Incomparable experiences with water

Check out our modern bathroom planning solutions. Alongside innovative technology, which enables the user to enjoy water responsibly, it's all about ergonomic comfort and aesthetic indulgence. We are therefore constantly working on developing new products. Design the perfect wellness oasis for your customers with everything from the PowderRain spray type for sensual showering, to our new installation masterpiece the iBox universal 2, right through to the Tecturis tap range with its clean lines.

hansgrohe – the bathroom pioneer since 1901

In 1901, Hans Grohe founded his metalwork business. He was a visionary, recognising the changing role of the bathroom in the home (despite it being a fairly new concept to most at the time).

The Hansgrohe company has been shaping bathroom culture from day one. Founder Hans Grohe started out small in 1901, with a metal pressing workshop in Schiltach in the Black Forest. You can still find our innovative hub and corporate headquarters there today. These days, the hansgrohe brand has an international reputation for excellence. The people who work at hansgrohe are passionate about product refinement and water, and it's their expertise in engineering and their love of experimentation which really set us apart as a company. But our biggest appeal is the expertise and commitment of everyone who works here. The energy and drive to constantly craft and refine is reflected in all our products, from revolutionary bathroom innovations right through to pioneering water-saving technologies. These and other innovations will continue the hansgrohe brand's success story.

2001

iBox universal
The first and only basic set for all standard and thermostatic mixer solutions – a revolution in concealed installation.

2021

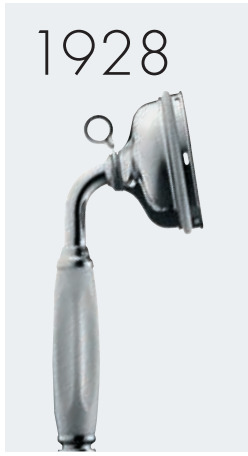

RainTunes*
We combine water with sound, light, imagery and fragrance into one holistic wellness experience.

*RainTunes only available for certified partners.

2022

EcoSmart+
Eco-friendly tap that consumes just 4 l/min at 3 bar. Less water, less energy consumption.

Hand shower
The first hand shower with a white porcelain handle. This hansgrohe innovation makes showering affordable for many households for the first time.

Unica shower rail
Thanks to this revolutionary idea, hand showers can be mounted at any height.

Tribel
First design-award-winning hand shower in bright colours and with three spray types.

EcoSmart
New technology in the Mistral Eco shower head that reduces water consumption by 50% at the time. This sets a milestone towards a sustainable future.

Raindance
The first hand shower with an XXL shower head, flat silhouette and short handle. The all-rounder becomes a trendsetter.

CoolStart
Energy-saving technology that only allows cold water to flow when the handle is in the middle position.

PowderRain
Sensational showering with softly enveloping micro-droplets.

FinishPlus
High-quality finishes provide a variety of design options.

Dream bathrooms*
Expanding the range to include furniture, ceramics and mirrors – hansgrohe offers product solutions for a holistic bathroom experience.

*Only available for certified partners

Pulsify Planet Edition
We can be part of the circular economy through the use of recycled and reusable materials.

Green Vision
Concept study on the bathroom of the future featuring almost waterless regeneration.

Our values – your advantages

Pioneering

Intuitive operation, lower water and electricity bills or less need to clean: All factors that will leave your customers beaming from ear to ear. Build on pioneering innovation with excellent customer value. This is precisely what our experts in our research departments are working towards in the sound and spray laboratory, where they develop high-quality products with a certain je ne sais quoi. With beautiful surface finishes, energy-efficient spray types, built-in safety, and integrated indulgence.

With our innovations, the focus is not only on novelties but also on optimising existing products. The latest evolution of the iBox universal draws on years of experience with over eleven million installed products and continuous feedback from specialists and planners. As a result, the new **iBox universal 2** and the new pre-fab sets make installation twice as fast as it was with the previous model.

Award-winning products

Elegant functionality appeals to both the heart and mind, and it's something we specialise in. Our products are consistently award-winning, outlasting fads and instead providing long-lasting value, whether they are found in the home or in a world-famous hotel. Good design makes all the difference and always ensures an excellent experience. With over 30 years of collaboration with PHOENIX, hansgrohe is a **leader** within the industry, racking up more than **700 awards** for our design achievements.

Highest standards

Providing our customers with the highest quality at all times is a fundamental part of the hansgrohe company philosophy. We have been manufacturing high-quality bathroom and kitchen products for over 120 years, and we are proud of our extensive quality control processes, especially as many of our products go above and beyond the required standards.

