

hangrohe

Life is waterful.

Mixers, showers and accessories

INSTALLER RANGE

We work harder to make your life easier.

THAT'S VERY HANSGROHE

A name you can trust

High manufacturing standards and quality customer service ensure trouble-free installations. We understand that sometimes you need products quickly. That's why we carry many products in our UK warehouse that are available for **next day delivery**.*

Save water, save money, save the planet

We focus on the smallest details, uniting German engineering with rigorous testing and by 2030 we are committed to offering an eco variant for all of our products. Promising the same great performance whilst reducing water consumption.

Less is more

We've helped reduce water consumption in the shower since 1987.

Designed for life

Outstanding design outlasts short-lived trends. We create timeless products that promise a long service life.

Over 100 years behind it and many more ahead of it

For over 120 years, hansgrohe has been developing forward-thinking designs and clever bathroom solutions.

Our name is your guarantee

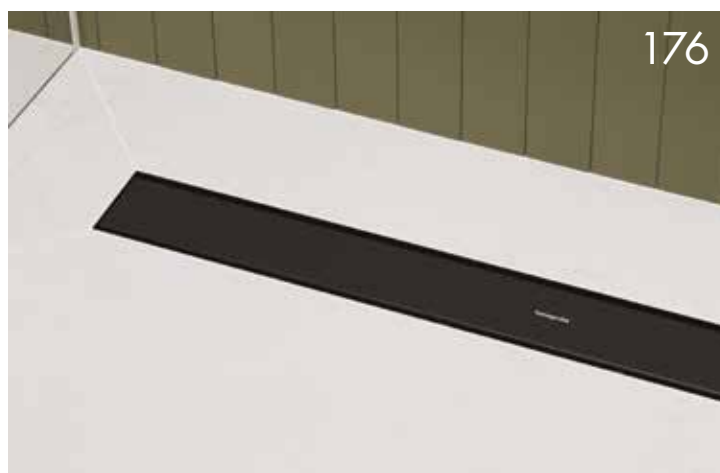

All products carry a minimum 5 year manufacturing guarantee inc. parts and labour.

Spare parts held for 15 years after product discontinuation.

*For more information on next day delivery visit www.pro.hansgrohe.co.uk. Next Day delivery applies to orders placed before 3pm, if ordered after 3pm your order will take 2 days, providing there is UK stock. Ask our hansgrohe customer service advisors when placing your order.

TALISMAN

The loyalty programme for installers

We want to reward you for your loyalty by offering cashback on selected hansgrohe and AXOR products.

Step 1

Download the Talisman App on your smartphone or tablet and create your business owner account.*

Step 2

Buy a product that has a Talisman QR Code.

Step 3

Log into your account on the app. Then scan the QR code.

Step 4

Once you have reached 50 points, request your cashback.

SIMPLY SCAN
THE QR CODE
TO REGISTER

*Please note that it may take up to 72 hours to activate your account

Hansgrohe: quality you can

COUNT ON

We apply rigorous tests and stringent guidelines in our development and production, and that's validated by independent testing institutes that attest to our high quality workmanship.

Our hand showers last longer because we take longer to create them

Different to most manufactures, every hansgrohe hand shower has the addition of both a copper and nickel layer underneath the chrome. The Copper guarantees for the temperature and stress equalisation between the chrome layer and the plastic to be approximately 25-30my (25/1000mm). The Nickel layer adds increased protection and refinement of the surface for a longer lasting quality finish.

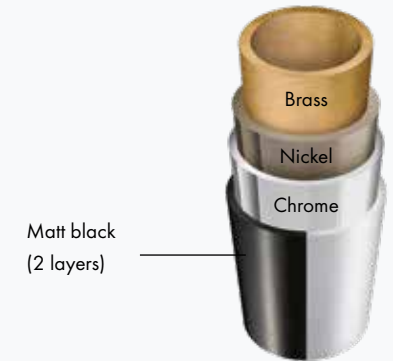

Lacquer coating

A specialist lacquer is applied in several steps, to create a durable and intense surface colour

Longevity tested for years of surface durability

German made mixer cartridges

Keeping things simple with 3 thermostatic cartridges and 3 mixer cartridges. Each cartridge has been stress tested over 70,000 times.

