Meet the beauty of water

The showering collection 2018

hansgrohe: experience showers as individual as you are

In over 140 countries worldwide, hansgrohe products have defined comfort and experience through design in world renowned hotels, cruise ships, luxury yachts and homes since 1901.

We have helped reshape the modern bathroom since pioneering the hand shower in 1928. Our visionary concepts have not only changed the look but also the whole culture of the bathroom.

Once you find our name, you'll discover its presence in many of the finest bathrooms across the UK.

Excellence in everything

hansgrohe is synonymous with innovation, design and quality – this is our DNA. We lead the market, not follow it and work closely with renowned designers from all over the world.

Our award-winning products are designed and engineered in Germany. Our philosophy revolves around the creation of long-lasting and reliable products crafted with meticulous attention to detail to deliver the highest levels of quality and function. But always with people and your experience in mind.

See, touch, feel, believe

Great design in bathrooms is more than simply about appearance. It's also about the combination of function, performance and experience. To stimulate the senses, revive the body and refresh the mind.

Throughout this brochure we encourage you to discover the hansgrohe products that best reflect your tastes, style and desires. To help realise your own bathroom vision and create a showering experience that is individual to you.

Installing hansgrohe

Peace of mind from installation to enjoyment	50
--	----

hansgrohe: showering perfection since 1901

With constant emphasis on higher standards, our visionary concepts help make life in the bathroom easier, better and more beautiful.

Our determination to enhance the beauty of water and every aspect of your experience, knows no bounds. That's why hansgrohe has consistently led the way. A culture of innovation combined with brilliantly simple, ultra-reliable technology ensures we create timeless and sophisticated products.

All over the world, hansgrohe is synonymous with durable quality products of exceptional design, ease of use and intelligent functions. That's why we deliver to more than 140 countries on every continent with nearly 30% of sales revenue generated from new products no more than three years old.

Renowned engineering quality

Since 1901, 'Engineered in Germany' has been a recipe for success for Hansgrohe as a mixer and shower manufacturer. Over 115 years since the company's foundation, this level of German expertise is a guarantee of excellence. Every Hansgrohe manufacturing facility works to the highest standards through continuous quality management to ensure top performing products and service.

Our name is your guarantee

Always creating the highest quality products defines our approach to design, manufacturing and performance. 'Made by Hansgrohe' is your assurance of quality, backed by a five-year guarantee for repair, replacement or refund if ever any of our products fail to fulfil those high expectations that attracted you to the Hansgrohe name.

All products carry a minimum 5 year manufacturing guarantee.

Spare parts held for 10 years after product discontinuation.

Designed for life, realised by Hansgrohe

At Hansgrohe our philosophy of design is integral to everything you see and defines the standard to which others can only aspire.

Bathrooms are living spaces where we can feel comfortable and cultivate our own individual style. With Hansgrohe great design and maximum functionality go hand in hand. Our products are meticulously designed and manufactured to make those living spaces more attractive, more comfortable and more exhilarating.

Clever minds and new designs

Working closely with a number of the world's most influential designers, Hansgrohe leads the bathroom industry in both aesthetics and performance. In our collaboration with such internationally recognised creative minds, we empower, endow, direct and define global design. Our mixers, showers and shower systems have won more than 500 internationally renowned awards and set multiple new trends.

iF design leader

When it comes to product and design quality, the Hansgrohe Group was ranked No 1 by the International Forum Design (iF) in its sector. Awarded by independent judging panels, iF competitions are some of the most prestigious and largest in the design world. More importantly, winning its acclamation on a regular basis represents a seal of excellence, a testimony of quality and a symbol of trust for every Hansgrohe customer.

Hansgrohe Group currently ranks 6th among 2,000 listed companies. Outperforming famous brands such as Audi, BMW and Apple and reconfirming the company's leading position in the industry.

We don't just keep up with technology - we pioneer it

Our innovative technologies are all about performance. To enhance the beauty of water and every aspect of your enjoyment.

