Hansgrohe Improves Sustainability Performance

For the second time in a row, the Hansgrohe Group has been awarded the EcoVadis Platinum Medal, once again ranking among the top 1 percent of companies assessed. hansgrohe also improved its CDP climate ranking from B to A-.

Schiltach, February 2026. The Hansgrohe Group has consistently improved its sustainability performance in 2025. For the second time in a row, the Black Forest-based sanitary specialist received the EcoVadis Platinum Medal and, with an increase in points from 83 to 86, ranks among the top 1 percent of companies assessed. Hansgrohe also improved its CDP climate ranking from B to A-. These awards underscore that Hansgrohe is effectively implementing its sustainability strategy and making substantial progress in climate protection, circular economy, and resource efficiency.

Gently cleans. Naturally with water.

AXOR Drains

A new shore of watiful living.

HG RainDrain

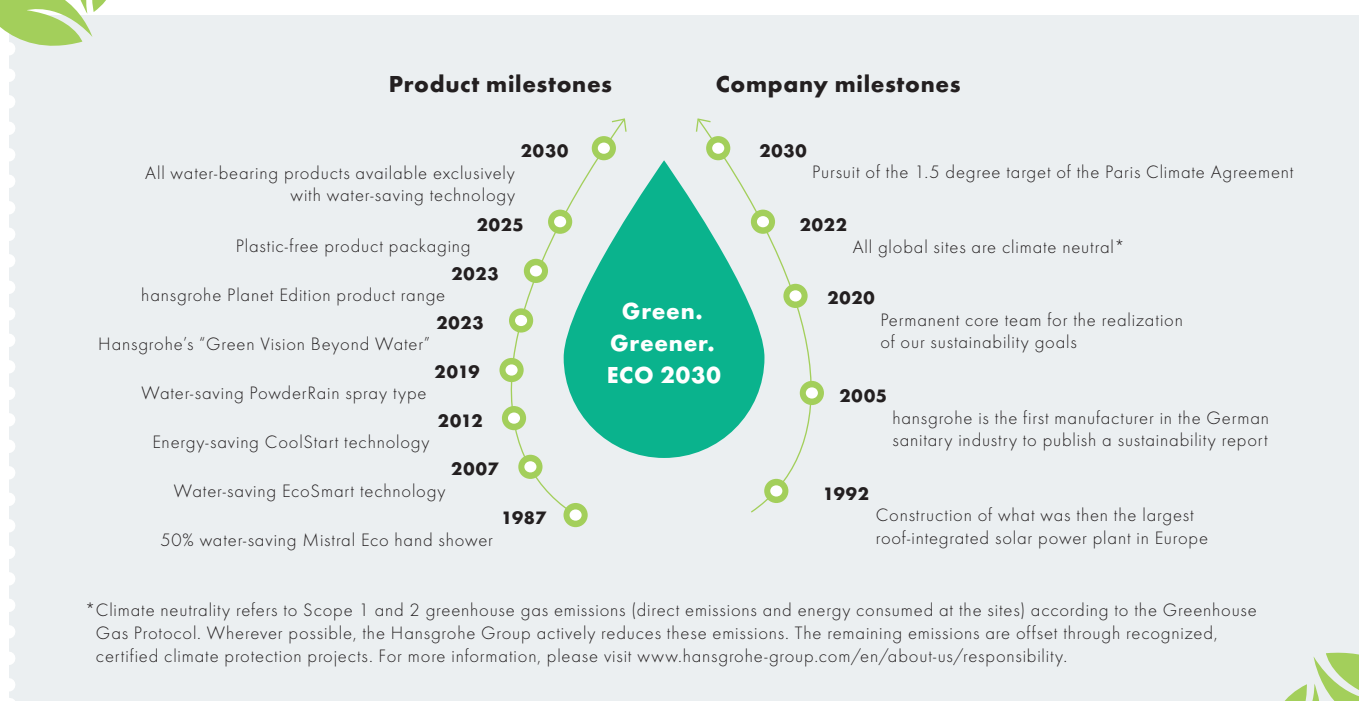

High-quality waste system for all bathroom concepts.

IN TOUCH with our planet

Water is life and our passion. We create inspiring moments while protecting this precious element: with water- and energy-saving showers, faucets, and technologies. However, the production and disposal of our products also have an impact on the climate and resource cycles of our planet, for which we take responsibility.

Our path to green transformation

Life cycle analysis of a hand shower

The usage phase of a hand shower is by far the most CO₂-intensive. Approximately **1,000 times more** CO₂ is emitted than during the production. That is why we see it as our mission to adjust our entire shower and faucet range to "ECO" by 2030. In concrete terms, this means that we will reduce the water and/or energy consumption of water-bearing products in usage by at least 22 percent compared to the 2020 base year.

Production

**Usage
approx. 99%**
of the emitted
CO₂e

Disposal

Our contribution to protecting our planet

Hansgrohe preserves water

Safe, fresh water is a valuable, unevenly distributed resource. It is vital that it is used sparingly in regions where there are water shortages. However, even in water-rich areas, constant investment in its treatment is essential. Thanks to our water-saving products, we preserve water cycles without compromising the shower experience.

Hansgrohe protects the climate

Our products are friendly and support the goals of the Paris and Glasgow Climate Summits. But more importantly: the use of warm water requires a lot of energy. Saving water using our products also means reducing the energy consumption of sanitary facilities and thereby protecting the environment.

Hansgrohe will be part of the circular economy

Each resource that no longer needs to be obtained, but rather can be recycled, preserves our ecosystem and saves energy and water in our production lines. We are developing long-lasting, repairable, and recyclable products and sustainable packaging, and are working towards using materials that will preserve our ecosystem as much as possible.

Delight in **saving water**

Replacing a standard hand shower with a water-saving version is worthwhile. Thanks to our EcoSmart technology saves up to 40 percent more water than our conventional products. By saving water, less heat energy is required, which also reduces gas and electricity bills.

Our water savings calculator determines how many resources you can save resources with our EcoSmart shower – without compromising showering pleasure. The following **sample calculation** applies to a family of four and assumes that each family member showers for five minutes a day (2022, costs suggested here are the average for GER).

The difference you can make

Showering with the Raindance Select S hand shower 120 3jet EcoSmart 9 l/min.

3 trees

could be watered for one year
with your saving of 47,449 liters.

AXOR SUITE BASINS & BATHTUB

Axor wash basins and bath tubs are extraordinary bathroom objects that **enhance a bathroom design defined by an AXOR Collection** with very Individual aesthetics.

In addition to exclusive mixers, showers and accessories, **AXOR also offers unconventional wash basins and bathtubs.**

They perfectly can be combined with mixers from various bathroom collections. AXOR wash basins and bathtubs for complete personalization of bathroom design: Especially when used specifically as individual design objects or to enhance a bathroom design defined by an AXOR collection.

Uniquely universal - matching your character

Rectangular or circular, the AXOR Suite basins and bathtub are timeless, universal, elegant forms, characterized by small radii, soft and smooth inner basins. Specially finished elements come in a choice of Matt Black, Chrome or any of the AXOR FinishPlus polished or brushed surfaces.

Its size alone makes the bathtub the centerpiece in most bathrooms. In the elegant **AXOR Suite model, Philippe Starck** has not only put emphasis on a timeless, universal design, but also on durable materials.

The use of SolidSurface, a durable, stain-resistant surface derived of natural materials and pure acrylic resin meet Starck's claim: "Designed to last forever." Non-porous and easy-to-clean, SolidSurface is ideal for environments that require the highest standards of hygiene.

