125
YEAR
ANNIVERSARY

Setting the Beat of Water. Since 1901.

Company founder Hans Grohe's pioneering spirit is deeply rooted in our DNA and shapes the work we do.

The Hansgrohe Group today

As a company, Hansgrohe employs over 5600 people working at 53 sites on all continents. So it is safe to say we are a global player in the sanitation industry. The products from the AXOR and hansgrohe brands have won over 700 design awards. Visitors can touch and try out our products at international trade fairs and events, our Water Studios and the Aquademie at our headquarters in Germany.

Our brand values

Innovation

Life is in constant motion.

hansgrohe has been one of the pioneers and innovation leaders in the sanitation industry since day one. We are constantly pushing the limits of the technically feasible and, in so doing, revolutionising mixers, showers and bathrooms. Not only are we optimising designs and materials, but we are also constantly rethinking functionality by continuously addressing our customers' needs. Sensual spray types such as PowderRain or pioneering installation solutions such as the iBox universal 2 are good examples of this. Our inventions encourage people to enjoy the beauty of water.

Design

Life is beautiful.

From lovingly designed details to a holistic view of a complete bathroom: for us, modern design is more than just an appealing aesthetic. hansgrohe design combines timeless beauty, functional finesse and the highest hand-crafted quality across all product ranges. Numerous awards confirm our pursuit of the extraordinary and highlight our close cooperation with design studio PHOENIX. On top of this, we follow our ECO design principles* every time we develop our products so that they look appealing and are eco-friendly.

Quality

Life is a journey.

Our products stay with people for years and years. They create feel-good moments and offer sensual experiences tailored to individual needs. The premium quality of our products is not only measured by the material properties, but also by the joy they bring in the long run. We ensure our customers across the world are satisfied, for example through user-friendliness, a voluntary five-year manufacturer's guarantee and a Service Centre that manages all technical concerns. This is why many consumers become lifelong hansgrohe customers.

* Find out more about resource-conserving technologies.

Responsibility

Life is precious.

So is our planet.

Saving water and energy are two matters close to hansgrohe's heart. And so we develop products for impressive water experiences with reduced resource consumption. Because we don't want to make our customers choose between well-being and sustainability. As the use phase of mixers and shower heads installed in people's homes is the most carbon-intensive, we are converting our entire water-bearing product range to water- and energy-saving technologies by 2030*. We use recycled material whenever possible, for example in the hansgrohe Planet Edition. What's more, our products are robust, long-lasting and easy to repair.

hansgrohe: Green. Greener. Eco 2030.

Our Goal

Water is life and our passion. We create inspiring moments while protecting this precious element. In doing so, we take responsibility for people and the environment - for our planet.

Sustainable thinking and action are deeply rooted within the Hansgrohe Group. Our goal is to conserve all the resources that are becoming increasingly scarce on earth or whose consumption is fueling global warming, within our sphere of influence. We aim to therefore convert our entire portfolio to ECO by 2030, supported by our mission statement: **In touch with our planet.**

2030: Consistent Switch to Eco Products

As part of the Green Products initiative, we will be implementing a consistent product portfolio shift over the next few years. After all, by far our greatest lever for saving water, energy and thus CO₂ is to reduce the water consumption of products during their many years of use. This is particularly true as long as energy sources with high emission values are mainly used for hot water production. Reducing the need for fresh hot water is our major goal.

Our transformation

- 1987** - Mistral Eco hand shower achieves a 50% reduction in water consumption
- 1992** - Europe's largest rooftop solar power plant on new factory in Offenburg
- 2005** - First Hansgrohe sustainability report, first manufacturer in the German sanitary industry
- 2007** - Introduction of water and energy-saving EcoSmart technology for faucets & showers
- 2012** - Introduction of energy-saving CoolStart technology
- 2019** - Introduction of water-saving spray type PowderRain
- 2020** - Permanent core team established for realizing sustainability goals
- 2022** - Complete conversion to climate-neutral locations worldwide
- 2023** - Bathroom concept Green Vision will be presented at ISH
- 2025** - Plastic-free product packaging
- 2030** - All water-bearing products available with water-saving technologies

Hansgrohe Improves Sustainability Performance

For the second time in a row, the Hansgrohe Group has been awarded the EcoVadis Platinum Medal, once again ranking among the top 1 percent of companies assessed. Hansgrohe also improved its CDP climate ranking from B to A-.