The icons below are here to introduce you to the latest Hansgrohe advances in technology. They are your guide to discovering just how much we can enhance your life and how you can experience greater comfort and enjoyment in the bathroom.

Select. Comfort and convenience right at your fingertips

A revolutionary control concept perfected in a timeless design, the unique hansgrohe Select button on your shower or mixer can be used to vary spray patterns or control the flow of water with a simple touch. As the technology behind Select is purely mechanical, you can be confident of lasting reliability and ease of operation day in and day out.

QuickClean. Limescale simply rubbed off in an instant

With QuickClean technology, shower residues disappear in seconds with almost no effort. All hansgrohe mixer aerators and shower jets are made out of specially developed silicon so dirt and limescale can be rubbed off quickly and easily. Which means your shower products stay looking good and working flawlessly for years to come.

EcoSmart. Less water, less energy, more enjoyment

A selection of hansgrohe mixers and showers are fitted with the EcoSmart technology this reduces your water consumption by up to 60% without compromising on your showering performance. Thanks to a sophisticated flow limiter, special jets and integrated aerator, you will still enjoy a full, bubbling jet of water. So you use less water and less energy to heat it.

iBox. The hidden magic behind every hansgrohe concealed shower

With the iBox universal, the mixer technology is concealed in the shower wall. You might never see the brilliantly simple, ultra-reliable device that is literally behind your shower's superb performance. Creating more space, more freedom of movement and more planning options in your bathroom, it is also easy to change or upgrade at any time.

Experience the world of comfort

In over 140 countries globally, Hansgrohe has defined comfort through design, reshaping the culture of the modern bathroom.

All over the world, developers and investors work hand in hand with architects and planners on sophisticated projects. They are constantly in need of intelligent and aesthetically appealing solutions for handling the essential element water. Hansgrohe mixers and showers continue to define design and comfort in impressive hotels and public buildings, in private residences, in exclusive sports clubs, cruise ships and luxury yachts. You will find lots of other references on our website.

Integrating technology with innovative style

Dedicated to good design, our determination is always to utilise technology to make showering an enduring pleasure.

From the big picture to the smallest detail, our innovative solutions are created to enhance the beauty of water, and every aspect of your experience. Use the Technology icons as a guide to help you select the right mix of options for your bathroom.

One touch changes the waterflow. The shower or spray type can be switched on and off or changed with a click.

Reduces the flow rate to save water and energy. For longlasting pleasure without compromising on experience.

Combines water with a generous amount of air. For a soft, splash-free water spray and rich, full shower drops.

Remove limescale deposits simply by rubbing the flexible silicone jets.

Evenly distributes the water over the large spray face to envelope the whole body.

Concealed

Available in three beautiful shapes.

Round

Square
(with Select)

Soft Cube

Exposed

Shower valve

Bath/shower valve

Comfort and control at your fingertips

Concealed or exposed, our shower valves reflect the commitment to choice that is the inherent characteristic of hansgrohe products.

Intuitive and user-friendly in three beautiful shapes, concealed valves allow you to vary the flow of water easily and effortlessly while exposed valves are often the choice when there isn't sufficient well depth. For your comfort and safety, inside every valve is a hansgrohe thermostat. With our thermostatically controlled showers you can preset your desired water temperature and it will maintain this throughout your shower.

Exafill bath filling without taps

For the bath inflow, waste and overflow, there is a modern hansgrohe alternative to the traditional set-up. The Exafill S unique RainFlow spray fills any bath smoothly and speedily and is never slowed by limescale deposits, thanks to its ingeniously built-in QuickClean technology.

The finishing touches

To offer even more opportunity for personalisation, many of the products featured in this brochure are available in either the signature hansgrohe chrome finish or the chrome and white finish at no additional cost. While both stylish finishes are engineered to stand the test of time, the chrome and white finish is particularly suited to hard water areas.

Round showerhead
Shown in chrome finish

Chrome finish
Our sophisticated, hansgrohe style is always in fashion, and engineered to stand the test of time.