We offer our consumers a voluntary **guarantee of 5 years*** plus guaranteed availability for 15 years.

Green. Greener. Eco* 2030

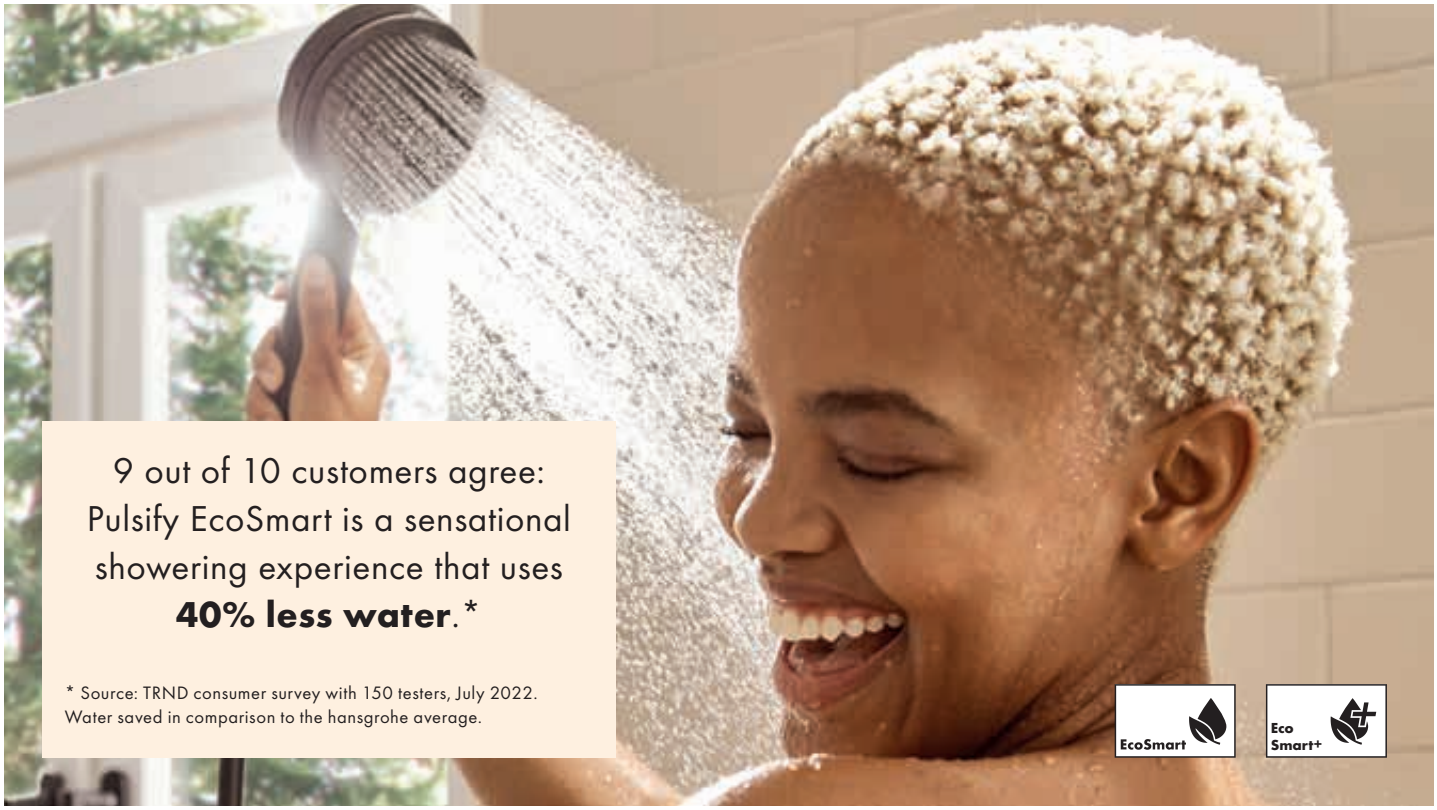

The aim of our sustainability strategy is to do what we can within our sphere of influence to conserve all the resources that are becoming increasingly scarce on Earth or whose consumption fuels global warming.

"By 2030, we plan to convert our entire water-bearing product range for the hansgrohe and AXOR brands to **water- and energy-saving technologies**. In future, they will need to be part of every energy-related renovation and every energy-efficient new build. We are dedicated to working with others to make the right emission-based changes in bathrooms and kitchens."