A strong statement in the bathroom

The AXOR Suite wash basin and bathtub combine metal and SolidSurface, representing imperishability and elegance.

The organic shapes of the wash basins in the AXOR Massaud collection are inspired by nature. These products invite us to celebrate the moment and the water.

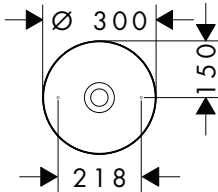

The design of the AXOR Urquiola wash basins and bathtubs recalls the familiar shape of a nostalgic washtub.

hansgrohe ExcellentFit

Faucet and washbasin in harmony

The hansgrohe Technical Service Center has developed an in-depth test procedure to ensure that there will **be no splashing, design conflict or loss of comfort, in the combination of a faucet and washbasin.** The **hansgrohe ComfortZone test** guarantees you the ideal combination of faucet and washbasin. Our sanitary experts carry out in-home testing to find out just how well customers' own faucets work in combination with our own washbasins as well as with popular washbasins from leading manufacturers. For more reliability during the planning process and top-quality consultation.

For more information visit
pro.hansgrohe.com/excellentfit.

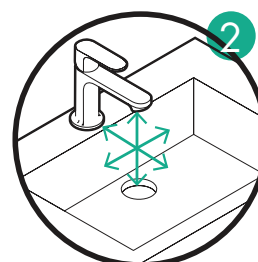

Less splashing

Does the water splash when the water is running? We open and close the faucet at different water pressures and evaluate the data and patterns obtained.

More comfort

Does the combination of faucet and washbasin offer enough usable space? In a practice-oriented testing we check whether comfortable handwashing is possible.

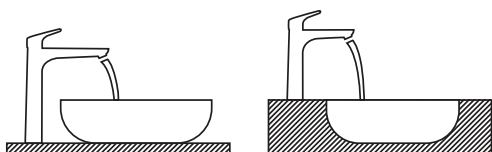

Fewer water stains

We field test the combinations under everyday conditions, including observing and evaluating the type of water jet or the occurrence of splashes.

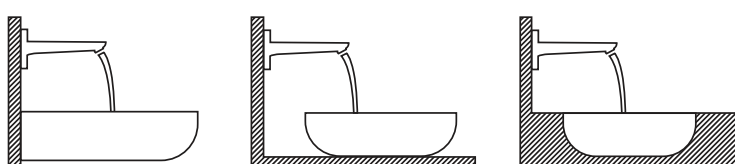

The right fitting for every need

Mixer free standing/exposed

Mixer wall-mounted

**When you imagine
your dream bathroom,
what does it look like?**

Or, even more important,
what does it feel like?

With our latest creations,
hangrohe encourages you
to find an answer.

Your answer.

Realize your dream of the perfect bathroom

The path to the dream bathroom does not always run smoothly. Many decisions have to be made, as well as compromises with your partner, or sometimes your own ideas have to be adapted to the conditions of the room. With hansgrohe, you can be sure that you will find solutions for all your wishes and that the process of designing your oasis of well-being will be as pleasant as possible.

This way, the planning process for the perfect bathroom also triggers feelings of happiness and anticipation.

The Perfect Fit for You

At hansgrohe, we believe in curating a bathroom experience that caters to a diverse range of everyday life and lifestyles. Our extensive range of products empowers you with the freedom and independence to design your unique bathroom experience aligned with your needs.

Explore innovative solutions that blend seamlessly into your lifestyle and enhance your daily routines in three simple steps.

Your **dream bathroom** in just three steps

1 Which design language speaks to you?

With our products, you can usually choose between three geometric shapes, depending on the product type. You also have this freedom of choice with most of our showers, faucets, and washbasins. When planning your bathroom, decide on a design or combine as you please.

S stands for **flowing, soft and round shapes.**
Q combines **soft and straight lines.**
E concentrates on **edges and clear contours.**

Be inspired by our passion for water!

Our faucets and washbasins.
match both functionally and aesthetically, so that
a harmonious ambience is guaranteed.

Surface designs with that certain something

Time for more diversity. Time for more individuality. Give your bathroom character with the hansgrohe. With our wide range of design options, you can enhance your personal aesthetics in your bathroom oasis and show: That's my style.

2 FinishPlus

The matt trend colors **Matt Black** and **Matt White** can be used as a purposeful contrast and create a special atmosphere in the bathroom. The stylish PVD finishes **Polished Gold Optic**, **Brushed Black Chrome**, and **Brushed Bronze** combine elegance and modernity and turn your bathroom surfaces into a visual highlight. But the timeless classic **Chrome** also enchants interior fans, offering delicate sophistication.

FinishPlus: Six color finishes

3 hansgrohe ExcellentFit for greater flexibility and comfort

The **hansgrohe ComfortZone test** makes finding the perfect combination of faucet and washbasin a breeze and ensures a harmonious interaction. Specifically, the test runs in our Technical Service Center in three phases: The spray behavior of the water is examined in the spray test. In the free space test, we check whether it is possible, for example, to wash your hands comfortably or to fill a vase easily. Finally, the combination is tested in a practical test under everyday conditions, where, among other things, the type of water jet or the occurrence of splashes are observed and evaluated.

