HANSGROHE BECAUSE

Meet the beauty of water.

Water moments that delight

From the outset we blazed a trail in the handling of water

At hansgrohe, we stand for modern design and refreshingly high quality products. For 118 years, we've been shaping the landscape of bathrooms and kitchens to make life easier, better and more beautiful for you. To this day, we continue to make most of our products in the heart of the Black Forrest – as a commitment to our Engineered in Germany" quality guarantee, ensuring the best products for you. Our determination to enhance the beauty of water and every aspect of your experience knows no bounds. Innovation combined with brilliantly simple, ultra-reliable technology ensures we create timeless and sophisticated products. hansgrohe: innovative in any era since 1901.

hansgrohe: our name is your guarantee

Innovation

- **Revolutionary innovations**
- **Pioneers in the sanitation industry**
- **Ground-breaking technologies**

At hansgrohe, we don't just innovate, we revolutionise. Some of our product developments have made history in the industry and changed how people all over the world encounter water, every day. We care deeply about you and your enjoyment of our products, in both aesthetics and performance. We have our own dedicated research and development laboratory in the centre of the German Black Forest. Here, our industry experts have worked to produce more than 15,000 active patents, ensuring that hansgrohe remains an industry leader and achieving a TOP 100 award for Top Innovator 2018.

For more on innovation, see page 12

Design

- **More than 600 awards**
- **A design for every style**
- **International reference projects**

Design can be defined in a number of ways: shape, aesthetic, style. But, at hansgrohe, good design means more than just good looks. As well as world-class appearance, our influential designers also focus on quality and maximum customer benefit. It's our unwavering attention to detail that has earned more than 600 internationally renowned awards. From the big picture to the small details, we take every opportunity to make your bathroom experience the best it can be with our technical innovations. Whether it's Modern, Classic or Avant-garde, we have the perfect solution to suit any need and, most importantly, our timeless designs will outlive fast-paced fashion trends.

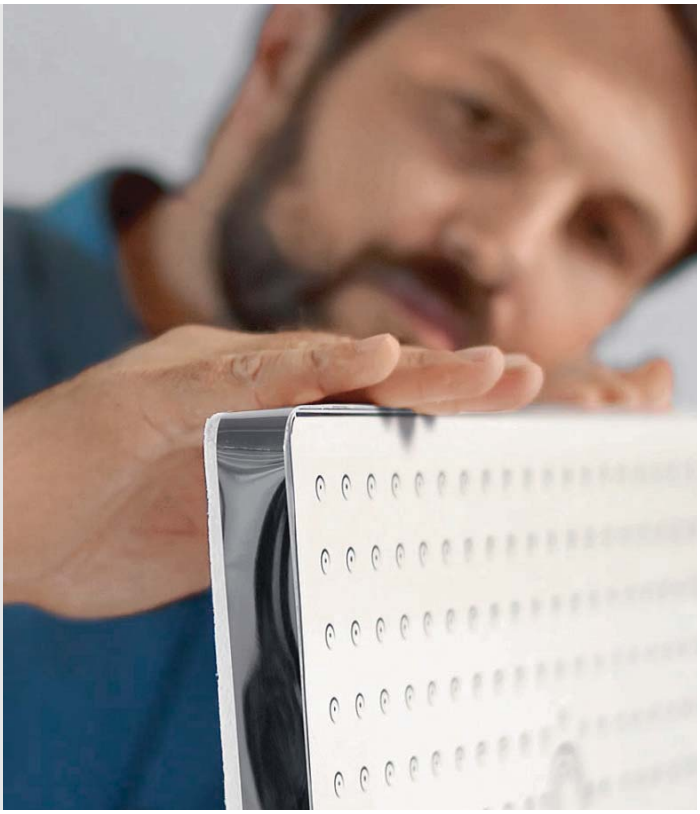

For more on design, see page 14

Quality

- **Experts since 1901**
- **Made in Germany**
- **5 year guarantee***

Since 1901, people all over the world have put their trust in hansgrohe's durable products from the heart of the German Black Forest. hansgrohe is synonymous with high-quality products of exceptional design, ease of use and intelligent functions. Since our foundation, 'Engineered in Germany' has been a recipe for success and remains an integral part of our philosophy. This level of German expertise is recognised as a guarantee of excellence and every one of our facilities works to the high standards that we set. As testament to this, we offer a 5-year guarantee* and hold spare parts for discontinued products for a further 15 years.

For more on quality, see page 16

Service

- **Contactable and reliable**
- **Informative and involved**
- **Plan and enjoy**

Customer satisfaction has, and always will be, our primary concern. At hansgrohe, we want to work in partnership with you to ensure the best possible solution. Being able to deliver top-quality, personal service to our customers at all times is a key part of how we operate as a company. No matter the question, problem or special request, we are here to help.

For more on service, see page 18

This guarantee applies to all hansgrohe products, with the exception of a few digital products in selected countries.

Looking ahead, going ahead

Innovation – overflowing with ideas

Without hansgrohe, the modern bathroom would be unrecognisable. Our company founder, Hans Grohe, revolutionised the space with his inventions, pioneering spirit and craftsmanship. His ground-breaking innovations include the hand shower, the shower rail, Select technology and the one-of-a-kind PowderRain spray. More than a century after the company was founded, meticulous detail is still our driving force. Our bathroom and kitchen specialists in the German Black Forest are never content with the status quo

1928
Hand shower

The first shower with a white porcelain handle. This hansgrohe innovation made showering affordable for many households for the first time.

1953
Shower bar Unica

Thanks to this revolutionary idea, hand showers could be mounted at a required height.

1968
Selecta

The world's first glass finish hand shower with adjustable spray modes.

1974
Tribel

First design award winning hand shower in many colours and with three spray types.

1981
ALLEGROH

The first mixer with the new lever handle, swivel spout and innovative ball mix technique.

1981
ALLEGROH

The first single lever kitchen tap with pull-out spray.

2007
EcoSmart

EcoSmart taps and showers consume up to 60% less water than conventional products. Climate protection starts in the bathroom.

2009
PuraVida

Pioneering design with DualFinish in white/chrome; international award winner thanks to the sculptural looks and technical features.

2011
ComfortZone

Various spout heights provide greater freedom of movement in the bathroom.

2011
Raindance Select

First Raindance hand shower with Select technology for spray changes.

2012
CoolStart

User-friendly, energy-saving technology where only cold water flows when the handle is in the central position.

2014
Metris

The world's first kitchen tap with Select function.

and are constantly striving to provide our ever-evolving customers with more attractive, more comfortable and more exhilarating products. We always seek to futureproof our innovations so that, not only our design will outlive fast-paced trends, but so our technology will too. With a wealth of exwperience behind us, the future never feels too far away.

1986
Aktiva

The first hand shower with the QuickClean anti-limescale function.

1987
Mistral Eco

New technology helps to save up to 50% water. This makes hansgrohe a 'green' industry pioneer.

1997
Boltic

Patented handle lock protects against handle wobbles – even after years.

2001
iBox universal

First and only basic set for all standard and thermostat solutions – a revolution in concealed installation.

2003
Raindance

The first hand shower with an XXL shower head, flat silhouette and short handle. The all-rounder becomes a trendsetter.

2004
Raindance Air

The first hand shower with AirPower technology. AirPower infuses water with air, makes droplets full-bodied and is water efficient.

2015
Talis Select

First basin mixer with Select technology. Water is turned on and off at the touch of a button.

2018
PowderRain

Spectacular showering with softly enveloping micro-droplets.

2019
CoolContact

Prevents the housing from heating with the controlled flow of cold water. For even safer showering.

2019
sBox Bath

Practical hose coiling system for a tidy look and more convenience.

2019
FinishPlus

High-quality finishes provide a variety of design options.

2019
Rainfinity

The ultimate in showering indulgence. The new dimension in showering.

Distinguished in many respects

Multi-award-winning design

Design isn't just a matter of taste. It's an attitude. The search for the most intelligent solution is always a goal for us. After all, design and functionality must go hand in hand in order to create products with stunning, extraordinary quality that redefine aesthetic standards. As such, we are constantly working on outstanding creations in collaboration with the Phoenix Design team, who have won a whole host of international awards. Our products are timeless, beautiful and highly functional. The awards that we receive year in, year out from international panels of experts make us a leading designer in the industry. Our products have already won more than 600 awards and 50 international design prizes, including the iF Design Award; one of the world's most prestigious design awards.

