Xevolos E Furniture Combines High-End Design and Premium Quality with Extraordinary Functionality

### The Art of Elegance

Copyright: hansgrohe/Hansgrohe SE

A clear, straightforward design language makes Xevolos E bathroom furniture from hansgrohe a timeless and discreet highlight that meets all stylistic demands and functional requirements.

An aesthetic interior design reflects style and personality. Individually planned and equipped to a high standard, the bathroom offers more than just space for daily personal hygiene, it is an appealing space where you can escape from the hectic pace of everyday life, feel good, and relax.

#### Stylishly Combined

Xevolos E furniture is a statement of timeless elegance. The wide range of planning options also reflect today's needs. Featuring vanity units with and without a console, with different widths from 340mm to 1570mm, the furniture and the matching Xevolos E washbasins create space for personal everyday life in the bathroom. For those who need even more storage space, the washbasin solution can be complemented by matching large or small cabinets.

Xevolos E furniture fronts are framed with an aluminum frame for a refined look. There is a choice of finishes and consoles in multi-layer lacquered matt white, matt beige, matt slate grey, and inlays in wood decor, glass, or ceramic.

Individuality can also be created by colour combinations; either simple and elegant in monochrome design, for example, matt beige body with beige metallic front, or contrasting, such as the beige body and structured fronts in dark oak. The inlays are also changeable for longevity, giving customers the option to replace the inlays in future to give the vanity a completely new look.

### Elegance with Functionality

Looking beautiful is one thing, being practical and functional is another. With the hansgrohe Xevolos E furniture range, both go hand in hand.

The Soft Close and Push-Open mechanisms open and close doors and drawers gently and silently. Thanks to the space-saving siphon included in the scope of delivery, no cutout for the siphon is necessary. This means that the storage space can be used throughout.

Practical interior dividers provide a clear overview when storing cosmetics and bathroom products. IntraStoris are included as basic sets with the vanity units, with the option to upgrade to solid wood sets in dark walnut. The bodies and consoles are dirt-resistant thanks to an anti-fingerprint coating. The Xevolos E furniture and washbasins are particularly easy to clean and ideal for the bathroom, utilising materials suitable for damp rooms.

To complete the look, the Xarita mirror collection from hansgrohe ensures a holistic bathroom experience. The angular or round bathroom mirrors complete the wash place thanks to clever functions, such as integrated dimming, memory and automatic switch-off function, and convenient mirror heating. In addition, the Xarita mirror variation with touch icons has indirect lighting in eight freely selectable lighting scenarios that can be individually adapted to personal mood or time of day.

The new furniture range from Hansgrohe not only impresses with its clear and timeless design, but also in terms of sustainability and durability. The bathroom furniture series was awarded the "Golden M" by the DGM (Deutsche Gütegemeinschaft Möbel e.V.). Further awards came from the "Climate Pact of the Furniture Industry" label (CO2 footprint), the "Furniture Made in Germany" seal and the "Emissions Label for Furniture". The wood components are from sustainable forestry and all hansgrohe furniture is packaged plastic-free.

Xevolos E offers a great deal of flexibility when it comes to combining individual furniture modules. Here, a countertop washbasin sits on the matching vanity unit with console top and plenty of storage space in the base cabinets. The IntraStoris interior divider provides even more clarity and order in the drawers. Despite great planning freedom, the washbasin, taps, mirror and furniture always form a formal, harmonious unit for an elegant overall look.

In the Xevolos E furniture range, elegance and functionality go hand in hand. The Push Open mechanism allows doors and pull-outs to open gently and conveniently. This mechanical opening support is especially made for furniture without knobs or handles.