We test our products down to the smallest detail. For example the Select push button cartridge went through a long-term load test, where it wowed with a whopping 90,000 activations.

With Hansgrohe cartridges you can even set the maximum temperature by rotating the green ring, the perfect anti scalding solution.

3x thermostatic cartridges

3x mixer cartridges

IN TOUCH

with our planet

Water is life and **our passion**

We create inspiring moments while protecting this precious element: with water and energy saving technologies.

Hansgrohe publishes Environmental Product Declarations (EPDs) for nine product categories. Providing information about the environmental impact of a product in relation to its entire lifecycle.

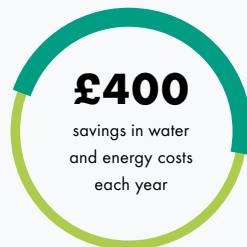

Production

Save Water.
Save Money.
Save the Planet.

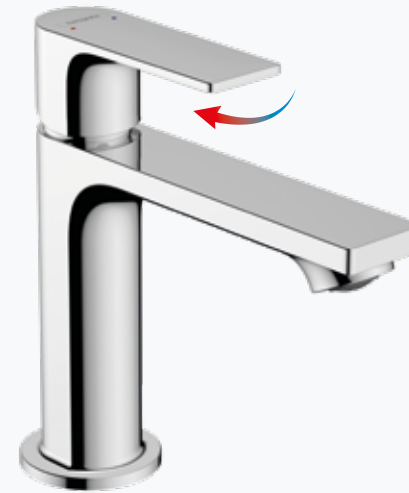

During the life cycle of a hand shower approximately **1,000 times more CO₂** is emitted during usage than production. Which is why we recommend **EcoSmart technology**. It uses up to **60% less water** than conventional products. Which equates to:

4 trees
could be watered for
one year with your saving
of 70,956 litres.

*Calculations based on a 4 person household, showering with a the Pulsify Select S 105 3jet Relaxation EcoSmart 6.9 l/min hand shower for 6 minutes a day with gas prices at 0.062/kWh and water costing £3.65/1000l

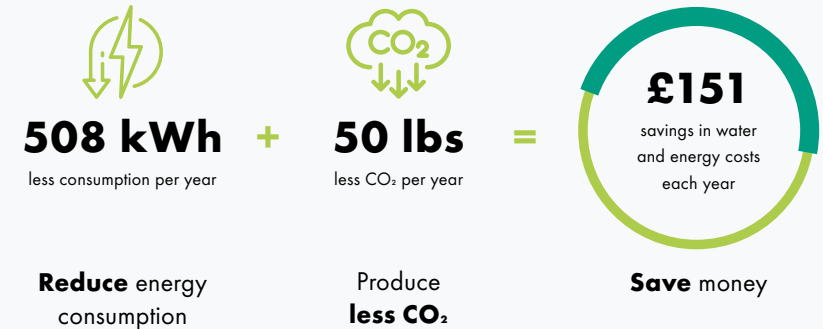

CoolStart: warm water **only flows** when it's really needed

A four-person household that uses a CoolStart tap for 20 minutes every day for a year consumes 508 kilowatt-hours less energy than it would with a standard tap.

With 508 kWh, you can:

- Make **67,564** slices of **toast**
- **Watch TV 24/7** for at least a year
- Use a **hairdryer** for **500 hours**

*Calculations based on a 4 persons household using the Rebris S Single lever basin mixer 110 CoolStart without waste set for 5 minutes a day with gas prices at 0.062/kWh and water costing £3.65/1000l

Water Savings Calculator

Meeting the STANDARD

With over 1000 WRAS, KIWA and NSF approved products, AXOR and hansgrohe can ensure a wide offering to suit every design preference and installation requirement.

You can meet compliance with a large selection of products, making specifying easy and giving you peace of mind as we can ensure that our products will help your project meet Regulation 4 of the Water Supply (Water Fittings) Regulations 1999 and Scottish Byelaws 2014.

Hansgrohe prides itself in having all of the relevant approvals, which is why we have a number of products that are TMV2 and TMV3 certified, which means that our thermostatic mixer valves can be used in high risk areas of health care premises.

The hansgrohe group is certified according to international rules and meets the standards ISO 9001 for quality management, ISO 14001 and ISO 50001 for environmental and energy management, and OHSAS 18001 for occupational safety management.