Phoenix Design has been shaping the face of hansgrohe for more than 30 years. The Stuttgart-based team exclusively curate designs for the entire shower and tap range. Over the past few decades, the team have been responsible for a long line of products featuring both technological and visual sophistications that will continue to enhance the beauty of water for years to come.

hansgrohe is all about revered design:

product design award

INNOVATIVE ARCHITECTURE best of best

INNOVATIVE INTERIOR winner

Best of the Best

DESIGN PLUS powered by: ISH

We received the first design award in our history in 1974 for the TRIBEL model; the first convertible hand shower with three different spray modes. Since then, numerous other international prizes have celebrated the successful combination of form and function in our products, as well as the highly sustainable electroplating method used to create the surface finishes on our showers and taps.

International reference projects

At home the world over

All over the world, developers and investors work hand in hand with architects and planners on sophisticated projects. They are constantly in need of intelligent and aesthetically appealing solutions for handling the essential element water. The mixers, showers and bathroom collections from the Black Forest lend top addresses that definite extra design and comfort: in impressive hotels and public buildings, in private residences and royal palaces, in exclusive sports clubs and in cruise ships and luxury yachts. Satisfyingly high standards

Quality – clear benefits to quality workmanship

Since day one, the enjoyment of our products has been one of our main aims; perfection in form and function is, and has always been, our standard. At hansgrohe, quality means one thing above all else: high-class workmanship. Always creating the highest quality products defines our approach to modern design, manufacturing and performance. We only use the best materials and manufacture our products using state-of-the-art technology alongside human expertise to transform them into items with consistent and long-term value. Every product is tested by trained and experienced staff before dispatch. hansgrohe workmanship guarantees reliable added value for you, as well as our retail and specialist trade partners.

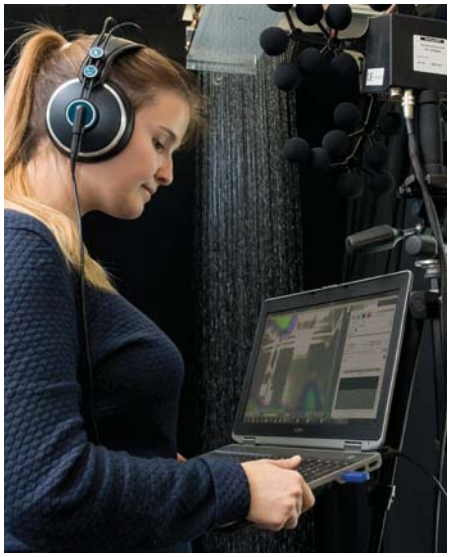

This guarantee applies to all hansgrohe products, with the exception of a few digital products in selected countries.

Firmly rooted in our home country
For almost 120 years, we've been loyal to our production site in Schiltach, Germany, and we remain one of the biggest employers in the region. Whilst our ambitions are global, our roots are local.

Inspiration on the doorstep
Tranquil lakes, clear streams and powerful waterfalls are all part of the German Black Forest's distinctive charm. We find fresh new ideas for innovative ways to work with water day after day here. Having the countryside on our doorstep shapes our mindset and constantly makes us more and more aware that we need to be responsible and sustainable whilst working with the most precious of resources. hansgrohe has spent decades as a pioneer and trailblazer of water and energy-saving technologies, as well as environmentally-friendly production.

Water in its best form
Our experts develop the best spray for each product in our very own sound and spray laboratory. They always consider two key things that they know are important to you – ease of cleaning and water-efficiency.

Tradition meets innovation
Here at hansgrohe, we can build on the experience of three generations. With German engineering on our side, we can look to the future to create timeless, quality products using the latest production technologies.

Ultimately, it's the human factor that counts
hansgrohe produces to the highest technical standard, but the benchmark for our standards is set by people. So, every single product is carefully checked by a real person before it leaves the German Black Forest.

Genuine added value

Service – contactable and reliable

Customer satisfaction is always a priority at hansgrohe; we always offer our customers the best quality and service tailored to them as an individual. You can always rely on qualified technical and sales advice from our employees wherever you are, at all times. With hansgrohe you get service from professionals, for professionals.

Field Service

Our sales team will be by your side throughout your journey. A member of the team will always be on hand to answer any and all questions regarding our products.

hansgrohe sponsoring

From high-performance to ultimate relaxation

Our products can help you to focus on the challenges that come with a top performance by offering you a way to rest and recuperate after a strenuous day. We understand that athletes appreciate the incentive and indulgence of a hard-earned shower showering after a hard workout. Since 2017, hansgrohe has been the official title sponsor of the world-class BORA-hansgrohe cycling team who wow crowds all over the world, just like our products. Our team have been involved in testing and developing products to offer our athletes a showering indulgence that matches their peak performance. Find out where and when our riders will be racing at **BORA-hansgrohe.com** or on the hansgrohe and BORA-hansgrohe team social media pages.

SHOWERS AND SHOWER CONTROLS

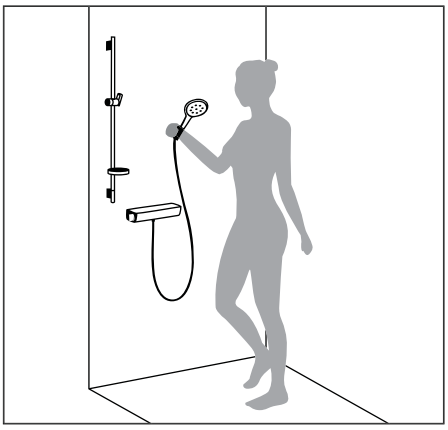

The wide range of products that fulfils all requirements

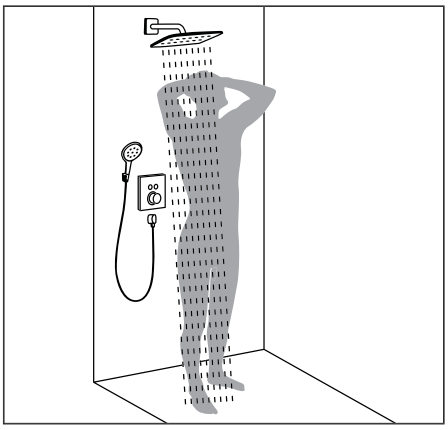

Shower installations

As individual as your customers

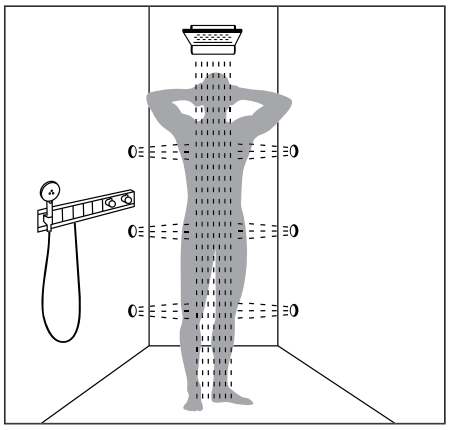

When it comes to showering, everyone is unqiue. So, we offer a variety of shower combinations to make any wish a reality: from a simple overheard shower right through to a full set that includes a thermostatic mixer, hand shower and overhead shower. Our installation options are also flexible. Whether you prefer concealed or exposed installation, we have the perfect solution. We are also able to provide all-in-one showerpipe and shower panel systems to get more out of your shower, even in renovation projects.

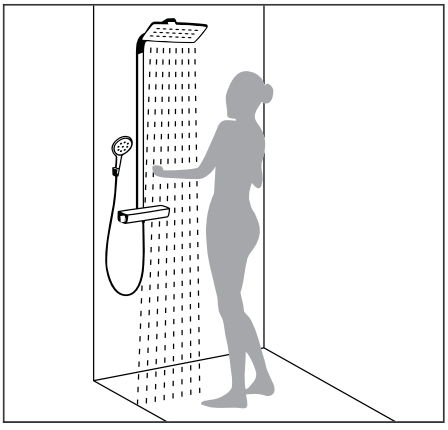

Hand shower or shower set
The basic solution is easy to install and gives you an indulgent shower experience.

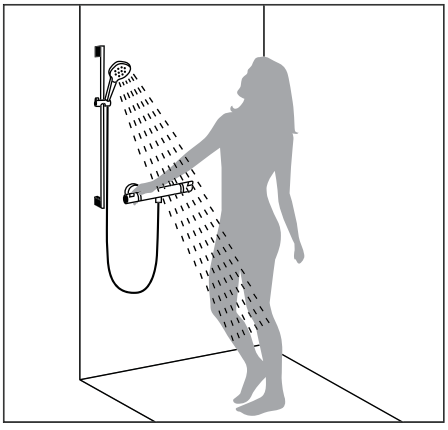

Overhead shower
For shower rain with the ability to move freely. The variants with extra large spray discs deliver extra comfort.