Schiltach, February 2026. The Hansgrohe Group has consistently improved its sustainability performance in 2025. For the second time in a row, the Black Forest-based sanitary specialist received the EcoVadis Platinum Medal and, with an increase in points from 83 to 86, ranks among the top 1 percent of companies assessed. Hansgrohe also improved its CDP climate ranking from B to A-. These awards underscore that Hansgrohe is effectively implementing its sustainability strategy and making substantial progress in climate protection, circular economy, and resource efficiency.

Greater enjoyment in the shower with many spray types

Everyone showers differently, and everyone has different expectations of the perfect shower. Some think it not only as a necessity but also a way to relax. Others value an energising, invigorating shower experience. No matter what your customers' wishes, every one of them will find the right overhead or hand shower and the right spray type in the hansgrohe range. The Select product range promises particular convenience under the shower, as each spray type can be easily selected at the push of a button.

**9 out of 10
customers say
PowderRain is the
best showering
experience
of all time***

PowderRain

Water that transforms into thousands of micro-fine water droplets

For the sensational PowderRain spray type, the water comes out of six openings instead of one single opening in the jet on the shower head. This creates a spray made of the finest water droplets that gently cocoons the body when showering.

An ultra-quiet showering experience

Less showering noises – sensational experiences for the senses and moments of pure relaxation.

Less splash with PowderRain

An effective and gentle water spray that creates little splash to offer more comfort. Less splash also means fewer stains and easier cleaning.

* 1,500 consumers tested hansgrohe PowderRain in December 2018 with trnd, an interactive marketing community in Europe.

RainAir

Soft shower rain with air-enriched droplets.

SoftRain

A soft water spray that soothingly caresses the body.

IntenseRain

Intense shower rain with a refreshing effect.

Mono

Focussed spray for a soothing, feel-good shower.

Massage

A powerful massage spray for targeted invigoration.

Our experience means more efficiency in the bathroom

Technology – providing the ultimate ease of use for your customers

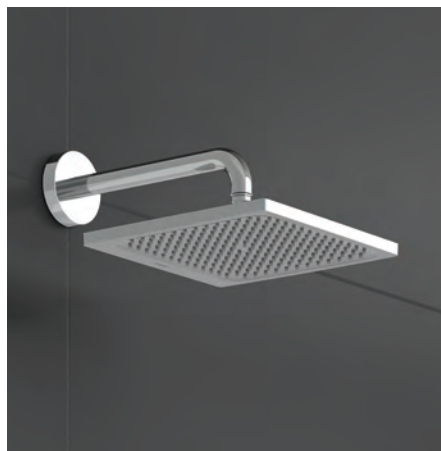

Select

Because sometimes pressing is easier than turning. With our innovative Select technology, a simple touch of a button on the shower or shower control is all it takes to change the spray mode or turn the water on/off for even more comfort while showering, no matter your age.

- Intuitive control at the touch of a button
- Suitable for all age groups
- Mechanical construction for permanent functional safety
- Temperature can be pre-set
- Can even be operated with your elbow or arm

The idea: a button instead of a lever at the sink. The mechanical Select button simplifies everyday routines, and is robust enough to stand the rigours of everyday life, as our long-term testing proves. These small changes can have a large impact on how convenient a product is to use, and make them ideal for a multi-generational household.

EcoSmart

Thanks to EcoSmart technology, hansgrohe showers consume up to 60% less water than conventional products thanks to the addition of air to the spray. This also saves valuable energy.