Hans Jürgen Kalmbach
Chairman of the Executive Board of Hansgrohe SE

** Only available in certain countries

Less water – pure joy

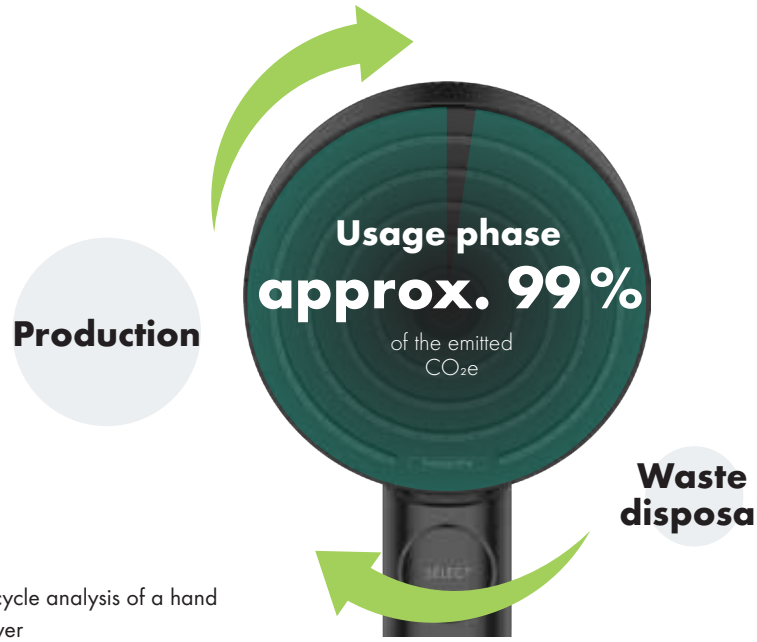

9 out of 10 customers agree: Pulsify EcoSmart is a sensational showering experience that uses **40% less water**.*

* Source: TRND consumer survey with 150 testers, July 2022. Water saved in comparison to the hansgrohe average.

The usage phase of our products offers the biggest CO_2e saving

Our research shows: The usage phase of a hand shower is by far the most CO_2e-intensive. This means around **1,000 times more CO_2e** is emitted when showering than during the manufacturing of the shower. We therefore plan to convert our entire portfolio of showers and taps to "ECO" by 2030. In specific terms, we are reducing the water and/or energy consumption of water-bearing products in usage by at least 22 percent (compared to 2020, the base year).

Life-cycle analysis of a hand shower

Fitted with EcoSmart+, **Tecturis** reduces water consumption to just 4 l/min at 3 bar – without taking away any of the joy water brings. The CoolStart technology also helps users to save energy.

We are part of the circular economy

Pulsify Planet Edition

Planet Edition is all about conserving resources throughout the entire product life cycle. By using recycled materials*, we become part of the circular economy. All while maintaining the famous hansgrohe standard and demonstrating that waste is only waste if we treat it as such.

* Shower handle, WallStoris accessories, hose yarn

Transparent and fact-based

The relevant stakeholders see us as credible because we are transparent about our environmental impacts. For example, we contract independent parties to verify our environmental product declarations and we participate in company rankings.

Installation

The frame is used to easily bring the shower drain to tile level, creating a perfect finish.

Shower drain that is suitable for free in the floor installation in any type of shower area.

Shower drain that is suitable for wall installation in any type of shower area - chic and reliable.

This shower drain can be easily shortened on site so that it fits in any type of shower area.

Shower drain that is suitable for wall installation between two side walls in any type of shower area.

An appealing and reliable drainage solution. This shower drain is installed between two walls.

The high-quality installation set features a pre-assembled seal and is 100% waterproof.

Sustainability

This economical shower consumes up to 60% less water than our conventional ones. This reduces energy costs.

Shower that uses up to 40% less water than our conventional models and this also reduces energy costs.

Actively regulates water consumption – the amount of water can be adjusted via the control dial.

Technologies

The angle of the overhead shower can be adjusted and the water spray can be individually adapted.

Mixes water with air. For a smooth, lower-splash water spray and light yet full shower droplets.

Thermostatic mixer with innovative cooling technology to prevent scalding and unpleasant touching.

An improved waterless siphon with a high drainage capacity of 60 l/min and minimal cleaning effort.

The odour trap itself can be removed for cleaning, even once the drain has been installed.

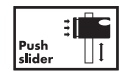

The shower's quick and efficient emptying function reduces the dripping time after showering.