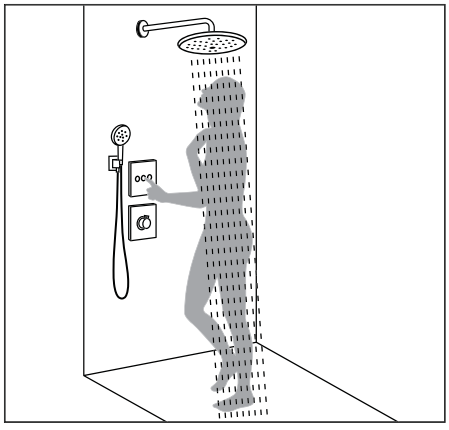

Shower family
The concealed solution for customised shower design. From the waterfall to the all-round indulgence of side showers.

Showerpipe
The all-in-one system with overhead shower, hand shower and thermostatic mixer. The perfect solution for simple bathroom renovation.

Exposed thermostatic mixers
Exposed solutions by hansgrohe can be installed with little effort to add a technical and visual enhancement to bathrooms.

Concealed pre-fab sets
The minimalist shower control nestles up flat against the wall. This creates an ultra-modern, uncluttered look.

New: shower innovations for the whole family

Feel-good design for all ages

Our new showers and shower controls will give your entire family everything they need. Our innovative Rainfinity range can be fully adapted to you and your needs so that everybody can relax in their own unique way. And with Croma E, we offer affordable products with increased safety options for an all-round modern family bathroom.

Rainfinity: Reach peak relaxation with Rainfinity: a range of showers that drowns out the competition.

Rainfinity: Thanks to the innovative design, the spray softly envelops your body like a coat made of a thousand tiny drops.

Rainfinity: Simply choose between PowderRain, Intense PowderRain and MonoRain at the touch of a button.

Rainfinity: Treat yourself to the ultimate showering indulgence with the innovative and intuitive concealed control options such as ShowerSelect and RainSelect.

Croma E: The large overhead shower with the luxuriously soft RainAir spray transforms showering into an adventure for the little ones.

Croma E: It's child's play to use and child safe to operate with the CoolContact and SafetyStop functions.

Ecostat E: The CoolContact cooling technology stops the thermostatic mixer's housing on the Ecostat E getting too hot.

PowderRain: Pamper your skin with thousands of fine and silky micro-droplets. The fine spray will transform your bathroom into an oaisis of relaxation.

Shower design with hansgrohe

The modern way of showering

The bathroom reflects the individual personality of the user. That is why hansgrohe offers a wide selection of different ranges, designs, shapes and colours for just the right combination in the shower. From large bathrooms to small ones, modern to classic and from new-builds to refurbishments: there is the right offer for discerning users of any private or project bathroom. Whether exposed or concealed installation or an innovative exposed or concealed solution, if it's hansgrohe then impressive quality is always guaranteed. Modern technology also provides efficiency, saves water and ensures the right showering experience in any format.

Concealed installation

Space saver: here, the shower and room merge together. Thanks to the seamless integration of the shower fitting, this concealed solution provides more space and greater freedom of movement. Elegantly understated and exclusive at the same time, it can be integrated in any bathroom.

Exposed installation

Elegant: the exposed solution with thermostat and hand shower is the classic shower installation. However, it can also be reinterpreted, for instance with a Showerpipe, the complete system with thermostat, overhead and hand shower. Particularly attractive for modernisations because the Showerpipe can be fitted to existing connections.

Exposed/concealed installation

Practical: With the unique combination of exposed and concealed installation, the thermostat can be fitted directly to the water connections. The connection to the overhead shower is hidden away behind the wall. Innovative and functional design in one with no irritating elements.

More indulgence with a range spray types by hansgrohe

Spray types – something for every shower

Everyone showers differently, and everyone has different expectations of the perfect shower. Some think it not only as a necessity but also a way to relax. Others value an energising, invigorating shower experience. No matter what your customers' wishes, every one of them will find the right hand or overhead shower and the right spray type in the hansgrohe range. The Select products promise your customers particular convenience. They can then select each spray type easily at the push of a button.

PowderRain
Revolutionise your daily shower experience with PowderRain and transform your bathroom into an oasis of relaxation. Instead of only one spray outlet per nozzle, PowderRain has six fine openings that create thousands of fine and silky micro-droplets.

Intense PowderRain
An intense series of fine micro-droplets for sensational showering. Intense PowderRain is extraordinarily effective thanks to the increased number of droplets for a firm, yet velvety soft, spray. As the micro-droplets weigh less, the splash effect is also reduced.

Simply scan the code and experience the spray patterns in the video.

Rain and Rain XL
The openings on the hand or overhead shower may be small, but their effect is all the greater: The rain spray revitalises and refreshes with its pleasant power enveloping the body. It is therefore ideal, for example, for rinsing out shampoo quickly and thoroughly.

RainAir and RainAir XL
If you are looking for relaxation and you want your soul to be pampered by the water. Just the right thing for this is a hand or overhead shower with the soft, luxurious RainAir spray that provides air-enriched drops from a large, wide jet, to wash your cares away.

IntenseRain
Rinsing out shampoo is easy with the strong IntenseRain water spray. Perfect for setting yourself up for the day. The IntenseRain spray not only rinses out shampoo, but it also washes morning tiredness down the drain – for a refreshing start to the day.

TurboRain
The all-purpose tool for quick results: The revitalising TurboRain spray lives up to its name. The pure power of the most powerful of all Rain sprays provides a refreshing shower experience. For those who like things to be quick and straightforward.

SoftRain
The gentle SoftRain water spray gently wraps itself around the body. A treat for the skin – and for the soul, of course. Whether a daily shower or for relaxation, the SoftRain spray is always the right choice. Its strengths come into their own in a quick shower in the morning and in a long soak in the bath after a hard day.

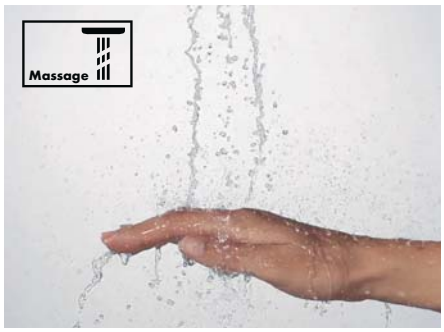

Mix
Gentle and dynamic at the same time. The mix spray combines the rich, soft RainAir spray with the strong, revitalising CaresseAir spray. Soft drops wrap themselves around the body, while a warm targeted water flow in the middle massages the skin. The perfect combination for daily showering pleasure.

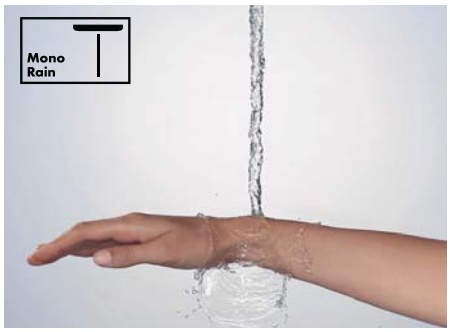

Whirl
The concentrated Whirl spray simply washes away the exertions of the day. Whether hand or overhead shower: Three single sprays revolve around each other for an intense massage effect that dissolves tension.

CaresseAir
Five strong single sprays combine in a revitalising, strong massage spray for pleasant relaxation. Just the thing after exercise or a hard day at work – good as new in minutes.

Massage
A concentrated spray that simply washes the day's stress away. The targeted spray easily relaxes tense areas. The innovative circular arrangement of the sprays turns the shower into a mobile wellness treatment for the home bathroom.

MonoRain
A targeted, soothing relaxation spray from the centre of the shower. The lightness of the Mono spray helps you to unwind, making it the perfect spray for relaxing.

RainFlow
An overhead shower with the clear, beautifully shaped RainFlow cascading spray brings the waterfall experience to the bathroom. This lets you enjoy water in its natural form, as a cascade from above on the neck and shoulders. This can be directed specifically to these parts of the body and tension quickly disappears. This is a trend especially in the wellness bathroom.

RainStream
The new RainStream of single sparkling jets is a crowning achievement of the hansgrohe spray developers. These special overhead shower sprays do not constrict, but remain unvaryingly revitalising and intense right down to the floor. The result: a new, revitalising shower experience, irrespective of the users height.

You'll find videos on all the spray types at **youtube.com/hansgrohe**
The spray types of the showers are identified by the icons.

Simple and intelligent

Technologies – intuitive, fast and economical

Select: showering pleasure at the touch of a button.

Because sometimes pressing is easier than turning. With our innovative Select technology, a simple touch of a button on the shower or shower control is all it takes to change the spray mode or turn the water on/off for even more comfort while showering, no matter your age.

