German Design Excellence Since 1901.

Hansgrohe. Das Original.

Founded in Germany in 1901, we have built a reputation as a leader in technology, design and sustainability. The hansgrohe and AXOR brands offer a large selection of high-quality faucets, showers and shower systems suitable for all requirements and budgets.

Innovative Technologies.

We continuously reinvent products to make the user experience even better, leading to innovations, like Select, that give you intuitive water control at the touch of a button. Select technology is available for showers, shower controls, lavatory faucets, and kitchen faucets.

Award-Winning Design.

We have worked closely with internationally-renowned designers since the 1970s, so it's no wonder we consistently receive coveted design awards: More than 550 international design awards including iF, Design+ and reddot are testament to our commitment to innovation and design excellence.

Water Savings with EcoRight.

At Hansgrohe, every drop counts. Our innovative products and groundbreaking technologies enable you to conserve resources and build sustainably while saving water, energy, and money.

iBox Universal Plus Rough.

One rough to stock, order, install, and service. A designer's best friend, our revolutionary rough gives you more planning freedom and makes specifying shower systems easy.

Quality — Made by Hansgrohe

German quality, assembled in the USA: Our products are designed in Germany by the industry's leading experts, and most of our hansgrohe-branded products are assembled at our North American headquarters outside of Atlanta, Georgia.

Products displaying "ADA" will meet actuation force requirements outlined in the Americans with Disabilities Act and ICC/ANSI A117.1

Shower products and lavatory faucets displaying the WaterSense label meet U.S. Environmental Protection Agency criteria for water efficiency.

WaterSense labeled products perform as well as or better than their less efficient counterparts.

We Are Your Leading Project Partner.

We collaborate with developers, architects, and designers, working on demanding projects all around the world. With over 100 years of expertise, we know what it takes to support you with quality products, outstanding customer service, and smart logistics.

Global Network of Consultants.

Our team of project consultants guides you through the specification and construction processes, whether it's for a project in your city or across the globe.

On-Site Consultations and Inspections.

Our customer service approach extends beyond a phone call or email. At your request, one of our representatives will meet you on site to make sure the job is done right.

Mock-Up Services.

There is no substitute for experiencing our products first-hand. We provide mock-up services and samples, ranging from faucets to shower systems, so specifiers and homeowners feel confident in their product selections.

Technical Resources.

We have the tools you need for easy specification. Download CAD files, specification sheets, images, and more on our website at www.hansgrohe-usa.com.

After Sales Service.

We know service doesn't end after installation. That's why we strive to stock every product's spare parts for years to come. And, when it's time to replace, our universal shower rough allows you to change the trim without additional plumbing.

Customer Service.

With our U.S.-based customer service team and worldwide network of project consultants, your project is in the right hands.
