/ suitable for continuous flow water heaters

/ connection type: G 3/8 connections

/ connection dimension: DN15
- / cold water in basic handle position

/ EU taxonomy: max. 6 l/min - Substantial Contribution (SC) possible

Single lever basin mixers for concealed installation wall-mounted

Features of all variants

- / consists of: single lever basin mixer for concealed installation wall-mounted, waste set

/ projection: 193 mm

/ handle variant: lever handle

/ spray type: normal spray
- / maximum flow rate at 3 bar: 5 l/min

/ ceramic cartridge

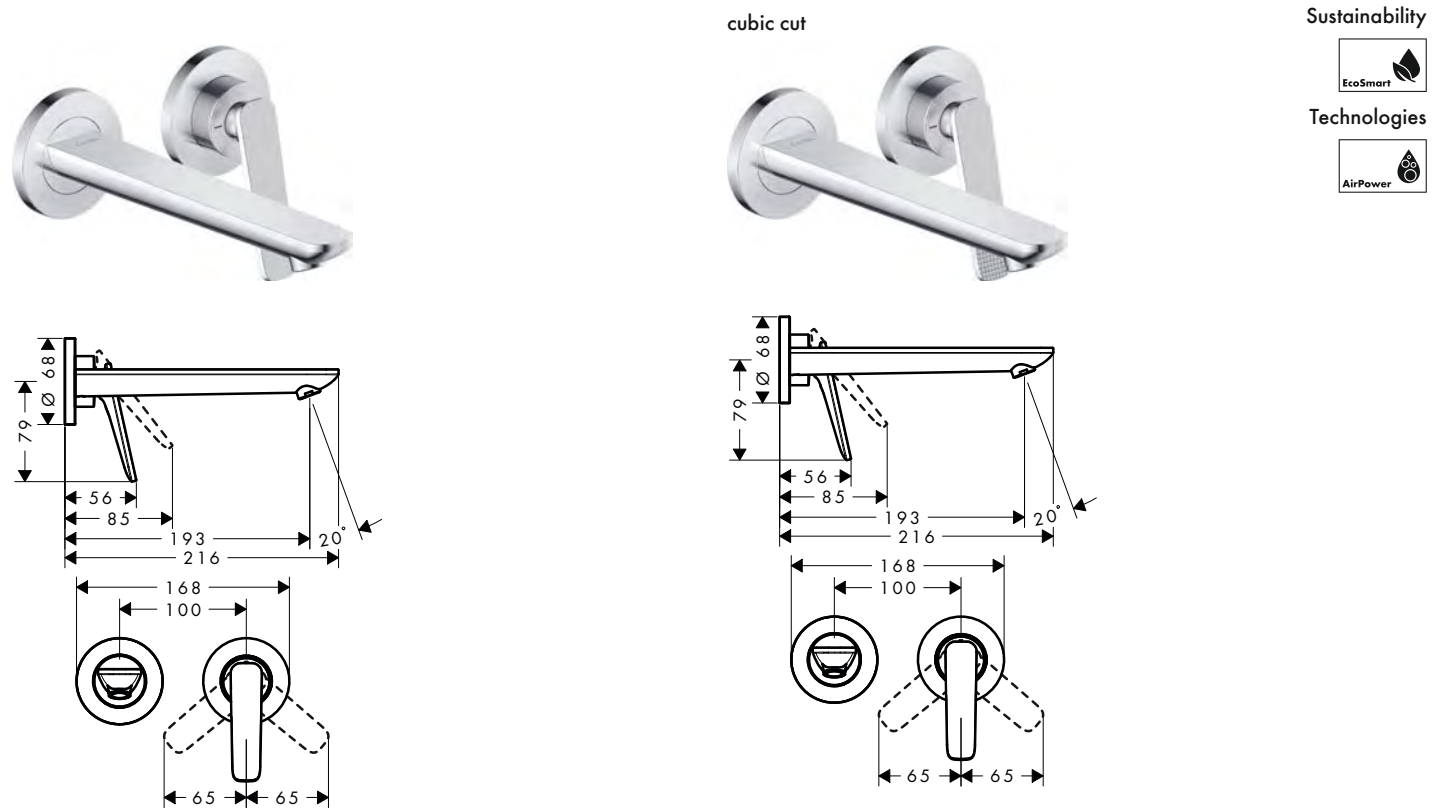

/ suitable for continuous flow water heaters

/ non-closing waste set

/ connection type: basic set
- / connection dimension: DN15

/ handle can be positioned on the right or left, depending on the basic set installation

