Kitchen ideas that inspire

hansgrohe.com.sg

Our principles – your enjoyment

Driven by innovation

hansgrohe has been one of the pioneers and innovation leaders in the sanitation industry since day one. We are constantly pushing the limits of the technically feasible and, in so doing, revolutionising kitchen mixers and sinks. Not only are we optimising designs and materials, but we are also constantly rethinking functionality by continuously addressing our customers' needs. Innovative spray types and intuitive controls are good examples of this. We encourage people to enjoy the beauty of water with our inventions.

Design – developing excellence

For us, modern design is more than just an appealing look. hansgrohe design combines timeless beauty, functional finesse, and the highest hand-crafted quality across all product ranges. Numerous awards confirm our pursuit of the extraordinary and highlight our close cooperation with design studio PHOENIX.

Quality – the highest standards for the longest product life

Our products stay with people for years and years. They create feel-good moments that are tailored to individual needs. The premium quality of our products is not only measured by the material properties but also by the joy they bring in the long run. We ensure our customers across the world are satisfied, for example through user-friendliness, a voluntary five-year* manufacturer's guarantee and a Service Center that handles all technical concerns. This is why many consumers become lifelong hansgrohe customers.

*For more information, visit: <https://www.hansgrohe.com.sg/service/warranty/kitchen>

Taking responsibility – acting sustainably

We focus on three areas of accountability: responsible management, social action and ecological awareness. We believe this is the only way to be successful, both now and in the future.

This is something we put into practice worldwide, and have been doing so for many years. This includes ensuring we have an environmentally conscious production process, and mindfully employ people and other resources.

At Hansgrohe, we are in the process of taking giant steps forward to help minimise climate change. By 2030, our aim is to make the entire company, including our products, climate neutral. To implement this, we carefully choose our raw materials, packaging and logistics based on their climate impact.

Making food preparation a pleasure

The kitchen is the heart of your home – the place where you most need comfort, design and efficiency. That's why we're always developing new ideas to improve your space. Our sophisticated technology and ergonomic solutions make your work in the kitchen easier than ever.

Welcome to the ComfortZone

Whether high, swivelling or extendable – with ComfortZone you have more freedom of movement and space. The ability to swivel the spout is especially practical, making switching between different sinks or washing different items easier than ever.

Your workflow made easy

For hansgrohe taps with pull-out functionality, the innovative sBox keeps things neat around your sink. The hose slides smoothly and quietly back into the sBox, which is inconspicuously installed under the sink. This allows the tap to be extended up to **76cm**, extending the working radius of your sink beyond the standard **50cm**, and allowing for easy filling of large containers and plant watering. It's efficient multitasking at its best.

Technologies that inspire

The best products are the ones that enrich people's lives – and sometimes, it is the smallest technologies that make the difference. There's Select technology, which is just one button that brings a whole new ease of use to your home. Or QuickClean, a clever and time-saving anti-limescale solution. hansgrohe technologies make your kitchen more enjoyable to use and easier to clean.

Adaptable to every situation

With kitchen windows that open inwards, conventional taps often get in the way. A hansgrohe tap with TiltFunction solves this problem. It can be easily lifted and lowered, so that the window can be opened and shut easily.

Low pressure solutions

Kitchen taps equipped with LowPressure technology can be used at sinks with a water pressure of just 0.2 bar. A low pressure fitting for cold water pipes with boiler/heat storage.

The right tool for the job

From filling a vase to washing delicate fruit, there are a lot of different tasks that are performed at the sink. That is why we offer taps with a variety of different spray types, so you can switch to the right choice for the right task quickly and easily.

Laminar spray

Crystal-clear spray for the sink with no air mixed in, perfect for quickly filling containers.

Normal spray

Full spray enriched with air that feels lovely and helps with all sink-based routines.

Shower spray

Efficient kitchen spray that can also be used to quickly rinse food.

SatinFlow spray

Flat, super-soft spray that does not splash and is highly efficient.

FinishPlus – all eyes on the high-quality sink

Kitchen design is all about unique style. You can go wild with vibrant colours with the FinishPlus surface finishes from hansgrohe. High-quality metallic shades and modern matt hues are all you need for personal fulfilment. The kitchen can be designed using colours to suit personal taste.

- High-quality finishes provide a variety of design options.
- FinishPlus creates elegant accents and enhances the style of the room. The metallic surface finishes and trendy matt colours find unique ways to bring kitchens to life.
- Relevant complementary products are also available in the same FinishPlus surface finish colours.