Advantages and benefits

- Intuitive control at the touch of a button
- More comfort for every generation
- Mechanical construction for permanent functional safety

Select for hand and overhead showers

Hand showers: Thanks to the revolutionary mechanical construction, the spray can be changed, simply by touching a button. The Select button confirmed its durability in a long-term test that operated it 90,000 times.

Overhead showers: The innovative changeover unit in the overhead shower makes it easy to change the spray following the Select principle. Purely mechanically, at the touch of a button.

Select for exposed and concealed controls

RainSelect: Fully integrated system consisting of one basic and one finish set. Up to five users can be conveniently selected at the touch of a button.

ShowerTablet/Showerpipe: Depending on the design, you can switch between users at the touch of a button. Raised buttons indicate which user is currently active.

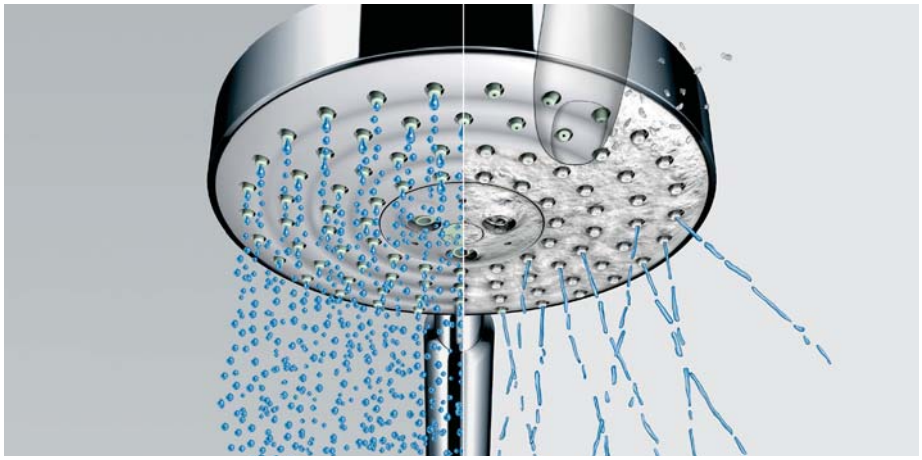

ShowerSelect pre-fab set: Easy control of up to 4 functions at the touch of a button – even at the same time. Thanks to the optional button extension, operation is just as easy for users with limited mobility since the buttons then protrude.

Scan the code and learn more about hansgrohe technologies.

QuickClean: fast anti-limescale function

QuickClean means flexible silicone inserts on the aerators. Dirt and limescale deposits can be simply rubbed off with your finger with no need to use cleaning products, helping to extend your shower's lifespan.

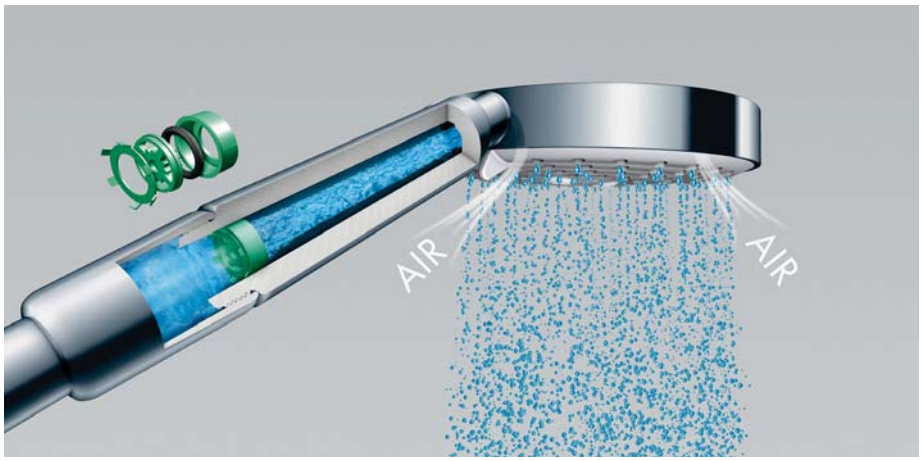

Advantages and benefits

- Fast and easy cleaning
- Ultra high quality and tear resistant silicone
- For a long lifetime and functionality

EcoSmart: water and energy savings

EcoSmart technology means that our showers use up to 60 % less water than conventional products through aeration, saving not just water, but energy too.

Advantages and benefits

- Up to 60 % less water consumption
- Hot water savings for less energy consumption – so less CO_2 emissions and lower costs

How much water and energy can be saved is calculated by the savings calculator at:
pro.hansgrohe-int.com/savings-calculator

Added indulgence in the shower

Technologies – bigger, safer and more efficient

AirPower: more volume, more pleasure

Comfort and efficiency don't have to be mutually exclusive and our AirPower showers prove it. An ample supply of air is sucked in via the spray disc of your shower, making the droplets fuller, lighter and softer, increasing water efficiency at the same time.

Air Power

Advantages and benefits

- Fuller, lighter and softer drops – pure shower pleasure
- Fewer splashes, so less cleaning
- Larger water volume for greater water efficiency

XXLPerformance: great shower pleasure

Enjoy even greater showering indulgences with the XXLPerformance. With air-enriched, plump droplets, the water feels like warm summer rain, offering glorious relaxation with astoundingly low water consumption.

XXL Performance

Advantages and benefits

- XXL showering
- High water efficiency – a uniformly distributed spray for an incomparable showering experience

Scan the code and learn more about hansgrohe technologies.

CoolContact: safe and indulgent showering

The CoolContact cooling technology stops the thermostatic mixer's housing getting too hot. So there is no more need to keep a safe distance from the taps, making showering even more care- free. It also means there is no more risk of children burning their delicate hands.

Cool Contact

Advantages and benefits

- Innovative cooling technology
- More safety in the bathroom, for children too
- Care-free showering

Rainmaker Select Overhead shower 580 3jet	White/Chrome	24001400	2,520.30
	Black/Chrome	24001600	2,520.30

Quick Clean · XXL Performance

- consists of: overhead shower, wall connector
- spray type: Rain, RainFlow, MonoRain
- shower head size: 580 x 260 mm
- flow rate Rain spray (at 3 bar): 17 l/ min
- flow rate Mono spray (at 3 bar): 20 l/ min
- flow rate RainFlow spray (at 3 bar): 17 l/ min
- the 3 spray zones must be controlled via 3 valves or a diverter valve with 3 outlets
- easy cleanable glass spray disc
- material spray disc: safety glass
- spray disc removable for cleaning
- installation: wall-mounted - for installation on iBox
- connection dimension: DN15/DN20

Water saving EcoSmart version:

· **Rainmaker Select** Overhead shower 580 3jet EcoSmart 9 l/ min	White/Chrome	24011400	2,520.30

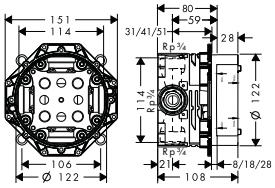

Required parts:

· Basic set iBox universal		01800180	130.80

Optional parts:

· **ShowerSelect Glass** Valve for concealed installation for 3 functions	White/Chrome	15736400	482.30

You will be able to satisfy any of your customers' requirements – and help them keep to their budgets – with hansgrohe's complete concealed range for between one and four functions. The choice starts with the operation: are the showers and spray types to be controlled conventionally by turning, or with complete ease at the touch of a button? Your customers also have complete freedom of design: the ShowerSelect is now also available in a round design and as a mixer. Ecostat thermostats are available as a circle, and now also as a square with rounded corners. Plenty of options for attractive installations that blend beautifully with the bathroom.