Large overhead showers require a high drainage capacity. This siphon manages up to 60 l/min.

Low-pressure technology enables use at pressures as low as 0.2 bar. Suitable for boilers/heat exchangers.

The height of the hand shower can be single-handedly and smoothly shifted at the touch of a button.

Limescale disappears here as if by magic - by turning the shower head when changing the spray type.

Easy cleaning of the shower drain: remove the cover with grate removal tool and remove all dirt and residue.

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

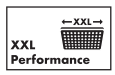

The bath filler can be swivelled under the thermostatic mixer when not in use. Nice and tidy.

A playful way to control the water flow, shower or spray type at the simple touch of a button.

Very dirty dog fur? The amount of water from the DogShower can be increased when required.

Large-scale distribution of the water in the shower so that the whole body is cocooned in feel-good droplets.

Highlights

Spray types

Soothing spray type for your dog. Gently cleans their legs and other sensitive body parts.

Rotating individual sprays that flow into one another for an invigorating and refreshing feel-good massage.

Specialist dog spray type for thoroughly rinsing fur, right down to their undercoat.

Intense spray consisting of thousands of micro-fine droplets. Thorough, soothing and low-splash.

Powerful, stimulating water spray that washes away tiredness and leaves people feeling fit.

Invigorating, focused and powerful spray for the home spa that allows the day's stresses to simply drain off.

Harmonious combination of soft shower rain and a dynamic spray for an indulgent shower every day.

Focused and extremly gentle spray soothing wellness moments and hydrotherapeutic showering.

Full shower rain that pampers your daily showering experience. Perfect for rinsing shampoo.

Extremly soft spray for dogs that gently and quickly cleans dirty paws. A stress-free routine for you and your dog.

Relaxing, micro-fine droplets that softly and silently cocoon the body. For sensual showering.

Invigorating and energizing showering indulgence with full shower rain designed for everyday shower pleasure.

Full shower rain with droplets enriched with air for soft yet efficient and indulgent showering.

Powerful stream that bathes the entire body and feels like a waterfall for wonderful relaxation.

Lavish downpour consisting of individual pearl-like droplets that invigorate mind, body and soul.

Intense water spray that rinses out shampoo in no time at all and is also energising and stimulating.

Caressing water sprays that gently swirl around the body. An act of kindness for the skin, mind and soul.

Invigorating shower rain offering powerful refreshment. Just what is needed in the mornings or after exercise.

Concentrated massage spray that helps to nicely and gently wash away everyday tensions and stress.

Crometta S Showerpipes 1jet with thermostat

Features of all variants

- overhead shower Crometta S 240
- shower head size overhead shower: 240 mm
- spray type overhead shower: Rain
- max. operating pressure: 10 bar
- ball-joint: overhead shower angle adjustable
- hand shower holder inclination angle can be adjusted by 45°
- shower bar diameter: 22 mm
- height-adjustable hand shower holder
- shower arm length overhead shower: 350 mm
- safety stop at 40 °C
- adjustable hot water limitation
- outlets controlled via turning handle
- suitable for continuous flow water heaters
- mounting type: exposed installation
- connection dimension DN15
- connection thread G ½
- centre distance 150 ± 12 mm
- intrinsically safe against backflow
- 2 functions

Vernis Shape Showerpipes 1jet Reno

Features of all variants

- consists of: overhead shower, hand shower, shower hose, hand shower holder
- overhead shower Vernis Shape 230 1jet
- shower head size overhead shower: 230 x 170 mm
- spray type overhead shower: Rain
- spray type hand shower: Rain, IntenseRain
- minimum flow pressure: 1 bar
- max. operating pressure: 10 bar
- ball-joint: overhead shower angle adjustable
- mounting type: exposed installation
- shower bar diameter: 19 mm
- height-adjustable slider with locking push-button slider
- shower arm length: 400 mm
- water connection: Metaflex shower hose 80 cm and 160 cm
- connection dimension: DN15
- connection thread G ½
- suitable for continuous flow water heaters

Drains

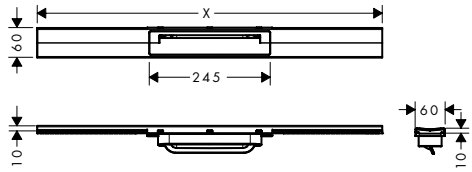

RainDrain Flex Finish sets shower drains cuttable

Features of all variants

- consists of: design grate with removable cover, Dryphon
- mounting type: two-sided
- can be shortened on site
- easy to clean surface
- height adjustable by 10 mm
- up to 60 l/min drainage capacity
- where to use: new construction, renovation
- grate removal tool allows easy removal of the finish set
- with integrated slope
- type of odour seal: mechanical
- Dryphon enables waterless siphon system
- minimal installation height: 67 mm (flat uBox), 102 mm (standard uBox)
- grate material: Stainless Steel 304 (1.4301)
- suitable for primary drainage

