

**hansgrohe.**  
**Your partner in water**

---

# Working with you to provide the best solution for your project

For over 30 years Hansgrohe has supported UK housebuilders and residential developers. Our high-quality range of showers, taps for kitchens and bathrooms and accessories is backed-up with a specialist Projects Team that has the in-depth knowledge to understand the challenges you face together, with the experience to provide solutions that not only meet your requirements but exceed your expectations.

Whether it's helping to add-value to the build, incorporating the latest water-saving technology or working to budget you'll find the team at Hansgrohe ready to assist you to deliver the best solution for your project.

## **Showering perfection since 1901**

Founded in Germany in 1901, Hansgrohe has been synonymous with high-quality products of exceptional design, ease of use and intelligent functionality.

Add to this the experience and resources of our dedicated Projects Team and it's altogether an easier way to do business.

# Two distinctive brands in one robust group

Our values are our promise: innovation, design and quality. This is reflected in every single product by AXOR and hansgrohe. Both brands of the Hansgrohe Group each set their very own accents in design and communication.

## AXOR

For more than 25 years, our brand AXOR conceives and manufactures iconic objects for luxurious bathrooms and kitchens. Developed in collaboration with world-renowned designers – Philippe Starck, Antonio Citterio, Jean-Marie Massaud and Barber Osgerby among them – AXOR products come in a variety of styles. All AXOR taps, showers and accessories are produced to the highest standards of quality.

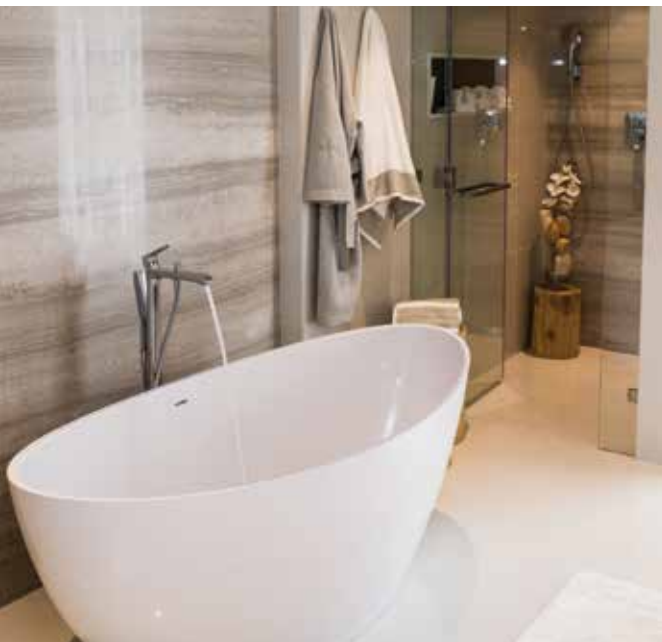

## hansgrohe

hansgrohe is our premium brand for showers, shower drains and storage, as well as bathroom taps and kitchen taps and sinks. Since 1901, we have used our German engineering skills and eye for detail to develop innovative products, technologies and functions that are also durable.

# World class resources delivered locally

From large, complex global projects to regional specialist developments Hansgrohe has the experience and resources to support you. We are renowned for providing intelligent and aesthetically pleasing solutions that maximise the beauty of water. Hansgrohe showers and taps continue to define design and comfort around the world in impressive hotels and public buildings, private residences, exclusive sports clubs, cruise ships and luxury yachts.

## ◀ Serenia The Palm, Dubai

The Serenia The Palm residence is located on a beachfront plot on the unique crescent of The Palm Jumeirah. Its connection to the nature and outstanding architecture which offer a panoramic view over the skyline makes Serenia an extraordinary residence.

**Products used:** AXOR Starck Organic, hansgrohe Metris

## ▲ Mangusta GranSport 33, Viareggio (LU)

The Mangusta GranSport 33 is a sporty and comfortable boat at the same time, with a strong personality and timeless elegance, it is the perfect combination of style and technique, whose maximum expression is contained in great performance combined with maximum efficiency.

