Finoris™

Your routine reimaged.

A faucet that's as flexible as you.

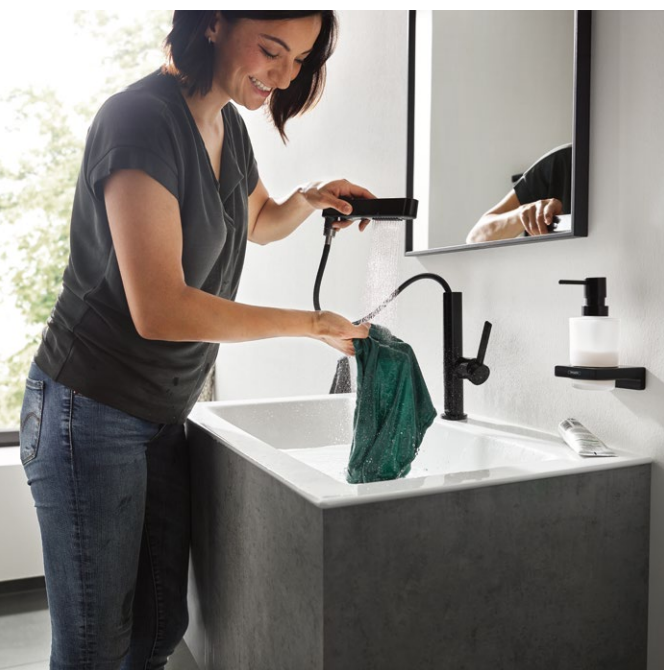

No other room in the house fulfills as many different needs as the bathroom. It's sometimes a place of morning chaos, at others a place of retreat. And the more people in the household, the greater the number of requirements it needs to deliver on.

Finoris meets these requirements thanks to minimalist design and maximum flexibility. In one simple design, the sink meets the needs of all its users. And one hidden, groundbreaking innovation means that it can be used for many different purposes, from washing your hair, bathing the baby or even hand-washing your favorite shirt.

Discover a hidden innovation.

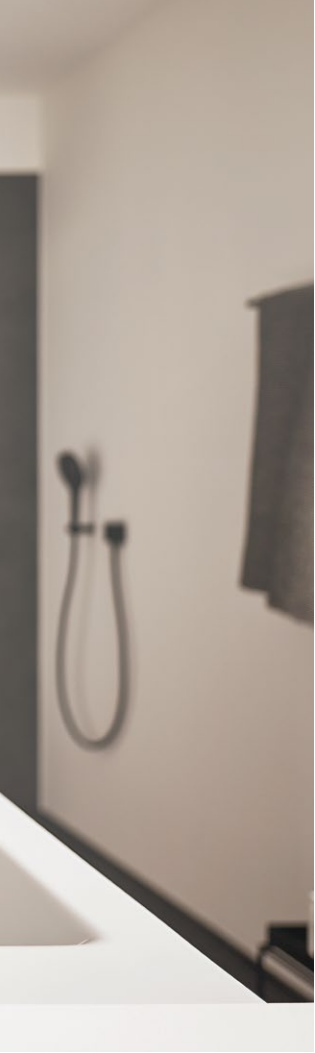

The pull-out hose, which is subtly integrated into the slim design, gently glides back into its original position after each use ready for the next time you need it. You can tailor your experience in four ways: the amount of water, the water temperature, the spray type and the flexible spout. And with four finishes to choose from, Finoris blends perfectly with any bathroom design.

The tried-and-tested hansgrohe ComfortZone technology offers several benefits all at once – plenty of elbow room at the wash basin, maximum usability and less splashing. When Finoris and ComfortZone join forces, they transform the bathroom into a stress-free, comfortable place to be, even in the most dynamic domestic settings.