PVD coating

A PVD coating is vapourised molecule by molecule in the vacuum coating process to create a robust finish with a vibrant colour

The durability has been tested, resulting in a surface finish that lasts for years

Lacquer coating

A specialised lacquer is applied in several steps to create a bold and intense surface finish

The durability has been tested, resulting in a surface finish that lasts for years

670 Matt Black

Getting back to basics with black and white contrasts.

340 Brushed Black Chrome

A dark surface creates a sophisticated aesthetic.

000 Chrome

Timeless classic paired with dainty elegance.

800 Stainless Steel Optic

Harmony and a clear aesthetic.

Natural perfection

At a glance:

- Resistant to abrasive substances such as fruit acids
- Heat resistant and hygienic
- Colour is resistant to food stains
- SilicaTec is made up of quartz particles, which offer impact, fracture and scratch resistance
- The water repelling effect allows water to drain off almost residue-free
- Thanks to different colour options, you can be even more creative in the kitchen
- Different sink sizes guarantees maximum flexibility
- Different installation options: surface- and under-mounted

Natural

Whether in graphite black, stone grey or concrete grey, the material feels tactile and natural to touch. The smooth, pore-free surface prevents water from penetrating and dirt from sticking.

Resistant

SilicaTec is made up of quartz particles, which offer impact, fracture and scratch resistance. It is unaffected by heat and won't fade in the light, ensuring the colour remains true for many years to come.

Water repelling effect

The water repelling effect allows water to drain off almost residue-free. The quality of the material also prevents food stains and other discolouration.

Perfecting your workflow
in the kitchen

Multiple awards

reddot winner 2020
best of the best

Find your flow

A good chef knows that it's the highest quality ingredients that make a perfect meal. We believe that begins with food preparation. That's why we have developed Aquino Select M81, for gentle food cleaning in your kitchen.

The unique design of the Aquino Select M81 kitchen tap means water flows in a new way. The flat SatinFlow stream gently cleans your food, doesn't splash and uses less water when you're washing your hands. Together with the tailor-made sieve, it perfects your kitchen workflow.

Aquino Select M81 makes everything you do at the sink easier. Three different spray types makes this a versatile kitchen all-rounder. You can focus on the cooking, while the Aquino Select M81 acts as the ultimate kitchen assistant.

At a glance:

- Tailored to the exact dimensions of the splash-free SatinFlow spray, the included multifunction sieve helps you conveniently clean and drain food, hygienically avoiding contact with the sink. The hands-free operation means you can get to work on the next step of meal prep.
- Combined with the sBox, the operating range is extended up to 76 cm
- Select technology makes using the kitchen tap easier than ever before, allowing you to turn water on or off with one click. Operate it with your elbow or even the back of your hand, and keep your taps clean when you're cooking or washing up.
- Swivel range adjustable to 60°, 110° or 150°

SatinFlow spray – gentle preparation begins with a 20 °C shower

Multitasking with the multifunction sieve: Tailored to the exact dimensions of the splash-free SatinFlow spray, the included multifunction sieve helps you conveniently clean and drain food, hygienically avoiding contact with the sink. The hands-free operation means you can get to work on the next step of meal prep.

73831, -001

Metris M71

A recipe for easy operation

At a glance:

- Pull-out function provides excellent flexibility
- The sBox ensures that the hose extends quietly and smoothly from the base cabinet up to 76cm
- The Select button lets you start and stop water flow quickly and conveniently
- Several spray types available
- ComfortZone provides plenty of space between the sink and the tap, for fewer water splashes
- Easy window opening when installed in front – simply remove it from the holder and lower it down

Multiple awards

Where ergonomics meets aesthetics

Do everything with one hand with the Metris Select M71: The spray selection button is positioned directly on the pull-out tap. It allows you to simplify your workflow: after using the lever handle, switch sprays using the switch button and start and stop the water flow by pressing the Select button on top. With Select you can control water precisely and use resources efficiently.

Convenient operation

With Select technology and a rocker lever positioned at the front edge of the sink, the kitchen tap can be conveniently operated without reaching across the flow of water. By turning the ergonomic rocker lever you can control the water temperature, while tilting it allows you to control the volume of the water flow.

