Bringing it all together.

iFrame Element and Original flushing plates.

The perfect finish for every bathroom: iFrame completes the ToiletPlace and complements the hansgrohe range with stylish toilet flush plates featuring dual flush technology. From elegant shapes to high-quality FinishPlus colours, subtle elegance to bold accents, iFrame has the perfect solution for every taste and every budget. It can help create a unique, holistic bathroom experience – and a genuine feel-good place full of character.

iFrame Element E
was awarded with
the iF Award.

iFrame - three elegant designs in striking finishes

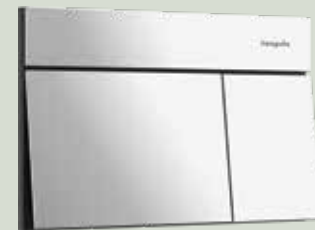

iFrame Element E - shown in matt white

iFrame Original S - shown in matt black

iFrame Element: a visual highlight

With its appealing design based on the simplicity of a light switch, iFrame Element E is a visual highlight that combines aesthetics with clever functions. Available in all FinishPlus finishes, the design blends in seamlessly with any hansgrohe bathroom. The high-quality metal is impressively durable with a premium look and feel. What's more, iFrame Element E is convenient to operate – even with an elbow!

Effortless installation. Seamless performance.

The iFrame universal front wall system 1120mm, is the perfect match for classic hansgrohe toilets and the hansgrohe shower toilet. The flush tank has been designed to support hansgrohe EcoSmart for efficient flushing performance, offering adjustable flushing volumes from 4 to 7 litres (top flush).

Economical water consumption thanks to the delay in filling the tank after flushing. The filling valve only opens once the flush valve on the tank is closed. Only the required amount of fresh water is used.

iFrame universal is the sophisticated front wall system for efficient installations. Benefit from these clever details:

- 1 The sturdy wall supports are included in the scope of delivery. The high-quality plastic screws ensure optimum noise reduction.
- 2 The assembly parts for the toilet and iFrame are pre-sorted and packaged separately in the in-wall tank, so everything is organised and ready to hand.
- 3 The robust construction is made of durable materials and designed for a load capacity of at least 400kg.
- 4 The flush system is perfect for hansgrohe portfolio of wall hung toilets including shower toilet.
- 5 Height-adjustable feet with brakes – for simple and sturdy anti-slip alignment.
