Dream bathrooms

hansgrohe.com.au

A Brand for Life

Day after day, we pour all our passion and precision into creating unforgettable water experiences that meet high standards and generate genuine enthusiasm. We believe the bathroom is a place that, if a holistic concept is introduced, can enrich your life and fill it with lots of emotions and extraordinary moments. It is a place to feel special, every single day. Where you are free to express your individuality and enjoy the beauty of water with all your senses.

Tradition and innovation

Bubbling with ideas since 1901

Hansgrohe SE is celebrating its 125th birthday in 2026. We have always pushed the limits of the technically feasible and rethought bathrooms – based on the needs and requirements of our customers and specialist partners.

hansgrohe has been one of the pioneers and innovation leaders in the sanitation industry since day one. We are constantly pushing the limits of the technically feasible and, in so doing, revolutionising mixers, showers and bathrooms. Not only do we optimise designs and materials, but we also constantly rethink functionality by continuously addressing our customers' needs. Sensual spray modes such as PowderRain or pioneering installation solutions such as the iBox universal 2 are good examples of this. Our inventions encourage people to enjoy the beauty of water.

125
YEAR
ANNIVERSARY

Company founder Hans Grohe's pioneering spirit is deeply rooted in our DNA and shapes the work we do.

PHOENIX and hansgrohe

Partners in good taste

reddot winner 2025
best of the best

Stuttgart-based PHOENIX's success is backed up by more than 800 renowned design awards to date.

PHOENIX is considered one of the leading independent studios for product and interface design worldwide. The legendary Stuttgart-based design workshop is an integral component of German design history and has been causing a stir since as far back as the 1970s. PHOENIX has spent just as long shaping the face of hansgrohe, as it has been exclusively designing all the key products for our premium brand since its foundation.

The pioneers design objects that last a long time and bring lots of joy. They develop a portfolio for hansgrohe that creates totally new water experiences and always succeeds in striking the balance between functionality and magic. Together, PHOENIX and hansgrohe use modern, clean lines and add emotion to increase the desirability of bathroom design.

Where water droplets become wellness

The hansgrohe spray laboratory

This is where the precious element of water is shaped into a personal wellness medium. After all, not all droplets are created equally. Micro-fine, lightly massaging or intense, our experts in the spray laboratory have developed a wide range of spray modes – the ones that have made hansgrohe showers so famous. They also research the splash back properties of water to ensure it feels nice on the skin and prevents puddles forming on ceramics. And in the sound laboratory, our experts fine-tune the sound of water-bearing products to perfection to ensure non-stop acoustic enjoyment.

Beautiful spray patterns are no coincidence at hansgrohe. They're the result of in-depth spray research in countless test cycles.

Each hansgrohe product needs to prove its worth over and over in test cycles, stress tests and quality assurance inspections. We always involve our consumers and specialist partners in the testing of our prototypes to ensure the products are safe, durable and top quality in daily use. The flexible silicone nozzles pictured above have been developed to prevent limescale from sticking to them. That's what we call smart thinking.

hansgrohe product quality

Uncompromisingly high-end

hansgrohe products meet the strictest drinking water regulations and hold all the major approvals. They are built to last. After all, genuine quality stands the test of time. Our customers can rely on the highest quality with regard to materials, design and functionality. As good bathroom design remains timeless, we make our products to be visually durable and ideal for mixing and matching – with a clear design aesthetic that goes with a wide range of interior styles.

Our sustainability strategy

Less water, pure joy

“We are converting our entire water-bearing product range to water- and energy-saving technologies by 2030 – both for the AXOR and hansgrohe brands.”

“Water is the elixir of life,” as Klaus Grohe, son of our founder and former Chairman of the Executive Board, used to say. “The social interest in clean water and its availability to everyone is thus also our own.”

At Hansgrohe, we walk the talk: for example with the insights from our bathroom analysis. As a result, we are converting our entire range of mixers and showers to ECO design specifications by 2030. This means our products will then only be available with water- and energy-saving technologies. We intend to consistently implement this plan over the coming years.

