

Stylish planning with confidence: use the AXOR ComfortZone test to find the right wash basin for your Axor Edge mixer.

The ideal mixer/wash basin combination: perfectly matched aesthetically, and technologically tested. This prevents any annoying splashing and staining around the wash basin area.

AXOR tested all the AXOR Edge basin mixers with the leading manufacturers' most popular washbasins in the ComfortZone test, its specially developed realistic test procedure. The space under the mixer and the splash behaviour are tested in this performance test of mixer and basin. Detailed information on the ComfortZone test can be found at: pro.hansgrohe-int.com/axor-washbasin-matrix

CERAMIC TYPES

Always find the matching Axor Edge mixer to go with the familiar basin types. The AXOR ComfortZone test is a comprehensive guidance document for the perfect installation of the mixer and washbasin for pleasant, splash-free washing. Five different ceramic types were tested in the AXOR ComfortZone test:

Washbasin with the mixer behind it

Washbasin with the mixer on top of it

Washbasin with the mixer on the wall

Undermount or top-mounted basin with free standing mixer

Wall-mounted washbasin with the mixer on it

You can use the results of the ComfortZone test free now at: pro.hansgrohe-int.com/axor-washbasin-matrix