For more information, visit <https://pro.hansgrohe.com/advice/comfortzone>

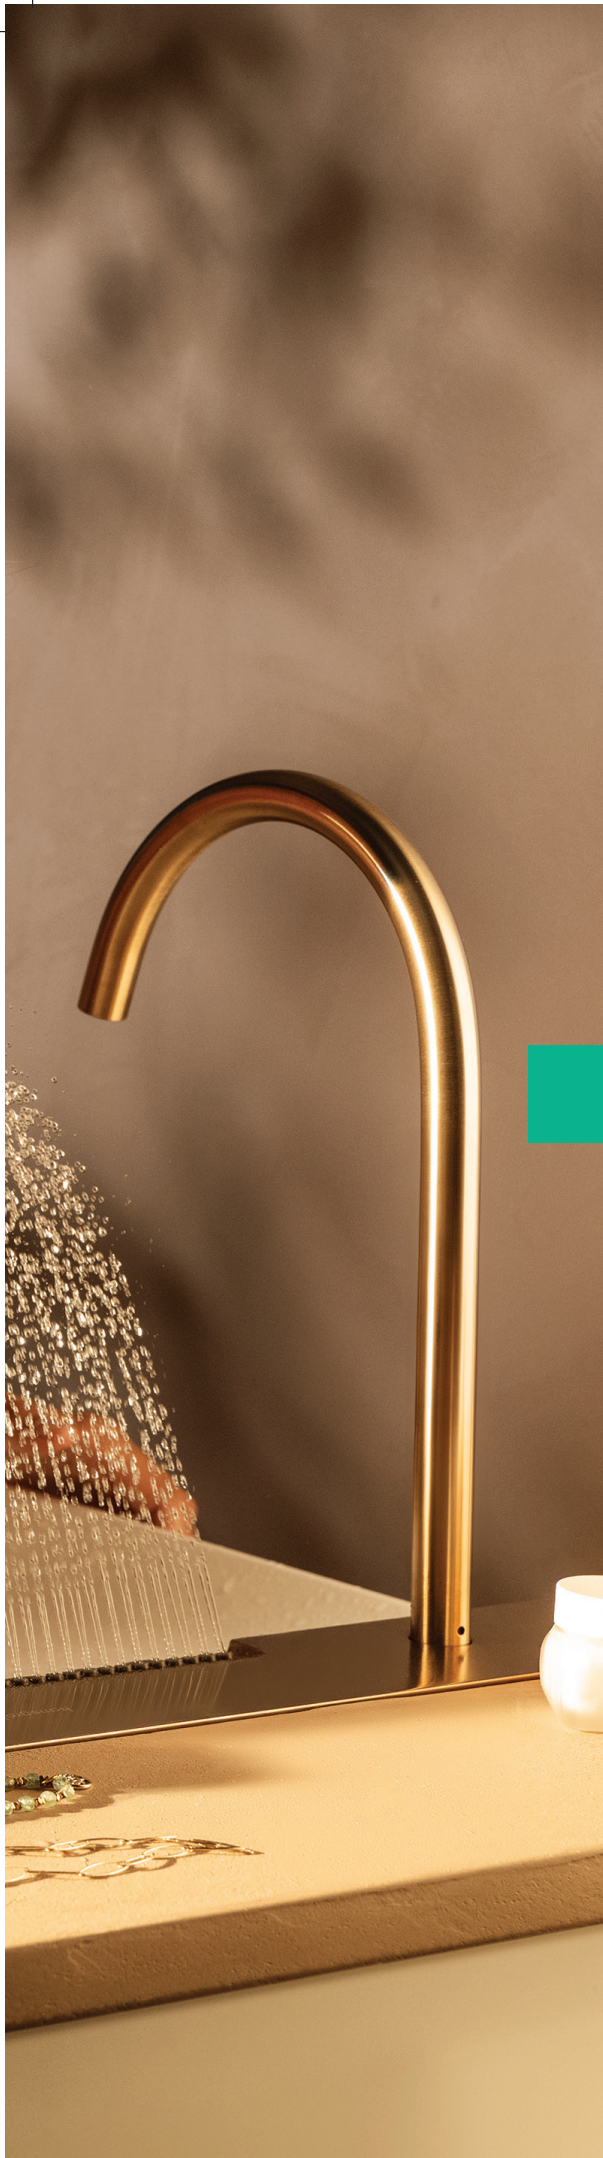

Design language that reflects your individual product preferences.

The combination of PVD finishes elevates the sophistication and contemporary feel of bathroom environments.

AVALEGRA

Enjoy the surprisingly impressive **fusion of basin and faucet** that combines the familiar and the new. This harmonious balance between comfort and uniqueness makes your **water experience as invigorating, natural and effortless** as possible.

AVALEGRA

Name that
stands for, water

Derived from 'Allegra',
which stands for joy of life

Expand your expectations. A warm, gentle welcome to Avalegra.

Imagine a washplace that is more than just a WashPlace. Imagine a faucet that is more than just a faucet. Imagine a water experience and sensation unlike anything that has come before. That's Avalegra.

Avalegra is not simply a new take on the WashPlace; it is about reimagining people's needs. Avalegra doesn't impose; it offers. Avalegra doesn't sit back; it approaches. Avalegra doesn't raise questions; it provides answers.

With Avalegra, hansgrohe presents **a fusion of wash basin and faucet that opens up a new chapter in the history of the washplace.** Basin and faucet come even closer together, forming a harmonious unit and providing you with an even more intense water experience.

Washbasin and Faucet. Never So United.

When designing Avalegra there was the inspiration of natural user experience with water. Just imagine the water is coming from the bottom and you can use both hands dealing with water in a playful way. It is the fusion of something what is quite artificial and architectural with something that is soft and waterful.

Avalegra is a unique fusion of basin and faucet. It represents the harmonious **balance between comfort and uniqueness**, the convergence of minimalist aesthetics and maximum water experience, taking the symbiosis of human, water, and space to new heights.

Everything about Avalegra is based on the idea of making your time at your WashPlace as amazing, natural, and effortless as possible. The result is a completely new way to experience water at the wash basin; closer and more enjoyable than ever before.

A wash basin. And a work of art.

Avalegra is not just the next phase of bathroom evolution; it's also a design piece. From the beginning, Avalegra was planned and developed as a unique and coherent bathroom product. The design seamlessly integrates all the essential elements of a washplace with a strong focus on human-centric design.

The straight-lined and thin-walled geometric design with precise edges looks tidy and supports a minimalistic and modern bathroom appearance. Even the flow of water follows a clear concept. Inspired by nature, the water moves in a unique way. On one hand, it flows more conventionally from top to bottom, reminiscent of a waterfall with its powerful torrents cascading into the valley.

However, the water can also take the reverse path, flowing from bottom to top, resembling a bubbling spring that brings water from deep underground up to the surface. Moreover, the water is softly captured by the solid surface and gently guided over the nearly invisible drain in almost meditative movements.

XUNIVA EVO

Xuniva Evo transforms your WashPlace into a **magnificent infinite water experience**, that is not only characterized by timeless beauty, but also overflowing with boldness and personality your personality, to be more precise. Its unique design makes a statement while also embodying the feeling of being one with the flow of water.

A flow of water that embraces you.

Water is beautiful. It's relaxing, refreshing, exciting, revitalizing, and truly one of the most important aspects of your daily life. To pay homage to its beauty, we created something equally stunning: Xuniva Evo, an exquisitely designed wash bowl that is **a truly a work of art** and fits perfectly in your bathroom – especially when combined with other hansgrohe products.

With Xuniva Evo, your bathroom becomes much more than just the place where you carry out your daily routines. It's an art gallery where you can express yourself. A place you want to visit every day, just to appreciate the beauty of water. A place where you can enjoy and **unwind, relax and refresh**.

And a place that represents something, that inspiring and stimulating – art itself.

Welcome to the art of Water.

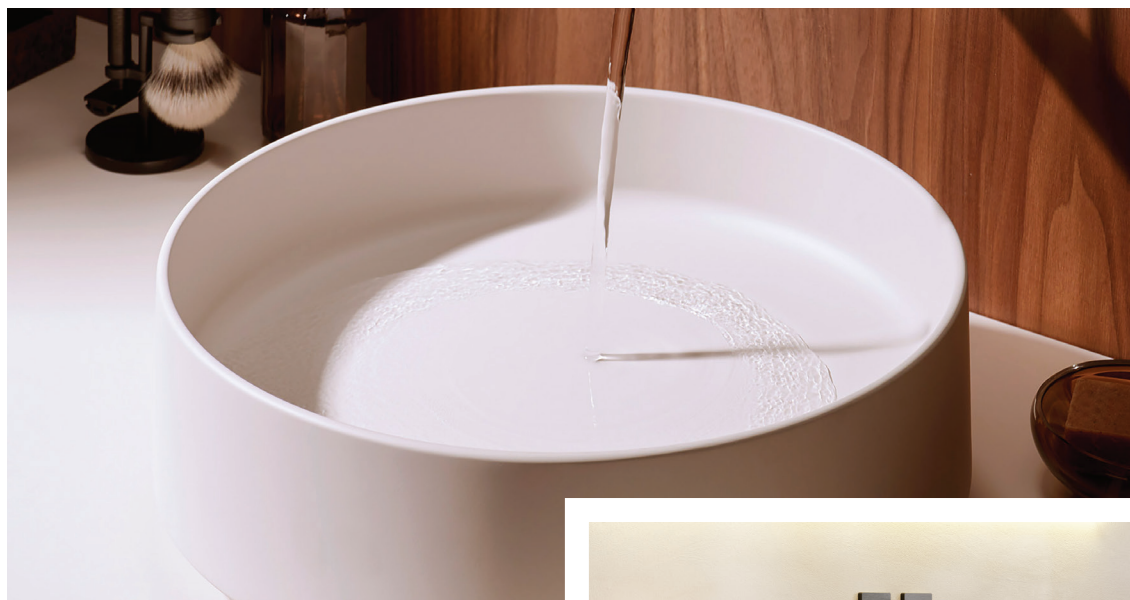

Enjoy water in an unprecedented way – with **Xuniva Evo**, a wash bowl that is anything but ordinary and features **a pure, minimalist aesthetic** with no overflow hole and a hidden drain.

