IN TOUCH with our planet

Water is life and our passion. We create inspiring moments while protecting this precious element: with water- and energy-saving showers, faucets, and technologies. However, the production and disposal of our products also have an impact on the climate and resource cycles of our planet, for which we take responsibility.

Our path to green transformation

* Climate neutrality refers to Scope 1 and 2 greenhouse gas emissions (direct emissions and energy consumed at the sites) according to the Greenhouse Gas Protocol. Wherever possible, the Hansgrohe Group actively reduces these emissions. The remaining emissions are offset through recognized, certified climate protection projects. For more information, please visit www.hansgrohe-group.com/en/about-us/responsibility.

Life cycle analysis of a hand shower

The usage phase of a hand shower is by far the most CO₂-intensive. Approximately **1,000 times more** CO₂ is emitted than during the production. That is why we see it as our mission to adjust our entire shower and faucet range to "ECO" by 2030. In concrete terms, this means that we will reduce the water and/or energy consumption of water-bearing products in usage by at least 22 percent compared to the 2020 base year.

Production

Usage
approx. 99%
of the emitted CO₂e

Disposal

Our contribution to protecting our planet

Hansgrohe preserves water

Safe, fresh water is a valuable, unevenly distributed resource. It is vital that it is used sparingly in regions where there are water shortages. However, even in water-rich areas, constant investment in its treatment is essential. Thanks to our water-saving products, we preserve water cycles without compromising the shower experience.

Hansgrohe protects the climate

Our products are friendly and support the goals of the Paris and Glasgow Climate Summits. But more importantly: the use of warm water requires a lot of energy. Saving water using our products also means reducing the energy consumption of sanitary facilities and thereby protecting the environment.

Hansgrohe will be part of the circular economy

Each resource that no longer needs to be obtained, but rather can be recycled, preserves our ecosystem and saves energy and water in our production lines. We are developing long-lasting, repairable, and recyclable products and sustainable packaging, and are working towards using materials that will preserve our ecosystem as much as possible.

Delight in **saving water**

Replacing a standard hand shower with a water-saving version is worthwhile. Thanks to our EcoSmart technology saves up to 40 percent more water than our conventional products. With EcoSmart+, this figure goes all the way up to 60 percent. By saving water, less heat energy is required, which also reduces gas and electricity bills.

Our water savings calculator determines how many resources you can save with our EcoSmart shower – without compromising showering pleasure. The following sample calculation applies to a family of four and assumes that each family member showers for five minutes a day (2022, costs suggested here are the average for GER).

Would you like to try the water savings calculator yourself? On our website **hansgrohe.com/water-savings-calculator**, you can enter your data, select the product of your choice and calculate your potential savings.

The difference you can make

Showering with the Raindance Select S hand shower 120 3jet EcoSmart 9 l/min.

**When you imagine
your dream bathroom,
what does it look like?**

Or, even more important,
what does it feel like?
With our latest creations,
hansgrohe encourages you
to find an answer.

Your answer.

Imagine a
bathroom like

NEVER BEFORE

Rethinking bathrooms

hansgrohe is not only reinventing the bathroom itself, but also your outlook on your everyday life. For unforgettable water experiences, we no longer merely want to design stand-alone products. Instead, we are committed to creating holistic, sustainable solutions that become an integral part of the way you incorporate the bathroom experience into your daily living.

Bringing the experience to a new level of excitement

In collaboration with PHOENIX and the architect Peter Ippolito with his internationally renowned design studio Ippolito Fleitz Group, hansgrohe is bringing the bathroom experience to a completely new level of excitement by creating holistic bathroom experiences as seamless, interactive environments that adapt to your style, dreams, and needs. Every bathroom is as unique as the personality it's made for. Combining design and comfort with endless possibilities of personalization, everything still fitting together perfectly, matching your everyday life. Always creating incomparable water experiences that make you truly feel alive.

Rediscover places of well-being

For us, the bathroom is much more than a collection of furniture, tiles, and faucets; it is a place that, when thought about and realized holistically, enriches your life and is full of emotions and extraordinary moments. Where you feel special every day. Where you can express yourself and enjoy the beauty of water with all your senses. Like all your favorite places to feel relaxed, happy, and in harmony with yourself. In just one place. Your place.

So, by asking ourselves how you would feel in your dream bathroom, we imagined families creating unforgettable memories with their kids having fun with water. And couples falling in love. We imagined happiness, style, comfort, well-being, sensuality – then we put it all together and created a whole new way of developing the bathrooms of tomorrow. We are transforming single installations into inspiring complete bathrooms. And bath fixtures into bathroom experiences. By redefining convenience and ignoring traditional constraints, we want you to discover the joy and pleasure of humanity, the beauty of water, and the value of individual spaces like never before.

Carefully planned bathroom furniture with generous storage options, smart divisions in all drawers, and a shower pipe with an integrated storage shelf help you and your family to **master everyday life with a smile.**

An **EPIC** adventure every day

Family life is full of surprises. And so is this bathroom – in the most positive sense. Inspired by the wishes and needs of you and your family, its aim is to become a source of happiness and joy during your everyday life. A place of retreat and a haven of security, where you find room to rest and space for everything that family life brings with it. A place of inspiration that's as functional as it is made for adventurous mornings and thrilling evenings. A room that puts the family and their wish to enjoy every moment in the center. It is lively and colorful, and at the same time places great value on sustainability. This bathroom is not created to be a status symbol but to be filled with life. Your life.

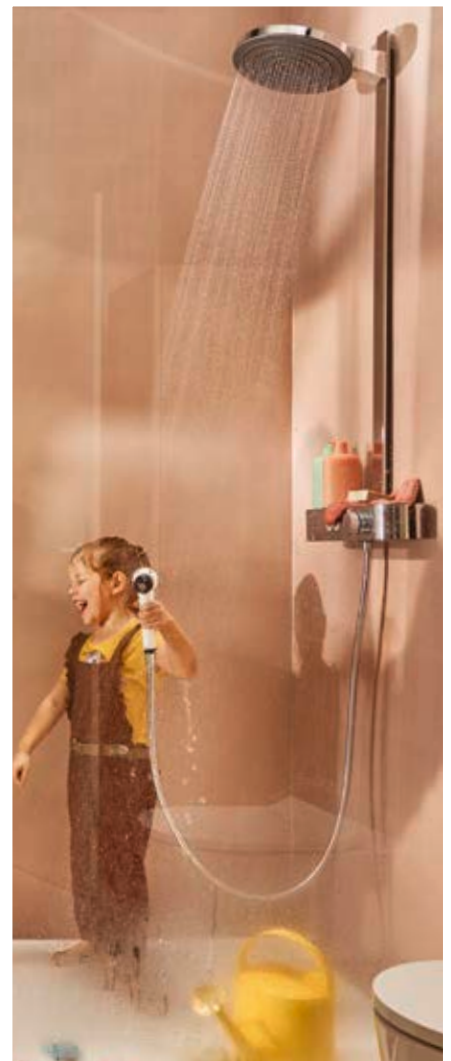

The rounded, harmonious shapes make you feel
welcome, warm, and comfortable.

And the Pulsify S shower with PowderRain
offers you relaxing moments in everyday life.

Feels like a wonderland

From ceramics to furniture, from colors to materials, from top to toe – this bathroom is designed to break out of the family routine. Natural materials combined with expressive colors, well-designed ceramics perfectly complemented by matching furniture, and incomparable water experiences spread positive energy and make you feel joy, happiness, and security like never before. Thanks to the use of certified and sustainable raw materials, the integration of water- and energy-saving products, and the timeless design, this bathroom is a commitment to sustainable living. The generous use of plants underlines this attitude, creates a pleasant indoor climate, and inspires adventurous moments in the family bathroom.

The interplay of materials, the handmade tiles, and the playful wallpaper are true highlights for your eyes. Resonating with the slightly rounded shower and the ceramics, the curves are taken up in the space at different levels, creating a beautiful background for all kinds of unforgettable family moments. But this is just the beginning of a story that you can continue to write for yourself. An invitation to express your personality by choosing and customizing your very own hansgrohe family bathroom.