The Hansgrohe Group defines “ECO” as the reduction of the water and/or energy consumption of water-bearing products in usage by at least 22 percent compared to 2020 (the base year).*

Hans Jürgen Kalmbach, Chairman of the Executive Board of the Hansgrohe Group

*The benchmark for this is the average flow per minute based on our entire product range. We intend to reduce this flow rate by at least 22 percent compared to the base year (2020) by 2030. The reduced water consumption also results in lower energy consumption when heating the water.

hansgrohe integrates water- and energy-saving technologies.

Thanks to EcoSmart technology, many hansgrohe mixers and showers already conserve water and energy and save actual money, while CoolStart mixers reduce the valuable energy used to heat water. EcoSmart* and CoolStart** products enable people to be more sustainable in every bathroom and in every project – especially as they are no more expensive than standard products.

EcoSmart

CoolStart

Find out more about EcoSmart.

Find out more about CoolStart.

*EcoSmart products work with flow limitation – without a noticeable loss of comfort. hansgrohe showers with EcoSmart therefore use up to 40% less water than our showers without this technology. With EcoSmart+, it's as much as 60%. EcoSmart showers therefore consume only 8 l/min – or just 6 l/min or less with EcoSmart+. EcoSmart also reduces water consumption to around 5 l/min in hansgrohe basin mixers, while EcoSmart+ mixers consume as little as 4 l/min (each at 3 bar).

**Energy-saving CoolStart mixers only allow hot water to flow when the lever is actively moved.

Add colour to your bathroom!

FinishPlus colours let you make a bold statement in your bathroom. With a range of metallic and matt shades, you can express your personal style to create your individual bathroom sanctuary.

Durable and long-lasting, PVD (Physical Vapour Deposition) is a vacuum coating process that vaporises metal molecule by molecule to create an ultra-thin, extremely hard finish with vibrant colours. Highly resilient, these coatings preserve their premium look for years even under heavy daily use.

Matt Black

provides a contrast and takes the bathroom design back to basics.

Chrome

is a timeless classic that makes the bathroom shine.

Brushed Bronze (PVD)

exudes subtle flair and looks elegant with white and natural tones.

Brushed Nickel (PVD)

provides a modern, soft metallic finish, bringing understated elegance to any design.

Brushed Black Chrome (PVD)

has an air of sophistication thanks to its dark appearance.

Showers and accessories

The ultimate shower experience

Our brand-name products bring more joy, sensuality, and variety to the bathroom routine of countless people around the globe. For many, hansgrohe is synonymous with showering. Because our world of showers is like no other and our variety of spray modes is impressive. Because we impress people with award-winning shower design and intuitive water controls. hansgrohe is also all about resource conservation, which saves money.

Welcome to your home spa.

From a fine mist out of the hand shower to a sumptuous summer downpour out of the overhead shower, water can be made to feel so different! Our spray modes refresh and relax, massage and caress. No matter the size of the showerplace, hansgrohe showers are the ultimate in shower pleasure.

According to a study*, nine out of ten consumers agree:

“PowderRain offers the best shower experience of all time.”

*1500 customers tested the PowderRain spray mode in 2018 with trnd, an interactive marketing community in Europe.

PowderRain adds a layer of delicateness to your enjoyable shower

PowderRain. Thousands of ultrafine droplets that wrap the body in a coat of wellbeing. People can let the world around them disappear, wash away their daily woes, and recharge their inner batteries in this ultra-gentle water cocoon. For a soft, sensual start to the day or a pamper session after a stressful day. The hansgrohe spray researchers offered their extensive water expertise to create these whisper-quiet micro-droplets. PowderRain can be found bubbling out of our Rainfinity, Raindance with PowderRain, and Pulsify shower ranges.

Massage effect? Powerful boost of freshness? Relaxed summer rain? Kneipp therapy? Our multi-spray shower heads pamper just the way you like it.

Special shower features

Adjustable Shower Head

The overhead shower's angle can be adjusted to individually adapt the water spray.

Fast Drain

The fast drainage function on the shower head reduces dripping after you've showered.

XXL Performance

The shower distributes the water over a large area so that your entire body is cocooned by feel-good droplets.

Select

The simple press of a button allows you to regulate the water flow, the shower head or the spray mode.