- Up to 60% less water consumption (shower)
- Water consumption of only 5 l/min (tap)
- Lower consumption means lower energy requirements, and therefore fewer CO₂ emissions
- Lower water and energy consumption for double efficiency

Thanks to EcoSmart technology's aeration, our basin taps consume just 5 l/min of water. This saves warm water and energy. All of our basin taps have achieved level A in the home sector: the best possible result.

The savings calculator computes how much water and energy can be saved at:

pro.hansgrohe.com/consultation/water-savings-calculator

QuickClean

QuickClean means flexible silicone inserts on the aerators. Dirt and limescale deposits can be simply rubbed off with your finger with no need to use cleaning products, helping to extend your shower's lifespan.

- Quick and simple cleaning
- Ultra high quality and tear resistant silicone
- For a long lifetime and functionality

AirPower

Comfort and efficiency don't have to be mutually exclusive and our AirPower showers prove it. An ample supply of air is sucked in via the spray disc of your shower, making the droplets fuller, lighter and softer, increasing water efficiency at the same time.

- Fuller, lighter and softer drops - pure shower pleasure
- Fewer splashes, so less cleaning
- Higher water efficiency thanks to a larger water volume

XXL Performance

Large-format showers have to be experienced to be truly appreciated. The luxurious hansgrohe design envelops the individual in water, bringing XXL performance to the bathroom.

- Large-format showering sensation
- Higher water efficiency - evenly distributed spray nozzles, for an incomparable shower experience

Tiltable

You can adjust this overhead shower at an angle to suit the shower area, so that the whole body is soothingly enveloped in water.

- Adjustable shower head to suit the individual
- Angle of adjustments provides flexibility
- Modern installation for contemporary enjoyment

FastDrain minimises drips

This clever technology significantly reduces dripping from the overhead shower.

- Reduces annoying dripping
- Smarter waterflow inside the shower
- Easier cleaning

Water regulation

The amount of water can be precisely regulated using the thermostat. Not only does this conserve water, it's great for children, who often find a gentler waterflow more pleasant.

- Precisely regulate the amount of water
- Actively regulate water consumption with the volume control
- Easy operation - suitable for all ages

Height-adjustable PushSlider

With just one hand, the shower holder can be freely adjusted in height at the touch of a button. For a safe and comfortable shower experience.

- Easy to use with one hand
- More comfort for every generation
- Easily adjustable shower heights

Hidden Water Outlet Design

The bathtub faucet's water outlet is hidden beneath the thermostatic faucet, creating a cleaner, safer, and more organized appearance.

- More freedom of movement when bathing or showering
- Functional design
- Streamlining the overall look

CoolContact

The CoolContact cooling technology stops the thermostatic mixer's housing getting too hot. So there is no more need to keep a safe distance from the taps, making showering even more care-free. It also means there is no more risk of children burning their delicate hands.

- Innovative cooling technology
- More safety in the bathroom, for children too
- Care-free showering

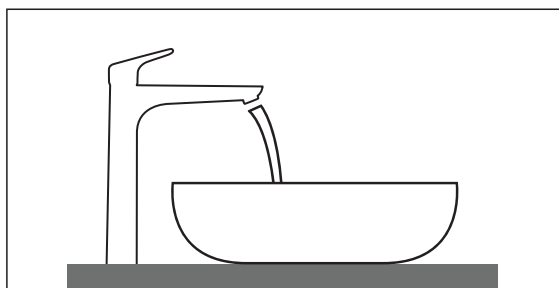

ComfortZone

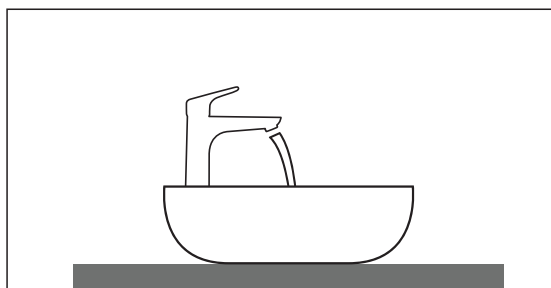

Whether you want more elbow room when washing your hands, a comfortable way to wash your hair or just fill containers, the higher the tap, the more flexible your options become. We call the space between the tap and the ceramics the ComfortZone because you can use it however you like.

