# Meet the beauty of water

## **The new meaning of 'home'**

Over the past year, many of us have come to realise the importance of home providing a place of relaxation and retreat. As a company, we know we are providing something truly fundamental to our customers: a home filled with beauty and quality, a place of escape from the outside world. Whatever happens, we are – and always will – be by your side.

## **Innovations to bring your business to life**

This year, we're introducing a range of exciting new products that deliver on our guiding principles: **innovation, design, quality** and **responsibility**. We offer solutions to every need, by developing cutting-edge products to suit every lifestyle. Meet Pulsify, the shower that offers a completely new experience in any sized bathroom, thanks to the innovative PowderRain spray. Or Finoris, the tap that gives a new freedom of movement in the bathroom.

## **Designed for people**

hansgrohe is a brand for life. Whether you are looking for a moment of calm or refreshment, every product we make is designed to make life easier. Our products are not one-off ideas but comprehensive solutions, destined to become integral to everyday life. It's this that defines our brand: our focus on people.

# hansgrohe – our past informs our future

hansgrohe is a company steeped in tradition. It was founded by Hans Grohe in 1901, with a small metalwork shop in Schiltach, the Black Forest. Today, you will still find our Innovation Centre and corporate headquarters there. The hansgrohe brand has an international reputation for excellence, thanks largely to the commitment of its people. Each employee is passionate about water, but it's our expertise which really set us apart as a company. These qualities have resulted in revolutionary bathroom innovations and pioneering water-saving technologies, yesterday, today and tomorrow.

In 1901, Hans Grohe founded his metalwork business. He was a visionary, recognising the changing role of the bathroom in the home (despite it being a fairly new concept to most at the time).

1928

**Hand shower**

The first shower with a white porcelain handle. This handshower innovation made showering affordable for many households for the first time.

**Shower bar Unica**

Thanks to this revolutionary idea, hand showers could be mounted at a required height

**Tribel**

First design award winning hand shower in many colours and with three spray types.

1981

**ALLEGROH**

The first mixer with the new lever handle, swivel spout and innovative ball mix technique.

2001

**iBox universal**

First and only basic set for all standard and thermostat solutions – a revolution in concealed installation.

2003

**Raindance**

The first hand shower with an XXL shower head, flat silhouette and short handle. The all-rounder becomes a trendsetter.

# New milestones in bathroom innovation

2018

**PowderRain**

A unique shower experience thanks to the soft caress of micro droplets.

2019

**FinishPlus**

High-quality finishes provide a variety of design options.

2021

**RainTunes\***

We combine water with sound, light, imagery and fragrance into one holistic wellness experience.

\* RainTunes is not available worldwide

# Innovation — driving our business and yours

Whether in a new build or renovation, clever products and state-of-the-art technologies will keep you ahead of the competition. Hansgrohe SE registers hundreds of new designs, patents and brands every year, holding 15,000 patents to date. It's the reason we're considered pioneers in the industry. We combine top technical performance with a focus on the needs and enjoyment of the customer. With hansgrohe, you can have confidence that you have technological innovation on your side.

## Our own research and development laboratory

We believe every part of a product is important. From the look, functionality and material of a shower, to the sound it makes as water flows. In our in-house spray laboratory, acoustic experts tirelessly research the perfect water sound. This attention to detail is reflected in over 15,000 active patents. The result is that customers around the world can enjoy more comfort and relaxation in the bathroom.

## Technologies that inspire

The best products enrich people's lives, bringing more comfort and enjoyment. And sometimes, it's the smallest technologies that make the difference. hansgrohe's Select is just one button that brings a new ease of use to the bathroom. Or QuickClean, the clever anti-limescale solution. hansgrohe technologies make taps and showers enjoyable to use and easy to clean.

# Design – collaborating for excellence

Elegant functionality appeals to both the heart and mind, and it's something we specialise in. Our products are consistently award-winning, outlasting fads and instead providing long-lasting value, whether they are found in the home or in a world famous hotel. With over 30 years of collaboration with Phoenix Design, hansgrohe is a leader within the industry, with more than 600 awards collected for our design achievements.

Developers, investors, architects and planners around the world spearhead the most ambitious of projects, ensuring that intelligent and elegant water solutions are always in demand. Our shower and bathroom collections are well known as the very embodiment of design excellence. That's why you'll find them in world class hotels, exclusive sports clubs, royal castles and luxury yachts.

## At home all over the world

# Quality – the highest standards for the longest product life

Install a hansgrohe product, and you know it will be enjoyed for years to come. Offering customers the highest quality at all times is a fundamental part of our philosophy. We have been manufacturing bathroom and kitchen products for over 120 years, and we are proud of our intensive quality control processes, practiced around the world.

Our reliability goes one step further: we offer our end users a fifteen year\* manufacturer's guarantee on shower products.

This manufacturer's guarantee goes far beyond statutory requirements. With this, we provide our sales partners with yet another advantage of using hansgrohe over other brands. We also ensure that we provide assistance to our specialist partners when applying this manufacturer's guarantee.

Your customer will also benefit from the fifteen year parts availability guarantee, which ensures the security of their investment even after a product is phased out.

hansgrohe  
guarantee and  
availability guarantee

hansgrohe produces incredibly advanced technology, but the measurement of quality is a very human endeavour. That's why every single product is carefully checked by human hands before it leaves our factory.

\* For full warranty Terms and Conditions please see:  
[www.hansgrohe.com.au/service/guarantee](http://www.hansgrohe.com.au/service/guarantee)

# Taking responsibility – acting sustainably

We focus on three areas of accountability: **responsible management**, **social action** and **ecological awareness**. We believe this is the only way to be successful, both now and in the future. This is something we put into practice worldwide, and have been doing so for many years. This includes ensuring we have an environmentally conscious production process, and mindfully employing people and other resources.