Crafted with meticulous attention to detail, the innovative design seamlessly integrates a hidden drain – a unique feature of Xuniva Evo that you won't find anywhere else with such a variety of products on the ceramic basin market. Furthermore, this drain design offers both beauty and elegance. With the slight slope of the large inner basin, Xuniva Evo creates an illusion of boundlessness, enhanced by a gentle and infinite flow of water. Unlike conventional wash basins, you can truly experience the natural movement of water.

The even and harmonious distribution of water in the basin is not only amazing and stimulating, but also elevates your daily routines, turning every hand wash into a wonderful experience. This bold appearance paired with its elegant thin-walled ceramic, makes Xuniva Evo an extraordinary design statement for your bathroom.

Discover numerous possibilities for creating a unique water experience that not only delights you every day, but also fulfills your individual wishes and dreams of self-realization.

Thanks to its noteworthy design and universal character, Xuniva Evo seamlessly blends into deliberately designed bathrooms while retaining its distinctive nature, all tailored to your preferences. We harmonize the dichotomy of uniformity and individuality by presenting a **diverse range of installation options, shapes, and colors**, all in alignment with the renowned hansgrohe design DNA.

Xuniva Evo offers wash bowls for your bathroom conditions, convenience, and aesthetic preferences. You can opt for a wash bowl that integrates a shadow gap for a light, airy look. Further personalize your WashPlace by selecting from three available shapes: **Square (E) in two different sizes, Round (S), or Racetrack (U)**, whereby the latter is only available for the wash bowls.

Functionality and cleaning

With Xuniva Evo, we have successfully combined practicality and design. The specially shaped inner basin and hidden drain not only add beauty and elegance, but also make it easy to clean and maintain thanks to the use of premium materials and glaze. With the glazing, you can bid farewell to annoying soap residue and hair clogging your drain. The drain channel is also glazed, which means nothing can get stuck.

If small objects, such as a ring, pass through the drain as a result of the water flow, they can be removed from the trap, as is the case with all conventional wash basins drain solutions. On top, a special combined glaze of SmartClean and HygieneEffect makes the white Xuniva Evo basins even more a breeze to clean and extremely hygienic. To sum it up, the s offer substantial benefits that enhance your everyday life and that you will not find anywhere else on the market for ceramic wash basins.

Even after years of use, you can be sure that Xuniva Evo will still look fantastic with no spots or scratches thanks to the sanitary ceramic base material. Everything is thoughtfully considered, ensuring lasting satisfaction and a style that remains fresh and captivating.

XEVOLOS E

Xevolos E **washbasins** are architectonic with long-lasting **design, flawless beauty, functionality and comfort** - always matching your personal style and needs.

Make your dream of the perfect WashPlace come true

Your WashPlace is so much more than just a place to wash your hands or brush your teeth. It reflects your style and transforms your idea of an individual water experience from imagination to life. With hansgrohe's Xevolos E washbasins, you enjoy unlimited freedom to create your personal dream WashPlace. Tailored to your personal style and needs, the architectural design combines premium quality, superb functionality, and sustainability

Your Design Statement

A unique, sophisticated icon of style that will stand the test of time: Xevolos E washbasins feature an impressive, **durable, architectural design.**

When uncompromising aesthetics and high quality are appreciated, a Xevolos E washbasin is the ideal choice. It features impressive architectural, geometric design, ultra slim edges, and a perfectly seamless look. Thanks to the inner bowl design with no overflow opening and its seamlessly integrated ceramic drain cover, nothing disturbs its aesthetic appearance. The washbasin can also be plugged to hold water thanks to the optional hidden overflow system. The closer you look, the more high-end design details you will discover, just as you would expect from a real designer piece.

To preserve the beauty of water for future generations, we're constantly searching for environmentally friendly materials and sustainable technologies. So, with all of our washbasins, you make an important contribution to waste prevention with natural largely recyclable materials and plastic-free packaging.

Xevolos E washbasins grant your wish for a clean look while providing **generous storage space**. This makes it easy to keep your bathroom perfectly organized every day.

Attractive and easy to clean

Xevolos E washbasins come with a dirt-repellent SmartClean glaze. They are also made of robust and scratch-resistant sanitary ceramics and are equipped with a cut-to-size sound-proofing mat.

Countless variations for a unique look

Available in a large variety of sizes from 36 cm up to 120 cm, the Xevolos E product range offers the right solution for all kinds of lifestyles – from singles to families. Whether you decide on one or two washbasins, we make sure there's enough space for your individual needs. Depending on the size, Xevolos E washbasins are available with zero, one, or two tap holes to cater to your individual preferences regarding the faucet setup.

Your life. Your comfort: We want you to enjoy an extraordinary everyday life in style without compromise. Our ComfortZone-tested combinations of washbasins and faucets therefore minimize splashing and maximize the pleasure of use. The large inner basin offers additional flexibility and makes routines like washing your hair even more comfortable.

Faucet and washbasin As a Unit

For the design of our Xevolos E WashPlace, we chose the Xevolos E washbasin in combination with the **Metropol wall-mounted faucet in Brushed Bronze (1)**. Of course, there are also other combinations available, allowing you to customize a WashPlace that suits your personal taste, for example, if you prefer a different type of faucet. As an alternative to the Metropol wall-mounted

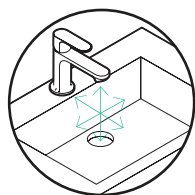

faucet, we recommend combining the Xevolos E washbasin with the **Metropol faucet (2), Finoris faucet (3) or Tecturis E faucet**, among others. Our recommendations are based on our years of experience creating a perfect symbiosis of water experience and functionality, giving you the opportunity to realize your ideas for your bathroom the best way possible.

hangrohe ExcellentFit for a harmonious WashPlace

What could be more frustrating than selecting a combination of washbasin and faucet, and then being greeted with splashes of water every morning? To prevent this from happening in the first place, we developed the hangrohe ComfortZone test. Whether you are renovating or completely redesigning your bathroom: hangrohe ExcellentFit helps you easily and quickly find your personal dream combination of washbasin and faucet. This way, you can be sure that a harmonious interaction is guaranteed and avoid dysfunctionalities.

XELU Q

With Xelu Q you aren't just adding a **washbasin** to your bathroom. You're adding **style, space, functionality, fun** and everything else you and your family have been dreaming of.

Bringing the idea of your perfect WashPlace to life

It's the idea of a place where family life and style go perfectly together, where everything is well thought out for your family's needs – and your individual wants. Where an ambience of well being comes to life. Your life. With hansgrohe's Xelu Q washbasins you create your dream WashPlace, offering space as well as flexibility for your daily routines. Whatever you're longing for, with Xelu Q washbasins, you enjoy endless possibilities – down to the smallest detail.

Family meeting point.

With Xelu Q you experience a unique **combination of design, comfort, and sustainability** – all within the family budget.

Xelu Q is designed to spruce up your daily family life. Its precise and slim design and smooth inner bowl are appealing to the eye and make the product a true visual highlight. The SoftCube footprint of Xelu Q washbasins ensures a harmonious overall appearance of your WashPlace. Further design elements are the inner bowl with no overflow hole and the ceramic drain cover for a seamless look and easier cleaning. The washbasin can also be plugged to hold water thanks to the optional hidden overflow system.

