AXOR SALES BOOK 2022

Modern bathroom planning is increasingly about expressing personal style. For more than 25 years, AXOR has stood for the design of personal bathrooms. To this end, customers have access to an impressive range of around 2,000 products from the AXOR collections and AXOR programs. The collection and program overviews in the AXOR Sales Manual list all products – from classic to avantgarde – including the key sales arguments to get your customers on board with AXOR. With the AXOR FinishPlus and AXOR Signature customization services, AXOR offers even more options for designing individual bathrooms. Find out how AXOR uses new materials to turn the faucet into a sensuous experience in terms of feel and look in the chapter on customization. Support for shower planning with select product combinations, as well as concrete installation tips, can be found in the Planning and Installation chapter. In the AXOR Inspiration chapter, you will find projects from all over the world that show how AXOR products contribute to the unique style of a hotel or residence. Our Design Lexicon serves as a reference for your sales meetings with design-savvy customers. Here, you will find color-coded explanations of the most important terms from the world of architecture and design.

AXOR DESIGN LEXICON

For us, rooms are more than a home. They are sources of inspiration that turn everyday actions into conscious rituals. The objects used in the process reflect not just the taste, but also the personality of their inhabitants.

From personalities –

7

Our iconic objects for luxury bathrooms and kitchens are created in collaboration with some of the best designers of our time, whose ideas challenge our habits of perception and change our everyday lives. People who live individuality and understand design as an expression of personality.

for personalities

The bathroom and kitchen are among some of our most intimate living spaces, places where we often just take care of ourselves. The element of water we use to do so is a precious commodity. Through outstanding design, we give it a form that unmistakably expresses this appreciation.

FROM PERSONALITIES FOR PERSONALITIES

The AXOR Success Story

For almost 30 years, AXOR has been helping architects, interior designers, and discerning customers express their personalities. AXOR has permanently changed the design and understanding of faucets and bathrooms like no other brand has – from functional sanitary spaces to individual places of wellbeing.

In 1981, Klaus Grohe commissions the first designer faucet for the Hansgrohe Group: Allegroh, designed by Esslinger Design, origin of the famous Frog Design studio. The first faucet collection in color, UNO, becomes an innovative market sensation. In the 1990s, design becomes a hallmark of prestige, and Klaus Grohe discovers its potential for the sanitation industry. This marks the beginning of AXOR's success story as a design brand for luxurious products to make the bathroom and kitchen more personal – inspired and created by world-famous, renowned designers.

Philippe Starck

DESIGN VISIONARY

Philippe Starck is one of the most famous designers and interior architects of our time. A free spirit with an unconventional style, extroverted and surprising. Starck changes visual habits and plays with materials. As a vision of a better world, his creations bear witness to responsibility to society and the environment.

10

Barber Osgerby

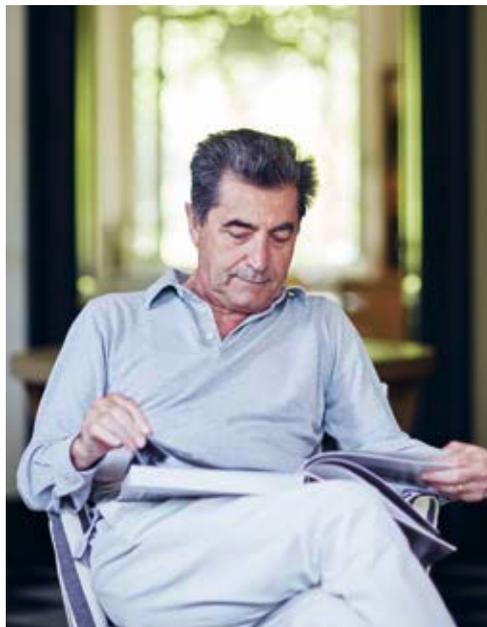

AGENTS OF INTERACTION DESIGN

Barber Osgerby embody the philosophy of interaction design. They stand for the interaction of the user with the product – what they see, hear and need. An art of design that's led to international public commissions and international awards, including the title of Royal Designer for Industry and the Order of the British Empire.

Jean-Marie Massaud

DESIGN ART THAT CONNECTS PEOPLE
AND SPACES

Massaud's unmistakable style provides refreshing stimulation – from product design to architecture. His creations are meant to touch people and provide a better place to live. Strongly influenced by the beauty and utility of nature, he creates synergies between people, design, and space.

Antonio Citterio

MASTER OF ELEGANCE

Nobody else has had an impact on Italian design like Antonio Citterio. As an architect, designer and perfectionist, he creates luxurious objects, interiors and architectural concepts for leading international brands. His signature shows an uncompromising combination of timeless forms and high-quality materials, always under the credo of perfection, of Italian elegance.

Patricia Urquiola

VIRTUOSA OF STYLE FUSION

The Spanish designer enriches the international architecture and design scenes with her feminine design objects. She skillfully combines styles, patterns and materials. She surprises with floral decor, a sensual feel and arouses curiosity with her creations.

12

PHOENIX

DESIGN FOR REAL LIFE

PHOENIX's creations are tailored to people's real needs and desires in their everyday lives. Touching and forward-looking, always driven by logic, morality, and magic.

Nendo

POETIC DESIGN FROM JAPAN

Oki Sato's creations break with convention. And are easy to understand. The name of his office translates as "modeling clay." An indication that his designs are created in a very playful way. This approach has put him at the top of the international design scene.

13

Front

THE SWEDISH "AVANTGARDISTES"

Their design isn't typically Scandinavian. It is experimental, a play with visual effects inspired by fashion, film, and science. Their trademark is their ironic point of view and the joy of surprise. Qualities that have the international design scene buzzing.

Why

SIX REASONS TO CHOOSE AXOR

01 Design diversity

AXOR collaborates with internationally renowned designers. With their highly distinct signatures, they shape the great stylistic diversity and product depth of the AXOR range. Their design approaches set standards again and again – in terms of their avantgarde designs, which are innovative and timeless at the same time. As part of AXOR WaterDreams, designers from completely different disciplines create their vision of the bathroom of the future, completely detached from a product-oriented development. With their ideas, they provide new inspiration for the development of the space, its use, and matching products.

In the following collections, unique water designs create extraordinary haptic and visual experiences – with innovative spray modes and a completely new way of presenting water:

- AXOR Massaud with a natural looking waterfall
- AXOR Starck Organic with the gentle shower spray on a faucet for the first time
- AXOR Starck V with powerful water vortex
- AXOR MyEdition with PowderRain – fitting the faucet design

02 Individualization

The exclusive AXOR FinishPlus and AXOR Signature customization services meet customers' increasing demand for more options to customize bathroom products. With colored PVD surfaces and customized solutions, AXOR products become unmistakably unique.

03 Made in Germany

At AXOR's own factory at its headquarters in Schiltach, Germany, the first-class brand products are created with German engineering quality and a deep commitment to precision – in every detail. This know-how builds on the Hansgrohe Group's more than 120 years of experience, as well as the expertise of every single skilled worker. AXOR is also a pioneer in innovative manufacturing technologies, such as the latest generation diamond drilling machine for ultra-precision milling of surfaces in the AXOR Edge collection.

04 Worldwide presence

As part of the Hansgrohe Group, AXOR has 32 subsidiaries and 22 sales offices worldwide and supplies its products to over 146 countries. AXOR faucets, showers, and kitchen faucets can be found in the world's finest homes, hotels, and restaurants. International architects, planners, and builders trust AXOR quality in products and expert advice.

15

05 Understanding sustainability

Efficient use of resources is important to AXOR – from water-saving products and resource-efficient material use in production to durability in design, functionality, and quality. One example: the AXOR Starck Organic basin faucet with particularly low water consumption.

06 International design awards

AXOR's design achievements – marked by independent, internationally renowned industry experts – are confirmed by the numerous awards the brand has received for first-class product design since the very beginning. These include:

- Red Dot Best of Best for AXOR Edge
- German Design Award for AXOR MyEdition
- iF Design Award in Gold for AXOR One and AXOR Uno
- Green Design Award for AXOR Starck Organic

Maximum services

AXOR FINISHPLUS AND AXOR SIGNATURE

With these customization services, AXOR answers customers' personal wishes and the demand for distinctive design. More at: [axor-design.com](https://www.axor-design.com)

FIVE-YEAR MANUFACTURER'S GUARANTEE

The manufacturer's warranty extends beyond the legally required period and underlines AXOR's quality claim. In addition, strict quality management is already applied during the manufacturing process to ensure products meet the high requirements of independent testing institutes and legal regulations. Please note the warranty conditions at: [axor-design.com/us/service/product-guarantee](https://www.axor-design.com/us/service/product-guarantee)

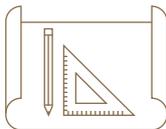

15 YEARS GUARANTEED AVAILABILITY

Fifteen years guaranteed availability for spare parts for AXOR products ensures a secure investment. All information and products is fast and easy to find online in the Spare Parts Shop: [spares.hansgrohe.com](https://www.spares.hansgrohe.com)

PROFESSIONAL WEBSITE

On the portal, specialist retailers, architects, and installers can find information, planning data, and prices for all products, as well as practical tips and tools for professional bathroom planning and advice. More at: [pro.hansgrohe.com](https://www.pro.hansgrohe.com)

PLANNING DATA

Installation and service instructions, dimensional drawings, BIM planning data and 3D data for optimal bathroom planning with AXOR products can also be found in the professional portal: [pro.hansgrohe.com](https://www.pro.hansgrohe.com)

COMFORTZONE TEST

Create the perfect combinations of faucets and sinks in this internal test center. For this purpose, matching sinks from leading manufacturers are tested with AXOR products for optimal functionality and appearance. All recommended combinations can be found on the AXOR website on the respective collection page: axor-design.com

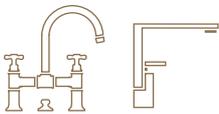

MEISTERSERVICE

AXOR service specialists are trained sanitation experts with advice on technical issues - by phone, email, or chat. In special cases, a specialist for building services can also be available on site. If required, local contacts are available by phone or e-mail: service@axor-design.com

PROJECT CONSULTATION

AXOR offers professional support and advice for project tenders and planning worldwide. If required, please contact your local contact partner or send an email to: service@axor-design.com

BATHROOM EXHIBITION

Experience AXOR live worldwide: The WaterStudios in architectural and design metropolises are sources of inspiration and meeting places, design and training centers for trade partners, architects, and interior designers. In the Aquademie at the brand's headquarters in Schiltach, Germany, visitors and trade partners can experience a bathroom and kitchen world over 1,000 square meters with a museum on the history of the bathroom, the company, and the brand, regular events, and a Showerworld for test showers.

ONLINE AQUADEMIE

You can access the newly developed Hansgrohe Online Aquademie via the trade partner website. Here, partners in the trade and crafts can benefit from detailed knowledge on the topics of products and sanitation technology, as well as from non-technical highlights. More information at: aquademie-seminars.hansgrohe.com

AXOR ONE

The essence of simplicity

A bathroom collection so elegant, elemental and pure, it could be realized only through radical innovation. Whether at the wash basin, bathtub or shower, familiar archetypes have been reinvented for greater clarity, enhanced function and superior control. Timeless by design, and available in Chrome, Matt Black and an array of exclusive AXOR FinishPlus surfaces, AXOR One brings exquisite beauty to any bathroom.

Design: Barber Osgerby

“AXOR ONE PROVOKES
THE MEMORY OF WATER
BUT HERALDS A NEW WAY
OF CONTROLLING IT THAT
IS MUCH MORE PRECISE
AND INCREDIBLY REFINED.”

Edward Barber and Jay Osgerby

CHARACTERISTIC DESIGN FEATURE:

Minimalist design: A familiar archetype with new, innovative interaction.

THE DESIGNER'S IDEA:

Challenging the archetype through the pursuit of art and science, invention and interaction.

SPECIAL COLLECTION HIGHLIGHTS:

- / Holistic design language of slender silhouettes, flat surfaces, soft corners and balanced **proportions**
- / Using Select technology: The mechanical faucet handles enable precise, water-saving on/off and temperature control
- / A collection of elegant archetypes for the wash basin, bathtub and shower
- / The action is effortless, intuitive and ultra-precise, and this same inventive design thinking characterizes the entire collection
- / Maximum **individualization:** The exclusive lacquered surface finish Matt Black

The essence of simplicity with new interaction

A collection of elegant archetypes for the wash basin, bathtub and shower, AXOR One is unified by a holistic design language of slender silhouettes, flat surfaces, soft corners and balanced proportions. The iconic mixers feature a gentle taper to their curved spouts, a subtle detail that signals exceptional quality of design and manufacturing. Utilizing Select technology, the mechanical mixer handles enable precise, water-saving on/off and temperate control.

FAMILIAR ARCHETYPE

The archetypical round arch lends the faucet a familiar design, while innovations make it a new, state-of-the-art product

GENTLE TAPERED SPOUT

A subtle detail that signals both precision and exceptional quality of design and manufacturing

MINIMALIST DESIGN

Reduced to the minimum, the product is simple in form and function

MATT BLACK

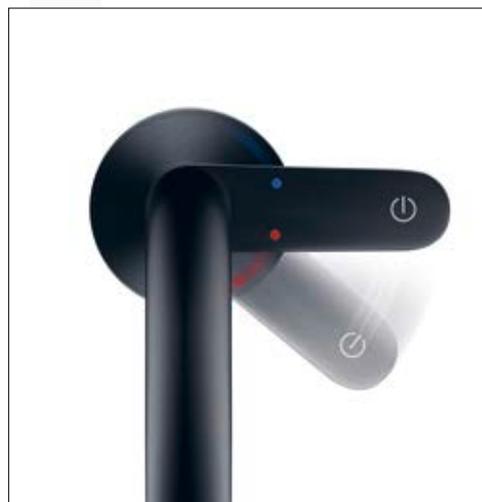

New lacquered surface finish Matt Black, exclusively available for AXOR One

SELECT TECHNOLOGY

WITH COOLSTART FUNCTION

The mechanical Select handle enables effortless, intuitive and ultra-precise control and includes a preset CoolStart function

22

ON/OFF:

Press down on its all-in-one controller – the Select handle – to start or stop the water.

TEMPERATURE CONTROL:

Swivel clockwise to increase the temperature. The handle includes a preset CoolStart function, an environmentally friendly technology that helps conserve resources.

23

NEW INTERPRETATION OF A 3-HOLE BASIN MIXER

The soft designed handles are very gentle to the touch. By pushing the right handle, with its integrated Select technology, you can start and stop the water flow. By turning the right handle, you can change the temperature. By turning the left handle, you can adjust the water flow. This control logic allows for pre-settings for temperature and volume.

An innovative idea makes exceptional design come true

Positioning the cartridge underneath the wash basin makes the exceptionally slim silhouette possible. At the same time, it allows for fast and easy installation as well as easy service and maintenance: Only the waterpipe needs to be removed, while the cartridge can be easily released thanks to a bayonet clasp.

BAYONET CLASP
Easy and fast installation of cartridge underneath the wash basin

WATERPIPE CONNECTION
Ensures water flow from the cartridge to the mixer

Wash basin lever handle

Single lever basin mixer 70 with lever handle and pop-up waste set
48000, -000, -670, -xxx
with waste set (not shown)
48001, -000, -670, -xxx

Single lever basin mixer 260 with lever handle and waste set
48002, -000, -670, -xxx

Single lever basin mixer for concealed installation wall-mounted with lever handle and spout 220 mm
48120, -000, -670, -xxx

Basic set
13623180

3-hole basin mixer 170 with push-open waste set
48050, -000, -670, -xxx

Bidet

Single lever bidet mixer with pop-up waste set
48210, -000, -670, -xxx

The minimalist design story continues with the wash basin mixers with lever handle. The new M25XS cartridge allows for a new flat handle design. The integrated aerator and the slightly tapered spout emphasizes the quality of design and manufacturing.

Monolithic design for the shower

The AXOR One overhead showers and hand showers feature **monolithic** forms and an innovative organization of Rain and PowderRain spray types, reflected in the distinctive graphic language of the showerhead's spray disc. The AXOR One showerpipe is the perfect all-in-one combination of overhead shower, hand shower, wall bar and wall outlet. The showerpipe and shower set offer a clean appearance thanks to their integrated wall outlet. The entire collection can be personalized in Matt Black or an exclusive AXOR FinishPlus surface.

One shower control uniting all functions

The AXOR One thermostat module combines all functions in a single control element for intuitive control of all consumers. Based on the user-friendly Select technology, operated by pressing instead of turning. The Select paddles have mechanical controls, offering high precision.

TEMPERATURE REGULATION:

- / Precisely controllable with the large, cylindrical knob
- / Safety lock limits temperature to 40°C
- / Adjustable maximum temperature

OUTLET CONTROL:

- / Large Select paddles turn the water on and off easily
- / Complete control with finger, hand or even elbow operation
- / Up to three functions can be activated - separately or at the same time
- / A porter can be added

VOLUME CONTROL:

- / For economical water consumption
- / Volume control reduces water flow continuously by up to 50% - depending on flow volume and installation configuration

OPERATION:

- / Large symbols on the paddles indicate clearly which outlet is being used
- / The paddle icons can be applied easily after installation

Due to its minimalist appearance, the floor-standing AXOR Uno bath spout (# 38412, -000, -670, -xxx) is a perfect match with the AXOR One collection.

AXOR Edge

The power of architectonics

AXOR Edge is a masterpiece in the tradition of the early 20th century avant-garde. Cubes, the distinctive design element, are put together *asymmetrically* to form an *architectonic sculpture*. In addition to the geometric shapes, the collection is characterized by the ultra-precision of its surfaces and edges, which turns the fixtures into brilliant, high-gloss jewels for the bathroom.

Design: Jean-Marie Massaud

“WITH AXOR EDGE, WE
EXPLORE THE WORLD OF
EXTREME REFINEMENT
AND UNIQUENESS.”

Jean-Marie Massaud

CHARACTERISTIC DESIGN FEATURE:

Avant-garde design: Asymmetrically arranged blocks create a mixer that is an *architectonic sculpture*.

THE DESIGNER'S IDEA:

Jewels for the bathroom: With AXOR Edge we wanted to make a *sculpture* out of an object we use every day, a sculpture that evokes emotion with its precise edges, high-gloss surfaces and refined structures.

SPECIAL COLLECTION HIGHLIGHTS:

- / High-gloss surfaces: The brilliance is generated by especially precise milling of the surfaces and edges
- / New production technology: Using a diamond-cutting machine of the latest generation. It sets new technological standards in the manufacturing process. The precision is comparable to that of the watch, jewelry and optical industries
- / *Diamond-cut*: Fine, *luxurious* structural details provide exciting contrasts and a special sensory experience
- / Complete set of bathroom fittings: Mixers for the wash basin and bathtub as well as thermostats for the shower
- / AXOR Edge is the second collection created in cooperation with French star designer Jean-Marie Massaud

Learn more about AXOR Edge:

axor-design.com

The genesis of a masterpiece

When diamonds are used in a production process, it's to ensure the greatest precision and the finest details with the most refined materials. Precision is the foundation for brilliance, and production with diamonds is the benchmark for perfect surfaces and edges. Manufacturing AXOR Edge depends on precision to thousandths of a millimeter. An exactness that is realized by using a diamond-cutting machine of the newest generation, a tool like those used in the aerospace and laser industries.

The beveled chamfers are milled at an angle of exactly 45° and join together with absolute precision. This creates a surface without any unevenness, which reflects light perfectly. Standards for testing gloss level in quality assurance, redefined especially for this collection, ensure that exactly these high requirements are met.