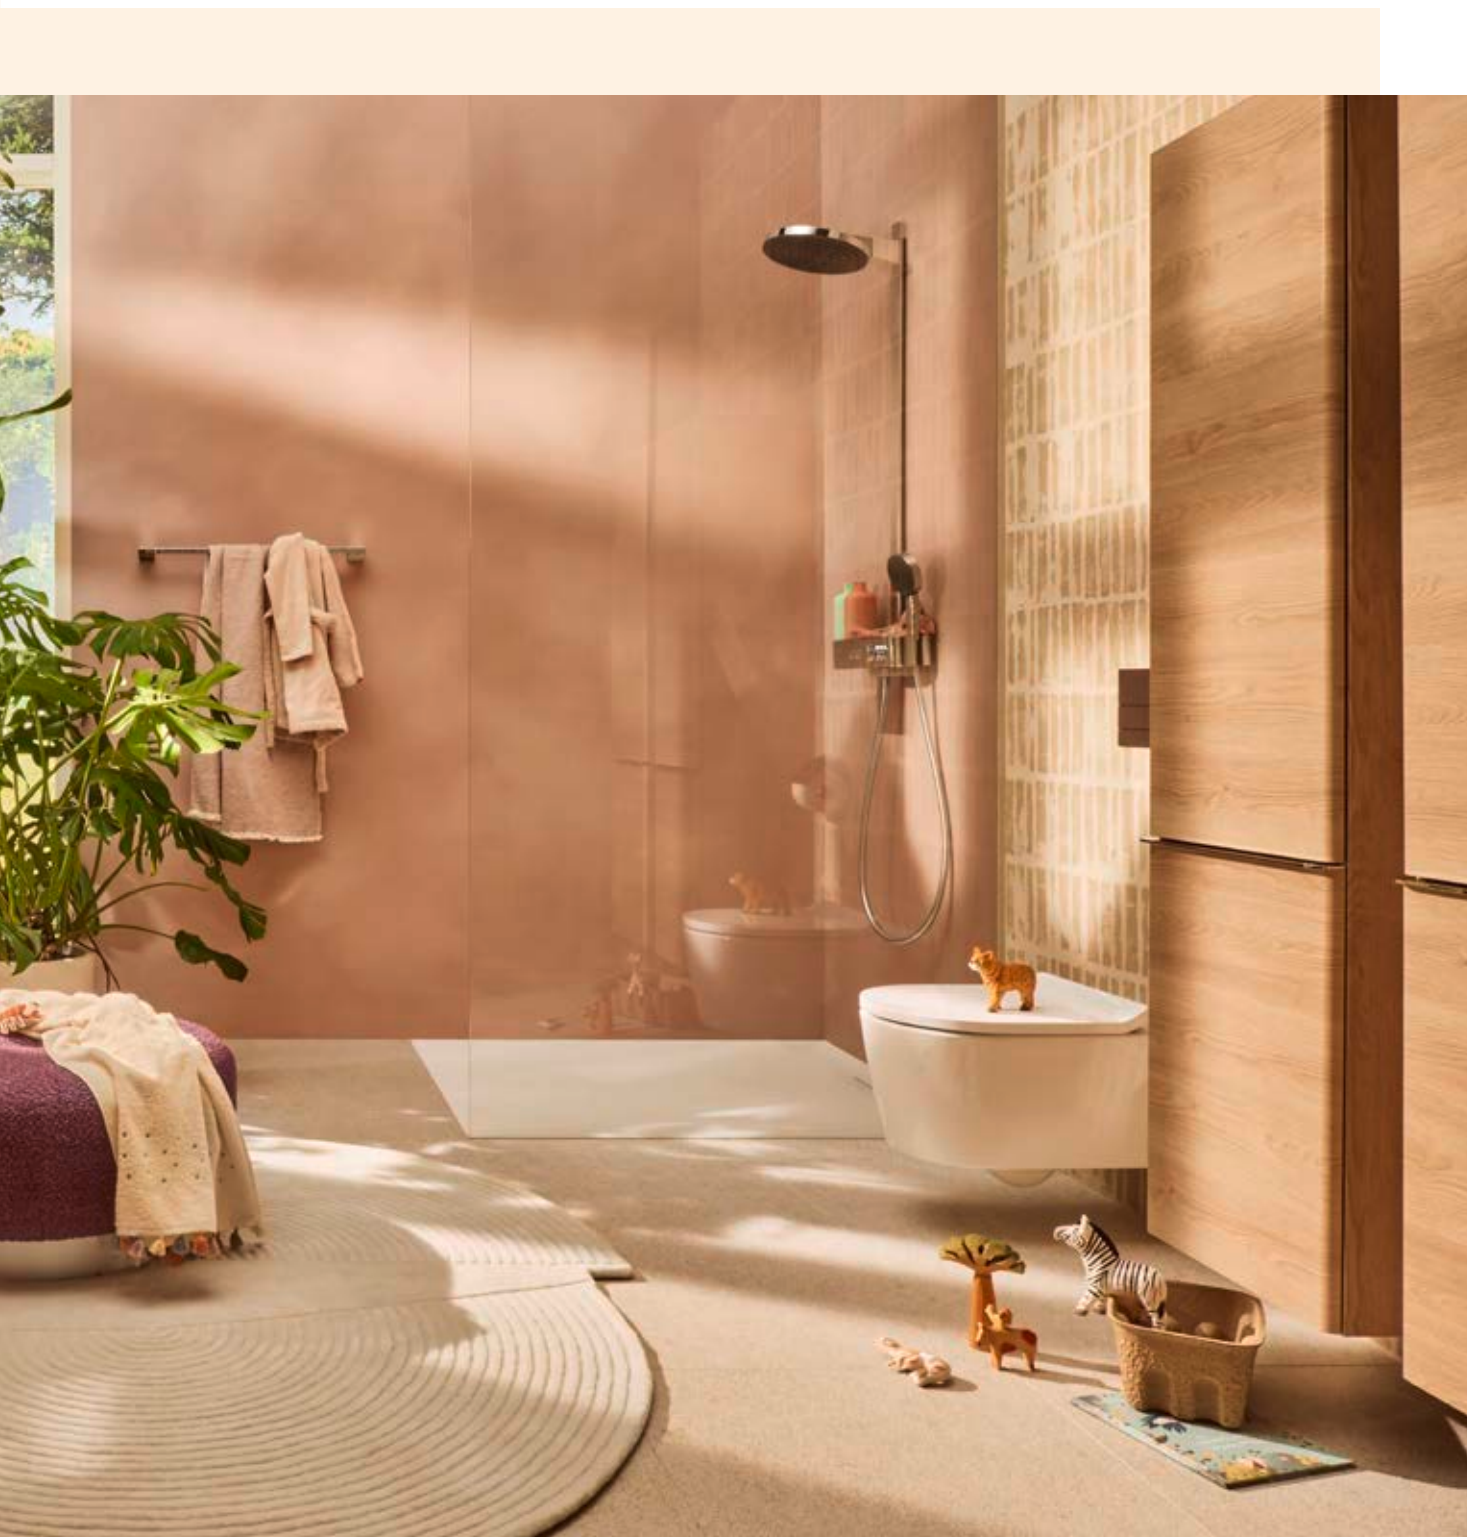

Natural materials, smart storage options, and a playful approach to colors and plants make this bathroom the **ideal family bathroom.**

Adventure is calling

This is how everyday family life should be: The **Xelu Q vanity unit** (shown here in Natural Oak*) impresses with two generous drawers and plenty of storage space. The WashPlace is completed with an extra-wide **Xelu Q double washbasin**, water-efficient **Tecturis S faucets** (here in Chrome*), and the LED-illuminated **Xarita S mirror** with a diameter of 90 cm. The **Pulsify S shower** (here in Chrome*) promises refreshment and relaxation for the adventurous family. The **tall cabinets of the Xelu Q series** (here in Natural Oak*) provide space for bath towels, bathing accessories, and even half a zoo. The efficient and quiet **EluPura S toilet** with AquaHelix Flush completes the family-friendly overall picture.

* Available in many other surfaces

Like **VACATION** 365 days a year

Inspired by the most beautiful places on earth, this is a bathroom that lets your thoughts wander while you reconnect with yourself.

An elegant space that unites design with attitude, sustainability with style. This bathroom is for everyone who pays attention to their physical and mental well-being and sees functionality as a must. A bathroom to support your love of contemporary design, your desire for clarity, and your personality. Welcome to the destination of your dreams: your bathroom, created by hansgrohe, brought to life by you.

Personal decor like a large cactus, a bench, and baskets on the walls tell stories of craftsmanship, travel, and the discovery of different cultures, giving the space its very individual signature. Thus, the bathroom becomes a treasure chest for all the touching memories and unforgettable moments of life.

Seamlessly integrated clever solutions such as the soft-close mechanisms of the bathroom furniture, the generous storage space in the cabinets, or the gentle PowderRain spray technology of the Pulsify E shower ensure a **pleasant, comfortable bathroom experience.**

Feels like the world – your world

Wouldn't it be wonderful if going to the bathroom in the morning was like a trip to a beautiful destination? With the right bathroom, your dream can come true. With its characteristic clear lines, striking contrasts, and an exciting combination of materials, colors, and selected objects, this bathroom evokes curiosity, intimacy, and relaxation.

Combines design and functionality with sustainability: **Tecturis E.** Thanks to our EcoSmart+ technology, it uses up to **20% less water** than our standard EcoSmart faucets – without compromising on comfort.

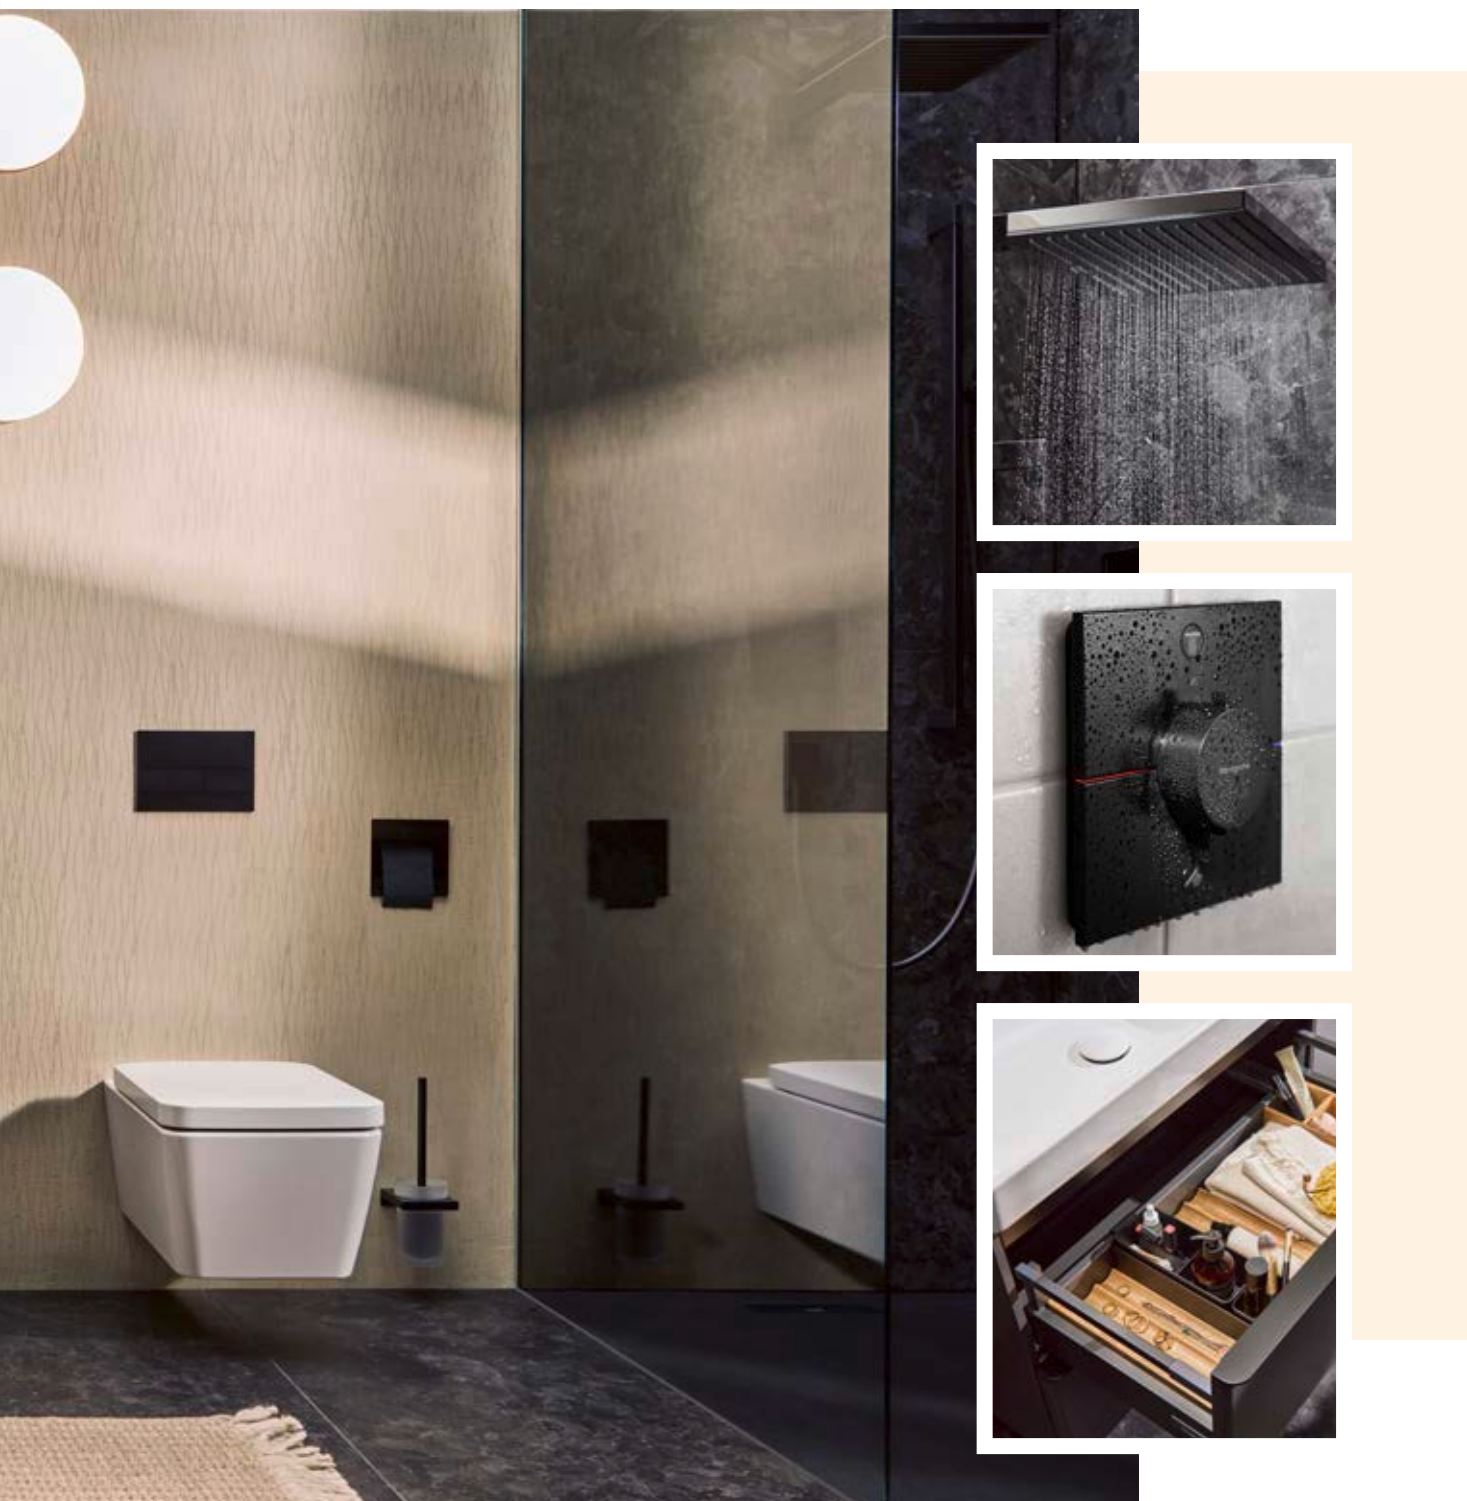

Contemporary design and clean lines
combined with modern and sustainable
products awaken the feeling of
space and freedom.