Your good deed for the planet

To preserve the beauty of water for future generations, we're constantly searching for environmentally friendly materials and sustainable technologies. Thanks to our use of natural largely recyclable materials and plastic-free packaging, you can make an important contribution to waste prevention with hansgrohe washbasins.

Offering extra space for your most used or loved pieces, **the generous shelf storage** makes every Xelu Q washbasin a true everyday hero – and the organization of your daily family life much easier.

Enjoy the beauty of water without compromise. To make this aspiration a reality, our ComfortZone tested combinations of washbasins and faucets to minimize splashing and maximize the pleasure of use. The large inner basin offers additional flexibility as it makes washing your hair or your kids even more comfortable. Beyond that, the 80 cm asymmetrical versions of the Xelu Q washbasin provide you with additional storage space on the side – and, if you wish, even with a second faucet hole for integrating intuitive water management via a rotary control. This makes it pleasant to use and prevents water from splashing on the faucet and faucet hole bench in the first place.

Your cleaning hack

Your time is too precious to waste with cleaning. The dirt-repellent SmartClean glaze of our Xelu Q washbasins you no longer have to worry about spending all your time cleaning. This is also helped by the easy-to-clean and scratch-resistant sanitary ceramics that the washbasins are made of. In addition, the norm-compliant specifications and the supplied cut-to-size soundproofing mat ensure easy installation.

A great choice

With a wide variety of sizes from 36 cm up to 120 cm, hansgrohe's Xelu Q product range offers the right solution for all kinds of households – from singles to big families. Whether you decide on one or two washbasins, we make sure there's enough space for everyone and every need. Depending on the size, Xelu Q washbasins are available with zero, one, or two tap holes to cater to your individual preferences regarding the faucet setup.

Faucet and washbasin In Harmony

Even though we chose the Xelu Q washbasin in combination with the **Tecturis S faucet*** to furnish our Xelu Q WashPlace, there is a wide selection of other faucets that harmonize with the Xelu Q washbasin both functionally and aesthetically. As alternatives to the Tecturis S faucet, we recommend installing the **Vivenis faucet** or the **Talis S faucet** with your Xelu Q washbasin. Our years of experience and functional tests show that these combinations offer you the best water experience.

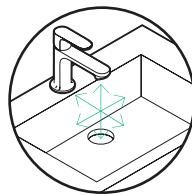

Find your personal dream combination of faucet and washbasin, tailored to your wishes and needs: **with hansgrohe ExcellentFit.**

Less splashing

Does the water splash when the water is running? We open and close the faucet at different water pressures and evaluate the data and patterns obtained.

More comfort

Does the combination of faucet and washbasin offer enough usable space? In a practice-oriented testing we check whether comfortable hand-washing is possible.

Fewer water stains

We field test the combinations under everyday conditions, including observing and evaluating the type of water jet or the occurrence of splashes.

Simply scan the code to get an overview of all potential combinations.

MELLOWTIDE

Whether it is a rejuvenating morning or a tired evening, you and your family are looking forward to washing away the lead, **embracing cleanliness, releasing yourself, and returning to peace.**

The washroom area is a frequently used space in daily life. Whether it is a morning full of energy or an evening full of fatigue, you and your family who value a refined life hope to wash away the world here, embrace cleanliness, release yourself, and return to peace.

Slim and simple

The thin edges create a dynamic and simple design, presenting a refined and modern texture.

The integrated silhouette has smooth curves, and the overall appearance is **simple yet not complicated.**

Refined structure

The integrated storage table design separates wet and dry areas, which is practical and considerate.

The drain cover is selected with pure white surface treatment, which blends perfectly with the ceramic and looks fresh and bright.

A **variety of basin styles** are available,
suitable for different installation methods,
creating a **comfortable space** for washing.

Simple and Pure

The Hansgrohe ceramic series MellowTide was created in collaboration with Germany's Phoenix Design Studio. It draws inspiration from the clear water, simplifies the complexity with slimness, purity and refinement, presents a timeless texture, and deconstructs a quiet and peaceful state.

Meet the cleanliness by simplicity

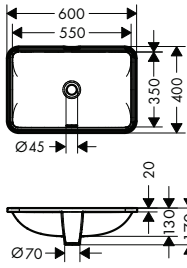

Insight – get cleanliness, refresh self and inner peace
Inspiration – clear water flowing to deliver extreme hygiene experience via slim, spotless, and skillful products.

XUNIVA

A suitable wash basin for every bathroom, universal **Xuniva washbasins.**

WATER

in its most beautiful forms

With Xuniva washbasins, you can design your bathroom harmoniously and according to your individual ideas. Thanks to the large selection of different shapes and variants, you are sure to find the right Xuniva washbasin for your dream bathroom. The Xuniva product range comprises four different basic washbasin shapes in three

different installation variants. In addition, for most models you have the option of choosing a washbasin with or without a tap hole bench, giving you flexibility in your choice of faucet. All models are made of high-quality, durable sanitary ceramics, are dirt-repellent thanks to the optional SmartClean glaze, and feature generously designed interior basins.

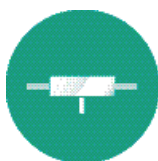

The **iconic geometric shape** and the **reduced edges** add elegance to your bathroom.

Remarkable down to the details

- 1 **Generously dimensioned inner basin** for more comfort
- 2 Slim washbasin edge
- 3 Dirt-resistant, robust **Sanitary ceramics**, optionally with SmartClean glaze for reduced cleaning effort.
- 4 Available with and without **faucet hole bench** (depending on model)

wash
bowl

counter

under-
counter

It's your choice

Regardless of which installation variant you prefer or which your bathroom requires – we have the right washbasin for you. In addition, most Xuniva washbasins are available with or without a faucet hole bench, so you can combine your dream washbasin with either a basin faucet or a wall-mounted faucet.

Xuniva at a glance

- Available in four basic shapes and three installation variants
- Versions with and without faucet hole/faucet hole bench (depending on model)
- Made of high-quality, durable sanitary ceramics
- Generously designed inner basins
- Practical storage surfaces (depending on model)
- Dirt-repellent SmartClean glaze (optional)
- hansgrohe ExcellentFit: with recommendation for suitable faucet(s)
- Standard-compliant specifications for easy installation

ELUPURA

Stylish, comfortable, hygienic.

EluPura toilets make the bathroom
a more beautiful place.

Turns your bathroom into a more Beautiful Place

The toilet is an essential component of any dream bathroom. Available in two different design expressions (Round and SoftCube), our EluPura toilets integrate perfectly into every kind of dream bathroom thanks to their universal design language.

EluPura S AquaHelix Flush toilets – all-round comfort

Available in a round design, the EluPura S toilet with AquaHelix Flush can achieve excellent flushing results with only 4.5 l of water per flush (suitable flush tank required) thanks to water vortex technology and optimized interior geometry. Choose between two glazes: SmartClean glaze is dirt-repellent and makes cleaning easier, while HygieneEffect glaze is effective against bacterial growth.