RainDrain Point Complete sets point drain

Features of all variants

- consists of: point drain, installation set, pre-assembled sealing membrane, base set, siphon, screed protection cover
- grate material: Stainless Steel 304 (1.4301)
- pre-assembled sealing membrane
- water seal: up to max. 50 mm
- connection diameter: DN40
- direction of outlet: horizontal
- easy to clean surface
- height adjustable by 10 mm
- where to use: new construction, renovation
- tile thickness: up to 18 mm
- removable water seal
- rotatable and adjustable siphon body
- easy to clean siphon
- grate removal tool allows easy removal of the finish set
- with removable hair strainer
- type of odour seal: fluid
- minimal installation height 54 mm
- material siphon: ABS
- mounting type: free in the floor
- simplified installation due to the cutable siphon
- suitable for primary drainage

Design trap Flowstar S

Features

- adjustment distance 60 - 165 mm
- distance to wall 330 mm
- odour trap - backwater height is 75 mm
- connection dimension entry: G 1¼
- connection dimension outlet: DN32

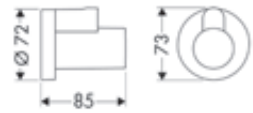

Finish	Code no.
Chrome	52105000
Brushed Bronze	52105140
Brushed Black Chrome	52105340
Matt Black	52105670
Matt White	52105700
Polished Gold Optic	52105990

Cover

Features

- for the facing of an angle valve

Finish	Code no.
Chrome	13950000
Brushed Bronze	13950140
Brushed Black Chrome	13950340
Matt Black	13950670
Matt White	13950700
Polished Gold Optic	13950990

Angle valve with cover outlet G 3/8

Features

- consists of: angle valve, cover
- connection dimension entry: G ½
- connection dimension outlet: G ⅜
- packaging unit: 1 piece

Finish	Code no.
Chrome	13954000
Brushed Nickel	13954820

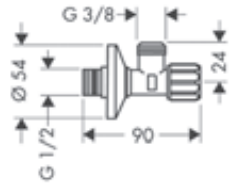

Measurements within scale drawings are in mm.
Technical specifications and units of measure are subject to change.

Angle valve with microfilter outlet G 3/8

Features

- for protection of mixers against dirt inlet, e.g. for electronic basin mixers
- filter element can be removed and cleaned
- connection dimension entry: G ½
- connection dimension outlet: G ⅜
- packaging unit: 1 piece

Finish	Code no.
Chrome	13904000

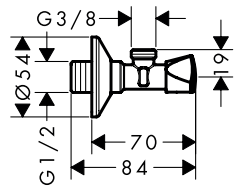

Optional parts:	Finish	Code no.
 Cover	Chrome	13950000

Angle valve E outlet G 3/8

Features

- connection dimension entry: G ½
- connection dimension outlet: G ⅜
- packaging unit: 1 piece
- noise class: I
- flow rate class: A

Finish	Code no.
Chrome	13902000

Optional parts:	Finish	Code no.
 Cover	Chrome	13950000

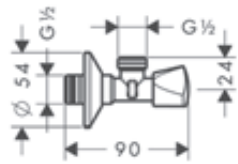

Measurements within scale drawings are in mm.
Technical specifications and units of measure are subject to change.

Angle valve E outlet G 1/2

Features

- connection dimension entry: G ½
- connection dimension outlet: G ½
- packaging unit: 1 piece
- noise class: I
- flow rate class: A

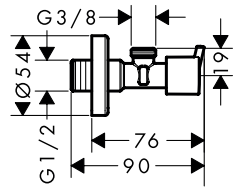

Finish	Code no.
Chrome	13903000

Angle valve S outlet G 3/8

Features

- connection dimension entry: G ½
- connection dimension outlet: G ⅜
- packaging unit: 1 piece
- noise class: I
- flow rate class: A

