

A woman with long dark hair is standing in a shower, her eyes closed and hands on her head, enjoying the water. She is positioned in front of a large, square, rain-style showerhead that is spraying water downwards. To her left, a handheld showerhead is mounted on a vertical bar. The shower walls are covered in light-colored square tiles with dark grout. In the background, to the right, there are some green plants. The overall lighting is warm and soft, creating a relaxing atmosphere.

hansgrohe

Life is waterful.

Raindance Alive
**Striking a chord
with your senses.**

[hansgrohe.co.uk](https://www.hansgrohe.co.uk)

"I love the feeling of showering with Raindance Alive."

That's what 9 out of 10 shower testers told us in the smart insights consumer research with 100 participants in July/August 2024.

Raindance Alive. The new award-winning range from hansgrohe.

This is more than a shower. This is an experience that stimulates your senses, lifts your spirits, and enriches your day. All built to a minimalist design style that maximises quality and attention to detail you'd expect from hansgrohe.

Feel the freedom and suit your mood in a personalised showering experience with any one of three sensuous types of spray. Free up even more space for self indulgence thanks to a slimline showerpipe.

Touch the sense of luxury that comes from quality materials and discreet, stylish mode selection buttons.

See the effortless style of removable, easy-clean mesh-effect shower heads. Delight in the pure elegance of a low profile showerpipe control that protrudes 40mm from the wall.

With a choice of six beautiful finishes, whichever Raindance Alive model you choose to welcome into your life, the experience is exceptional. Every time.