Enjoy your vacation

Experience the feeling of space and freedom: the **Xelu Q vanity unit** (shown here in Diamond Matt Grey*) with its gently closing drawers offers plenty of storage space. The 80 cm wide **Xelu Q washbasin** with a side shelf offers convenience and sufficient storage for everyday necessities. The **Tecturis E faucet** (shown here in Matt Black*) with its practical, laterally offset control element blends perfectly into the overall picture. Relaxation from a hard day's work is guaranteed by the **Pulsify E shower** (shown here in Matt Black*) with its soothing PowderRain spray technology. Plus, the **ShowerSelect Comfort ready-made set** (here in Matt Black*) turns your shower into an artistic eye-catcher and enables intuitive operation of all shower elements. The **Xelu Q tall cabinet** (here in Diamond Matt Grey*) and the cubically shaped **EluPura Q toilet** harmoniously round out the appearance.

Falling in love

WITH WATER

The high-quality
manufacturing and
timeless design
ensure a long
product life cycle.

Thanks to thousands of microdroplets, the Rainfinity shower enfolds you in a **feeling of well-being.**

If you love stylish design, this will make your heart race – a bathroom designed according to your own personal taste and wishes, created to make memories that will last a lifetime. Without barriers, with enough space and freedom of movement, and with everything you value most – minimalist design, but full of life and memories. An elegant and subtle design with the highest level of comfort, complemented by unique water experiences. Aiming for just one thing – to make you fall in love.

Feels like paradise

The perfect framework for a unique life – this bright and open bathroom values timeless aesthetics and creates warmth and well-being through the use of different surfaces, forms, shapes, and materials. The overall look is elegant but still playful, minimalist but still cozy, and it makes you feel clarity, lightness, and openness like never before. The concept of the framing and the linear shapes of the products define space and emphasize individuality – just like the brushed bronze fittings. The generous wall mirror gives the room depth and complexity. Artworks, a rug, and Ming vases set visual highlights in keeping with this distinct style. But this only serves as inspiration to start your own journey of happiness – with your very own hansgrohe bathroom.

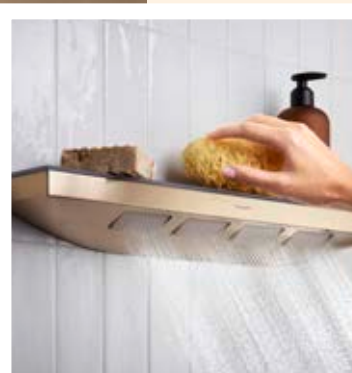

Bright and open, yet warm and elegant at the same time; brimming with eye-catching details like the Brushed Bronze faucets, this bathroom becomes a **new experience every day.**

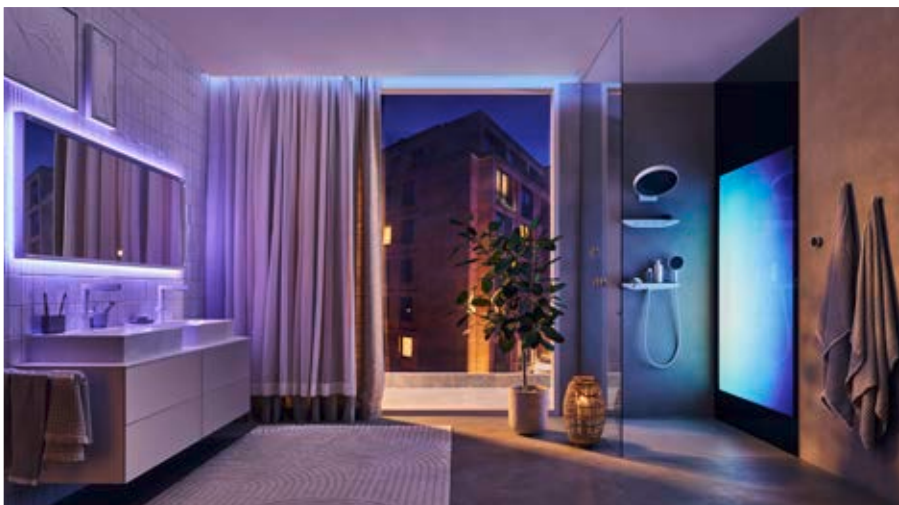

Making hearts beat faster

Fall in love anew every day: with the **Xevolos E vanity unit** (here in Sand Matt Beige combined with Patterned Bronze*) paired with two separate **Xevolos E washbasins**, the **Metropol single-handle faucets** (here in Brushed Bronze for concealed installation wall-mounted*) and the LED-illuminated **Xarita E mirror** with a width of 1.60 m (also available in other formats and sizes). Storage space for everything your heart desires is provided by the two generous **tall cabinets of the Xevolos E series** (here in Sand Matt Beige combined with Patterned Bronze*), while the **Rainfinity shower** (here overhead shower 360 in Brushed Bronze*) with additional shoulder shower ensures that body and mind are spoiled. The size-adjustable **RainDrain Flex shower drain** in brushed bronze* is a high-quality, flexible drainage solution for contemporary showers.

* Available in many other surfaces

Your daily wellness routine for body and mind. Experience RainTunes; the incomparable shower experience that appeals to all your senses. Different scenarios – depending on your current or desired mood – let you immerse yourself in a unique world of water, light, and sound.

YOUR PRIVATE SPA – open 24/7

An ode to the clarity and timelessness of water, this bathroom is designed to make you enjoy the future of well-being in its purest form. A place where minimalist design meets endless comfort and superb functionality, with a positive effect on your mental and physical health. Where nothing disturbs you in your sense of well-being. And digital innovation opens up new possibilities of relaxing, recharging, and being your best self every day. A unique light, sound, and water experience immerses you in a sensory world of well-being and enjoyment. Reduced to the essentials, this creates a space for any mood you like. Reflecting all your wishes and dreams and transforming your bathroom into your perfect retreat. Or rather, any number of retreats, because your bathroom can change every day – according to your mood.

This bathroom equipped with smart technology proves that well-being and innovative technology belong together. Coupled with the hansgrohe home app, selecting your favorite RainTunes experience is not only intuitive, but also offers you the ability to check and actively control your water usage.

Feels like heaven – inspired by you

Spacious, white, and with a magnificent view for unlimited relaxation. Sounds like heaven. And also looks and feels like it. This bright and friendly bathroom is your wellness dream in white, making you feel harmony and balance like never before. It delivers an exciting all-white color scheme, innovative surface structures, and a multi-sensory color and light experience. The layering of materials and the use of different structures, forms, and shapes create warmth and liveliness. The light color scheme provides the perfect surroundings for the reflection of light and the different lighting moods, adapting to your personal preferences.

A bathroom straight out of a dream.

Warm and soothing, inspiring and energetic.
A composition of water, light, and sound that beguiles
all the senses ... Is this still a bathroom?

A feel-good routine

Wellness for everyday: rest, relaxation, or revitalization at the touch of a button is promised by **RainTunes**, a truly unique shower experience (here in combination with the **Rainfinity overhead shower 360** and **shoulder shower** in Matt White*) that can be conveniently and intuitively set and operated via the **hansgrohe home app** and the **RainButtons** (here in Matt White*). The LED-illuminated **Xarita E mirror** (here 1.60 m wide*), the **Xevolos E vanity unit** (here in Matt White paired with a glass inlay in Metallic White*) with the **Xevolos E washbasins**, and the **Finoris Flex faucets** (here in Matt White*) interact to create a harmonious overall picture. In combination with a waterproof LED screen and light and sound installations, you can transform your bathroom into a unique wellness oasis.

REALIZE YOUR DREAM of the perfect bathroom

The path to the dream bathroom does not always run smoothly. Many decisions have to be made, as well as compromises with your partner, or sometimes your own ideas have to be adapted to the conditions of the room. With hansgrohe, you can be sure that you will find solutions for all your wishes and that the process of designing your oasis of well-being will be as pleasant as possible. This way, the planning process for the perfect bathroom also triggers feelings of happiness and anticipation.

Your dream combination

The previous pages introduced you to four dream bathrooms furnished by us, each of which addresses different needs of everyday life and lifestyles. In these bathrooms, we have put together a pre-selection of products and a recommendation of combinations for you in order to make the furnishing process easier. Of course, you can also design your bathroom freely and independently of our recommendations. To support you in the best possible way, we have worked out three steps to your dream bathroom. Discover your favorite combinations of products, shapes, functions, colors, and materials and find your personal dream combination.

Your **dream bathroom** in just three steps

1 Which design language speaks to you?

With our products, you can usually choose between three geometric shapes, depending on the product type. You also have this freedom of choice with most of our showers, faucets, and washbasins. When planning your bathroom, decide on a design or combine as you please.

S stands for **flowing, soft, and round shapes.**
Q combines **soft and straight lines.** E concentrates on **edges and clear contours.**

Be inspired by our passion for water! Our faucets, washbasins, and furniture match both functionally and aesthetically, so that a harmonious ambience is guaranteed.

2 Surface designs with that certain something

Time for more diversity. Time for more individuality. Give your bathroom character with the hansgrohe FinishPlus colors and furniture surfaces. With our wide range of design options, you can enhance your personal aesthetics in your bathroom oasis and show: That's my style.

FinishPlus

The matt trend colors **Matt Black and Matt White** can be used as a purposeful contrast and create a special atmosphere in the bathroom. The stylish PVD finishes **Polished Gold Optic, Brushed Black Chrome, and Brushed Bronze** combine elegance and modernity and turn your bathroom surfaces into a visual highlight. But the timeless classic **Chrome** also enchants interior fans, offering delicate sophistication.

Furniture surfaces

Xevolos E furniture features high-quality design. The furniture fronts are available in **Metallic White, Metallic Sand Beige, Metallic Slate Grey, Dark Oak, and Patterned Bronze**. For the body surfaces, you have a choice between **Matt White, Sand Matt Beige, and Slate Matt Grey**, depending on the furniture front selected.

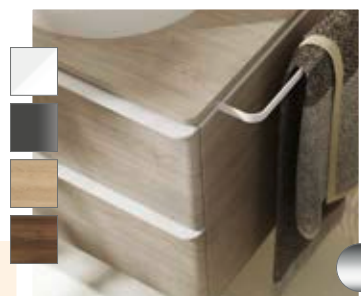

The family-friendly Xelu Q line is available in the surfaces **Natural Oak, Dark Walnut, Diamond Matt Grey, and High Gloss White**, which make the body and furniture front appear as a homogeneous unit.

FinishPlus: Six color finishes

Xevolos E: Five furniture fronts and three body surfaces

Xelu Q: Four furniture fronts and three color finishes for handles, shelves, towel rails, and feet

3 hansgrohe ExcellentFit for greater flexibility and comfort

The hansgrohe ComfortZone test makes finding the perfect combination of faucet and washbasin a breeze and ensures a harmonious interaction. Specifically, the test runs in our Technical Service Center in three phases: The spray behavior of the water is examined in the spray test. In the free space test, we check whether it is possible, for example, to wash your hands comfortably or to fill a vase easily. Finally, the combination is tested in a practical test under everyday conditions, where, among other things, the type of water jet or the occurrence of splashes are observed and evaluated. For more information, visit hansgrohe.com/excellentfit

XEVOLOS E

Xevolos E **washbasins and furniture** combine architectonic and long-lasting **design, flawless beauty, functionality, and comfort** - always matching your personal style and needs.