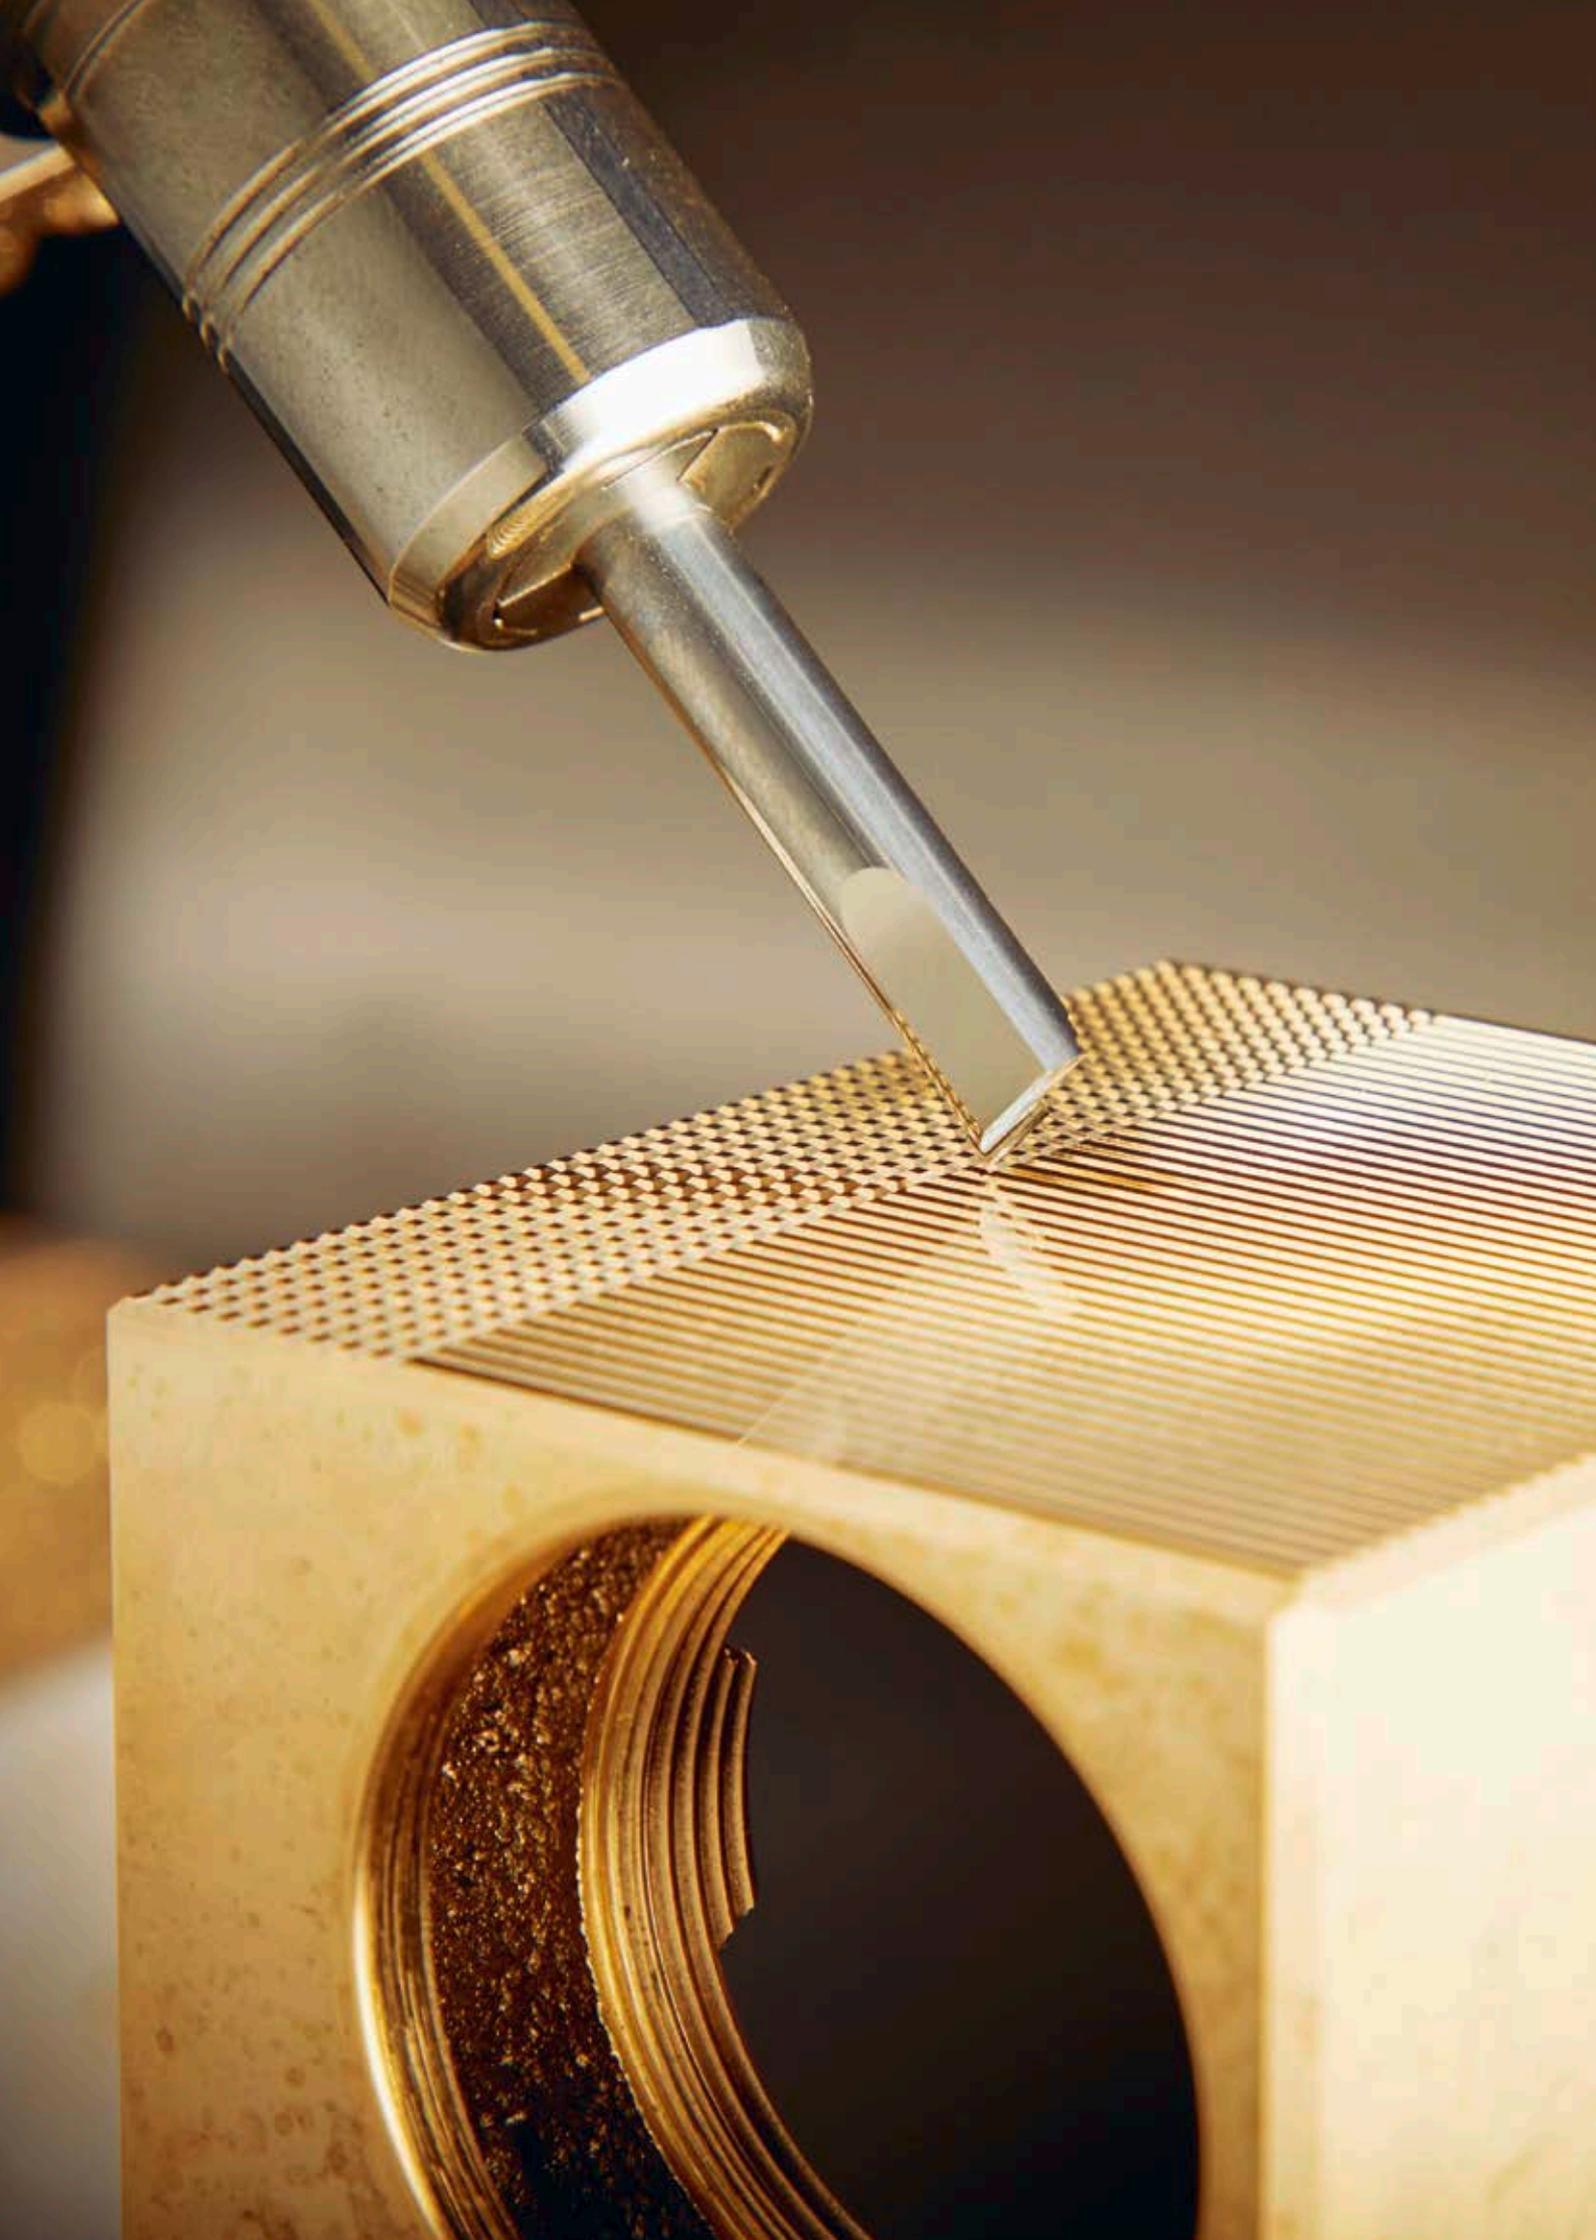

36

The fine pattern structures are created with the same precision: the *diamond cut*. By milling the solid block of brass line by line in several steps, precise pyramid frustums are formed, creating a *luxurious* detail that provides exciting contrasts.

RIGHT: A line that will become a *diamond cut* in the finished appearance is milled up to five times.

LEFT, TOP AND BOTTOM: A diamond is used to mill the beveled chamfer at an angle of exactly 45° to a high gloss.

Bringing high-gloss and ultra-precision together in one mixer

AXOR Edge mixers break through boundaries: High-gloss surfaces are a striking feature of the collection. To achieve this brilliance, the highest precision is required in production so that light breaks perfectly on the surface of the mixer. That's why a diamond-cutting machine is used. It creates facets on the surfaces and chamfers of the mixer with precision to the micrometer, generating a fascinating play of light and shadow. Exactly these precise details – the meticulous 45° chamfer and the innovative, three-dimensional diamond cut – turn the mixer into a gem.

AXOR MyEdition

A personal statement

With its **monolithic**, linear **design**, AXOR MyEdition provides you with a stage for self-expression. A wide selection of cover plates made of exclusive materials leaves room for your own creativity. The collection responds to a human desire to have something unique, to stand out from the crowd and to move in new directions.

Design: PHOENIX

“AXOR MYEDITION OFFERS
PERFECTLY COORDINATED,
MULTISENSORY
EXPERIENCES.”

Andreas Diefenbach, PHOENIX

CHARACTERISTIC DESIGN FEATURE:

Monolith: The distinctive rectangle, due to its weight and size, is monolithic.

THE DESIGNER'S IDEA:

A stage for your own creativity: Numerous options for individualization offer customers a platform for self-realization.

SPECIAL COLLECTION HIGHLIGHTS:

- / With the neutral carrier plate, AXOR MyEdition lets you create a customized design using the custom material plate
- / A new dimension of **individualization** with carefully selected natural materials and exclusive surface finishes
- / A new look and feel with the use of natural materials such as glass, metal, wood, marble and leather, each with its own unique surface structure
- / A **sensual** contrast to linear **design**: Innovative water design with the velvety soft PowderRain spray mode, available for the first time on a wash basin mixer
- / Isolated water conduction: Prevents direct water contact with the body of the mixer
- / Integration or contrast: The perfect complement to the **interior design** or a statement in the bathroom

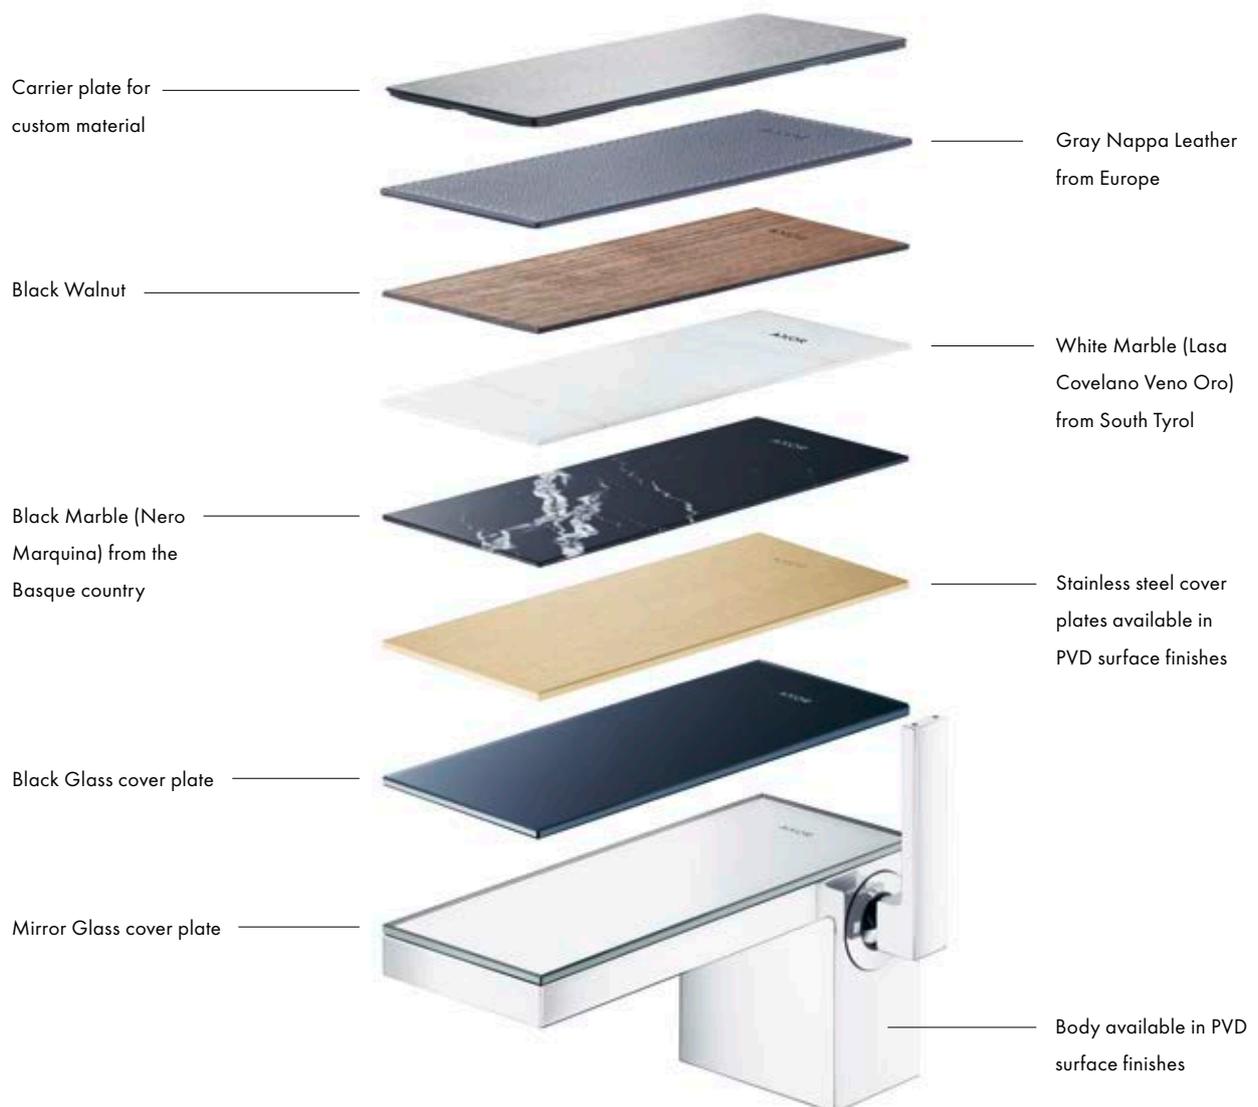

45

Learn more about AXOR MyEdition:

axor-design.com

An avant-garde concept and an ingenious connection

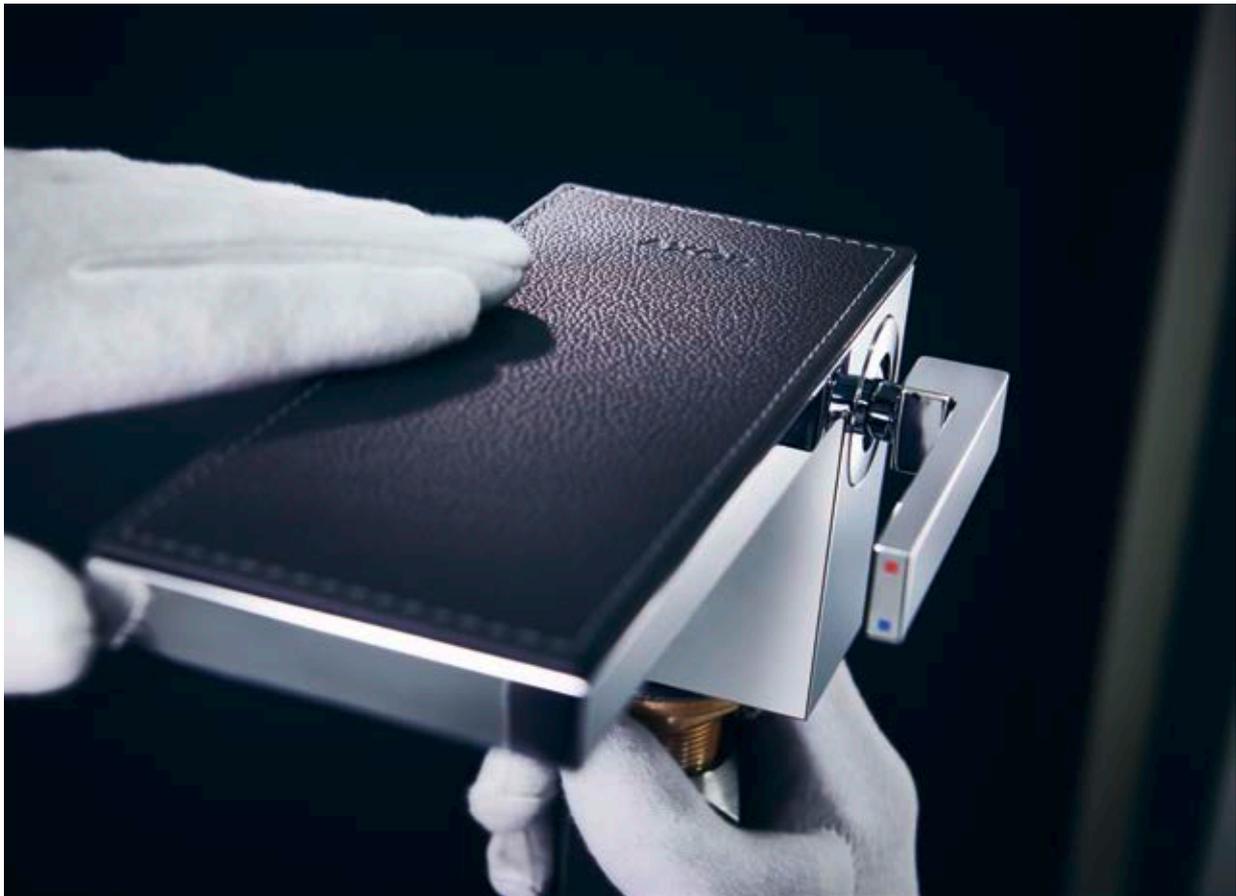

A metal body with a chrome finish or one of the AXOR FinishPlus PVD surface. Crowned with a fascinating cover plate: With its exclusive material portfolio, AXOR Signature opens up groundbreaking potential. Metal, mirror glass, black glass and refined natural materials such as wood, marble and leather offer more appeal and new sensory experiences. AXOR MyEdition is the first.

The following variants are available as standard for all nine AXOR MyEdition products with their own item numbers:

- / Chrome (body) / Mirror Glass (cover plate) (-000)
- / Chrome / Black Glass (-600)

In addition to the standard variants, the products can be configured individually and ordered with separate item numbers for body and cover plate.

Natural materials for the bathroom – each cover plate is one of a kind

The refined materials reveal themselves in unique ways in AXOR MyEdition cover plates. Each design version is developed in an intensive process, made with precision craftsmanship and tested under the harshest conditions for mixer use in internal fatigue testing. The result is a perfect whole.

The elegant walnut veneer provides a fascinating example. Delicate sheets of wood are used to produce sturdy components with an attractive surface pattern, strikingly brown in color with a striped grain.

The white Lasa marble from South Tyrol is characterized by its fine, gold veins. The cover plates are shaved from the marble block in extremely thin layers, which are meticulously processed to produce stone veneer with a perfect surface feel.

Its dark counterpart, Nero Marquina, comes from quarries in the Basque Country of northern Spain. Deep black, with a distinctive white veining, it evokes the ultimate in **elegance**.

Just as meticulous is the selection of nappa leather of European origin. Due to precision processing, it is especially resilient, so it is also suitable for use in wet areas.

Each cover plate is one of a kind. This makes each AXOR MyEdition mixer into an unmistakable **original**. For the ultimate in **individualization** for wash basins and bathtubs.

To ensure the durability of the cover plates, individual cleaning recommendations are enclosed for each material.

Consistent design language – for mixer and spray

New spray formers:
The shape of the water spray is derived from the product design. In this case, a rectangular spray former was developed which, in a fixed position, is equipped with PowderRain spray mode as well as QuickClean function for easily removing calcium deposits.

PowderRain spray mode:
AXOR MyEdition is the first collection with the PowderRain spray mode. Satiny smooth droplets emerge from 170 of the finest spray nozzles for a sensual, soft and luxuriant spray experience.

Isolated water conduction:
A separated water conduction is integrated into the metal basic set which separates the conduit from the body so it remains free of lead and nickel concentrations.

Wash basin

Single lever basin mixer 70 with push-open waste set # 47010, -000, -600

/ For combination with plate 245

Individualization for the bathtub

The individualization concept of AXOR MyEdition can also be applied to bathtubs.

The black Nero Marquina Marble cover plate with its striking white veining is a distinctive highlight on the four-hole rim-mounted mixer.

Especially impressive as well is the white Lasa Covelano Vena Oro Marble cover plate in combination with the floor-standing bathtub mixer.

Bidet

- / sBox for quiet, smooth and safe hose guiding
- / Suitable for rim- or tile-mounted installation
- / Bath rim width at least 100 mm
- / Maximum pull-out length of individually selectable hand shower: 1.45 m

Available as standard for AXOR MyEdition are the variants Chrome/ Mirror Glass (-000) and Chrome/Black Glass (-600). Glass is particularly hygienic, sturdy and resistant to harsh cleaning agents.

The cover plate in natural Black Walnut has very fine dark brown coloring in various shades. In combination with the AXOR FinishPlus surface Brushed Black Chrome (available exclusively for AXOR MyEdition), it's a real eye-catcher.

52

The brilliantly white Lasa Covelano Vena Oro Marble is fascinating with its fine, golden veining. It is sourced from a quarry in the Jenn Cliff Massif, the highest quarry in Europe, at an elevation of more than 2,220 meters.

The black Nero Marquina Marble is an exquisite, black limestone with distinctive, white quartz veining. Because it can be polished, it is called marble. The white quartz veins were formed in the later stages of the rock's development.

European Nappa Leather brings a sense of coziness to the bathroom. The gray leather has a fine, natural structure and a soft, smooth feel.

AXOR FinishPlus surfaces bring color into the bathroom. In addition to color-in-color combinations with polished or hand-brushed variants, bi-color variants can also be realized simply by exchanging the body and top.

“THE IDEA WITH AXOR STARCK WAS TO MAKE A DESIGN THAT WAS DEEPLY, STRUCTURALLY RESPECTFUL OF WATER. THE FIRST THING TO BRING WATER IN HISTORY WAS THE PUMP, AND SO THE IDEA WAS TO MAKE SOMETHING AS SIMPLE AS THIS.”

Philippe Starck

AXOR Starck

Minimalist bathroom design

AXOR Starck embodies the **aesthetic** of **minimalism**. The design focuses on the essential. A familiar shape, uncompromising in function, with an elemental connection to water. And therefore, an **archetype**: The collection is inspired by the historic hand pump used to pump water from wells.

Design: Philippe Starck

CHARACTERISTIC DESIGN FEATURE:

Rigorously cylindrical with a diagonal spout.

THE DESIGNER'S IDEA:

A **minimalist** statement: The basic form is derived from the historical hand pump – the first and most elementary object that made water available. Everything here has to do with the pure water and its beauty.

SPECIAL COLLECTION HIGHLIGHTS:

- / Three handle variants: the **classic** feather handle, the **modern** pin handle and the **ergonomic** lever handle
- / Mixers in various ComfortZones that can be combined with various wash basins
- / AXOR Starck has been a bestseller for 25 years and is now a **design classic**
- / Innovative baton hand shower: the first of its kind and now a **classic**

Three single lever mixers – three handle variants

Three handles, one design: from the classic feather handle – the **original** from 1994 and a **classic** today – to the modern, totally streamlined pin handle and the ergonomic lever handle. The iconic, diagonal spout shape and the minimalist design underscore the focus on the essentials.