Electronic basin mixer with temperature control battery operation

finish	code no.	Euro
Chrome	15170000	839.30
White/Chrome	15170400	839.30

Air Power · Eco Smart · Comfort Zone

- ComfortZone 130
- projection 129 mm
- flow rate at 3 bar: 5 l/min
- theft-proof aerator
- temperature limitation adjustable
- temperature adjustable via mixer lever on the side
- non-return valve
- suitable for continous flow water heaters
- infrared sensor technology
- automatic environmental adjustment of infrared sensor
- adjustable optical range of infrared sensor (2 settings)
- battery condition indicator available
- battery operation 6 V (Lithium battery, lifetime approx. 2 years, battery included in scope of delivery)
- hygiene rinse activatable (automatic water flow for 10 seconds every 24 hours following the last operation)
- permanent rinse activatable (single water flow for 180 seconds, suitable for thermal disinfection)
- manual water stop for washbasin cleaning
- performance may be impaired if the sensor is obscured by the design of the wash basin, or when the wash basin is oversized and the distance between sensor and the wash basin edge is larger than 75 mm
- functional restriction due to too large distance
- connection dimension: DN15
- TÜV certified
- dirt filters in the connection hoses
- two filter units with fine filter to protect from incoming dirt, for assembly on existing angle valves, filter element can be removed and cleaned

Single lever bath mixer floor-standing

Chrome — 72412000 — 1,512.20

Air Power — Quick Clean

- consists of: single lever bath mixer floor standing, baton hand shower, shower hose, shower holder
- projection 245 mm
- connection type: basic set
- spray type mixer: normal spray
- spray type hand shower: Rain, MonoRain
- flow rate at 3 bar: 20 l/min
- ceramic cartridge
- diverter with automatic resetting
- non-return valve
- connection dimension: DN15

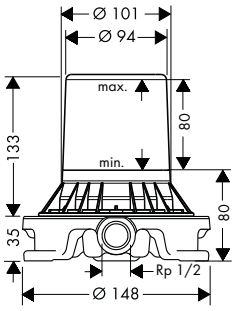

Consisting of:

- Shower hose 125 cm (# 28272XXX)

Required parts:

- Basic set for mixers floor-standing — 10452180 — 437.90
- Sealing foil for basic set bath mixer floor-standing — 96441000 — 118.90

Basic set for mixers floor-standing

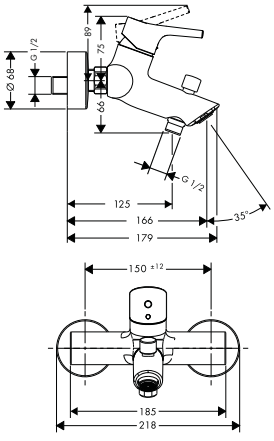

10452180 — 437.90

- for mounting on unfinished floor
- suitable for single lever bath mixer, single lever basin mixer and bath spout floor-standing
- connection dimension: DN15

Optional parts:

- Sealing foil for basic set bath mixer floor-standing — 96441000 — 118.90

Single lever bath mixer for exposed installation

Chrome — 72400000 — 198.20

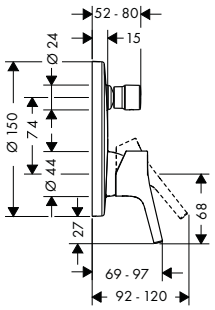

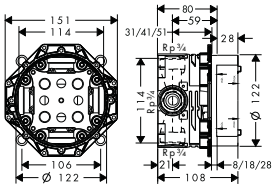

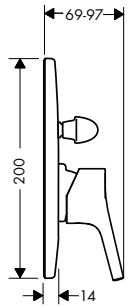

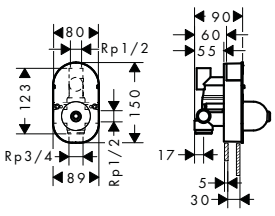

Air Power — Quick Clean

- projection 166 mm
- connection type: s-shaped connections
- centre distance: 150 ± 12 mm
- spray type mixer: normal spray
- flow rate for bath spout at 3 bar: 20 l/min
- flow rate of hand shower at 3 bar: 14 l/min
- ceramic cartridge
- temperature limitation adjustable
- diverter with automatic resetting
- intrinsically safe against backflow
- with silencer
- suitable for continous flow water heaters
- connection dimension: DN15

Alternative products:

- Single lever bath mixer for exposed installation with centre distance 15.3 cm — Chrome — 72401000 — 216.60

Measurements within scale drawings are in mm.

Single lever basin mixer with pop-up waste set

Chrome 32020000 200.20

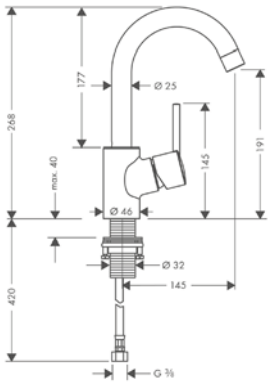

Air Power · Eco Smart · Quick Clean · Comfort Zone

- consists of: single lever basin mixer, waste set
- ComfortZone 70
- projection 100 mm
- normal spray
- flow rate at 3 bar: 5 l/min
- ceramic cartridge
- temperature limitation adjustable
- suitable for continuous flow water heaters
- pop-up waste set G 1¼
- material waste set: metal
- connection type: G ⅜ connections
- connection dimension: DN15

Alternative products:

- Single lever basin mixer without waste set — Chrome 32031000 191.70
- Single lever basin mixer for vented hot water cylinder with pop-up waste set — Chrome 32032000 259.60

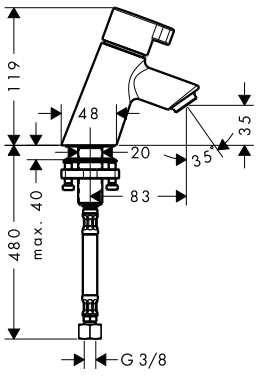

Single lever basin mixer 200 with swivel spout and pop-up waste set

Chrome 32070000 299.50

Air Power · Eco Smart · Quick Clean · Comfort Zone

- consists of: single lever basin mixer, waste set
- ComfortZone 200
- projection 145 mm
- swivel range 360°
- normal spray
- flow rate at 3 bar: 5 l/min
- ceramic cartridge
- temperature limitation adjustable
- suitable for continuous flow water heaters
- pop-up waste set G 1¼
- material waste set: metal
- connection type: G ⅜ connections
- connection dimension: DN15
- handle position on the side: bottom-side at the base body (not suitable for wash bowls)

Pillar tap 40 without waste set

Chrome 13132000 138.70

Air Power · Eco Smart · Quick Clean · Comfort Zone

- ComfortZone 40
- projection 83 mm
- normal spray
- flow rate at 3 bar: 5 l/min
- ceramic valves 90°
- for cold water connection
- connection type: G ⅜ connections
- connection dimension: DN15

Measurements within scale drawings are in mm.

Pillar tap 70 without waste set

Chrome 31130000 97.10

Air Power · Eco Smart · Quick Clean · Comfort Zone

- ComfortZone 70
- projection 101 mm
- normal spray
- flow rate at 3 bar: 5 l/min
- ceramic cartridge
- for cold water connection
- connection type: G ⅜ connections
- connection dimension: DN15

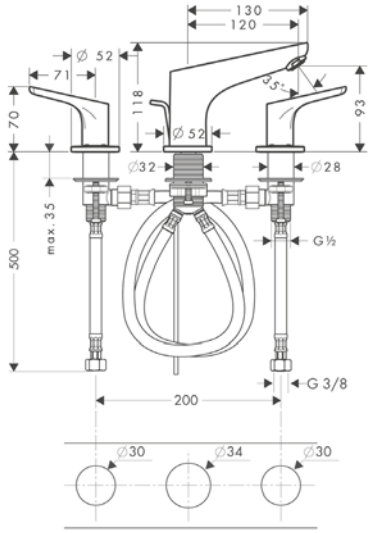

Tap wall-mounted without waste set

Chrome 31131000 123.30

Air Power · Eco Smart

- projection 195 mm
- normal spray
- flow rate at 3 bar: 5 l/min
- ceramic valves 90°
- for cold water connection
- connection type: G ½
- connection dimension: DN15

3-hole basin mixer 100 with pop-up waste set

Chrome 31937000 246.60

Air Power · Eco Smart · Quick Clean · Comfort Zone

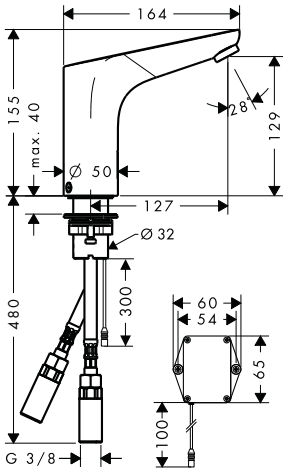

- consists of: 3-hole basin mixer, waste set
- ComfortZone 100
- flow rate at 3 bar: 5 l/min
- ceramic valves hot/ cold 90°
- suitable for continuous flow water heaters
- pop-up waste set G 1¼
- material waste set: metal
- connection type: G ⅜ connections
- connection dimension: DN15

Electronic basin mixer 130 with temperature control battery operation	Chrome	31171000	472.70