Make your dream of the perfect WashPlace come true

Your WashPlace is so much more than just a place to wash your hands or brush your teeth. It reflects your style and transforms your idea of an individual water experience from imagination to life. With hansgrohe's Xevolos E washbasins and furniture, you enjoy unlimited freedom to create your personal dream WashPlace. Tailored to your personal style and needs, the architectural design combines premium quality, superb functionality, and sustainability.

YOUR DESIGN STATEMENT

A unique, sophisticated icon of style that will stand the test of time: Xevolos E washbasins feature an impressive, **durable, architectural design.**

When uncompromising aesthetics and high quality are appreciated, a Xevolos E washbasin is the ideal choice. It features impressive architectural, geometric design, ultra slim edges, and a perfectly seamless look. Thanks to the inner bowl design with no overflow opening and its seamlessly integrated ceramic drain cover, nothing disturbs its aesthetic appearance. The washbasin can also be plugged to hold water thanks to the optional hidden overflow system. The closer you look, the more high-end design details you will discover, just as you would expect from a real designer piece.

To preserve the beauty of water for future generations, we're constantly searching for environmentally friendly materials and sustainable technologies. So, with all of our washbasins, you make an important contribution to waste prevention with natural largely recyclable materials and plastic-free packaging.

Xevolos E washbasins grant your wish for a clean look while providing **generous storage space.** This makes it easy to keep your bathroom perfectly organized every day.

Attractive and easy to clean

Xevolos E washbasins come with a dirt-repellent SmartClean glaze. They are also made of robust and scratch-resistant sanitary ceramics and are equipped with a cut-to-size sound-proofing mat.

Countless variations for a unique look

Available in a large variety of sizes from 36 cm up to 120 cm, the Xevolos E product range offers the right solution for all kinds of lifestyles – from singles to families. Whether you decide on one or two washbasins, we make sure there's enough space for your individual needs. Depending on the size, Xevolos E washbasins are available with zero, one, or two tap holes to cater to your individual preferences regarding the faucet setup.

— Your life. Your comfort: We want you to enjoy an extraordinary everyday life in style without compromise. Our ComfortZone-tested combinations of washbasins and faucets therefore minimize splashing and maximize the pleasure of use. The large inner basin offers additional flexibility and makes routines like washing your hair even more comfortable.

Your needs and your style:

PERFECTLY COMBINED

Whatever you need or want: Xevolos E furniture allows you to create the WashPlace of your dreams. From vanity units to vanity units for consoles and side cabinets: This product line is available in various sizes and surfaces, always matching the washbasins' footprint. Xevolos E furniture is made in Germany and, even more importantly, made for you.

Uniqueness – available in different variants

When flexibility and individuality in design are translated into a subtly minimalist, premium statement, we're talking about nothing less than Xevolos E furniture. With its overall timeless design, the series is a stylish expression of your unique lifestyle that offers a geometric, seamless overall

look. Along with the choice of different body surfaces, the furniture fronts are also available with various inlays. And the best part: The inlays are interchangeable. You can choose your perfect combination today, and another inlay can give your WashPlace a completely new look tomorrow – or whenever you want.

SoftClose combined with PushOpen are functional highlights that make using drawers and cabinet doors silent and easy. The **AntiFingerprint coating** of the lacquered body surfaces and consoles guarantees a consistently appealing appearance and makes them easy to clean.

Thanks to the space-saving siphon, there's no cutout in the upper drawer(s), which leaves even more storage space. Therefore, you can keep your drawers perfectly organized with **IntraStoris, the SmartStorage solution** offering easy organization.

For a good feeling that lasts

Xevolos E furniture a great statement not only in terms of design, but also in terms of sustainability. We work with environmentally friendly materials and continuously improve our production processes. The wood components used are proven to originate from sustainable forest management. The entire furniture range is DGM-certified and awarded the following labels: "Golden M," "Furniture Made in Germany," participation in the "Climate Pact of the Furniture Industry" (CO₂ footprint), and the "Emission Label for Furniture" (category "box furniture": hansgrohe meets the requirement of emission class A). Thanks to our use of natural recyclable materials and plastic-free packaging, you can make an important contribution to waste prevention with hansgrohe furniture.

Simply scan the code to discover Xevolos E.

COUNTLESS VARIATIONS FOR A UNIQUE LOOK

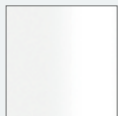

For the equipment of our Xevolos E WashPlace, we have chosen a large Xevolos E vanity unit with a body in Sand Matt Beige and inlays (furniture fronts) in Patterned Bronze. However, if you would prefer another color combination, you can customize your Xevolos E furniture according to your personal preferences.

For the extra matt lacquered body surface, you can choose between Matt White, Sand Matt Beige, and Slate Matt Grey. The high-quality inlays made of wood decor, glass, or ceramic are an innovative design highlight. To underline the two-tone design, all three body surfaces can be combined with the Patterned Bronze and Dark Oak inlays. Alternatively, you lend your WashPlace a monochromatic character by combining the body surface with its specific metallic inlay, for example, Sand Matt Beige with Metallic Sand Beige.

Faucet and washbasin AS A UNIT

For the design of our Xevolos E WashPlace, we chose the Xevolos E washbasin in combination with the **Metropol wall-mounted faucet in Brushed Bronze (1)**. Of course, there are also other combinations available, allowing you to customize a WashPlace that suits your personal taste, for example, if you prefer a different type of faucet. As an alternative to the Metropol wall-mounted

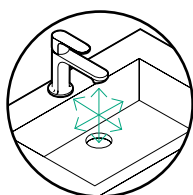

faucet, we recommend combining the Xevolos E washbasin with the **Metropol faucet (2), Finoris faucet (3) or Tecturis E faucet**, among others. Our recommendations are based on our years of experience creating a perfect symbiosis of water experience and functionality, giving you the opportunity to realize your ideas for your bathroom the best way possible.

hansgrohe ExcellentFit for a harmonious WashPlace

What could be more frustrating than selecting a combination of washbasin and faucet, and then being greeted with splashes of water every morning? To prevent this from happening in the first place, we developed the hansgrohe ComfortZone test. Whether you are renovating or completely redesigning your bathroom: hansgrohe ExcellentFit helps you easily and quickly find your personal dream combination of washbasin and faucet. This way, you can be sure that a harmonious interaction is guaranteed and avoid dysfunctionalities.

From your dream WashPlace to a harmonious **OVERALL AMBIENCE**

Xarita mirrors perfectly blend in with the appearance of the Xevolos E WashPlace. Enhance your room with a **harmonious lighting experience** that can be intuitively controlled thanks to smart touch technology. More information about Xarita can be found on page 60.

Accessories emphasizing your personal style

From towel and toilet roll holders to toothbrush mugs and soap dispensers – with AddStoris, you give your WashPlace its own style down to the smallest detail. This is because the minimalist and timelessly designed bathroom accessories are available in six different surface colors. Thus, the AddStoris bathroom accessories form a truly happy partnership with our color-matching FinishPlus faucets. The result: a coherent sense of space in which shapes and colors harmonize ideally without appearing cluttered.

XELU Q

With Xelu Q you aren't just adding a piece of **furniture** or a **washbasin** to your bathroom. You're adding **style, space, functionality, fun** - and everything else you and your family have been dreaming of.

Bringing the idea of your perfect WashPlace to life

It's the idea of a place where family life and style go perfectly together, where everything is well thought out for your family's needs – and your individual wants. Where an ambience of well-being comes to life. Your life. With hansgrohe's Xelu Q washbasins and furniture, you create your dream WashPlace, offering space as well as flexibility for your daily routines. Whatever you're longing for, with Xelu Q washbasins and furniture, you enjoy endless possibilities – down to the smallest detail.

FAMILY MEETING POINT

With Xelu Q you experience a unique **combination of design, comfort, and sustainability** – all within the family budget.

Xelu Q is designed to spruce up your daily family life. Its precise and slim design and smooth inner bowl are appealing to the eye and make the product a true visual highlight. To ensure a harmonious overall appearance, the SoftCube footprint of the washbasins perfectly matches the design of the related furniture. Further design elements are the inner bowl with no overflow hole and the ceramic drain cover for a seamless look and easier cleaning. The washbasin can also be plugged to hold water thanks to the optional hidden overflow system.

Your good deed for the planet

To preserve the beauty of water for future generations, we're constantly searching for environmentally friendly materials and sustainable technologies. Thanks to our use of natural largely recyclable materials and plastic-free packaging, you can make an important contribution to waste prevention with hansgrohe washbasins.

Offering extra space for your most used or loved pieces, **the generous shelf storage** makes every Xelu Q washbasin a true everyday hero – and the organization of your daily family life much easier.

Enjoy the beauty of water without compromise. To make this aspiration a reality, our ComfortZone tested combinations of washbasins and faucets to minimize splashing and maximize the pleasure of use. The large inner basin offers additional flexibility as it makes washing your hair or your kids even more comfortable. Beyond that, the 80 cm asymmetrical versions of the Xelu Q washbasin provide you with additional storage space on the side – and, if you wish, even with a second faucet hole for integrating intuitive water management via a rotary control. This makes it pleasant to use and prevents water from splashing on the faucet and faucet hole bench in the first place.

Your cleaning hack

Your time is too precious to waste with cleaning. The dirt-repellent SmartClean glaze of our Xelu Q washbasins you no longer have to worry about spending all your time cleaning. This is also helped by the easy-to-clean and scratch-resistant sanitary ceramics that the washbasins are made of. In addition, the norm-compliant specifications and the supplied cut-to-size soundproofing mat ensure easy installation.

A great choice

With a wide variety of sizes from 36 cm up to 120 cm, hansgrohe's Xelu Q product range offers the right solution for all kinds of households – from singles to big families. Whether you decide on one or two washbasins, we make sure there's enough space for everyone and every need. Depending on the size, Xelu Q washbasins are available with zero, one, or two tap holes to cater to your individual preferences regarding the faucet setup.

DESIGNED FOR ALL KINDS of family affairs

Whether it's your guest bath, the kids' bath, or your master bathroom, Xelu Q furniture is well-designed down to the smallest detail and customizable to your style and your daily routines. Xelu Q furniture is available in various sizes and surfaces, always fitting the size and the design of the washbasin. Accessories like the towel holder and shelf as well as the available feet perfectly complete the overall picture of vanity units, vanity units for consoles, and side cabinets. All variants are made in Germany, but even more important, they are made for you.

Your everyday in style

The modern look is characterized by numerous surfaces, soft edges, and small radii, perfectly matching the style of the washbasin. Another visual highlight is the innovative shadow gap which can be used to place practical elements like a towel holder or shelf. The handle sets a further design accent and makes opening the drawer easy.

The surfaces of Xelu Q furniture are made of materials that are suitable for bathrooms and easy to clean. You will also love the **SoftClose function** that enables smooth and silent closing of **all drawers**.

Thanks to the space-saving siphon, there's no cutout in the upper drawer(s), offering even more storage space. You can keep your drawers perfectly organized with **IntraStoris, the SmartStorage solution.**

Furniture design that makes a lasting impression

Xelu Q furniture is distinguished by continuous improvement of production processes and the use of environmentally friendly materials. The wood components used are proven to originate from sustainable forest management. The entire furniture program is DGM certified and awarded the following labels: "Golden M," "Furniture Made in Germany," participation in the "Climate Pact of the Furniture Industry" (CO₂ footprint), and the "Emission Label for Furniture" (category "box furniture": hansgrohe meets the requirement of emission class A). Thanks to our use of natural recyclable materials and plastic-free packaging, you can make an important contribution to waste prevention with hansgrohe furniture.

Simply scan the code to discover Xelu Q.