AXOR STARCK SINGLE LEVER WASH BASIN MIXER WITH LEVER HANDLE
 / Lever handle: The ergonomic lever handle represents modern minimalism
 / Available in three heights: 80, 100, 250
 / A CoolStart variant for saving energy and water is available

AXOR STARCK SINGLE LEVER WASH BASIN MIXER WITH PIN HANDLE

- / Pin handle with integrated joystick cartridge: The sophisticated handle completes the minimalist design
- / Integrated cartridge enables a slim body
- / Three simple cylinders engender the minimalist design
- / Available in four heights: 70, 90, 170, 250

AXOR STARCK SINGLE LEVER WASH BASIN MIXER WITH FEATHER HANDLE

- / Feather handle: classic form with a wink. The feather is a surprising detail within the overall minimalist look
- / Available in three heights: 60, 70, 220
- / Original design from 1994: inspired by the hand pump

A luxurious shower experience for indoors and outdoors with the AXOR Starck shower column

The **minimalist** in the shower. Uncompromisingly streamlined, the shapes come together to form a unique whole: a circle. A cylinder. A rod. The result is a one-of-a-kind shower column – now also for outdoor use.

AXOR OVERHEAD SHOWER 240 1JET

- / High-quality metal disc with generous diameter (240 mm)
- / Enveloping PowderRain spray
- / With user-friendly QuickClean cleaning function

- / Indoor version: Thermostat with scalding protection at 40 °C
- / Outdoor version: MR32 mixing cartridge for temperature control

- / Switching between overhead and hand showers and integrated volume control

AXOR BATON HAND SHOWER 2JET

- / A **classic** in **design** and function. The baton hand shower sets the for innovative control: simple rotation allows users to switch between the soft Rain spray and the powerful Mono spray
- / Positioned in a high-quality metal holder

- / Indoor version: Basic set (#10902180) for the shower column positioned behind the wall flange
- / Outdoor version: Adapter set for quick and easy installation and removal, as well as for fast draining to keep from freezing in the winter – included in delivery

- / The shower column pipe makes it seem as if the water is coming directly out of the floor

AXOR Starck V

The vitality of water

AXOR Starck V is a unique eye-catcher at the wash basin. With its **organic, sculptural design**, the spectacular glass body displays the water, revealing a wonder of nature: the water vortex. In all its strength and beauty. Vital and captivating.

Design: Philippe Starck

“AXOR STARCK V IS A REVOLUTION: A MINIMAL OBJECT, NEARLY INVISIBLE AND TOTALLY TRANSPARENT, THAT ENCLOSES THE WATER VORTEX. THIS ENABLES A SPECIAL EXPERIENCE WITH WATER.”

Philippe Starck

CHARACTERISTIC DESIGN FEATURE:

A fascinating eye-catcher: The organic, sculptural form with a body in transparent glass, making the powerful, specially designed water vortex visible.

THE DESIGNER'S IDEA:

Making the beauty and vitality of water visible by means of a glass body.

SPECIAL COLLECTION HIGHLIGHTS:

- / Three variants: Single lever mixer 140 and 220 with a higher base or with a two-hole mixer with a separate pin handle
- / Two additional glass cuts: Diamond or facet cut – **classic** or **modern**
- / With EasyClick and SafetyStop function: The spout can be separated from the base with just a click in order to clean or replace it
- / Convenient 360° swivel spout
- / Spout made of high-quality crystal glass
- / Economical water consumption: 4 l/min (at 3 bar)
- / AXOR Starck V is the fifth collection designed in cooperation with Philippe Starck

Understanding the beauty and soul of water

Unrelenting curiosity and a boundless passion for water are what motivate Klaus Grohe, son of the company's founder, Hans Grohe. He is particularly impressed by the pure energy of a vortex. He wonders how to bring this natural spectacle home, to the wash basin, and starts to develop a water vortex in a mixer. Klaus Grohe and AXOR find a partner in designer Philippe Starck, who creates a glass mixer, a kind of organic sculpture, in which this power of nature can be seen.

In a way that, up to now, was not possible, AXOR Starck V lets us experience the elemental fascination of water. The transparent glass body enables us to see the **elegance** and vitality of a water vortex.

70

GLASS SPOUT

The crystal glass spout enables users to see an extraordinary water spectacle, the vortex.

For even more **individualization**, there are different variants of the glass spout:

- / Diamond-cut
- / Bevel-cut

PRODUCT VARIANTS

The single lever wash basin mixer, two-hole wash basin mixer and single lever mixer variant for wash bowls all are suitable for a variety of applications

INDIVIDUALIZATION

The base can be individualized with the exclusive AXOR FinishPlus surfaces

True beauty lies in the details

72

SWIVEL SPOUT
For optimum water spray alignment and more flexibility in installation

REMOVABLE SPOUT
Makes it easy to empty when not in use and to clean in the dishwasher

INTENSITY CONTROL
To adapt perfectly to local water pressure conditions, the intensity of the water vortex can be adjusted with the Allen key included with delivery

SAFETYSTOP FUNCTION
Closes the water valve when removing the body

EASYCLICK
Makes it easy to remove the glass body

LOW WATER CONSUMPTION
Flow rate limited to 4 l/min (at 3 bar)

JOYSTICK CARTRIDGE
The handle can be positioned to the left or right, depending on the user's preferences

Water can be breathtakingly beautiful.
When it forms an elegant vortex, it
becomes a true natural spectacle.

AXOR Starck Organic

Sense and sensibility

Modeled on nature. In its beauty, efficiency and primeval essence. AXOR Starck Organic unifies **design** and technology into a **sculptural** appearance with sensuous, organic forms. **Minimalist** in water design and in its use of resources. As nature would have intended.

Design: Philippe Starck

“NATURE LOVES
ECONOMY. THAT’S
WHY THE AXOR STARCK
ORGANIC COLLECTION
LOOKS SO REDUCED, YET
IS FULL OF INVENTION.
IT IS REVOLUTIONARY.”

Philippe Starck

CHARACTERISTIC DESIGN FEATURE:

Organic, minimalist bathroom design: The mixer, inspired by the primeval essence of nature, refers to forms such as a branch or a water droplet.

THE DESIGNER’S IDEA:

A revolutionary way of dealing with the vital element of water: AXOR Starck Organic brings ecology and economy together in one collection. In an organic, composition with a **sensual** water experience.

SPECIAL COLLECTION HIGHLIGHTS:

- / Innovative control concept: Separate control of water flow and temperature
- / AXOR wash basin mixer with water consumption of just 3.5 l/min (at 3 bar)
- / Innovative shower spray for a mixer: a sensual water experience with a soft, luxuriant stream of water and low consumption
- / Intelligent use of resources with respect to energy and materials
- / AXOR Starck Organic is the fourth collection designed in cooperation with Philippe Starck
- / Distinguished with the Green Product Design Award

An innovative concept for conscientiously controlling water flow and temperature

The innovative, two-handle mixer from AXOR Starck Organic is the next step in the evolution in mixer control. It moves away from the classic single lever mixers with which water temperature and flow are controlled simultaneously. Instead the mixer ensures an **ergonomic** motion sequence with economical water use: The temperature controller, used less frequently, is positioned on the mixer head; the handle for water flow control, always in use, is in a practical position below at the water spout.

ADVANTAGES OF SEPARATE CONTROLS

TEMPERATURE CONTROL

- / Preset to a preferred temperature or an energy-saving cold setting
- / A **harmonious** look in any position
- / The preset prevents dripping and dirt marks because the mixer handle rarely needs to be touched
- / New vivid, easy-to-see hot and cold labeling: cold water = green (energy-saving); hot water = orange

WATER FLOW CONTROL

- / Cleaner and more convenient, with direct operation at the spout
- / Normal position for 3.5 l/min: best functionality together with a consistent, pleasant water flow while still saving water
- / Booster position for increasing flow rate to 5 l/min
- / Gradual water flow control with snap-in positions at 3.5 l/min (Normal) and 5 l/min (Booster)

Intelligent functions set ecological and technological standards

MIXER SHOWER SPRAY

The innovative shower spray for the wash basin mixer sets new standards for *sensuality* and conservation. It generates a wonderful water flow with a pleasant feel while maintaining optimum function. With 90 small openings the spray former creates a soft, luxuriant shower spray.

NORMAL + BOOSTER

Gradual water flow control up to the snap-in position for 3.5 l/min. Those who need a larger volume of water can simply switch to the Booster position (5 l/min).

SPRAY FORMER

The spray former has a QuickClean function for easily removing limescale deposits. For a conventional spray jet, simply replace the spray former.

ADJUSTABLE SPOUT

For the right-handed version, the spout is used in the ex-works position. Left-handed users can rotate the spout by 80° for perfect *ergonomics*. Simply unscrew the jet former with the appropriate key and reinsert the spout.

Revolutionary water experience. Low water consumption

AXOR Starck Organic minimizes the consumption of both water, a valuable **natural** resource, and energy. With the temperature preset, less hot water is used. During production of the collection, resources are used sparingly: The hollow body construction of the mixer requires less material and, as a result, less.

SETTING THE TEMPERATURE CONSCIOUSLY

The temperature can be set individually. A maximum temperature can be set to save energy costs and prevent scalding. This is interesting primarily for mixers used in public areas and hotels as well as in households with children

MINIMIZED MATERIAL USE

About one third less brass is used in the mixer walls (hollow bodies) than in conventional manufacturing

ISOLATED WATER CONDUCTION

Prevents direct water contact with the mixer body. This keeps drinking water free of lead and nickel concentrations

ECONOMICAL WATER CONSUMPTION

Flow rate limited to 3.5 l/min. The result is a consistent, pleasant water experience with improved functionality in comparison with conventional mixers

AXOR Citterio

A contemporary classic

AXOR Citterio is an icon of modern bathroom design. Understated yet unmistakably luxurious, with distinctive flat surfaces that brilliantly reflect the light, AXOR Citterio celebrates the preciousness of water itself. With its balanced proportions and elegant geometries, the collection is perfectly suited to any bathroom ambiance.

Design: Antonio Citterio and Toan Nguyen

“THOSE WHO ENJOY
CELEBRATING THE
DAILY RITUAL OF
WASHING SHOULD DO
SO WITH BEAUTIFUL
OBJECTS SUCH AS
AXOR CITTERIO.”

Antonio Citterio

CHARACTERISTIC DESIGN FEATURE:

Monumental faucet design: Geometric precision and striking, flat surfaces – from spout to handles.

THE DESIGNER’S IDEA:

Luxury at second glance: Appreciate the value of water with this special faucet and experience the element more fully.

SPECIAL COLLECTION HIGHLIGHTS:

- / Various handle versions: **modern** pin handle, **classic** cross handle, original lever handle and new, floating lever handle
- / Rhombic cut: The new lever handle’s exclusive surface pattern is a haptic and optical experience
- / The flatness of the spout is an especially striking feature of the collection
- / Extensive product range with different faucet heights, installation possibilities, versions with plate or single escutcheon
- / AXOR Citterio product history: 2003 collection launch, 2010 enhanced design, 2021 extension of the product portfolio. AXOR Citterio is the first of three AXOR collections designed in cooperation with Antonio Citterio. Today, AXOR Citterio is a **classic** in bathroom design.

axor-design.com

A monument at the wash basin

The AXOR Citterio collection offers a variety of product variants: pin, cross and lever handles as well as products with cover plates and escutcheons. Various installation types and diverse spout lengths and faucet heights cover nearly every installation situation. In its geometric precision and monumentality, AXOR Citterio conveys the spirit of Italian neoclassical architecture. The comprehensive product range for wash basin, shower and bathtub enables endless individual solutions, all within a consistent design language.

LEVER HANDLE WITH SURFACE PATTERN

The „rhombic cut“ is a haptic and optical experience and exclusively available for the new lever handle

STRIKING HANDLE DESIGN

Conscious control turns every interaction with water into a celebration

MONUMENTAL DESIGN

Right angles meet rounded shapes and soft radii – characteristic of the collection’s monumental design

FULLY INTEGRATED SPRAY FORMER

Emphasizes the immaculate design

ROUND ESCUTCHEONS

Exciting contrast with the angular design of the faucet body

86

Striking pin handle:

- / Iconic handle with modern, technological enhanced joystick cartridge
- / The striking design creates a deeper awareness and appreciation of water

New lever handle:

- / „Floating“ form continues the architectonic design language
- / Even more ergonomic, intuitive and easy to use
- / Offers precise control of water temperature and volume
- / Optional available with exclusive „rhombic cut“

Classic cross handles:

- / Timeless design, proven functionality and familiar mechanical operation
- / Underscore the classic air of the three-hole mixer version and offer direct and separate control of hot and cold water
- / Available with escutcheons or plate

Striking design in the shower

The exposed shower system provides superior showering comfort. It offers total flexibility with regard to installation and is especially suitable for renovations. It's easy to adjust the spray angle of the overhead shower which is equipped with the Rain spray mode. The integrated thermostatic mixer technology saves water and can be used to set the desired shower temperature precisely. The SafetyStop function prevents scalding.

AXOR Citterio E

The essence of elegance

AXOR Citterio E perfects the beauty of **proportionality** and connects curved and angular shapes, familiar and new, classic and modern, to create a timelessly **elegant** form. Balanced right down to the last detail. This is the E in AXOR Citterio E. **Harmony** is created in the balance of opposites.

Design: Antonio Citterio

“AXOR CITTERIO E IS
A REDESIGN OF AN
EVERYDAY OBJECTS.
THESE LITTLE, BUT
REFINED DETAILS ARE
EXTREMELY IMPORTANT
FOR PERCEPTION.”

Antonio Citterio

CHARACTERISTIC DESIGN FEATURE:

Elegant, **timeless** design: Soft, round shapes, a tapered spout and classic cross handles that are especially ergonomic.

101

THE DESIGNER'S IDEA:

A symbiosis of opposites to create perfect beauty: With AXOR Citterio E we wanted to create something simple, but with high tangible and visible quality, to serve as an antidote to our complex world.

SPECIAL COLLECTION HIGHLIGHTS:

- / Three handle variants: the **classic** cross handle, the **modern** pin handle and the **ergonomic** lever handle
- / Modern functionality: pin handle, shower set with metal slider, thermostatic module with various handles for different functions and, unambiguous, ergonomic control
- / Select products from the collection available in Matt Black
- / AXOR Citterio E is the third collection in cooperation with Antonio Citterio

Learn more about AXOR Citterio E:

axor-design.com

A perfect symbiosis of right angles and soft, round shapes

Elegance and ease of use come together in the single-hole lavatory faucet. Precisely worked surfaces and edges are combined with gentle shapes and escutcheons in Softsquare design. Different handle variants, such as the slim joystick handle or the lever handle, are an expression of high quality.

VARIOUS HANDLE VARIANTS

- / Distinctive, modern pin handle with joystick cartridge – for ergonomic operation
- / Lever handle for easy, ergonomic control

A TAPERED SPOUT
Thoroughly planned design right down to the spout – for an elegant look

FULLY INTEGRATED SPRAY FORMERS
Uncompromising execution down to the spray former that underscores the intricate mixer design. Flow rate: 5 l/min (at 3 bar)

HARMONIOUS CHARACTER

Precisely developed surfaces and edges which, together with gentle curves, create a balanced look – even with very different handle variants

102

Cross handles, with their classic look, characterize the three-hole wash basin mixers. Ergonomic, with soft radii, they are easy to grip and to operate.

Wash basin

/ Handle can be positioned on the right or left, depending on the individual requirements of the customer and the installation of the basic set

Elegance and functionality in the shower

The scope for individual design is almost boundless. The thermostatic module 380/120 can be installed with individual escutcheons for three functions or with a plate for two functions. In connection with the basic set based on the modular principle of the AXOR ShowerCollection, installation can be carried out for customized dimensions in rows spaced 10 mm apart. The building block system and the optional 120/120 square product grid offer more options for individuality and creativity in shower planning.

VOLUME CONTROL

Open and close as well as volume
control for water supply

106

The four-hole rim-mounted mixer is a timeless, elegant product for the bathtub. At the same time, the handles offer intuitive operation: the temperature with the cylindrical handle, the water flow with the ergonomic cross handle.

The floor-standing thermostatic mixer for the bathtub is an eye-catcher. The simple baton hand shower has two spray modes, the elegant cross handle controls water flow, and the thermostatic mixer is used to set the temperature.

AXOR Citterio M

Urban lifestyle

M as in metropolis. AXOR Citterio M stands for cultivated, **urban** living. With simple, slim forms and clearly defined lines, the collection is an expression of modern, urban **elegance**. With a quiet and understated presence in the bathroom. A masterpiece, offering an everyday retreat from the frenetic pace of the city.

Design: Antonio Citterio and Toan Nguyen

“IF I HAVE ONLY A SMALL SPACE AVAILABLE, IT IS EVEN MORE IMPORTANT THAT I FURNISH IT WITH CAREFULLY SELECTED, VALUABLE OBJECTS – SUCH AS AXOR CITTERIO M.”

Antonio Citterio

CHARACTERISTIC DESIGN FEATURE:

Clear, svelte, quiet and understated: characteristically slim, simple, cylindrical forms and elegant surfaces

THE DESIGNER'S IDEA:

A symbol for urbanization: AXOR Citterio M is a collection that meets the demands of modern, urban life. All with modern **elegance** and slender forms

SPECIAL COLLECTION HIGHLIGHTS:

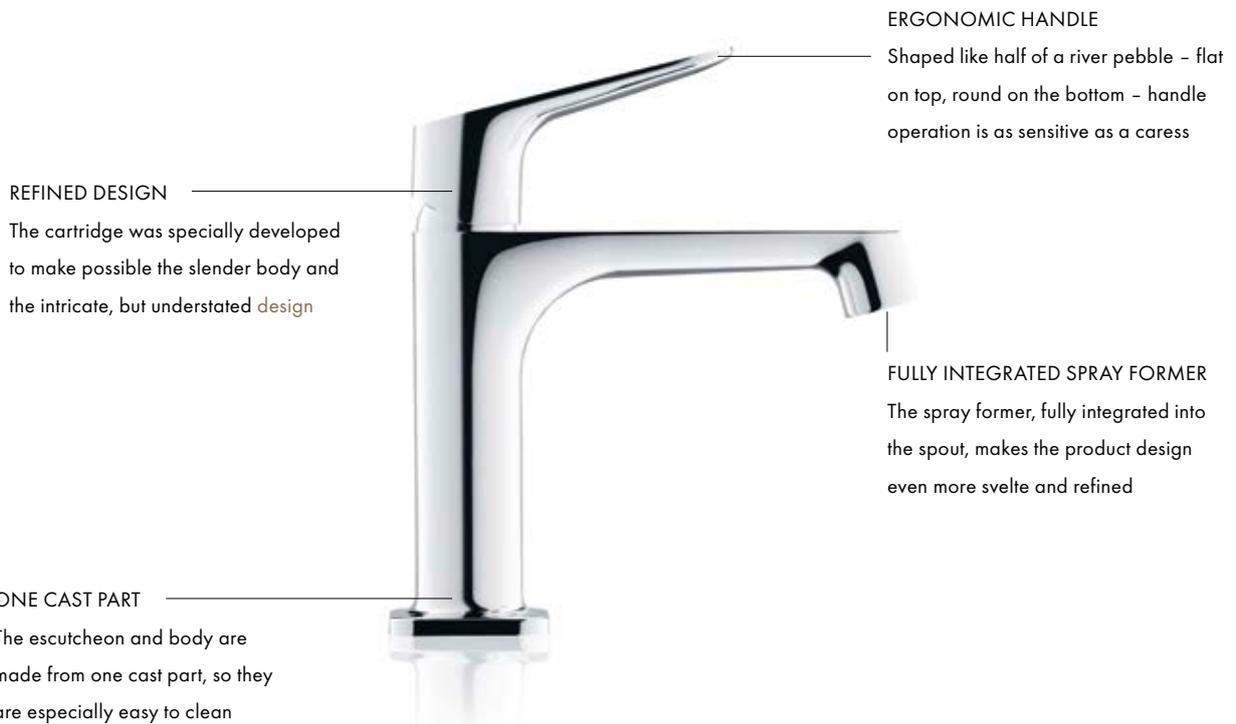

- / Variants: single lever, two-hole and three-hole mixers
- / Clear, easy operation with flat lever handles
- / **Timeless urban design**: space-saving wall-mounted mixers, understated elements for the bathroom
- / Perfect form: the first AXOR mixer with a fully integrated spray former
- / AXOR Citterio M, the second collection in cooperation with Antonio Citterio, was introduced in 2008

Learn more about AXOR Citterio M:

axor-design.com

Delicate and understated design for the modern metropolis

AXOR Citterio M – a bathroom collection inspired by **modern** city life. M as in modernity. Metropolis. Milan. With characteristically slim forms, the overall impression is particularly **elegant** and a nod to Italian design. The collection fits easily and seamlessly into a variety of bathroom furnishings and **lifestyles**. The slim, single lever mixer with a flat handle and striking spout is both modern and **timeless**. Combinations are possible with wash basins of nearly any form with this extraordinary **classic** and elegant design.

110

Urban chic in all of its rich variations:
With its various design versions, the concealed, wall-mounted mixer offers a modern, space-saving solution.

Classic in function, **modern** in design:
The mixer comes to life in the **tension** between its traditional three-hole arrangement and the clear, uncomplicated form.

Modern design for the bathtub

The intricately designed AXOR Citterio M four-hole rim-mounted mixer is the ideal product choice for the tub in **modern** bathrooms. The lever handles – shaped like halves of a river pebble – offer **ergonomic** operation, like a caress for the hands. AXOR Citterio M meets all the requirements of **urban** living for a variety of applications in the bathroom.

Elegance across the board: the simple, reduced bath mixers of the AXOR Citterio M collection.

AXOR Urquiola

Poetry for the senses

AXOR Urquiola is a many-faceted collection that embodies **eclectic** design principles. A skillful mix of styles and influences, a fascinating interplay of references and **symbols**, a harmonious whole created from distinct elements and interesting details. A variety of forms – **asymmetrical** and flat – come together to form something new and unique. Simultaneously sensuous and functional. An expression of the great art of style fusion.

Design: Patricia Urquiola

“LITTLE MEMORIES AND
PERSONAL OBJECTS
ARE WHAT MAKE A
ROOM FEEL LIKE HOME.
THE MIXER HAS TO BE
PERSONAL, JUST AS WITH
AXOR URQUIOLA.”

Patricia Urquiola

CHARACTERISTIC DESIGN FEATURE:

Skillful **style** fusion: With its asymmetries and flat surfaces, intricate details, radii and the skillful interplay of various forms, the collection expresses the unexpected. This is **eclecticism**. Yet the collection, while surprising, is **harmonious** and **sensuous** in its overall look.

THE DESIGNER'S IDEA:

Elements and impressions of life come together naturally – everything in harmony.

