# Spray modes

We've been around for long enough to know that not every showering experience is the same. Sometimes you need more than just a quick wash... sometimes, you need indulgent relaxation after a long, busy day. Your shower should be as unique as you. So, whether you need energising or soothing, Select Technology can deliver you the perfect spray mode at the touch of a button.

NEW

## POWDERRAIN

Inspired by the warm, misty droplets of the rainforest, PowderRain introduces an entirely new way to indulge in water. Thanks to six fine openings in every jet outlet, water is transformed into a cocoon of spray, which is both all-enveloping and supremely quiet. It truly is a showering experience unlike any other.

NEW

## INTENSE POWDERRAIN

The number of droplets is substantially increased for Intense PowderRain to produce a powerful, yet velvety soft spray that minimises splashing.

## RAIN AND RAIN XL

The openings on the hand or overhead shower may be small, but they are mighty. The pleasantly powerful rain spray revitalises and refreshes as it envelopes your whole body. It's perfect for rinsing out shampoo quickly and thoroughly.

## RAINAIR AND RAINAIR XL

Relaxing shower rain, which is enriched with air inside the shower head. This makes the water feel exceptionally soft and plump, covering your body with soft beads of water and enveloping you to create a sense of well-being. It's a spray most loved by pleasure seekers.

## INTENSERAIN

It's not just shampoo you can rinse away with ease thanks to IntenseRain water spray. It's perfect for setting yourself up for the day too: wash morning tiredness down the drain – for a refreshing start to the day.

#### **TURBORAIN**

The all-purpose tool for quick, straightforward results: TurboRain is the most powerful of our Rain spray modes and lives up to its name every time.

#### **SOFTRAIN**

The gentle SoftRain water spray wraps itself around the body, treating your skin and your soul. The SoftRain spray comes into its own during a quick morning shower and during a long soak in the bath after a hard day.

#### **MIX**

Simultaneously gentle and dynamic. The mix spray combines the rich, soft RainAir spray with the strong, revitalising CaresseAir spray. Soft drops envelop your body, while a warm jet massages the skin. It's a dream combination for daily showering pleasure.

#### **WHIRL**

A swirling massage spray, which showers away the stresses of the day. This relieves tension, primarily in the neck area and shoulders. The rotating helix jet wanders over the skin, just like a masseur's fingers. The ideal choice for relieving stress or giving yourself a spa-like treatment after playing sport.

#### **CARESSEAIR**

Five strong single sprays combine in a pleasantly revitalising and powerful massage. It's just the thing for post-exercise or after a hard day at work – good as new in minutes.

#### **MASSAGE**

A concentrated spray that effortlessly washes the day's stress away. The targeted spray relaxes tense areas, while the innovative circular arrangement of the jets turns the shower into a mini-wellness treatment for your bathroom.

#### **MONORAIN**

A targeted, soothing spray from the centre of the showerhead. The Mono jet's lightness helps you to unwind, making it a perfect spray for relaxing.

#### **RAINFLOW**

An overhead shower with beautifully shaped RainFlow that brings the experience of a waterfall to your bathroom. This is water in its natural form, falling from above onto your neck and shoulders.

#### **RAINSTREAM**

The new single sparkling RainStream spray is a crowning achievement for the hansgrohe spray developers. These special overhead shower sprays remain revitalising and intense from head to toe, giving a consistent experience however tall you are.

All specified flow rates are based on an operating pressure of 0.3 MPa (3 bar).

## Select

### Convenience at the touch of a button

hansgrohe Select is on hand to make your everyday routines simple, and your bathroom and kitchen easy to use by any member of the family. We've integrated push button technology into a variety of our products, so you can use our patented Select button to turn on your shower, change the spray type or even turn your kitchen tap on and off. With a hansgrohe Select product, you get something that is unbeatably intuitive, reliable and durable.

### Benefits for you:

- Easy operation at the touch of a button
- Operated by finger, elbow or back of the hand
- Functional and reliable
- Preset temperature options

## ComfortZone

### For the freedom to move wherever you like

Plenty of space to move, maximum usability and less splashing at the wash basin: the hansgrohe ComfortZone ensures you get it all, by clearly showing how much space you have between the tap spout and the wash basin. With the ComfortZone, it's easy to find the right tap for you, whether you're looking for something that makes it easy to wash your hands, wash your hair or fill up tall pots.

### Benefits for you:

- Perfect tap height for all situations
- Practical every day
- Easy to configure

# QuickClean

## Rub off limescale quickly and easily

Hard water, dirt, cleaning agents: your bathroom needs to withstand a lot. hansgrohe makes painstaking cleaning a thing of the past, thanks to our QuickClean technology. Now, you can simply rub limescale and other residues off in an instant, so your hansgrohe products will stay in top condition and look great for a long time to come.

## Benefits for you:

- Time-saving cleaning
- High-quality, tearproof silicone
- Permanently flawless functionality and long service life

# EcoSmart

## Save money and be eco-friendly

Water is precious, so why waste it? hansgrohe showers and taps equipped with EcoSmart technology consume up to 60% less water than conventional products. This not only means that you use less water, but also need less energy to heat the water - good news for the planet, and good news for your wallet.

## Benefits for you:

- Reduces your water and energy bills
- Cuts CO<sub>2</sub> emissions
- Constant flow and plump water droplets

# Technologies

## AirPower

### For a light, luxurious sensation

With AirPower, it's possible to increase the enjoyment of your shower, while simultaneously reducing the amount of water you use. This is thanks to hansgrohe's innovative technology, which enriches each water droplet with air, making it feel more lush and full-bodied against your skin.

### Benefits for you:

- Fuller water jet
- Less water consumption
- Light, luxurious feeling

## XXLPerformance

### Incredibly indulgent showering

They say bigger isn't always better, but that's not true of XXL Performance. The huge showerhead allows water to cascade in an extra-wide radius. Plus, EcoSmart ensures your saving is just as big as the indulgent sensation.

### Benefits for you:

- Extra-large spray surfaces
- Summer rain effect
- Effective use of water

# CoolStart

## Turn right to save energy

On standard taps, the continuous flow heater or circulation pump starts up immediately when the handle is in the middle position, but that's not needed if you only require cold water. On CoolStart taps from hansgrohe, only cold water flows initially, meaning your pipes aren't filled with hot water unnecessarily. And if you do want hot water, just move the lever to the left for hot water to be added.

## Benefits for you:

- Only cold water will flow in the basic setting
- Big savings
- Easy and ergonomic

#### **SIMPLE JET SWITCH-OVER:**

Quickly and accurately fill even the largest of containers with the normal and laminar spray. The additional shower spray is perfect for thoroughly washing fruit, vegetables, fish or other sensitive foods. You can switch between jet types on the shower head with one hand, even when the water is flowing.

#### **CONVENIENT PULL-OUT FUNCTION:**

The pull-out function vastly increases your working radius at the sink. Fill bulky containers, including large pots, on the worktop without the inconvenience of holding them over the sink.

#### **SELECT TECHNOLOGY:**

The convenient Select function enables you to use the kitchen tap at the touch of a button. Water can be paused and restarted with just one click. Even with the back of your hand or an elbow, keeping the tap clean and your hands free.