Varied selection for your **FAMILY OASIS**

Xelu Q furniture can be customized to your preferences. Whether it's a vanity unit, vanity unit for consoles, tall cabinet, or semi tall cabinet – you can choose not only between different sizes, but also between the surface colors Natural Oak, Dark Walnut, Diamond Matt Grey, and High Gloss White.

The perfect **furniture** in just three steps

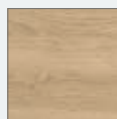

1
Combine your
desired surface ...

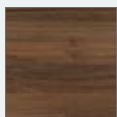

High Gloss White

Diamond Matt Grey

Natural Oak

Dark Walnut

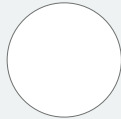

2
... with the
matching handles ...

Chrome

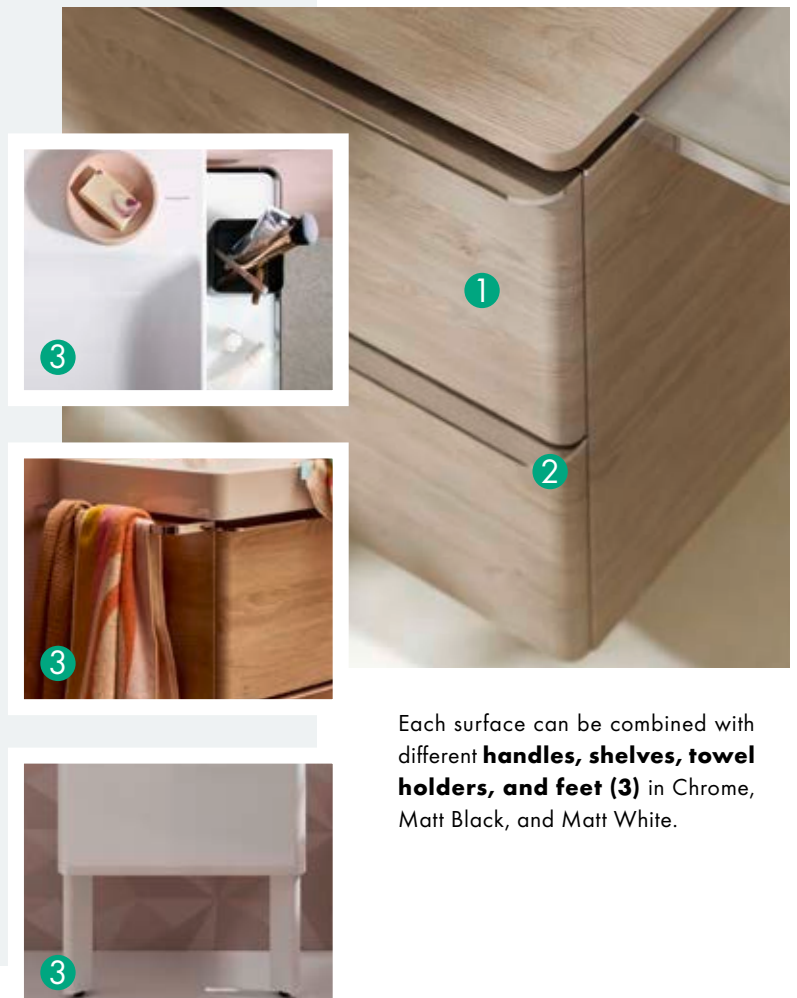

Matt Black

Matt White

3
... and other
accessories

Each surface can be combined with different **handles, shelves, towel holders, and feet (3)** in Chrome, Matt Black, and Matt White.

For an attractive appearance and easier cleaning, our **Diamond Matt Grey** variant features an **AntiFingerprint surface**, on which fingerprints are no longer visible to the naked eye.

Faucet and washbasin IN HARMONY

Even though we chose the Xelu Q washbasin in combination with the **Tecturis S faucet** to furnish our Xelu Q WashPlace, there is a wide selection of other faucets that harmonize with the Xelu Q washbasin both functionally and aesthetically. As alternatives to the Tecturis S faucet, we recommend installing the **Vivenis faucet** or the **Talis S faucet** with your Xelu Q washbasin. Our years of experience and functional tests show that these combinations offer you the best water experience.

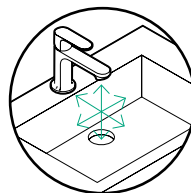

Find your personal dream combination of faucet and washbasin, tailored to your wishes and needs: **with hansgrohe ExcellentFit.**

Less splashing

Does the water splash when the water is running? We open and close the faucet at different water pressures and evaluate the data and patterns obtained.

More comfort

Does the combination of faucet and washbasin offer enough usable space? In a practice-oriented testing we check whether comfortable hand-washing is possible.

Fewer water stains

We field test the combinations under everyday conditions, including observing and evaluating the type of water jet or the occurrence of splashes.

Simply scan the code to get an overview of all potential combinations.

Creating a harmonious WashPlace with **ATTENTION TO DETAIL**

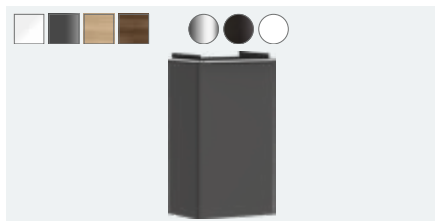

Xarita mirrors are the perfect addition to your Xelu Q WashPlace.

Thanks to the touchless technology, the **lighting experience** in the bathroom can be controlled intuitively. For example, you can switch the light on and off with a hand movement in front of the sensor. More information about Xarita can be found on page 60.

Holistic bathroom design with stylish accessories

Do you love it when everything around the washbasin looks like it comes from a single source? With Add-Storeis, you'll find the right accessories for your WashPlace – whether it's a soap dispenser, toothbrush mug, towel holder, or toilet roll holder. This line of accessories features a sleek, minimalist design and is available in six different finish colors. In this way, the accessories complement our colorful FinishPlus faucets and create a harmonious bathroom ambience.

XUNIVA XARITA ELUPURA

Certain extras for your bathroom:
high-quality, universal **Xuniva**
washbasins, Xarita mirrors,
and **EluPura toilets.**

WATER

in its most beautiful forms

With Xuniva washbasins, you can design your bathroom harmoniously and according to your individual ideas. Thanks to the large selection of different shapes and variants, you are sure to find the right Xuniva washbasin for your dream bathroom. The Xuniva product range comprises four different basic washbasin shapes in three

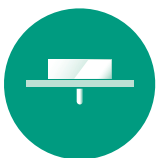

different installation variants. In addition, for most models you have the option of choosing a washbasin with or without a tap hole bench, giving you flexibility in your choice of faucet. All models are made of high-quality, durable sanitary ceramics, are dirt-repellent thanks to the optional SmartClean glaze, and feature generously designed interior basins.

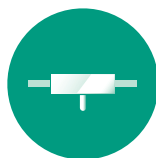

The **iconic geometric shape** and the **reduced edges** add elegance to your bathroom.

Remarkable down to the details

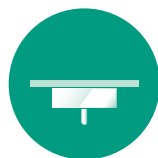

- 1 **Generously dimensioned inner basin** for more comfort
- 2 Slim washbasin edge
- 3 Dirt-resistant, robust **Sanitary ceramics**, optionally with SmartClean glaze for reduced cleaning effort.
- 4 Available with and without **faucet hole bench** (depending on model)

counter

under-
counter

It's your choice

Regardless of which installation variant you prefer or which your bathroom requires – we have the right washbasin for you. In addition, most Xuniva washbasins are available with or without a faucet hole bench, so you can combine your dream washbasin with either a basin faucet or a wall-mounted faucet.

Xuniva at a glance

- Available in four basic shapes and three installation variants
- Versions with and without faucet hole/faucet hole bench (depending on model)
- Made of high-quality, durable sanitary ceramics
- Generously designed inner basins
- Practical storage surfaces (depending on model)
- Dirt-repellent SmartClean glaze (optional)
- hansgrohe ExcellentFit: with recommendation for suitable faucet(s)
- Standard-compliant specifications for easy installation

Simply scan the code
to discover Xuniva.

Catching eyes AND HEARTS

The shape: Round (S) or rectangular (E). The look: Characterized by a reduced design language combined with a Matt White aluminum frame. The size: Xarita matches each WashPlace size and style. In summary: This mirror is an eye-catcher in any bathroom and creates an overall harmonious light experience. The four-sided or circular 3D light frame creates a picture frame design effect, turning the spotlight on the most important person – you.

Lighter? Darker? More colorful?

One touch is all
it takes to control
all functions.

Three buttons, numerous features

The **“Direct Light”** button lets you choose between warm and cool light; plus, the dimming function is also integrated here. **“Indirect light”** gives you the choice of eight different colors, which can also be dimmed. Moreover, the **“Mirror heater”** button protects annoying mirror fogging.

Nature

Relaxation

Good
Morning

Recreation

Good
Night

Beauty

Vitality

For rosy moments

Choose from the eight available indirect light colors and change the mood and atmosphere of your bathroom at the touch of a button. All colors can also be dimmed.

Using a light switch to turn on the light is so yesterday. Now, you can **activate all Xarita features using the IR (infrared) touchless sensor system.** How? Just position your hand near the lower mirror frame where the touchless system is installed – that's it.

In a better light

The slightly slanted 3D frame ensures optimized lighting, and the integrated mirror heating allows you to keep an eye on everything even after showering. In addition, the automatic switch-off function for light and mirror heating helps to save energy.

Seeing the world in a more sustainable way

All Xarita mirrors are CE/UKCA compliant, the mirror glass is 100% recyclable, and the mirrors are designed so that individual components can be easily exchanged and replaced. In addition, the LEDs (direct light) used have an energy efficiency class of C, guaranteeing a long service life and very good color reproduction. 

Xarita at a glance

- Available in two technologies: Touch-based or contactless
- Available in round and rectangular shape and many different sizes
- Reduced design language with aluminum frame in Matt White
- Slightly beveled 3D frame for better lighting conditions
- Eight freely selectable light colors for indirect light (depending on model)
- All light settings dimmable
- Integrated mirror heating
- Automatic switch-off function for light and mirror heating
- Memory function for activating your preferred light setting

Simply scan the code to discover Xarita.

Turns your bathroom into a more **BEAUTIFUL PLACE**

The toilet is an essential component of any dream bathroom. Available in two different design expressions (Round and SoftCube), our EluPura toilets integrate perfectly into every kind of dream bathroom thanks to their universal design language.

EluPura S AquaHelix Flush toilets – all-round comfort

Available in a round design, the EluPura S toilet with AquaHelix Flush can achieve excellent flushing results with only 4.5 l of water per flush (suitable flush tank required) thanks to water vortex technology and optimized interior geometry. Choose between two glazes: SmartClean glaze is dirt-repellent and makes cleaning easier, while HygieneEffect glaze is effective against bacterial growth.*

Flush more consciously: All hansgrohe toilets can achieve **excellent flushing results** with **only 4.5 liters of water** per flush (suitable flush tank required).

- 1** **SoftClose and QuickRelease seat and cover**
- 2** **Easy installation** thanks to “made to fit” noise-protection foam.
- 3** The **AquaHelix Flush technology** is a water vortex technology that cleans the inner basin especially powerful and efficiently – despite the lower water consumption
- 4** **Sanitary ceramics.** Scratch-resistant and easy to clean.

*Exclusively refers to the following bacteria: Escherichia coli ATCC8739 and Salmonella enterica ATCC 13076 (test conducted according to ISO 22196: 2011-08)

Rimless EluPura toilets – in two design variants

Rimless EluPura toilets are available in both a round design and a SoftCube variant. Regardless of the shape you choose, the rimless design makes the toilets easy and efficient to clean. In addition, the toilet has an optimized interior geometry, so that an excellent flush can be achieved with only 4.5 l of water per flush (suitable flush tank required). EluPura toilets are made of durable and scratch-resistant sanitary ceramics and can be supplied with a low-noise SoftClose mechanism and QuickRelease seat and cover for more convenience and easier cleaning.