SPECIAL COLLECTION HIGHLIGHTS:

- / **Eclecticism**: a fusion of various style elements that invokes the unconventional
- / AXOR Urquiola is characterized by expansive surfaces, extraordinary details and a **sensual** look
- / This elegant design features handles with large openings for a delicate overall impression, despite the amplitude of the basic form
- / Sink and bath tub in a reinterpreted form of the historical washtub
- / AXOR Urquiola is the realization of Patricia Urquiola's vision of the bathroom. It was conceptualized as part of the AXOR WaterDreams 2005

A fusion of styles and elements

The shifting interplay of personal memories and impressions forms the basis of the AXOR Urquiola collection. Abandoning conformity, convention and rigid structures. Embracing multifaceted, richly detailed worlds of style full of *sensuality* and powerful energy. With its lively *style mixture*, AXOR Urquiola offers a new freedom to create individually designed oases in which the details fuse together into a *harmonious* whole.

WATER CONSUMPTION

Flow rate for all wash basin mixers: 5 l/min (at 3 bar)

ELEGANT HANDLE DESIGN

The generously sized openings in the handles, an overall design feature, enable intuitive, *ergonomic* operation. Despite their ample form, the handles appear light and delicate

AN EXCITING DESIGN DETAIL

The surface of the mixer spout is interrupted by a perfectly crafted wave. This unusual design feature – a reference to a bamboo shoot – underscores the *organic design*

SOFT EXPANSIVE

AXOR Urquiola is characterized by its combination of expansive, perfectly crafted surfaces with soft, but precise, radii

118

Nostalgic accents:

The form of the wash basin recalls traditional wash bowls of years gone by.

Practical handles:

The integrated handles also serve as towel holders.

Style fusion all the way to the bathtub

The floor-standing bathtub mixer, with its *eclectic* design, is at home anywhere in the bathroom. Just as *sensuous* as its counterpart on the wash basin, it fuses flat surfaces with unexpected *asymmetries*. When combined with the nostalgic look of the AXOR Urquiola bathtub, made of mineral casting material with a gel coating, it is a visual highlight in the bathroom.

AXOR Massaud

The peace of nature

AXOR Massaud perfects the connection between people and nature. The collection makes water into a source of wellbeing and composure. Celebrates it in the form of a natural waterfall flowing from a shelf. The collection embodies uncompromising, **organic avant-garde design** inspired by the elements of nature. Far from all technology, to enjoy the moment – with water rather than with a mixer.

Design: Jean-Marie Massaud

“I WANTED TO MAKE THE
FUNCTIONAL ELEMENTS
DISAPPEAR TO CREATE
THE LANDSCAPE FOR A
HOLISTIC EXPERIENCE
WITH WATER.”

Jean-Marie Massaud

CHARACTERISTIC DESIGN FEATURE:

Organic design language inspired by nature: Expansive surfaces meet soft curves that transition to radical geometric forms. The body is a blade of grass. The cascading spray a **natural** waterfall.

THE DESIGNER'S IDEA:

The natural world and its elements: A sensuous waterfall flowing from a shelf – this is AXOR Massaud. The mixer is not a technical object. Rather, it was designed to present the element of water and create an ingenious connection between people and nature. To provide a source of calmness and contemplation.

SPECIAL COLLECTION HIGHLIGHTS:

- / The mixer gives added value as a shelf
- / **Avant-garde** water design: the cascading waterfall is not aerated – this nod to a natural waterfall resulted from intensive development work
- / Matching wash basins in organic design
- / The first collection in cooperation with Jean-Marie Massaud

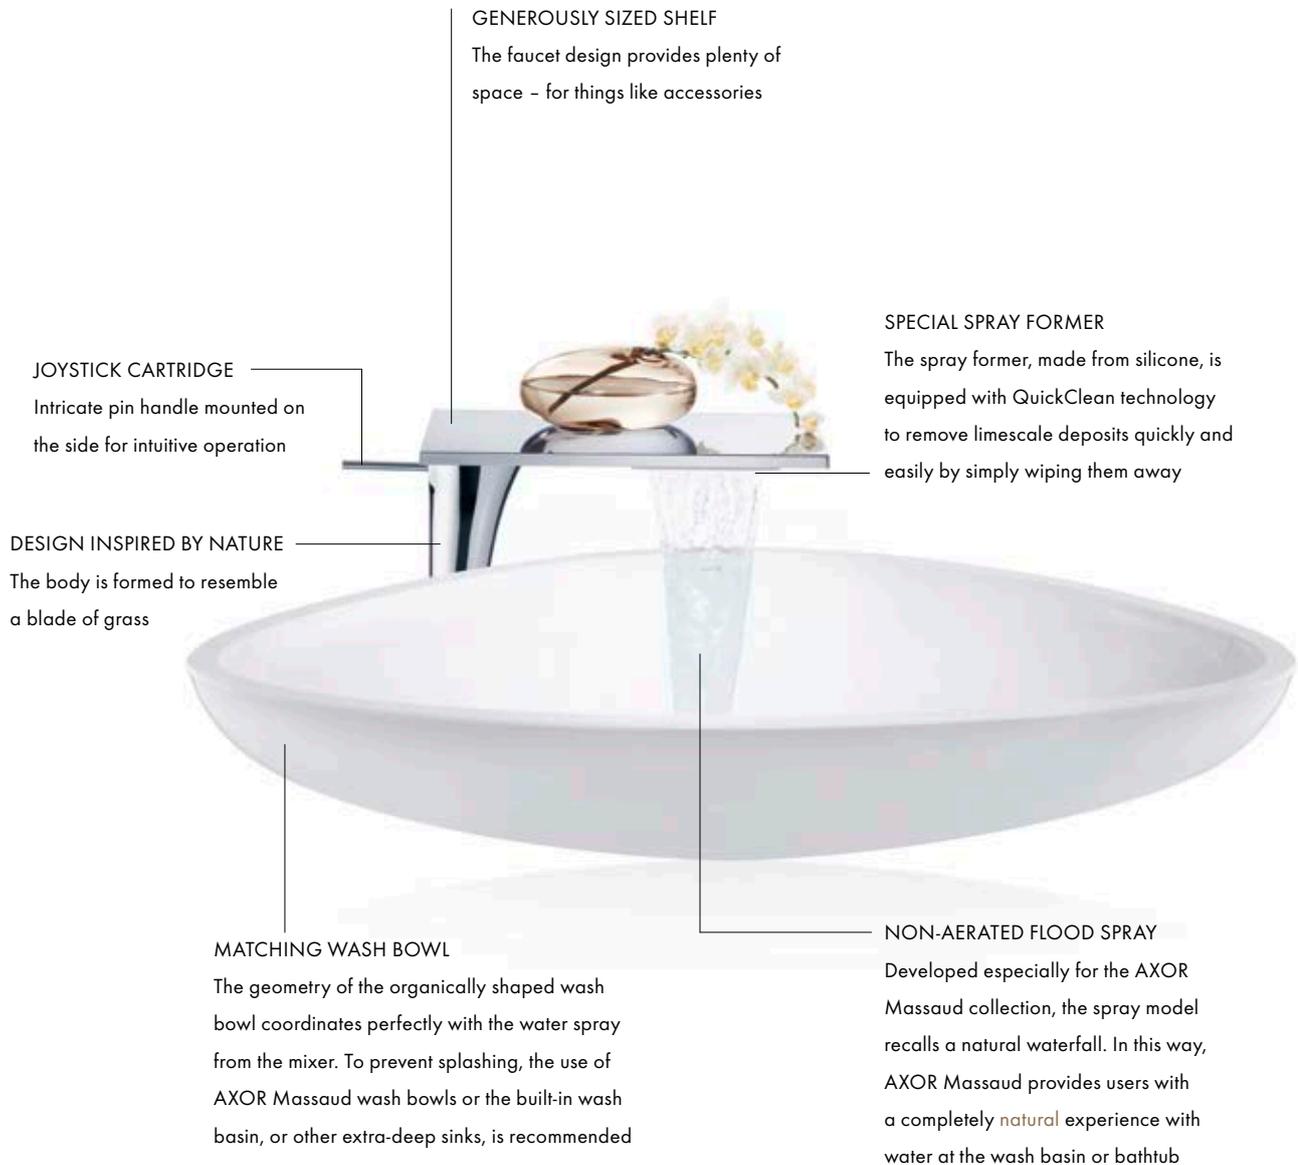

Learn more about AXOR Massaud:

axor-design.com

Harmonious connection between natural aesthetics and modern design

AXOR Massaud brings the natural world into the bathroom, allowing us to experience the element of water in all its *sensual* glory. A vigorous stream gushes from the mixer like a waterfall. Behind this gorgeous cascade is advanced water-saving technology. All rounded out by the *harmonious* relation between the wash basin, with its organic form, and the mixer.

126

GENEROUSLY SIZED SHELF
The faucet design provides plenty of space - for things like accessories

SPECIAL SPRAY FORMER
The spray former, made from silicone, is equipped with QuickClean technology to remove limescale deposits quickly and easily by simply wiping them away

JOYSTICK CARTRIDGE
Intricate pin handle mounted on the side for intuitive operation

DESIGN INSPIRED BY NATURE
The body is formed to resemble a blade of grass

MATCHING WASH BOWL
The geometry of the organically shaped wash bowl coordinates perfectly with the water spray from the mixer. To prevent splashing, the use of AXOR Massaud wash bowls or the built-in wash basin, or other extra-deep sinks, is recommended

NON-AERATED FLOOD SPRAY
Developed especially for the AXOR Massaud collection, the spray model recalls a natural waterfall. In this way, AXOR Massaud provides users with a completely *natural* experience with water at the wash basin or bathtub

1.25 m (# 28282, -000, -xxx)

A perfect match: the floor-standing bathtub mixer with a non-aerated flood
spray that flows from the mixer into the tub like a **natural** waterfall.

AXOR Uno

The power of simplicity

AXOR Uno is about the **purity** of perfection. And about the simple shapes that form a visible design. Inspired by the original purists. The mixer consists of pipes – the original form of water transport – put together at precise right angles. Subtly excessive, based on the **golden ratio**. This ascetic form exudes a great strength. The power of simplicity.

Design: PHOENIX

“IMPLEMENTED
AT THE HIGHEST
TECHNOLOGICAL
LEVELS, AXOR UNO IS
THE QUINTESSENCE
OF PURISM: CLEAN,
MINIMALIST AND
SUBTLE.”

Andreas Diefenbach, PHOENIX

CHARACTERISTIC DESIGN FEATURE:

Purist mixer design: A clear **design** language with basic cylindrical forms. Precisely put together at right angles. Subtly excessive, based on the **golden ratio**.

THE DESIGNER'S IDEA:

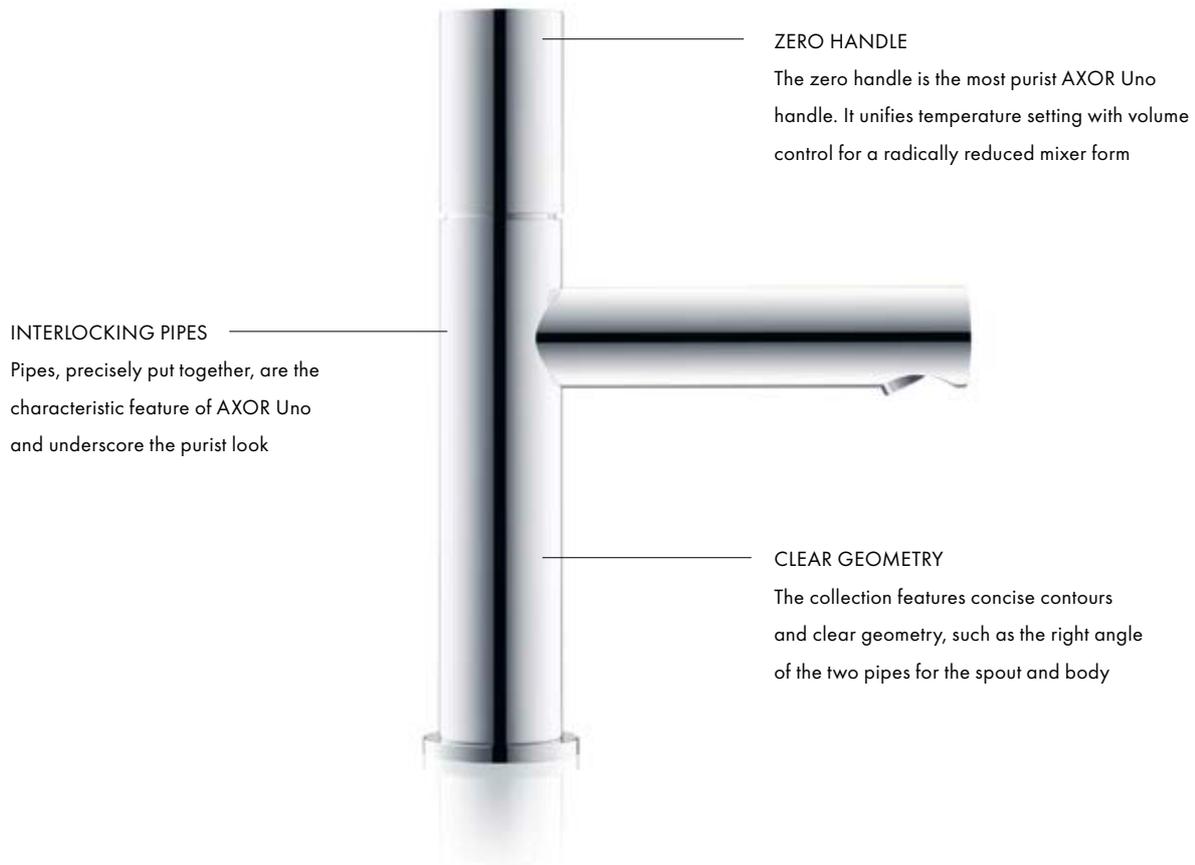

An appreciation of design and material: With the pipe, one of the oldest forms of water transport, AXOR Uno embodies radical reduction to the essentials. The material and the design are the clear focus of the mixers.

SPECIAL COLLECTION HIGHLIGHTS:

- / Two design families and three handle variants: a **modern**, bow-shaped handle, a purist zero handle or a handle with Select technology
- / The design of the AXOR Uno 200 wash basin mixers is based on the principle of the golden ratio, a classic **proportional** relationship
- / The perfect addition to AXOR Uno in the shower: AXOR Showerpipe 800 – also rigorously **purist in design**
- / **AXOR FinishPlus** surface in Brushed Nickel is available ex stock
- / AXOR Uno is a redesign of the successful AXOR Uno collection introduced in 1985

Purism. Without exception

The two design families of the AXOR Uno collection embody **purism** in different versions. Characteristic of all of the products are clear lines and cylinders put together at precise right angles. With handle variants such as the bow-shaped handle, the zero handle or the handle with Select technology, maximum **ergonomics** meets **minimalist** design.

ZERO HANDLE
The zero handle is the most purist AXOR Uno handle. It unifies temperature setting with volume control for a radically reduced mixer form

INTERLOCKING PIPES
Pipes, precisely put together, are the characteristic feature of AXOR Uno and underscore the purist look

CLEAR GEOMETRY
The collection features concise contours and clear geometry, such as the right angle of the two pipes for the spout and body

130

BOW-SHAPED HANDLE
The bow-shaped handle offers especially ergonomic operation.

SELECT BUTTON
The Select button is an intuitive control element.

Perfect purism in shower design

The AXOR Showerpipe 800 provides an integrated system solution, consisting of a thermostatic mixer, overhead shower and hand shower, all in the **purist** pipework design of the AXOR Uno collection. Select technology makes the Showerpipe with its integrated AXOR overhead shower 350 1jet and innovative PowderRain spray mode easy to operate.

AXOR OVERHEAD SHOWER 350 1JET

- / Overhead shower made of pure, high-quality metal
- / Maximum flexibility with a shower arm that swivels 70°
- / The innovative PowderRain spray mode envelops the body in a cocoon of velvety softness
- / With the QuickClean functionFlow rate: 22 l/min (at 3 bar)

AXOR BATON HAND SHOWER 2JET

- / Spray modes: Rain, Mono
- / Positioned in a high-quality, height-adjustable metal slider. Angle can be adjusted in a range of 90°. Swivels left/right and up/down

SHOWER HOSE WITH VOLUME CONTROL

Makes it easy to adjust the water flow for the baton hand shower 2jet

AXOR THERMOSTATIC MIXER 800

Perfectly integrated into the product design with a generously sized shelf surface made of sturdy safety glass

SELECT BUTTONS

- / For intuitive, user-friendly outlet control with clear function assignment
- / Two outlets (overhead shower and hand shower) can be used simultaneously

TEMPERATURE CONTROL

- / With integrated safety lock at 40°C
- / Hot water limiter can be set individually

- / sBox for quiet, smooth and safe hose guiding
- / Suitable for rim- or tile-mounted installation
- / Bath rim width at least 100 mm
- / Maximum pull-out length of individually selectable hand shower: 1.45 m

A special bathroom highlight is the floor-standing bath spout (# 45412 -000, -xxx) in combination with thermostatic module Select for 2 functions (# 18355, -000, -xxx).

AXOR Montreux

The tradition of industrial design

The AXOR Montreux mixer collection is modelled on the first industrially produced mixers from around the turn of the last century. The Belle Époque era symbolizes a time of fundamental change and technical progress. Immortalized in Europe's grand hotels and in Montreux, the legendary spa resort on the shores of Lake Geneva. AXOR Montreux combines outstanding technology with modern functionality.

Design: PHOENIX

“AXOR MONTREUX
REINTERPRETS THE
FEATURES OF THE EARLY
20TH CENTURY WITH
GREAT PRECISION
AND WORKMANSHIP,
OFFERING USERS THE
BEST IN DESIGN AND
FUNCTIONALITY.”

Andreas Haug, PHOENIX

CHARACTERISTIC DESIGN FEATURE:

Classic, authentic bathroom design: AXOR Montreux is a modern reinterpretation of industrial design with couplings, valves and pipes. Additive design elements for a richly detailed look.

THE DESIGNER'S IDEA:

Authentic aesthetics: AXOR Montreux is an authentic, historical journey back in time to the heady days of industrialization. The collection combines the design of the first industrially manufactured mixers from the turn of the last century with outstanding technology and modern functionality, bringing the Belle Époque into the 21st century.

SPECIAL COLLECTION HIGHLIGHTS:

- / Two handle variants: **classic** with cross handles, **modern** reinterpretation with lever handles
- / Various spout heights for wash basin mixers
- / The bridge mixer: A classic three-hole variant
- / Particular attention to detail: Porcelain inlays – with individualized inscriptions by request
- / Perfect for an overall classic atmosphere and for classic accents in a modern atmosphere
- / 2016: AXOR Montreux collection of 2006 expanded to include single lever mixer and lever handle variants

Learn more about AXOR Montreux:

axor-design.com

Additive design in the tradition of the industrial age

AXOR Montreux pays homage to the Belle Époque. Along with wash basin mixers, it offers products for every bathroom area. The collection includes classic versions with low spouts and modern reinterpretations with high spouts. Choose from cross handles or lever handles.

140

AUTHENTIC HOT/COLD INSCRIPTIONS
High quality porcelain plates inscribed with Hot/Cold labels. The AXOR Signature Service offers personalization

SWIVEL SPOUT
A high spout that swivels in a range of 120° for a modern look and maximum freedom of movement at the wash basin

HANDLE VARIANTS
Cross handles are the traditional version, modelled on early industrial design. Lever handles provide a modern contrast

ADDITIVE DESIGN
Characterized by the use of early industrial design elements such as couplings, valves and pipes

Classic design for the bathtub

The AXOR Montreux collection includes a broad spectrum of products for the bathtub to cover a variety of spatial requirements. From the two-handle bath mixer for exposed installation to the four-hole rim- or tile-mounted bath mixer, the products in the collection are available with either cross handles or lever handles. A real eye-catcher – the floor-standing bath mixer. In combination with a free-standing bathtub, it offers an extra degree of flexibility in bathroom design.

AXOR Programs

The products from the AXOR programs are the perfect complement to the AXOR collections, and can equip a complete AXOR bathroom. They include generic shower products for the shower, **accessories** for the bathroom and kitchen, and select electronic faucets in various styles. Each product is a unique design object in its own right. The technical complement in the wall: matching basic sets for different installation variants.

AXOR Showers

Excellence in the shower

Three features distinguish the various AXOR shower products: All are *luxurious* design objects, shape the space definitively and provide fascinating experiences of water. AXOR Showers impart a sense of appreciation for water and for the body

Design: Philippe Starck, PHOENIX, Nendo, Front, Barber Osgerby

AXOR SHOWER
PRODUCTS REPRESENT
DESIGN, INNOVATION
AND WATER EXPERIENCES
AT THE HIGHEST LEVEL.

CHARACTERISTIC DESIGN FEATURE:

Avant-garde design objects with universal appeal – for combinations across different collections.

THE DESIGNERS' IDEA:

Luxury in the shower: AXOR Showers offer fascinating *design*, perfect function and a one-of-a-kind water experience. The user is the focus of the luxurious physical experience provided by an AXOR Shower.

SPECIAL PROGRAM HIGHLIGHTS:

- / AXOR ShowerHeaven 1200/300 4jet:
Large dimensions and the innovative PowderRain spray mode impart a spa feel
- / AXOR ShowerCollection: A *modular* system consisting of overhead showers, shower modules, thermostatic mixers, valves and shelves
- / AXOR LampShower designed by Nendo:
A source of light and water
- / AXOR Showerpipe designed by Front: An object in *authentic* industrial design language
- / AXOR One thermostatic mixers: Innovative control and easy to use thanks to Select technology
- / Wide variety of spray modes for various applications:
From invigorating to massaging to softly enveloping

Spray innovation in the shower

The AXOR ShowerHeaven 1200/300 4jet is a new **archetype** in the shower, offering a grand stage for water. Here, it is staged in an extraordinary way: with a revitalizing water jet, a soothing rain shower, all the way up to the gentle PowderRain – the AXOR innovation in water design. Here, countless velvety-soft water droplets envelop the body like a cocoon of water.

OPTIONAL LIGHTING

- / Indirect light
- / Energy-efficient LED illuminant (5 W in 3,500 K version)
- / Power supply: Input voltage 100–240 V AC, 50–60 Hz/output voltage 24 V DC
- / Color temperature warm white 2,700 K or neutral white 3,500 K
- / 125 lm/W light output
- / Including 7 m connection cable
- / Lighting controlled by a separate switch outside the shower

EXTENSION SET

- / The optional extension set (# 13603000) makes the product appear to float, providing a sense of weightlessness

RAIN JET

- / Shower rain that surrounds the whole body
- / Geometric spray field, perfectly adapted to the user's body
- / Spray field, 460 mm in width
- / With QuickClean function
- / Flow rate: 16 l/min (at 3 bar)

MECHANICAL WINGS

- / Movable flaps that open under water pressure
- / Body jet can be angled to suit different user heights
- / When not in use, the flaps close to form a flat, easy to clean surface

MONO JET

- / Concentrated, soothing, relaxing jet for a real spa feeling
- / Flow rate: 15 l/min (at 3 bar)

POWDERRAIN BODY SPRAY

- / Velvety soft shower rain
- / Can be set to leave the head dry
- / Inside and outside flaps controlled separately
- / With QuickClean function
- / Flow rate: approx. 15 l/min (at 3 bar)

USING THE RESOURCE OF WATER WISELY

- / Flow rate: max. 30 l/min (at 3 bar) if all outlets are used simultaneously
- / Water supply assisted with DN15 standard connection

Purist design combined with a fascinating water experience in the shower

Purist design – based on the circle and square – characterizes the circular version of the AXOR overhead showers with diameters of 250 mm and 300 mm and the square versions of 250/250 mm and 300/300 mm. All versions are made for universal use and are compatible with every luxury shower design. Clear geometric forms with flat surfaces are the style-defining element throughout – from the spray disc to the ceiling or wall cover plate. Made of high-quality metal – with a bright Chrome surface or finished with one of the many special AXOR FinishPlus surfaces – the showers are perfect design elements for the bathroom. Inside: a technical masterpiece. The specially developed spray nozzles only become visible when the water is on and disappear again when the shower is switched off. This technology is based on water pressure and functions without any additional mechanism.