Klaus Grohe, the founder's son, was an ardent campaigner for sustainability from an early age. He ensured that environmentally-conscious thinking was a core principle at Hansgrohe. As early as 1987, Hansgrohe was one of the first to bring a water-saving shower to the market. From this point on, many projects were undertaken to ensure environmentally and resource-friendly production in our factories.

At Hansgrohe, we are in the process of taking giant steps forward to help minimise climate change. By 2030, our aim is to make the entire company, including our products, climate neutral. To implement this, we carefully choose our raw materials, packaging and logistics based on their climate impact.

# Sports sponsorship – teaming premium athletes with premium products

hansgrohe has been the official title sponsor of the world class cycling team BORA-hansgrohe since 2017. We share the same values and have a similarly global reach: with this international dream team of 29 athletes from ten nations, hansgrohe has helped them to compete in 140 countries around the world. As brand ambassadors, the athletes are on the road for almost 300 days a year.

In 2019, BORA-hansgrohe was the second ranked team in the UCI WorldTour. A highlight of 2021 was the top German team winning the points classification at the Giro d'Italia – largely thanks to superstar Peter Sagan, who won the famous “Maglia Ciclamino” jersey. Find out where, when and who is in the starting position on the website and via social media from hansgrohe and the BORA-hansgrohe team.

# FinishPlus – new surfaces bring new individuality to the bathroom

Today's bathroom increasingly reflects our own personal style. FinishPlus has been developed to provide five new surface designs in

matte and metallic tones, expanding your style options far beyond classic chrome. The high-quality surfaces offer a wide range of design

options, giving you brand new ways of expressing yourself.

**670 Matte Black:** Getting back to basics with black and white contrasts.

**700 Matte White:** Cheeky, unconventional freshness.

**340 Brushed Black Chrome:** A dark, partially reflective surface creates asophisticated aesthetic.

**140 Brushed Bronze:** Soft natural tones and subtle nuances.

**990 Polished Gold Optic:** Glamorous look for aesthetic extravagance.

**000 Chrome:** Timeless classic paired with dainty elegance.

## Finishes

When specifying the surface, each order number (#) has 8 digits, for example 28500, -000 = chrome

More indulgence with a range spray types by hansgrohe

# Spray types – relax or energise with every shower

Different people require different things from the shower. Some look for a relaxing time-out from the world, while others want an energising, refreshing shower experience.

Whatever your customers are looking for, with hansgrohe you will find the right hand and overhead shower, with the right spray type. Products featuring our Select technology provide

particular convenience for your customers.

**PowderRain**  
Revolutionise your daily shower experience with Powder-Rain and transform your bathroom into an oasis of relaxation. Instead of only one jet outlet per nozzle, PowderRain has up to five openings that create thousands of fine and silky micro-droplets that envelope your body.

**Intense PowderRain**  
Intense jets of fine micro-droplets for sensational showering. Intense PowderRain is extraordinarily effective as the number of droplets has been substantially increased to produce an intense, yet velvety soft spray.

Simply scan the code and experience the spray patterns in the video.

**Rain**  
Despite the smaller nozzles on the hand shower and overhead shower, the performance of both are consistently excellent. The Rain spray invigorates and refreshes, making rinsing out shampoo quick and easy.

**RainAir and RainAir XL**  
Relaxing shower rain, which is enriched with air inside the shower head. This makes the water feel exceptionally soft and plump, covering your body with soft beads of water and enveloping you to create a sense of well-being. It's a spray most loved by pleasure seekers.

**IntenseRain**  
It's not just shampoo you can rinse away with ease thanks to IntenseRain water spray. It's perfect for setting yourself up for the day too: wash morning tiredness down the drain – for a refreshing start to the day.

**TurboRain**  
The all-purpose tool for quick, straightforward results: TurboRain is the most powerful of our Rain spray modes and lives up to its name every time.

**SoftRain**  
The gentle SoftRain spray is a treat for soul and skin, whether it's a quick daily shower or a pampering evening indulgence.

**Mix**  
Simultaneously gentle and dynamic. The mix spray combines the rich, soft RainAir spray with the strong, revitalising CaresseAir spray. Soft drops envelop your body, while a warm jet massages the skin. It's a dream combination for daily showering pleasure.

**Whirl**  
A swirling massage spray, which showers away the stresses of the day. This relieves tension, primarily in the neck area and shoulders. The rotating helix jet wanders over the skin, just like a masseur's fingers. The ideal choice for relieving stress or giving yourself a spa-like treatment after playing sport.

**CaresseAir**  
Five strong single sprays combine in a pleasantly revitalising and powerful massage. It's just the thing for post-exercise or after a hard day at work - good as new in minutes.

**Massage**  
A concentrated spray that relieves the stress of everyday life, easing areas of tension. The innovative ring-shaped spray creates an at-home wellness experience like no other.

**Mono**  
A targeted, soothing spray from the centre of the shower-head. The Mono jet's lightness helps you to unwind, making it a perfect spray for relaxing.

**RainFlow**  
An overhead shower with RainFlow creates a waterfall in the bathroom. The effect is a cascade of water on the neck and shoulders, easing tension and bringing total relaxation.

**RainStream**  
The new single sparkling RainStream spray is a crowning achievement for the hansgrohe R&D team. These special overhead shower sprays remain revitalising and intense from head to toe, giving a consistent experience however tall you are.

Make washing-up a breeze

# Spray types – for a streamlined workflow in every kitchen

**Laminar spray**  
Crystal clear waterspray without added air, which prevents splashing and is ideal for filling large containers, like vases, quickly.

**Normal spray**  
Fuller, lighter and softer droplets from an aerated spray, thanks to AirPower technology.

**Shower spray**  
A gently water-saving cleaning spray, suitable for rinsing the sink.

**SatinFlow spray**  
The soft, flat spray is splash-free, making it highly efficient at saving water.

Our experience means more efficiency in the bathroom

# Technology – providing the ultimate ease of use for your customers

## Select

Because sometimes pressing is easier than turning. With our innovative Select technology, a simple touch of a button on the shower or shower control is all it takes to change the spray mode or turn the water on/off for even more comfort while showering, no matter your age.