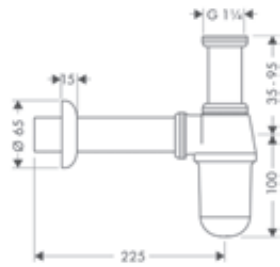

Finish	Code no.
Chrome	13901000

Cup-shaped trap standard model

Features

- main material: brass
- adjustment distance 35 - 95 mm
- distance to wall 225 mm
- odour trap - backwater height is 50 mm
- connection dimension entry: G 1¼
- connection dimension outlet: DN32

Finish	Code no.
Chrome	52053000

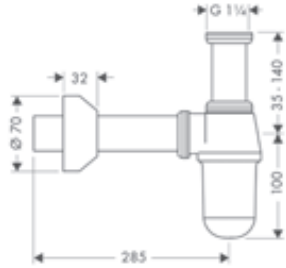

Measurements within scale drawings are in mm.
Technical specifications and units of measure are subject to change.

Cup-shaped trap easy to install

Features

- adjustment distance 35 - 140 mm
- distance to wall 285 mm
- odour trap - backwater height is 50 mm
- connection dimension entry: G 1¼

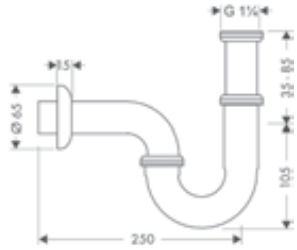

Finish	Code no.
Chrome	52010000

Pipe trap standard model

Features

- adjustment distance 35 - 85 mm
- distance to wall 250 mm
- odour trap - backwater height is 50 mm
- connection dimension entry: G 1¼

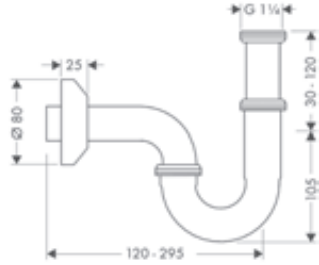

Finish	Code no.
Chrome	53002000

Pipe trap easy to install

Features

- adjustment distance 30 - 120 mm
- distance to wall 300 mm
- odour trap - backwater height is 50 mm
- connection dimension entry: G 1¼

Finish	Code no.
Chrome	53010000

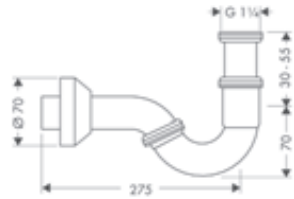

Measurements within scale drawings are in mm.
Technical specifications and units of measure are subject to change.

Pipe trap standard model for bidet

Features

- adjustment distance 30 - 55 mm
- distance to wall 275 mm
- odour trap - backwater height is 50 mm
- connection dimension entry: G 1¼

Finish	Code no.
Chrome	55237000

Curved pipe 30 cm

Features

- length 300 mm
- with edge
- material: brass
- connection dimension G 1¼

Finish	Code no.
Chrome	53555000

Straight pipe 50 cm

Features

- length 500 mm
- material: brass
- connection dimension G 1¼

Finish	Code no.
Chrome	53493000
Matt Black	53493670
Matt White	53493700

Measurements within scale drawings are in mm.
Technical specifications and units of measure are subject to change.

Straight pipe 30 cm with rim

Features

- length 300 mm
- with edge
- material: brass
- connection dimension G 1¼

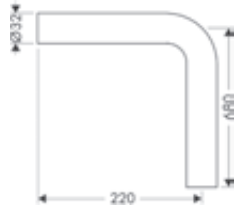

Finish	Code no.
Chrome	53428000
Matt Black	53428670
Matt White	53428700

Angle pipe 90°

Features

- material: brass
- connection dimension G 1¼

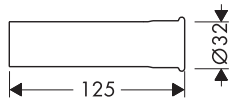

Finish	Code no.
Chrome	53646000

Extension pipe 12.5 cm

Features

- material: brass
- connection dimension G 1¼

Finish	Code no.
Chrome	53990000

Measurements within scale drawings are in mm.
Technical specifications and units of measure are subject to change.

Wall flange

Features

- material: brass
- connection dimension DN15
- packaging unit: 100 pieces
- Price refers to 1 piece

Finish	Code no.
Chrome	06010000

Highlights

Sustainability

Simple and precise control for saving water. The EcoStop function regulates the water flow to max. 10 l/min.

Actively regulates water consumption – the amount of water can be adjusted via the control dial.

Technologies

Mixes air into the water. For a soft, less splashing water jet and full, light drops.

Thermostatic mixer with innovative cooling technology to prevent scalding and unpleasant touching.

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

The bath filler can be swivelled under the thermostatic mixer when not in use. Nice and tidy.