154

The dynamic spray nozzles emphasize the purist design of the high-quality metal spray disc. Because the disc has a flat surface without silicone naps, water droplets and limescale deposits can be easily removed from the spray disc with a towel or squeegee scraper. Thanks to the QuickClean function, limescale deposits can be simply wiped from the silicone naps. The bayonet connection allows the shower head to be easily removed, e.g. to be placed in solution to remove calcium deposits.

The integrated ServiceCard contains the shower filters. No tools are required to remove the overhead shower to clean the filters because the ServiceCard allows simple, efficient access to them. This makes necessary occasional maintenance more efficient and saves operating costs.

PowderRain

Intense PowderRain

PowderRain + Intense PowderRain

Innovative PowderRain and Intense PowderRain spray modes: PowderRain provides a fine rain shower (flow rate: 16–20 l/min at 3 bar) that feels like an enveloping cocoon of water. Or Intense PowderRain – a powerful spray jet (flow rate: 15–18 l/min at 3 bar) and a true innovation among the 2jet versions.

A source of light and water

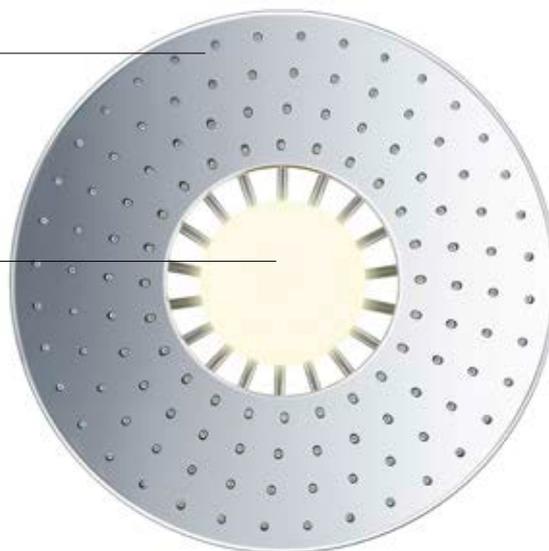

The AXOR LampShower designed by Nendo integrates lighting with the shower to form an exclusive design object. The integrated lighting blurs the lines that normally divide a space to bring a sense of coziness to the shower. A wide wreath of rain completely surrounds the body with water.

SPRAY DISC

- / Made of pure metal
- / Diameter 275 mm
- / Can be removed for easy cleaning

LIGHTING

- / Energy-efficient LED illuminant (4 W)
- / Power supply: Input voltage 100-240 V AC, 50-60 Hz/output voltage 12 V DC

AXOR Conscious Showers. Water is precious.

Delightful showers are some of the most precious moments in our daily routines. To make a ritual like this as pleasant as it is responsible, AXOR has developed Conscious Showers. All shower products in this range are characterized by low water consumption, starting from 6 l/min.

AXOR Conscious Showers meet the specific requirements for sustainable use of the precious element of water, while satisfying even the highest aesthetic demands. Whether in round or square design, they can be combined with AXOR bathroom collections in a variety of styles.

Design object with industrial character

The AXOR shower pipes and shower systems are complete shower solutions consisting of faucet or thermostat, overhead and hand shower for the shower. With the AXOR shower pipe designed by Front, with funnel-shaped overhead and hand shower, nothing will stay hidden. Pipes, sockets, valves – all the elements of typical industrial design are deliberately visible, not hidden behind the wall. A shower pipe with industrial character.

/ Matching the minimalist design
of the AXOR Starck collection

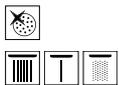

AXOR Starck Nature Shower. Luxurious shower experience for the outdoors.

The AXOR Starck Nature Shower offers all the comfort, convenience, and luxury of the AXOR Starck collection in two versions suitable for outdoor use, one with a hand shower. Equipped with PowderRain technology, the AXOR Starck Nature Shower overhead shower envelops the user in a spray of ultra-fine water droplets. The cylindrical handles allow precise control of water temperature and flow rate. The AXOR Starck Nature Shower can be installed on a variety of individually selected materials, from glass to stone and metal to wood. An effective drainage system prevents the water from freezing in the column at colder temperatures.

Intuitive control in the shower

Uncompromising in its **purist** form, the thermostatic mixer 800 for exposed/concealed installation unites the advantages of both types of installation. Exposed in that the thermostatic mixer provides a large mirror glass shelf. Concealed because the pipework is behind the wall. Thanks to Select technology, which makes the thermostatic mixer control intuitive.

170

The thermostatic module Select integrates all of the functions – outlet selection, volume control and temperature setting – in one control unit. The clearly designed icons are easy to recognize and the large buttons are easy to operate, even with soapy fingers or limited mobility.

AXOR

AXOR Accessories

Highest expression of individual style

Even the smallest details can say something about our personality. For individualists, accessories are no minor matter. They are that certain something. They are a statement with a message. AXOR accessories reflect the aspiration of individual design and holistic excellence that underlies the entire AXOR product range.

Design: Philippe Starck, Antonio Citterio,
Barber Osgerby, PHOENIX

—————
EACH INDIVIDUAL AXOR
ACCESSORY IS, IN ITSELF,
A ONE-OF-A-KIND
DESIGN OBJECT.
—————

CHARACTERISTIC DESIGN FEATURE:

From minimalist to sculptural, from organic to classic, from extravagant to universal.

THE DESIGNERS' IDEA:

Perfect **accessories**: AXOR Accessories are coordinated with the various collections so that they complement and complete the bathroom atmosphere. Or bring the extra flair of a design object to the bathroom or kitchen. In contrast, AXOR Universal Accessories are linear and modular in design, so they fit to many different collections.

SPECIAL PROGRAM HIGHLIGHTS:

- / AXOR Universal Rectangular Accessories: ideal complement to AXOR collections with cubic or rectangular design language
- / AXOR Universal Circular accessories: Timeless, round design, versatile combinations
- / AXOR Universal Softsquare Accessories: Modular, versatile range in linear design
- / AXOR Montreux: Authentic-traditional design, for combination with classic faucets and shower products

AXOR

AXOR Universal Rectangular Accessories

The new AXOR Universal Rectangular Accessories, developed in collaboration with Philippe Starck, are the ideal complement to any AXOR collection with a cubic or rectangular design language. Their clear, no-frills design never takes center stage, but sets understated, high-quality accents in the bathroom. The broad product range includes a shaving mirror, a soap dispenser, toilet paper holders, and a variety of towel bars.

Design: Philippe Starck

SHAVING MIRROR

- / Consistently rectangular design
- / Swiveling

AXOR Universal Circular Accessories

With their *minimalist*, delicate, and timeless design combined with the utmost precision, AXOR Universal Circular accessories offer simplicity in form – for a harmonious overall impression in the bathroom. The products are characterized by a consistent, recognizable design language that runs through all areas of the bathroom – with slim silhouettes, rounded corners, and balanced proportions. Thanks to their timeless design, the products can be combined completely freely with different styles and fit perfectly with the AXOR portfolio collections. AXOR FinishPlus allows for customization with different PVD surfaces, as well as the new lacquered Matt Black surface.

The wide product range of the AXOR Universal Circular Accessories program includes a bath towel bar – also available in the new painted Matt Black finish.

AXOR Universal Softsquare Accessories

A new take on the special in everyday life: The AXOR Universal Softsquare accessories – including shelves, bath towel bars, soap dispensers, and even coat hooks – are **timelessly** elegant extras that can be used individually or flexibly combined with each other. With their straightforward, generic **design**, they complete the overall **aesthetic** impression of an individual bathroom or kitchen design. Their elegantly rounded corners and universal design harmonize with several AXOR collections and very different style worlds.

Design: Antonio Citterio

Products required:

- a. Rail
- b. # 42838000 + 2 x # 42870000 Adapterset
- c. # 42834000 + 1 x # 42870000 Adapterset

1

Removable glass cover for easy filling and cleaning

Highly hygienic because the scratch-resistant, white glass can be cleaned in the dishwasher

Generously sized shelf surface

Their timeless design allows AXOR Universal Softsquare Accessoires to match every bathroom style seamlessly

Liquid soap dispenser # 42819000

188

2

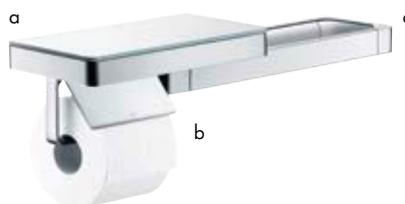

Asymmetrical positioning of shelf (300 mm) on the rail. Adapter set required.

Products required:

- a. # 42838000 AXOR Universal Softsquare shelf 300 mm
- + 1 x # 42870000 Adapterset
- b. Rail

3

An elegant combination of a rail with shelf (300 mm, installed *asymmetrically*) and toilet paper holder. Two adapter sets required.

Products required:

- a. # 42838000 AXOR Universal Softsquare shelf 300 mm
- + 1 x # 42870000 Adapterset
- b. # 42836000 AXOR Universal Softsquare toilet paper holder
- + 1 x # 42870000 Adapterset
- c. Rail

4

Large shelf surface: shelf (300 mm) and liquid soap dispenser on a rail. Three adapter sets required.

Products required:

- a. # 42838000 AXOR Universal Softsquare shelf 300 mm
- + 2 x # 42870000 Adapterset
- b. # 42819000 AXOR Universal Softsquare lotion dispenser
- + 1 x # 42870000 Adapterset
- c. Rail

5

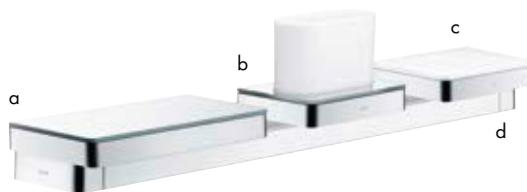

Triple duty: Shelf (300 mm) with two toilet paper holders. Two adapter sets required. One toilet paper holder is mounted in mirrored position.

Products required:

- a. # 42838000 AXOR Universal Softsquare shelf 300 mm
- + 2 x # 42870000 Adapterset
- b. 2 x # 42836000

189

6

Everything is right where you need it: Multi-functional combination of a rail with shelf (300 mm), toothbrush holder and soap dish/shelf (150 mm). Four adapter sets required.

Products required:

- a. # 42838000 AXOR Universal Softsquare shelf 300 mm
- + 2 x # 42870000 Adapterset
- b. # 42836000 AXOR Universal Softsquare toilet paper holder
- + 1 x # 42870000 Adapterset
- c. # 42803000 + 1 x # 42870000 Adapterset
- d. Rail

7

Toilet paper holder with soap dish/shelf (150 mm) – a space-saving combination for the guest bathroom. One adapter set required.

Products required:

- a. # 42803000 AXOR Universal Softsquare soap dish
- + 1 x # 42870000 Adapterset
- b. # 42836000 AXOR Universal Softsquare toilet paper holder

Design: PHOENIX

AXOR Electronic Mixers

Non-contact Design mixers

Electronic mixers by AXOR set standards for comfort, hygiene and design. The non-contact operation makes them perfect for use in public areas such as hotels, restaurants or lounges. But they also make a masterful statement in private bathrooms and meet the highest requirements for efficient water consumption. Combined with outstanding design and functionality.

Design: Philippe Starck, Antonio Citterio, PHOENIX

AXOR ELECTRONIC
MIXERS ARE THE
PERFECT COMBINATION
OF TECHNOLOGY
AND DESIGN.

CHARACTERISTIC DESIGN FEATURE:

Reduced to the bare essentials: The mixers do not need handles because sensor technology controls the water.

THE DESIGNERS' IDEA:

Masterpieces of comfort, hygiene and design: AXOR Electronic mixers combine sensor control with outstanding design – simply excellent. Masterpieces of non-contact operation.

SPECIAL PROGRAM HIGHLIGHTS:

- / AXOR Electronic is available in the design of these collections: AXOR Starck, AXOR Starck Organic, AXOR Citterio and AXOR Uno
- / Sensor control: non-contact means extremely hygienic
- / Efficient water use: Sensor controlled mixers switch off automatically
- / Available in two versions: With temperature preset or temperature control
- / Operates with 230 V power connection or battery

Functionality and technology. Exclusive design

AXOR Electronic mixers combine functionality and technology with exclusive **design** known for its proven brand quality. The innovative sensor technology is **discreetly** integrated so that mixer design can be reduced to the basics. Non-contact mixers are not only hygienic, but also save water: The intelligent electronics release water only when it is actually needed, which protects this natural resource.

AXOR UNO

Minimalist in design, this electronic, wall-mounted mixer has a sensor field on the bottom of the spout.

AXOR STARCK ORGANIC

This minimalist, **organic** mixer saves a great deal of water: The ample mixer shower jet uses just 3.5 l/min. The mixer is available with and without temperature control.

AXOR STARCK

Also reduced to the basics is the electronic variant of the **purist** AXOR Starck basin mixer. Available with and without temperature control.

AXOR basic sets, waste sets and overflow sets

Technology with a system

The perfection of AXOR continues into the wall and below the bathtub or wash basin, always making an appearance where mixers and showers are installed. The AXOR basic sets, waste sets and overflow sets are based on the many years of expertise gathered by the Hansgrohe Group. They are produced according to the highest quality standards.

199

SPECIAL PROGRAM HIGHLIGHTS:

iBox universal

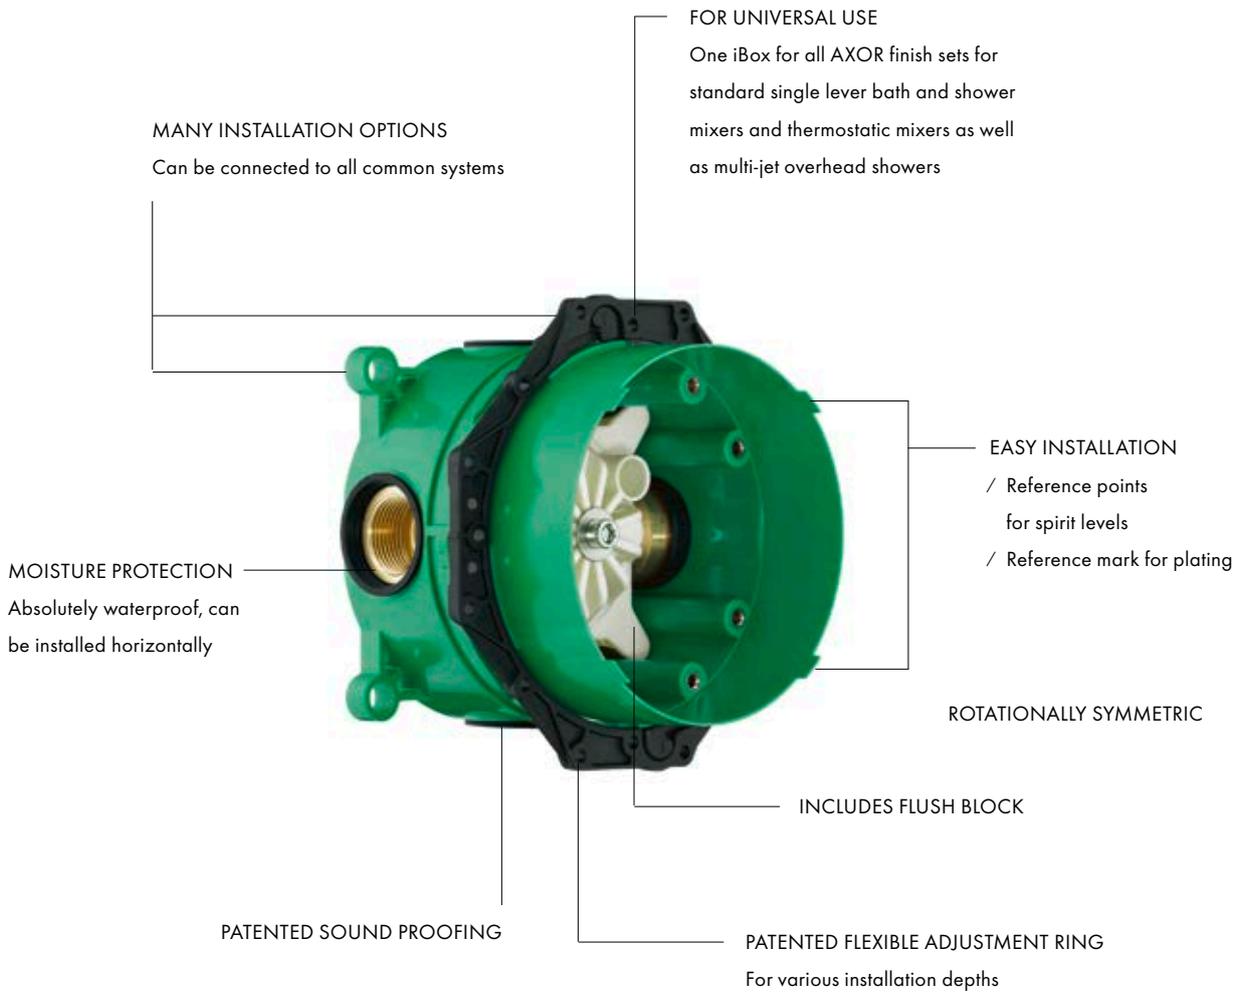

- / One basic set for numerous types of concealed installations. Especially easy to install
- / Can be used for more than 15 different complete sets for concealed installations of showers, bathtubs and thermostatic mixers
- / Easy preinstallation increases flexibility in the process for selecting mixers
- / Greater freedom of movement when showering
- / Effortless replacement with new mixers for renovations
- / Simplified project planning because one basic set is used for all installations
- / Can be used in both private and public areas
- / Meets common standards worldwide

AXOR Individualization

Individual expression in the bathroom

With collections in a variety of styles, AXOR responds to the desire for individualization in the bathroom. AXOR FinishPlus and AXOR Signature are two services for maximizing options for customers to express their personalities.

With the brushed or polished versions of colored AXOR FinishPlus surfaces, mixers, showers and accessories become design objects that perfectly complete an interior design and create an exclusive accent. The durable, high-quality surfaces are manufactured in a physical vapor deposition process (PVD).

The AXOR Signature service responds to customer requests for modifications such as inscriptions of the customer's signature, or inscriptions in the local language. The service can also provide extended shower connections to meet certain spatial requirements or to modify the mixer spout with respect to the unusual geometry of a wash basin. Experts with many years of experience and a love of detail address the modification requests, creating solutions in accordance with the most advanced industrial standards.

205

THE TWO SERVICES
HAVE ONE THING IN
COMMON: THEY RESULT
IN PRODUCTS THAT
COMBINE INDIVIDUALITY
AND QUALITY AT THE
HIGHEST LEVEL.

SPECIAL FEATURES OF THE INDIVIDUALIZATION SERVICES:

- / Exclusively developed surfaces in brushed or polished versions, some developed specially for AXOR FinishPlus, bring unique personality to the bathroom or kitchen through the use of color
- / The extremely durable surfaces are created with the physical vapor deposition (PVD) process in the AXOR production facility in Schiltach, Germany
- / The new exclusive Matt Black painted surface offers customers maximum customization
- / AXOR Signature service implements highly individualized customer requests: Lengthening, shortening, inscription
- / All modifications are carried out by AXOR experts at the highest level of craftsmanship and in accordance with industrial standards

AXOR FinishPlus

Refinement of a special kind

Luxury is all about fulfilling personal dreams. AXOR FinishPlus surfaces are expressions of *individuality* at the highest level. They set new benchmarks for luster, robustness and durability. Whether as single items or in large quantities, they are manufactured at the highest technical level and stand for quality made in Germany.

206

- / AXOR FinishPlus meets the increasing desire for individualization: The surfaces can be made to match the interior design perfectly.
- / A standardized process guarantees consistent quality
- / The Black Chrome and Red Gold surface finishes, developed by our own experts through intensive research work, underline the role of AXOR as an innovative leader in the area of surfaces
- / A mixer with an AXOR FinishPlus surface, along with its spare parts, is available for purchase in an identical quality and design for 15 years
- / In addition to the prespecified AXOR FinishPlus surfaces, other surfaces can be produced according to personal specifications by request through AXOR Signature

The masterly combination of high-tech and craftsmanship

AXOR FinishPlus surfaces are exceptional, with excellent color brilliance. The polished and brushed surfaces' unmistakable character is the result of intensive development, refined in AXOR's in-house vacuum chambers using the physical vapor deposition (PVD) process. The PVD process gives the surfaces an additional metal layer. The vapor deposition of different process gas mixtures creates different light reflections on the surface. The result: excellent color brilliance and high resistance.

- / The beneficial properties of PVD surfaces include resistance to scratching, cleaning agents and salty sea air
- / The special textures of the brushed versions are created by hand

AXOR FINISHPLUS SURFACES
BRING EXCLUSIVITY TO
THE BATHROOM.

The lacquered Matt Black finish offers a bold color that lends the product a silky, soft feel and simple elegance.

AXOR Signature

From the special to the one-of-a-kind

Lengthening, shortening, inscription. **AXOR Signature** is an exclusive service that takes a design object and makes it one-of-a-kind, whether by providing each mixer with the customer's personal touch or by modifying it to fit specific dimensions. The personal and customized result manufactured by AXOR experts in Schiltach. With the utmost in care and precise craftsmanship in accordance with industrial standards.

AXOR SIGNATURE PROVIDES THE FOLLOWING SERVICES:

- / Extensions, e.g., from wall to wash basin or bathtub, or from the ceiling into the room
- / New developments
- / Component mix
- / Laser engraving, printing, and deep engraving to integrate initials, logos, or additional markings in the national language or another size, as well as special marking for functions
- / Feasibility testing in advance of order acceptance with individualized delivery schedule and price

Planning and Installation

Planned down to the last detail

That AXOR continues to set new benchmarks in form and function is made clear with product innovations that are both visual statements and easy to use. AXOR follows this principle even behind walls, with installation options that are thoroughly planned down to the last detail. They are easy to carry out, thanks to iBox universal or specially developed basic sets and thanks to the self-explanatory assembly instructions that come with every AXOR product.