**Products used:** AXOR Citterio E, AXOR Citterio M

## The Outpost Hotel Sentosa, Singapore

The Outpost Hotel Sentosa is an upscale accommodation that exclusively caters to adults. Inspired by Sentosa's Heritage as a colonial military base, the 193 guest rooms are a stylish interpretation of black and white design, with crisp lines and a sharply contrasting palette. Offering personalised services and amenities, the hotel is built for adults and couples seeking exclusivity.

**Products used:** hansgrohe Talis E

## NOVE Munich (Office Building)

Winner of the German Design Award 2020, the NOVE by Antonio Citterio is an exclusive office building near the heart of Munich. Clad with a gold-bronze system of window-like frames, this innovative yet inviting structure offers 27,000 square meters of space in which both to work and be at ease. Indeed, the ground floor combines the flair of a luxury hotel lobby with the feel of a piazza.

# Meeting the standard

With over 1000 WRAS & KIWA approved products, AXOR and hansgrohe can ensure a wide offering to suit every design preference and installation requirement. Giving you greater choice, simpler specifying and peace of mind to ensure our products help your project meet Regulation 4 of the Water Supply (Water Fittings) Regulations 1999 and Scottish Byelaws 2014.

Hansgrohe also offer a number of KIWA Approved products which help to meet the Water Supply Regulations.

Hansgrohe UK offer a 'Why WRAS' and 'Part G' RIBA approved CPD for more information email: [marketing@hansgrohe.co.uk](mailto:marketing@hansgrohe.co.uk)

## Approvals

The hansgrohe group is certified according to international rules and meets the standards ISO 9001 for quality management, ISO 14001 and ISO 50001 for environmental and energy management, and OHSAS 18001 for occupational safety management.

We are members of the following associations:

# Excellence before, during and after every project

We understand that whilst no two projects are exactly the same the quality of service you receive from Hansgrohe must be consistently good. That's why we've developed SPECIFICATION PLUS. It's a comprehensive approach that supports you from concept through to completion.

## **Personal service**

A highly experienced project consultant will work with you. They'll focus upon your specific needs and be able to provide tailored product and service solutions. We'll demonstrate how Hansgrohe can help with sustainability and cost savings. Site visits can be organised where required.

## **Water savings calculator**

Our ingenious EcoSmart technology in showers and mixers helps protect the environment and reduce water consumption and bills. We are able to provide water calculations, based upon consumption and the EcoSmart shower specified.

## **Technical support**

We are able to provide technical support at every stage of the project through our dedicated UK technical support helpline and external team. Hansgrohe supplies BIM data for the most important software applications. This includes geometry and positioning, materials and properties of the mixers, showers, shower systems and installation technology.

## **Specialised website**

A website specially designed with professionals in mind.

[pro.hansgrohe.co.uk](https://pro.hansgrohe.co.uk)

## **Spares website**

Find all our available spares and how to install them.

[hansgrohe.co.uk/service/spare-parts](https://hansgrohe.co.uk/service/spare-parts)

# Excellence before, during and after every project

## **Samples and testing**

As well as providing samples we also offer a ComfortZone test that demonstrates how well our taps work in conjunction with popular basins from leading manufacturers - providing sufficient space underneath the tap and preventing splashing.

## **Extensive stockholding**

Hansgrohe holds extensive stocks at our UK warehouse. These are replenished with daily deliveries from Germany. We understand the importance of getting what you need, when you need it. That's why our sales team, using real time stock availability reports, can work with you to provide effective delivery solutions to your build schedule.

## **Product demonstrations: The Water Studio**

Given our extensive product portfolio it's often beneficial to view products and make comparisons. Our Water Studio, situated in the heart of London's design district is the ideal place to view ranges, interact with products in a working environment and experience first-hand why hansgrohe is such a renowned brand all over the world.

# Hansgrohe: quality you can count on

At Hansgrohe we create top quality products that deliver in both form and function, so you can enjoy them for a long time to come. We apply rigorous tests and stringent guidelines in our development and production, and that's validated by the independent testing institutes that attest to our high quality workmanship.

## **Quality is infused into every hansgrohe product**

Before our products are ready for production, they have to prove themselves thousands of times in test cycles, stress tests, and field tests. Highly qualified employees see to meticulous quality assurance and quality management at every point.