EluPura at a glance

- Rimless construction
- Optimized internal geometry for more efficient rinsing
- AquaHelix Flush technology for more efficient flushes (depending on model)
- SmartClean glaze for easier cleaning (depending on model)
- HygieneEffect glaze against bacterial growth* (depending on model)
- SoftClose and QuickRelease seat and cover (depending on the model or optional)
- Made of durable and scratch-resistant sanitary ceramic
- Including "made to fit" noise-protection foam
- High-quality, pre-installed mounting system

*Exclusively refers to the following bacteria: Escherichia coli ATCC8739 and Salmonella enterica ATCC 13076 (test conducted according to ISO 22196: 2011-08)

TECTURIS

Embracing water with architectural design: With Tecturis, you are the **architect of your well-being**. Plus, an outstanding space needs an outstanding faucet.

Surround yourself with outstanding design and positive energy will flow. Inspired by the pure and functional beauty of water, Tecturis embraces your everyday water experience with clear lines, defined shapes, and maximum comfort. This is what water has been dreaming of.

One style icon – two iconic designs

Geometrically shaped and round like concentric water circles or straight like a steady stream of water. With Tecturis, hansgrohe has created two designs that reflect these aesthetics and highlight the pure and functional beauty of water through their minimalist appearance. From the handle to the body to the spout, Tecturis features exceptional hansgrohe design and high quality standards. There is a right solution for every design lover's bathroom and style. You decide which line suits you and your bathroom best.

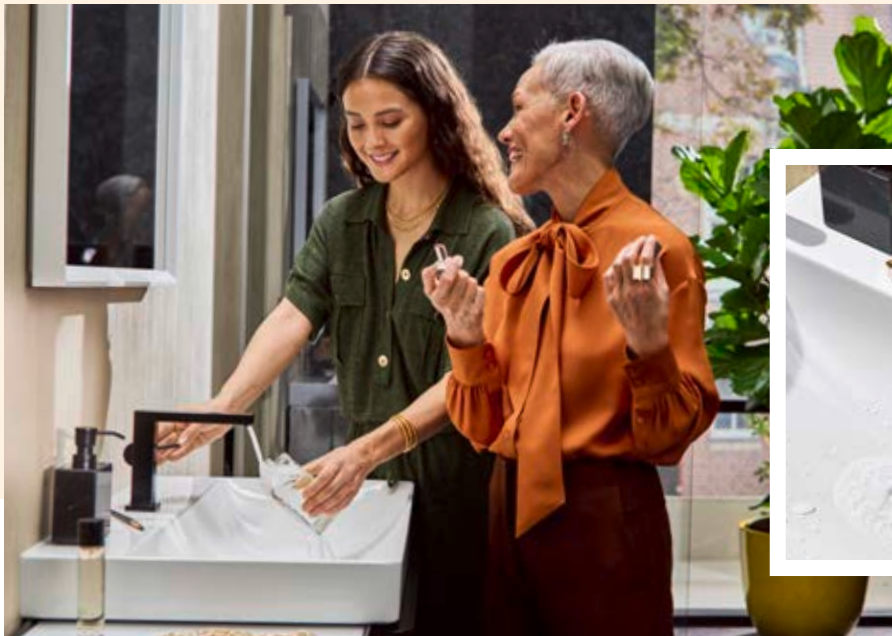

The two styles embody the different characters of water – **Tecturis S for the soft and flowing** and **Tecturis E for the clear and powerful.**

Tecturis S

Soft lines, rounded design, and smooth surfaces for a feeling of relaxation, comfort, and well-being – that's the style of the Tecturis S. Inspired by the flowing character of water, its soft appeal also reflects your relaxed style and turns any bathroom into a wellness oasis. Its slim look and raised ComfortZone create more space for you.

Leaves nothing but a good feeling: The handle on the side prevents water spots and limescale on the spout. This way, your favorite faucet always keeps its clean look.

Tecturis E

Tecturis E features clear, geometrical design that highlights the purity of water. Its cubic water spray is a tangible expression of the steady nature of water. Square shapes and the perfect integration of the round cartridge create a highly aesthetic atmosphere, making your WashPlace a remarkable design statement.

A real **MUST-HAVE** – for the planet as well

Great architectural design takes the environment into account. Equipped with EcoSmart+, your Tecturis faucet significantly reduces water consumption to only 4 l/minute at 3 bar – without reducing the joy of use. In addition, CoolStart technology saves energy and supports an even more sustainable life. Often, we open a faucet automatically with the handle in the middle position – and with that, we consume hot water without noticing it. In contrast to standard faucets, pure cold water flows in this position with CoolStart. The energy required for heating water is only accessed when you actively move the faucet handle to the left. Using hot water only when it is really needed is good for the environment. And for your sense of well-being.

Tecturis at a glance

- Reduced design: Minimalist from handle to body to spout
- Two design languages: Soft and round (S) and straight and angular (E)
- Available in various versions, e.g., with side or top operation, as a two-hole wall-mounted faucet or two-hole ceramic faucet, as well as with different ComfortZones
- Available in four FinishPlus surfaces: Chrome, Matt Black, Matt White, and Brushed Bronze
- Minimization of water splashes and limescale deposits ensures easy cleaning
- EcoSmart+ reduces water consumption to only 4 l/minute at 3 bar and saves valuable resources
- Intuitive energy saving thanks to CoolStart: Cold water flows when handle is in middle position

PULSIFY

Thanks to two unique designs, Pulsify will turn your shower into your favorite place – no matter the size of your bathroom. Meanwhile, PowderRain envelops you in a sensual, sustainable showering experience with microfine droplets.

FEEL PULSIFIED

Round or square? You decide! With Pulsify S and Pulsify E, you can individualize the look of your bathroom and enjoy a unique shower experience in its most beautiful form – your most beautiful form. The modern and timeless design makes Pulsify a true style highlight in your bathroom. Make your statement and feel like never before: Pulsified!

Pulsify S

Enjoy a great shower, no matter the space

Whether your bathroom is big, tiny, narrow, or wide – Pulsify S offers pure showering pleasure and fits in perfectly anywhere. The broad range of Pulsify S products offers you a consistent design language that fits in with any bathroom and any style. And the extensive product variety also perfectly complements the look of your bathroom.

Catches the eye, touches the heart

Its modern, round design and timeless look make Pulsify S a true style statement in your bathroom, presenting a consistent solution for the entire shower area with round overhead and hand showers, cylindric wall bars, and shower pipes. The surface is available in various options: Chrome, Matt Black, Matt White, and Brushed Bronze

More storage, more fun

Enjoy your Pulsify S to the fullest with plenty of storage space integrated onto the shower pipe for all your essentials. And, if you want even more space, you can expand your shower experience with WallStoris – for plentiful storage options and a matching design language. The flexible storage system can be conveniently glued on without drilling into the wall or tiles. Just create your perfect combination.

Pulsify E

Showering pleasure in its purest form

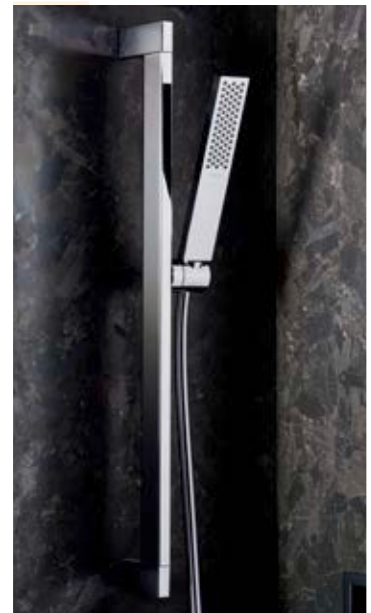

Meet Pulsify E. The shower that brings you full PowderRain pleasure in a minimalist cubic design and highlights your individual preferences. Make your shower more than just a shower. Make it a unique expression of your style.

Unique design with wow factor

The iconic, cubic design underlines the character of Pulsify E and makes it a real eye-catcher in any bathroom. The consistent design language runs through the entire range, right down to the smallest details. Highlights can be set in the finishes Chrome, Matt Black, Matt White, and Brushed Bronze.

It's all about style – your style

With the wide Pulsify E shower range, you enjoy one consistent design language from overhead and hand showers to wall bars and shower arms. The exceptional look and feel of your individual bathroom style is perfectly complemented by our extensive product range.

TRANSFORMS

water into well-being

Whether refreshing or relaxing, soft or intense – Pulsify S and Pulsify E take your shower experience to the next level. With outstanding design, long-lasting quality and joyful sustainability. And, if you ever feel like adding a new spray type to your shower experience, you can simply choose between different variants. Looking for a gentle, relaxing shower? Then PowderRain is just right for you.

Thousands of microfine droplets for a one-of-a-kind feeling. Renew your daily routine and yourself with **PowderRain**, a shower experience that is the true highlight of your day. Every day.

9 out of 10 consumers
confirm that Pulsify EcoSmart
provides a **great**
shower experience
with 40%
water savings.

* Source: TRND customer study with 150 testers, July 2022.
Water savings compared to the hansgrohe average.

Feels good for you – and for the environment

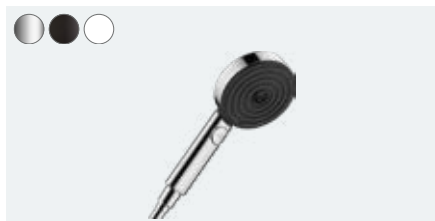

Water is a limited resource. That is why every Pulsify shower allows for conscious usage of water. Compared to our conventional showers, which use over 15 l/min, hansgrohe's EcoSmart variant reduces water consumption by up to 40% (8 liters per minute) and the EcoSmart+ variants even by up to 60% (6 liters per minute). This way, you shower particularly sustainably and save valuable resources while enjoying the same comfort.

Pulsify at a glance

- PowderRain offers a gentle, relaxing shower experience
- Compared to our conventional showers with an average water consumption of 15 l/min, hansgrohe showers with EcoSmart and EcoSmart+ reduce water consumption by up to 40% (8 l/min) and 60% (6 l/min)
- Convenient control of the spray types thanks to Select
- FastDrain minimizes annoying dripping and limescale stains
- Water Flow Control enables responsible water use
- QuickClean ensures easy cleaning
- Available in four finishes: Chrome, Matt Black, Matt White, and Brushed Bronze

Small details, big impact:
The **warm and cotton-
like look** of the new
hansgrohe Designflex shower
hose updates your bathroom
and gives it a **modern
spa touch**.

DESIGNFLEX:

flexible, lightweight, stylish

Showering with that something extra

Thanks to its warm, cotton-like look and pleasant feel, Designflex adds the perfect finishing touch to your bathroom design and enhances the comfortable atmosphere. The look and feel of your shower transform it into a cozy oasis of well-being. The Designflex shower hoses unique look is the result of the innovative braiding technology, through which multicolored threads are closely braided – safe, water-resistant, and the perfect addition to all FinishPlus surfaces.

Designflex fibers are made from **recycled plastic bottles**. This makes Designflex a **contemporary design piece** and a **contribution to sustainable living**.

Designflex at a glance

- Pleasant haptics make you feel good in the shower
- About 30% lighter in weight than other hansgrohe shower hoses
- Resistant materials ensure the highest product quality
- Kink-free showering pleasure: The rotatable connector prevents annoying tangling
- Compatible with all common hand showers
- Waterproof and water-repellent material guarantees the best hygienic conditions and easy cleaning
- Perfect addition to all FinishPlus surfaces

SHOWER- SELECT COMFORT

Happiness at the touch of a button: ShowerSelect Comfort features high-quality design and allows for **convenient water control**. Thanks to the flat, space-saving appearance, you can turn your bathroom into a place of peace and quiet.

