AXOR MY EDITION

A PERSONAL STATEMENT.
IN PERFECTION.

5

Setting oneself apart. Satisfying the need for uniqueness. Striking out in a new direction. This is what AXOR MyEdition stands for. Clear, linear design sets the stage for personal creativity. With a wide range of plates. Available in exclusive materials upon request. Individualization. In perfection.

Design: Phoenix Design

Constructed as if they were a single entity. Monolithic. Rectilinear. Reduced. Dominated by its rectangular design. Striking, from the plate to the handle. The generously-sized plate creates a stage for one's own creativity. In Mirror Glass, Black Glass or other materials. Avantgarde for the age of individualization.

A new concept for faucets. It starts with the metal body, chrome-plated or in one of 13 different AXOR FinishPlus special finishes. Crowned with a fascinating plate. With an exclusive portfolio of materials: Glass, metal, wood, marble, leather. AXOR Signature opens the door to groundbreaking possibilities. More radiance. New sensuous experiences. Another dimension of individualization. In perfection.

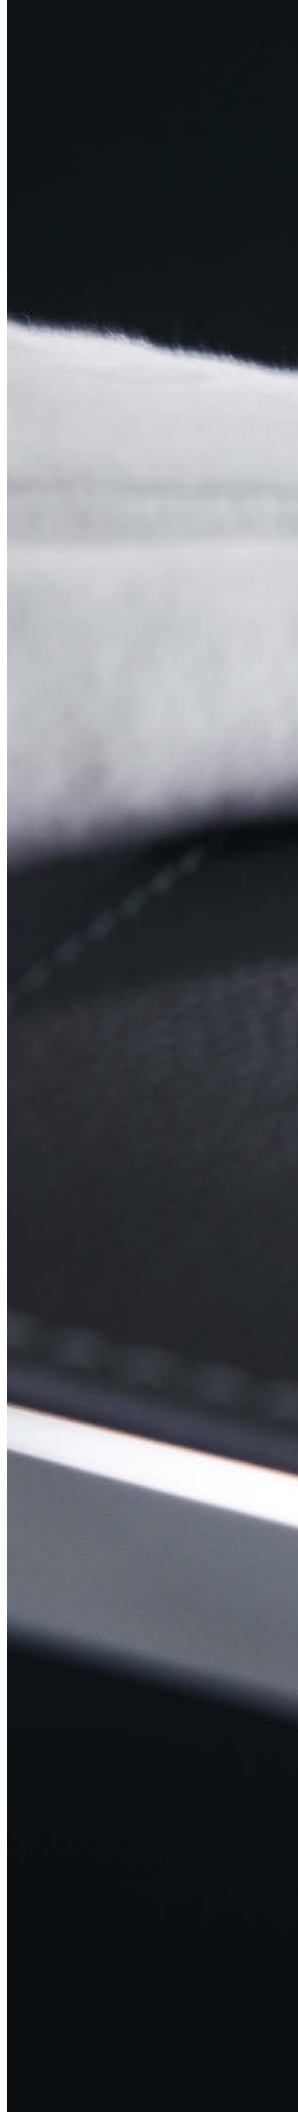

Sophisticated materials, uniquely presented in the AXOR MyEdition plate. First, developed with painstaking care. Then, crafted with masterly precision. Finally, tested to the highest standards of quality and endurance. It's all part of the relentless pursuit of perfection.

A fascinating example: Luxurious walnut veneer. Its journey from the tree to the faucet begins in America. The delicate sheets of wood are transformed into sturdy components with rich brown tones and beautiful patterns of striped grain.

Or white Lasa marble from South Tyrol, with exquisite gold veins. Chosen with care by one of the world's leading handlers. Cut with precision from the marble block for a stone veneer with an unparalleled surface feel. Its dark counterpart, Nero Marquina, from quarries in the Basque region in Northern Spain. An impenetrable black. With distinctive white veins. Maximum of elegance.

For leather, the selection is equally fastidious: Resilient Nappa leather of European origin. Its edges are crafted with the utmost precision. Its handfeel is characteristically soft.

Distinctive originals. Each plate a unique specimen. The ultimate choice for washbasins and bathtubs.

True luxury lies in the fulfilling of one's personal dreams. The 13 exclusive PVD surfaces of AXOR FinishPlus set new standards of richness, brilliance, and durability, while maximizing personal choice. From Gold Optic to Black Chrome. Brushed or Polished. Single color or two. Manufactured using state-of-the-art engineering. Applied to unique pieces and large-scale productions alike. 225 ways to express one's personality. Individualization par excellence.