- ComfortZone 130
- projection 127 mm
- flow rate at 3 bar: 5 l/min
- theft-proof aerator
- temperature limitation adjustable
- temperature adjustable via mixer lever on the side
- non-return valve
- suitable for continous flow water heaters
- infrared sensor technology
- automatic environmental adjustment of infrared sensor
- adjustable optical range of infrared sensor (2 settings)
- battery condition indicator available
- battery operation 6 V (Lithium battery, lifetime approx. 2 years, battery included in scope of delivery)
- hygiene rinse activatable (automatic water flow for 10 seconds every 24 hours following the last operation)
- permanent rinse activatable (single water flow for 180 seconds, suitable for thermal disinfection)
- manual water stop for washbasin cleaning
- performance may be impaired if the sensor is obscured by the design of the wash basin, or when the wash basin is oversized and the distance between sensor and the wash basin edge is larger than 75 mm
- functional restriction due to too large distance
- connection dimension: DN15
- TÜV certified
- dirt filters in the connection hoses
- two filter units with fine filter to protect from incoming dirt, for assembly on existing angle valves, filter element can be removed and cleaned

Single lever bath mixer for exposed installation	Chrome	71040000	123.90

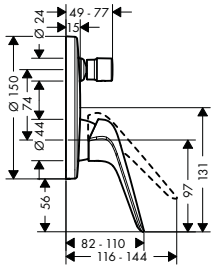

- projection 192 mm
- connection type: s-shaped connections
- centre distance: 150 ± 12 mm
- spray type mixer: normal spray
- flow rate for bath spout at 3 bar: 19 l/min
- flow rate of hand shower at 3 bar: 16 l/min
- ceramic cartridge
- min. operating pressure: 1 bar
- max. operating pressure: 10 bar
- temperature limitation adjustable
- diverter with automatic resetting
- non-return valve
- with silencer
- suitable for continous flow water heaters
- connection dimension: DN15

Alternative products:

· Single lever bath mixer for exposed installation with centre distance 15.3 cm	Chrome	71041000	130.10
· Single lever bath mixer for exposed installation with 2 flow rates	Chrome	71042000	123.90

Single lever bath mixer for concealed installation	Chrome	71045000	117.80

- connection type: basic set
- ceramic cartridge
- min. operating pressure: 1 bar
- max. operating pressure: 10 bar
- temperature limitation adjustable
- diverter with automatic resetting
- with silencer

Alternative products:

· Single lever bath mixer for concealed installation with integrated security combination according to EN1717	Chrome	71046000	183.30

Required parts:

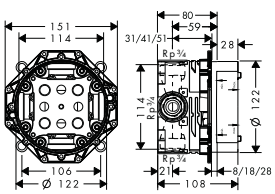

· Basic set iBox universal		01800180	130.80

Optional parts:

· Extension element 15 cm	Chrome	13597000	44.70

Basic set iBox universal		01800180	130.80

- suitable for all shower, bath tub and thermostat finish sets for concealed installation

Electronic basin mixer with temperature control battery operation	Chrome	15170000	839.30
	White/Chrome	15170400	839.30

Air Power · Eco Smart · Comfort Zone

- ComfortZone 130
- projection 129 mm
- flow rate at 3 bar: 5 l/min
- theft-proof aerator
- temperature limitation adjustable
- temperature adjustable via mixer lever on the side
- non-return valve
- suitable for continous flow water heaters
- infrared sensor technology
- automatic environmental adjustment of infrared sensor
- adjustable optical range of infrared sensor (2 settings)
- battery condition indicator available
- battery operation 6 V (Lithium battery, lifetime approx. 2 years, battery included in scope of delivery)
- hygiene rinse activatable (automatic water flow for 10 seconds every 24 hours following the last operation)
- permanent rinse activatable (single water flow for 180 seconds, suitable for thermal disinfection)
- manual water stop for washbasin cleaning
- performance may be impaired if the sensor is obscured by the design of the wash basin, or when the wash basin is oversized and the distance between sensor and the wash basin edge is larger than 75 mm
- functional restriction due to too large distance
- connection dimension: DN15
- TÜV certified
- dirt filters in the connection hoses
- two filter units with fine filter to protect from incoming dirt, for assembly on existing angle valves, filter element can be removed and cleaned

Stainless steel built-in sinks

	finish	code no.	Euro
S711-F450 Built-in sink 450	Stainless Steel	43301800	611.10

- cut-out dimensions: 530 x 480 mm
- material: stainless steel
- number of bowls: 1 main bowl
- predrilled tap hole
- sink depth: 190 mm
- cabinet size: 60 cm
- type of installation: flat on the countertop (self-rimming) or flush-mount installation
- position overflow: on the right side of the bowl
- tap ledge reinforcing for a tight and stable seating of the kitchen mixer
- corner radius: 10 mm
- waste set not included - please order one waste set from the required parts

Required parts:

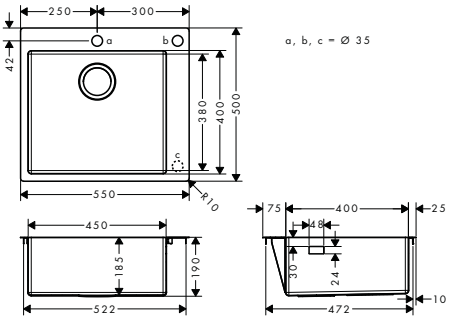

· D14-10 Manual waste and overflow set for single bowl	Stainless Steel	43921800	25.00

Optional parts:

· F15 Cutting board walnut		40960000	124.50
· F16 Cutting board oak		40961000	93.40
· F17 Mobile drainboard	Stainless Steel	40962800	81.00

S4111-F340 Built-in sink 340/400 with drainboard

Stainless Steel | 43340800 | 320.00

- cut-out dimensions: 895 x 485 mm
- Manual waste set included
- material: stainless steel
- number of bowls: 1 main bowl
- with drainage
- tap hole for drilling is predefined (see scale drawing)
- orientation: reversible
- sink depth: 210 mm
- cabinet size: 45 cm
- type of installation: flat on the countertop (self-rimming) or flush-mount installation
- position overflow: on the side of the bowl under drainboard
- tap ledge reinforcing for a tight and stable seating of the kitchen mixer
- corner radius: 70 mm

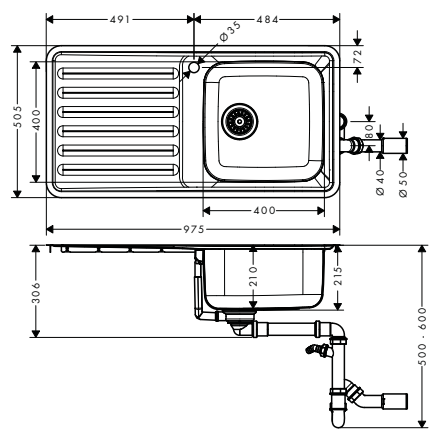

S4113-F340 Built-in sink 340/400 with drainboard

Stainless Steel | 43337800 | 340.00

- cut-out dimensions: 895 x 485 mm
- Automatic waste set included
- material: stainless steel
- number of bowls: 1 main bowl
- with drainage
- tap hole and hole for pop-up waste control are pre-drilled
- orientation: reversible
- sink depth: 210 mm
- cabinet size: 45 cm
- type of installation: flat on the countertop (self-rimming) or flush-mount installation
- position overflow: on the side of the bowl under drainboard
- tap ledge reinforcing for a tight and stable seating of the kitchen mixer
- corner radius: 70 mm

S4111-F400 Built-in sink 400/400 with drainboard

Stainless Steel | 43341800 | 340.00

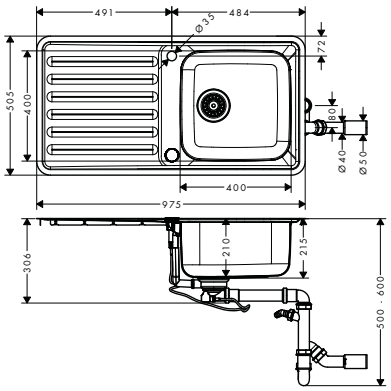

- cut-out dimensions: 955 x 485 mm
- Manual waste set included
- material: stainless steel
- number of bowls: 1 main bowl
- with drainage
- tap hole for drilling is predefined (see scale drawing)
- orientation: reversible
- sink depth: 210 mm
- cabinet size: 50 cm
- type of installation: flat on the countertop (self-rimming) or flush-mount installation
- position overflow: on the side of the bowl under drainboard
- tap ledge reinforcing for a tight and stable seating of the kitchen mixer
- corner radius: 70 mm

General Terms and Conditions

I. Scope

1. These general terms and conditions (**AGB**) of Hansgrohe SE (**Hansgrohe**) apply, unless otherwise stated, to all purchase and work and materials contracts as well as other orders (**Order**) between Hansgrohe and customers who are not consumers in accordance with Section 13 of the German Civil Code (BGB) (**Buyer**). Differing general terms and conditions of the buyer are not recognised even if they are not expressly contradicted.
2. The general terms and conditions also apply for future business relations with the same buyer even if they are not expressly agreed again. Unless otherwise stipulated, the general terms and conditions are valid as amended at the time the buyer places the order or also in the version published most recently in text form.

