hangrohe: quality that you can count on

At hangrohe we create top quality products that deliver in both form and function, so you can enjoy them for a long time to come.

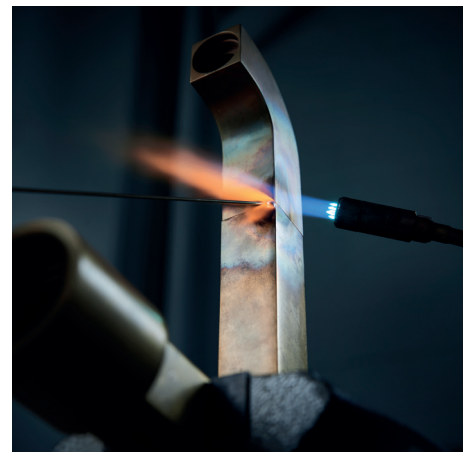

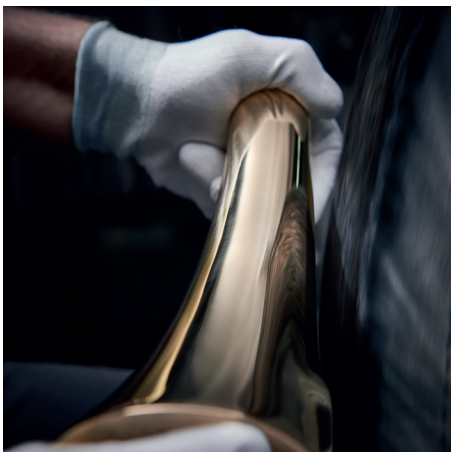

We apply rigorous tests and stringent guidelines in our development and production, and that's validated by the independent testing institutes that attest to our high quality workmanship. Our products are SABS and SA Watermark approved. Refer to schedule.

Quality is infused into every hangrohe product

Before our products are ready for production, they have to prove themselves thousands of times in test cycles, stress tests, and field tests. Highly qualified employees see to meticulous quality assurance and quality management at every point.

Manufacturing quality

hangrohe relies on top-quality materials, high-tech design and precision work. But hangrohe understands "quality workmanship" to mean more than just the materials. It's the basis of our four pillars of quality: product, design, manufacturing and service.

We don't just keep up with technology - we pioneer it

Our innovative technologies are all about performance. To enhance the beauty of water and every aspect of your enjoyment.

From the big picture to the smallest detail, we welcome every opportunity to enhance your showering experience by integrating technical innovation wherever and whenever it will function best. The icons are here to introduce you to the latest hansgrohe advances. They are your guide to discovering just how much hansgrohe can enhance your comfort and enjoyment in the bathroom.

Less water, less energy, more enjoyment

EcoSmart technology reduces your water consumption by up to 60% without compromising on your showering performance. Thanks to a sophisticated flow limiter, special jets and integrated aerator, you not only save precious water but also the energy needed to heat it. That's good news for the planet and good news for your wallet too.

Comfort and convenience at your fingertips

One touch changes the waterflow. The shower or spray type can be switched on and off or changed with a simple click.

Limescale simply rubbed off in an instant

Remove limescale deposits simply by rubbing the flexible silicone nozzles.

More volume, more pleasure

Combines water with a generous amount of air. For a soft, splash-free water spray and rich, full shower drops.

Big performance, great experience

Evenly distributes the water over the large spray face to envelope the whole body.

Guaranteed comfort and convenience

Greater freedom of movement. The higher the mixer, the greater the space between spout and basin.

The hidden magic behind our showers

The ultra-reliable, flexible device that is behind your shower's superb performance.