A WORK OF ART for the wall

As the saying goes: Less is more. The elegant, purist design of ShowerSelect Comfort creates an artistic eye-catcher in your shower and enables intuitive operation of all shower elements. With just one click, you can precisely start or stop the flow of water, switch from hand shower to overhead shower, or change the spray type. The ShowerSelect Comfort thermostat continuously balances out any

temperature and water pressure fluctuations, so you can always enjoy the best showering experience by maintaining a constant water temperature and volume. The intuitive Select buttons with easy-to-understand and abrasion-resistant symbols simplify operation and are easy to clean thanks to their flush-mounted design. In addition, the clear and stylish temperature markings also make setting your personal comfort temperature a breeze. There is also an extra safety feature: The SafetyStop

function for adjustable temperature limitation. Accordingly, you can be sure that the water in your shower never gets too hot (lock at 40 degrees). This can be released with the push of a button on the control dial and guarantees safety for your little ones. At the same time, Water Flow Control allows you to effortlessly reduce water consumption and thus save resources.

The new iBox universal 2 – **faster, smarter, more flexible**

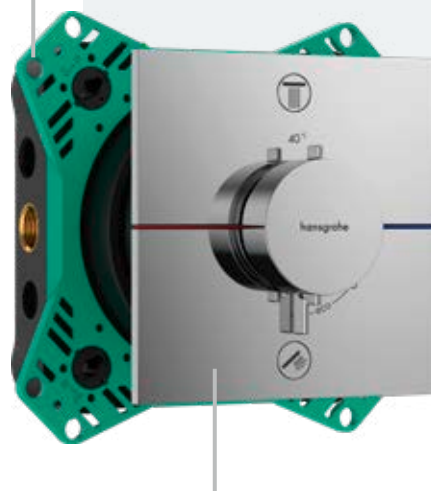

Designed to upgrade your bathroom

ShowerSelect Comfort ready-made sets and controls can be integrated into any space. The flat and sophisticated design fits perfectly into your bathroom and creates more room for cozy showering comfort. Thanks to the shadow gap, it even looks as if the thermostat is floating in front of the wall. Design enthusiasts appreciate the visual lightness offered by this installation. Also, the handles have a flat design and are centered at the same height. And the high-quality metal offer durability and provide a convenient operating feeling.

The thermostats can be quickly and easily installed on the new iBox universal 2. If you ever want to change the shape and color of the faucet, the iBox universal 2 allows you to replace the ShowerSelect Comfort unit at any time and without much effort.

iBox universal 2

The basic body for concealed fittings can be installed even more flexibly and conveniently.

ShowerSelect Comfort

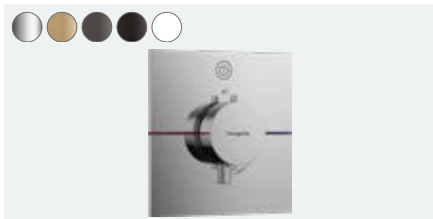

Control your showering pleasure conveniently and intuitively thanks to the minimalist concealed thermostat with the Select function.

ShowerSelect Comfort at a glance

- Intuitive control by up to four consumers at the touch of a button thanks to the Select function
- Full-surface metal Select buttons make it easy to operate the desired shower head
- Comfortable temperature setting thanks to the thermostat with SafetyStop
- Integrated Water Flow Control function for sustainable use of water and regulation of water flow
- Easy cleaning is ensured by flush-mounted buttons
- Available in three shapes: Square, Softcube, and Round
- Comes in five finishes: Chrome, Matt Black, Matt White, Brushed Black Chrome, and Brushed Bronze
- Installation based on the new iBox universal 2

DUOTURN

A **first-class shower experience** with just one turn: DuoTurn concealed mixers are characterized by their intuitive handling and can be integrated into **any bathroom.**

Turn up the COMFORT

For moments of rest. For moments of silence. For moments of relaxation. DuoTurn combines intuitive handling with clear, flat design and lets you forget about everyday life and turn on soothing comfort while showering. The concealed mixers can be installed with the bathtub as well as in the shower and offer a new, uncomplicated alternative to a diverter with a pull mechanism. Thanks to DuoTurn, you can switch from the overhead shower to the hand shower or simply set your desired temperature and volume flow control with just one turn. The mixers also feature an attractive overall appearance. The cartridge is positioned centrally, and the handles are flat and aligned at one height.

The new iBox universal 2 –
reduces complexity
and allows for
easy installation

The feeling of relaxation requires one thing above all: A pleasant atmosphere. In combination with the iBox universal 2, the innovative hansgrohe technology can be placed behind the wall, creating a minimalist ambience in the bathroom where you can look forward to relaxing shower experiences. The concealed unit is easy to install on the iBox universal 2. This allows the faucet to be replaced in just a few simple steps if you ever want to change the shape or color.

DuoTurn at a glance

- Convenient temperature setting and volume flow control
- Comfortable control of up to two consumers by operating the lever
- Easy cleaning thanks to the flat, built-in surface
- Available in three shapes: Square, Softcube, and Round
- Comes in three finishes: Chrome, Matt Black, and Matt White

IBOX UNIVERSAL 2

The new iBox universal 2 offers
reduced complexity and
enables a **fast, more flexible,**
and **secure installation.**

HELLO FUTURE!

The new hansgrohe iBox universal 2 –
faster, smarter, more flexible

Efficient installation offering maximum flexibility

The latest evolution of the iBox universal draws on decades of experience with over 11 million installed products and continuous feedback from installers and planners. As a result, the new iBox universal 2 reduces complexity while enabling fast, error-free, universal installation. It combines the proven advantages of its predecessor with new features and benefits.

Specialists are facing increasing time pressure. This is further aggravated by a shortage of skilled workers. Therefore, a partner who understands these challenges and offers products that enable safe and quick installation is needed. The new iBox generation is one more example of how we use innovative ideas and intelligent developments to make installers' work more efficient, while simultaneously boosting their customers' satisfaction.

The installation of the iBox universal 2 in combination with new finish sets is **twice as fast as with the previous model** and works even more intelligently and flexibly.

Useful information for professionals

The iBox universal 2 features a high level of safety and reliability thanks to over 22 years of experience and targeted further development. The improved product benefits and functions make installation easier than ever before. This means that installation errors can be prevented, and installers benefit from the efficiency and time savings gained. In addition, intelligent details result in more installation options.

Useful information for consumers

The new iBox generation guarantees maximum design freedom in the bathroom, as it can be combined with all hansgrohe finish sets. With older lines, only an adapter plate is required for installation. In addition, the concealed installation requires very little space and allows for easy cleaning. And, thanks to the excellent sound absorption, consumers can look forward to a quiet and peaceful showering experience.

Five benefits of the iBox universal 2

Sliding sleeve

Installation without cutting: The sliding sleeve is very easy to slide in, regardless of the depth at which the concealed box is installed. This makes the waterproof box even easier, faster, and safer to install.

Mounting ring

The integrated mounting ring allows the box to be installed in, on, or in front of the wall. The ring can be attached at the front or rear and allows for mounting with any type of installation.

Pre-mounted seal

The sealing sleeve is permanently attached to the sliding sleeve so that it cannot be lost or forgotten. This also simplifies installation as everything is always at hand. The sleeve is continuously elastic and waterproof.

Box made of EPP foam

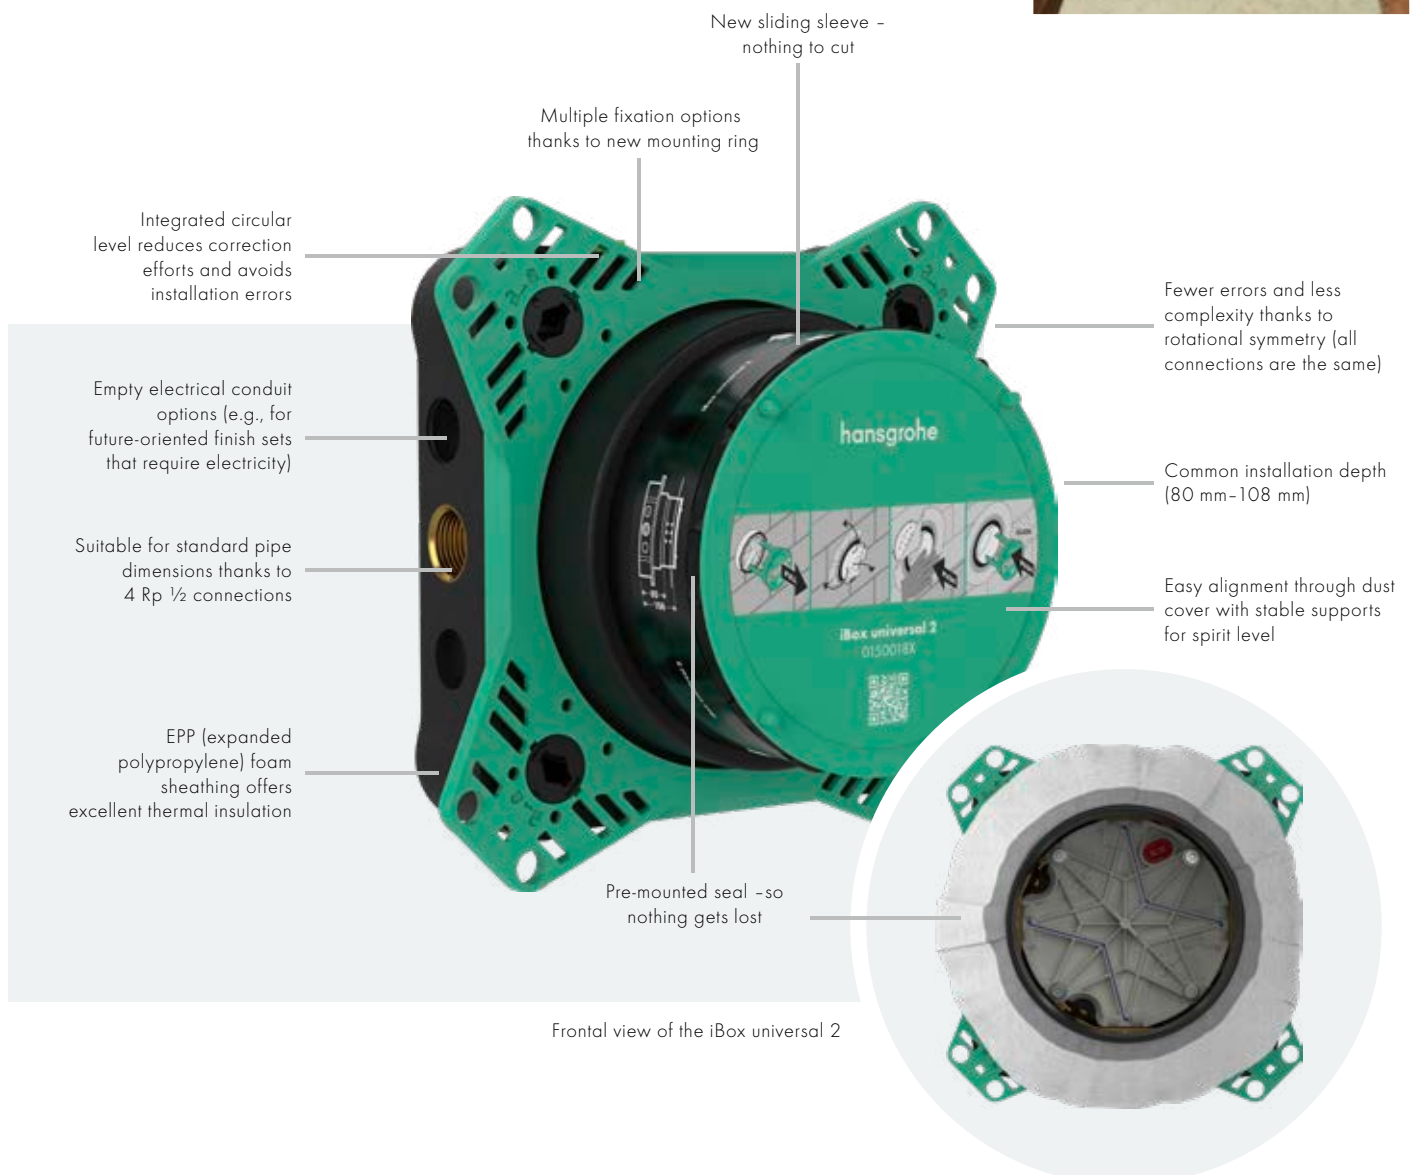

The Box is made of expanded polypropylene (EPP foam). This sustainable material provides perfect sound absorption and thermal insulation. The versatile material is also lightweight, waterproof, and easy to recycle.