## **Manufacturing quality**

Hansgrohe relies on top-quality materials, high-tech design and precision work. Hansgrohe understands "quality workmanship" means more than just the materials. It's the basis of our four pillars of quality: product, design, manufacturing and service.

**5**
**YEAR  
PRODUCT  
GUARANTEE**

All products carry a minimum  
5 year manufacturing guarantee  
inc. parts and labour.

**15**
**YEAR  
PARTS AVAILABILITY  
GUARANTEE**

Spare parts held for 15 years after  
product discontinuation.

# Designed for life, realised by Hansgrohe

At Hansgrohe our philosophy of design is integral to everything you see and defines the standard to which others can only aspire.

## Clever minds and new designs

Bathrooms are living spaces where we can feel comfortable and cultivate our own individual style. hansgrohe products are meticulously designed and manufactured to make them more attractive, more comfortable and more exhilarating. Working closely with a number of the world's most influential designers, Hansgrohe leads the bathroom industry in both aesthetics and performance.

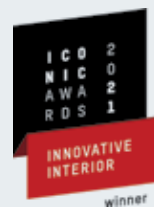

## Defining excellence

By collaborating with internationally recognised creative minds, we empower, direct and define global design. Our showers, shower systems and taps have won more than 600 internationally renowned awards, including the IF awards - which are the among the most prestigious and largest in the design world.

# Our commitment to a sustainable future

Water is one of our planet's most precious resources and one we all have a duty to safeguard. As concern for the environment continues to grow, sustainability has become an increasingly important consideration.

At hansgrohe we are constantly investing in sustainable processes and developing products that reduce energy and water consumption without any loss of comfort.

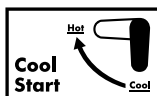

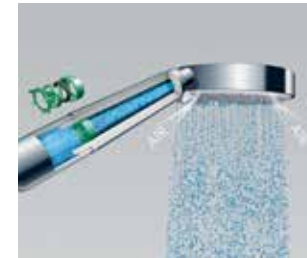

Choosing hansgrohe products ensures you are buying from a quality manufacturer whose ecological awareness is at the very heart of its business. Sustainability informs every single aspect of the company's decision making and is reflected in both our products and business practices.

**With technologies such as EcoSmart and CoolStart, homeowners water and energy consumption are significantly reduced.**

## **Less water, less energy, more enjoyment**

EcoSmart is our own innovative technology that is hidden within a selection of hansgrohe showers and taps. It ensures they consume up to 60% less water than conventional products without compromising experience. Thanks to a sophisticated flow limiter, special jets and integrated aerator you not only save precious water but also the energy needed to heat it subsequently reducing carbon dioxide emissions and costs.

## **Save energy on water heating**

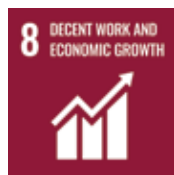

On standard taps, the continuous flow heater or circulation pump starts up immediately when the handle is in the middle position, but that's not needed if you only require cold water. On CoolStart taps from hansgrohe, only cold water flows initially, meaning your pipes aren't filled with hot water unnecessarily. And if you do want hot water, just move the lever to the left for hot water to be added.

# Our DNA is green

Hansgrohe want to live in harmony with people and the environment. We take a long-sighted approach to supporting nature, society, and employees.

The Hansgrohe Group is committed to the five UN goals for sustainable development: Good Health and Well Being; Clean Water and Sanitation; Decent Work and Economic Growth; Responsible Consumption and Production; and Climate Action.

**As a company, we are working on the ambitious goal of being climate neutral in direct emissions at all Hansgrohe sites by 2022. We even aim for climate neutrality for all products by 2030.**

# We don't just keep up with technology - we pioneer it

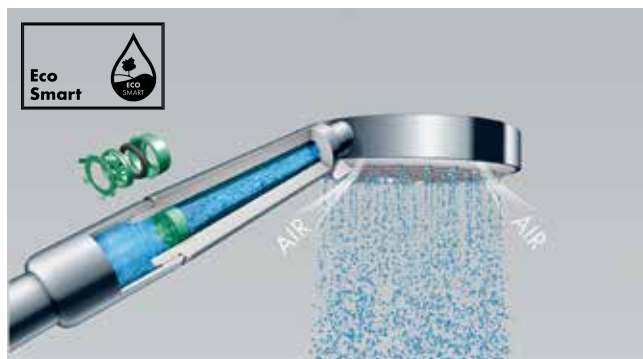

## **Our innovative technologies are all about performance**

From the big picture to the smallest detail, we welcome every opportunity to enhance the showering experience by integrating technical innovation wherever and whenever it will function best. The icons are here to introduce you to the latest hansgrohe advances. They are your guide to discovering just how much hansgrohe can enhance comfort and enjoyment in the bathroom.

