

Stone on stone

Stone-look tiles are an adaptable, long-term solution when building or renovating a house.

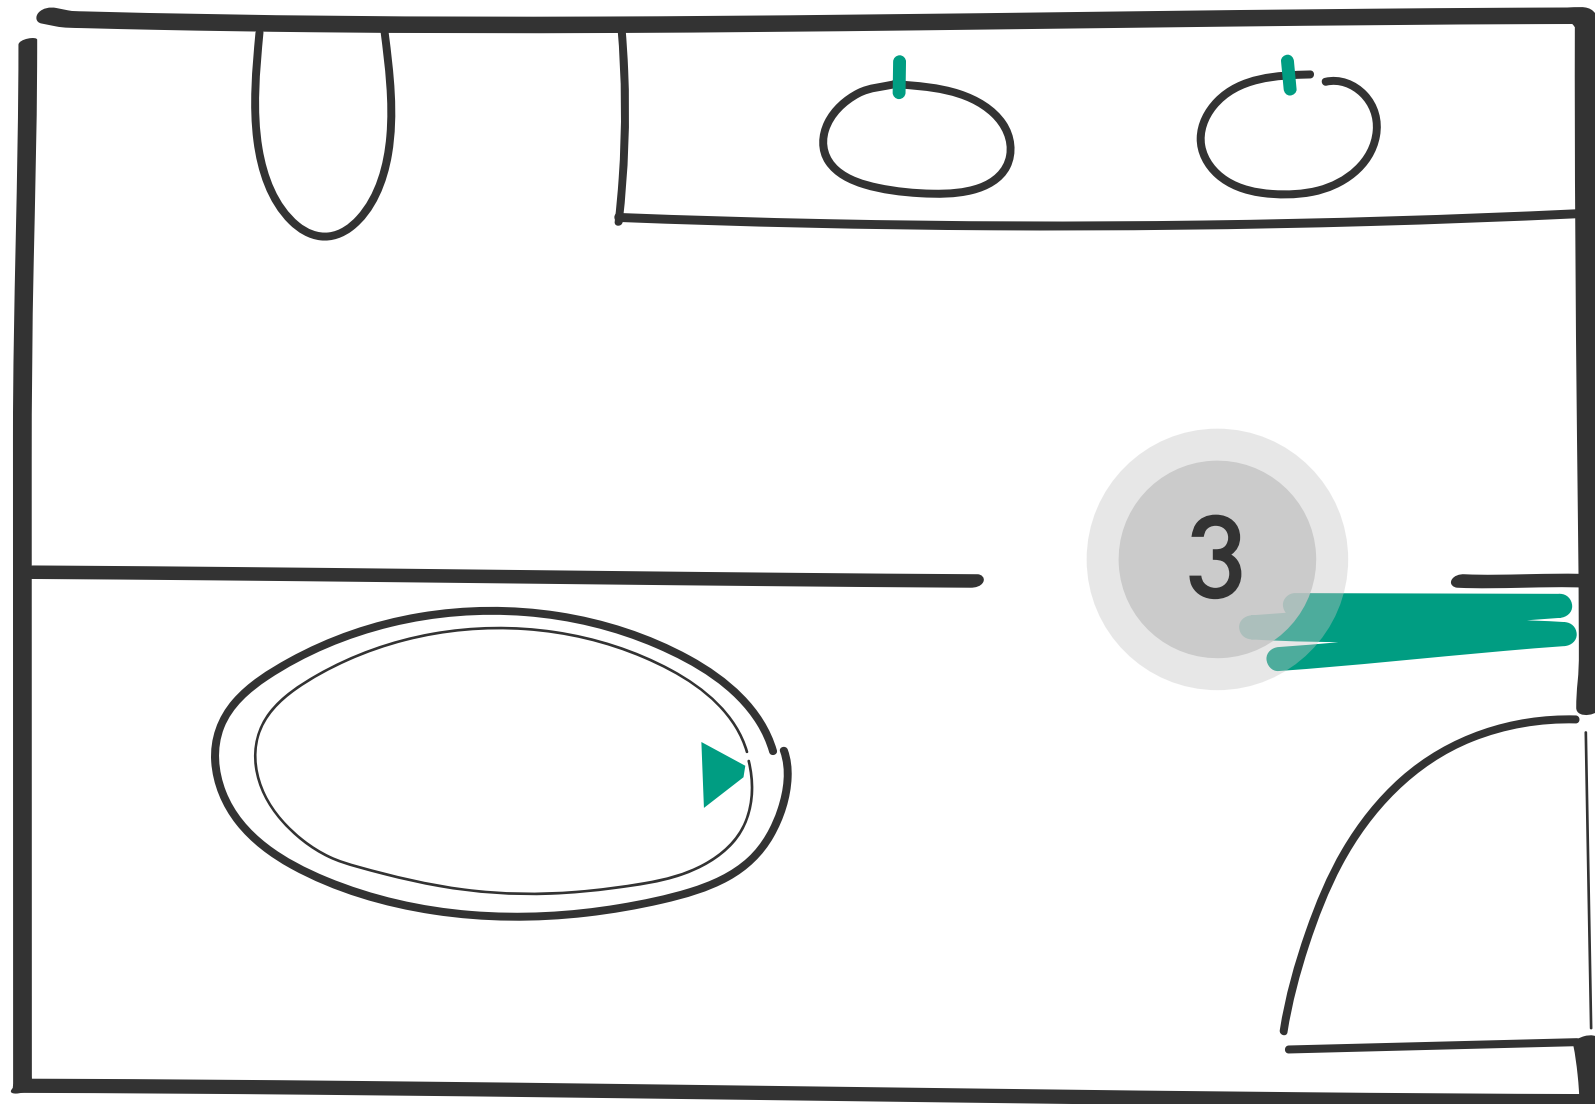

Crystal clear

Smooth, reflective surfaces like glass blend in perfectly with cool, industrial design – and avoid visually diminishing the space.

