Kitchen ideas that inspire

hansgrohe.com.au

Life is waterful.

With passion and precision, we design kitchen solutions that make your use of water particularly efficient and pleasant. For us, the kitchen is much more than just a functional space - it is the hub of everyday life, where smooth, easy workflows and efficient use of water go hand in hand. A place where you can live out your creativity and experience the comfort and inspiring lightness of water every day anew. The kitchen becomes a space that enriches your life and creates and creates special moments again and again.

Our principles – your enjoyment

Quality – the highest standards for the longest product life

Our products stay with people for years. They create feel-good moments tailored to individual needs. The premium quality of our products is measured not only by their material properties, but also by the lasting joy they provide. We ensure customer satisfaction worldwide – through user-friendly design, a voluntary five-year* manufacturer's guarantee, and a Service Center that addresses all technical concerns. That's why many consumers become lifelong hansgrohe customers.

Find out more about the
manufacturer's guarantee.

Design – developing excellence

For us, modern design is more than just an appealing aesthetic. hansgrohe design combines timeless beauty, functional finesse, and the highest hand-crafted quality across all product ranges. With over 800 awards for the Hansgrohe Group – including several coveted iF Gold Awards – our pursuit of the extraordinary is clear and highlights our close collaboration with the design studio PHOENIX.

Driven by innovation

hansgrohe has been a pioneer and innovation leader in the sanitation industry since day one. We constantly push the limits of what is technically feasible, revolutionizing kitchen mixers and sinks in the process. Not only do we optimize designs and materials, but we also continually rethink functionality by addressing our customers' evolving needs. Innovative spray types and intuitive controls are just a few examples. With our inventions, we encourage people to experience and enjoy the beauty of water.

Responsibility – take over and act

Saving water and energy are two matters close to hansgrohe's heart. That's why we develop products that deliver impressive water experiences while reducing resource consumption – because we don't believe our customers should have to choose between wellbeing and sustainability. We are converting our entire water-bearing product range to water- and energy-saving technologies by 2030. Some of our products are already equipped with these technologies – such as the Zesis M33, which uses just 6 litres per minute thanks to EcoSmart with an integrated flow limiter, helping to save both water and energy costs. Another example is the EcoSelection version, which uses a special cartridge to reduce water consumption by up to 50 percent. For more water, you have to overcome a little resistance. Our products are also robust, long-lasting, and easy to repair.

Find out more about resource-conserving technologies.

Making food preparation a pleasure

The kitchen is the heart of your home – the place where you most need comfort, design and efficiency. That's why we're always developing new ideas to improve your space. Our sophisticated technology and ergonomic solutions make your work in the kitchen easier than ever.

Select

Start the water, stop the water: one push of a button is all it takes to control the water flow at the sink.

Pull-out

A pull-out spray or spout enormously expands the operating radius at the sink.

ComfortZone

Ensures maximum room to move at the sink, both in terms of height and the ability to swivel from side to side.

MagFit

The shower hose gently swivels back after use and is held in place by magnets at the front of the mixer.

QuickClean

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

EcoSmart

Mixer that uses only 6 l/min thanks to the integrated flow limiter, thus reducing water and energy costs.

AirPower

Mixes water with air. For a smooth, lower-splash water spray and light yet full shower droplets.

EcoSelection

The cartridge reduces water consumption by up to 50 %. More water requires overcoming resistance.

TiltFunction

Designed for installations in front of windows, allowing the mixer to be laid flat so the window can be opened and closed freely.

sBox

For quiet, smooth and protected hose guidance in the cabinet. The hose can extend up to 76 cm.

The right tool for the right job

From filling a vase to washing delicate fruit, there are a lot of different tasks that are performed at the sink. That is why we offer taps with a variety of different spray types, so you can switch to the right choice for the right task quickly and easily.

Normal spray

Full spray enriched with air that feels lovely and helps with all sink-based routines.

Laminar spray

Crystal-clear spray for the sink with no air mixed in, perfect for quickly filling containers.

Shower spray

Resource-conserving and efficient, shower spray can also be used to quickly rinse food.

SatinFlow spray

Flat, super-soft spray that does not splash and is highly efficient.

FinishPlus – all eyes on the high-quality sink

Kitchen design is all about unique style. You can go wild with vibrant colours with the FinishPlus surface finishes from hansgrohe. High-quality metallic shades and modern matt hues are all you need for personal fulfilment. The kitchen can be designed using colours to suit personal taste.

- High-quality finishes provide a variety of design options.
- FinishPlus creates elegant accents and enhances the style of the room. The metallic surface finishes and trendy matt colours find unique ways to bring kitchens to life.
- Relevant complementary products are also available in the same FinishPlus surface finish colours.

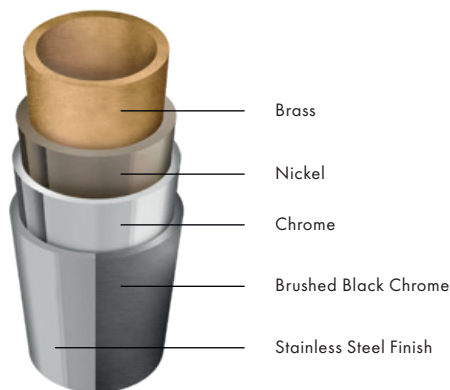

PVD coating

A PVD coating is vapourised molecule by molecule in the vacuum coating process to create a robust finish with a vibrant colour

The durability has been tested, resulting in a surface finish that lasts for years

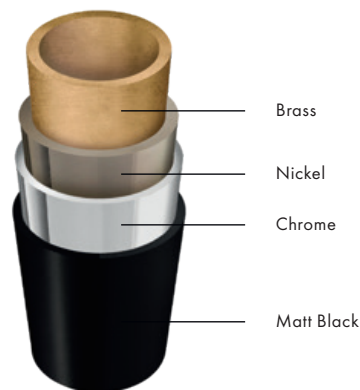

Lacquer coating

A specialised lacquer is applied in several steps to create a bold and intense surface finish

The durability has been tested, resulting in a surface finish that lasts for years

**Matt Black**

Getting back to basics with black and white contrasts.

**Brushed Black Chrome (PVD)**

A dark surface creates a sophisticated aesthetic.

**Chrome**

Timeless classic paired with dainty elegance.

**Stainless Steel Finish (PVD)**

Harmony and a clear aesthetic

Kitchen mixers

Kitchen taps with impressive ease of use and award-winning designs.