The idea: a button instead of a lever at the sink. The mechanical Select button simplifies everyday routines, and is robust enough to stand the rigours of everyday life, as our longterm testing proves.

These small changes can have a large impact on how convenient a product is to use, and make them ideal for a multi-generational household.

- Intuitive control at the touch of a button
- Suitable for all age groups
- Mechanical construction for permanent functional safety
- Temperature can be pre-set
- Can even be operated with your elbow or arm

## EcoSmart

Thanks to EcoSmart technology, hansgrohe showers consume up to 60 % less water than conventional products thanks to the addition of air to the spray. This also saves valuable energy.

- Up to 60% less water consumption (shower)
- Water consumption of only 5 l/min (tap)
- Lower consumption means lower energy requirements, and therefore fewer CO<sub>2</sub> emissions
- Lower water and energy consumption for double efficiency

The savings calculator computes how much water and energy can be saved at: [pro.hansgrohe.com/consultation/water-savings-calculator](https://pro.hansgrohe.com/consultation/water-savings-calculator)

Thanks to EcoSmart technology's aeration, our basin taps consume just 5 l/min of water. This saves warm water and energy. All of our basin taps have achieved level A in the home sector: EcoSmart tech- the best possible result.

## QuickClean

QuickClean means flexible silicone inserts on the aerators. Dirt and limescale deposits can be simply rubbed off with your finger with no need to use cleaning products, helping to extend your shower's lifespan.

- Fast and easy cleaning
- Ultra high quality and tear resistant silicone
- For a long lifetime and functionality

## AirPower

Comfort and efficiency don't have to be mutually exclusive and our AirPower showers prove it. An ample supply of air is sucked in via the spray disc of your shower, making the droplets fuller, lighter and softer, increasing water efficiency at the same time.

- Fuller, lighter and softer drops – pure shower pleasure
- Fewer splashes, so less cleaning
- Higher water efficiency thanks to a larger water volume

## XXL Performance

Large-format showers have to be experienced to be truly appreciated. The luxurious hansgrohe design envelops the individual in water, bringing XXL performance to the bathroom.

- Large-format showering sensation
- Higher water efficiency – evenly distributed spray nozzles, for an incomparable shower experience

## Tiltable

You can adjust this overhead shower at an angle to suit the shower area, so that the whole body is soothingly enveloped in water.

- Adjustable shower head to suit the individual
- Angle of adjustments provides flexibility
- Modern installation for contemporary enjoyment

## FastDrain minimises drips

This clever technology significantly reduces dripping from the overhead shower.

- Reduces annoying dripping
- Smarter waterflow inside the shower
- Easier cleaning

## Water regulation

The amount of water can be precisely regulated using the thermostat. Not only does this conserve water, it's great for children, who often find a gentler waterflow more pleasant.

- Precisely regulate the amount of water
- Actively regulate water consumption with the volume control
- Easy operation – suitable for all ages

## Height-adjustable PushSlider

With just one hand, the shower holder can be freely adjusted in height at the touch of a button. For a safe and comfortable shower experience.

- Easy to use with one hand
- More comfort for every generation
- Easily adjustable shower heights experience.

## Pull-out function

Thanks to the pull-out tap, the working area at the sink becomes much larger. It also offers fantastic ease of use, thanks to the magnetic recoil function.

- The pull-out tap extends your workspace
- Easy handling
- Minimalist design for maximum flexibility and freedom of movement

## ComfortZone

Whether you want more elbow room when washing your hands, a comfortable way to wash your hair or just fill containers, the higher the tap, the more flexible your options become. We call the space between the tap and the ceramics the ComfortZone because you can use it however you like.

- The optimal height for every requirement
- The perfect combination of tap and basin
- Reduce unnecessary water spraying through a reliable test:  
**[pro.hansgrohe.com/consultation/comfortzone](https://pro.hansgrohe.com/consultation/comfortzone)**

## Contactless taps

Like many motion detectors, the sensor on our non-contact products reacts to changes in infrared radiation. As soon as it detects the warmth of the hand, water flows, making it economical and hygienic.

- Contactless
- Savings in water and energy
- Maximum hand hygiene – ideal in public spaces

## CoolStart

On standard taps the continuous flow heater or circulation pump starts up immediately when the handle is in the middle position, but with Cool-Start taps the hot water is only added when the lever is moved to the left. This cuts down on energy needs, CO2 emissions and costs.

- Basic setting enables only cold water to flow
- Large energy, and therefore money, saving potential – ideal in business premises
- Special user ergonomics (the lever only needs to be moved to the left for hot water)

# Technologies to make your kitchen chores easier

## Select

Select technology makes using the kitchen tap easier than ever before, because the water can be turned on and off with just one click. You can do that with your elbow or even the back of your hand, keeping your taps clean when you're cooking or washing up.

- Convenient use and optimal water flow
- Stop and start the water flow at the touch of a button during operation
- Can also be operated with an arm or elbow

## QuickClean

QuickClean means flexible silicone discs. Dirt and limescale deposits can be simply rubbed off with your finger – low effort with no need to use cleaning products, extending your shower's lifespan.

- Fast and easy cleaning
- Ultra high quality and tear resistant silicone
- For a long lifetime and functionality

## EcoSmart

Thanks to EcoSmart technology with added air, certain hansgrohe kitchen taps consume only 6 l/min. This reduced water volume means less water needs to be heated up, which also saves valuable energy for your customer.

- Air enriched water for a full, sparkling spray
- Lower energy consumption means fewer CO<sub>2</sub> emissions
- Lower water and energy consumption for double efficiency

## AirPower

AirPower works by drawing in air via the jet outlet. This addition of air enriches the incoming water, making the jet fuller, lighter and softer. AirPower cleverly delivers a high jet volume with less water.