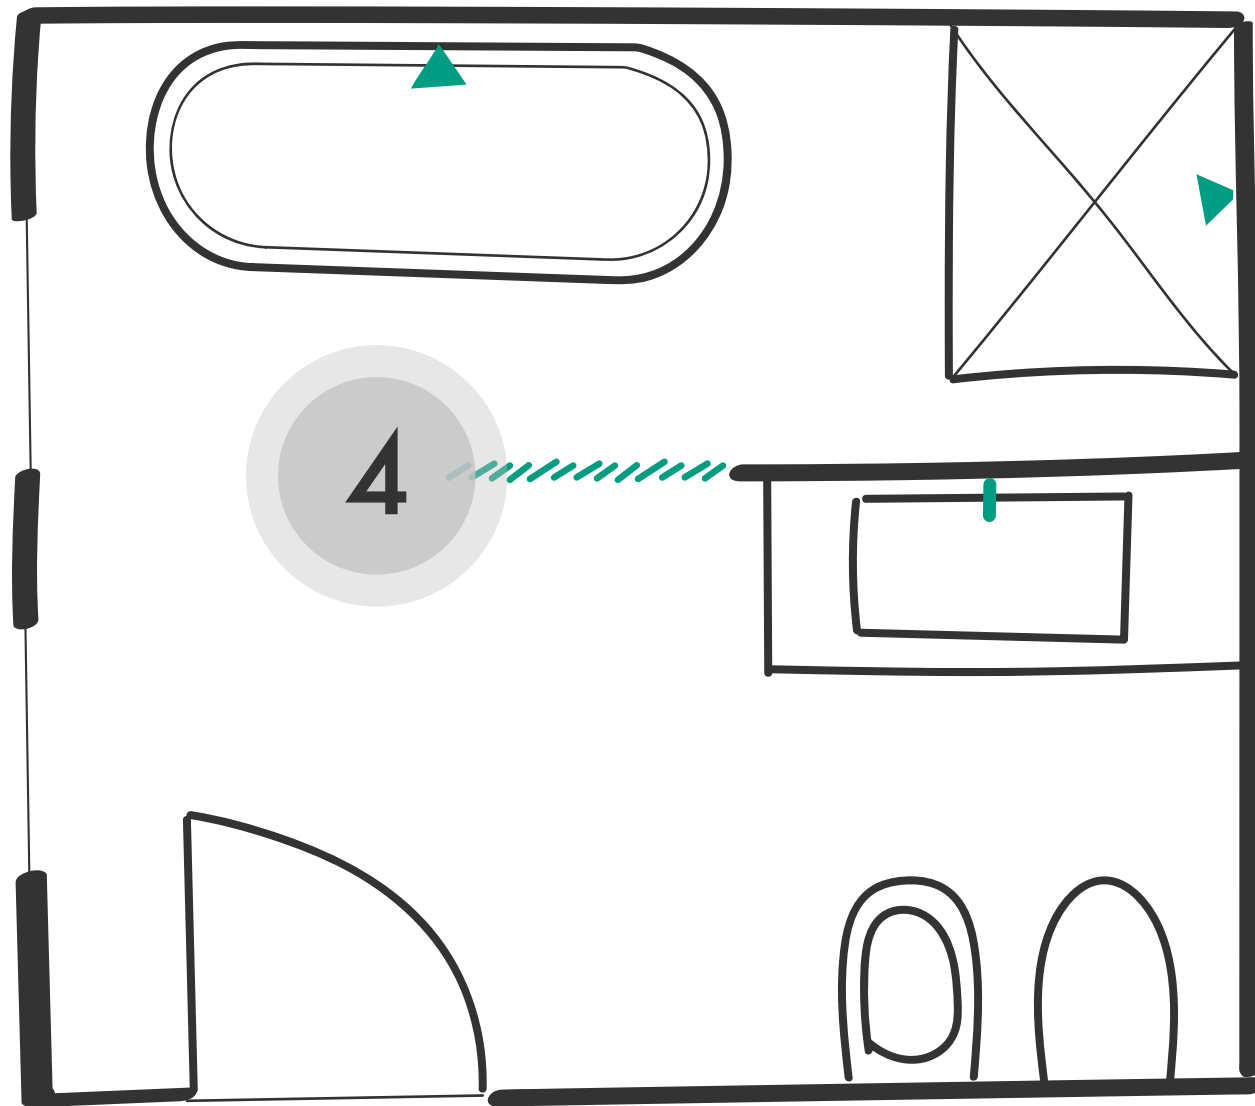

The stuff of dreams

Curtains made of water-repellent fabrics can be put to flexible use, adapting to different needs.

Natural love

Slatted look or whole tree trunks: a popular design for nature-oriented bathrooms, where greenery and bright colors create the framework.

Clever impostor

A ceiling-high shelf is another practical solution for more storage space in the bathroom.