/ EU taxonomy: max. 6 l/min - Substantial Contribution (SC) possible

# AXOR ShowerSelect ID

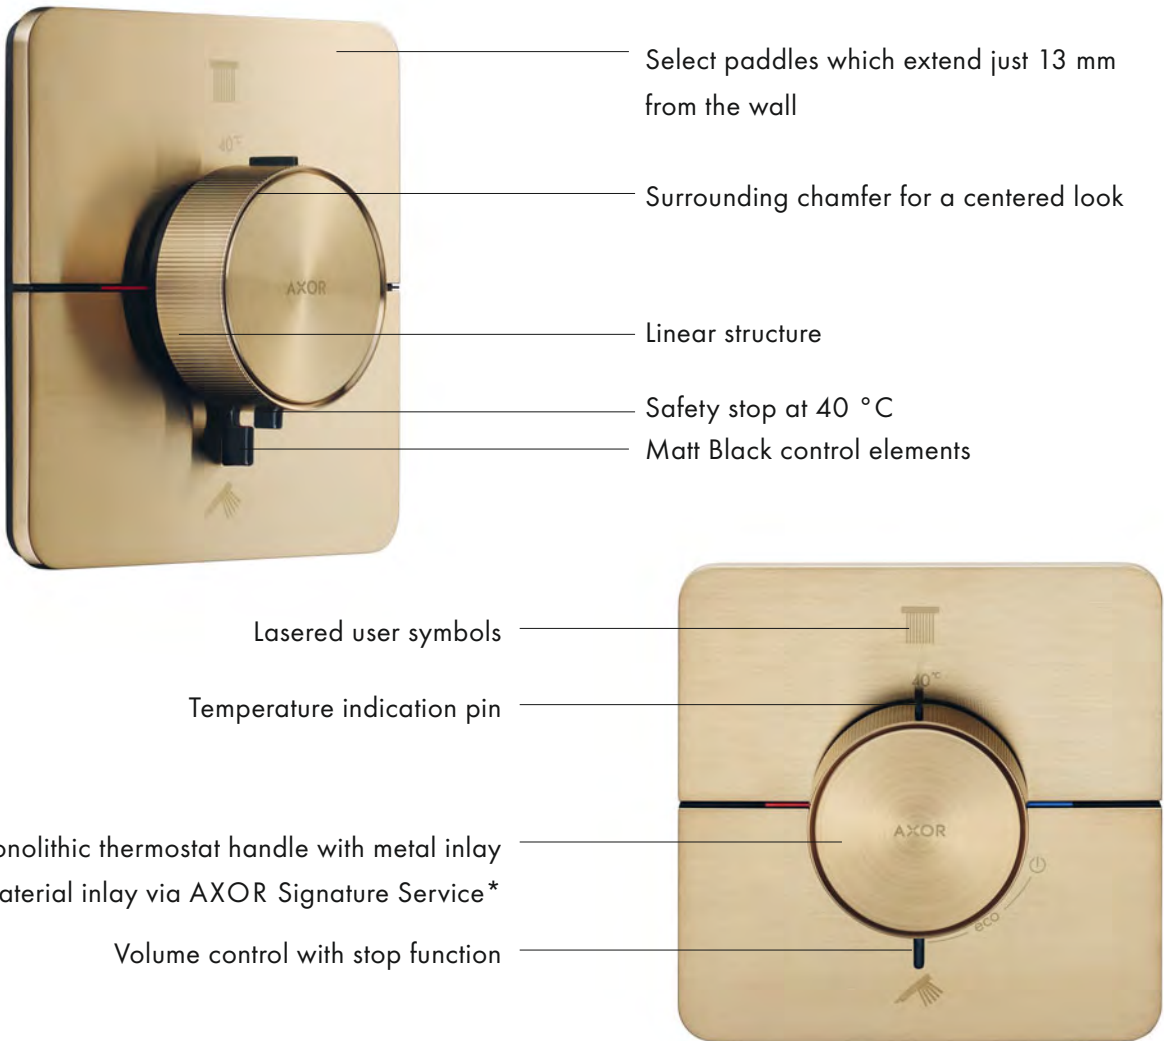

# AXOR ShowerSelect ID

## Precision meets Personality.

AXOR ShowerSelect ID brings unprecedented precision and personalization to the shower experience. Developed in collaboration with PHOENIX, the concealed thermostatic mixer extends just 45 mm from the wall, a feat made possible by the new AXOR iBox universal 2. Within these sleek confines, a central temperature control dial offers satisfying haptic and auditory feedback while surrounding paddles utilize the latest Select technology, allowing for quick, easy switching among spray types and outlets. With three design styles to choose from—round, square or softsquare—as well as a wide range of AXOR FinishPlus surfaces and AXOR Signature custom inlay options, AXOR ShowerSelect ID is more than a marvel of technology and design. As its name suggests, it's a unique opportunity to express one's individual identity, taste and style.