We are members of the following associations:

Easily identify which products are Regulation 4 approved by looking out for the logo throughout the brochure.

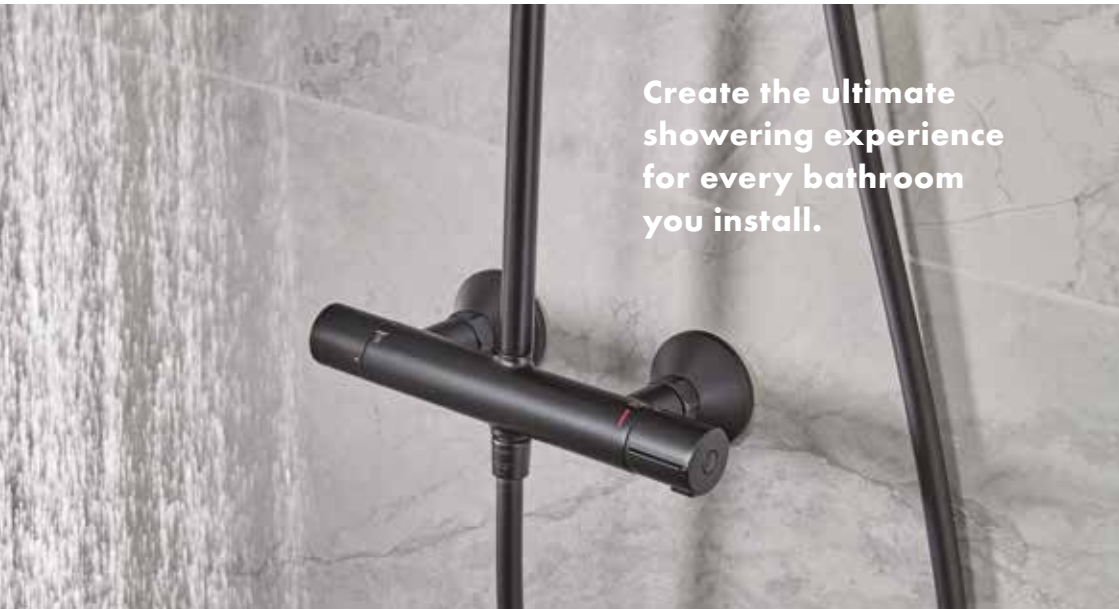

EXPOSED SHOWER SYSTEMS

Showering

TECHNOLOGIES

All of our showering products feature these innovative technologies

Create the ultimate showering experience for every bathroom you install.

Adjustable for maximum relaxation

By simply tilting the shower head, the water flow is aimed exactly where it is required, ideal for rinsing off soap and shampoo. It creates maximum versatility so that multiple users within the household can experience the ultimate showering performance.

Comfort and convenience at your fingertips

The intuitively designed Ecostat shower control comes in two different design variants to suit any bathroom aesthetic. Whether your customer prefers a square or a round design we have a control to match their bathroom requirements. Simply switch between functionality, or adjust the temperature by turning the control. The added functionality of the safety stop will prevent anyone from going above 40°C, perfect for family bathrooms.

Big performance, great experience

No matter what size the bathroom is, the XXL performance of the shower head means that it envelopes the user with water delivering the perfect shower to ensure a fresh start to the day or a relaxing evening. It is even a breeze to clean, with flexible silicone nozzles that can just be rubbed to remove any limescale buildup.

All of our products are suitable for use with combi boilers and maintain the same great performance.

BASIN MIXERS

Mixer

TECHNOLOGIES

All of our basin mixers feature these innovative technologies

Stylish basin mixers for any bathroom need.

Taps to suit every style

The right basin tap can pull a bathroom together, offering a small design touch that packs a big aesthetic punch. At hansgrohe, we produce bathroom taps to suit every taste and budget, each with visionary design, outstanding quality and superior ease of use.

All of our products are suitable for use with combi boilers and maintain the same great performance.