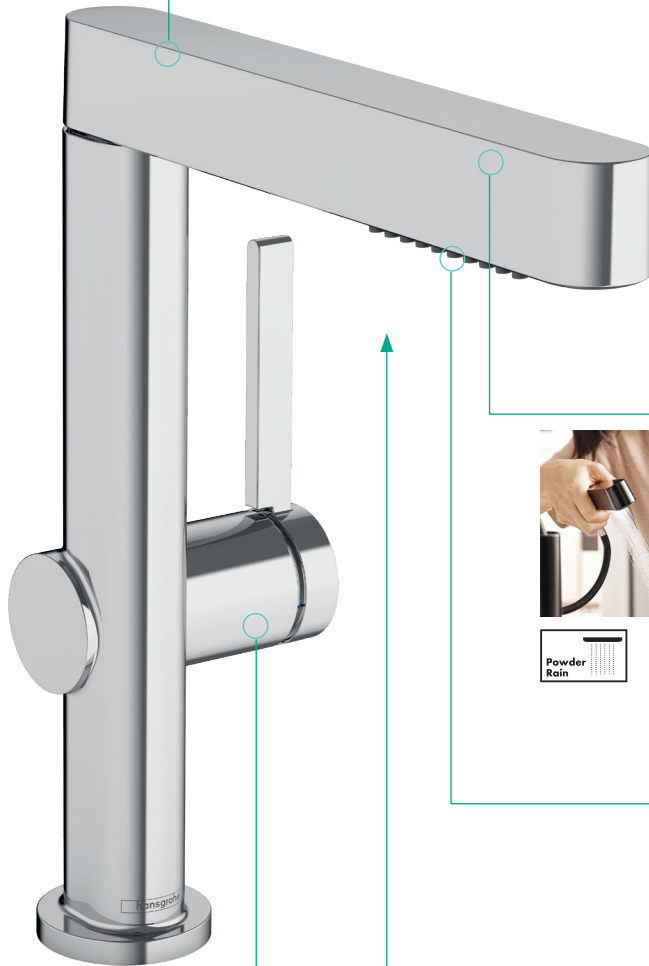

Complete convenience
and freedom of
movement for every
sink. Thanks to
ComfortZone.

The benefits of Finoris:

- An innovative solution for all routine activities around the sink
- A long pull-out spray is fully integrated into the basin tap for ultimate flexibility. It smoothly glides back into its original position once you're done
- Choose between laminar spray or PowderRain at the touch of a button
- ComfortZone technology provides plenty of space, maximum ease of use and fewer water splashes at the sink
- Slim, geometric design provides a modern bathroom look and easy handling
- Available in four finishes: Chrome, Brushed Nickel, Matte Black and Matte White
- An entire design line that you can use throughout your bathroom

Comfort without compromise.

Equipped with a **pull-out hose** to add flexibility at the bathroom sink.

2 spray modes. PowderRain provides thousands of gentle micro sprays for optimal soap and shampoo removal and for provide ultimate relaxation. Laminar offers a voluminous flow ideal for handwashing and filling containers.

Fast and easy limescale removal with **QuickClean** silicone nozzles.

ComfortZone allows plenty of room at the sink to meet the requirements of all users.

Handle contains a **ceramic cartridge** to ensure silk-smooth operation of the handle, and also equipped with a **boltic lever lock** for lasting quality.

Spray modes

Powder Rain
A unique shower experience thanks to the soft caress of micro droplets.

Laminar spray
Crystal clear and economical, without added air. Ideal for quickly filling large containers, and preventing splashing.

Technologies

Simply regulates the water flow at the touch of a button: a convenient way to turn the shower on and off or switch between spray modes.

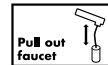

EcoRight
Reduces the flow rate to save water and energy. For long-lasting pleasure.

Quick Clean
Wipe limescale deposits away easily by rubbing your finger over the flexible silicone nubs.

Comfort Zone
Plenty of useable area between the faucet and base of the sink. Various faucet heights available for all types of users.

Pull out faucet
Highest flexibility by pull-out function.