215

SIX EXAMPLES FOR PLANNING AND INSTALLATION:

- / AXOR ShowerCollection: the flexible building block system for creative shower planning
- / AXOR thermostatic module Select: a luxurious way to control the shower preferences of up to five functions
- / AXOR thermostatic mixer 800 for exposed/concealed installation: innovative technology for a flawless fit in any space
- / AXOR thermostatic module Select: simple installation for up to three functions
- / AXOR One thermostatic module: great user comfort thanks to intuitive paddle operation
- / AXOR iBox universal: the multi-talented technology for easy concealed installation

Planning example AXOR ShowerCollection with AXOR ShowerHeaven 970/970 3jet, with lighting:

The AXOR ShowerCollection is a flexible, building block system for creative shower planning. The corner installation offers a shower experience that surrounds you completely, above all, with the three different AXOR ShowerHeaven spray modes. Two shower modules are used as body showers. Centralized control of all shower elements is realized in the AXOR thermostatic module. The elements can be used individually or together.

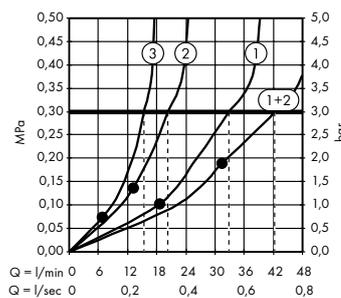

- / All three spray modes of the ShowerHeaven 970/970 3jet can be easily controlled with the thermostatic module 360/120
- / All of the showers can be operated outside of the wet zone
- / Water temperature can be set as desired before showering
- / The hand shower module can be operated easily from the shower entry area, making it ideal for cleaning the shower

AXOR Select concealed installation 670/90 thermostat module for 5 consumers with AXOR ShowerHeaven 1200/300 4jet, with 3,500 K lighting:

Luxurious operation. The thermostatic module Select has a minimalistic look and is the central element for controlling all spray modes and functions individually or in combination. Safe, secure and easy installation with the basic set. A perfect combination partner for AXOR ShowerHeaven 1200/300 4jet.

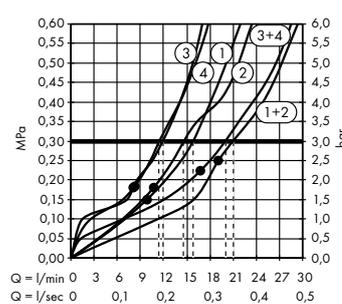

- / It's easy to control all four spray modes of the AXOR ShowerHeaven 1200/300 4jet with the thermostatic module Select 670/90
- / All of the important functions are brought together in one elegant, concealed thermostat: user control, temperature regulation and water flow.
- / The large Select buttons for controlling the spray modes and functions offer easy, intuitive operation
- / The hand shower is added to the thermostatic module via a porter with an integrated hose connection

AXOR thermostatic mixer 800 for exposed/ concealed installation with AXOR overhead shower 350 1jet with shower arm:

Innovative technology enables a sophisticated corner installation (exposed or concealed) of the overhead shower and thermostat. An elegant exposed product in its design, it features a practical shelf. The technical details are hidden in the wall, invisible. Required for installation is the special basic set for the AXOR thermostatic mixer 800 for exposed/ concealed installation for 2 functions.

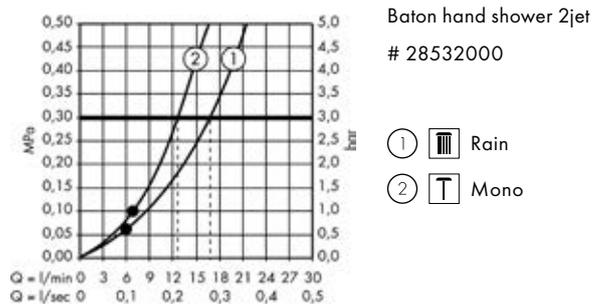

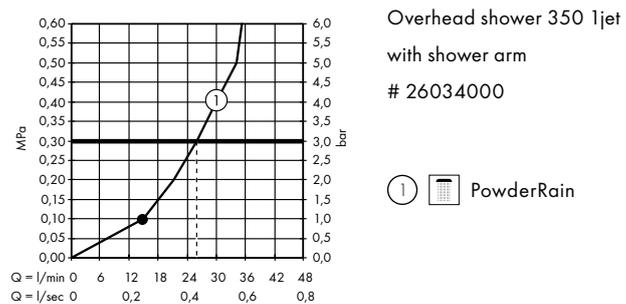

- / The pipework is hidden completely in the wall thanks to innovative concealed installation technology
- / Thermostat with high quality glass shelf with an exposed design
- / Intuitive Select technology: it's easy to switch the overhead and hand showers on and off with the Select buttons

AXOR thermostatic module Select for 3 functions

with AXOR overhead shower 300/300 2jet with shower arm:

Clean design for the shower thanks to the slim form of the AXOR thermostatic module Select. Combined with the AXOR overhead shower 300/300 2jet, the innovative PowderRain and Intense PowderRain spray modes provide a highly sophisticated shower experience. The thermostat module with Select technology is used to control the spray modes. It's easy with the intuitive operation of the Select buttons. The special basic set makes it easy to install the thermostat module.

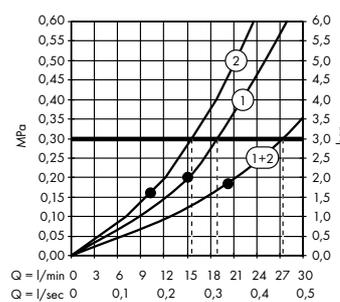

- / Central control with a thermostat: Select buttons for the spray modes, rotary knobs to regulate temperature and water flow
- / Easy to operate thanks to Select technology

Planning example

AXOR One concealed installation thermostat module for 3 consumers, AXOR One 280 2jet overhead shower with overhead shower and 75 1jet overhead shower:

The shower scenario consisting of two overhead showers and a hand shower offers versatile use and brings the private spa idea as a central element into the bathroom. The compact, shoulder-high shower head is ideal for a quick shower without washing your hair, the wall-mounted overhead shower provides a comprehensive shower experience, and the hand shower is within easy reach. All three consumers are conveniently operated via the AXOR One thermostat; temperature and volume regulation are controlled centrally via a knob.

- / All-in-one: Precise control of all consumers through one central thermostat module with Select technology
- / With EcoSmart technology for reduced water and energy consumption
- / Easy cleaning with QuickClean and removable overhead shower: limescale residues are easy to wipe off on the water nozzles
- / Innovative combination of the Rain (outer ring) and PowderRain (inner ring) spray modes

AXOR One concealed installation thermostat module for 2 consumers and AXOR One concealed installation 280 1jet shower pipe:

The AXOR One shower pipe is the perfect all-in-one combination of overhead and hand shower, as well as wallbar and wall connection, and offers an immersive shower experience combining the Rain and PowderRain spray modes. The integration of the wall connections ensures a streamlined, tidy appearance. The thermostat module is the ideal aesthetic addition with maximum ease of use thanks to Select paddles, and temperature and volume regulation via a central handle.

- / Control of all outlets or functions through one central thermostat module
- / Parallel and intuitive operation of overhead and hand shower
- / Overhead shower with innovative combination of both Rain (outer ring) and PowderRain (inner ring), spray modes, hand shower with PowderRain
- / Reduced design by integrating the wall connection into the shower pipe
- / With pivoting shower arm for flexible direction of the overhead shower, and thus individual use of space

Planning example

AXOR Citterio concealed installation single-hole bath tub faucet with lever handle, AXOR 300/300 1jet overhead shower with shower arm and porter unit 120/120 with 2jet manual shower:

This shower situation consists of an overhead shower with one spray mode and a 2jet manual shower, which are conveniently controlled via the diverter in the single-lever bath tub faucet. The overhead shower with PowderRain brings relaxing, gentle showering experiences to the bathroom, while the hand shower with Rain and Mono spray modes provides refreshment and selective deceleration. The single-lever bath tub faucet with lever handle contributes to the consistent bathroom design, perfectly matching the AXOR Citterio lavatory faucets, which also feature the flat and ergonomic lever handle.

- / Using the bath tub faucet, two outlets or functions can be controlled without a thermostat solution
- / Spa experience: The PowderRain spray mode in the overhead shower gently envelops you in a cocoon of water
- / Less cleaning for the overhead shower thanks to integrated ServiceCard with dirt trap screens, jets that disappear into the spray disc after the water is turned off, and QuickClean function
- / Nice and tidy: Combination of shower support and wall connection in one porter unit

Planning example AXOR ShowerSelect thermostatic mixer for 1 function with AXOR Citterio E shower set:

Well above the standard for concealed installations, the iBox universal is the perfect basic set for AXOR ShowerSelect products and offers maximum flexibility in bathroom planning. In combination with the AXOR ShowerSelect thermostatic mixer and the AXOR Citterio E shower set, it creates a shower solution that captivates users with its clean design and high technical precision.

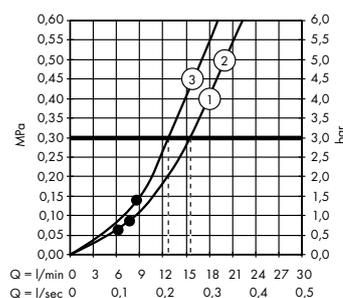

- / Universal application of the iBox as a basic set
- / The iBox universal is suitable for use in private and public spaces and meets common standards worldwide
- / Simple overall look: The technology disappears elegantly into the wall
- / With preinstallation, there is more time available to select the fittings
- / Space-saving solution for greater freedom of movement when showering
- / Replace fittings during renovation without problems
- / Simple, quick installation
- / Safe and secure: a concealed installation solution proven over 18 years of use

The checklist: We've thought of everything.

Be perfectly prepared as you start your planning and consultation conversation with your customer. The checklist helps you to address all of the important points. From room design to the water experience, water consumption and accessories to installation and technology.

1 Bathroom Design

- | | | |
|------------------------------------|--------------------------------------|--|
| / Bathroom type | <input type="checkbox"/> New | <input type="checkbox"/> Renovation construction |
| / Bathroom size | _____ | |
| / Style | <input type="checkbox"/> Avant-garde | <input type="checkbox"/> Modern |
| | <input type="checkbox"/> Classic | |
| / Material(s) used in the bathroom | _____ | |
| / Color concept for the bathroom | _____ | |
| / Shower size | _____ | |

234

2 Shower planning

- | | | |
|---|----------------------------------|--------------------------------------|
| / Shower form | <input type="checkbox"/> Tiled | <input type="checkbox"/> Shower tray |
| / Drain | <input type="checkbox"/> Channel | <input type="checkbox"/> Trap |
| / What is the ratio of tile to joint compound if walls are tiled? | _____ | |
| / Are the protected zones for electronic installations taken into account? | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| / Is ceiling height sufficient?
(e.g., for overhead showers, shower pipes) | <input type="checkbox"/> Yes | <input type="checkbox"/> No |

- / Placement of towel rack within reach? Yes No
 - / Accessories necessary in the shower? Yes No
 - / If yes: Which products? Shelves
(e.g., for shampoo and shower gel)
 Towel rack
-

3 Water and control comfort

- / Is a shower pipe/shower column desired and can it be used? Yes No
- / Is an overhead shower desired and can it be used? Yes No
- / If yes: Which type of installation is desired for the overhead shower? Ceiling connection
 Wall connection
 Integrated in the ceiling
- / Which form of overhead shower is desired? Round Angular
 Softsquare
- / How many spray modes are desired with the overhead shower? 1 2 3 4
- / Which spray modes are desired with the overhead shower?   
   
   
- / Is a hand shower desired? Yes No
- / If yes: How should the hand shower be attached? Wall rod with integrated shower holder
 Single shower holder
 Porter unit
- / How many spray modes are desired with the hand shower? 1 2 3

- / Is saving water important? Yes No
 If yes: Use EcoSmart products.
- / Which type of installation is desired for the control element? Exposed
 (e.g., thermostats, shut-off valves) Concealed
 Exposed/concealed
- / Which control concept is desired? By pressing Select buttons
 By rotating
- / Should it be possible to reach mixer/set water conditions without getting in contact with water? Yes No

4 Product modification

- / Is an AXOR FinishPlus surface desired for the products? Yes No
- / If yes: Which surface finish is desired? _____
- / Are customized product modifications by AXOR Signature service required or desired? Yes No

 - Personalized inscriptions
 - Length modifications for products
(e.g., shortening/lengthening)
 - Handle modifications
 - Integration of structures
 - Use of special materials such as wood or marble
- / Other requests or ideas: _____

5 Installation Planning

- / Is the required water pressure sufficient for the planned users? Yes No
- / Are the pipes the right size(s)? (inflow/outflow) Yes No
- / Is enough hot water available for the product? Yes No
- / Are the products suitable for use with a flow heater? Yes No
- / Can the handles be retrofitted? (Sturdy substructure?) Yes No

6 Notes

Large empty rectangular area for notes.

Inspiration

**At home in luxurious bathrooms
all over the world.**

In demand worldwide, AXOR faucets and showers can be found in the most prestigious hotels and restaurants and most luxurious apartments, houses and villas. What unites these places is the exceedingly high standard they set for design, quality, customization and sustainability.

Lily of the Valley, La Croix-Valmer / France

A hotel of the future in the middle of the outdoors

The Lily of the Valley in La Croix-Valmer is a dream of nature and freedom above the Mediterranean Sea. With a mission to imagine a paradise on earth, designer Philippe Starck created a hotel that guests can explore all year round – a warm and soothing atmosphere to find relaxation and harmony.

The sense of serenity and wellbeing at Lily of the Valley extends to the bathrooms and spa area – all in marble and flooded with light. For the faucets, Philippe Starck chose the AXOR Citterio collection in classic chrome. At the sink, the monumental AXOR Citterio single-hole lavatory faucet stands out with its enormous height. At the bath, the wall-mounted three-hole bath tub faucet with hand shower – unobtrusive in its elegance – fits perfectly into Philippe Starck's extraordinary interior concept, both classic and timeless.

240

“THE LILY OF THE VALLEY IS A PARADISE ON EARTH WHERE LUXURY COMES FROM ITS HONESTY, ITS QUALITY, AND ITS GENEROSITY; CONCEPTS AND VALUES THAT HAVE ALSO ALWAYS BEEN A PART OF AXOR.”

Philippe Starck

Architectural concept and artistic direction: Philippe Starck
Collection: AXOR Citterio
Surface: Chrome

Laurichhof, Pirna / Germany

A runway for individuality

At the gateway to Saxon Switzerland and close to the Elbe metropolis of Dresden, the Laurichhof invites you to a one-of-a-kind stay. On a fallow family plot, Annette Katrin Seidel, together with her son Franz Philip Seidel, made her long-cherished dream project a reality that expresses her more than thirty years of experience as an interior designer and architect. The result is the Designhotel Laurichhof with 27 individually furnished suites that invite you to see and experience, to wonder and admire, to relax and recover. The bathrooms play an elementary role in this. The spacious rooms reflect the design idea of the suites through the choice of materials, color scheme and, last but not least, the selection of different AXOR faucets and showers.

“WHAT MAKES AXOR SUCH A GOOD FIT FOR THE LAURICHHOF IS THE BRAND’S HIGHLY VERSATILE COLLECTIONS, WHICH GAVE US MAXIMUM DESIGN FREEDOM. WE WERE ABLE TO CHOOSE THE FAUCETS TO PERFECTLY MATCH THE INDIVIDUAL SUITE CONCEPTS.”

Annette Katrin Seidel, interior architect, designer, and owner of the Designhotel Laurichhof

Arte Surfside, Miami/USA

Nuanced execution of compact luxury

Designed by Antonio Citterio Patricia Viel's multidisciplinary architecture and interior design practice, Arte Surfside's sculptural, 11-story residential complex with direct access to the beach embodies a key principle of compact luxury: it provides communal amenities that enhance the resident experience while creating private living space. The residential units, meanwhile, reflect another aspect of compact luxury, which Citterio describes as "the need for personalized, private spaces that make creative use of their dimensions."

Antonio Citterio worked exclusively with AXOR products in the Arte Surfside. In the bathrooms, he chose AXOR Citterio E faucets, a collection distinguished by the elegance with which it balances opposites.

242

"DESIGNERS' EFFORTS SHOULD BE DIRECTED TOWARD MINIMIZING THE EFFECT OF CORRIDORS AND CIRCULATION AREAS, TO PERCEIVING THE SPACE AS IF IT WERE AS WIDE AS POSSIBLE. AND THEN TOWARD ADDING DETAILS, LIKE THE ONES WE'RE WORKING ON WITH AXOR IN THE BATHROOM, THAT GIVE A GREAT SENSE OF QUALITY."

Antonio Citterio

Architect: Antonio Citterio

 AXOR Starck, AXOR Universal
 Surface: Brushed Bronze

The AUDO, Copenhagen / Denmark

A hybrid space for hospitality and encounters

In Nordhavn, Copenhagen's old industrial harbor, new life has been breathed into a neo-baroque building from the early 20th century. The Audo celebrates and hosts human encounters in the global, digital age. Bjarne Hansen, founder of Danish design firm MENU, and Jonas Bjerre-Poulsen, co-founder of Norm Architects, conceived The Audo as a hybrid space, a platform for bringing local and international creatives together. International visitors, however, will appreciate it first and foremost as a one-of-a-kind hotel. Through the choice of materials and colors, each room evokes a different mood. AXOR Uno harmonizes with all of them – whether in Brushed Black Chrome for a “lunar” ambiance or in Brushed Bronze for a “deep forest” atmosphere. Other finishes include Brushed Brass and Stainless Steel Optic.

243

“WE WERE THRILLED WITH ALL THE WONDERFUL FINISHES AXOR HAD TO OFFER. WE WANTED A DIFFERENT MATERIAL AND COLOR PALETTE FOR EACH FLOOR AND ROOM.”

Jonas Bjerre-Poulsen, co-founder of Norm Architects

Architects: Norm Architects

Showers, AXOR Citterio
Surfaces: Brushed Black Chrome, Brushed
Bronze, Brushed Brass, Stainless Steel Optic

De Gulde Schoen, Antwerp / Belgium

Coming home in luxury

"WE MAKE SURE OUR GUESTS FEEL AT HOME. THAT INCLUDES HAVING A LUXURIOUS AND REJUVENATING BATHROOM EXPERIENCE WITH HIGH-QUALITY AXOR PRODUCTS."

Family Dembélé

Flanders' most dynamic design hotel, the Suite Hotel Gulde Schoen, can be found in the heart of Antwerp, in one of the city's oldest buildings, constructed in 1493. An historic building with a name that refers to a golden shoe could not find more appropriate owners than star footballer Moussa Dembélé, his mother Tilly and his sister Assita. The trio gave the building an extensive renovation, transforming it into a high-end suite hotel. Today's visitors will be seduced by an elegant but subtle blend of old and new, noticeable from the inner courtyard to the cloistered arcades to the stone-sculpted frieze framing the gilded entrance. For bathrooms in keeping with De Gulde Schoen's atmosphere of urbane sophistication, the hoteliers opted for AXOR Citterio E in the finishes chrome and Brushed Brass at the washbasin, bath and shower.

244

Collections: AXOR Citterio E, AXOR ShowerSelect, AXOR Accessories
Surface finishes: Chrome, Brushed Brass

The Retreat at Blue Lagoon, Grindavik/Iceland

Water meets wellness in a one-of-a-kind destination

At the Retreat at Blue Lagoon Iceland, earth, water and design come together as never before. An 800-year-old lava vein runs through the heart of the complex, and the rock's unique qualities are everywhere incorporated into the architecture. But the real star is the water. Created in a tectonic realm of searing heat and immense pressure, the mineral-rich water of the Blue Lagoon is fabled for its healing properties and otherworldly beauty. This water completely surrounds the Retreat's 62-suite luxury hotel, to stunning effect. And the special relationship with water continues indoors, where bathrooms are equipped with AXOR Starck and AXOR Showers products in Chrome and Brushed Black Chrome.

245

“THE RETREAT IS BUILT INTO AN 800-YEAR-OLD LAVA FLOW AND WE WANTED THE DESIGN TO CELEBRATE THAT. THE FIREPLACES ARE MADE OF LAVA ROCK, AS ARE THE TABLES. WE SELECTED CUSTOM FAUCETS BY AXOR TO FIT THE OVERALL MOOD WE WISHED TO CREATE.”

Sigurdur Thorsteinsson,
Chief Design Officer, Design Group Italia

Collections: AXOR Starck, AXOR Showers
Surface finishes: Chrome, Brushed Black Chrome

Private apartment, Prague / Czech Republic

Modern luxury in a discreet location

The “Golden House” – as it is also called – is located in the 6th district of Prague and offers modern luxury in a discreet location. Designer Ivanka Kowalski created an intimate yet opulent atmosphere by delicately combining different materials. The highlights of this property are the private spa and en suite bathrooms. These spaces are adorned by various AXOR collections, each of which makes a unique contribution to the overall aesthetic. For the bathroom products from the AXOR Urquiola and AXOR One collections, Kowalski chose Brushed Gold Optic, Polished Gold Optic, and Brushed Bronze from the wide range of exclusive AXOR FinishPlus surfaces. At the sinks, AXOR Urquiola faucets and their artfully eclectic combination of shapes create a lively contrast to traditional wood and stone. The floor-standing thermostat becomes an extravagant, sensuous statement at the bath tub.

246

“WITH ITS AVANTGARDE
 DESIGNS AND AN
 UNPARALLELED RANGE OF
 EXCLUSIVE FINISHES, THE
 AXOR BRAND HAS BECOME
 THE PERFECT PARTNER FOR THE
 BATHROOM AND KITCHEN.”

Ivanka Kowalski, interior designer

The Alchemist, Copenhagen / Denmark

A journey that touches all the senses

An evening at The Alchemist is sure to be a memorable one. Since opening in 2019, the Copenhagen restaurant has earned two Michelin stars for its highly creative, technically complex dishes and choreographed dining experiences. Head chef and co-owner Rasmus Munk worked with Studio Duncalf to reinvent the space – a former Royal Danish Theatre workshop for stage construction – by employing live performers and using visual technologies for Munk’s self-designed “holistic cuisine.” The Alchemist takes guests on a journey that touches all the senses – through neon halls, past walls spray-painted with graffiti and a 42-foot-tall wine cellar. If the journey takes you to the bathrooms or kitchens, you will discover not just one, but three AXOR collections.

“IN THE ALCHEMIST, WE HAVE THE OPPORTUNITY TO TAKE OUR GUESTS OUT OF THEIR NORMAL WORLD AND TRANSPORT THEM TO A DIMENSION OUTSIDE OF TIME AND SPACE.”

Rasmus Munk, head chef and co-owner

Interior architects: Studio Duncalf
Collections: AXOR Starck Organic,
AXOR Citterio, AXOR MyEdition
Surfaces: Brushed Black Chrome

Private residence, Falsterbonäset / Sweden

A unique villa on the Swedish coast

The Falsterbonäset peninsula on the southwestern tip of Sweden is home to some of the most beautiful beaches and luxurious villas in Scandinavia. When developers and interior designers Linda and Mikael Bergman decided to design a private home there, they had one goal: to build an energy-efficient, high-end residence with the latest smart home technology. The result – just 100 meters away from the famous Ljunghusen Beach – is a clean, classic design in a modern mix of materials. Featuring walnut, brass, marble, and polished concrete, the interiors were thoughtfully conceived, tastefully curated, and appear to flow almost seamlessly into one another, with no visible thresholds or unnecessary frames. When designing the bathrooms, the owners selected and customized various AXOR products to align with their sophisticated vision.