A tap that is fitted to your requirements

Does your customer want a free-standing basin mixer or one that hangs from the wall, perhaps they want it surface mounted, or maybe even on the counter top? Does it suit a wide shallow basin, or a deeper one? What about the ComfortZone - the name we give to the space between the spout and the basin. Keep things small, at 80mm high, or allow plenty of room below, at 260mm high, the choice is for your customer to make? Whatever the look of the bathroom and whichever way it is used, you'll find a hansgrohe tap that fits.

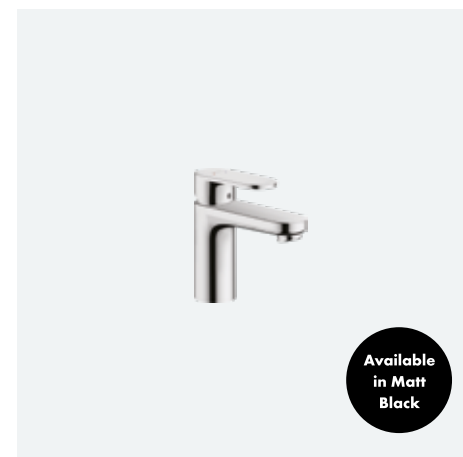

Inherently eco-friendly

We know how important it is to use water and energy responsibly, which is why we automatically integrate the technology into our basin mixers by having the flow at 5 l/m. With EcoSmart, you consume up to 40% less water than conventional products, while taps equipped with CoolStart technology reduce energy costs even more, because hot water is only activated when the handle is turned to the left. This is done by simply turning the cartridge seat 90 degrees allowing only cold water to flow in the central position. Using energy for warm water only when needed, saving up to £109 a year.

Please note: all hansgrohe tails are 3/8" and an adaptor is needed

BATH MIXERS

Bath mixer

TECHNOLOGIES

All of our bath mixers feature these innovative technologies

A selection of bath mixers engineered for effortless installation.

Run the bath in style

A bath is often the focal point of a bathroom, so it's important that the bath mixer complements the overall design. Whether the bath is freestanding, sunken or wall-side, there will be a hansgrohe bath mixer to suit. These come in a range of stylish designs and finishes, allowing for seamless integration into any bathroom decor. This makes them an attractive option for clients looking to enhance the visual appeal of their bathrooms.

Made with your customer in mind

You can be confident in durability and reliability when installing hansgrohe products. Innovative features make installation straightforward and hassle-free, saving time and effort by reducing the likelihood of callbacks and ensuring customer satisfaction.

QuickClean: the fast anti-limescale solution

Hard water, dirt, cleaning agents: bathrooms need to withstand a lot. hansgrohe makes painstaking cleaning a thing of the past, thanks to our QuickClean technology. Now limescale and other residues can simply be rubbed off in an instant, so hansgrohe products will stay in top condition and look great for a long time to come.

All of our products are suitable for use with combi boilers and maintain the same great performance.

KITCHEN MIXERS

Kitchen mixer

TECHNOLOGIES

All of our kitchen mixers feature these innovative technologies

Making water more convenient in the kitchen.

hansgrohe kitchen taps: setting benchmarks in design and function

Make kitchen tasks easier for your customers with a hansgrohe kitchen assistant. More than just a tap, these washing systems provide extra space at the kitchen sink, use water more efficiently, and add a stylish highlight to any kitchen. Discover award-winning design, clever features, and durable hansgrohe quality that you and your customers can rely on.

A tap that works for your customers

With the ComfortZone, you get a higher spout and taps that swivel by 110, 150, or even 360 degrees, giving you plenty of room to manoeuvre. The extendible hand spray, combined with the innovative sBox, increases reach up to 76cm, making it easy to fill and clean even the biggest pots and pans. This means more convenience and satisfaction for your customers.

QuickClean: the fast anti-limescale solution

Kitchens face a lot of wear and tear from hard water, dirt, and cleaning agents. With Hansgrohe's QuickClean technology, you can make tedious cleaning a thing of the past. Simply rub off limescale and other residues in an instant, ensuring your hansgrohe products stay in top condition and look great for years. This means less maintenance and more satisfaction for your customers.

All of our products are suitable for use with combi boilers and maintain the same great performance.

Look out for the hansgrohe

INSTALLER ROADSHOW

Our installer display vehicles are specifically designed to give you every confidence in recommending and installing hansgrohe.