Brushed Black Chrome/Brushed Bronze

14

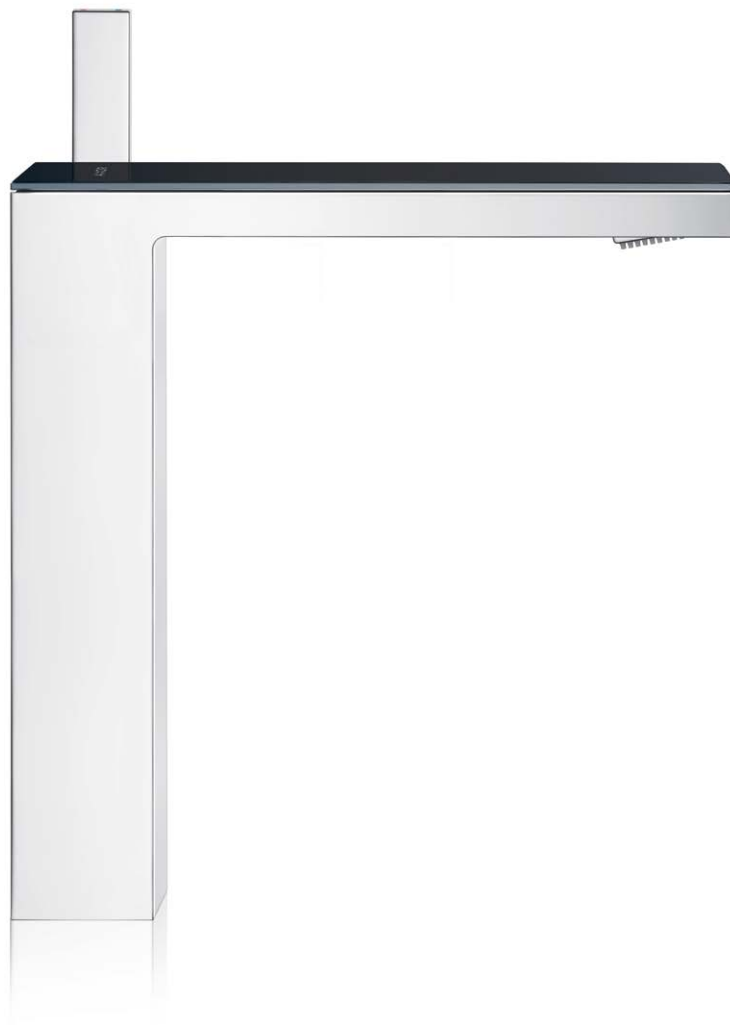

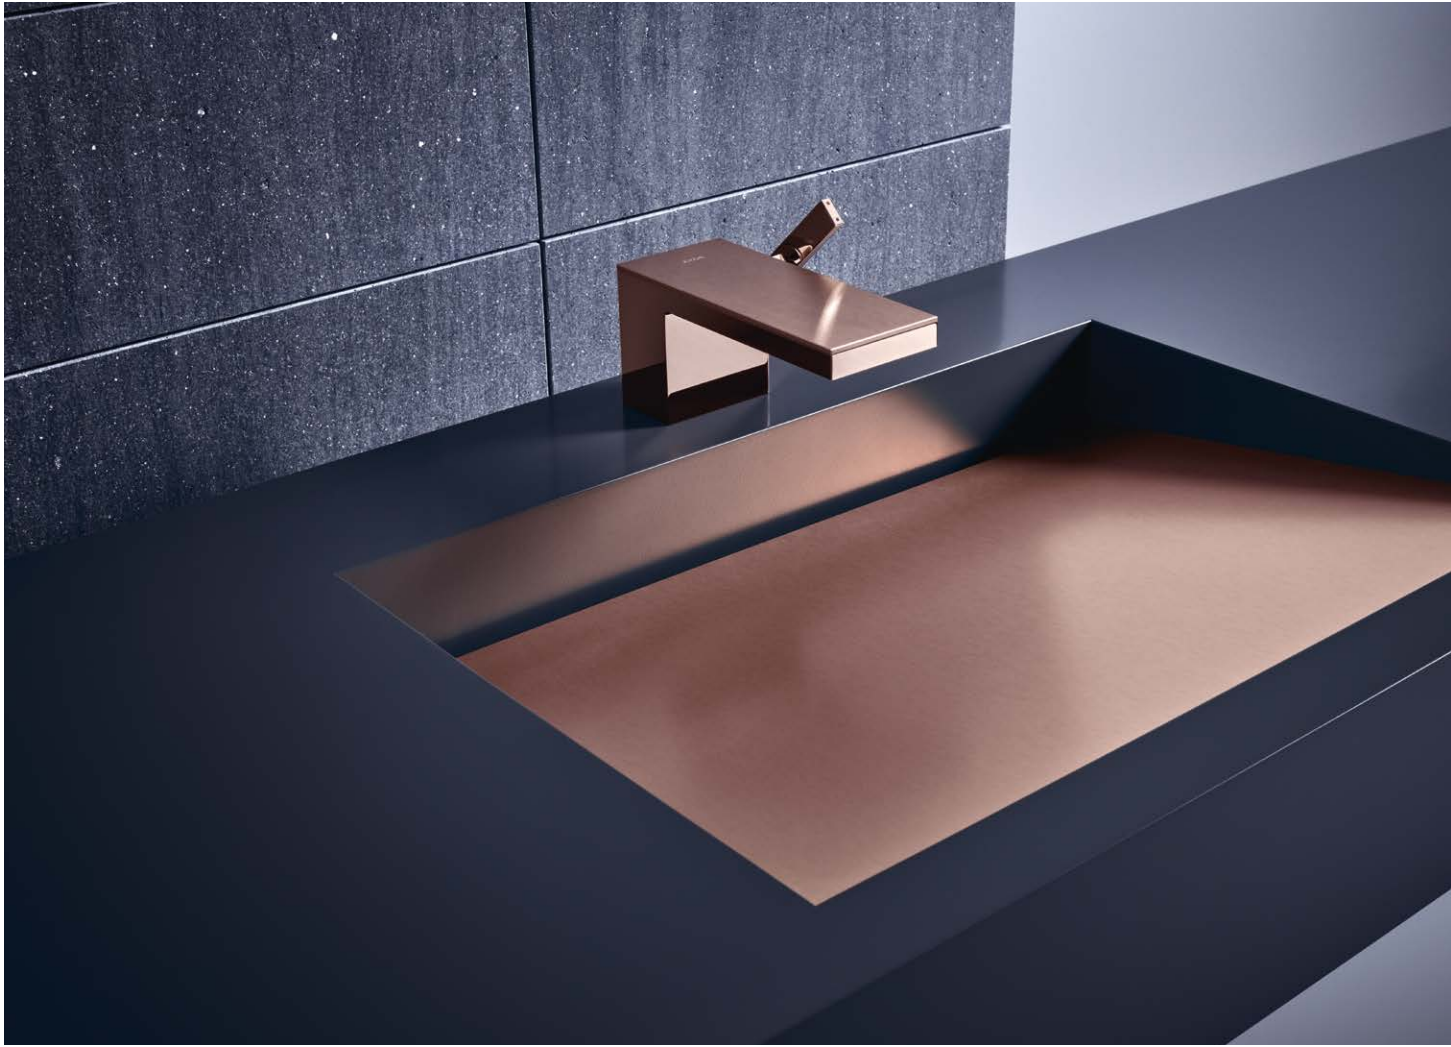

The merger of high technology and master craftsmanship: 13 AXOR FinishPlus special finishes with individual character. Each color the result of intensive development. Finished in the AXOR vacuum chambers using the most advanced Physical Vapor Deposition (PVD) processes: An arc of light erupts in the high vacuum. Gases fuse with zirconium. The mixture is applied to the Chrome surface of the product, adding exquisite color and shine to the surface. The additional layer, up to 0.3 microns in thickness, makes the finish more robust. More resistant to scratches, cleaning agents and salty sea air.

More exclusive and refined. More sensual to the touch. Particularly with the brushed varieties. Finished by hand, the direction of the brush strokes carefully controlled to complement the design. Every step of the process bringing it closer to perfection.

Monoliths in the bathroom. Linear and clear. With two fascinating variables, height and plate material in Black Glass or Mirror Glass. Equally impressive is the gentle PowderRain technology. Its spray is the natural outcome of the architectonic design. Fine droplets envelop the hands, cocooning them in a sensuous mist.

Polished and brushed. An exciting combination, sensuous to the touch. The surface finish enhances the radiance to perfection. As with AXOR FinishPlus polished and brushed surfaces in Red Gold. Possible through special order from AXOR FinishPlus. The ultimate expression of an extravagant personality.

The widespread faucet in Chrome with Mirror Glass: Equally distinctive in its planarity, from plate to handles.

Two of the many possible combinations: Chrome with Mirror Glass (left), and Chrome with White Marble (right).

Materials with character. Such as the plate in Black Walnut veneer, a tribute to the beauty of nature. Perfect for the AXOR MyEdition wall-mounted faucet. For a complete look, to be combined with a washbasin in matching Black Walnut.

Individualization continues to the bathtub. Monolithic and striking: The freestanding tub filler, its White Marble plate making an unmistakable statement. No less masterful: The 4-hole roman tub set with its plate of luxurious Black Marble.

AXOR MY EDITION: WHICH PLATE DO I ORDER?

Some AXOR MyEdition products are sold without a plate, so you can customize the look of your product. Plates are available in two sizes. Use this table as a guide for ordering the correct plate.