II. Contract closing

1. The offers of Hansgrohe are subject to change unless they are expressly identified as binding in the offer text. The order placed by the buyer is considered a binding contractual offer that remains valid for at least 8 days in the absence of a deviating provision. The contract only comes into effect if Hausgrohe provides the buyer with written (including text form) confirmation in relation to the order.
2. Hansgrohe only assumes a guarantee to end consumers in accordance with a separate guarantee declaration that is designated as such.
3. The documents such as figures and drawings provided by Hansgrohe as part of the contract negotiation stage as well as the technical information and specifications made by Hansgrohe are binding. Technical, constructional or other changes to the order or work are permitted if and to the extent that they are reasonable for the buyer.
4. Individual agreements including trade terms have priority over the general terms and conditions. A written contract or the written confirmation of Hansgrohe is essential for the content of these agreements.

III. Scope and place of delivery, transport and transfer of risk

1. A delivery ex works or a delivery to another shipping location of Hansgrohe disclosed to the buyer is generally agreed and this location is the place of performance of the delivery and any supplementary performance. The risk is transferred to the buyer at the latest upon the product being dispatched. If the delivery is delayed due to the behaviour of the buyer or as a result of a circumstance beyond Hansgrohe's control, the risk is transferred to the buyer upon receiving notification that the products are ready for shipment.
2. Unless otherwise stipulated, the buyer must take out travel insurance at his/her own expense and cost based on standard transport insurance conditions that covers the risk of transporting the product that is part of the order from the shipping location to the agreed destination. The buyer bears the transport costs in accordance with Point V.5.
3. In the event that an agreement is reached on trade terms, the latest version of Incoterms shall apply.
4. Hansgrohe is entitled to partial deliveries and invoices at an acceptable level prior to the expiry of the delivery period.
5. If the delivery or shipment of the delivered item is delayed at the request of the buyer or as a result of circumstances that the buyer bears the risk and responsibility for, the buyer must refund Hansgrohe the costs incurred as a result of storing the item and the accrued interest on the capital deployed for the delivered item. In the case of storage by Hansgrohe, the entitlement amounts to at least 0.5% of the still outstanding invoice amount for each outstanding month, starting with the month after notice has been given that the products are ready for shipment. The customer still retains the right to prove that no damage or substantially less damage has occurred. However, after having set a commensurate subsequent delivery term and after the unsuccessful expiry of this term, Hansgrohe is entitled to use the delivered item for another purpose and to deliver a replacement item to the buyer subject to a reasonably extended deadline or to withdraw from the agreement.
6. Hansgrohe will procure that the products shipped by Hansgrohe to the buyer comply with the laws and regulations of the country / countries designated by the buyer. In case the buyer - after receipt of the products - exports the products to third countries it is the obligation of the buyer to make sure that the products comply with the applicable local laws and regulations of such countries with regard to the products. If, however, the buyer chooses to export products to third countries, the buyer is solely responsible for any and all liability resulting from any non-compliance of the products.

IV. Delivery term and operational disruptions

1. Delivery terms start to apply at the earliest once all documentation which is required for determining the content of the order has been received if the buyer has to obtain this documentation according to the agreement and upon receipt of the down-payment. A delivery term is complied with if the shipment is dispatched within the deadline and the buyer has been notified that the products are ready for shipment.
2. Delivery terms are extended in the event of circumstances occurring which Hansgrohe or its suppliers are not responsible for and which do not have a substantial influence on the production or delivery of the product (e.g. labour disputes, force majeure and other operational breakdowns that are beyond a party's control) for the duration of the operational disruption. Hansgrohe is obligated to inform the buyer of the anticipated duration of the operational disruption and to state a new delivery date. If the product can also not be delivered within the new delivery period, both parties are entitled to withdraw from the agreement in whole or in part; any payment already made by the buyer is immediately refunded. Rights to demand compensation in lieu of performance in accordance with Point X. and the statutory rights of Hansgrohe, especially if a party is no longer obligated to perform its obligations (e.g. due to impossibility), remain unaffected.
3. The conditions for the delay in delivery are based on the statutory provisions irrespective of the existing regulations. Deviating from this however, a written warning is required from the buyer in all cases.

V. Prices and subsidiary expenses

1. Deliveries are made at current prices when the contract is concluded in accordance with the order confirmation from Hansgrohe. All prices apply ex works / dispatch location. All prices are quoted in euros unless otherwise stated and other additional expenses (e.g. installation and instruction costs), statutory value added tax and other statutory fees (e.g. duties, fees) are disclosed at the currently prevailing rate.
2. Hansgrohe reserves the right to increase fixed prices for a period of more than 4 months if cost increases, especially those owing to collective wage agreements, marketable cost prices or material price increases occur after the conclusion of the agreement. These prices are demonstrated to the customer on request.
3. Hansgrohe calculates a minimum quantity surcharge of EUR 10 for an order value of below EUR 50. Purchase quantities that are smaller than the stipulated packaging units are processed at a surcharge of 10% on the net product value.
4. If the delivery is made to a third party, a surcharge of 10% on the net product value is calculated.
5. Orders with a net product value exceeding EUR 750 are dispatched carriage paid, while the freight costs for a net product value below EUR 750 are charged to the customer in the invoice. Express costs and fees for posted goods shipments are always charged to the customer.

VI. Payment and default

1. As stipulated in the invoice, payments must be made without any deduction immediately after receiving said invoice and delivering the product to Hansgrohe. Hansgrohe is however authorised to carry out the delivery in question in whole or in part at any time against prepayment. A proviso to this effect is asserted at the latest at the time the order is confirmed. Hansgrohe expressly reserves the right to accept cheques. Cheques are only accepted on account of payment and only apply as a payment when honoured. All payments shall be made free of charge. The buyer bears the discount, collection and other bank charges for cheques without express agreement. Payments are initially set off against costs, then against interest and then used to settle the oldest principal debt.
2. In the event of a default, default interest at the statutory rate, at least 9% per year, is calculated; it remains possible to provide proof of less damage at the level of the statutory interest rate.
3. The buyer shall only be entitled to offset claims or retention rights in relation to the claims of Hansgrohe if the counterclaim is uncontested or a final decision has been reached. This does not apply if the counterclaim relates directly to the main obligation of Hansgrohe from the same agreement.
4. The assignment of claims is subject to approval from Hansgrohe.

5. If it becomes evident after concluding the agreement or delivering the product that the buyer is not or is no longer creditworthy, e.g. enforcement measures are being initiated against him/her, due invoices are not being paid despite receiving a reminder or any other capital deterioration occurs, Hansgrohe can immediately assert claims which are not yet due or such claims for which a cheque has been provided. In these instances, Hansgrohe can request an advance payment, a collateral security or a delivery that will only be carried out based on cash on delivery for the product that has yet to be delivered. If the buyer fails to comply with the request within the statutory deadline that it has been set, Hansgrohe is entitled to withdraw from the agreement. The statutory rights of Hansgrohe (especially in accordance with Section 321 BGB) remain unaffected.