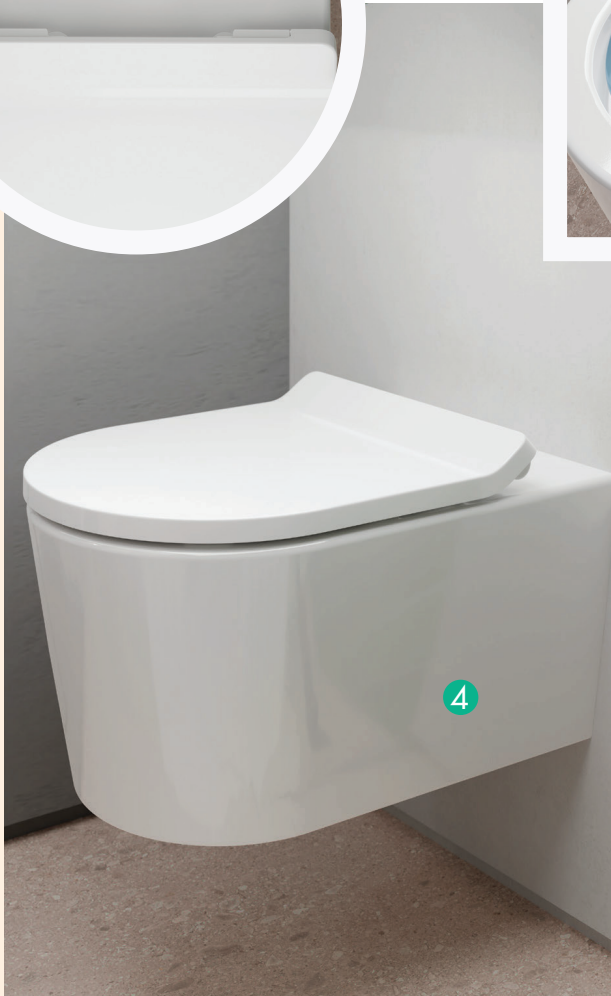

Flush more consciously: All hansgrohe toilets can achieve **excellent flushing results** with **only 4.5 liters of water** per flush (suitable flush tank required).

Rimless EluPura toilets – in two design variants

Rimless EluPura toilets are available in both a round design and a SoftCube variant. Regardless of the shape you choose, the rimless design makes the toilets easy and efficient to clean. In addition, the toilet has an optimized interior geometry, so that an excellent flush can be achieved with only 4.5l of water per flush (suitable flush tank required).

EluPura toilets are made of durable and scratch-resistant sanitary ceramics and can be supplied with a low-noise SoftClose mechanism and QuickRelease seat and cover for more convenience and easier cleaning.

- 1 **SoftClose** and **QuickRelease** seat and cover
- 2 **Easy installation** thanks to "made to fit" noise-protection foam.
- 3 The **AquaHelix Flush technology** is a water vortex technology that cleans the inner basin especially powerful and efficiently – despite the lower water consumption
- 4 **Sanitary ceramics.** Scratch-resistant and easy to clean.

EluPura at a glance

- Rimless construction
- Optimized internal geometry for more efficient rinsing
- AquaHelix Flush technology for more efficient flushes (depending on model)
- SmartClean glaze for easier cleaning (depending on model)
- HygieneEffect glaze against bacterial growth* (depending on model)
- SoftClose and QuickRelease seat and cover (depending on the model or optional)
- Made of durable and scratch-resistant sanitary ceramic
- Including "made to fit" noise-protection foam
- High-quality, pre-installed mounting system

Exclusively refers to the following* bacteria: Escherichia coli ATCC8739 and Salmonella enterica ATCC 13076 (test conducted according to ISO 22196: 2011-08)

ELUPURA ORIGINAL

Make your bathroom truly yours and create a space that reflects your sense of style with EluPura Original toilets. This product line not only offers you aesthetic appeal, but also ensures **exceptional performance and efficient water usage.**

Universal design available in two shapes:

Versatile design language suits any kind of bathroom, two different product design expressions (Round and softsquare) to cater to any kind of design preference.

Two special glazes to choose from:

either HygieneEffect glaze against bacterial growth or dirt repellent SmartClean glaze (both optional).

Sustainability: Optimized inner geometry generates excellent flushing results with only 4.5 l per flush (suitable flushing tank required) and thus safeguards the environment. SmartClean glaze reduces need for cleaning detergents.

Comfort: effortless everyday use, thanks to convenient features such as SoftClose and QuickRelease seat and cover (optional).

EluPura Original helps to save water

Sustainability

Optimized inner geometry:

Optimized inner geometry that can achieve outstanding flushing results with only 4.5 l / flush (suitable flushing tank required)

Material:

Sanitary ceramic is a natural and recyclable material per se

Glaze:

The optional SmartClean and HygieneEffect glaze reduces the need for cleaning and thus cleaning detergent which safeguards the environment.

Design and Functionality

SoftClose and QuickRelease seat (optional)

For more convenience during use and easier cleaning

"Made to fit" soundproofing mat

for an efficient installation and noise-free operation

SmartClean and HygieneEffect (optional):

dirt repellent SmartClean glaze for easy cleaning or HygieneEffect glaze that prevents bacteria from multiplying on the product*

Durable sanitary ceramic

guarantees long lasting joy with the product

EcoSmart

Optimized inner geometry that can achieve outstanding flushing results with only 4.5 l / flush (suitable flushing tank required)

LAVAPURA

Pure Environment

ELEMENT S FS

Water Aurora

Using water purification technology to present various forms of water particles, like an aurora, to stimulate the water magnetic field effect. It is endowed with clean efficiency to open up sensory experiences and widen fresh spaces.

At this moment, Release Freedom

With 124 years of expertise in water by German experts, AquaTec water purification technology brings you an all - encompassing, ultra-sensory clean experience, allowing for complete relaxation of the body and mind, even in compact and confined spaces.

"In a space of one's own, you release the body and mind, and enjoy freedom and vastness."

Comprehensive Water Purification Technology

eSanitize Ion Sterilization

Ordinary water is electrolyzed into effective net ion components to clean and sterilize the inner walls and nozzles of toilets that are prone to bacteria (with a sterilization rate of up to 99+% ①), the ions revert back to ordinary water after spraying and letting it sit, making it natural and non-irritating.

UV Sterilization

Antibacterial material nozzle ② with UV sterilization ①, ensuring cleanliness at all times.

Hygiene Effect Pure Shield[™] Technology

For ceramic surfaces that are prone to contact with the human body (such as the inner wall of a toilet), it uses reassuring materials containing effective antibacterial factors to focus on your health from the inside out.

OdorFresh Water-based Odor Neutralization

Specialized odor-spraying technology rapidly disperses water into tiny particles, quickly capturing odors in the air, it neutralizes odors with water, requires no consumables, and has no degradation.

AquaHelix 360° Flush Vortex Flush

The specially developed single-hole powerful cleaning technology, 360° vortex flush, provides complete coverage. It is safe and silent, ensuring no disturbance at night. Even in the event of a power outage, it can flush infinitely, handling the situation with ease.

AquaWash Multi Comfort Wash

The hot water flow starts with a progressive touch from weak to strong. It also offers multiple comfort wash modes that can be easily switched: bidet wash, feminine wash, massage wash, and moving wash.

① Spray nozzle and toilet inner wall: According to the sterilization performance requirements in GB/T 23131-2019 standard, effectively remove *Escherichia coli*/*Staphylococcus aureus*

② Seat ring and nozzle: According to the sterilization performance requirements in ISO 22196-2011 standard, effectively resist the growth of *Escherichia coli*/*Staphylococcus aureus*

A comprehensive, **minimalist aesthetic**

The pure, flat geometric design is stylish, minimalist, and compact, yet comfortable. The seamless form blends different materials and colors, harmoniously integrating with Pulsify, creating a unified and cohesive look.

It is comprehensively humanized designed.

