Latest product launch from hansgrohe matches minimalist design with sustainability

hansgrohe Zesis S - Quiet Design in Noisy Everyday Life

With its minimalist and timeless style, hansgrohe Zesis S transforms every bathroom into an oasis of calm. The design language is characterised by its round and cylindrical shape. An integrated aerator ensures a harmonious flow of water.

The design and functionality of basin mixers is often underestimated, despite their ability to make a significant contribution to the overall ambience of our bathrooms. With the new hansgrohe Zesis S mixer range, the bathroom becomes a place of peace and relaxation.

The minimalist design invites you to leave the hustle and bustle of the day behind and ensures a timeless aesthetic that lasts. Characterised by their round and cylindrical shape, the new range is available in elegant chrome and matt black finishes.

Beauty you can feel

Inspired by a design-oriented approach that puts people at the centre, Zesis S not only promotes visual aesthetics, but also appeals to well-being. The soft shapes and minimalist design have a calming effect, whilst the gentle and efficient flow of water supported by an integrated aerator contributes further to a harmonious atmosphere.

Functionality and environmental awareness combined

Hansgrohe Zesis S focuses on sustainability as standard. Thanks to the integrated [EcoSmart+](#) technology with flow regulation, the mixer reduces water consumption to just four litres per minute at three bar pressure. This saves up to an additional 20% water compared to standard hansgrohe EcoSmart mixers.

Additionally, [CoolStart](#) technology ensures that only cold water flows when the handle is in the centre position, to prevent heating the water unnecessarily when performing minor hygiene rituals.

Easy cleaning

In addition to a reduced, clear design, hansgrohe Zesis offers an uncomplicated cleaning process. Small radii, the absence of a base and the use of high-quality materials make the cleaning routine as convenient as possible.

A comprehensive solution

Zesis S is more than just a product range; it offers a comprehensive solution for the harmonious design of the entire bathroom. The collection comprises various models, including a freestanding bath mixer, which make it possible to achieve a uniform and stylish design in every detail. In this way, hansgrohe Zesis S transforms the entire bathroom into a timeless place of serenity.

-ends-

hansgrohe. Life is waterful.

hansgrohe stands for holistic bathroom experiences that combine water- and energy-saving technologies, intelligent functions and long-lasting quality. With timeless and innovative premium products, the brand supports a sustainable lifestyle and transforms daily water routines into extraordinary experiences.

Driven by a unique pioneering spirit, hansgrohe, together with its long-standing partner PHOENIX, creates living environments and product solutions for bathrooms and kitchens that enrich everyday life with more design, comfort and enjoyment. Within the internationally active Hansgrohe Group, the premium brand hansgrohe manufactures, markets and distributes showers, shower systems, bathroom and kitchen faucets, bathroom accessories, furniture, sanitary ceramics and kitchen sinks worldwide under the hansgrohe brand.