- The optimal height for every requirement
- The perfect combination of tap and basin
- Reduce unnecessary water spraying through a reliable test: **pro.hansgrohe.com/consultation/comfortzone**

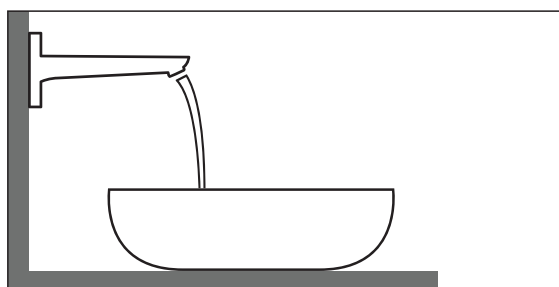

The right fitting for every need

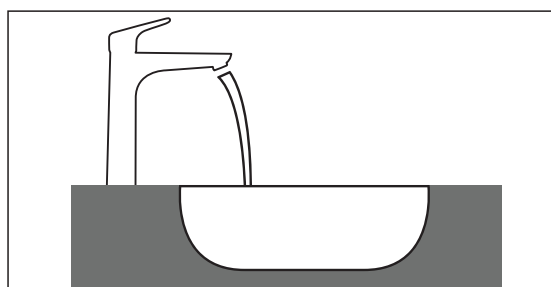

Mixer behind free standing exposed basin or behind wash bowl.

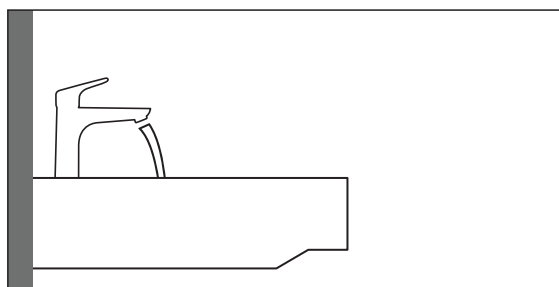

Wash bowl with exposed mixer.

Wash bowl with wall mixer.

Mixer for built-in basin.

Wall-hanging wash basin with exposed mixer.

Contactless taps

Like many motion detectors, the sensor on our non-contact products reacts to changes in infrared radiation. As soon as it detects the warmth of the hand, water flows, making it economical and hygienic.

- Contactless
- Savings in water and energy
- Maximum hand hygiene – ideal in public spaces

CoolStart

On standard taps the continuous flow heater or circulation pump starts up immediately when the handle is in the middle position, but with CoolStart taps the hot water is only added when the lever is moved to the left. This cuts down on energy needs, CO₂ emissions and costs.

- Basic setting enables only cold water to flow
- Large energy, and therefore money, saving potential – ideal in business premises
- Special user ergonomics (the lever only needs to be moved to the left for hot water)

FAST SHOWERPIPE

DANCING WITH WATER

Embrace the beauty of daily shower

The wonderful moment of encountering water is about to begin in the very next second. The integrated thermostatic faucet with storage is bursting with visual appeal — its stylish appearance is love at first sight. With just a light press of a button, you can switch between shower modes — full marks for operability.

The extra-large shelf frees your hands during immersive moments. Fine, rain-like droplets instantly wrap around your entire body. Truly! Refreshing! From your face to your toes, you'll fall in love with this feeling.

SHOWERTABLET SELECT 360

Exposed thermostatic shower series

Truly minimalist and pure in form

Visible shower-time happiness, an absolutely stunning visual delight! The minimalist and pure design amplifies the sense of spaciousness. A joyful experience that keeps expanding.

Seamless - convenient and silky-smooth control

Select — Switch Freely at Will

With a light touch of a button, control the water flow and outlet modes in a fun and intuitive way.