Key remote control

One handed grip, easy remote control; IPX4 waterproof, safe and reliable

Status breathing light

Display sterilization, energy-saving, and functional operation modes with different color brightness and breathing rate at a glance

Identification

Automatic opening and closing cover, automatic flushing, intelligent pre flushing, sensing night light

Warm heat seat ring

Excellent antibacterial effect ②, multi-stage heating, remote control without touch, silent and slow descent

SmartClean Glazed Surface

It is smooth and easy to clean, with long-lasting as new

② Seat ring and nozzle: According to the sterilization performance requirements in ISO 22196-2011 standard, effectively resist the growth of Escherichia coli/Staphylococcus aureus

LAVAPURA ELEMENT S WH

Take your bathroom experience to a new level – with LavaPura Element, a modern shower toilet that combines **comfort, intuitive design and the highest standards of hygiene.**

Trust in the most natural cleaner: Water

Introducing LavaPura Element S WH, a minimalist shower toilet that merges cutting-edge technology with familiar aesthetics, fitting perfectly into your bathroom environment. Beyond its sleek design lies a wealth of technical marvels, all geared towards elevating your daily hygiene routines. As with any advancement, embracing change can lead to transformative experiences. Even if skepticism about new technologies and innovations is normal, it's worth giving them a chance. Join us on a journey to reimagine your bathroom routines with LavaPura Element S WH – because sometimes, the most significant improvements come from trying something new.

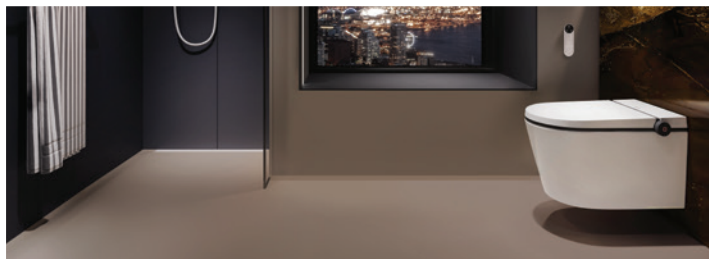

The evolution of well-being.
Redefining toilet hygiene.

Connected Graphite.

Graphite-colored accent lines give the product a **distinctive character by merging ceramic, lid and Select buttons**. These lines also make the product's **relationship to other hansgrohe products** tangible, further enhancing the product's integration into the overall bathroom.

As a renowned shower specialist, water isn't just our passion; it's the driving force behind our pioneering new bathroom products. We aim to provide our customers with an unparalleled experience centered around the transformative power of water. Which is why we've upgraded our portfolio with the LavaPura Element S WH shower toilet to seamlessly integrate the ultimate water experience into your bathroom routine. Once you've indulged in its high standards of comfort, design, and hygiene, you'll wonder how you ever managed without it. With LavaPura Element S WH, your bathroom becomes a completely holistic place where nothing matters more than you feeling completely clean, at ease, and comfortable in your own skin.

Seamless Experience

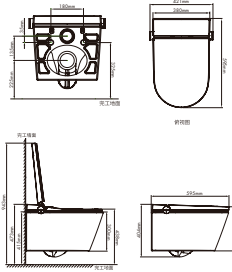

The operation of LavaPura Element S WH is consistently **human-centered**. A **coherent logic**, from the remote control to the Select buttons on the product, ensures **intuitive interaction** at all times, making it **effortless** for users to create their own personalized water experience.

uBox Universal

Complete set for
standard installation.

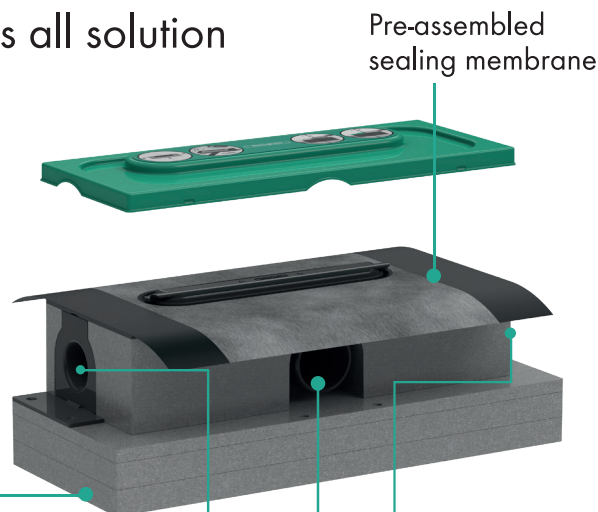

uBox Universal

Functionality (Basic Set)

Base set - One fits all solution

Screed cover protects from construction dirt during installation

Wide installation platform with

- 3 blocks for a stable fixation
- easy height/angle adjustment
- sound decoupling material

3 access points for maximum connectivity to drainage pipe

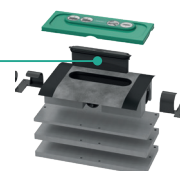

uBox universal 50

uBox universal 30

Installation height 57 mm
Water seal 30 mm

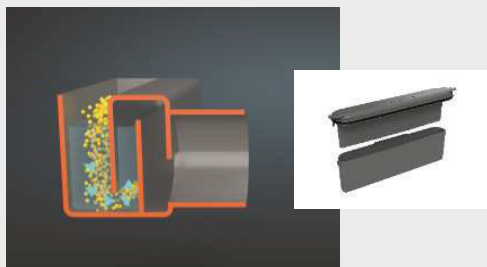

Installation height 75 mm

Siphon is always included.
Water seal 50 mm
(according to EN1253)
to block odour from sewer.

Basic Set Functionality

Siphon /Part of every uBox universal!

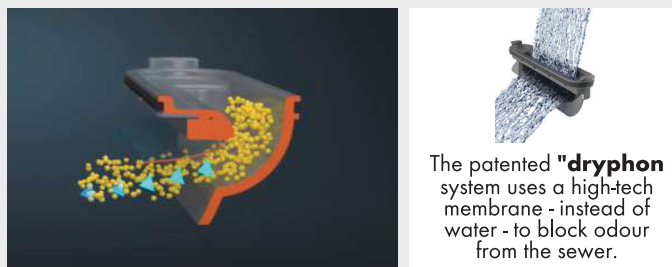

Drainage performance - 42 l / min
The siphon offers this drainage capacity with 50 mm water seal.

Easy cleaning

The siphon with 50 mm water seal (according to EN 1253) is easy to remove and clean.

Dryphon /Part of every finish set!

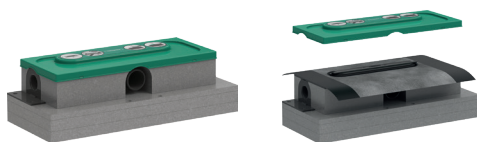

The patented "**dryphon**" system uses a high-tech membrane - instead of water - to block odour from the sewer.

High drainage performance - 60 l / min
This exceeds all standard requirements and regulations.

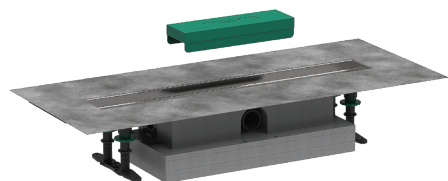

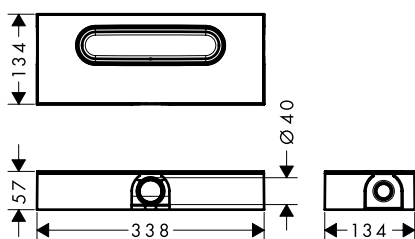

Minimal cleaning

Thanks to the high flow rate, dirt and hair cannot attach, which minimises cleaning efforts.

Technologies

Wireless Charging
To give unlimited freedom The remote control can be charged at any time on the glass back cover of the toilet, conveniently and wirelessly.

Chemical Resistant
Enamel protection 3 layers of enamel protecting the product's surface against chemical influences.