QuickClean

Limescale deposits and dirt can be simply rubbed off the spray disc using a finger. For much less cleaning effort!

DropGuard

Reduces the dripping after stopping the shower to just a few seconds.

Push Slider

Easy one-handed adjustment of the shower holder's height via the push button.

The ultimate in showering indulgence

Rainfinity

A bold design statement

With no need for a conventional shower arm the head can be tilted at an angle of between 10° and 30° using the ingenious wall connection. Find your most comfortable showering position, or keep your hair and face dry while your body is drenched in water. FinishPlus surface finish: Brushed Bronze.

Rainfinity: A fusion of hand shower and shelf

Nice and tidy: The combination of practical shower shelf plus integrated hose connection and hand shower holder creates a streamlined shower space. Shown here in Brushed Bronze that adds a touch of warmth and contemporary style.

Ultimate shower comfort

Curved spray face

The curved graphite spray disc of the spray face not only creates an ultra-modern design statement but also delivers a spray surface that gently blankets the body and envelops you with PowderRain.

XXL showering

Immerse yourself in a sensuous shower experience thanks to Rainfinity's generously sized spray surfaces. The large 250mm overhead shower and 130mm diameter hand shower provide extensive coverage for a truly luxurious feel.

Micro nozzels
for a super
fine spray!

MonoRain

A targeted, soothing spray from the center of the shower head. The Mono jet's lightness helps you to unwind, making it a perfect spray for relaxing.

Intense PowderRain

The number of droplets is substantially increased for Intense PowderRain to produce a powerful, yet velvety soft spray that minimises splashing.

PowderRain

Inspired by the warm misty droplets of the rainforest, PowderRain introduces an entirely new way to indulge in water. Thanks to multiple fine openings in every jet outlet, water is transformed into a cocoon of spray, which is both all-enveloping and supremely quiet.

Shower enjoyment at the touch of a button

Raindance S

Showering fun at the touch of a button

Raindance Select makes your body care routine more fun. Select the shower jet by simply pressing the Select push button, one click is all it takes. And the mechanical Select button is durable and reliable, tested with 90,000 actuations. FinishPlus surface finish: Matt Black.

Look forward to something special: Raindance Select S

The unique hansgrohe PowderRain jet type envelops your body in a cocoon of the finest water droplets, changing your shower into a source of well-being. You can switch to the Rain jet type with the Select button and transform your new shower into an original hansgrohe rain shower.

PowderRain. Relaxing, micro-fine droplets that gently and quietly envelop the body. The water is transformed into a delicate cocoon that sensually embraces the body for indulgent, deep relaxation.

Rain. Invigorating and energising everyday showering indulgence with a satisfyingly full shower rain. This spray type works efficiently to thoroughly rinse out shampoo.

Whirl. Rotating water sprays that flow around each other in a helical pattern, creating a concentrated massage spray that helps gently wash away everyday tensions and stress.

hansgrohe Raindance Select S: performance meets design

Raindance hand showers feature a distinctive, color-matched spray face and coordinated hose colour, and with five FinishPlus colours to choose from Raindance Select S can be perfectly matched for a unified bathroom design. FinishPlus surface finish: Matt Black.

Striking a chord with our senses.

Raindance Alive

The innovative design showers combine three hansgrohe wellness spray types, including two of our most popular: RainAir and PowderRain.

"I love the feeling of showering with Raindance Alive."

That's what 9 out of 10 shower testers told us in the smart insights consumer research with 100 participants in July/August 2024.

Feeling relaxed and wonderful while water droplets dance across our body and wrap our skin in a relaxing cocoon. It's like that moment when our favourite song comes on: a wonderful feeling. For many, it's the epitome of happiness. For others, it's a reason to close their eyes and dream. Raindance Alive. Wonder in a new composition.

Refreshingly new yet somehow familiar:

Raindance Alive features a premium design to satisfy our longing for pieces that look good and improve our quality of life. The mesh-effect design cover gives the shower heads a more fabric-like style, making them look less technical and the bathroom look cosier – especially as this grid finish conceals the spray disc and with it the sprays. This helps the shower to blend into the room for a sensational look and cosy effect.