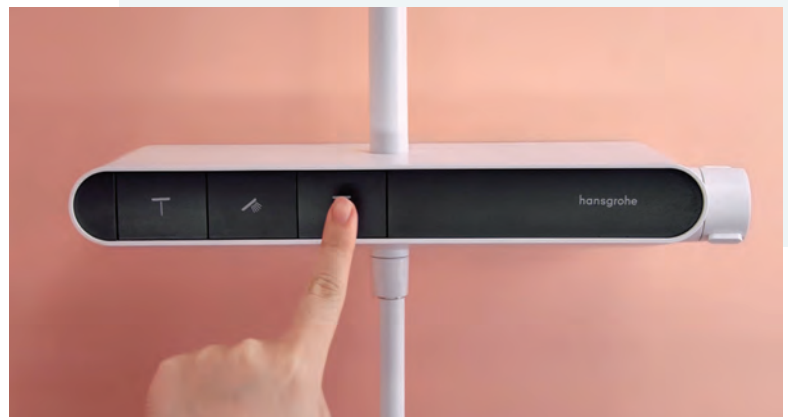

Safety Stop – Safe Temperature Control

40°C temperature safety lock to prevent water from getting too hot.

Extra-Large Storage

Place items anytime, anywhere— enjoy your shower without worrying about storage space.

Refreshing – Shower

Constant Water Temperature

Safe and reliable, the integrated thermostatic faucet continuously monitors the temperature, reacting quickly to changes, ensuring a consistently pleasant water experience.

Hidden Water Outlet Design

The bathtub faucet's water outlet is hidden beneath the thermostatic faucet, creating a cleaner, safer, and more organized appearance.

— More Showering Pleasure

XXL Extra-Large Performance

Extra-large water flow, with your body completely immersed in the comfort of the water drop

Quick Cleaning

Flexible silicone nozzle, easily removes hidden limescale and dirt.

Adjustable Angle

The overhead shower angle is adjustable.

One-Handed Control

Easily adjust the shower bracket height with one button, for smooth movement.

hangrohe showers - in any size, for your budget, for all the senses

Hand showers

Overhead showers

Shower systems

Shower sets

hangrohe product lines in the shower – diverse, soothing, wonderful

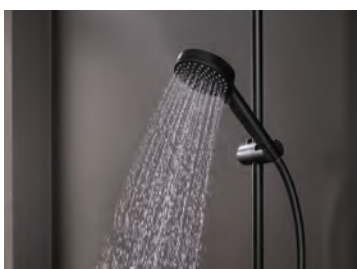

Their names are Pulsify, Rainfinity, Raindance, Croma, and Crometta, and they're bestsellers all over the world: hangrohe shower heads. They're available as hand showers with several wellness spray modes that you can switch intuitively at the touch of a button. Or as an overhead shower that envelops your entire body in a gentle cascade of rain. Our shower systems (shower pipes) combine a hand shower, overhead shower, and shower thermostat. Our shower sets consist of a hand shower with holder and wallbar. Discover the surprising feel-good factor of body sprays.

hangrohe makes showers your pleasure

Whether it's a large, floor-level shower or a small, elegant cubicle under a sloping roof: With hangrohe showers, you can create your own personal feel-good zone where you can shower to your heart's content with wonderful spray modes.

Do you like to have everything within reach when showering? Then opt for a shower thermostat that offers you a convenient shelf.

A close-up, low-angle shot of a modern overhead shower. A dark, rectangular shower head is mounted on a wall, and a dense spray of water is falling from it, creating a curtain of droplets. The background is a plain, light-colored wall.

ACTIVERA S

Maximum enjoyment.
Minimal consumption.

Great shower pleasure with less water:

Strong spray performance while using less water with the new FlexPower integrated in the Rain spray; new strong ImpactRain.

Comfort & Functionality:

Easier to clean with QuickClean+ technology.

WaterBoost Button:

Efficiently increase the water amount by pressing the button.