- Fuller, lighter and softer droplets, for an enhanced water jet
- Less risk of splashing
- High efficiency helps to reduce water consumption

## ComfortZone

Kitchen taps with an extra high spout offer additional space, making them ideal for filling large pots and tall vases. For those that swivel, the rotation can be set incrementally up to 360°.

- The optimum height for all needs
- A flexible swivel area prevents over-rotation
- Ultimate freedom to move

## Pull-out function

More flexibility, thanks to the pull-out function. This pull-out tap extends your working area at the sink, making it easier to fill containers or water plants.

- Standard extension max. 50 cm
- The sBox extends the working space to 76 cm

## sBox kitchen

With extendible kitchen taps and sink combi units, the sBox ensures that the hose can be pulled out and stowed away safely and easily. The 52 cm-tall box fits into all standard base units from 74 cm upwards. Alternatively, products can also be purchased without the sBox.

- Smooth and safe retrieval of the hose, without getting in the way of the drawer or waste separation system
- Multiple installation options in the base unit thanks to flexible mounting elements
- For a more organised sink cabinet
- The hose weight in the sBox ensures smooth and quiet use
- Optional accessories:  
An additional spacer rail that allows for installation lower in the cabinet body

## Installation options

### Best placement – vertically below kitchen tap:

The lower brackets are firmly screwed to the base. The upper brackets can be either screwed to or suspended on the rear panel. The mounting elements can be moved and rotated 360°. This makes installation fast and easy.

### Vertically below kitchen tap, tilted backwards or forwards:

The tilted back assembly is recommended if the rear wall is offset to the front or if there are obstacles on the floor. The brackets are all aligned to the front. This way, the sBox can simply be tilted forward and clicked out of all brackets. This enables quick and easy cleaning. The sBox can be tilted backwards or forwards. Maximum recommended tilt angle:  $\pm 20^\circ$ .

### At the back of the rear wall, tilted sideways:

Laterally tilted installation is an option where there are obstacles on the ground such as waste pull-out or drainage systems, or when angle valves are difficult to access. The brackets can be screwed to the base, sides or rear panel. Maximum recommended tilt angle:  $\pm 20^\circ$ .

### Tilted and offset on the side wall:

The installation on the side panel is ideal for corner sinks, sinks with draining boards or sinks with tap holes that are positioned to the side. All the brackets are screwed to the side. You should avoid parallel displacement of the sBox. If displacement is required for the installation, there must not be more than 30mm between the tap and outlet axis of the sBox.

EUROPEAN CONNECTION PLUG

**Electronic basin mixer with temperature pre-adjustment mains connection 230 V**

- ComfortZone 130
- projection 127 mm
- flow rate: 5 l/min
- theft-proof aerator
- temperature limitation adjustable
- temperature pre-adjustable
- suitable for continuous flow water heaters
- infrared sensor technology
- automatic environmental adjustment of infrared sensor
- adjustable optical range of infrared sensor (2 settings)
- European connection 230 V / 50 Hz mains connection
- hygiene rinse activatable (automatic water flow for 10 seconds every 24 hours following the last operation)
- permanent rinse activatable (single water flow for 180 seconds, suitable for thermal disinfection)
- manual water stop for washbasin cleaning
- functional restriction due to too large distance
- performance may be impaired if the sensor is obscured by the design of the wash basin, or when the wash basin is oversized and the distance between sensor and the wash basin edge is larger than 75 mm
- connection dimension: DN15
- TÜV certified
- scope of supply: with two filter units with fine filter to protect from incoming dirt, for assembly on existing angle valves. Filter element can be removed and cleaned, non-return valve
- dirt filters in the connection hoses

# iBox universal 2. Efficient installation offering maximum flexibility.

Every installation becomes child's play with the hansgrohe finish sets and the iBox universal 2. The innovative base set for concealed thermostats ensures quick and simple installation. If the thermostatic mixer needs to be replaced further down the line, this is also not a problem – all finish sets can be replaced by another without major effort. The iBox universal 2 is compatible with all current finish sets, such as the ShowerSelect Comfort or Ecostat Comfort thermostatic mixers. Older mixers and thermostatic mixers can also be used with the iBox universal 2 with the help of a special adapter plate.

With the new iBox universal 2 and the new finish sets, installation is twice as fast compared to the previous model:

**“The time saved on the job site is huge, during both initial installation and final assembly at the end.”**

Maiko Weinhardt, Hiller Sanitär- und Heizungstechnik KG, Germany

## iBox universal 2 at a glance:

Finish set options for the iBox universal 2:

**1 Mounting ring**  
Installation in, on or in front of the wall. The mounting ring can be placed on the front or back.

**2 Box made of EPP foam**  
Versatile: polypropylene is sound-absorbent, insulating, waterproof and recyclable.

**3 Sliding sleeve**  
The sliding sleeve is easy to slide, regardless of the installation depth.

**4 Pre-assembled sealing foil**  
Elastic and reliable: firmly attached to the sliding sleeve, the pre-assembled sealing foil will not go missing.

**5 Pre-assembled function block**  
The durable connection block made of high-quality metal enables safe, fast installation.