The round Raindance Alive hand showers (125 mm diameter; with Select push button) can fill us with positive emotions or calm us through the regenerative power of water. Depending on the mood, depending on the spray type.

RainAir. Relaxing air-enriched shower rain. Cocooned in gentle pearls of water, we experience a pleasant feeling in the shower that's almost like warm, tropical rain.

PowderRain. Soft rain that feels like our body is enveloped in a cocoon. Thousands of ultra-fine droplets create a pampering and enjoyable shower – perfect for moments of self-care or for thoroughly rinsing out shampoo.

Massage. The powerful spray is perfect for easing slight tension. The hand shower can be used for a targeted massage of specific regions of the body – an act of kindness.

The 2jet overhead shower pampers with our most popular spa spray types: RainAir (bottom) and PowderRain (right). In an S 300mm (round) or Q 210/40 design (soft square).

Indulgent showers for all bathroom sizes

Pulsify S

Pulsify S unique design

with a lasting impression

The Pulsify S baton shower sets, come as a complete package that includes a hand shower with hose and wallbar with innovative self-locking shower holder that can be adjusted using one hand. The Pulsify Select S 3jet set offers easy, one-handed adjustment of the shower holder's height and inclination via the PushSlider.

Pulsify S hand showers: Transforming water into wellbeing

Pulsify S pampers with delicate PowderRain, your everyday wellness highlight. Thousands of fine micro-droplets create an amazing feel-good sensation. Pulsify S showers remain sustainable while they pamper – and it's all thanks to EcoSmart technology.

Structurally compact, Pulsify S can be integrated into any bathroom, while you can choose from a variety of elements and surfaces to design a totally individual look to suit your style.

FAST DRAIN

Less dripping: Residual water drains away quickly after showering through the fast drain.

XXL PERFORMANCE

The striking 260 mm spray disc features a ring-shaped jet arrangement that delivers a powerfully focused stream—concentrating water exactly where you need it for an intensely indulgent, spa-like shower experience.

Maximum shower enjoyment, even in small bathrooms

POWDERRAIN

Pampers users with thousands of micro-fine droplets that emulate that ultra-gentle summer rain.

INTENSE RAIN

A concentrated spray, the activating and invigorating feel of IntenseRain instantaneously banishes tiredness and wakes you up.

MASSAGE

Quickly washes away the stresses and strains of everyday life. The water jets have a targeted arrangement to release tight spots.

Whether in a large family bathroom, in your own home or in the tiny bathroom of your rented apartment, hansgrohe Pulsify S offers the optimal, individual shower experience for every space, budget, and style. The Pulsify S 100 baton provides a compact and stylish solution for bathrooms with a limited footprint, while still being able to enjoy the PowderRain spray.

Showering for every body,
mind and moment.

Activera

A new name that combines top shower performance with minimal water consumption and makes comfort, joy and safety the priority. Activera maximises shower performance without increasing water consumption in a family- and budget-friendly product range.

FlexPower technology

ensures consistent performance and powerful water sprays at low or fluctuating pressure. The flexible Flex nozzles in the spray disc are shaped like a clover leaf and ensure the pressure evens out through constant dynamic movements. In addition, this allows less limescale to accumulate, which can also reduce the need for cleaning.

Activera is the perfect shower for people having a stressful day. It features a universal design solution suitable for all bathrooms. With innovative functions and two spray types, it meets people's every showering need.

Top: the spray types are switched using the Select button in the spray disc – for intuitive operation at the touch of a button.

Bottom: the PushSlider on the shower bar allows the hand shower to be easily shifted with one hand – perfect for showering at a person's personal comfort height.

Harmonious design and excellent value for money: this Activera shower set consists of a Select hand shower with shower hose and a shower bar with slider. This kind of all-in-one solution can create an instant oasis of well-being – in Chrome, Matt Black or Brushed Nickel.

EasySplit technology enables the Activera hand shower to be easily dismantled so that parts such as the cartridge can be replaced.

The spray disc on the Activera S overhead shower measures 240 mm in diameter. This creates an enjoyable shower with Rain, which envelops the body in a cosy cocoon, even though the water flow is heavily reduced. Its angle can also be adjusted.