Soft Cube showerhead

Hand shower on slide rail

Showerpipe

Hand shower on slide rail

Hand shower on slide rail and overhead shower

Overhead shower and hand shower holder

Overhead shower

Experience showering like never before

Invigorating. Indulgent. Relaxing. Energising. Everyone has their own idea of the most rewarding showering experience. Throughout this brochure the Spray Pattern icons shown will help navigate your choice of hansgrohe shower that delivers the patterns of your choice from a brisk burst of freshness to softly soothing massage.

Rain and Rain XL
Ideal for rinsing out shampoo quickly and thoroughly.

RainAir
Air-enriched drops from a large, wide jet to wash your cares away.

SoftRain
The gentle SoftRain water spray gently wraps itself around the body. A treat for the skin – and for the soul.

Massage
A concentrated spray, creating a wellness treatment for the home bathroom.

IntenseRain
Invigorate your muscles and set yourself up for the day with the powerful IntenseRain water spray.

TurboRain
The all-purpose tool for quick results: the revitalising TurboRain spray lives up to its name.

WhirlAir
The concentrated WhirlAir spray simply massages away the exertions of the day.

Concealed valve with overhead shower and slide rail kit

Modernise your bathroom with these versatile shower solutions. Enjoy a relaxing spa-like experience with air-enriched droplets falling from above. Select controls make it easy to switch between hand and overhead shower as well as change between the three spray modes. Easily set your ideal temperature with the thermostatic control and safety stop.

Peace of mind from installation to enjoyment

The quality engineering and attention to detail of every Hansgrohe product ensures absolute ease of installation.

A passion for water and love of innovation means you can trust hansgrohe showering solutions to provide long term performance and durability. Proven over generations, you will have a truly exceptional experience, every time you shower.

Selecting the right products

To discover which showering products will best deliver the exceptional showering experience you seek, it is important to identify correctly the system that is installed in your home. If you are unsure of the system or the water pressure it provides, please consult your professional installer.

Understanding your water system

Identifying the water pressure provided by your plumbing system will allow you to choose a showering product designed to work most efficiently within its parameters. Water pressure is the term used to describe the strength of the water flow through a pipe and is measured in bars.

Installation

Understanding your system's ability to deliver water is essential in order to match your chosen showering solution's performance. A qualified installer will have the knowledge and experience to help you achieve your desired result with the reassurance of exceptional performance in the years ahead.

Service and maintenance

Every Hansgrohe product provides the added reassurance of a 5-year guarantee with the availability of spare parts also guaranteed for ten years. All products professionally installed are designed to be serviced if necessary in situ.

Gravity

Low Pressure - LP (0.2Bar)

- Cold water storage tank in the loft
- Hot water cylinder in property
- No shower pump installed

*All hansgrohe showers in this brochure require a pump if you have this system

Combination Boiler

Medium Pressure - MP (1Bar - 1.5Bar)*

- Combination boiler fitted providing hot water on demand
- No storage tanks in property
- No shower pump installed

*Pressure is dependent upon the age and size of the combi boiler plus the mains water pressure. A 28KW combi boiler will typically provide between 1Bar - 1.5Bar pressure.

Pump Assisted

High Pressure - MP - HP (1.5 - 4Bar)

- Booster pump installed

When the gravity of water exceeds 0.61pm, this is known as 'Positive Head' (ie. when a shower head is positioned below the cold water storage tank). In this situation a standard shower pump can be used. Please note, with the exception of the select valves, these require a universal pump.

Whilst, a 'Negative Head' condition is when the gravity of water is less than 0.61pm (i.e. when a shower head is positioned above the cold water storage tank, e.g. in a loft conversion). In these conditions a universal head pump must be used. Please note, a Universal shower pump will work in both positive and universal head conditions (i.e. where the shower head is either above or below the cold water storage tank). The correct pump will allow you to use any of the products featured this brochure.

Mains High Pressure

High Pressure - HP (1 - 3Bar)

- Unvented cylinder with an expansion cylinder
- No cold water storage tank in the loft
- Stored hot water
- Balanced Pressure
- Limited to Mains Pressure

Hansgrohe Customer Service
