Xelu Q from hansgrohe

Copyright: hansgrohe/Hansgrohe SE

The new Xelu Q bathroom furniture from hansgrohe fits every bathroom. With its depth of range, variety of surfaces and smart accessories, Xelu Q ensures chic design, as well as sufficient space and order, both in the family and guest bathrooms.

When the whole family gathers around the washbasin in the bathroom, it's good when the washbasin and the matching bathroom furniture can offer sufficient storage space.

The Xelu Q bathroom furniture range from hansgrohe ensures space and order with its depth, variety of surfaces and many smart accessories. With easy-care materials and gentle geometric shapes, the range can also withstand turbulent everyday family life.

Suitable For Every Bathroom and Every Taste

Slim design, a *Soft Cube* design language, and combination options with hansgrohe's Xelu Q and Xuniva washbasins, make Xelu Q furniture an all-rounder and space-saver for every bathroom.

With different widths from 340mm to 1560mm, Xelu Q furniture creates order - whether in the guest bathroom, in a small space, or in the family bathroom with a double washbasin that offers space for two people at the same time during the morning rush hour.

The combination and planning options for washbasins and furniture is also rich in variety. There is a matching furniture solution for Xelu Q washbasins and selected countertops from the Xuniva ceramic collection. Xelu Q washbasins with Soft Cube shape fit exactly into the rounded outer lines of the Xelu Q furniture program. Xuniva countertop washbasins are available in a variety of shapes, offering even more choices for the individual design of the washing area.

The furniture surfaces of the Xelu Q program blend elegantly into the bathroom or provides a skilful contrast. The diamond grey matt colour variation is particularly recommended for everyday family use. It is dirt-resistant thanks to an additional anti-fingerprint coating. All furniture surfaces are suitable for use in damp rooms and are available in thermoform. There is also a choice of high-gloss white and decorative fronts in natural oak and dark walnut.

Additional accents are set by the metal handles, which are available in chrome, matt black or matt white. Thanks to the shadow gap with a metal cover on the side, towel rails or additional shelves can be easily attached. The shelves, towel holders, as well as the feet, which can be mounted on some cabinet variations, are available in the same three finishes as the handles.

Matching hansgrohe basin mixers simplify planning and guarantee smooth interaction at the vanity. Those who need even more storage space in the bathroom can complement the washbasin solution with matching tall or half-tall cabinets.

Gentle Comfort, Seamlessly Organised Storage Space, Easy Cleaning

The doors and drawers of the Xelu Q furniture program close gently and silently thanks to the Soft Close mechanism.

A plus in terms of storage space are the upper drawers. Thanks to the space-saving siphon included in the scope of delivery, no annoying cut-out for the siphon is necessary. This means that these drawers can be used throughout.

Practical IntraStoris interior dividers in matt black, which are included with the vanity units as basic sets, are made of high-quality plastic providing organisation for cosmetics and bathroom products. In addition, the optional solid wood sets of hansgrohe IntraStoris in natural oak, offer even more order in the drawers.

Individual and Sustainable

The new furniture range not only impresses with its design, but also in terms of sustainability. The DGM, (Deutsche Gütegemeinschaft Möbel e.V.), has awarded the Xelu Q bathroom furniture range the "Golden M", the "Climate Pact of the Furniture Industry" label (CO2 footprint), the "Furniture Made in Germany" seal and the "Emissions Label for Furniture".

The wood components used are from sustainable forestry, and thanks to plastic-free packaging of the furniture, unnecessary plastic waste is also avoided after transport.

Elegant and harmonious: Taps, washbasin and furniture design from a single mould.

The practical IntraStoris interior dividers provide organisational assistance when storing all cosmetic utensils. Further IntraStoris wooden sets are available as optional accessories. In addition, towel holders and practical shelves can be mounted on the side of the vanity unit for even more order.