Sustainability:

Reduced flow rates with EcoSmart & EcoSmart+* & bio-based materials**, EasySplit, WaterBoost-version of the hand shower.

Disassembly:

In case the Handshower needs to be repaired, it can easily be disassembled into the main components and replaced with a new cartridge.

ACTIVERA S

EcoSmart/EcoSmart +

Save water with pleasure: These showers use up to 40% / 60% less water than our conventional showers*

WaterBoost

Increase the waterflow for certain activities like rinsing out shampoo and therefore reducing the overall showering time

FlexPower

Flexible, elastic nozzles in the spray head ensure greater comfort and efficiency when showering

Easy Split

This shower head can be easily dismantled for replacement of parts or for disassembly

Material

Use of recycled & biobased material where possible**

FlexPower & QuickClean+

Our Rain Nozzels offer a new technology which has two benefits – FlexPower & QuickClean+

FlexPower

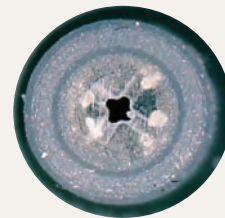

Elastic nozzles in the shower head dynamically adapt to the water flow and pressure, increasing the performance of the spray and enabling more efficient use of water.

QuickClean+

Rain nozzle with QuickClean+, blocked by mineral buildup

Open Rain nozzle with QuickClean+, after dynamic expand from water pressure

Elastic silicone nozzles constantly open and close preventing limescale build-up. Innovative technology for long-lasting water enjoyment with less cleaning and maintenance. Up to 50% less lime scale build up compared to the old Rain Nozzels.

Zebra Jet

A close-up photograph of a modern chrome shower faucet and handheld showerhead. The faucet is on the left, with water flowing from its spout into a white bathtub. The handheld showerhead is on the right, mounted on a chrome bracket against a light-colored wood-grain wall. The showerhead has a circular face with many small nozzles. The bathtub is partially filled with water, and the overall scene is brightly lit.

Multistat.

Three function control with
the quality you'd expect.
At a price you wouldn't.

Introducing Multistat. A three-function valve that at last brings hansgrohe quality and reliability to meet the market's need for shower, hand-shower and bath controls all in one unit. Even better, based on hansgrohe's in-depth experience of the requirements Multistat is both competitively priced and highly versatile.

Available in two shapes and finishes round or soft square, matt black or chrome Multistat's timeless, stylish looks are designed to blend seamlessly into any style of bathroom. You can also choose a two-function option with the same flexible design choices.

Multistat is simple to fit too, using a new basic set that is reassuringly familiar, to make installation as quick and easy as possible. And of course, as you'd expect, backed by a 5-year product guarantee and 15-year spare parts availability guarantee so that you can install with confidence.

Multistat - 3 function valve

The ideal combination of overhead shower, hand shower and bath controls all in one elegant and stylish unit. Backed by hansgrohe's renowned attention to quality, the valve is designed to be easy to install. Available with a round (S) or softsquare (Q), in chrome or matt black.

Two elegant designs and two striking finishes

Multistat S - chrome

Multistat S - matt black

Multistat Q - chrome

Multistat Q - matt black

Design overview

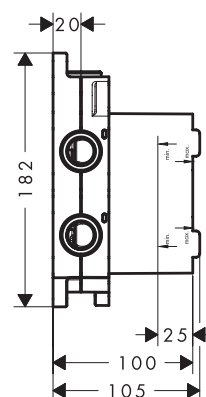

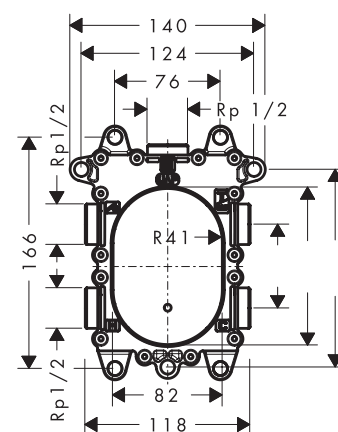

- 1 Design**
Precise edges in softsquare (Q) and round (S)
- 2 Size**
Size : 160x160mm
Reduced depth of 12mm

Basic set concealed 2 and 3 function	-	15896180

New basic set. Reassuringly familiar technology

Multistat is remarkably quick and easy to install thanks to a new set design that builds on hansgrohe's familiar, proven technology. The same set supports any of the Multistat design options. The design can even be changed later, without replacing the basic set.