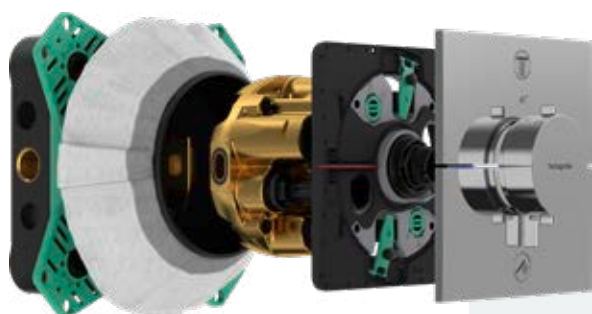

Pre-installed function block

The high-quality function block is manufactured using metal and delivered pre-installed. This enables fast and safe installation.

**Faster
installation, more
mounting options,
fewer installation
steps** – that makes
the new generation
of iBox even more efficient,
more flexible, and safer.

The perfect combination –
the iBox universal 2 and
ShowerSelect Comfort

— iBox universal 2 at a glance

- Fast, flexible, and safe assembly
- Improved installation options thanks to intelligent details
- Fully waterproof and universal
- Acoustic decoupling means all new finish sets have noise class 1
- Can be combined with all previous and future hansgrohe and AXOR finish sets (for older lines, an adapter plate is necessary)
- Finish sets require little space and offer a wide range of products (various colors, shapes, and numbers of consumers available)

AQITTURA M91

Aqittura M91 serves you water
the way you like it best:

filtered and optimized,
optionally **treated with**
minerals, carbonated
and **chilled** if desired.

ENJOYING WATER

without compromises

Water is probably the most important resource on Earth. Anyone with access to clean drinking water enjoys a high quality of life. However, in some regions, the water quality is less enjoyable. To ensure that you can always enjoy your drinking water to the fullest, we have developed the Aqittura M91.

Thanks to the exclusive faucet with integrated system, you get to enjoy delicious water, individually refined according to your preferences, directly from the tap. This way, you can avoid the inconvenient transport of water bottles while at the same time protecting the environment.

Reliable reduction of pollutants and microplastics

The filtration of the Aqittura M91 system removes up to 95%* of pollutants and heavy metals, pesticides and insecticides. This makes the enjoyment of water even more carefree and safe, and contributes to a holistic balance. The activated carbon filter of the Aqittura M91 system also filters microplastic particles from drinking water. Organic substances such as natural odors and flavors or acids are also neutralized for worry-free water enjoyment.

For separate supply of filtered and unfiltered water, the faucet is equipped with two outlets.

*Average of seven representative pollutants (pesticides and pharmaceutical residues), determined by the Zurich University of Applied Sciences (ZHAW)

FilterSystem vs. SodaSystem

Find the system that suits you

Aqittura M91 is available in two system versions. With the Aqittura M91 SodaSystem, you experience all the benefits and can enjoy your water filtered, mineralized, and carbonated as well as chilled between 4 and 12 degrees in sparkling, medium, or still. The adjustment Carbonation is adjusted at the push of a button right at the faucet. In addition, the system can be managed via the hansgrohe home app. If you are happy without carbonation and refrigeration and only want the water to be filtered and mineralized, the Aqittura M91 FilterSystem is the right choice for you.

The **FilterSystem** provides you with filtered or mineralized water at the push of a button. Thanks to the integrated valve, the treated water runs as long as you keep the button pressed. In addition, the space-saving holder makes it easy to install the mineralizing filter in the kitchen sink cabinet.

Using the intuitive control element of the **SodaSystem**, you choose how you want to enjoy your water: sparkling, medium, or still. The SodaBase in the kitchen sink cabinet integrates the carbonic acid cartridge, the mineralization filter, the intermediate storage tank for treated water, and the cooling unit.

THE INTELLIGENT

carbonation and filter system for the kitchen

SodaBase – the core of the Aqittura M91 SodaSystem

All functions in a compact space: With a height of 476 mm, a width of 200 mm, and a depth of 500 mm, the SodaBase fits into any kitchen cabinet with a width of at least 400 mm. A swiveling threaded connection is built into the SodaBase, so that all commercially available CO₂ bottles from various manufacturers can be connected in a few simple steps and without tools. A CO₂ bottle (425 g for approx. 60 l of sparkling water) is always included with the purchase of a hansgrohe Aqittura M91 SodaSystem and is the entry into the deposit system.

Discover all of the benefits using the hansgrohe home app

With the Aqittura M91 SodaSystem, you can use all of the digital possibilities of our kitchen innovation. The hansgrohe home app allows you to control the smart kitchen faucet from anywhere and enjoy numerous convenience functions.

- Easy operation via smartphone
- Digital filter and carbon dioxide level indicator
- Notification to app users: Fill levels, cleaning, software updates, error messages
- Repurchase of filters and other spare parts via specialist retailers or common online shops
- Know more: The app includes the instruction manual and FAQs

A balanced mineral supply for your well-being

The unique MINTEC® filtration and mineralization technology ensures a continuous supply of valuable minerals. The individually adjusted composition of minerals forms an important contribution to a harmonious diet, has a compensating effect on the mineral balance. Optimize your personal water balance with mineral salts such as magnesium, calcium, potassium, and sodium.

Full power: Mineralization and the "Life" filter

Calcium, magnesium, and potassium are added to very soft water via the "Life" mineralizing filter. Calcium is an indispensable component of a balanced diet. It supports the metabolism, is needed for building teeth and bones, and transmits nerve impulses. Enrichment with a combination of calcium, magnesium, and potassium makes tap water an effective nutritional building block.

Soft balance: Mineralization and the "Harmony" filter

Being thirsty is a natural warning signal of the body that points out the lack of vital minerals in the blood. The "Harmony" mineralizing filter adds magnesium and potassium to tap water. Magnesium supports the body's metabolic functions, while potassium regulates blood pressure and muscle and nerve function.

Vitality: Mineralization and the "Sport" filter

The "Sport" mineralizing filter is adapted to a sporty lifestyle. On hot days or when playing sports, the body loses not only large amounts of fluid, but also valuable minerals. For athletes, along with potassium and magnesium, sodium is an important building block for maintaining tissue tension, regulating water balance in the body, transmitting nerve impulses, and regulating blood pressure, and it can help reduce muscle cramps.

Aqittura M91 at a glance

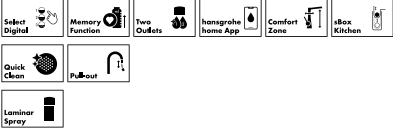

- Water according to your taste thanks to FilterSystem or SodaSystem
- Two design variants: swivel spout in L-design or curved shape with pull-out function
- Filtration reduces pollutants and microplastics
- MINTEC® ensures supply of valuable minerals
- Two separate water paths for untreated and treated water
- Available in three finishes: Matt Black, Chrome, and Stainless Steel Finish

Kitchen

Technologies

Ensures maximum freedom of movement at the sink, both in height and in the lateral swivel range.

The app provides important information about the kitchen mixer. It informs you about fill levels and more.

This allows drinking vessels to be filled individually and precisely. The water flow stops automatically.

A pull-out shower or spout greatly extends the radius of action at the sink.

Filtered or mineralised water comes out of this user-friendly kitchen mixer at the touch of a button.

Limescale deposits and dirt can simply be rubbed off with a finger. For less cleaning effort.

Smooth and protected guidance of the hose. The pull-out shower can be extended up to 76 cm.

One press of a button is all it takes to regulate the flow of water at the sink.

At the touch of a button, treated water comes out of the mixer, either still, medium or sparkling.

Separate lines for treated and untreated water provide safety when tapping.

Spray modes

Crystal-clear spray for the sink with no air mixed in, perfect for quickly filling vessels.

Bathroom ceramics, furniture & mirrors

Technologies

 Anti Fingerprint High quality technology against fingerprints. For carefree morning and evening routines in the bathroom.	 Anti-fog The integrated defog system effectively prevents the mirror surface from fogging up - for a clear view.	 Aqua Helix Flush Water vortex technology that cleans the inner bowl of the toilet powerfully but quietly.	 EcoSmart Toilet that can achieve excellent flushing results with only 4.5 l per flush (suitable tank required). Good for the environment and the wallet.	 Hygiene Effect High quality glaze that prevents bacteria from multiplying on the product (exclusively refers to the following bacteria: Escherichia coli ATCC8739 and Salmonella enterica ATCC 13076 (test conducted according to ISO 22196: 2011-08)).	
 Made to fit NoiseReduction For easy installation, this product comes with a soundproofing mat matched to its shape.	 Moisture Proof This high quality product is made of durable material, which is suitable for bathrooms.	 Push Open These drawers and doors are extremely easy to grasp and open. Just give them a short tap.	 Quick Release This hinge system is easy to release. For quick removal of the toilet seat and easy cleaning.	 Smart Clean High-quality glaze that prevents dirt particles from adhering to the product. For more hygiene and less cleaning effort.	 Smart Storage The clever interior divider system for drawers provides individual and flexible storage space.
 Smart Touch Simply touch the icons in the mirror surface lightly and various functions are switched on or off.	 Smooth Surface The surface of this furniture has a great, uniform haptic. For pleasant touches and a beautiful look.	 Soft Close Drawers and doors close gently and quietly. This is possible by integrated dampers.	 Soft Close WC cover and seat close gently and silently - thanks to dampers integrated into the hinges.	 Touchless Sensor This lighting is controlled via infrared sensors. A hand movement under the mirror is enough.

Showers, Thermostats & Mixers

Technologies

The angle of the overhead shower can be adjusted and the water spray can be individually adapted.

Mixes air into the water. For a soft, less splashing water jet and full, light drops.

For requirements at any height - so the mixer fits perfectly into the desired washbasin situation.

Thermostatic mixer with innovative cooling technology to prevent scalding and stop it from feeling uncomfortable to touch.

Environmentally friendly mixer that conserves valuable resources, reduces CO₂ emissions and cuts costs.

Quick and safe installation - several features ensure easy installation.

Shower that uses up to 40% less water than a conventional model, also reducing energy costs.

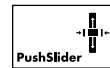

This economical shower consumes up to 60% less water than conventional models. This also reduces energy costs.

Climate-protecting fitting that consumes only 4 l/min at 3 bar. Less water - less energy consumption.

The shower's quick emptying function reduces the dripping time after showering.

The height of the hand shower can be singlehandedly and smoothly shifted at the touch of a button.

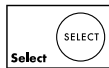

Limescale deposits and dirt can simply be rubbed off with a finger. For less cleaning effort.

The bath filler can be swivelled under the thermostatic mixer when not in use. Nice and tidy.

Safety lock at over 40 °C - temperature limit, which prevents excessively hot water from escaping.

A playful way to control the water flow, shower or spray type at the simple touch of a button.

The high-quality installation set has a pre-assembled sealing fleece and is 100% waterproof.

Actively regulate water consumption - the amount of water can be adjusted using the control dial.

Large-scale distribution of the water in the shower so that the whole body is cocooned in feel-good droplets.

Spray modes

Intense spray consisting of thousands of micro-fine droplets. Thorough, soothing and low-splash.

Powerful, stimulating water sprays that wash away tiredness and leave people feeling fighting fit.

Invigorating, concentrated spray for the home spa that allows the day's stresses to simply drain off.

Targeted spray that gently relaxes for soothing wellness moments.

Relaxing, micro-fine droplets that softly and silently cocoon the body. For sensual showering.
