

Avalegra. A world-first basin and mixer combination.

Your customers' will enjoy hansgrohe Avalegra, the surprisingly impressive combination of basin and mixer in a single unit. The harmonious balance between comfort and uniqueness makes the water experience as invigorating, natural and effortless as possible.

Avalegra can do anything a standard wash basin with mixer can – and so much more. Its new shower function, a parabolic water spray, opens up new ways to use the mixer, transforming water at the wash basin into a spa-like experience.

Not only does Avalegra perform beautifully but also looks impressive with a distinctive design that incorporates cylindrical control dials and an elegant sloping basin.

Available in five FinishPlus designs – Chrome, Matt Black, Brushed Black Chrome, Brushed Bronze and Polished Gold Optic and two sizes 580mm and 780mm – Avalegra can be perfectly paired with a variety of design styles and bathroom furniture.

Avalegra. Introducing
the new spa experience
for your showroom.

Minimalist design for maximum spa feeling.

Design that flows in harmony with the water

Avalegra is a minimalist and premium-quality design unit. With its precise shape, the thin-walled wash basin has a very elegant look. It features a slimline drain and a slope so that the water flows toward the user, almost like being by the shore. The slimline swivel spout meets every need in terms of comfort at the WashPlace.

Avalegra offers versatile installation options including being simply wall mounted or combined with our Xevolos, Xelu and Xilesa furniture.

Designed to focus on the enjoyment of water

The slimline swivel spout with crystal-clear laminar spray offers maximum room to move and directs the water to exactly where it's needed.

The first hansgrohe basin tap with a thermostat protects you against temperature fluctuations. The volume, temperature and spray type can be conveniently controlled using two cylindrical dials.

The washbasin has a very elegant look. It features a slimline drain and a slope so that the water flows toward the user.

QuickClean+ makes it easier to clean the spray nozzles and prevents limescale build up.

The wide rain spray flows upwards from the flat tap body, offering your customers a whole new experience of water.

The control unit is made from high-quality metal. Purchasers can choose their favourite from a range of five FinishPlus surface colours.

Scratch-resistant, durable and easy to clean: the Avalegra AquaUnit wash basin is made from solid surface, a mineral material from which slight signs of use can be effortlessly buffed away.

Easy, one person installation. Similar to a standard washbasin.
