LavaPura Element.

Redefining toilet hygiene at a price your customers will love.

Since 1901 hansgrohe has been engineering products to enhance personal hygiene. We introduced the first affordable hand shower as well as the shower bar on which the hand-held shower could be fixed at any height.

Our passion for the use of water for personal hygiene remains undiminished. LavaPura Element, our new shower toilet, is our latest expression of this and takes cleanliness and well-being in the ToiletPlace to a new level whilst providing exceptional value for money.

Featuring a timeless style and state-of-the-art technology, LavaPura Element fits seamlessly into any bathroom. The combination of comfort, intuitive design and the highest hygiene standards producing an unrivalled experience.

For an unrivalled feel-good experience

The hansgrohe shower toilet is more reminiscent of a spa than a toilet. The settings for the spray type, water temperature and seat heating can be individually adjusted to make every moment as comfortable as possible. From gentle to pulsating water sprays, LavaPura Element offers the most pleasant cleaning experience for every need.

For many people, the idea of a shower toilet is unusual. But that's about to change. Experts believe using water is the gentlest and most thorough way to clean yourself after going to the toilet. This new hansgrohe product transforms the bathroom into a place that places the focus on cleanliness and well-being.

15 YEAR PARTS AVAILABILITY GUARANTEE

Spare parts held for 15 years after product discontinuation.

Simple elegance

LavaPura Element designed by PHOENIX, impresses people with its subtle, familiar aesthetic with a modern twist: the wall-mounted toilet's minimalist design is accentuated by an elegant graphite line that creates an aesthetic highlight. The ergonomically positioned Select push buttons pair a clean and scaled-back design language with intuitive user-friendliness here.

Highlight

The graphite line emphasises the clean, modern design.

Well-being at the touch of a button

At hansgrohe, intuitive operation is everything. All the intelligent functions of the LavaPura Element can be effortlessly activated – and settings adjusted to personal preferences. The new comfort zone in the bathroom is either controlled via remote control or the Select push buttons on the toilet itself. No matter where, the user interface remains consistent for simple control of the toilet. With the Select push buttons integrated on both sides, the main functions can be easily and conveniently controlled.

The remote control creates a personal hygiene experience

As well as replicating the RearWash, LadyWash and Odour Extraction Select push buttons, the remote control unit provides additional settings and functions that create a truly personal experience.

Shower functions for full freshness

RearWash

Gentle and thorough rinsing with large, air-enriched droplets for maximum comfort, every day.

LadyWash

Extra gentle rinsing experience with a very soft spray, perfectly tailored to feminine needs.

Oscillation

Moves the spray wand back and forth, providing a comfortable and extra thorough rinsing.

Pulsation

Switches the selected spray type to massage. For an exceptionally pleasant rinsing experience.

RearWash

Other feel-good functions

Odour Extraction

Thanks to the odour extraction system under the seat, unpleasant odours in the bathroom are a thing of the past.

Warm Air Dryer

With a temperature that can be adjusted (4 levels), the warm air dryer offers even more comfort to perfectly round off the pleasant feeling on the toilet.

Seat Heating

Integrated seat heating for a cosy warm feeling and more relaxation in the bathroom.

Comfort features

Auto Open

For increased comfort and hygiene, the toilet lid opens and closes automatically via a sensor.

SoftClose

Toilet cover and seat close softly and silently thanks to the dampers in the hinges.

Practically cleans itself

One thing is clear: when it comes to sanitation, hygiene and cleanliness are key. But people who lead stressful lives can sometimes find it difficult to meet these desired standards. With its numerous functions, the LavaPura Element toilet can practically clean itself. The rimless design also ensures efficient flushing and is extremely convenient to keep clean.

UV Disinfection

The shower wand is disinfected by UV light automatically after every use.*

SmartClean & HygieneEffect

High-quality glaze that reduces bacteria on the product. For more hygiene and less cleaning.**

QuickRelease

This hinge system is simple to undo so that the toilet seat can be quickly removed for easy cleaning.

Night light

The nice, safe, night-time guide in the bathroom.

User Profiles

For more convenient use, personal settings can be saved under two user profiles.

AquaHelix Flush

The sophisticated water vortex technology powerfully, yet quietly, cleans the toilet's inner bowl.

Refers exclusively to the following bacteria:

*Staphylococcus aureus (AS 1.89) and Escherichia coli (AS 1.90), test: GB/T 23131-2019

**Escherichia coli CECT 434 and Staphylococcus aureus CECT 239 (test conducted according to JIS Z 2801:2010)

The functions at a glance

Combining timeless design with state-of-the-art technology, LavaPura Element fits seamlessly into any bathroom.

- 1 The desired spray type (RearWash, LadyWash) can be conveniently selected using the easy-to-reach Select button. Odour extraction can be optionally activated.
- 2 The AquaHelix Flush uses water vortex technology to clean the toilet bowl powerfully yet quietly.
- 3 UV disinfection: the spray wand is automatically disinfected by UV light after every use.
- 4 The odour extraction system integrated into the seat uses a catalyst to reduce undesired odours in the bathroom – including automatically.
- 5 Hygienic and convenient: the toilet lid opens and closes automatically without any contact. The sensor reacts whenever anyone approaches or moves away from the LavaPura Element.
- 6 For instant comfort on demand, personal preferences for several functions (e.g. water temperature, water pressure) can be stored in two user profiles.
- 7 The seat heating provides a pleasantly warm feel in line with personal preferences. The system can be set to various temperatures and automatically switches off after 24 hours of non-use.
- 8 The integrated warm air dryer can be set to four temperatures. It not only rounds off the sense of well-being when going to the toilet but can also reduce the use of toilet paper.
