Positioning the cartridge underneath the wash basin makes the exceptionally slim silhouette possible. At the same time, it allows for fast and easy installation as well as easy service and maintenance: Only the waterpipe needs to be removed, while the cartridge can be easily released thanks to a bayonet clasp.

## ONE SHOWER CONTROL UNITING ALL FUNCTIONS

With the AXOR One thermostatic module, all functions are reduced to a central control element that intuitively controls all outlets. Underlying this is the user-friendly Select technology, which is operated by tapping rather than turning. The Select paddles are mechanically operated and thus very precise.

TEMPERATURE REGULATION:

- / Precisely controllable with the large, cylindrical knob
- / Safety lock limits temperature to 40°C
- / Adjustable maximum temperature

OUTLET CONTROL:

- / Large Select paddles turn the water on and off easily
- / Complete control with finger, hand or even elbow operation
- / Up to three functions can be activated - separately or at the same time
- / A porter can be added

VOLUME CONTROL:

- / For economical water consumption
- / Volume control reduces water flow continuously by up to 50% - depending on flow volume and installation configuration

OPERATION:

- / Large symbols on the paddles indicate clearly which outlet is being used
- / The paddle icons can be applied easily after installation

# Refining the special

Exceptionally radiant, robust and resistant, AXOR FinishPlus surfaces offer outstanding color brilliance. The incomparable shine of the polished and brushed surfaces is the result of a state-of-the-art process for coating: Physical Vapor Deposition (PVD), the evaporation of Zirconium molecules in a vacuum.

Matt Black is a new lacquered surface exclusively available for AXOR One, AXOR Universal Circular Accessories and selected complementary products. It offers a smooth, soft finish that endows the product with a striking color and sleek elegance.

In addition to the exclusive AXOR FinishPlus surfaces, individual colors are available via AXOR Signature. The options are practically unlimited. To turn a special product into a truly unique piece, a feasibility test is first carried out by AXOR experts.