Activera by hansgrohe.

Brings joy. Saves water and energy day after day.

Rain. The invigorating rain spray from the hand shower and overhead shower creates an enveloping fall of rain. For everyone who needs a gentle caressing moment or a freshness boost.

ImpactRain. The powerful rain spray washes away everyday stress and is perfect for gentle massages or for rinsing out shampoo. Designed to be experienced with the 2jet hand shower.

Individual shower pleasure

Showerpipes

Why settle for just one shower experience? With the Croma Select and Crometta S Twin Showerpipes experience the ultimate in shower versatility. Effortlessly switch between shower sprays at the touch of a button while enjoying a compact and sleek design that seamlessly blends into any bathroom decor.

Select

Switching between spray types or diverting water flow is effortless and intuitive using the Select button. The Croma Select Showerpipes include a 2-jet overhead shower offering Rain and Intense Rain modes, easily controlled via the Select button on the spray face.

A Rain spray tailored to you

RAIN

A satisfying rain experience. The water invigorates and energises you and is the perfect way to thoroughly rinse out shampoo.

INTENSE RAIN

A concentrated spray, the activating and invigorating feel of IntenseRain instantaneously banishes tiredness and wakes you up.

TURBO RAIN

A multi-purpose spray that lives up to its name. With Turbo, the rain spray intensifies to ensure a powerful but soothing shower.

Experience water like never before with AirPower

The integrated AirPower technology mixes generous amounts of air into the water producing a soft, splash-free water jet and plump shower droplets.

The water inlet connects through the top fixing, making it ideal for renovations. Shower pipes can be easily retrofitted and installed with minimal effort.

A spa experience for your furry friend

DogShower

DogShower: Less stress, less chaos, more loving looks

Does washing the dog in your bathroom always end in chaos? Is the garden hose your pup's mortal enemy? But there is another way to groom pets. Our dog shower was developed with dog experts and psychologists. The massage effect of its spray jets is reminiscent of pets along the back, letting dogs enjoy a relaxing shower experience.

FurSpray. The generous fur spray spreads over 74 flexible nozzles and is the length of the entire spray disc. It is a luxurious water jet that pampers your pooch. The extra-long, flexible nozzles help the water to work its way deep into the undercoat.

LegSpray. The gentle jet for the legs uses the front part of the shower to effectively rinse out dirt residue and shampoo from even the thickest coats.

PawSpray. The gentle but focused paw spray reaches even in spaces between the paw pads.

Flexible and lightweight, stylish and sustainable

Showers with that extra-special something

The feel: Warm, fabric-like, delightful. The look: Sensational. Designflex creates a cosy vibe. The shower hose gets its attractive look from a tight weave technique with colourful yarns that create new, ever-changing patterns. It is waterproof, water-repellent, and can be cleaned in the dishwasher. As a small but trend-setting detail, the yarn is made of recycled PET plastic bottles from the Black Forest in Germany, making this a sustainable purchase.

Simply
sustainable!

Designflex fits all standard hand showers – simply screw it on. The innovative shower hose reflects the FinishPlus palette found in hansgrohe showers, mixers, and accessories – for an elegant and harmonious colour scheme in the bathroom.

Simply control the water and enjoy the comfort

Sudden fluctuations in water temperature and water flow can be unpleasant. A thermostat instantly responds to changes and counteracts them. We offer a wide range of water regulators and shower mixers, from one shower head through to multi-functions. All shower controls are high quality and intuitive to use.

iBox universal 2

Efficient installation offering maximum flexibility

Every installation becomes child's play with the hansgrohe finish sets and the iBox universal 2. The innovative basic set for concealed thermostats ensures quick and simple installation. If the thermostat needs to be replaced further down the line, this is also not a problem – all finish sets can be replaced by another without major effort.

Invisible technology, proven millions of times over

The plumber starts by installing the best selling hansgrohe iBox universal 2 in the wall. Our pre-fab sets are then mounted on this base set.

iBox universal 2

iBox universal 2 at a glance:

1 Flexible installation options

Installation in, on or in front of the wall. The mounting ring can be placed on the front or back.