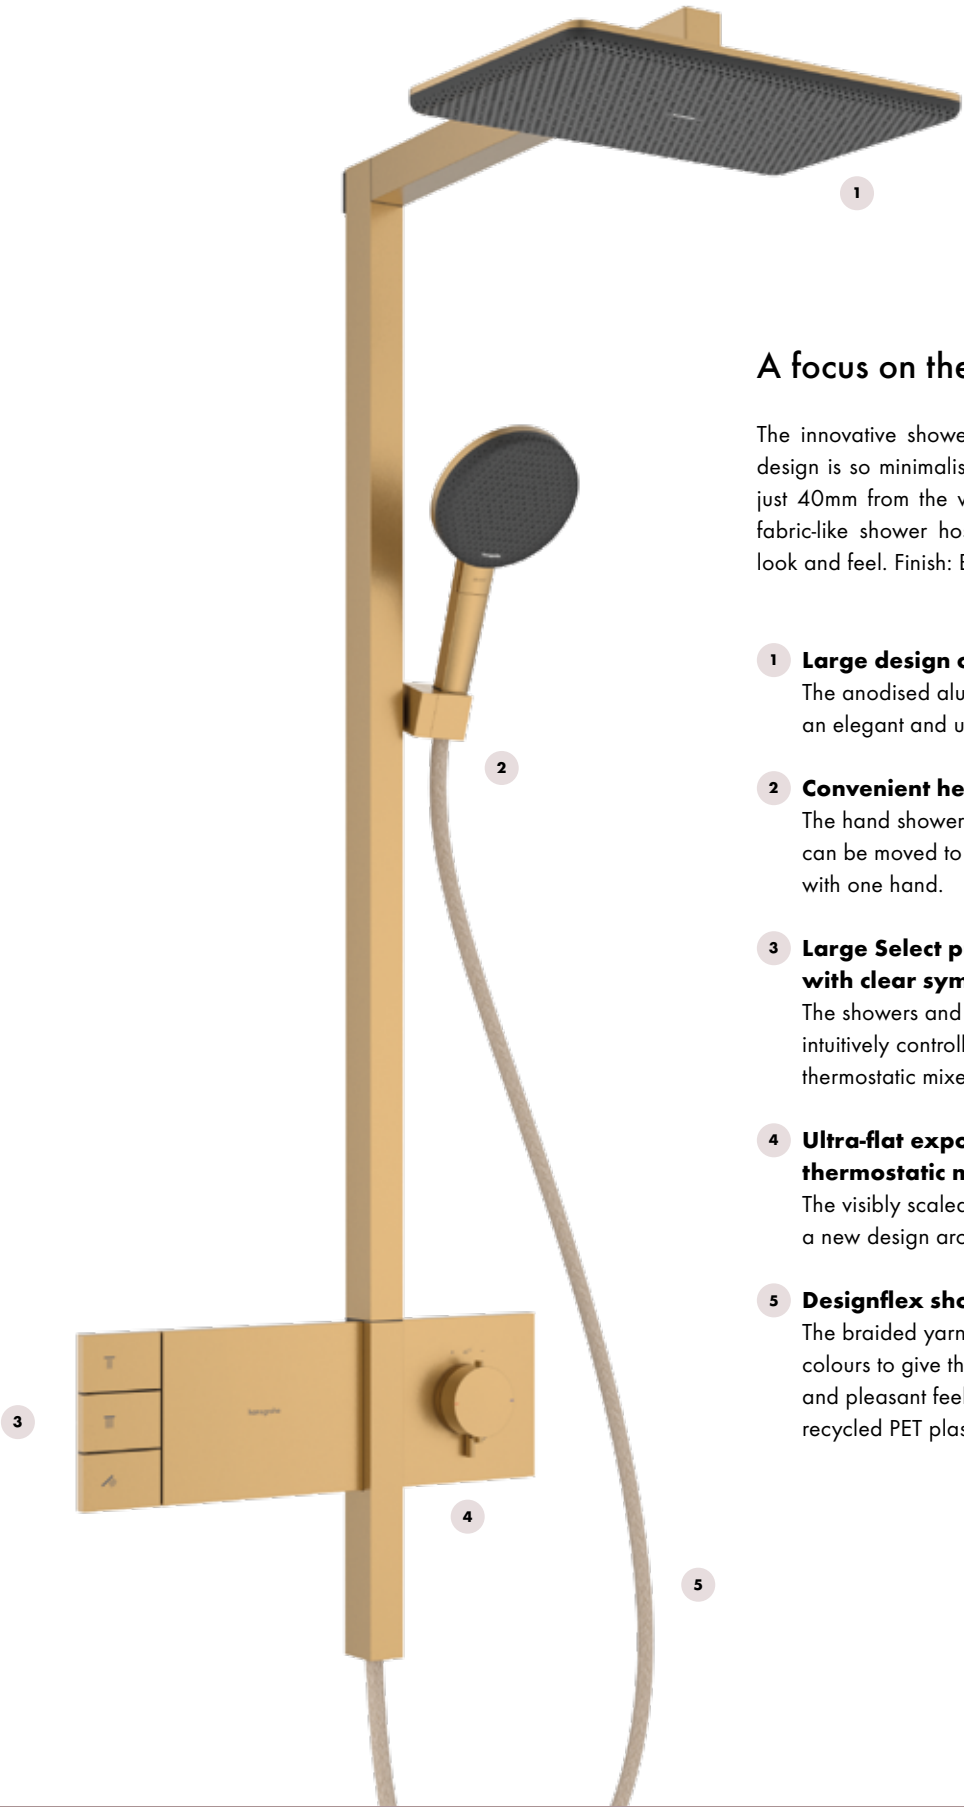

The Raindance Alive Showerpipe - round or square, you decide!

Minimalist design aesthetic, maximum freedom of movement: the exposed installation showerpipe lies so flat against the wall that it looks like a concealed installation. And yet it's simply placed on S connections – perfect for a renovation. Available with a round (S) or soft square (Q) overhead shower, in Chrome or one of five FinishPlus colours.

Express your individuality with a choice of six colours.

A focus on the new showerpipe

The innovative shower system's thermostatic mixer design is so minimalistic and sleek that it protrudes just 40mm from the wall (65mm inc. handle). The fabric-like shower hose enhances the warm, cosy look and feel. Finish: Brushed Bronze.

1 Large design overhead shower

The anodised aluminium cover gives it an elegant and understated look.

2 Convenient height adjustment

The hand shower's minimalist slider cube can be moved to the required position with one hand.

3 Large Select push buttons with clear symbols

The showers and spray types can be intuitively controlled via the metal thermostatic mixer.

4 Ultra-flat exposed installation thermostatic mixer

The visibly scaled-back composition is a new design archetype.

5 Designflex shower hose

The braided yarn features different colours to give the hose its unique look and pleasant feel. The yarn is made of recycled PET plastic bottles.

Water-saving technologies and efficient spray modes.

EcoSmart

Save both money and water

The EcoSmart hand shower consumes 8 l/min thanks to the integrated flow limiter, while the EcoSmart+ model consumes 6 l/min – a potential saving of up to 60%*. The large overhead shower (300mm diameter) consumes 12 l/min, or 8 l/min with EcoSmart. This constitutes a saving of up to 40% water*.

* Compared to hansgrohe showers without EcoSmart

Find out more about EcoSmart

A unique shower experience.

Over and over again.

The round Raindance Alive handshowers (125mm diameter; with Select push button) can fill us with positive emotions or calm us through the regenerative power of water. Depending on the mood, depending on the spray type.

RainAir

Relaxing air-enriched shower rain. Cocooned in gentle pearls of water, we experience a pleasant feeling in the shower that's almost like warm, tropical rain.

PowderRain

Soft rain that feels like our body is enveloped in a cocoon. Thousands of ultra-fine droplets create a pampering and enjoyable shower – perfect for moments of self-care or for thoroughly rinsing out shampoo.

Massage

The powerful spray is perfect for easing slight tension. The hand shower can be used for a targeted massage of specific regions of the body – an act of kindness.

High quality

hansgrohe exclusively manufactures its new premium range from quality materials. The showerpipe is a prime example: from the aluminium profile of the shower rail through the brass body and the zinc coating on the thermostatic mixer to the mesh cover on the overhead shower. The latter is made from elegant, anodised aluminium to make it less susceptible to limescale deposits. All in all, Raindance Alive brings greater beauty, convenience and ease into your life.

Rapid cleaning

Spend your time doing more enjoyable things than cleaning. The mesh cover can be effortlessly removed and any limescale on the silicone nozzles beneath it can be rubbed off in an instant thanks to QuickClean technology. For more stubborn dirt, simply use a mild, citric-acid-based cleaning agent.

Simple installation

Big impact, little effort: in addition to the many benefits relating to enjoyment and design, water savings and cleaning, Raindance Alive products are also characterised by simple installation. Any professional plumber is sure to be delighted to create you a new or renovated shower place so simply and beautifully.

Refreshingly new yet somehow familiar

Raindance Alive features a premium design to satisfy our longing for pieces that look good and improve our quality of life. The mesh-effect design cover gives the shower heads a more fabric-like style, making them look less technical and the bathroom look cosier – especially as this grid finish conceals the spray disc and with it the sprays. This helps the shower to blend into the room for a sensational look and cosy effect.

Raindance Alive is also available as a Puro Pipe