**Watch the installation video**

## Basic sets and wastes

### Basic sets

#### Basic set iBox universal 2

- suitable for all new shower, bath tub and thermostat finish sets for concealed installation (ShowerSelect Comfort, DuoTurn) in conjunction with adapter plate (# 13588000) compatible with other concealed shower, bath tub and thermostat finish sets
- material: dezincification brass, EPP foam, heat and sound insulating
- connection thread: Rp 1/2
- connection dimension: DN15
- rotationally-symmetric installation
- sound-decoupled installation
- flexible mounting ring for different mounting situations
- mounting ring adjustable in 5 mm steps
- mounting ring suitable for front and rear installation
- no shortening necessary thanks to sliding sleeve
- support aid for the spirit level
- integrated spirit level for correct horizontal and vertical alignment
- sealing foil permanently fixed
- power supply: M16 flexible conduit
- minimum mounting depth: 80 mm
- maximum mounting depth: 108 mm

**Aquino Select M81**

**M81 Single lever kitchen mixer 170, pull-out spout, 3 jet, sBox**

- consists of: single lever kitchen mixer, hose box, multifunctional strainer
- ComfortZone 170
- swivel range adjustable in 3 steps 60°, 110° or 150°
- laminar spray and shower spray, SatinFlow
- change between SatinFlow and pull-out spray at the touch of a button
- lockable shower spray, spray returns through pressing spray diverter
- MagFit magnetic shower support
- connection dimension: DN15
- ceramic cartridge
- connection type: G 3/8 connections (G 1/2 adaptors provided in the box)
- integrated non-return valve
- sBox for quiet, smooth and protected hose guidance in the cabinet, under the countertop
- tap hole with Ø 35 mm required, recommendation: the middle of tap hole drilling should be max. 45 mm from the back side of the bowl
- diverter function will not work where water pressure exceeds 5 Bars (500kpa)
- **Important Note: Per Australian Standard 3500, operating water pressure must not exceed 500 kpa. The diverter function is designed to operate only within these water pressure standards. Not suitable for continuous flow water heaters**
- <0.25% lead as per Lead Free Watermark certification

# General Terms and Conditions of Business of Hansgrohe Pty Ltd

As of: June 2021

## I. Applicability

1. Unless expressly agreed in writing otherwise, these General Terms and Conditions of Business ("GTC") of Hansgrohe Pty Ltd ("Seller") shall apply to all contracts for the supply of goods by the seller to a customer (the Buyer). The Buyer warrants and represents that it is purchasing goods from the Seller in the course of Buyer's business for resupply to its customers.
2. The GTC together with the specific terms contained in an accepted order constitute a contract between the Seller and the Buyer. In the event of any conflict between a term of the GTC and the terms of an accepted order, the terms of the accepted order shall prevail

## II. Formation of contract

1. Any quotation prepared by the Seller is not an offer and it may be withdrawn or altered without notice. Submission of an order by the Buyer constitutes an offer that may be accepted by the Seller unless the order is revoked in writing prior to acceptance. The Seller is under no obligation to accept any orders from the Buyer and the Seller may do so in its absolute discretion.
2. In the event of any dispute as to the terms of an order, the documents provided by the Seller during the order process, such as images and drawings, as well as technical details and specifications, shall be decisive.

## III. Scope of delivery, transportation and passing of risk

1. Delivery of the goods will be to the agreed point of shipment. The risk in the goods shall pass to the Buyer on shipment of the goods. If the shipment is delayed by the conduct of the Buyer or due to circumstances for which the Seller is not culpable, then the risk shall pass to the Buyer upon notification by the Seller of readiness for delivery.
2. To the extent not otherwise stipulated, the Buyer shall take out transportation insurance at its own expense on the basis of customary terms and conditions therefore, which insurance shall cover transportation risk of the goods encompassed by the order from the place of shipment to the stipulated destination location. The expenses of transportation shall be borne by the Buyer.
3. In the event that an agreement is reached on trade terms, the latest version of Incoterms shall apply.
4. The Seller, acting reasonably, shall have the right to make partial deliveries and issue partial invoices prior to the expiration of the delivery deadline.
5. If the shipment or the delivery of the goods is delayed at the wish of the Buyer or due to circumstances which originate in the Buyer's sphere of risk and responsibility, then the Buyer will be liable on demand to reimburse the Seller for any loss arising from the delay in delivery. This may include without limitation any warehousing expenses that have arisen, as well as the costs of interest on the capital invested in the goods. Notwithstanding the foregoing, the Seller shall have the right, after setting a reasonable deadline to dispose of the goods and to deliver substitute goods to the Buyer within a reasonably extended deadline or to cancel the contract.
6. Seller will procure that the products shipped by Seller to the Buyer comply with the laws and regulations of the country / countries designated by the Buyer. In case the Buyer - after receipt of the products - exports the products to third countries it is the obligation of the Buyer to make sure that the products comply with the applicable local laws and regulations of such countries with regard to the products. If, however, the Buyer chooses to export products to third countries, the Buyer is solely responsible for any and all liability resulting from any non-compliance of the products.

## IV. Delivery deadlines and operational disruptions

1. A delivery deadline shall not commence until after the Seller has received all information required to effect the delivery and until after any applicable down payment has been made. A delivery deadline is complied with if the delivery is brought to dispatch within the deadline or if notification has been made of the readiness for delivery.
2. Delivery deadlines shall be extended upon the occurrence of any circumstances for which the Seller or its suppliers are not culpable (including, without limitation industrial unrest, force majeure, and other operational disruptions for which the Seller or its suppliers are not responsible or over which the Seller or its suppliers have no reasonable control) for the duration of the operational disruption. The Seller shall inform the Buyer about the prospective operational disruption and set a new delivery date. If the goods are undeliverable even by the new delivery deadline, then both parties shall have the right to cancel the contract, in whole or in part; any consideration of the Buyer's already rendered shall be reimbursed without undue delay.