248

“AFTER VISITING THE AXOR BOOTH AT A LEADING TRADE SHOW, WE FELL IN LOVE WITH AXOR’S PRODUCTS. THE BRAND OFFERS EXACTLY WHAT WE WERE LOOKING FOR – EXCEPTIONAL, ENERGY-EFFICIENT PRODUCTS WITH BEAUTIFUL, INDIVIDUAL FINISHES.”

Linda Bergman, interior architect and owner

Interior architects and owners: Linda and Mikael Bergman

 Surfaces: Brushed Black Chrome, Brushed Red Gold

La Réserve Eden au Lac, Zurich / Switzerland

The imaginary yacht club on the lake

With the impetus of La Réserve and the vision of excellence from owner Michel Reybier, the Eden au Lac Hotel has reinvented itself as La Réserve Eden au Lac Zurich, a new five-star property in Zurich. The hotel has been completely redesigned to offer an elegant and timeless experience in the heart of an imaginary yacht club, just as Philippe Starck imagined. In doing so, the French designer envisioned the renovation as minimal but not minimalist, based on a quest for the structural soul and raw poetry of the site, uncovering the light and maximizing the architectural volume. The hotel is filled with rewarding surprises and mind games, sophisticated and carefully curated objects and materials that give the place a unique poetry and charm.

249

“LA RÉSERVE EDEN AU LAC ZURICH IS LIKE DANCING TO ROCK ‘N’ ROLL WITH THE QUEEN. EVERYTHING IS CLASSIC – AND YET NOTHING MORE. A TIMELESS COCKTAIL OF CREATIVITY, CLASSICISM, AND INTELLIGENCE, JUST LIKE SWITZERLAND ITSELF.”

Philippe Starck

Architectural concept and artistic direction: Philippe Starck

Collections: AXOR Citterio, AXOR Starck, AXOR Starck Organic accessories

Surface: Brushed Chrome

Treehouse, London / Great Britain

Luxurious sanctuary above the city

"THE INTERIOR IS BASED ON A MID-CENTURY STYLE LEANING TOWARDS THE PLAYFUL, NOSTALGIC DESIGN THE TREEHOUSE NAME IS KNOWN FOR. BECAUSE OF ITS NOVEL DESIGNS, OUTSTANDING QUALITY, AND A WIDE RANGE OF DIFFERENT STYLES, THE AXOR BRAND WAS THE IDEAL PARTNER FOR THE BATHROOMS."

Audrey Sterk, interior designer

The Treehouse Hotel successfully combines the charm of the past with the comfort and convenience of the present. The hotel's eclectic vibe extends into the en-suite bathrooms, where faucets from the AXOR Montreux collection combine the charm of a bygone era with contemporary technology and modern finishes. All AXOR Montreux faucets are used here in Brushed Black Chrome – one of the exclusive AXOR FinishPlus surfaces.

Banyan Tree Anji, Huzhou/China

A meditation on luxury

THE ARCHITECTURE OF THE BANYAN TREE ANJI REFLECTS LOCAL CULTURAL FEATURES AND THE SURROUNDING LANDSCAPE. AXOR CITTERIO ADDS TO THIS THOUGHTFUL STYLE THROUGH ITS ELEGANT, ELEMENTAL SHAPES.

It is only an hour's drive from the teeming metropolis of Hangzhou, yet the Banyan Tree Anji is worlds away. Surrounded by bamboo forests, tranquil lakes and gentle valleys, this exclusive eco-resort exudes the calm and seclusion of a monastery—albeit a very luxurious one. The property includes a golf course, an equestrian club and a spa. With its unique blend of contemporary décor and Buddhist tradition, the Banyan Tree Anji offers visitors a holistic space in which to retreat from the hectic pace of daily life. No wonder the bathrooms feature products from the AXOR Citterio collection.

251

Project participants: Greentown

Collection: AXOR Citterio

Surface finish: Chrome

PREFACE

Modern bathrooms are more than a simple summary of planning and installation of tabs, showers and matching piping systems. Today, the room – which was for a long time a purely functional wet cell and neglected in terms of design – became a place of wellbeing, relaxation and regeneration. Besides the upgrade in both functional and product aspects, the bathroom developed over the last years more and more into a reflection of individual (composition) requests and (design) preferences. Along with this development, sales persons and planners are confronted with new demands. They need to advise discerning customers not only in terms of the right product choice but also in regards to the aesthetic impact of a bathroom.

This design lexicon serves both consultants and enthusiasts as a reference guide for design. However, it is not a claim to completeness – but as a competent basis for a professional dialogue it explains the different expressions in the areas of architecture, design and of the different AXOR collections.

ACCESSORIES

Borrowed from the French and used mostly in the plural, this collective term describes additional/ decorative and/or functional equipment (from French “accessoires”). “Accessory” actually describes a not-necessary-but-adapted-to-the-fashion style, arrangement or image composition additional by-product. Accessories are used primarily in fashion design to set accents that are highly trend-dependent. In interior design, accessories such as textiles, decorative items, pictures, candles, vases and, in the bathroom, additional functional (soap) dishes, towels, mirrors or purely decorative design elements for the wall are used to achieve consistency of a design concept or look (compare: AXOR Accessories).

AESTHETICS/AESTHETIC

Aesthetics is the theory of the sensual perception (from Greek “aesthesis” = perception). Therefore, it doesn't mean beautiful by itself, but the doctrine of regularity and basics of the beautiful (harmony), as can be perceived in nature or art. Additionally, it analyzes whether the aesthetic features can be seen as objectively given or if beauty is in the eye of the beholder. This approach focuses less on personal taste than on the generally human or generally societal perception of what is considered as beautiful (compare: Golden Ratio). In everyday speech, the term is often used as a synonym for beautiful, balanced, tasteful, appealing. In the true sense of the word, however, “aesthetic” describes all the characteristics which we experience with our senses and which determine how we perceive our environment and objects – particularly whether we perceive them as beautiful or ugly. Balanced proportions, regular or layered forms and harmonious

color combinations are often considered particularly aesthetic, beautiful and pleasant. How we perceive beauty may be partly rooted in biology, but it is also acquired culturally and sociologically (as defined by our personal environment). The same number of factors determine whether we perceive a design as being aesthetic or aesthetically convincing or not. In some cultures, clean and harmoniously proportioned shapes are considered beautiful while in other cultures however beauty means rich ornamentation.

AMBIENCE

The term *ambience* (from Latin “ambio” = surrounded or enclosed) means “surrounding environment” or “setting” in the sense of a special atmosphere exuded by a decór, a space or a piece of art. In interior design, *ambience* is achieved through a targeted aesthetic presentation and stands for the atmosphere created by a space.

ARCHETYPE

The term “archetype” comes originally from psychology or philosophy and – referring to psychologist C. G. Jung – indicates the primal image of being or original images, which are the compositions of (pre) human fundamental experiences and, all in all, represent the basis of the personality structure. An archetype (from Greek “arche” = beginning, and “typos” = imprint; meaning original model, mold) can be a shape that is embedded in our cultural memory and which is an example of or a symbol for a specific function. For many of us, a house still has a rectangular ground plan and a gabled roof, even though a variety of other house types exist today. Philippe Starck employed a bucket of water as an archetype. The water pump served him as an original

model for the faucets of the AXOR Starck Collection. In product design, archetypes are forms that establish or embody a new product class. For example, cross handles represent the handles of a faucet (compare: AXOR Montreux), the Porsche 911 represents the sports car, Mart Stam's "S34" steel-tube chair (1926) represents the cantilever chair, etc.

ARCHITECTURE/ARCHITECTONICS/ ARCHITECTONIC

Architecture (from Greek "arché" = beginning, origin, base, the first, and "téchne" = art, handcraft) describes the crafted occupation and aesthetic examination of humans with the built space. Architecture is one of the oldest art forms of human civilization. Today, the lines between functional buildings and architecture are blurred: Department stores, concert halls, churches and apartments are regarded equally worthy of the design process. The connection between architecture and geometry is as old as architecture itself. The concept of architecture as both shell and constructive framework, and the idea of axiality (alignment with the axes), find their source in Roman antiquity. These principles have been continually refined and are today expressed through modern construction materials such as steel framing, concrete, glass etc. Space is designed in terms of dimension, proportion, form and composition. The term "architectural" covers anything that creates a space and cannot be dissociated from it – both in terms of construction and design. In product design, architectural composition is based mostly on geometric (basic) shapes. Straight, non-expressive, purist forms, without superfluous elements and avoiding all unnecessary technical-appearing style, is perceived as architectural. These objects appear as architectural, structural elements that are weight-bearing, functional and adjusted to the room. Such objects are often connected to the wall or the floor and/or provide structure to the room. They usually are not decorative but simply draw attention to the essentials (compare: AXOR Edge). The term "architectonics" is often used synonymously but can describe – to differentiate it from "architecture" – a structure, order or system. It may be used in regards to not only to the art of building but also to the human body or even to a poem.

ASYMMETRY/ASYMMETRIC

"Asymmetry" describes the missing of symmetry or an inequality. It is only used in those areas when there is also a symmetry (symmetry/symmetric). The adjective describes the non-symmetrical or unequally balanced elements in a composition. This manifests itself in an

optical or even a structural imbalance in constructed objects or products. Some artists intentionally choose an asymmetric composition to create tension (compare: AXOR Urquiola). In deconstructionism, asymmetrical constructions are aimed at confusing the beholders' sense of balance and their perception of harmony by using technical illusions.

AUTHENTICITY/AUTHENTIC

"Authenticity" (from Greek "authentikós" = genuineness, reliability, credibility) means originality. An authentic object is always an original or a product identical to the original (as in serial production). In the figurative sense, a form or an attitude can be described as authentic (as opposed to cursory, superficial, ostensible) even though it might not characterize the original, as long as it carries its original quality and its true identity. Content can be considered as authentic when both aspects of perception – the instant semblance and the actual existence – are found to be in accordance. A form or a re-design is considered authentic when it is used or designed in the sense of the original (compare: AXOR Montreux).

AVANT-GARDE/AVANT-GARDIST

In the broadest sense, avant-garde (from French: "l'avant-garde" = front guard) assigns a leading or pioneering role. Avant-gardists are people who start new, pathbreaking developments. In contrast to a trendsetter, who starts only short-term styles, changes started by avant-gardists have a more basic and long-term effect. The term "avant-gardist" therefore doesn't describe one particular style, but rather an artistic or intellectual attitude. With respect to art history, the term "avant-garde" describes artists whose ideas and works are ahead of their time. In the history of visual art, stands for a new art movement of the (early) 20th century. The term is closely connected to modernity. The original aim of all avant-gardist movements (mostly elitist, perceiving themselves as forerunners) was always a change in society. Most avant-gardist movements in art emerged at the beginning of the 20th century from artists' communities sharing an idealistic belief in progress – such as Italian futurism, Russian constructivism, De Stijl (Holland) or German Bauhaus. All such movements reject the prevailing aesthetic norms of their time. Today, "avant-gardist" generally means a demonstratively modern artistic expression aimed to provoke and consequently to promote a new aesthetic or social ideal. Even if this ideal can't be realized, avant-gardist movements often

have a significant influence on prevailing trends in fashion, art and design of their time.

AXOR FINISHPLUS

AXOR term for (color) finishes. AXOR FinishPlus finishes are characterized by their exceptional brilliance, high durability and exclusiveness. Customers can choose from a large variety of standardized finishes such as Brushed Redgold, Polished Black Chrome or Polished Gold Optic. Therefore, AXOR FinishPlus finishes contribute significantly to the possibilities for personalization of the bathroom (compare: Individualization). The finishes are particularly resistant and much harder than a galvanized fixture. They also have an excellent color brilliance since they receive through the Physical Vapor Deposition (PVD) process an additional metal layer.

AXOR SIGNATURE

A service from AXOR that realizes individual demands such as lengthening, shortening or individual marking/labelling of AXOR mixers, showers and accessories. AXOR Signature plays an important role within the AXOR individualization philosophy since the service turns a bathroom product into a unique piece that fulfills the exclusive aesthetic taste of the customers (with own logo or emblem) or that is adapted to meet requirements that are based on special spatial conditions (longer shower arm for an extra-high ceiling) (compare: Individualization).

BELLE ÉPOQUE

This is the period of time around the turn of the 19th to the 20th century. It lasted about 30 years generally in Europe and affected especially the life in metropolises such as London, Paris and Vienna. A new cultural life started in cafes, lounges and theatres of the European core countries because of economic and technical progress, which affected also art, fashion, architecture and technology. This new era of freedom was also characterized by optimism and the new possibilities that technical improvements generated. Cabarets served as stages for writers, artists and actors; Parisian bohemians met in night clubs and variety theatres like the famous Chat Noir or Moulin Rouge in Paris. A parallel development took place in fine arts. During the time of Belle Époque, impressionism led to Jugendstil (Art Nouveau) and to Cubism. The most important representatives were Paul Cézanne, Gustav Klimt or Pablo Picasso. In architecture, a separation from historicism occurred; the builders first preferred Jugendstil and then turned over to the New

Objectiveness, which started in the early 1920's. The most important representative of Jugendstil in architecture was Paul Möbius. (compare: Jugendstil).

CLASSIC (DESIGN CLASSIC)

The adjective classic describes a design which is typical for its time, but at the same time so perfect and pure that it seems timeless. Classic designs are considered harmonious and complete – regardless of the associated epoch or art form. Therefore, classic is defined as timeless, in contrast to the circumstantial nature of fashion. Classic works can be found in music, architecture, fashion, art, design, literature and all other areas. Colloquially, the term classic is used today as a synonym for typical/original. Classics are considered to be perfect in form and pattern formation, making them likely to be imitated. Neither unique in form nor the first of their kind, these imitations can never reach the quality of the original. In design, a classic is the closest to a formal ideal, the basic idea, even if it is not as functionally perfect as its successors. Ray and Charles Eames's Lounge Chair is considered a modern design classic, while the iPod is presently called a classic. In bathroom design, the 1994 AXOR Starck collection is a design classic – primarily because the faucet, with its joystick handle and minimalistic design, was revolutionary in terms of operation and form. In visual arts and applied arts as well as in architecture, the Classic Modern Style includes artists and works of the period between the two world wars. The Bauhaus is one of the most important examples of this style.

CONCEPT/CONCEPTUAL

A concept (from Latin "conceptum" = the combined) is a plan, an idea for a project which can have artistic or creative value, even before its material realization. A concept advances the idea and incorporates many factors which play a role in the realization, success and the impact on, for example, a new product. The design constitutes the last stage of a concept. The concept is still recognizable in the completed product as the underlying formal and functional idea. In design, the quality of the concept is determined by how long-lasting the design is and how well the product functions. However, concept design, inspired in the seventies by concept art, concerns intellectual debate about the object, as opposed to its practical value for provoking a reaction from the user. Elements of concept design can be found in Radical Design and Antidesign, employed by Italian groups like Alchimia and Gaetano Pesce and in the New German Design (compare: New Design). Awards such as the Red

Dot Award: Design Concept illustrate how valuable concepts are – even before their realization – evaluating and acknowledging new design concepts, innovations and prototypes believed to be the precursors of tomorrow’s important products. AXOR information: With WaterDream, AXOR has established a format through which conceptual potential can be achieved without compromising design creativity (similar to concept cars of the automobile industry). Space, water and humans are the only parameters for the international architects and designers. With no constraints related to market conditions, radical freedom and thinking emerges about product design and bathrooms. Many of the AXOR WaterDreams (established in 2000) turned into visionary products for the bathroom, such as the AXOR Massaud collection, the AXOR shower products designed by Front, or the AXOR LampShower designed by Nendo, which is itself is a new interpretation of the interaction between light and water.

CULTURE/CULTURAL

In our society, we use the word cultural (from Latin “cultura” = development, cultivation, processing) to describe institutions and activities such as the theatre, music, visual arts, literature, but also education and research. However, these are only the most visible expressions of a culture, which develops within a community and which is determined by a range of factors like language, politics, law, family structures, social values, religion and social conventions, education, communication skills, consumer habits, housing and health care, social behavior and responsible attitude towards individuals, society and the environment. The complex phenomenon of cultural identity within Europe is closely connected with the concept of civilization (as a theoretical counterpoint to the state of nature, instinctive behavior and the abuse of power). This led to a new image of state and society in the context of the Enlightenment in the 18th century. Culture can also be understood as a concept which works on both a large and a small scale. It is not only individuals who develop their own culture, but also every community – on the basis of familial, societal and religious structures. An individual might express their cultural identity through appearance, bodily care, or style of living. In larger structures, this identity presents itself as a subculture. In companies, concepts of morality, history, brand-specific standards of quality and sustainability, as well as socially responsible behavior all result in a culture which contributes to the formation of a specific identity (compare: Corporate Identity).

DESIGN

Design has two principal meanings: design in the sense of a process (a drawing, an idea or a creative concept) and design in the sense of an outcome (the appearance of the created object, as well as the international language of larger structures, such as those encountered in interior design and architecture). The word design (from Latin “designare” = to signify) has been introduced into many different languages. Following its emergence in craftwork, design has since flourished in numerous other fields. The most important are product design (e.g. furniture and household objects), industrial design (a term largely applied to the design of industrially manufactured products in contrast to craftwork, but is sometimes used to describe specialized machines for industrial production), interior design (special art), graphic design (means of visual communication such as typography, prints, marketing materials), corporate design (establishment of an homogeneous visual appearance), communication design, packaging design, fashion and textile design, color design, etc. Design encompasses not only the visual or aesthetic presentation of an object or a communication medium, but also its functionality and construction. The tasks of a designer include product conceptualization, selecting and processing materials and choosing the production technique. Design influences ergonomics and the usability of everyday equipment and devices, and understanding the emotional component of a design has become crucial in today’s world. A well-designed product performs optimally, clearly conveys its function and is a pleasure to use both in the short and the long term.

DIAMOND CUT

Within gemology, cutting is a process which intensifies the shine of a gem by bringing out the optical effects which are already inside the stone. The cut of a diamond decides upon its brilliance. Cutting is part of the 4Cs (Color, Clarity, Cut, Carat) and is the most remarkable of these four criteria. The higher the quality of a cut, the more the stone shines. Only the perfect cut can bring out the unique fire of a diamond. There are around 1500 types of diamond cuts. The brilliant cut is considered the best-known cut, which is composed of small, polished surfaces. These surfaces, or facet (from French “facette” = bevel; partially polished, flat surface) cuts are used for other gemstones, mirrors and glass, and even to create special forms (compare: AXOR Starck V). AXOR information: For AXOR Edge, the diamond cut describes the partially refined surface structures

of the faucet. To achieve this texturing, a unique 3D structure is milled into the brass block at the handle or the lower part of the faucet. This structure is created using a diamond-tipped tool, the same one used when cutting diamonds. After that, the block is chrome-plated or refined with one of the AXOR FinishPlus finishes. The entire process creates a surface texture that is a special part of the faucet, standing in the Art Décoratifs cultural tradition.

DISCREET

The term (from Latin "decentia" = decency/civility) is a synonym for sensitive or befit. In aesthetics, this term means unobtrusive and restrained, describing the subtlety of a design element or an entire composition, in which no singular element dominates.

DYNAMICS/DYNAMIC

Dynamics (from Greek "dynamiké" = powerful or "dynamis" = power) refers to the movement of bodies under the influence of a force. The term dynamic usually describes the character of a person, an environment or an object and means that someone or something is full of energy, agile and light. It is often used to describe the character of a person, an environment or an object. Dynamic therefore signifies the opposite of static. However, dynamics can also mean the inner movement of a piece of art, a design object, a building or a room design. A sense of dynamism or movement can be achieved through deliberate nuances, rhythms or organic, sweeping lines.

ECLECTICISM/ECLECTIC

Eclecticism (from Greek "eklektos" = selected) is a design principle which draws upon different objects, styles, materials, elements or philosophies and combines them to create something new. As an artistic movement and design principle which openly draws upon existing or historic works of art, eclecticism has significantly shaped human creativity for centuries. It also characterizes different periods of European art from historicism onwards. The term eclecticism was used pejoratively in the past, applied to any art that lacked originality. In postmodernism, eclecticism as an art method became important for critical reflection on existing material. In design, the eclectic principle represents a technique to edit or reinterpret (art) quotations, or to create or reinterpret an original (creative and innovative) formal experience. This way, something new arises from established objects. Often, the result is a combination of references and symbols

from the worlds of design and architecture (compare: AXOR Urquiola).

ELEGANCE/ELEGANT

Elegance (from Latin "elegantia" = fine taste or fineness) is associated with a sophisticated, stylish taste which has a distinctive and cultured appearance. People who dress elegantly and furnish their home in an elegant style wish to express a refined, cultivated sense of taste. The elements employed are mostly classical and harmonious, with bold or ornate elements often avoided.

ERGONOMICS/ERGONOMIC

Ergonomic is mostly used as a synonym for anatomically designed or optimal for human use. Ergonomics (from ancient Greek "ergon" = work and "nomos" = rule, law) is concerned with designing a work space that is efficient and gentle on the body. Ergonomic design aims to improve the interaction of man and machine and to create products that are easier to handle and more comfortable to use.

EXTRAVAGANT

The term extravagant means "in an eccentric or exaggerated, overstretched manner purposely different and therefore notable/exceptional". Previously used in a negative sense, extravagant today describes any creation in product design, architecture or interior design that is exceptional, new and unusual, partly futuristic, often made with the purpose to polarize.

FORMAL EXPRESSION

Formal expression describes the way in which an object or a room achieves a certain expression by means of its formal elements. Rooms and objects express themselves in their arrangement and via metaphorical references – for example a handle in the shape of a leaf. The term formal expression is in line with the idea that individual design elements (basic shapes, lines, colors, etc.) can achieve a certain expression through their arrangement – just like the words in a language. An object can therefore be soft or aggressive, expressive or concentrated, discreet or dominant, minimalist or sculptural.

FROG DESIGN

Frog Design is one of the most well-known international design studios. The company was founded under the name "Esslinger Design" in 1969 by Hartmut Esslinger. Working from Altensteig within the Black Forest, Esslinger worked with with Georg

Spreng and Andreas Haug to create the Tri-Bel hand shower, for which Hansgrohe received its first design award in 1974. The studio had its international breakthrough at the beginning of the 1980s, receiving global recognition for its work, particularly the legendary Apple IIc and Apple Macintosh designs. During this decade, the company changed its name to Frog Design and relocated to Silicon Valley. The acronym FROG is an abbreviation for "Federal Republic of Germany". Today, the design studio has offices around the globe.
www.frogdesign.com

GOLDEN RATIO

In art and architecture, the Golden Ratio is the ideal ratio among different lengths of an object or a construction to one another. It is considered the epitome of aesthetics and harmony and was used intuitively long before its formula was discovered. It is argued that the Golden Ratio can be found in many works of the Renaissance artists such as Raphael, Leonardo da Vinci and Albrecht Dürer. The Golden Ratio defines the harmonious partition of an object into a shorter and a longer section in the mathematical ratio of $b:a = c:b$. The ratio of the longer section to the total length is the same as the ratio of the smaller section to the longer one (compare: AXOR Uno).