Working products and interactive displays coupled with installation advice. Experience first-hand the precision engineering and attention to detail that goes into all our showers and taps and to learn just how easy they are to install.

Working product displays

To find out when the hansgrohe installer roadshow will be near you contact hansgrohe or your local stockist.

We don't just keep up with technology -

WE PIONEER IT

From the big picture to the smallest detail, we welcome every opportunity to enhance your showering experience by integrating technical innovation wherever and whenever it will function best. The icons are here to introduce you to the latest hansgrohe advances. They are your guide to discovering just how much hansgrohe can enhance your comfort and enjoyment in the bathroom.

Spray modes

Powder Rain
A unique shower experience thanks to the soft caress of micro droplets.

Rain
Ideal for rinsing out shampoo quickly and thoroughly.

Rain Air
Air-enriched drops from a large, wide jet to wash your cares away.

Intense Rain
Invigorate your muscles and set yourself up for the day with the powerful IntenseRain water spray.

SoftRain
The gentle SoftRain water spray gently wraps itself around the body. A treat for the skin – and for the soul.

Turbo Rain
The all-purpose tool for quick results: the revitalising spray lives up to its name.

Mono
Focused jet for soothing, feelgood shower.

Whirl
The concentrated spray simply massages away the exertions of the day.

Massage
A concentrated spray, creating a wellness treatment for the home bathroom.

Shampoo
Intense, highly efficient water spray that rinses out shampoo in no time at all.

Normal
Versatile shower spray day in, day out. The shower rain pampers with full, light, rich droplets.

Laminar Spray
Crystal clear and economical, without added air. Ideal for quickly filling large containers and preventing splashing.

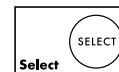

Shower Spray
Economical and cleansing. Also perfected for fast spraying at the sink.

Normal Spray
Full, lighter and softer droplets from an aerated spray, thanks to AirPower technology.

Technologies

Select
Use the Select button to switch spray modes or shower heads; switch off the water at the mixer.

CoolStart
When the handle is in the neutral position, cold water flows automatically.

EcoSmart
Mixers and showers use up to 60% less water than conventional products.

Eco Smart+
Consumes as little as 4 l/min at 3 bar with a specialised flow limiter, water is enriched with air for fuller, plumper droplets.

AirPower
Enriching water with air produces plump droplets for a velvety touch on the skin.

Cool Contact
CoolContact prevents the thermostatic mixer from getting too hot and prevents painful scalding.

XXL Performance
Evenly distributes the water over the large spray face to envelope the whole body.

Quick Clean
Remove limescale deposits quickly and easily with flexible silicone nozzles.

Comfort Zone
Defines the space between the wash basin and mixer. The larger the ComfortZone, the greater the variety of uses.

Low Pressure
Quality performance on a minimum of 0.2 bar pressure.

Adjustable Shower Head
With the adjustable shower head, the water jet can be adjusted individually.

PushSlider
With just one hand the shower holder can be freely adjusted in height.

Rotatable Bath Spout
The bath spout can be neatly stored underneath the thermostat when not in use.

Water Flow Control
Easy water control: with the control dial the water flow can be adjusted easily.

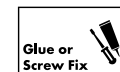

Thermostat
Constant water temperature with integrated control that monitors the water temperature and reacts to pressure changes.

Safety Stop
Safety lock at over 40 °C. A temperature limitation that ensures safe showering pleasure at all times.

EasyClick
All accessories can be easily clicked onto the wall bar and removed from it.

Glue or Screw Fix
Assembly possible both with included glue-kit and screws.

Remove & Clean
If residue has formed on the aerator, simply use a coin to unscrew it, wash it, and put it back on.

Eco Stop
The water consumption is regulated to a maximum of 10 l/min. If needed, a higher water flow can be released by simply pressing the EcoStop button.

Fit & Forget
Install with confidence, knowing that once fitted correctly you can forget about call backs.

UK Reg 4 Approved
Regulation 4 approved, which ensures piece of mind when specifying our products.

combi
Suitable for use with combination boilers, subject to the manufacturers performance specifications.

We don't just keep up with technology we pioneer it

TALISMAN: THE LOYALTY PROGRAMME FOR INSTALLERS

We want to reward you for your loyalty by offering cashback on selected hansgrohe and AXOR products.