## V. Prices and ancillary expenses

1. Deliveries shall be effected at the prices current upon entering into the contract, in accordance with the Seller's confirmation of the order. All prices shall be valid ex works/place of delivery. For Buyers resident in Australia, all prices shall be understood to be in Australian Dollars, insofar as not otherwise marked, as well as any statutory import value-added tax and any other taxes as provided by law (e.g., customs duties, fees) in the respectively valid amount. For Buyers resident in New Zealand and Fiji, all prices shall be understood to be in New Zealand Dollars, insofar as not otherwise marked, but excludes any statutory value-added tax and any other taxes (e.g., customs duties, fees).
2. Unless otherwise stated, all prices stated by the Seller are exclusive of GST. In addition to any amounts payable by the Buyer to the Seller, the Buyer must pay to the Seller an additional amount on account of GST.
3. The Seller will issue the Buyer a tax invoice in the form required by the GST Law where applicable.
4. The Buyer must pay GST, without deduction or set off of any other amounts, at the same time and on the same basis as the Buyer pays the price for the goods.
5. The Buyer indemnifies the Seller for any loss that the Seller may incur as a result of the incorrect payment or non-payment of any GST and associated fees or penalties.
6. If the Seller becomes liable for any penalties or interest as a result of a late payment of GST, where that late payment is as a direct result of a failure of the Buyer to comply with its obligations under the GTC, the Buyer must pay to the Seller an additional amount on demand equal to the amount of those penalties and interest.
7. The Seller reserves the right to reasonably raise the stipulated prices for a time period of more than four (4) months if, after entering into the contract, increased costs occur, including, but not limited to, those due to collective bargaining agreements, market-based acquisition prices, or increases in the price of materials. These shall be substantiated upon demand to the person or party placing the order.
8. Unless agreed otherwise, for Buyers resident in Australia, delivery terms are FIS (Free into Store) subject to minimum order values as stated in the agreed Terms and Conditions with the Seller, below which, a delivery surcharge shall be added to the invoice which the Buyer is liable to pay the Seller. Any costs and fees for express delivery of goods requested by the Buyer, shall always be borne by the Buyer.
9. For Buyers resident in New Zealand and Fiji, the Buyer is liable to pay a freight surcharge according to the mode of delivery.

## VI. Payment and default

1. Payments are to be rendered to the Seller without any deduction, as specified in the invoice (unless otherwise pre-agreed by the Seller in the Terms and Conditions with the Buyer), immediately after receipt of the invoice and delivery of the goods to the Buyer, unless credit terms are granted in the terms and conditions agreed with the Buyer. The Seller shall, however, at all times (for example for large project orders or credit limits being exceeded or account overdues), have the right to require pre-payment before any obligation to deliver the goods arises. The Seller, acting reasonably, may determine the method of payment. If the Seller in its discretion decides to accept payment by cheque, payment shall only be deemed to have occurred after the cheque has been redeemed. The Buyer may not deduct, and must bear, any expenses (including bank charges) that may apply in respect of a particular method of payment. The Seller may offset any payment received by the Buyer against any debt owned to the Seller by the Buyer.
2. In the event of a payment default, the Buyer shall be liable for statutory default interest charged.
3. The Buyer shall be entitled to rights of setoff vis-à-vis the Seller's claims only if the counterclaim is undisputed or has been judicially determined. This provision shall not apply to the extent that the counterclaim directly concerns the Seller's primary performance duty arising from the same contract.

## General Terms and Conditions

4. Any assignment of claims shall require the consent of the Seller.
5. If, after entering into the agreement or after delivery of the goods, the Seller forms the view that the Buyer is not or is no longer creditworthy, for example if any invoices despite reminders have not been paid; or the Buyer is subject to an Insolvency Event, then the Seller shall be able to immediately assert claims even for receivables not yet mature and for such receivables for which a cheque was given. In these instances, for still-undelivered goods the Seller shall be able to demand pre-payment, the rendering of a security, or delivery based solely upon cash-on-delivery. If the Buyer does not comply with this demand within the reasonable deadline established for it, then the Seller shall have the right to cancel the contract.

### VII. Retention of title

1. The Seller shall retain title to the delivered goods until full payment in respect of the goods has been received by the Seller.
2. To secure payment of the monies due to the Seller under the GTC, the Buyer grants a Security Interest in the purchased goods and the proceeds of sale of those goods to the Seller. Any proceeds of sale of the goods must be held on trust for the Seller and kept separate from the Buyer's own funds until full payment of the goods has been received by the Seller.
3. While any amount or obligation of the Buyer under the GTC remains unsatisfied, the Buyer:
  - a. authorises the Seller (at the sole cost of the Buyer) to do anything which the Seller considers reasonably necessary or desirable to effect the registration of its Security Interest on the Personal Property Securities Register to ensure that it is enforceable, perfected and otherwise effective and the Buyer agrees to provide all assistance required by the Seller to facilitate this;
  - b. for Buyers resident in Australia, must not assign or grant a security interest over any accounts or other proceeds relating to the sale of the goods and must immediately provide the Seller with a copy of any notice the Buyer receives under section 64 of the Personal Property Securities Act 2009 (Cth) (PPSA AU);
  - c. irrevocably authorises the Seller to repossess any or all of the goods, to enter upon any premises where the Seller reasonably believes any of the goods are located and remove them and obtain any necessary consent from any other person to enable this to occur; and
  - d. acknowledges that the Seller may immediately upon the Buyer breaching these Terms (or any other agreement between the Seller and Buyer relating to payment for any goods that are subject to a Security Interest granted to the Seller under these terms) take any action to enforce its Security Interest without demand or notice (to the extent permitted by law).
4. To the extent the law permits, the Buyer agrees to waive its rights to receive from the Seller any notice required to be provided under the PPSA AU and agrees that sections 142 and 143 of the PPSA AU do not apply to these Terms and that the Seller need not comply with sections 95, 125, 130, 132(3)(d), 132(4) of the PPSA AU.