Safe installation

Familiar fixation with various mounting options enable safe and easy installation

Security in planning and installation

One box for all applications for 2 and 3 functions

Optimum installation depth

Housing box made of ABS. Waterproof and sound-proofed, cut to size for optimum installation depth

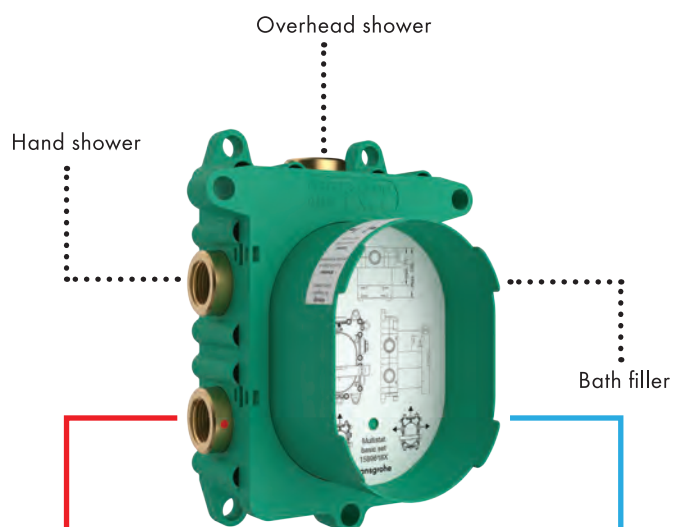

Suitable for many installation situations

Standard installation depth of 75-100mm. Cut to size on site. Fixation is possible from front or rear

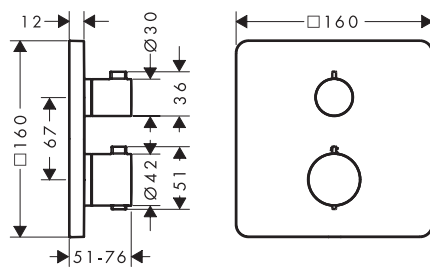

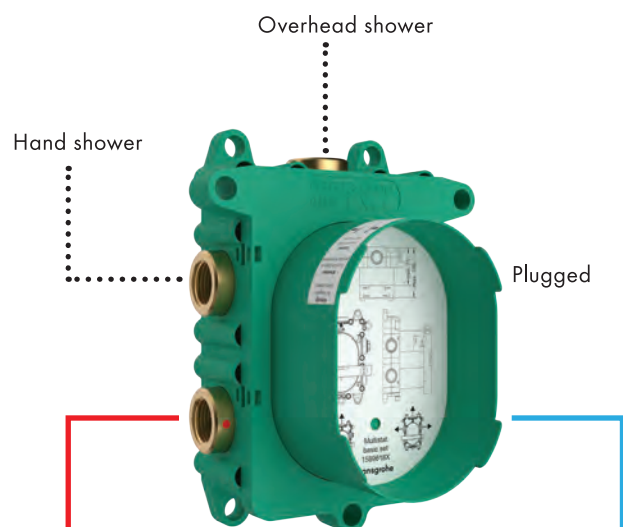

Efficient Installation

Comes with dust cover and flushing unit with plug

Pipe connection - 3 functions

A high-quality photograph of a modern kitchen faucet. The faucet is made of polished chrome and features a tall, curved spout that is currently dispensing a steady stream of water into a dark, rectangular sink. The faucet has a single-lever handle on the right side. The sink is set into a dark, textured countertop. In the background, a window with a dark frame shows some greenery outside. The overall aesthetic is clean and contemporary.