Safety lock at over 40 °C - temperature limit, which prevents excessively hot water from escaping.

A playful way to control the water flow, shower or spray type at the simple touch of a button.

Thermostat with integrated temperature control for constant water temperature.

ShowerTablet Select Shower thermostats for exposed installation

Features of all variants

- CoolContact thermostat: Prevents the housing from heating up, making showering even safer
- min. operating pressure: 1 bar
- max. operating pressure: 10 bar
- Safety stop at 40 °C
- temperature limitation adjustable
- with isolated water conduction
- non-return valve
- with silencer
- shelf made of safety glass
- surface shelf: mirror glass
- material handles: metal
- connection dimension: DN15
- connection type: adjustable connection, G ½
- dirt filter included

Highlights

Sustainability

Actively regulates water consumption – the amount of water can be adjusted via the control dial.

Actively regulate water consumption - the amount of water can be adjusted using the control dial.

Technologies

Safety lock at over 40 °C - temperature limit, which prevents excessively hot water from escaping.

A playful way to control the water flow, shower or spray type at the simple touch of a button.

Thermostat with integrated temperature control for constant water temperature.

RainSelect Thermostats for concealed installation

Features of all variants

- simultaneous use of several outlets
- depending on volume flow and installation situation approx. 50% flow rate reduction and integrated shut off function
- thermostat cartridge, Start/stop valve to operate the functions
- maximum flow rate at 3 bar: 38 l/min
- flow rate per outlet: 26 l/min
- flow rate by simultaneous use of all outlets: 38 l/min
- min. operating pressure: 1 bar
- max. operating pressure: 10 bar
- Safety stop at 40 °C
- temperature limitation adjustable
- non-return valve
- connection type: basic set

Sustainability

Energy saving tap that supports conserving precious resources, reducing CO2 emissions and cutting costs.

The special Eco cartridge indicates with a slight resistance when 50% of the flow rate has been reached.

Fitting that saves up to 20% more water compared to our converntionel models and thus also energy.

Tap that only uses 5 l/min and thus reduces water and energy costs. Eco-friendly and wallet-friendly.

Actively regulate water consumption - the amount of water can be adjusted using the control dial.

Technologies

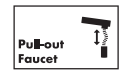

Mixes air into the water. For a soft, less splashing water jet and full, light drops.

Comfort at all levels – the tap fits in perfectly with the chosen wash basin settings.

Low-pressure technology enables use at pressures as low as 0.2 bar. Suitable for boilers/heat exchangers.

Significantly more space to move and maximum flexibility around the wash basin, for example when washing hair.

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

Remove and clean the aerator in no time at all with the aid of a coin - no tools required.

A touch of a button is all it takes for the water in the bathtub to come out of the bath spout or shower.

One press of a button is all it takes to regulate the flow of water at the washbasin.

Contactless tap that responds to infrared rays. Water only flows when the tap can sense warmth from the hands.

Spray types

Powerful, stimulating water spray that washes away tiredness and leaves people feeling fit.

Targeted spray that gently relaxes for soothing wellness moments.

Focused and extremly gentle spray soothing wellness moments and hydrotherapeutic showering.

Invigorating and energizing showering indulgence with full shower rain designed for everyday shower pleasure.

Full shower rain with droplets enriched with air for soft yet efficient and indulgent showering.

Powerful stream that bathes the entire body and feels like a waterfall for wonderful relaxation.

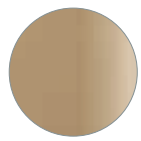

Concentrated massage spray that helps to nicely and gently wash away everyday tensions and stress.

Tecturis S Single lever basin mixers Fine CoolStart with swivel spout

Features of all variants

- consists of: single lever basin mixer, waste set
- ComfortZone 210
- projection: 154 mm
- spout height: 187 mm
- handle variant: lever handle
- swivel range 120°
- spray type: normal spray
- ceramic cartridge
- suitable for continuous flow water heaters
- push-open waste set G 1¼
- material waste set: metal
- connection type: G ⅜ connections
- connection dimension: DN15
- cold water in basic handle position
- EU taxonomy: max. 6 l/min - Substantial Contribution (SC) possible

Tecturis E Single lever basin mixer 110 with bidette hand shower and shower hose 160 cm

