Introducing Vernis taps and showers

- Taps and showers designed to complement each other perfectly. Helping simplify the design process
- EcoSmart mixers with a reduced flow rate and green technology showers are part of the new range

All products carry a minimum 5 year manufacturing guarantee.

Spare parts held for 15 years after product discontinuation.

Technologies

Our innovative technologies are all about performance. The technology and spray pattern icons throughout this brochure are designed to assist you to navigate our comprehensive product range.

Technologies

Enriching water with air produces plump droplets for a velvety touch on the skin.

Remove limescale deposits quickly and easily with flexible silicone nozzles.

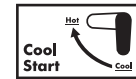

Mixers and showers use up to 60% less water than conventional products.

The ultra-reliable device that is behind your shower's superb performance.

Evenly distributes the water over the large spray face to envelope the whole body.

When the handle is in the neutral position, cold water flows automatically.

Use the Select button to switch spray modes or shower heads; switch off the water at the mixer.

Defines the space between the wash basin and mixer. The larger the ComfortZone, the greater the variety of uses.

Spray Patterns

Powerful and plentiful spray that invigorates. Perfect for rinsing hair.

Invigorate your muscles and set yourself up for the day with the powerful spray.