2 Sound-absorbing, insulating box

EPP foam box (polypropylene-based) provides noise reduction, thermal insulation, waterproof protection, and is recyclable.

3 Depth-adjustable sliding sleeve

Easy-to-slide sleeve lets installers adjust for varying wall depths without any hassle.

4 Pre-assembled sealing foil

Elastic sealing foil is firmly fixed to the sliding sleeve so it won't get lost during installation, improving sealing reliability.

5 Pre-assembled function block

The durable connection block made of high-quality metal enables safe, fast installation.

DuoTurn

Turn up the comfort with this concealed mixer

This new generation of concealed mixers combines simple controls with clear, universal design – both in the shower and bath tub. Simply switch from the hand shower to the overhead shower to turn up the comfort.

- 1 Turning the dial conveniently controls the outlets and water flow
- 2 Temperature regulation
- 3 Metal handle

Design variety

DuoTurn is a great fit for modern bathrooms. The handles are flat and aligned at one height. DuoTurn can be used universally, it blends in with any bathroom ambiance, and can be matched with products in any hansgrohe range.

ShowerSelect Comfort

A work of art for the wall

The elegant design turns the shower into a beautiful eye-catcher and brings a new dimension of comfort into the bathroom. Reliable hansgrohe thermostat technologies ensure a soothing, safe shower experience.

Basin mixers – beautiful, functional, versatile

EcoSmart

Saving resources with pleasure! The clever EcoSmart technology reduces the water consumption of hansgrohe lavatory mixers to no more than 5 l/min*. Integrated flow limitation ensures a conscious use of water and energy required to heat the water. All without a loss of comfort.

*at 3 bar

Find out more about EcoSmart.

AirPower

Mixes air into the water. For a soft, lower-splash water spray and full, light droplets.

QuickClean

Limescale deposits and dirt can be simply rubbed off the spray disc using a finger. For much less cleaning effort!

CoolStart

This energy-saving mixer only allows hot water to flow when the lever is actively moved. CoolStart helps to conserve resources and cut CO₂e emissions and costs.

Kitchen mixers

Making food preparation a pleasure

For us, the kitchen is much more than just a functional space - it is the hub of everyday life, where smooth, easy workflows and efficient use of water go hand in hand. A place where you can live out your creativity and experience the comfort and inspiring lightness of water every day anew. The kitchen becomes a space that enriches your life and creates and creates special moments again and again.

Special kitchen mixer features

ComfortZone

Describes the large space between the kitchen tap and sink – vertically and horizontally. Whether high, swiveling or extendable – with ComfortZone you have more freedom of movement and space.

MagFit

The shower hose gently swivels back after use and is held in place by magnets at the front of the mixer.

Pull out

More comfort and room to move: Pull-out sprays or pull-out spouts expand the operating radius around the kitchen sink to take water to exactly where it's needed in just one motion.

QuickClean

Limescale deposits and dirt disappear in an instant with this technology. Simply rub the flexible silicone discs or nozzles with a finger.

Laminar spray

A crystal-clear spray for the sink with no air mixed in, perfect for quickly filling large pots or bowls. Efficient with very little splash back.

Shower spray

Resource-conserving and efficient, shower spray can also be used to quickly rinse fruit or vegetables, fish or meat, the soft spray helps to gently yet efficiently clean food and other items.

Normal spray

An air-enriched water spray with a soft feel. Air is mixed in to create a fuller, lighter and softer spray that is an efficient help with every activity at the kitchen sink.

Perfecting your workflow in the kitchen

Aquno Select M81

sBox

The innovative sBox keeps things neat around your sink. The hose slides smoothly and quietly back into the sBox, which is inconspicuously installed under the sink. This allows the tap to be extended up to 76cm, extending the working radius of your sink beyond the standard 50cm, and allowing for easy filling of large containers and plant watering. It's efficient multitasking at its best.

SatinFlow

The unique design of the Aquno Select M81 kitchen tap means water flows in a new way. The flat SatinFlow stream gently cleans your food and doesn't splash when cleaning large items!

Multifunction Sieve

Tailored to the exact dimensions of the splash-free SatinFlow spray, the included multifunction sieve helps you conveniently clean and drain food, hygienically avoiding contact with the sink.