Features

- consists of: single lever basin mixer, bidette hand shower, shower holder, shower hose
- ComfortZone 110
- projection: 144 mm
- spout height: 117 mm
- handle variant: lever handle
- spray type: WaterfallStream
- spray type Bidette: shower spray
- maximum flow rate at 3 bar: 5,8 l/min
- ceramic cartridge
- temperature limitation adjustable
- suitable for continuous flow water heaters
- push-open waste set G 1¼
- material waste set: metal
- connection type: G ⅜ connections
- connection dimension: DN15
- non-return valve
- EU taxonomy: max. 6 l/min - Substantial Contribution (SC) possible

Highlights

Technologies

Chemical Resistant

Enameled surface can protect from daily chemicals

Hygienic

Ultra-smooth surface keeps hygienic and nothing to hide

Impact Resistant

Solid titanium steel can resist impact in accidence

Scratch Resistant

Enameled titanium steel protects from scratch

Smart Clean

High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

Highlights

Installation

The sink is installed flush with the worktop to create a smooth transition between worktop and sink.

The sink is inserted from above into a cut-out in the worktop.

The sink is mounted below the cut-out. It is therefore almost invisible, making the kitchen look more spacious.

Sustainability

Energy saving tap that supports conserving precious resources, reducing CO2 emissions and cutting costs.

The special Eco cartridge indicates with a slight resistance when 50% of the flow rate has been reached.

Tap that uses just 6 l/min and thus reduces water and energy costs. Good for the environment and your wallet.

Technologies

Mixes air into the water. For a soft, less splashing water jet and full, light drops.

Ensures maximum room to move at the sink, both in terms of height and the ability to swivel from side to side.

Low-pressure technology enables use at pressures as low as 0.2 bar. Suitable for boilers/heat exchangers.

A pull-out spray or spout enormously expands our the operating radius at the sink.

Limescale deposits and dirt can be simply rubbed off using a finger, creating less of a need to clean.

Start the water, stop the water: One push of a button is all it takes to control the water flow at the sink.

Sink in front of the window? This kitchen tap can be easily removed from its holder and placed on its side.

Smooth, silent and protected hose guidance. The pull-out spray can be extended to max. 76 cm.

The compact solution for smooth and safe hose handling. Suitable for any kitchen base unit.

Spray types

Crystal-clear spray for the sink with no air mixed in, perfect for quickly filling vessels.

Full spray enriched with air that feels lovely and helps with all sink-based routines.

Flat, super-soft spray that does not splash, is highly efficient and conserves resources.

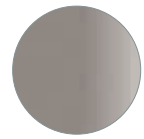

Resource-conserving and efficient kitchen spray that can also be used to quickly rinse food.

Round tube Showerpipes – flexible in height

Regardless of the height of the room and the water connections, a number of round tube Showerpipes can always be placed in the optimum position. The round tube can only be cut to the right length on the underside, if needed, so individual customer requirements can also be met. You will find additional information in the installation manual.

Room height A

Room height B

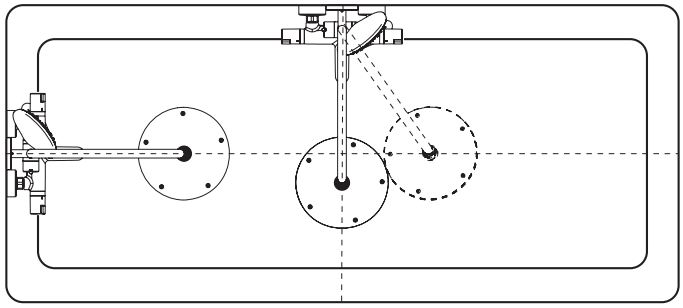

All dimensions in mm

Versatile positioning

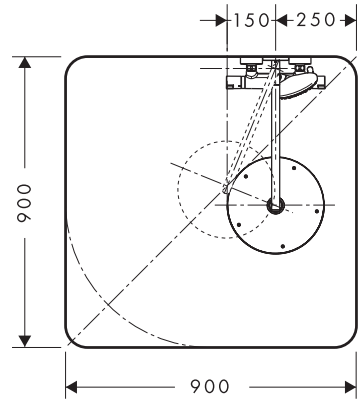

The swivelling shower arm makes the Showerpipes extremely versatile – perfect for use in any bath tub or shower situation.

Bath tub installation

Showerpipes can easily be installed on the front or long side of the bath tub, according to the positions of the water connections. The overhead shower can also be aligned individually.

Shower installation

Often, the existing water connections are not positioned in the middle of a shower. Thanks to the swivelling shower arm, the overhead shower can still be placed in the middle of the shower after installation.