VII. Title retention

1. Hansgrohe retains ownership of the delivered product until all claims resulting from the business relationship with the buyer at the time the agreement is concluded are settled including all claims from follow-up contracts, repeat orders or spare parts orders occurring at this time. If the value of all security rights to which Hansgrohe is entitled exceeds the value of all secured claims by more than 10%, Hansgrohe shall release a corresponding proportion of the security rights at the request of the buyer.
2. If the buyer acts in a way contrary to the contractual obligations, especially in the event of a default in payment, Hansgrohe is entitled to take back the reserved product. In the event that Hansgrohe takes back or seizes the reserved product, it is not possible to withdraw from the agreement unless Hansgrohe expressly confirms this in writing. Hansgrohe is authorised to sell the product and the sales proceeds must be taken into account for the liabilities of the buyer less utilisation costs accrued. The buyer is obligated to handle the reserved product with care and to store it separately from other products. It is also obligated to insure this product sufficiently at its own expense against damage resulting from fire, water, storm, robbery and theft at the new value. Any security claims that arise in the event of a loss are to be assigned to Hansgrohe. If maintenance and inspection work is required, the buyer must carry out this work on time and at its own expense.
3. The buyer may neither pledge the reserved product nor transfer it by way of security. In the event of seizures or other encroachments by third parties, the buyer must inform Hansgrohe immediately in writing and provide Hansgrohe with all information and documentation which are required for preserving the rights of Hansgrohe. Enforcement officers or third parties are to be informed of Hansgrohe's ownership. If a third party is unable to refund Hansgrohe the judicial and extra-judicial costs of third party proceedings, the buyer is liable to Hansgrohe for the loss incurred subject to the assertion of further claims due to damage, change or destruction to the item itself.
4. The buyer may sell and/or process the reserved product in the course of ordinary business operations provided that Hansgrohe does not assert any rights arising from the retention of title against the buyer. The buyer shall assign to Hansgrohe all claims up to the final invoice amount including value added tax which it has accrued from the resale to its customers or third parties irrespective of whether the item has been resold with or without further processing. Hansgrohe accepts the assignment. In the event of a current account relationship between the buyer and its customer, the claim assigned to Hansgrohe by the buyer in advance also applies to any acknowledged outstanding balance and, in the event of the customer becoming bankrupt, it applies to the „causal" balance which exists at the time. The buyer may even collect the receivables after the assignment. This does not affect the entitlement of Hansgrohe to collect the claim itself. Hansgrohe will not collect the claim itself if the buyer meets its payment obligations resulting from the proceeds collected, is not overdue with its payments and there is no application for opening insolvency proceedings.
5. The buyer is obligated to provide Hansgrohe with a precise list of claims to which it is entitled with the name and address of the customer, the amount of the individual claims, invoice data, etc., to give Hansgrohe all the information required for asserting the assigned claim, to allow this information to be assessed and to disclose the assignment to the customers.
6. The buyer now declares its consent that the persons commissioned with the task of collecting the reserved product may enter the property or the building where the reserved product is located on foot or in a vehicle in order to pick up said reserved product.
7. The buyer always processes or transforms the delivery item for Hansgrohe. If the item is processed with other objects that do not belong to Hansgrohe, Hansgrohe shall become co-owner of the new item in the ratio of the value of the delivered item to the other processed objects at the time of processing. The same rules shall apply to the item produced through processing as for the delivered item subject to retention of title. If the item is processed, mixed or combined in a way that the buyer's item is to be considered as the main item, it is considered as agreed that the buyer assigns proportional co-ownership to Hansgrohe. The buyer shall assign the sole ownership or co-ownership resulting therefrom to Hansgrohe.

VIII. Claims for defects – period of limitation

1. The statutory regulations shall apply for the rights of the buyer in the event of material defects and defects of title unless otherwise determined below. The special statutory regulations for final deliveries of products to a consumer shall remain unaffected (supplier recourse in accordance with Sections 478, 479 BGB); however the regulations in Point X shall apply for compensating damages in the event of supplier recourse.
2. The buyer may only make claims for defects if it duly meets the statutory inspection and complaint obligations.
3. If a delivery item is defective, the buyer has the following rights:
   a) Hansgrohe is obligated to rectify the fault and will do this at its own discretion by eliminating the defect through repair work or by delivering an item that is free from defects.
   b) If the rectification of defects is unsuccessful, the buyer is entitled to withdraw from the agreement or reduce the purchase price. A rescission shall be ruled out if the breach of duty on the part of Hansgrohe is only minor in nature. The buyer shall also be entitled to claim compensation or reimbursement of expenses incurred in vain in the event of defects solely in accordance with the provisions of Point X.
   c) Rectifying the fault involves neither enhancing the defective product nor incorporating a new or repaired product unless Hansgrohe was initially already obligated to incorporate a new or repaired product.
   d) Hansgrohe shall bear the expenses incurred for examining and rectifying the defect, especially labour and material costs (not: expansion and integration costs as well as costs for transporting the product to the place where the fault is to be rectified) if a defect has actually occurred. Hansgrohe may otherwise request compensation from the buyer for the costs (especially examination and transportation costs) resulting from the unjustified request to rectify a fault unless the lack of a defect was not evident to the buyer.
   e) The buyer must inform Hansgrohe of the time and facilities it requires for carrying out the repair work and replacement deliveries required by Hansgrohe. Hansgrohe is otherwise exempt from any liability for the resulting consequences. If the buyer requires the express deployment of a technician or for work to be carried out outside normal working hours for operational reasons which involve additional costs for Hansgrohe, it must bear the extra costs incurred as a result of this (e.g. overtime surcharges, travelling longer distances).
   f) A warranty is provided for replacements and improvements to the same extent as for the original delivery item, however with a time limit until the end of the warranty period of the original delivery item.
4. The buyer is solely responsible for damage resulting from natural wear and tear, inappropriate or improper use, incorrect assembly or commissioning by the buyer or third party, incorrect or negligent handling, excessive use, unsuitable operating equipment or chemical, electrochemical or electrical influences provided that Hansgrohe is not culpable for this.
5. Deviating from Section 438 para. 1 no. 3 BGB, the general period of limitation for claims resulting from material and legal defects (warranty period) is one year following delivery. After the warranty period has expired, claims for defects shall no longer apply. Separate statutory regulations governing limitation (especially Sections 438 para. 1 no. 1 and 2, para. 3, 444, 479 BGB) shall remain unaffected. Compensation claims in accordance with Point X. become statute-barred solely in accordance with statutory provisions.

IX. Returns

1. Products delivered by Hansgrohe are not taken back as a rule unless the buyer is entitled to compensation (e.g. due to rescission in the event of a failed subsequent delivery).
2. If Hansgrohe is prepared to make an exception and take the product back, an appropriate fee (usually 25% of the net product value) is charged for this as part of an appropriate agreement. The transport risk and transportation costs are borne by the buyer.

General Terms and Conditions

X. Liability for compensation

1. Hansgrohe is liable for compensation in accordance with the statutory provisions unless otherwise stated below. In the event of breaches of duty – regardless of the legal reason – Hansgrohe shall be responsible for intent and gross negligence. Hansgrohe is only liable in the event of simple negligence:
   a) for damages resulting from loss of life, physical injury or damage to health and
   b) for damages resulting from the substantial infringement of important contractual obligations (obligations which must be fulfilled before the contract is executed properly and which the contractual partner may, as a matter of routine, trust that they shall be met); the liability in this case is however restricted to compensation for the typically foreseeable damage.
2. The above limitations of liability also apply in favour of the employers, employees, representatives and assistants of Hansgrohe. Only the statutory regulations apply for claims in accordance with the German Product Liability Act.
3. Exclusions or limitations of liability do not apply in so far as Hansgrohe has failed to disclose a fault with fraudulent intent or has provided a guarantee for the condition of an item.

XI. Rescission of the purchase agreement

1. If the purchase agreement is rescinded (e.g. due to one of the contractual parties withdrawing), the buyer is obligated to return the delivery item to Hansgrohe in advance regardless of any other development in accordance with the following clauses. Hansgrohe is entitled to collect the delivery item from the buyer's premises.
2. Hansgrohe may also request a reasonable payment from the buyer for the deterioration or destruction of the delivered item or for the delivered item, which is the risk and responsibility of the buyer, not being returned.
   Hansgrohe may also request payment for the use of the delivered item if the value of the delivered item has reduced between the completion of its installation and its direct repossession in full by Hansgrohe. This decrease in value is calculated from the difference between the total price specified in the order and the present value as calculated from the sales proceeds or if a sale is not possible from the estimate of a sworn authorised expert.

XII. Assignment

The assignment of rights and / or the transfer of the buyer's obligations stated in the agreement are not permitted without the written approval of Hansgrohe. Section 354a of the Commercial Code (HGB) shall remain unaffected.

XIII. Export control regulations

1. The delivery items may be subject to the export control regulations of the Federal Republic of Germany, the European Union, the United States of America or other states.
2. If the delivered item is exported abroad at a later date, the buyer is responsible for complying with the statutory provisions.

XIV.Competent court and applicable law

1. The law of the Federal Republic of Germany shall apply to these general terms and conditions and the contractual relationship between the parties excluding international common law, especially UN Purchasing Law. The choice of law also applies to non-contractual obligations that are closely linked to this agreement. The scope and scale also determine the choice of law in accordance with statutory provisions.
2. Stuttgart (Germany) is agreed as the exclusive competent court for agreements with buyers who have their head office in a member state in the European Union. All disputes that cannot be mutually agreed upon arising from or relating to agreements with buyers who have their head office outside the European Union shall be settled finally in accordance with the arbitration regulations of the Deutsches Institution für Schiedsgerichtsbarkeit e.V. Bonn (DIS) with the exclusion of the normal legal process. The place of arbitration is Stuttgart, Germany. The procedural law of this place shall apply if the arbitration regulations do not contain any corresponding provisions. The arbitration proceedings are conducted in German. The court of arbitration may also decide on the validity of this arbitration agreement.