Talis M54

Design and functionality
for your kitchen

Multiple awards

reddot winner 2021

Where minimalism meets attention to detail

Make the perfect kitchen the hallmark of your home. Talis M54 is our flexible design solution for every kitchen shape. Fall in love with the slim tap body in chrome or matt black, and select the right fit for your kitchen – whether you have a large island or compact space with wall units.

The Talis M54 with a round arch is the perfect choice for cooking islands with a sink. Its slim silhouette blends seamlessly into the body, making it an eye-catching addition to the modern eat-in kitchen. It comes with a pull-out tap, for more flexibility, or a swivelling tap. The latter has an adjustable stop, which prevents it from being accidentally unscrewed from the sink area.

The Talis M54 with a U-shaped tap is the perfect solution for kitchens with or without wall cabinets above the sink. With its flexible U-shape and discretely integrated spray former, it's a unique and practical design solution.

For kitchens with wall cabinets above the sink, we have developed the Talis M54 with an L-shape tap. This compact and ergonomic system makes the best use of the space available. The option with the horizontal pull-out tap goes even further to maximise the space, while a gradual adjustable swivel rotation can be adapted to your sink, to prevent it from swivelling too far.

At a glance:

- Pull-out function provides excellent flexibility
- Thanks to different colour options, you can be even more creative in the kitchen
- Several spray types available
- ComfortZone provides plenty of space between the sink and the tap, for fewer water splashes

Equipment & Accessories

Maximum functionality, for a more comfortable workflow

At a glance:

- Make your daily tasks more efficient with the right accessories
- The elegant design perfectly complements the hansgrohe range
- Maximum functionality, for a more comfortable workflow
- Tailor-made accessories for hansgrohe sinks
- Ideal for working in and outside of the sink
- Perfect for cleaning

Multifunction sieve

Multitasking in the kitchen is made easier thanks to the multifunction sieve. Designed to move smoothly along the S51 sinks and those with a depth of 400-406mm. Its use with undermounted sinks depends on the installation.

Chopping board

The solid oak or walnut chopping board features a guide edge that allows you to slide it along hansgrohe sinks.

Dishwashing liquid/ lotion dispenser

This practical dispenser is available in three different designs and two different finishes, ensuring it coordinates perfectly with any hansgrohe kitchen tap.

Mobile draining board

When placed on the edge of the sink, the mobile draining board drains water quickly and efficiently towards the sink. After use, dishcloths can be hung on the plastic frame to dry. This two-part accessory, made of a stainless steel sheet and plastic frame, is dishwasher-safe and can be conveniently stowed away when not required.

SoftStart spray shaper

The slow-opening aerator in the SoftStart spray shaper gradually increases water volume, for a smoother start to water flow. This reduces splashing, especially in kitchen taps with a high spout.

Technologies

Select
Start the water, stop the water: One push of a button is all it takes to control the water flow at the sink.

Comfort Zone
Ensures maximum room to move at the sink, both in terms of height and the ability to swivel from side to side.

sBox Kitchen
Smooth and protected hose guidance. The pull-out spray can be extended to max. 76 cm.

Quick Clean
Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

EcoSmart
Tap that consumes just 6 l/min and thus reduces water and energy costs. Good for the environment and people's wallet.

AirPower
Mixes water with air. For a smooth, lower-splash water spray and light yet full shower droplets.

CoolStart
Eco-friendly tap that conserves precious resources, reduces CO₂ emissions and cuts costs.

Pull-out
A pull-out spray or spout enormously expands the operating radius at the sink.

Mag Fit
The magnetic support on the spout ensures a secure position for the pull-out spout and pull-out spray.

Spray modes

Laminar Spray
Crystal-clear spray for the sink with no air mixed in, perfect for quickly filling containers.

Normal Spray
Full spray enriched with air that feels lovely and helps with all sink-based routines.

Shower Spray
Resource-conserving and efficient kitchen spray that can also be used to quickly rinse food.

Satin Flow Spray
Flat, super-soft spray that does not splash, is highly efficient and conserves resources.

Sink installation options

Top Mounted Installation
Surface-mounted installation: The sink is inserted from above into a cut-out in the worktop.

Flush Mounted Installation
Flush-mounted installation: The sink is installed flush with the worktop to create a smooth transition between worktop and sink.

Under Mounted Installation
Under-mounted installation: The sink is mounted below the cut-out and is therefore almost invisible, making the kitchen look more spacious.