### VIII. Limitation of liability

1. Subject to clause VIII 5 and any other applicable legislation:
  - a. Under no circumstances will the Seller be liable to the customer for any indirect and consequential loss, loss of revenue, profits, anticipated savings, goodwill or business opportunity, injury to the Buyer's reputation.
  - b. Subject to clause VIII 2. the Buyer acknowledges and agrees that the Seller, its employees, contractors and/or agents will not be liable to the Buyer for any loss howsoever arising including from breach of contract, under tort, under statute or otherwise.
2. Clause VIII 1. b. does not apply to any liability for death or personal injury to the extent caused by the Seller's negligence or willful misconduct.
3. The Seller's liability to the Buyer for loss or damage of any kind is reduced to the extent (if any) that the Buyer causes or contributes to the loss or damage. This reduction applies whether the Seller's liability is in contract, tort (including negligence), under any statute or otherwise.
4. The Seller excludes to the fullest extent possible under law, all implied terms and warranties whether statutory or otherwise.
5. For Buyers resident in Australia, in circumstances where the Consumer Guarantees are applicable, to the maximum extent permitted by law the Seller limits its liability for a breach of a Consumer Guarantee to replacing the relevant goods or refunding the price of the relevant goods (at the Seller's election) in accordance with section 64A of the ACL.
6. For Buyers resident in New Zealand, the Consumer Guarantees apply where the Buyer acquires the goods as a Consumer. In circumstances where the Consumer Guarantees are applicable, and the Buyer is buying for a business purpose then to the maximum extent permitted by law the Seller limits its liability for a breach of a Consumer Guarantee to replacing the relevant goods or refunding the price of the relevant goods (at the Seller's election) in accordance with section 43 of the CGA.

### IX. Returns

1. Goods delivered by the Seller that are not defective shall not be taken back, unless there exists an appropriate claim of the Buyer.
2. If, by way of exception in the individual case, the Seller in its absolute discretion decides to accept a return of goods that are not defective, then, to the extent permitted by law, appropriate recompense (30% of the purchase price paid by the Buyer for the Goods) shall be levied for this purpose within the framework of a corresponding agreement. Further recompense shall be applicable as determined by the Seller, if the returned Goods are received not in original condition but with damage or missing parts. The risk of transportation and the costs of transportation shall be borne by the Buyer.

### X. Rescission of the purchase contract

1. In the event of rescission of the contract (e.g., due to cancellation of one of the contracting parties), the Buyer shall be obligated, irrespective of the remaining process as contemplated under the following paragraphs, to surrender the goods to the Seller in advance. The Seller shall have the right to have the deliverable picked up from the Buyer's premises.
2. Furthermore, the Seller shall be able to demand reasonable compensatory payment from the Buyer for any deterioration or destruction of the goods, or anything occurring or having occurred that renders surrender of the goods impossible for another reason, which is caused by any wrongful act or omission of the Buyer. In addition, the Seller shall be able to demand compensatory payment for the use or the usage of the goods if the value of the goods has declined between the completion of its installation and its completed, immediate repossession by the Seller. This decline in value shall be computed from the difference of the total price in accordance with the order and the current fair value as it is determined by the sales proceeds or, if a sale is not possible, through the estimate of a sworn expert.

### XI. Assignment

No assignment of rights and/or transfer of the obligations of the Buyer arising from this contract shall be permissible without the written consent of the Seller

### XII. Export control provisions

1. The goods may be subject to the export control provisions of the Federal Republic of Germany, of the European Union, of the United States of America, or of other countries.
2. In the event the goods are subject to export control provisions as referred to in clause XIII 1, the Buyer shall be responsible for compliance (including all costs of compliance) with the provisions of any applicable law relating to the export of the goods.

## General Terms and Conditions

### XIII. Place of jurisdiction and applicable law

1. The law of Victoria, Australia shall apply to these GTC and the contractual relationship between the parties, to the exclusion of uniform international law, including, but not limited to, United Nations Sales of Goods law. The law of Victoria, Australia shall also apply to extra-contractual debt relationships standing in close connection with the contract.
2. The exclusive place of jurisdiction for any and all disputes, claims and controversies arising from or relating to this contract shall be Victoria Australia.

### XIV. General

1. Any provision of the GTC which is unenforceable or partly unenforceable is, where possible, to be severed to the extent necessary to make the GTC enforceable.
2. A provision of the GTC must not be construed to the disadvantage of a party merely because that party was responsible for the preparation of this agreement or the inclusion of the provision in this agreement.
3. The meaning of any general language used in the GTC is not restricted by any accompanying example, and the words 'includes', 'including', 'such as', 'for example' or similar words are not words of limitation.
4. For the purposes of the GTC:
  - a. ACL means schedule 2 of the Competition and Consumer Act 2010 (Cth).
  - b. CGA means the Consumer Guarantees Act 1993 (NZ).
  - c. Consumer has the meaning given in the ACL or the CGA as applicable
  - d. Consumer Guarantees means the statutory guarantees in Division 1 of Part 3-2 of the ACL, or as set out in the CGA, as applicable
  - e. GST means a tax, levy, duty, charge or deduction, together with any related additional tax, interest, penalty, fine or other charge, imposed by or under the relevant GST Law.
  - f. GST Law means A New Tax System (Goods and Services Tax) Act 1999 (Cth) for sales in Australia Goods and Services Tax Act 1985 for sales in New Zealand.
  - g. Insolvency Event includes the winding up, dissolution or cessation of business, the appointment of an administrator, liquidator, receiver or an official manager, an assignment for the benefit of creditors, scheme or arrangement with creditors, insolvency and bankruptcy of a person or any similar procedure.
  - h. PPSA means the Personal Property Securities Act 1999 (NZ).
  - i. PPSA AU means the Personal Property Securities Act 2009 (Cth)
  - j. Security Interest has the meaning attributed to that term in the PPSA or the PPSA AU as applicable.

[Hansgrohe Pty Ltd, Level 10 , 530 Collins Street, Melbourne VIC 3000, Australia]

# Warranty

Effective from 1 July 2021

## 1. Warranty terms & conditions

We thank you for your purchase of Hansgrohe products. Offering our customers the highest quality at all times is a fundamental part of the Hansgrohe company philosophy. Hansgrohe therefore offers consumers a voluntary warranty on Hansgrohe products in Australia, New Zealand & Fiji according to the details in these warranty terms and conditions. Please refer to Clause 6 herein on how to submit a warranty claim.