Green technology is being incorporated into some of our showers. This gives 6 l/min without compromising on performance. It enhances our product offering when trying to achieve carbon neutrality.

Intuitive water control at the touch of a button.

Great performance, save up to 60% water.

A unique shower experience thanks to the soft caress of micro droplets.

A soft relaxing water experience.

Remove limescale deposits simply by rubbing the flexible silicone jets.

In the middle position, taps with CoolStart only supply cold water. Hot water only flows when you turn the lever to the left.

Evenly distributes the water over the large spray face to envelope the whole body.

Prevents the thermostatic mixer from getting too hot, preventing painful scalding.

Defines the area between the wash basin and mixer spout. This shows the product is available in various heights - to suit different wash basins and requirements.

# Add value to your build with FinishPlus

FinishPlus adds a splash of colour to the bathroom helping you create an individual look. A choice of six high quality finishes are available on many of our product ranges. What's more, the quality and consistency of the finishes means it's easy to create a co-ordinated shower, tap and accessories package.

## ◀ Meeting design and budget requirements

**Client:** Bloor Homes

**Project:** Wilstock Village

**Location:** Near Bridgewater, Somerset

### **The Brief**

Situated just under a mile from Bridgewater, Wilstock Village is a development of stylish 2,3 and 4 bedroom homes. Bloor Homes are committed to quality and attention to detail and this is reflected in their choice of hansgrohe showers and taps.

### **Products**

Hansgrohe worked closely with the client to create an extensive solution to meet the requirements of both their design brief and budget. This includes Logis Basin Mixer, Universal Bath and Shower Valves, Crometta Handsets over the bath and Croma in the showers.

## Adding a contemporary finish to an iconic refurbishment ▶

**Client:** Hadston Southwark

Limited – A Joint Venture between Goldman Sachs International and Urbanwise Developments

**Project:** Brigade Court SE1

**Location:** Southwark, London

### **The Brief**

Brigade Court, the former home of the London Fire Brigade, is a reimagining of iconic buildings. Consisting of 199 apartments and duplexes with a high-quality interior specification that's both luxurious and modern.

### **Products**

hansgrohe products that perfectly mirror the interior design aesthetics were chosen for this development. A contemporary mix of products in matt black and chrome are used throughout. A combination of RainDance overhead showers, EcoStat valves and Talis taps create the desired look.

## ◀ Environmental efficiency meets user experience

**Client:** Hill Group

**Project:** Eddington

**Location:** Cambridge

### **The Brief**

Created to help Cambridge University's long-term growth, the Eddington development has been built to the Code for Sustainable Homes Level 5 and BREEAM Excellent. Given this level of environmental responsibility water usage had to be efficient. The hansgrohe projects team helped identify the most suitable products for the development of 144 units.

### **Products**

To help achieve sustainability goals, hansgrohe products were selected that provide low water usage without compromising user experience. Products used include Ecostat, Logis and Raindance select hand showers.

## Providing a carefully curated product range ▶

**Client:** PH Homes

**Project:** Alderley Park

**Location:** Nether Alderley

### **The Brief**

Situated in one of South Manchester's most desirable suburbs, Alderley Park is an exclusive development of 74 family homes ranging from two to six bedroom properties. The development combines luxury with beautifully crafted interiors. It was important that the showers and taps throughout the site reflected the quality of the homes.

### **Products**

To meet the client's brief we supplied a carefully curated range of products taken from both our AXOR and hansgrohe brands. This included premium products from renowned designers Philippe Starck and Antonio Citterio as well as hansgrohe Raindance Select, Crometta and kitchen taps.