Design: PHOENIX

AXOR ShowerSelect ID is characterized by ultra-precise control, universal design styles and unique customisation options. Users can combine AXOR ShowerSelect ID thermostats to cover up to four outlets in order to accommodate almost any shower configuration, from a small 1 outlet shower enclosure up to a 4 function wellness shower.

\* Same finish inlay for AXOR FinishPlus surfaces, Matt Black inlay for Chrome surface

## AXOR FinishPlus - the refinement of the unique

The exclusive surface finishes from AXOR FinishPlus set new standards, from the lacquered Matt Black surface to Polished Gold Optic and Brushed Black Chrome. Surfaces of exceptional brilliance, robustness, and durability, manufactured in Germany to the highest technical standards – from single pieces to large quantities. AXOR FinishPlus PVD surface finishes have character. Each colour is the result of intensive development and refined in AXOR's vacuum chambers using the PVD (physical vapor deposition) process. An electric arc discharges in the high vacuum, gases combine with zirconium. The mixture hits the faucet's chrome surface. This high-tech process gives the surface un-precedented brilliance and high resistance to scratches, cleaning agents, and the salt of the sea air.

## AXOR Signature Service – AXOR ShowerSelect ID

AXOR Signature is an exclusive service that takes a design object and makes it one-of-a-kind, whether by providing each mixer with the customer's personal touch or by modifying it to fit specific dimensions. The personal and customised result manufactured by AXOR experts in Schiltach. With the utmost in care and precise craftsmanship in accordance with industrial standards.

### Bi-color

For those wishing to accentuate the minimalist shape and bold simplicity of AXOR ShowerSelect ID, the AXOR Signature Service introduces custom bi-colour finishes. With 10 distinct PVD finishes to choose from, the combination options - from subtle tonal shifts to bold and colourful contrasts – are seemingly endless.

To request the customised Bi-colour product via the AXOR Signature Service, the order consists of a detailed description of each product part and the desired finish.

## AXOR Signature Service – AXOR ShowerSelect ID

### Material inlays

Beyond functionality and design, AXOR ShowerSelect ID also sets new standards in individualisation. With its unique system of custom inlay options for the product's monolithic central dial, AXOR ShowerSelect ID presents the perfect canvas to express your personality. This includes black Nero Marquina marble, Marble Lasa Covelano Vena Oro, black walnut, mirrored glass and black glass.

Individualisation possibilities are also available for dummy products.

To request the customised product via the AXOR Signature Service, the order number is composed of the model number, the finish and the individualisation service, the S-Tag. This creates an individual product that fits into every bathroom interior.

# AXOR iBox universal 2

## AXOR iBox universal 2

Powering the sleek design of AXOR ShowerSelect ID is none other than the new AXOR iBox universal 2. A revolutionary basic set for concealed installation that's even faster, smarter and more flexible than its celebrated predecessor introduced 22 years prior, AXOR iBox universal 2 represents the future of concealed-installed AXOR products. By its streamlined, modular design, this basic set enables unprecedentedly slimmer escutcheons while making increasingly complex, cutting-edge product arrangements both more powerful in function and easier to install than ever before. Simply put, the promise of AXOR iBox universal 2 lies in its name—one universal solution for a vast variety of concealed AXOR thermostats, to meet the exacting demands of both today's and tomorrow's bathrooms. The new AXOR iBox universal 2 can also be combined with all previous and future AXOR finish sets. Finish sets of existing collections only require an adapter plate for installation.

Basic set

Features

- / suitable for all new shower, bath tub and thermostat finish sets for concealed installation (AXOR ShowerSelect ID)

/ in conjunction with adapter plate (# 13588000) compatible with other concealed shower, bath tub and thermostat finish sets

/ material: dezincification brass, EPP foam, heat and sound insulating

/ connection thread Rp 1/2
- / connection dimension: DN15

/ no additional maintenance opening required

/ rotationally-symmetric installation

/ sound-decoupled installation

/ flexible mounting ring for different mounting situations

/ mounting ring adjustable in 5 mm steps

/ mounting ring suitable for front and rear installation
- / no shortening necessary thanks to sliding sleeve

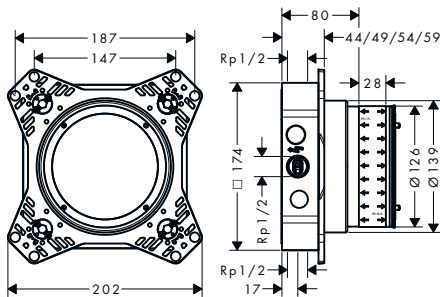

/ support aid for the spirit level

/ integrated spirit level for correct horizontal and vertical alignment

/ sealing foil permanently fixed

/ minimum mounting depth: 80 mm

/ maximum mounting depth: 108 mm