## 2. Glossary & Definitions

- "Authorized Dealer" shall mean the authorized dealers / distributors of Hansgrohe Australia, New Zealand & Fiji, listed on its website - [www.hansgrohe.com.au](http://www.hansgrohe.com.au) and [www.axor-design.com/au](http://www.axor-design.com/au);
- "Customer" shall mean the original end customer or first customer who purchased the product from the Authorized Sales Channel of Hansgrohe Australia, New Zealand & Fiji;
- "Hansgrohe" shall mean Hansgrohe Australia Pty Ltd having its registered office at Office Unit 4/71 Victoria Crescent Abbotsford, Victoria, 3067; Australia.
- "Products" shall mean products manufactured by or on behalf of Hansgrohe that bear a trademark owned by Hansgrohe;
- "Invoice" shall mean the invoice issued by the Authorized Dealer for a product purchased by the customer;

## 3. Warranty Conditions

- Hansgrohe provides the following warranty terms and conditions for all Hansgrohe products purchased in Australia, New Zealand & Fiji from an authorized dealer for use in domestic or commercial installations. Any product purchased through unauthorized dealer or from other sources or imports are not covered by this warranty terms and conditions as products purchased otherwise may not meet local regulations
- Hansgrohe guarantees customers that its products are free from material, manufacturing and design faults. The defect giving rise to the damage must already have been present in the product at time of manufacture. These warranty terms and conditions shall be void for the following reasons:
  - Non-compliance with the installation, maintenance and usage instructions;
  - Damage caused by debris and sediment from water supply pipes.
  - Installation, maintenance, repair or servicing by non-qualified persons;
  - Product damage caused by the seller, plumber, customer or third persons;
  - Damage that can be attributed to normal wear and tear or intentional damage - in the event of negligent damage, contributory negligence shall be offset on agreement;
  - Improper installation or commissioning;
  - Insufficient or improper maintenance;
  - Products that have not been or are not used in line with their intended purpose;
  - Damage caused by force majeure or natural disasters, especially but not limited to floods, fires or frost damage;
  - Product is purchased from unauthorized dealer;
  - Product was not purchased by the Customer as a brand new product;
  - Products not installed to relevant National Standards and State Regulations.
  - Product has been exposed to harsh or abnormal environmental elements;
  - Product has been serviced or repaired with non-standard or non-Hansgrohe replacement parts
  - In accordance with AS3500 clause 3.3.4, operating water pressure in a building shall not exceed 500kPa. Water supply pressures that exceed 500kpa will cause damage to installations and fittings. In this situation pressure-limiting valves should be installed. Where the water pressure is greater than 500kpa, Hansgrohe and its agent / dealers reserve the right not to accept warranty claims.
  - Modifications to the products.
  - Failure to regularly clean or replace dirty or blocked outlet aerator inserts in tapware and/or shower heads etc.
  - Product's surface has been damaged as a result of adhesives, sealants or abrasive cleaners.
  - Failure to observe manufacturers maintenance and care instructions.
- These warranty terms & conditions remain applicable only if the customer has ensured the product
  - has been used in accordance with the terms of this warranty terms;
  - has not been improperly or negligently handled;
  - has not been damaged prior to installation;
  - has been installed according to the instruction manual;
  - the Product has all of its components installed;
  - has received required maintenance and cleaning. Please see care and cleanings tips under chapter 7.
- This warranty terms & conditions commences on the earlier of:
  - the date of purchase for domestic customers;
  - the project handover for commercial customers;It will continue for the relevant periods set out in the warranty period tables below.
- Hansgrohe is not responsible for other incidental or consequential costs. Hansgrohe is not responsible or liable for any special or consequential damages due to the defective product, or due to defects of any component or part thereof and in no event shall the liability of Hansgrohe exceeds the purchase price of the product.
- This warranty terms and conditions are only valid if the original sales / purchase tax Invoice is provided with the claim. This warranty is not transferable and confined to original purchaser / first purchaser of the product only. Customers are therefore required to keep the original invoice and of product safely.
- In the event of non-availability of components or parts due to any reason, neither Hansgrohe nor its Authorized Dealer will be responsible or liable for any delay that may be caused to service / repair of the product. In case of product obsolescence, a suitable replacement will be chosen based upon the features, the intended use and the retail price of the original product. In the event of product obsolescence Hansgrohe cannot guarantee the same color or aesthetic attributes as the original product.
- For Hansgrohe products sold in Australia, New Zealand and Fiji, only this warranty document is applicable. Any reference to any other warranty document will not be considered. The warranty does not cover any accessories external to the product. Warranty is valid and applicable to the products which are licensed for sale and purchased in these markets through an authorized Dealer only.
- Our goods come with guarantees that cannot exclude the Australian or New Zealand Consumer Law or other respective national legislation. Nothing in this warranty has the effect of excluding, restricting or modifying those rights

## 6. How to make a warranty claim?

Should any of our Products not perform to the warranty terms provided herein, please contact:

### In Australia:

Tel: 03 8319 5753

Email: info@hansgrohe.com.au

### In New Zealand and Fiji:

Contact the Authorised Dealer where you purchased the product from.

Warranty related labour, if required, is provided by the authorized dealer from whom the purchase was made.

Hansgrohe reserves the right to determine any issue or uncertainty in connection with the warranty.

## 7. Product care and cleaning

7.1. Always test your cleaning solution on an inconspicuous area on the product before applying to entire surface.

7.2. Do not allow harsh cleaners to sit or soak on the product.

7.3. Wipe surfaces clean and rinse completely with water immediately after applying cleaners

7.4. Clean the fitting with just a mild detergent (such as dish-washing soap) and a damp cloth, then simply rinse off and wipe dry; you can prevent lime scale by drying the fitting after each use. We strictly do not advise the use of solvents or acidic cleaners, lime scale removers, household vinegar and cleaning agents containing acetic acid - they will attack the surface and leave your fitting looking dull and scratched.

7.5. Use a soft, dampened sponge or cloth to clean, never use abrasive material like a bristle brush or scouring pad

7.6. Wherever gold or platinum metal is used on products, use only warm water to clean and then dry the surface with a soft cloth

7.7. Never use cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes alcohol, solvents or other products not recommended for chrome.