HAPTICS/HAPTIC

Haptics (from Greek "haptikos" = able to touch) is the study of tactile sense. Through touching surfaces and by being touched, living organisms receive various impressions and information. In design, the haptic perception of an object influences our well-being. Our reactions, whether we experience comfort or disgust, a feeling of warmth or coldness, or a sense of ease or irritation, are intuitive and beyond our control. The term goes back to the German psychologist Max Dessoir. He recommended in his publication "Über den Hautsinn" in 1892 to name the study of tactile senses, following terms such as 'acoustics' and 'optics'. The tactile perception of a surface largely determines our emotional relationship to the object, but also our confidence in its ergonomic quality, for example in that of a chair or a musical instrument. Haptic design principles are used in different areas, e.g. in product packaging haptics (form and surface structure), where it is used as an important recognition factor for a brand. A pleasant tactile experience is a decisive product feature, especially for products which are used several times a day (e.g. bathroom faucets).

HARMONY/HARMONIC

Harmony (from Latin/Greek "harmonia"= agreement, concord) is an aesthetic term for the meeting and coexistence of two or more different but matching parts. These parts complement one another, resulting in a harmonious, balanced appearance. Ideally, all different parts retain their own identity, but join together to form a new unit. In most systems – as in music or color – the individual elements must share a common origin on a deeper level in order to be compatible (such as belonging to the same pitch in music or to the same color category).

INDIVIDUALIZATION

The term (from Latin "individuum" = individual being) has its origins in sociology, and refers to the increased desire in the West for individuals to construct their own identities during early industrialization and modernization. Though the term is used differently in sociology, psychology and economics, at the core it involves freedom of choice. Trend researchers have described individualization as a mega trend, one which affects value systems, consumption patterns and everyday culture. In the product sector, digital technologies such as 3D-printers, the internet, or programs of configuration create new possibilities for individualization. Websites that allow product configuration for vehicles are absolutely indispensable in this sector. Car buyers customize their cars online; choosing motors, colors and equipment packages. Today, product configuration (or customization) has reached nearly every area of everyday life. Food is assorted with different ingredients (My Muesli) and cosmetics are adjusted to the customer's special preferences (My Parfum). Individualization aims to fulfil one's own wishes and desires, allowing them to differ from others and to stand out from the (social) crowd. Interior design individualization – like product design – helps to express unique tastes and exemplifies exclusivity (individuality) (compare: AXOR FinishPlus, AXOR Signature).

INTERIOR DESIGN

The aim of interior design is the artistic furnishing and decoration of a room. Interior design includes technical and structural aspects, as well as aesthetic, artistic expression. According to the BDIA (Bund Deutscher Innenarchitekten – Association of German Interior Designers), the legally protected professional title "Innenarchitekt" in Germany defines the tasks of an interior designer as follows: "The creative, technical, economical, ecological and social planning of interior spaces and connected to that, the

constructional modifications of buildings.” Besides the technical aspects, the interior designer creates the sensual perception of a room, which conveys relations and meanings that exceed spatial perception. The representatives of the Bauhaus school sought to tear down the barrier between architecture and interior design. Today, their vision of architecture, interior design, art and product design as one integral task has become very popular once again.

LIFESTYLE

The term lifestyle means individual way of life. In common speech, lifestyle means the cultural form of life of a group of people. Cultural identities that do not refer to an individual are derived from this term and used in common language. In this context, it is common to speak of an American, a Western, or Eastern lifestyle. It not only represents certain values, but also conveys preferences in fashion, music and other areas. Attitudes towards health, professions, free-time, family and the nature of social relationships are also a part of a lifestyle. Lifestyle orientation includes the conscious presentation of one's personality (through cultural and fashion elements) and one's preferred style of accommodation. The ideal of any lifestyle, no matter what its specific orientation, is the creation and communication of individuality. The challenge, it seems, is to find a convincing (authentic) balance between individuality and the prevailing “Zeitgeist” / convention.

LUXURY / LUXURIOUS

Luxury (from Latin “luxus” = richness, excess, opulence) means expenditures and activities which exceed the bounds of what is considered standard or essential in a society. In its positive meaning, luxury is regarded as a desirable situation, in which life is more comfortable for individuals and free from worry. Also, “en vogue” in our society is a luxury which is limited in time and which marks special occasions in life. A clearly negative meaning of luxury, however, is a lifestyle that is superfluous, irresponsible and wasteful. Yet luxury and norms are not to be understood separately from each other. Luxury can be defined as a deviation from a state culturally defined as normal. Against a background of relative wealth on one side and a decrease in quality of life on the other, luxury is less defined by material wealth and instead by immaterial values: personal time, health care, outdoor experiences, family life, space, self-determination, etc. In current discourse, products and services are considered as luxurious when they show unique selling

points, are limited (e.g. Haute Couture), or if they enjoy a collector's item status (such as rare wines).

MINIMALISM / MINIMALIST

Strictly speaking, minimalism isn't a style, but a principle in design which can be used in many different styles. The aesthetic aim in minimalism is a functional and visual result characterized by elegance and a concentrated, controlled use of materials. This is achieved by using only as much material as necessary and by focusing on the core of a project. The motto “less is more” is based on an aesthetic rule used in some Asian cultures, where a strong impression is created through the minimal use of objects, ensuring that superfluous elements do not distract from the central idea. The adjective minimalist is often used as a synonym for clear, simple and reduced. A typical feature of minimalism in architecture and design is the avoidance of using too many features. Minimalist designs typically feature primitive colors (e.g. red, yellow, green, blue) or geometrically primitive forms (e.g. circle, square, triangle). Small dimensions appear in the context of large surfaces and smooth surfaces are often dominant. In most cases, this arrangement is connected with a cool, rational design and a highly functional character. In design, the term minimalism is associated with a fundamental, purist trend that consciously broke away from Studio Alchimia and Memphis in the 1980s. The ideal of minimalism is simplicity. Simplicity means that only a few factors contribute to the creation of a form and that relatively few influences are visible. The most exacting requirements in minimalist design are generated when there is a need to integrate complex components into a simple form in a harmonious, virtually invisible way. Minimalist product design therefore often encloses a complex interior or a complex processing of materials. The aim is to transform complexity (with regard to technical equipment or difficult structures) into a highly sophisticated and organizational form. Japanese designer Shiro Kuramata and French architect and designer Philippe Starck are among the most popular representatives of minimalism (compare: AXOR Starck).

MODERN / MODERNITY

In common usage, the term modern means contemporary, up to date, progressive or in accordance with the latest fashion. However, using the term modern as a synonym for fashionable is reductive. Modern refers to the latest developments in society, science and technology. In design, modern is mostly used in a contemporary context. It is less

common to use the term with reference to Classical Modernity (early 20th century).

MODULE/MODULARITY/MODULAR

A module is a component of a larger system. Modularization (or the modular principle) refers to partitioning of an ensemble. In modular construction, systems are assembled from standardized individual components. In industrial production, modularization increases efficiency and the resulting modular product offers advantages for the users. Some highly sophisticated and common product lines in the automobile or furniture industry are based on modular construction, which makes it possible to customize a collection, or adjust it to changing circumstances (compare: AXOR ShowerCollection). In architecture, the modular principle offers a lot of advantages – especially in terms of costs and flexibility. Thanks to modern, computer-based production concepts, modular buildings and individualization possibilities or aesthetic designs are no longer considered as insurmountable hurdles.

MONOLITH/MONOLITHIC

A monolith (from ancient Greek “monólithos” = unified stone or one-stone) is a naturally-shaped or carved block formed from one type of stone. Boulders (large, single pieces of stone) or overhanging mountain ledges are considered (natural) monoliths, as are island rocks (e.g. Uluru in Australia) or rock towers (e.g. Angels Landing in the USA). Monoliths created by human hands include stone pillars, e.g. The Obelisk of Axum, Ethiopia, and the Stone of the Pregnant Woman, Lebanon. The latter is one of the largest carved monoliths and was originally planned to be in the temple complex of Baalbek. The adjective monolithic is usually used synonymously for anything consisting in one piece or one block. In architecture, the term refers to buildings (or parts of buildings) that are built out of one single material (stone or cast concrete). Similarly, underground tanks or water reservoir tanks of a single mold are also called monolithic. In general, objects are described as monolithic if they consist of a single part (compare: AXOR MyEdition).

MONUMENT/MONUMENTAL

Important/meaningful memorials, buildings or large paintings are called monuments (from Latin “moneo” = to commemorate sb./sth., admonish, call attention to) and often have the purpose of preserving the memory of historically important people or events. These could be burial mounds (Hågahügel, Sweden),

giant sculptures (Mount Rushmore, USA), or symbolic buildings (Walhalla, Germany). One common usage of monumental is as an adjective for anything reminiscent or serving as a monument, made in large dimensions and therefore very impressive. In architecture, the Neoclassicism of the early 20th century was influenced by the monumental approach to building from antiquity, the Baroque and the Classic. The main building of La Sapienza University (Rome, Italy), the Haus der Kunst (Munich, Germany) or the Michigan Central Station (Detroit, USA) are all examples of this (compare: Neoclassicism). Monumental buildings or furniture have – due to their impressive dimensions – a memorial effect (compare: AXOR Citterio).

NATURAL/NATURE-INSPIRED DESIGN

In common usage, the adjective natural means real, authentic, original and of indigenous origin. This general meaning was coined during the Enlightenment in Rousseau’s philosophy, which accentuated the difference between a natural and a civilized way of life. The use of natural in the sense of biological, non-synthetic and pure only became dominant with industrial development and the introduction of artificial materials and artificially produced food. With the increasing mechanization of our surroundings and a growing sense of alienation from nature and traditions, the idea of a natural environment has come to assume greater prominence as an ideal or utopian state. The term natural describes a state of affairs which hasn’t been altered by civilization or education. In design and architecture, the term natural refers to a process of imitation with the purpose of achieving an overall impression reminiscent of nature, with the aim to create a sense of well-being. When designing an object and when choosing the materials, all human senses are considered; visual and spatial perception, the senses of smell and touch, sensations of warmth and cold and also cultural connotations. Consequently, nature-inspired design is a design principle that uses nature as role model and recreates a sense of nature. Consequently, nature-inspired design products should create an overall natural impression and enhance the feeling of well-being (compare: AXOR Massaud).

NATURALIST/NATURALISM

Naturalism is a movement in literature and art that experienced its zenith from 1870 until 1890. Artists of naturalism had the aim to portray objects as they are; as realistically as possible, convincing in perspective, accurate in every detail and without euphemism. However, accuracy in appearance, carried to

extremes by photorealism, is no guarantee that the message conveyed is genuine or true.

NEOCLASSICISM

Neoclassicism (in contrast to classicism of the late 18th and the early 19th century) is an international architecture trend of the 20th century. The movement turned against Jugendstil and historicism after the First World War and was then characterized by referring to classical style elements and forms. The creators of Neoclassicism studied the buildings of Greek and Roman Antiquity, borrowing and then modifying their clear structure, geometrical layout, monumental appearance and classical order of pillars and gables. Famous buildings in the Neoclassical style of architecture are found in the USA (e.g. 30th Street Station in Philadelphia), in France (e.g. the Palais de Chaillot in Paris), or in Finland (e.g. the Finnish Parliament in Helsinki). A unique neoclassical style with a monumental focus emerged in Germany under National Socialism and in fascist Italy, for example from Albert Speer or Enrico del Debbio. Famous examples in Germany include the Olympic Stadium and the Neue Reichskanzlei. In Italy, examples include the sports facilities Foro Italico in Rome, as well as St. Peter's Basilica and the Basilica of St. Paul in Rome. In Russia, socialist Neoclassicism influences many cities even today: the Moscow State University is one example, as is the House of Soviets in St. Petersburg.

NOSTALGIA/NOSTALGIC

Nostalgia (from Latin *nostalgia* = homesickness, Greek *“nóstos”* = homecoming and *“álgos”* = pain) describes the memory of good times past: a feeling of undefined, retrospective longing which motivates one to recall or revive past styles in art, music or fashion. Nostalgic design or nostalgia is invoked by products, spaces, and music (e.g. by reusing flower power elements of the 1960s, or the music of the 1980s). The focus is on reconstructing a past style as accurately as possible, without adding new elements, or on creating a new style by combining old and new elements (compare: Retro) (compare: AXOR Montreux).

ORGANIC DESIGN

Organic Design is both a style and a principle of design and construction. As a style, it constitutes the polar opposite of geometric, functionalist styles. It is inspired by organic shapes and sometimes also by inorganic, particularly crystalline, structures, both of which appear in nature. Classical features of Organic Design are powerful curves and dynamic, round shapes. Typically, (but not exclusively) amorphous

forms are used which appear natural and symbolize nature. The aim is to achieve a pleasing, natural impression and many organic designs allude to structures that occur naturally. As a design principle, Organic Design can be found in many disciplines and there is no stylistic unity. Organic forms can be found in traditional, high-tech or minimalistic styles. Organic Design is not characterized by stylistic expression, but rather by a principle of construction that imitates nature (e.g. cellular, netted, skeletal, crystalline) and by abandoning classical static weight-bearing structures in favor of a more flexible and elastic construction. What all organic objects have in common is a design that is developed from the inside out and a focus on accentuating expression. Common techniques include asymmetrical construction, flowing lines, soft shapes, directed structures, plastic volumes and dynamic forms. In organic architecture, buildings might appear to grow or they might even appear to have an explosive energy. Frank Lloyd Wright (Guggenheim Museum New York), Eero Saarinen, and Hans Scharoun in Germany each produced ground-breaking work in this field. Today, futuristic buildings by architects such as Frank O. Gehry, Zaha Hadid, or Peter Cook (Kunsthaus Graz) increasingly showcase organic design elements. The most important representatives are Ron Arad, Luigi Colani, Massimo Iosa-Ghini, Ross Lovegrove (seats for Japan Airlines, 2002) and Philippe Starck. Objects designed through Organic Design principles are often shaped ergonomically and made of high-quality, sustainable materials which fit the overall idea of the product (compare: AXOR Starck Organic).

ORIGINAL

The word original (from Latin *“origo”* = beginning) has several meanings. As opposed to a counterfeit, an original is a genuine product or object. As opposed to a copy, an original is a work created by the artist; it is neither changed or replicated. Original can also mean the initial version or prototype; the first version of a text, painting, work of art, or product model. As an adjective, original can also mean innovative, creative, or ingenious. In this context, the adjective original describes something incomparable and exceptional.

PROPORTION/PROPORTIONAL

In aesthetics, proportionality means a ratio of size or length which is particularly pleasing to the eye. In fine arts, proportion is used to measure the ideal ratio of individual parts to one another and to the whole. In architecture, it is the measurement of width, height and depth in relation to the complete building

(compare: Golden Ratio). How we perceive the balance of proportions is not a matter of chance. It is determined by biology, aesthetics and culture. American cars seem overproportioned to Europeans, but still harmonious as a whole. Extra-long necks, considered an ideal of beauty in some African cultures, challenge our perception of proportions. In fashion, taste changes faster than in other areas, whereas in architecture it is relatively more constrained by structural requirements.

PURISM/PURISTIC

Today, the term purism (from Latin "purus" = clear/pure or French "le purisme" = the Purism) is mostly used as a synonym for simplicity and frugality. Purism is a style within the modern art and architecture of the 20th century. It was originally used in the sense of linguistic purism, which advocated a pure, unaltered style, free of any foreign objects. Purists want to keep a cultural characteristic as authentic, original and pure as possible. A strictly classical design can also be considered purist. Purism is therefore always associated with a certain sense of stringency. As a design movement, purism developed from an aesthetic trend which itself derived from Russian constructivism, a style which called for clear, austere art modelled on the basis of purely architectural and geometric forms. The ideal is a composition of elementary geometric forms that avoid purely decorative effects. In contemporary design terminology, purism stands for the extremely reduced use of forms with an almost ascetic character. An ethical component can also be perceived: modesty in outward appearance meant to convey a nearly sacral concentration on intrinsic value. Since purism also represents the ideal of authenticity, nothing is concealed (as opposed to minimalism) to achieve a more homogenous and harmonious appearance. All elements should speak for themselves. Typical features of purism include a minimal combination of materials, untreated surfaces, clarity through sharp lines, geometric or archetypal forms (including traditional, simple forms), strong contrasts with few primary colors and combinations of black, white and grey. Purism is characterized by structure, timelessness and substance (compare: AXOR Uno).

QUOTATION

In general usage, quotation refers to the literal repetition of a part of a text. In the context of art, architecture and design, quotation describes the reclamation of parts of an older work in the process of creating a new one. Quotation is a technique

that has been popular in many periods in art history and was revived in the 20th century, particularly by postmodernists. While in postmodernity quotations were mostly used in an ironic and playful manner, designers in the modern eclectic style employ quotations as a means of deriving new design interpretations and, ultimately, new designs.

SCULPTURE/SCULPTURAL

A sculpture (from Latin "sculpere" = to carve, create, chisel) is a three-dimensional body (mostly a piece of art) which has a powerful and symbolic appearance from several perspectives and which clearly distinguishes itself from its environment (compare: Plastic). A sculptural design element delivers its own, autonomous statement, is independent of its environment and has a strong influence on the viewer's perception of a space (compare: AXOR Edge).

SENSUALITY/SENSUAL

Colloquially, sensuality means turning the senses or the receptivity of the sense organs toward outer impressions. Perception makes it possible for us to distinguish our environment for its materials and forms, and to recognize and categorize things from their characteristics. Often sensuality is associated with eroticism, but also with sensual driving forces, preferences, desires and passions, needs, and feelings of pleasure and displeasure. Sensual as an adjective describes something "happening through or recognizing something by senses" or "belonging to the senses". The term sensual is also used in the context of "concentrating on senses", if the product focuses on the human senses. Design can be sensual, if it attracts someone in an emotional way and if touch, sight and taste are triggered in a positive way. Sensual design is often combined with a comfortable feel and/or balanced look (compare: Golden Ratio) (compare: AXOR Starck Organic).

STYLE

Style is primarily the expression of personality. It is not restricted to individual expression and can also signify the presentation and expression of an epoch (such as Jugendstil), a region (like the Italian "Bel Design"), or an artist/group of artists or designers (Bauhaus, Memphis, etc.). A style is identified by recurring, characteristic features and by a particular choice and use of forms. In fine arts, it is called a style if these features form a pattern that appears in numerous individual works. These characteristics can develop into a personal style (also called individual style) found in art, design or in fashion. However, a

style can be considered archaic, idealist or naturalist, independent of personalities or time periods. In design, the most widely known stylistic categories are functionalist, minimalist, organic and classical.

STYLE MIX

A combination of style elements from different historical contexts (compare: Eclecticism) or from different aesthetic backgrounds. A style mix typically features objects taken from different designs. However, these different styles are not mixed within a product or a collection, ensuring that the individual style remains distinguishable. This is a commonly used method in interior design. Style elements are often used sparingly to establish accents and contrasts, attempting to create tension and challenge familiar perspectives. This lends a distinctive character to a minimalist or purist ambience. The intention is to invite a fresh perspective on objects considered as aesthetic standard-setters due to their immaculate appearance.

SYMBOL/SYMBOLIC

A symbol (from Greek "symbolikós" = identification or identity mark) always carries a meaning. It is an image defined by certain conventions and conveys a meaning that is open to interpretation. Whereas a sign conveys something specific, symbols are complex, representative of something that is imperceptible. Symbolic in this sense means representative or "referring to a deeper meaning". In the context of design, symbols are not employed as direct signs (e.g. as in language theory or with traffic signs), but rather convey an indirect message, as a symbol goes beyond the meaning of the object itself. The meaning of symbols in religions, myths or art often resist translation or interpretation by reason alone. A similar depth of meaning can be found in design, but symbols in design mostly have an emotional function. Either the design itself conveys a familiar, conventional world (such as the wing chair or the AXOR Starck faucet, reminiscent of an old-fashioned pump) (compare: Archetype), or individual design elements stand for different aspects of life – such as the color gold for luxury, chrome for sophisticated technology, or leaf-shaped for nature. The symbolic function of design (as opposed to a mere indication of intended use and operation) becomes apparent in its relation to the social context. For instance, Bauhaus symbolized avant-gardist ideas, functionalism represented industrial progress, country style was a symbol for the simple life and minimalism stands for sophistication and high-tech comfort.

TENSION

In physics, the term tension describes the force inside an elastic body. A more metaphorical understanding is used in design, where the body is rarely elastic and the force in question is not of a physical nature, but manifests itself as a visual and emotional energy. Tension is created through polarization or a hierarchical structure, rendering an object more desirable and attractive in the long term.

TIMELESS

Not constrained or subject to a fashion or era. Timeless can be defined in totally different ways and can relate to events, people, or objects. In everyday usage, any long-awaited aesthetic unaffected by changes in fashion is labelled timeless (compare: Classic).

UNICUM

A unicum (from Latin "unus" = one, one single) is an object or a product which only exists once in this form. Even though the (democratic) nature of design manifests itself in reproducibility and serial production, unica today are no longer restricted solely to the art market. Instead, some design products are marketed (and priced) as limited editions of a serial design, or as unique objects (compare: AXOR Signature).

URBAN

The adjective (from Latin "urbanus" = belonging to the city, to: urbs = city) stands for the city or characterizing urban life. Individuals are described as educated or sophisticated if their social manners or appearance are urban. The term urban design describes town planning and development and includes the planning and the creation of all building measures in a city or landscape. That includes public buildings as well as residential buildings, open spaces and infrastructure. In the context of products and interior design, creations with an urban touch or character are aimed towards usefulness in the modern metropolis. Urban furniture fits perfectly into big-city-life within loft spaces and skyscrapers, and is characterized by pure elegance, without ornamentation or other representative details.

AXOR TECHNOLOGIES

AIRPOWER

Enriching water with air produces plump droplets for a velvety touch on the skin.

POWDERRAIN

The finest silicone nozzles, with several openings per nozzle, provide a uniquely fine mist of water.

QUICKCLEAN

Remove limescale deposits quickly and easily with flexible silicone nozzles.

ECOSMART

Mixers and showers use up to 60-percent less water than conventional products.

SELECT

Use the Select button to switch spray modes or shower heads; switch off the water at the mixer.

COMFORTZONE

Defines the space between the wash basin and mixer. The larger the ComfortZone, the greater the variety of uses.

COOLSTART

When the handle is in the neutral position, cold water flows automatically.

AXOR SPRAY MODES

INTENSE POWDERRAIN

A powerful, concentrated shower spray invigorates the body and mind.

POWDERRAIN

Gentle droplets wrap around the body like a cocoon of water.

RAINAIR

Air-enriched water. For soft shower droplets in a full water jet.

RAIN

Lush, powerful spray with an invigorating effect. Perfect for rinsing hair.

RAINSTREAM

Voluminous beads of water. Precisely compacted into individual, parallel strands.

RAIN XL

A large-scale shower experience - surrounding the entire body.

RAIN/POWDERRAIN

Combination of powerful Rain and gently enveloping PowderRain sprays.

RAINFLOW

Powerful gush spray. Wets the body over a large area, like a waterfall.

MONORAIN

Intense, bundled spray. Pointed refreshment and relaxation.

WHIRLAIR

Concentrated water jet. Especially suited for body massages.

Perfection. Down to the last detail.
An overview of AXOR FinishPlus surfaces,
technologies and spray modes.