Aqua Helix Flush
Water vortex technology that cleans the inner bowl of the toilet powerfully but quietly.

EcoSmart
Toilet that can achieve excellent flushing results with only 4.5 l per flush (suitable tank required). Good for the environment and the wallet.

Made to fit NoiseReduction
For easy installation, this product comes with a soundproofing mat matched to its shape.

Impact Resistant
Solid titanium steel Titanium steel providing superior impact resistance compared to ceramic material.

Quick Release
This hinge system is easy to release. For quick removal of the toilet seat and easy cleaning.

Antibacterial Seat
Antibacterial material for safety and hygiene The wand made of antibacterial material, clad with stainless steel, can effectively inhibit bacterial growth and thus ensure safety and hygiene!

UV Wand Sterilization
To ensure the hygiene and safety of the wand at all times, UV sterilization is automatically activated when the wand is not in use.

Soft Close
WC cover and seat close gently and silently – thanks to dampers integrated into the hinges.

Progressive Water Technology
comfortable spray to offer hygienic cleansing. The cleansing spray changes progressively from weak to strong to provide a comfortable cleansing experience.

Hygiene Effect
High quality glaze that prevents bacteria from multiplying on the product (exclusively refers to the following bacteria: Escherichia coli ATCC8739 and Salmonella enterica ATCC 13076 (test conducted according to ISO 22196: 2011-08)).

Cold/Hot Alternative Cleansing
Innovative spray for an immersive cleansing experience. The cleansing spray alternates between cold and hot and offers a distinctive cleansing and massage experience.

Smart Clean
High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.

Antibacterial Wand
Antibacterial material for safety and hygiene. The seat made of antibacterial material (silver ion) can effectively inhibit bacterial growth, so it is safer and more hygienic!

EasyClean Glaze
Nano-materials with excellent anti-fouling capability. The glaze made of nano-material is designed to prevent dirt and limescale, keeping the toilet clean and neat at all times.

Gravity Flushing
innovative technology for unlimited cleanliness Even with low water pressure or in the event of a power failure, flushing is possible thanks to the gravity flushing system.

125
YEAR
ANNIVERSARY

Setting the Beat of Water. Since 1901.

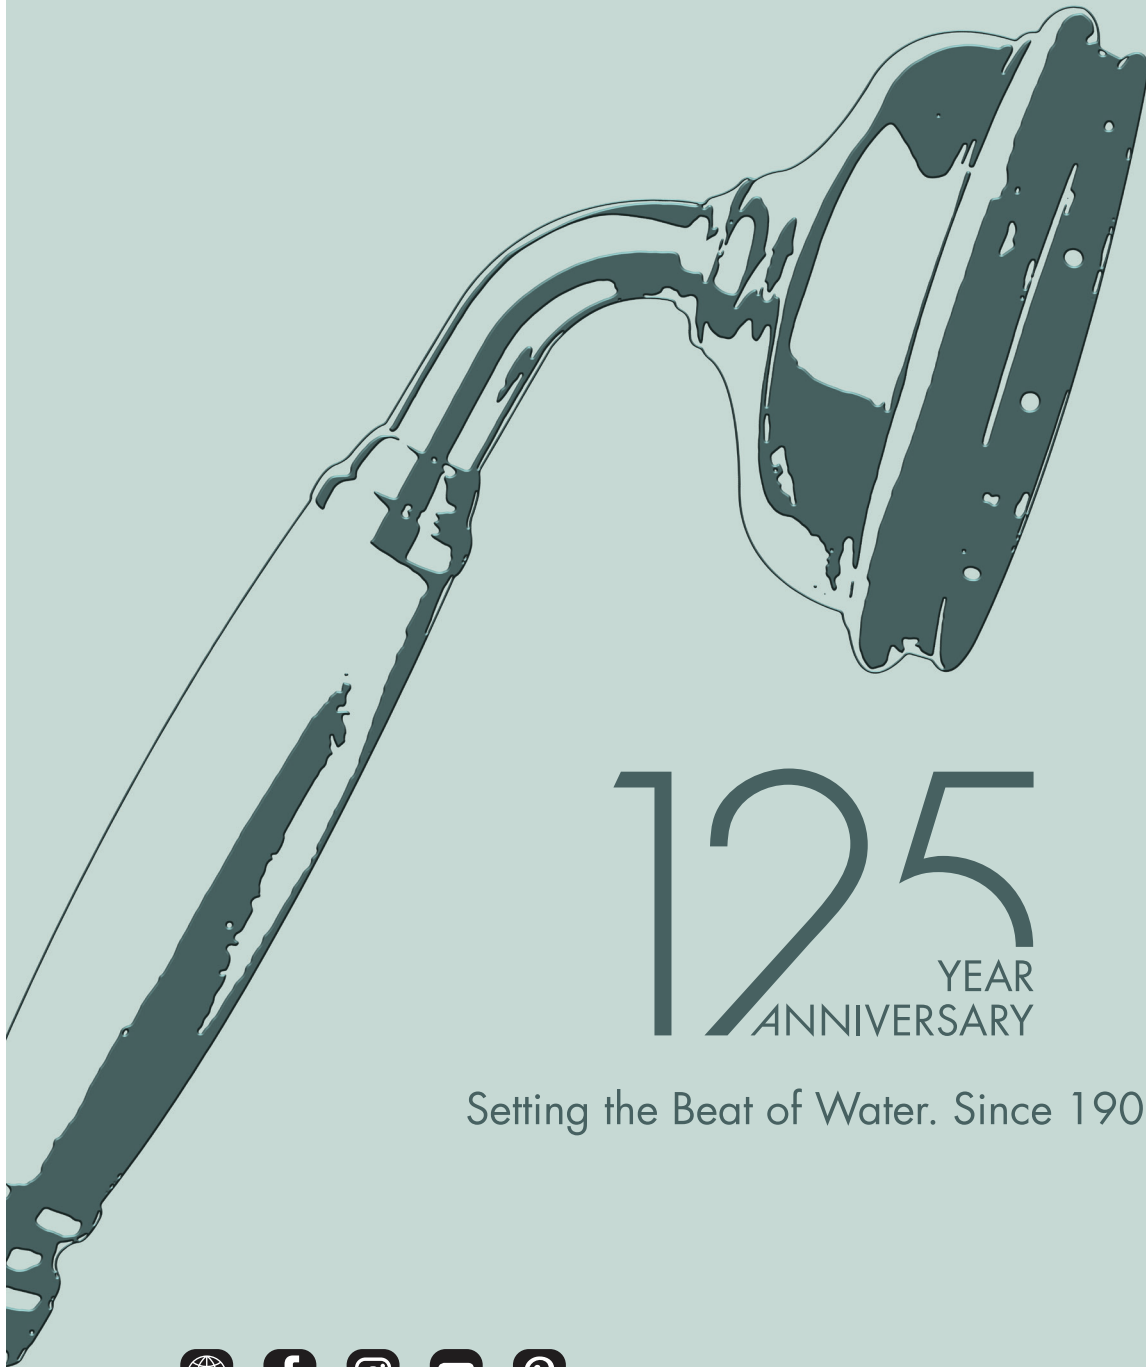

Company founder Hans Grohe's pioneering spirit is deeply rooted in our DNA and shapes the work we do.

The Hansgrohe Group today

As a company, Hansgrohe employs over 5600 people working at 53 sites on all continents. So it is safe to say we are a global player in the sanitation industry. The products from the AXOR and hansgrohe brands have won over 700 design awards. Visitors can touch and try out our products at international trade fairs and events, our Water Studios and the Aquademie at our headquarters in Germany.
